(d) Safe and suitable antimicrobial agent(s) may be added to the cheese during the make process or applied to the surface of cut, sliced, diced, and/or shredded forms.

(e) Nomenclature: The name of the food is "mozzarella cheese" or alternatively "scamorza cheese".

(f) Label declaration of ingredients: Each of the ingredients used in the food shall be declared on the label as required by applicable sections of Part 1 of this chapter.

4. In § 19.605 by deleting "optional" from the section heading, revising paragraphs (d) and (e), and adding new paragraph (f) to read as follows:

§ 19.605 Low moisture mozzarella cheese, low moisture scamorza cheese; identity; label statement of ingredients.

(d) Safe and suitable antimicrobial agent(s) may be added to the cheese during the make process or applied to the surface of cut, sliced, diced, and/or shredded forms.

(e) Nomenclature: The name of the food is "low moisture mozzarella cheese" or alternatively, "low moisture scamorza cheese".

(f) Label declaration of ingredients: Each of the ingredients used in the food shall be declared on the label as required by applicable sections of Part 1 of this chapter.

Interested persons may, on or before July 19, 1976, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate and identified with the Hearing Clerk docket number found in

brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: May 11, 1976.

HOWARD R. ROBERTS,  
Acting Director,  
Bureau of Foods.

#### DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[24 CFR Part 1917]

[Docket No. FI-1129]

#### APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW Proposed Flood Elevation Determinations for the City of Fairhope, Alabama

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)), hereby gives notice of his proposed determinations of flood elevations for the City of Fairhope, Alabama.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of Fairhope must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, Fairhope, Alabama 36532.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor James P. Nix, P.O. Drawer 429, Fairhope, Alabama 36532. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or ninety days from the publication of this notice in the FEDERAL REGISTER (August 18, 1976), whichever is the later.

The proposed 100-year Flood Elevations are:

[ 24 CFR Part 1917 ]  
[Docket No. FI-1128]  
**APPEALS FROM FLOOD ELEVATION  
DETERMINATION AND JUDICIAL REVIEW**  
**Proposed Flood Elevation Determinations  
for the City of Fort Walton Beach, Florida**

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the City of Fort Walton Beach, Florida.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance

Program, the City of Fort Walton Beach must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, Fort Walton Beach, Florida 32548.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor H. Gene Smith, P.O. Box 1449, Fort Walton Beach, Florida 32548. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or ninety days from the publication of this notice in the FEDERAL REGISTER (August 18, 1976), whichever is the later.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)
Santa Rosa Sound.....	Robinwood Dr.....	7	Street section between points 460 ft and 900 ft south of intersection with Hollywood Blvd.
Choctawhatchee Bay..	Ferry Rd.....	8	Street section between points 450 ft west and 280 ft east of the intersection with Hughes St., respectively.
	Bay Dr.....	8	Entire street south of the point 80 ft north of the intersection with Brooks St.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 28, 1976.

## PROPOSED RULES

## [24 CFR Part 1917]

[Docket No. FI-1120]

# APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW Proposed Flood Elevation Determinations for the City of Granite Falls, Minnesota

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)), hereby gives notice of his proposed determinations of flood elevations for the City of Granite Falls, Minnesota.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of Granite Falls

must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, 885 Prentice Street, Granite Falls, Minnesota 56241.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Barbara Carlson, City Hall, 885 Prentice Street, Granite Falls, Minnesota. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or ninety days from the publication of this notice in the FEDERAL REGISTER (August 18, 1976), whichever is the later.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Minnesota River	Burlington R.R.	915	175	270
	Washington St. (extended)	897	50	60
Overflow Channel	13th St.	800	(1)	150
	9th St.	859	330 from corporate limits.	

<sup>1</sup> To corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 28, 1976.

J. ROBERT HUNTER,  
Acting Federal Insurance  
Administrator.

#### APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

##### Proposed Flood Elevation Determinations for the Borough of Haddonfield, New Jersey

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)), hereby gives notice of his proposed determinations of flood elevations for the Borough of Haddonfield, New Jersey.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Borough of Haddonfield must adopt flood plain management

measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailing outlines of the flood-prone areas and the proposed flood elevations are available for review at Borough Hall, 242 Kings Highway East, Haddonfield, New Jersey 08033.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor William W. Reynolds, Jr., 242 Kings Highway East, Haddonfield, New Jersey 08033. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or ninety days from the publication of this notice in the *FEDERAL REGISTER* (August 18, 1976), whichever is the later.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)
Cooper River	Evans Mills Rd.	29	Right
	Elms St.	21	Left

<sup>1</sup> Approximate distance from corporate limits to boundary.  
<sup>2</sup> Outside corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

[Docket No. FI-1112]

APPEALS FROM FLOOD ELEVATION  
DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations  
for the Town of Emerald Isle, North Carolina

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)), hereby gives notice of his proposed determinations of flood elevations for the Town of Emerald Isle, North Carolina.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Town of Emerald Isle

must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Town Hall, Route 1, Morehead City, North Carolina 28557.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Ronnie Watson, Town Hall, Route 1, Morehead City, North Carolina 28557. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or ninety days from the publication of this notice in the FEDERAL REGISTER (August 18, 1976), whichever is the later.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Atlantic Ocean - Beque Inlet	Inlet Dr.	11	Entire street from point 80 ft north of Station St.	
	Inlet Dr.	10	From 80 ft north of Station St. to 60 ft north of Ring St.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended;

## PROPOSED RULES

20703

42 U.S.C. 4001-4123; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 28, 1976.

HOWARD B. CLARK,  
Acting Federal Insurance  
Administrator.

[FR Doc.76-14520 Filed 5-19-76; 8:45 am]

DEPARTMENT OF  
TRANSPORTATION

## Federal Aviation Administration

## [14 CFR Part 39]

[Airworthiness Docket No. 76-SW-31]

## BELL MODEL 206L HELICOPTER

Airworthiness Directives; Notice of  
Proposed Rule Making

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Bell Model 206L helicopters.

The proposed directive would require modification of the fuel system to relieve excessive fuel pressure encountered after normal engine shutdown. This pressure, due to thermal expansion of the fuel, has caused failure of the fuel system components and fuel leakage into the engine compartment. Subsequent flight with this condition existing would result in fuel leakage and possibly an engine area fire or loss of engine power due to inadequate fuel supply. Since this condition is likely to exist or develop in other helicopters of the same design, this proposed airworthiness directive would require modification of the fuel system in the Bell Model 206L helicopter to install a special fuel shutoff valve which incorporates a thermal expansion pressure relief feature.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or comments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before June 22, 1976, will be considered by the Director before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the office of the Regional Counsel for examination by interested persons.

(Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

BELL. Applies to Model 206L helicopter, Serial Numbers 45006 through 45020, with fuel valve Part Number 206-063-840-1 installed, certificated in all categories.

Compliance required within the next 100 hours time in service after the effective date of this AD, unless already accomplished.

To prevent failure of fuel system components due to excessive pressure from thermal expansion of the fuel after engine shutdown, remove fuel shutoff valve P/N 206-063-840-1 and replace it with fuel shutoff valve P/N 206-063-840-3.

Bell Helicopter Textron Service Bulletin No. 206L-76-2 pertains to this subject and provides approved instructions for this replacement activity.

Issued in Fort Worth, Texas, on May 4, 1976.

HENRY L. NEWMANN,  
Director Southwest Region.

[FR Doc.76-14670 Filed 5-19-76; 8:45 am]

## [14 CFR Part 39]

[Docket No. 76-NE-18]

## PRATT &amp; WHITNEY JT9D MODEL ENGINES

Airworthiness Directive; Notice of  
Proposed Rulemaking

Amendment 39-2109 (40 FR 8544), AD 75-05-16, as amended by Amendment 39-2137 (40 FR 12773), requires a measurement of the No. 3 Compartment breather tube temperature on Pratt and Whitney Aircraft JT9D -3A, -7, -7H, -7A, -7AH, -7F and -20 turbofan engines. After issuing Amendment 39-2137, due to service experience, the agency determined that an engine successfully checked per the existing AD can experience a No. 3 bearing compartment fire prior to the next required breather temperature measurement.

Therefore, the agency is considering superseding Amendment 31-2109, as amended, with a new AD that would require a repetitive No. 3 bearing temperature measurement, with the intervals dependent on the temperature margin. In addition, the AD would require the replacement of the present steel breather elbow P/N 708237 with a magnesium elbow P/N 613265 to improve the capability of promptly detecting compartment fires.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, the New England Region, Attention: Regional Counsel, Airworthiness Rules Docket, 12 New England Executive Park, Burlington, Massachusetts 01803.

All communications received on or before June 21, 1976, will be considered before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received.

All comments will be available, both before and after the closing date for comments, in the Office of the Regional Counsel for examination by interested persons.

(Sec. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations, by adding the following new airworthiness directive:

PRATT & WHITNEY AIRCRAFT. Applies to all Pratt & Whitney Models JT9D, -3A, -7, -7H, -7A, -7F and -20 turbofan engines.

1. To prevent possible engine fires due to excessive No. 3 bearing compartment labyrinth seal clearances, accomplish the following:

A. Measure the breather air temperature in accordance with Pratt & Whitney Bulletin No. 4391, dated February 19, 1975, or later FAA approved revision, whenever any of the following major engine sections have been or are removed or replaced:

1. Intermediate case.
2. Rear compressor rotor and stator assembly.
3. Rear compressor drive turbine rotor assembly due to: a. Turbine blade root fracture, b. Multiple turbine blade airfoil fracture, c. Failure that causes release of any other rotating part.
4. Front compressor drive turbine rotor assembly due to loss of complete blade.
5. Turbine exhaust case due to loose or missing tallicone.
6. Diffuser case.

B. Compare the measured breather air temperature with the limit defined by Pratt & Whitney, Curve 4391, dated February 14, 1975, and accomplish the following:

1. If the measured breather air temperature is above the limit, remove the engine from service prior to further flight.
2. If the measured breather air temperature is below the limit, accomplish a repetitive temperature check in accordance with the following schedule, or 100 hours after the effective date of this revision, whichever is later:

Temperature margin:	Inspection interval (in hours)
Less than 5° C	100
5° C but less than 10° C	300
10° C but less than 15° C	500
15° C but less than 20° C	700
20° C or greater	1,000

C. If the breather temperature margin as described above remains within the same temperature category for three consecutive checks, the repetitive inspection requirement of paragraphs 1 b.2. may be discontinued until the next time a major engine section, described by paragraph A, is removed or replaced.

II. To improve the capability of promptly detecting compartment fires, replace main bearing breather tube steel elbow P/N 708237 with magnesium elbow P/N 613265 in accordance with Pratt & Whitney Service Bulletin 4560, dated March 9, 1976, or later FAA approved revision, no later than December 31, 1976.

Upon request of the operator, an equivalent method of compliance with the requirements of this AD may be approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration.

tion Administration, New England Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a) (1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Pratt & Whitney Aircraft, Division of United Technologies Corporation, 400 Main Street, East Hartford, Connecticut 06108. These documents may also be examined at Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts, and at FAA Headquarters, 800 Independence Avenue, S.W., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at New England Region.

This supersedes Amendment 39-2109 (40 FR 8544), AD 75-05-16, as amended by Amendment 39-2137 (40 FR 12773).

Issued in Burlington, Massachusetts, on May 11, 1976.

NOTE.—The incorporation by reference provisions in this document was approved by the Director of the Federal Register June 19, 1967.

QUENTIN S. TAYLOR,  
Director, New England Region.

#### [14 CFR Part 71]

[Airspace Docket No. 76-GL-18]

#### ALTERATION OF TRANSITION AREA

**Proposed Change for Milwaukee, Wisconsin**  
The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Milwaukee, Wisconsin.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Illinois 60018. All communications received on or before June 21, 1976, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal

Aviation Administration, 2300 East Devon, Des Plaines, Illinois 60018.

A new instrument approach procedure has been developed for the Horlick-Racine Airport, Wisconsin.

The controlled airspace for the protection of Horlick-Racine procedures is contained in the description of the Milwaukee, Wisconsin transition area and will require a small change to protect this procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (41 FR 440), the following transition area is amended to read:

#### MILWAUKEE, WISCONSIN

That airspace extending upward from 700 feet above the surface within a 9-mile radius of General Mitchell Field (latitude 42°56'51" N., longitude 87°53'58" W.); within an 8-mile radius of the Horlick-Racine Airport (latitude 42°45'45" N., longitude 87°49'00" W.); within an 8-mile radius of the Timmerman Airport (latitude 43°06'40" N., longitude 88°02'00" W.); within a 6½-mile radius of the Waukesha County Airport (latitude 43°02'25" N., longitude 88°14'00" W.); and within 3 miles each side of the 274° bearing from the Waukesha County Airport extending from the 6½-mile radius area to 7½ miles west of the airport.

(Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Des Plaines, Illinois on April 27, 1976.

JOHN M. CYROCKI,  
Director, Great Lakes Region.

[FR Doc. 76-14601 Filed 5-19-76; 8:45 am]

#### [14 CFR Part 71]

[Airspace Docket No. 76-WE-13]

#### ALTERATION OF TRANSITION AREA

##### Proposed Change for Red Bluff, California

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Red Bluff, California Transition Area.

A new Standard Instrument Departure Procedure (SID) is being developed for the Redding Municipal Airport, Redding, California. Alteration of the transition area is necessary to provide controlled airspace for this procedure during the early phase of the climb.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before June 21, 1976, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any

data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public document will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261.

In consideration of the foregoing, the FAA proposes the following airspace action:<sup>1</sup>

In § 71.181 (41 F.R. 440) the description of the Red Bluff, California Transition Area is amended by inserting after the words "56 miles N. of the VORTAC," the following: " \* \* \* and that airspace NE AND E of Red Bluff within an arc of a 24-mile radius circle centered on the Red Bluff VORTAC, extending from the Red Bluff VORTAC 015° radial clockwise via the 24-mile arc to longitude 40°00'00" W."

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on May 10, 1976.

LYNN L. HINK,  
Acting Director,  
Western Region.

[FR Doc. 14602 Filed 5-19-76; 8:45 am]

#### [14 CFR Part 73]

[Airspace Docket No. 76-GL-14]

#### ALTERATION OF RESTRICTED AREA

##### Proposed Relocation Across Lake Michigan

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations that would relocate Restricted Area R-6905A and R-6905B across Lake Michigan.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Ill. 60018. All communications received on or before June 21, 1976 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, S.W., Washington, D.C. 20591. An informal docket also will be

<sup>1</sup> Map filed as part of the original document.

#### National Highway Traffic Safety Administration

[23 CFR Part 1204]

[Docket 76-2; Notice 2]

#### HIGHWAY SAFETY PROGRAM STANDARDS

##### Notice of Public Meetings

This notice announces that the National Highway Traffic Safety Administration (NHTSA) will hold public meetings to discuss a proposed revision of the highway safety program standards issued under the Highway Safety Act of 1966.

The highway safety program standards were originally promulgated in 1967. After the addition of two standards in 1972, the total number of standards stands at 18, of which 14 are administered wholly by NHTSA, 3 by the Federal Highway Administration (FHWA), and 1 jointly by the two agencies. The standards are codified as Part 1204.4 of Title 23, Code of Federal Regulations.

By advance notice of January 22, 1976 (41 FR 3315), NHTSA proposed to revise the standards it administers. To encourage full participation in the rulemaking process by all interested persons, NHTSA proposed in the advance notice to hold at least four public meetings to discuss the proposed revision. Five meetings are hereby scheduled as follows:

Tuesday, June 15, 1976—Washington, D.C., Federal Aviation Administration Auditorium, 600 Independence Ave., S.W.

Tuesday, June 22, 1976—San Francisco, California, Room 13450, Federal Building, 450 Golden Gate Ave.

Thursday, June 24, 1976—Denver, Colorado, Post Office Auditorium, 1823 Stout Street.

Tuesday, June 29, 1976—Atlanta, Georgia, Room 401, Georgia Dept. of Transportation Bldg., No. 2, Capitol Square.

Thursday, July 1, 1976—Kansas City, Missouri, Room 140, New Federal Office Building, 601 E. 12th Street.

The meetings will be held from 9:00 a.m. to 12:00 p.m. and from 1:30 p.m. to 4:00 p.m.

The meetings will be informal in nature and will be conducted by a senior NHTSA official representing the Associate Administrator, Traffic Safety Programs (TSP).

All interested persons are invited to attend the meetings and to present oral or written comments concerning the proposed revision of the NHTSA standards. Persons making oral statements are encouraged to submit their comments in written form either at the meeting or by mail.

The sequence of speakers at each meeting will be based on the order of registration. Persons who wish an opportunity to speak are requested to register in advance of the meeting by notifying NHTSA of the meeting date and city, and the approximate length of their presentation. Requests for advance registration are to be mailed to Docket No. 76-2, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590 or by calling Mr. Len Tabor at

(202) 426-9581. Further general information may also be obtained by calling this number.

The standards affected by the proposed revision are designated as follows:

#### Standard No.

1. Periodic motor vehicle inspection.
2. Motor vehicle registration.
3. Motorcycle safety.
4. Driver education.
5. Driver licensing.
6. Codes and laws.
7. Traffic courts.
8. Alcohol in relation to highway safety.
9. Traffic records.
10. Emergency medical services.
11. Pedestrian safety (pedestrian-related aspects).
12. Police traffic services.
13. Debris hazard control and cleanup.
14. Pupli transportation safety.
15. Accident investigation and reporting.

Persons who do not have access to the Code of Federal Regulations may obtain copies of the standards by writing to:

Mr. Charles Livingston, Director, Office of Driver and Pedestrian Programs, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590.

The standards as currently written require the States to implement specific countermeasures, such as classified drivers' licenses, periodic motor vehicle inspection, and implied consent legislation. Since the standards were issued, experience and research have increased the agency's knowledge and insight into traffic crash countermeasures and performance specifications. Consequently, the revision process is designed to accomplish the following purposes:

1. Elimination of conflicts, inconsistencies and duplication among the standards.
2. Incorporation into the standards of new techniques and countermeasures developed through research and empirical testing.
3. Increasing the performance orientation of the standards and their pertinence to crash reduction.
4. Improving the evaluation of the standards' effectiveness.

To further improve the standards, NHTSA is considering a new conceptual format. As pointed out in the January 22 notice, it appears that some standards are too narrow to deal with the specific and localized problems which a State may experience, and that the requirement to implement them across the board may not be appropriate in every instance.

NHTSA realizes that States need flexibility in their programming efforts and that the nature and magnitude of highway safety problems and programs vary between and within the States. There are, however, generally applicable national requirements which can successfully be applied in all States and lead to a uniformity and consistency of direction and purpose.

To accommodate the desire of the States for maximum flexibility in establishing the elements of their highway safety program, while also satisfying the

Congressional mandate for uniform standards, NHTSA is considering a new approach in revising the safety standards. The proposed standard format would be divided into two basic elements. The first element would consist of minimum performance requirements for all States, but would be considerably less comprehensive than previous highway safety program standards. The second element would consist of a second level of supplementary requirements. Each State would be required to enter into a highway safety program which includes second level activities based upon problems identified within that State. The specific activities carried out by a particular State would be determined cooperatively by the State and the NHTSA. In this way, a State could tailor a special program to most effectively meet the needs of highway safety in its own jurisdiction.

The concept of a bilevel standard is a new departure by the NHTSA, but is fully warranted by the growing sophistication of the States in analyzing and evaluating their highway safety problems and potential. Likewise, the role of the Federal Government as a resource upon whose expertise the States can draw rather than the architect of State and local programs is consistent with the concept of Federal State partnership and the principles of management by objectives.

(Pub. L. 89-564, 80 Stat. 731, 23 U.S.C. 401-406, as amended.)

#### [49 CFR Part 571]

[Docket No. 75-16; Notice 08]

#### FEDERAL MOTOR VEHICLE SAFETY STANDARDS

##### Proposed Bus Air Brake Systems

This notice responds to a petition for reconsideration of a recent amendment of Standard No. 121, Air Brake Systems, by proposing an extension from January 1, 1977, to September 1, 1977, of the existing suspension of service brake stopping distance requirements as they apply to buses.

Standard No. 121 (49 CFR 571.121) regulates the braking system performance of air-braked trucks, buses, and trailers. The standard has been in effect for trailers since January 1, 1975, and for trucks and buses since March 1, 1975. Following implementation of the requirements for buses, a pattern of erratic behavior developed in the performance of the antilock system used by manufacturers of transit and intercity buses to satisfy the "no lockup" requirements of the standard (§5.3.1). At an October 1975 public meeting the bus operators and manufacturers involved reviewed their experiences with implementation of the standard and expressed their

views on potential safety hazards of antilock malfunction. Based on these and other reports, the NHTSA proposed a suspension of the service brake stopping distance requirements (including the "no lockup" requirement) to provide a period in which modified antilock hardware and newly-introduced systems could be field-evaluated (40 FR 52856, November 13, 1975). The proposed suspension of 1 year until January 1, 1977, was made final January 6, 1976 (41 FR 1598, January 9, 1976). Several vehicle manufacturers and user groups had argued that the suspension should be for a longer period. Transportation Manufacturing Corporation (TMC), a manufacturer of intercity buses, petitioned for reconsideration of the January 1, 1977, termination date of the suspension. TMC did not indicate what it considered to be a reasonable time for suspension. Motor Coach Industries, Inc., another manufacturer of intercity buses, requested an extension of the suspension until at least July 1, 1977.

In establishing a 1-year suspension, the agency stated that it would actively monitor the field evaluation of improved antilock systems being undertaken by the bus manufacturers, and would further evaluate requests for a longer suspension. To date, the plans of Rockwell International Corporation, the major antilock component supplier for buses, and Motor Coach Industries have been reviewed. Requests for data are also being made to other manufacturers of buses and to General Motors as a potential supplier of antilock components to this portion of the industry. In addition, the American Public Transit Association (APTA) has indicated that it will undertake a program of systematic investigation of any antilock devices proposed for use on transit buses.

It has become apparent that insufficient opportunity is available between now and January 1, 1977, to generate and analyze adequate data to make a sound decision in time to permit orderly planning of bus production. The agency considers it desirable to have the experience of a full year of antilock operation in all environmental conditions, particularly in the winter season. Field testing of improved devices is now underway. Timely reporting by those conducting field evaluations should permit a decision by June 1, 1977, on the readiness of the new antilock systems for production and regular highway service. Based on a decision by that date, the NHTSA proposes that the service brake stopping distances be reinstated on September 1, 1977.

The NHTSA will make available in the docket the information on progress of the field evaluation that can be made public. It is likely that the itemized results of testing by individual manufacturers may be entitled to confidential treatment as proprietary information. To the degree possible, the results will be summarized in a fashion that permits their review by interested persons without disclosing the identity of the reporting company.

APTA proposed the formation of a joint government-industry panel to oversee the testing program and to evaluate antilock equipment for transit buses. The NHTSA considers APTA's proposal to be inconsistent with the requirements of the Administrative Procedures Act (5 U.S.C. § 553) and agency regulations, since the agency must consider all comments (e.g., those of other associations, consumer groups, manufacturers, individuals) in making its decision. However, the APTA comments are expected to be a major factor in any decision and the NHTSA intends to coordinate with the APTA in its study, consistent with NHTSA regulations.

The NHTSA has studied whether school buses should be included in the suspension beyond January 1, 1977. Little information has been developed that would demonstrate that the distinctive school bus stop-and-go cycle has resulted in the same "false signal" problems as those of transit operations. Also the competitive problem cited earlier as a reason to include school buses in the suspension would continue to exist between those school buses that utilize the transit type system and those that do not if only some school buses were included in the suspension. The agency concludes that it is prudent to maintain the suspension for an additional 9 months in school buses as well as transit and intercity buses.

General Motors Corporation (GM), in its comments on the initial suspension proposal, asked for consideration of an extension of the emergency braking stopping distance. Because of the unique configuration of the braking system designed for its new transit bus, GM will not be able to utilize the lower-coefficient linings that are usable by other transit buses to meet the recently-extended service brake stopping distances. The emergency braking performance of the new bus does comply with requirements in braking up to speeds of 45 mph, but not to the 60-mph requirements required of vehicles capable of that speed.

The maximum permissible stopping distance for emergency braking performance 60 mph is 613 feet. GM data indicate that this distance would have to be substantially extended to permit use of lower-coefficient linings without a modification of their braking system. The NHTSA concludes that it would not be in the public interest to extend the emergency stopping distance. The agency also has decided not to limit the emergency stop to 45 mph. Although that speed is rarely exceeded in transit operations, the standard already provides for limiting emergency performance to speeds of which the vehicle is capable. The existing requirement permits adequate opportunity for GM and others to utilize linings that perform well only at lower speeds by limiting the top speed of their vehicles. However, if operators desire vehicles which will be capable of higher speeds, they must be built to meet the requirements for those speeds. Accord-

ingly, the agency has determined not to act favorably on the GM request.

In accordance with recently-enunciated Department of Transportation policy encouraging adequate analysis of the costs and other consequences of regulatory actions (41 FR 16201, April 16, 1976), the NHTSA has evaluated the economic and other consequences of this proposal on the public and private sectors, including possible loss of safety benefits. In this case the extension of the suspension does not necessitate new expenditures for compliance with the standard. The manufacturers undertaking test programs indicate that these programs are being undertaken independently of the length of the suspension. The manufacturers of antilock systems whose markets would be most adversely affected by the suspension indicate their desire for a longer evaluation period. The safety consequences of the longer suspension have already been discussed. Therefore, the agency concludes that the proposal should be issued as set forth in this notice.

For the benefit of interested persons, it is noted that Dockets 74-10 and 75-5 involve rulemaking on air brake systems that is related to this proposal.

In consideration of the foregoing, it is proposed that section S5.3.1 of Standard No. 121 (49 CFR 571.121) be amended by changing the date of "January 1, 1977" to "September 1, 1977".

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: July 1, 1976.

Proposed effective date: Date of publication of the final rule in the FEDERAL REGISTER.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1394, 1407); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on May 13, 1976.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

#### WEST VIRGINIA

##### Proposed Revision to State Implementation Plan

On March 16, 1976, the State of West Virginia submitted to the Regional Administrator, EPA Region III, an amendment to West Virginia Air Pollution Control Regulation VIII, "Ambient Air Quality Standards for Sulfur Oxides and Particulate Matter". The State requested that the amendment be reviewed and processed as a revision to the West Virginia State Implementation Plan.

The amendment consists of a change to section 3.01(a), deleting the annual arithmetic mean and maximum 24 hour concentration for secondary sulfur dioxide standards. The State justified the amendment on grounds that the deletion conforms with EPA's deletion of the secondary annual and 24-hour sulfur dioxide standards from 40 CFR 50.5 (38 FR 25681).

On April 5, 1976 the State provided adequate proof that a public hearing required by the provisions set forth in 40 CFR 51.4 was held in Charleston on May 22, 1975.

The public is invited to submit comments on whether the amendments to West Virginia Air Pollution Control Regulation VIII should be approved as a revision to the West Virginia State Implementation Plan. Only those comments received on or before June 21, 1976, will be accepted. The Administrator's decision to approve or disapprove the proposed plan revision will be based on whether it meets the requirements of section 110(a)(2) of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation, Adoption and Submittal of Implementation Plans.

Copies of the proposed revision and all related supplemental material are available for public inspection during normal business hours at the following locations:

U.S. Environmental Protection Agency, Curtis Building, Second Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106, Attn: Mr. Harold Frankford.  
West Virginia Air Pollution Control Commission, 1558 Washington Street, East, Charleston, West Virginia 25311, Attn: Mr. Carl C. Beard II.  
Public Information Reference Unit, EPA Library, Room 2922, U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460.

All comments should be addressed to:

Mr. Howard Helm, Chief (3AH10), Air Programs Branch, Division of Air and Hazardous Materials, U.S. Environmental Protection Agency, Curtis Building, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106, Attn: AH004WV.

(42 U.S.C. 1857c-5.)

Dated: May 5, 1976.

A. R. MORRIS,  
Acting Regional Administrator.

#### EXPLOSIVES MANUFACTURING POINT SOURCE CATEGORY

##### Extension of Comment Period and Notice of Availability

On March 9, 1976 the Agency published a notice of proposed rulemaking (41 FR 10186) establishing limitations and guidelines and standards of performance for new sources and pretreatment standards for existing sources and for new sources for the explosives manufacturing category. The due date for comments provided in the notice was April 8, 1976.

The Agency anticipated that the document entitled "Development Document for Interim Final Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Explosives Manufacturing Point Source Category," which contains information on the analysis undertaken in support of the regulations, would be available to the public throughout the comment period. Production difficulties delayed the availability of this document. Copies of the document are now available and have been forwarded to those persons having submitted written request to the Environmental Protection Agency. A limited number of additional copies are available for distribution from the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

Accordingly, the date for submission of comments is hereby extended to June 21, 1976.

Dated: May 14, 1976.

JOHN T. RHETT,  
Acting Assistant Administrator  
for Water and Hazardous  
Materials.

#### FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20803, RM-2620]

##### TELEVISION BROADCAST STATIONS

##### Park Falls, Wisconsin; Table of Assignments

In the Matter of Amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Park Falls, Wisconsin).

1. The Commission by the Chief, Broadcast Bureau, has before it for consideration a petition for rule making filed by the Wisconsin Educational Communications Board ("ECB"). ECB seeks amendment of § 73.606(b) of the Rules, the Television Table of Assignments, through the assignment of reserved Channel 36 to Park Falls, Wisconsin.

2. This particular assignment is requested in order to provide educational television broadcast service in northern Wisconsin. Park Falls was selected, according to the petitioner, since a transmitter located near there would result in

the least amount of overlapping coverage with that of existing educational television stations and still furnish a large first educational service. Petitioner estimates approximately 133,000 Wisconsin residents will be within the service area of a station operating on the proposed assignment. Of these, 57% (75,000 persons) would receive a first educational television service. This is particularly important in the northern Wisconsin area to be served, petitioner states, since it is rural in nature and residents must travel great distances to enjoy cultural benefits.

3. ECB is the licensee of stations operating on reserved educational assignments at Colfax (WHWC-TV, Channel \*28), Green Bay (WPNE, Channel \*38), La Crosse (WHIA-TV, Channel \*31), and Wausau (WHRM-TV, Channel \*20). These four stations, in cooperation with educational stations at Madison (WHA-TV, Channel \*21), Milwaukee (WMVS, Channel \*10), and Duluth, Minnesota (WDSE-TV, Channel \*8) provide educational television broadcast service to the residents of Wisconsin. Petitioner estimates a station operating on the proposed assignment will, in combination with other ECB owned or affiliated stations, enable approximately 97% of the residents of Wisconsin to receive an educational television service.

4. The Commission believes comments should be solicited on the petitioner's request. The proposed assignment complies with the Commission's mileage separation requirements and other technical criteria. Canadian concurrence must be sought, however, since the proposed location is within 250 miles of the United States-Canadian border.

5. Therefore, in view of the foregoing showing, we propose to consider the following revision in the Television Table of Assignments (§ 73.606(b) of the Rules) with respect to the city listed below:

City	Channel No.	
	Present	Proposed
Park Falls, Wis.		*36--

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

7. Interested parties may file comments on or before June 25, 1976, and reply comments on or before July 15, 1976.

Adopted: May 11, 1976.

Released: May 17, 1976.

FEDERAL COMMUNICATIONS  
COMMISSION,  
WALLACE E. JOHNSON,  
Chief Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(2), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b) (6) of

the Commission's Rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making above.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

#### [ 47 CFR Part 73 ]

[Docket No. 20727, RM-2557]

#### TELEVISION BROADCAST STATIONS Riverside and Santa Ana, California; Table of Assignments; Extension of Comments Time

In the Matter of Amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Riverside and Santa Ana, California).

1. On April 6, 1976, the Commission issued an Order Extending Time for Filing Comments and Reply Comments to the Notice of Proposed Rule Making released February 26, 1976 (41 FR 9568), in the above-captioned matter. The present dates for filing comments and reply comments are May 17, 1976, and June 7, 1976, respectively.

2. On March 12, 1976, International Panorama TV, Inc., petitioner in this proceeding, filed a Petition for Reconsideration and Motion for Stay.<sup>1</sup> Due to certain procedural delays, reconsideration could not have been given until April 22, 1976 (since interested persons had until that date to file oppositions to the petition for reconsideration). Although no oppositions have been filed, another extension has become necessary to allow sufficient time for the Commission to address the petition. We believe that comments should not be filed in this proceeding until all interested parties have had the opportunity to review our decision on the petition for reconsideration, and therefore we will, on our own motion, extend the deadlines for filing comments.

3. Accordingly, it is ordered, That the dates for filing comments and reply comments are extended to and including June 21, 1976, and July 12, 1976, respectively.

4. Authority for this action is found in sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

Adopted: May 13, 1976.

Released: May 14, 1976.

FEDERAL COMMUNICATIONS  
COMMISSION,  
WALLACE E. JOHNSON,  
Chief,  
Broadcast Bureau.

#### GENERAL SERVICES ADMINISTRATION

Federal Supply Service

[ 41 CFR Part 101-7 ]

#### FEDERAL PROPERTY MANAGEMENT REGULATIONS

##### Proposed Federal Travel Regulations

Notice is hereby given that the General Services Administration (GSA) proposes to amend the Federal Travel Regulations

<sup>1</sup> The Motion for Stay was subsequently withdrawn.

and changes to those regulations which were issued as Federal Property Management Regulations (FPMR) Temporary Regulation A-11 and Supplement 1 thereto.

The Federal Travel Regulations are incorporated by reference into FPMR 101-7 (41 CFR 101-7) and transmitted by GSA Bulletin FPMR A-40. FPMR Temporary Regulation A-11, Changes to Federal Travel Regulations, and Supplement 1 thereto were published in the FEDERAL REGISTER on May 23, 1975 (40 FR 22617), and June 30, 1975 (40 FR 27533), respectively.

Heads of Federal agencies are invited to submit the consolidated written views and recommendations of their respective agencies to the General Services Administration (FF), Washington, DC 20406. Comments received by June 30, 1976, will be considered before final action is taken to convert the proposed changes to permanent regulations.

Pursuant to Executive Order 11609 (July 22, 1971) and under the authority of the Travel Expense Amendments Act of 1975 (Pub. L. 94-22, May 19, 1975), the Administrator of General Services is responsible for promulgating Government-wide regulations prescribing Federal employee travel and relocation allowances. Certain changes contained in this document are necessary to ensure conformance of those regulations with various decisions issued by the Comptroller General of the United States. Other changes are proposed as the result of administrative determinations by GSA which are based on current subsistence and other cost data and which reflect recommendations provided by various Federal agencies. Changes to the Federal Travel Regulations of general interest are those which:

a. Increase the per diem and the meals and miscellaneous expense allowances for official travel within the coterminous United States to \$35 and \$16, respectively.

b. Incorporate guidelines issued by the Comptroller General of the United States implementing the provisions of the International Air Transportation Fair Competitive Practices Act of 1974 which require maximum use of United States flag air carriers for air transportation of persons and property financed by the Government.

c. Extend application of the lodgings-plus method of computing per diem allowances to travel outside the coterminous United States and establish new procedures for determining per diem for en route travel outside the United States.

d. Establish procedures through which agencies may obtain authority from GSA to pay higher mileage rates for use of privately-owned conveyances for official travel in particular areas outside the coterminous United States.

e. Increase the maximum actual subsistence expense rates for certain designated high rate geographical areas; require limited reimbursement for travel to high rate areas when lodging is not involved; specify circumstances of travel to

high rate areas for which reimbursement under the high rate concept is not authorized; and clarify provisions for mixed travel.

f. Modify relocation allowances by, among other things, increasing the miscellaneous expense allowance and maximum weight allowance for shipment of household goods for an employee without immediate family, expanding the definition of "immediate family" for which travel expenses are paid by Government and deleting the maximum dollar limitation for reimbursement of expenses incurred in the sale or purchase of a residence.

In consonance with the foregoing, it is proposed to amend the Federal Travel Regulations, as follows:

1. By adding subparagraph 1-2.2e, as follows:

1-2.2. *Methods of transportation.*

e. *Travel by ocean vessel.* Except for travel between points served by ferries, travel by ocean vessel shall not be regarded as advantageous to the Government in the absence of sufficient justification that the advantages accruing from the use of ocean transportation offset the higher costs associated with this method of transportation; i.e., per diem, transportation, and lost work time. Authority to authorize or approve travel by ocean vessel shall be retained at the highest administrative level consistent with agency travel management policy. (See 1-3.3c for authorized vessel accommodations.)

2. By revising paragraph 1-3.6 and changing its caption, as follows:

1-3.6. *Use of United States flag carriers.*

a. *Travel by United States flag ships.* Section 901 of the Merchant Marine Act of 1936 (46 U.S.C. 1241(a)) provides: "Any officer or employee of the United States traveling on official business overseas or to or from any of the possessions of the United States shall travel and transport his personal effects on ships registered under the laws of the United States where such ships are available unless the necessity of his mission requires the use of a ship under a foreign flag: *Provided*, That the Comptroller General of the United States shall not credit any allowance for travel or shipping expenses incurred on a foreign ship in the absence of satisfactory proof of the necessity thereof."

b. *Use of United States flag air carriers.*

(1) *Definition.* The term "U.S. flag air carrier" as used in this regulation means an air carrier holding certificate under section 401 of the Federal Aviation Act of 1958 (49 U.S.C. 1371), but excludes foreign air carriers operating under permits.

(2) *General requirements.*

(a) Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (Pub. L. 93-623, January 3, 1975) requires any executive department or other agency or instrumentality of the United States which finances transportation of persons (and their per-

sonal effects) or property by air between the United States and a place outside thereof, or between two places both of which are outside of the United States, to take such steps as may be necessary to ensure that only U.S. flag air carriers are used whenever service by these carriers is available.

(b) The act cited in (a), above, also requires the Comptroller General of the United States to disallow any expenditures from appropriated funds for payment of travel on foreign flag air carriers in the absence of satisfactory proof of the necessity therefor.

(c) Employees shall use U.S. flag air carriers to the maximum extent possible when travel is performed by commercial air transportation between the United States and a foreign country or between foreign countries. This requirement also applies to other persons such as employee dependents, consultants, contractors, grantees, or other travelers whose travel is paid from funds appropriated, owned, controlled, granted, or otherwise established for the account of the United States. The requirement to use U.S. flag air carriers to the maximum extent possible shall not be influenced by factors of cost, convenience, or personal travel preference of the traveler. Excess and near excess foreign currencies will be used for paying the expenses of such travel as provided in 1-10.4.

(3) *Guidelines for determining "available" service.* The Comptroller General of the United States has issued specific guidelines to the heads of departments, agencies, and others concerned (B-138942, March 12, 1976). The guidelines specifically state that passenger or freight service by a certificated air carrier is considered "available" even though:

(a) Comparable or a different kind of service by a noncertificated air carrier costs less;

(b) Service by a noncertificated air carrier can be paid for in excess foreign currency;

(c) Service by a noncertificated air carrier is preferred by the agency or traveler needing air transportation; or

(d) Service by a noncertificated air carrier is more convenient for the agency or traveler needing air transportation.

(4) *Guidelines for determining "unavailable" service.* The guidelines cited in (3), above, further state that passenger service by a certificated air carrier is considered "unavailable" when:

(a) The traveler, while en route, would have to wait 6 hours or more to transfer to a certificated air carrier to proceed to the intended destination;

(b) Any flight by a certificated air carrier is interrupted by a stop anticipated to be 6 hours or more for refueling, re-loading, repairs, or other cause, and no other flight by a certificated air carrier is available during the 6 hour period;

(c) Service by a certificated air carrier, or by combination of certificated or non-certificated air carriers (if certificated air carriers are "unavailable"), would take 12 or more hours longer, from the

origin airport to the destination airport, to accomplish the agency's mission than would service by a noncertificated air carrier or carriers; or

(d) The elapsed travel time on a scheduled flight from the origin airport to the destination airport by noncertificated air carrier(s) is 3 hours or less, and service by certificated air carrier(s) would involve twice that scheduled travel time.

c. *Use of foreign flag air carriers.* The use of foreign flag air carriers may be authorized or approved only when U.S. flag air carrier service is not available (as determined under the guidelines in b. above). When direct service by U.S. flag air carriers is not available between the origin and destination, a foreign flag air carrier may be used to the nearest practicable interchange point to connect with "available" U.S. flag air carrier service, provided the interchange point is consistent with scheduled connections and authorized stopovers and the additional travel thereto will not unduly interfere with the conduct of official business. A statement justifying the use of a foreign flag air carrier must be entered on or attached to the travel authorization or travel voucher. Expenditures for transportation on a foreign flag air carrier will be disallowed in the absence of a justification statement.

3. By revising subparagraph 1-4.2a and changing its caption, and adding subparagraph 1-4.2a-1, as follows:

1-4.2. *When use of a privately owned conveyance is advantageous to the Government.*

a. *Authorized mileage rates.* When the use of a privately owned conveyance is authorized or approved as advantageous to the Government for the performance of official travel as provided in 1-2.2c(3), reimbursement to the traveler shall be at the mileage rates prescribed in (1) through (3), below.

(1) For use of a privately owned motorcycle: 8 cents per mile.

(2) For use of a privately owned automobile: 15 cents per mile.

(3) For use of a privately owned airplane: 22 cents per mile.

a-1. *Mileage rates outside the conterminous United States.* Generally, the mileage rates prescribed in a, above, are applicable outside as well as within the conterminous United States. However, if an agency determines that these rates are inadequate compensation for use of a privately owned conveyance in a particular area outside the conterminous United States, the head of the agency may submit a request to GSA for authority to pay a higher mileage rate for that area. This request must be submitted in accordance with the procedures and limitations set forth below.

(1) *Submission requirements.* A request to pay a higher mileage rate for a particular area shall be forwarded to the General Services Administration (FZR), Washington, DC 20408, for review and approval. The request must include a recommended mileage rate not exceeding the statutory maximum rates in (3), below, and supporting cost data justification as described in (2), below.

(2) *Cost data justification.* An analysis of the costs per mile of operating a privately owned conveyance in the particular area involved shall include the data listed below. Additional cost data which are peculiar to the area may be added, if appropriate. However, parking and toll costs shall not be included in this analysis since these expenses are reimbursable as a separate allowance in accordance with 1-4.1c.

(a) Size/type of conveyance to which cost data apply.

(b) Fixed operating costs: vehicle depreciation, insurance, taxes, and registration fees.

(c) Variable operating costs: gasoline, motor oil, maintenance, repairs, and tires.

(3) *Statutory maximum mileage rates.* A higher mileage rate recommended by an agency must be within the following statutory maximum rates:

(a) For use of a privately owned motorcycle: 11 cents per mile.

(b) For use of a privately owned automobile: 20 cents per mile.

(c) For use of a privately owned airplane: 24 cents per mile.

4. By revising paragraphs 1-7.1 through 1-7.4 and changing the captions, as follows:

1-7.1. *General.* Per diem allowances as prescribed in this Part 7 shall be paid for official travel except when it is determined that the employee should be reimbursed on the actual subsistence expense basis as provided in Part 8 of this chapter.

a. *Definitions.*

(1) *Per diem.* Per diem is a commuted daily allowance paid to the employee instead of reimbursement of the actual expenses incurred for subsistence and fees or tips to porters, stewards, and others which are necessary and essential to the transacting of official business.

(2) *Per diem locality.* A per diem locality is any locality or geographic area for which a maximum per diem rate has been established in 1-7.2a (e.g., the conterminous United States; Anchorage, Alaska; Paris, France).

(3) *Travel status.* Travel status means the period of time an employee is considered to be on official travel for reimbursement purposes, beginning with departure from home, office, or other point and ending with return thereto. (See 1-7.6e.)

b. *Agency responsibilities.* The specific rules contained in 1-7.3 and 1-7.4 for computing per diem allowances shall be applied for official travel within and outside the conterminous United States. However, it is the responsibility of the head of each agency to authorize or approve only those per diem allowances that are justified by the circumstances affecting the travel and that are allowable under the provisions of this Part 7. Care shall be exercised to prevent authorization or approval of per diem allowances in excess of those required to cover the subsistence expenses necessary in the performance of travel to conduct official business. To this end, considera-

tion shall be given to factors which reduce the expenses of the employee, such as:

(1) Known arrangements at temporary duty locations where lodging and meals can be obtained without cost or at reduced cost to the traveler;

(2) Established cost experience in the localities where lodging and meals are required; or

(3) Situations in which special rates for accommodations have been made available for a particular meeting, conference, training assignment, or other temporary duty assignment.

c. *Employee responsibility.* An employee traveling on official business is expected to exercise the same care in incurring expenses that a prudent person would exercise if traveling on personal business.

d. *Types of expenses covered by per diem.* The per diem allowance covers all expenses, including taxes and service charges where applicable, for the following:

(1) Meals;

(2) Lodging (The term "lodging" does not include accommodations on airplanes, trains, or vessels; such accommodations are considered to be furnished by the Government and are included in the transportation cost. However, in determining the overall cost to the Government when authorizing the mode of transportation to be used, the availability of such accommodations shall be considered (1-2.2b).);

(3) Personal use of room during day-time;

(4) Baths, fans, air conditioners, heaters, and fires in rooms;

(5) Fees and tips to waiters, porters, baggagemen, bellboys, hotel maids, dining room stewards and others on vessels, and hotel servants in foreign countries;

(6) Telegrams and telephone calls to reserve lodging accommodations (See Part 6 of this chapter for allowable telegram and telephone expenses incurred for other purposes.);

(7) Laundry, cleaning, and pressing of clothing; and

(8) Transportation between places of lodging or business and places where meals are taken, except as otherwise provided in 1-2.3b.

1-7.2. *Maximum rates.*

a. *Maximum per diem locality rates.* Per diem allowances for official travel shall be authorized or approved as provided in this Part 7 at daily rates not in excess of the maximums established as follows:

(1) *Conterminous United States.* The per diem allowance for official travel within the conterminous United States shall not exceed a maximum daily rate of \$35.

(2) *Non-foreign areas outside the conterminous United States.* The per diem allowances payable for official travel in the States of Alaska and Hawaii, the Commonwealth of Puerto Rico, the Canal Zone, and the possessions of the United States shall not exceed the maximum daily locality rates established by the Secretary of Defense and published in Civilian Personnel Per Diem Bulletins.

(3) *Foreign areas.* Per diem allowances payable for official travel in foreign areas shall not exceed the maximum daily locality rates established by the Secretary of State and published in the Per Diem Supplement to the Standardized Regulations (Government Civilians, Foreign Areas). Foreign areas include the Trust Territory of the Pacific Islands and all other areas or localities outside the conterminous United States not listed in (2), above.

b. *Rates for meals and miscellaneous subsistence expenses (M&MS).*

(1) *Conterminous United States.* For travel on a per diem basis within the conterminous United States, the uniform rate for M&MS shall be \$16 per day.

(2) *Outside conterminous United States.* For travel on a per diem basis outside the conterminous United States, the uniform rate for M&MS shall be 50 percent of the maximum per diem rate authorized under 1-7.2a (2) and (3), above, for the per diem locality involved.

1-7.3. *Per diem computation, receipts, and voucher statements.* Except as otherwise provided in 1-7.4, the per diem allowances authorized or approved under the provisions of this Part 7 for official travel within and outside the conterminous United States shall be computed as set forth in a through g, below. Provisions concerning receipts and required per diem claim statements are contained in h, below.

a. *When lodging is not required.* For official travel of 24 hours or less within the same per diem locality (i.e., in the conterminous United States or within one per diem locality outside the conterminous United States) when a night's lodging is not required, the per diem rate shall be the M&MS rate (see 1-7.2b) applicable to the per diem locality in which the travel is performed. This rate shall be payable in accordance with 1-7.6d(1).

b. *When lodging is required.* For official travel exceeding 1 calendar day within and outside the conterminous United States when lodging away from the official station is required, the per diem allowance shall be computed under the lodgings-plus rules set forth in c, below, except when this method of computation is not appropriate as provided in d, below. Lodging is considered to be required while in a travel status away from the official station regardless of whether lodging is actually obtained or used, or a lodging cost is actually incurred. Per diem computed under the lodgings-plus method is based on the average cost of lodging plus a pre-established uniform rate for meals and miscellaneous subsistence expenses (M&MS) in each per diem locality.

c. *Lodgings-plus computation rules.*

(1) *Travel within the conterminous United States.* The per diem allowances that may be authorized or approved for official travel within the conterminous United States shall be computed under the lodgings-plus method, as follows:

(a) *Determine the average cost of lodging.*

(i) Total the lodging costs incurred within each per diem locality outside the conterminous United States. When a night's lodging within a per diem locality is not used, is furnished by the Government or other source, or is otherwise obtained without cost to the employee (i.e., lodging obtained as a guest of friends or relatives), the lodging cost for that night

shall be zero. If all lodging within a per diem locality is without cost to the employee, proceed in the computation to (b), below.

(ii) Total the number of nights (as of 12 p.m. (midnight)) that the employee was within each per diem locality and lodging was required regardless of whether a lodging cost was incurred for that night. Do not count nights (as of 12 p.m. (midnight)) of en route travel except when the employee, having arrived in a per diem locality during the first or second quarter of a calendar day, obtains lodging which is charged to the previous calendar day. In this instance, the night of en route travel will be counted.

(iii) Divide the total cost of lodging (as determined in (i), above) by the total number of nights (as determined in (ii), above) that the employee was within each per diem locality. The result is the average daily cost of lodging within each per diem locality involved.

(b) *Add the M&MS rate.* To the average cost of lodging within each per diem locality, add the M&MS rate authorized in 1-7.2b(2) for each per diem locality involved. If the resulting amount includes a fraction of a dollar, round the entire amount to the next highest whole dollar; i.e., round \$30.01 through \$30.99 to \$31. (Do not round any resulting amount which is a whole dollar.)

(c) *Applicable per diem rate.* The final amount computed under (b), above, limited to the maximum per diem rate authorized in 1-7.2a(1) for travel within the conterminous United States, shall be the per diem rate applicable for the entire period of travel covered by the travel voucher.

(2) *Travel outside the conterminous United States.* The per diem allowances that may be authorized or approved for official travel involving per diem localities outside the conterminous United States shall be computed under the lodgings-plus method, as follows:

(a) *Determine the average cost of lodging.*

(i) Total the lodging costs incurred within each per diem locality outside the conterminous United States. When a night's lodging within a per diem locality is not used, is furnished by the Government or other source, or is otherwise obtained without cost to the employee (i.e., lodging obtained as a guest of friends or relatives), the lodging cost for that night

shall be zero. If all lodging within a per diem locality is without cost to the employee, proceed in the computation to (b), below.

(ii) Total the number of nights (as of 12 p.m. (midnight)) that the employee was within each per diem locality and lodging was required regardless of whether a lodging cost was incurred for that night. Do not count nights (as of 12 p.m. (midnight)) of en route travel except when the employee, having arrived in a per diem locality during the first or second quarter of a calendar day, obtains lodging which is charged to the previous calendar day. In this instance, the night of en route travel will be counted.

(iii) Divide the total cost of lodging (as determined in (i), above) by the total number of nights (as determined in (ii), above) that the employee was within each per diem locality. The result is the average daily cost of lodging within each per diem locality involved.

(b) *Add the M&MS rate.* To the average cost of lodging within each per diem locality, add the M&MS rate authorized in 1-7.2b(2) for each per diem locality involved. If the resulting amount includes a fraction of a dollar, round the entire amount to the next highest whole dollar; i.e., round \$30.01 through \$30.99 to \$31. (Do not round any resulting amount which is a whole dollar.)

(c) *Applicable per diem rate.* The final amount computed under (b), above, limited to the maximum per diem rate authorized in 1-7.2a(1) for travel within the conterminous United States, shall be the per diem rate applicable for the entire period of travel covered by the travel voucher.

ered by the travel voucher. When a night's lodging is not used (i.e., when en route by air), is furnished by the Government or other source, or is otherwise obtained without cost to the employee (i.e., lodging is obtained as a guest of friends or relatives, sleeping accommodations on trains, etc.), the lodging cost for that night shall be zero. If all lodging is without cost to the employee, proceed in the computation to (b), below.

(ii) Total the number of nights the employee was in a travel status away from the official station or home as of 12 p.m. (midnight), including those nights that lodging was without cost to the employee. Computation of the number of nights shall include all nights the employee was in a travel status as of 12 p.m. (midnight) provided per diem is allowed for the next quarter day following midnight. For example, if the employee's time of return to official station or home was at or before 12 p.m. (midnight), that night would not be counted. If the time of return was 3 a.m., the previous midnight would be counted as a night away from home or official station. However, when the time of return was between 12:01 a.m. and 12:30 a.m., the previous midnight may or may not be counted contingent upon whether per diem is allowed for that quarter day as provided in 1-7.6e.

(iii) Divide the total cost of lodging (as determined in (i), above) by the total number of nights the employee is away from home or official station (as determined in (ii), above). The resulting amount is the average daily cost of lodging.

(b) *Add the M&MS rate.* To the average daily cost of lodging as determined in (a), above, add the M&MS rate authorized in 1-7.2b(1) for per diem travel within the conterminous United States. If the resulting amount includes a fraction of a dollar, round the entire amount to the next highest whole dollar; i.e., round \$29.01 through \$29.99 to \$30. (Do not round any resulting amount that is a whole dollar.)

(c) *Applicable per diem rate.* The final amount computed under (b), above, limited to the maximum per diem rate authorized in 1-7.2a(1) for travel within the conterminous United States, shall be the per diem rate applicable for the entire period of travel covered by the travel voucher.

(2) *Travel outside the conterminous United States.* The per diem allowances that may be authorized or approved for official travel involving per diem localities outside the conterminous United States shall be computed under the lodgings-plus method, as follows:

(a) *Determine the average cost of lodging.*

(i) Total the lodging costs incurred within each per diem locality outside the conterminous United States. When a night's lodging within a per diem locality is not used, is furnished by the Government or other source, or is otherwise obtained without cost to the employee (i.e., lodging obtained as a guest of friends or relatives), the lodging cost for that night

shall be zero. If all lodging within a per diem locality is without cost to the employee, proceed in the computation to (b), below.

(ii) Total the number of nights (as of 12 p.m. (midnight)) that the employee was within each per diem locality and lodging was required regardless of whether a lodging cost was incurred for that night. Do not count nights (as of 12 p.m. (midnight)) of en route travel except when the employee, having arrived in a per diem locality during the first or second quarter of a calendar day, obtains lodging which is charged to the previous calendar day. In this instance, the night of en route travel will be counted.

(iii) Divide the total cost of lodging (as determined in (i), above) by the total number of nights (as determined in (ii), above) that the employee was within each per diem locality. The result is the average daily cost of lodging within each per diem locality involved.

(b) *Add the M&MS rate.* To the average cost of lodging within each per diem locality, add the M&MS rate authorized in 1-7.2b(2) for each per diem locality involved. If the resulting amount includes a fraction of a dollar, round the entire amount to the next highest whole dollar; i.e., round \$30.01 through \$30.99 to \$31. (Do not round any resulting amount which is a whole dollar.)

(c) *Applicable per diem rate.* The final amount computed under (b), above, limited to the maximum per diem rate authorized in 1-7.2a(1) for travel within the conterminous United States, shall be the per diem rate applicable for the entire period of travel covered by the travel voucher.

(2) *Travel outside the conterminous United States.* The per diem allowances that may be authorized or approved for official travel involving per diem localities outside the conterminous United States shall be computed under the lodgings-plus method, as follows:

(a) *Determine the average cost of lodging.*

(i) Total the lodging costs incurred within each per diem locality outside the conterminous United States. When a night's lodging within a per diem locality is not used, is furnished by the Government or other source, or is otherwise obtained without cost to the employee (i.e., lodging obtained as a guest of friends or relatives), the lodging cost for that night

shall be zero. If all lodging within a per diem locality is without cost to the employee, proceed in the computation to (b), below.

(ii) Total the number of nights (as of 12 p.m. (midnight)) that the employee was within each per diem locality and lodging was required regardless of whether a lodging cost was incurred for that night. Do not count nights (as of 12 p.m. (midnight)) of en route travel except when the employee, having arrived in a per diem locality during the first or second quarter of a calendar day, obtains lodging which is charged to the previous calendar day. In this instance, the night of en route travel will be counted.

(iii) Divide the total cost of lodging (as determined in (i), above) by the total number of nights (as determined in (ii), above) that the employee was within each per diem locality. The result is the average daily cost of lodging within each per diem locality involved.

(b) *Add the M&MS rate.* To the average cost of lodging within each per diem locality, add the M&MS rate authorized in 1-7.2b(2) for each per diem locality involved. If the resulting amount includes a fraction of a dollar, round the entire amount to the next highest whole dollar; i.e., round \$30.01 through \$30.99 to \$31. (Do not round any resulting amount which is a whole dollar.)

(c) *Applicable per diem rate.* The final amount computed under (b), above, limited to the maximum per diem rate authorized in 1-7.2a(1) for travel within the conterminous United States, shall be the per diem rate applicable for the entire period of travel covered by the travel voucher.

recreational vehicle (e.g., a camper, a camping trailer, or a self-propelled mobile camping vehicle) for lodging while on official travel. Allowable expenses which may be considered as a lodging cost include, but are not limited to the following: parking fees; fees for connection, use, and disconnection of utilities (electricity, gas, water, and sewage); bath or shower fees; and dumping fees. When per diem is computed under the lodgings-plus method, the average of these daily lodging costs plus the M&MS rate authorized for the per diem locality involved shall be the applicable per diem rate.

f. *Per diem for extended stays.* For travel assignments involving extended periods of temporary duty or training in excess of 30 calendar days and when travelers are able to secure lodging and meals at lower costs because of the extended period of time, the per diem rate shall be adjusted downward to reflect the lower cost. In such instances of reduced per diem, agencies should prescribe a specific per diem rate in accordance with d, above.

g. *Per diem for meetings and conferences.* In the interest of uniform treatment of employees, whenever a meeting, conference, or similar assembly is arranged which will involve the travel of attendees from other agencies or components of the same agency, the agency or agencies sponsoring the meeting or conference shall recommend to the other participating agencies or components a per diem allowance that would be appropriate in view of the circumstances of the particular meeting or conference.

h. *Receipts and voucher statements.* Receipts for lodging costs may or may not be required at the discretion of the head of each agency. However, employees are required to enter the following on their travel vouchers:

(1) The total cost of lodging incurred in each per diem locality; and

(2) A statement that the per diem claimed is based on the average daily cost of lodging incurred within each per diem locality during the period covered by the travel voucher plus the applicable M&MS rate for the locality involved, unless the lodgings-plus method has been determined to be inappropriate as provided in d, above. (This requirement is met if such a statement is overprinted or stamped on the travel voucher.)

1-7.4. *Travel involving duty points outside the conterminous United States.* The provisions of this paragraph apply to official travel to, from, or between duty points outside the conterminous United States, including authorized stopovers.

a. *Definitions.*

(1) *Duty point.* The term "duty point" means an official station, as defined in 1-1.3c(1), a temporary duty station, or other point within or outside the conterminous United States where official travel is authorized to begin or end.

(2) *Stopover.* The term "stopover" means an interval of time spent for any authorized purpose in a per diem locality between periods of en route travel. No distinction is made with respect to the

reason for an authorized stopover; e.g., official business at a temporary duty station, rest stop, or delay due to carrier scheduling.

b. *Round trip travel within one calendar day.* When an employee travels to or from a duty point outside the conterminous United States, or between duty points outside the conterminous United States, and returns within the same calendar day, the maximum per diem that may be authorized or approved for the entire trip is the M&MS rate (see 1-7.2b) for the locality in which the temporary duty point is located. This rate shall be payable in accordance with 1-7.6d(1). If the travel involves more than one per diem locality because of multiple temporary duty points, the maximum per diem is the average of the M&MS rates for all localities involved.

c. *Calendar days when lodging is required and obtained.* For calendar days when lodging is required and obtained in a particular per diem locality with or without cost to the employee, the per diem rate shall be computed under the lodgings-plus method in 1-7.3c (1) or (2), as applicable.

d. *Calendar days of en route travel, including stopovers, when a lodging cost is not incurred.* For calendar days when lodging is required away from official station, but a lodging cost is not incurred due to en route travel, per diem rates shall be as prescribed below. These rates shall be prorated and payable in accordance with 1-7.6d(2).

(1) *En route travel by other than ocean vessel.* For periods of enroute travel, including stopovers of less than 6 hours, by all modes of transportation except ocean vessel, the per diem rate shall be \$12 per calendar day (\$3 per quarter day). This rate is applicable during periods of en route travel on the following calendar days which involve no lodging cost to the employee:

(a) The first day of travel prior to the day of arrival at a duty point or other stopover point where lodging is required.

(b) The last day(s) of travel returning to official station or home when a lodging cost is not incurred because of enroute travel or lodging is not required because of arrival at official station or home.

(c) Days, other than those in (a) and (b), above, involving en route travel to, from, or between temporary duty points or other authorized stopover points where a lodging cost is not incurred due to en route travel.

(2) *En route travel by commercial and Government ocean vessel.*

(a) For en route travel by commercial ocean vessel or ferry when the cost of passage includes the cost of meals and stateroom or berth, the per diem rate shall be \$6 per whole calendar day aboard the vessel. This rate shall be prorated fractional days preceding embarkation for fractional days aboard the vessel. For and following debarkation, the per diem rate shall be as provided in (1), above, for en route travel or (4), below, for stopovers, as applicable. If lodging is obtained at a temporary duty or stopover

point on the day of debarkation, the per diem rate for that day shall be computed under the lodgings-plus method in 1-7.3c, as applicable.

(b) For en route travel or duty aboard Government vessels where quarters and meals are normally furnished at no cost or at a reduced cost, agencies shall prescribe an appropriate and necessary per diem rate. The term "Government vessel" includes vessels owned and operated, leased and operated, or characterized by the Government.

(3) *En route travel per diem not adequate.* When the rates prescribed in (1) and (2), above, are not commensurate with an employee's subsistence expenses, a different rate may be authorized or approved as follows:

(a) For travel by other than ocean vessel, an amount not in excess of the M&MS rate applicable to the destination duty point.

(b) For travel by commercial ocean vessel or ferry, an amount not in excess of \$16.

(4) *Stopovers.*

(a) *Stopovers of less than 6 hours.* Stopovers of less than 6 hours are considered to be part of the enroute travel period between duty points. The per diem rate applicable to en route travel time shall also apply to the stopover time.

(b) *Stopovers of 6 hours or more.* Stopovers of 6 hours or more are considered to be interruptions of the en route travel period between duty points. When lodging is not required at a stopover point, the per diem rate for the stopover time shall be the M&MS rate for the per diem locality in which the stopover point is located. (When lodging is required at the stopover point, the per diem rate shall be computed under the lodgings-plus computation rules in 1-7.3c.)

(5) *Time preceding en route travel.* For calendar day periods of 6 hours or more at a temporary duty or stopover point preceding en route travel, the per diem rate shall be the M&MS rate applicable to the temporary duty point or other authorized stopover point from which the employee will depart.

e. *Rest stops.* A rest period not in excess of 24 hours may be authorized or approved when air travel involving at least one duty point outside the conterminous United States is by less than first class accommodations and the scheduled flight exceeds 14 hours, including stopovers of less than 8 hours, via a direct or usually traveled route. The rest stop may be at any intermediate point, including points in the 50 States and the District of Columbia, provided the point is midway in the journey or as near to midway as carrier scheduling permits. A rest stop shall not be authorized when an employee, for personal convenience, elects to travel by an indirect route which results in travel time in excess of 14 hours. The per diem for the rest stop period shall be as provided for stopovers in 1-7.4d(4), above, as applicable. When carrier schedules preclude an intermediate rest stop, or a rest stop is not authorized, it is recommended that the employee be scheduled to arrive

at the temporary duty point with sufficient time to allow a reasonable rest period before reporting for duty.

5. By revising subparagraph 1-7.5c and deleting and reserving subparagraph 1-7.5e, as follows:

1-7.5. *Interruptions of per diem entitlement.*

• • • • •

c. *Return to official station for non-workdays.* At the discretion of an agency's administrative officials, an employee may be required to return to his official station for nonworkdays. In case of an employee's voluntary return to his official station or place of abode (place from which he commutes daily to his official station), the maximum reimbursement for the round-trip transportation and per diem en route shall be limited to the maximum per diem which could have been allowed under 1-7.2a if the employee had remained at the temporary duty station.

• • • • •

e. [Reserved]

6. By deleting and reserving subparagraph 1-7.6b and revising subparagraph 1-7.6f, as follows:

1-7.6. *Per diem computation rules.*

• • • • •

b. [Reserved]

• • • • •

f. *Deduction for meals and/or lodging furnished.* An appropriate amount shall be deducted from the authorized per diem for meals and/or lodging furnished at a temporary duty station by a Federal agency without charge or at a nominal cost. An appropriate deduction shall also be made for meals consumed aboard a common carrier during travel wholly within the conterminous United States when such meals are furnished by the carrier and the cost of the meals is included as part of the transportation cost to the Government.

7. By revising subparagraph 1-8.1b and changing its caption, as follows:

1-8.1. *Authorization or approval.*

• • • • •

b. *Temporary duty within high rate geographical areas.* Actual subsistence expense reimbursement shall be authorized or approved for travel whenever a temporary duty assignment is within a location designated as a high rate geographical area in 1-8.6, except as provided in (1) through (3), below.

NOTE.—The provisions of 1-8.1b pertaining to reimbursement under the high rate geographical area concept are not applicable to travel allowances in connection with a permanent change of station, including travel to seek residence quarters, or to other relocation allowances authorized under Chapter 2 of this regulation, including subsistence while occupying temporary quarters.

(1) Actual subsistence expense reimbursement shall not be authorized when the high rate geographical area is only an en route or intermediate stopover point at which no temporary duty is performed, including stopovers in the conterminous United States in connection with international travel.

(2) When the temporary duty assignment in a high rate geographical area also involves unusual circumstances of a travel assignment, the head of an agency may authorize or approve actual subsistence expense reimbursement as provided in c, below, within the maximum daily rate in 1-8.2a(2).

(3) The head of an agency may authorize, on an individual case or individual trip basis, a per diem allowance in accordance with Part 7 instead of actual subsistence expense reimbursement for temporary duty assignments within a high rate geographical area. Agencies are cautioned that this authority may be exercised only on an exception basis and only when clearly justified in accordance with the provisions of (a) and (b), below.

(a) A determination must be made in advance of the travel that certain factors or circumstances are present which would reduce the employee's subsistence expenses and that the actual subsistence expense allowance for the designated high rate geographical area would clearly not be warranted. Consideration shall be given to the following factors which would normally result in reduced subsistence expenses:

(i) Known arrangements at temporary duty locations where lodging or meals, or both, are furnished by the Government (i.e., Government quarters) without cost or at a nominal cost to the employee;

(ii) Accommodations have been made available to the employee at special or reduced rates for a particular meeting, conference, training assignment, or other temporary duty assignment; or

(iii) The travel involves an extended temporary duty or training assignment at a location where the employee can obtain lodging and meals at a lower cost due to the extended period of time.

(b) The agency official designated under the delegation of authority in paragraph 1-8.3a(1) must review each individual travel assignment to determine that one or more of the factors in (a), above, are present which would reduce the employee's subsistence expenses to an amount adequately covered by the maximum per diem allowance (see 1-7.2a), and must authorize the travel to be performed on a per diem basis under the provisions of Part 7 instead of the actual subsistence expense basis in a high rate geographical area.

8. By revising subparagraphs 1-8.2a (1) and 1-8.2c, as follows:

1-8.2. *Authorized reimbursement.*

a. • • • • •

(1) For travel involving temporary duty assignments within designated high rate geographical areas under the provisions of 1-8.1b, authorized reimbursement for actual subsistence expenses shall not exceed the maximum rates established in 1-8.6. These rates are not subject to change by agencies. (However, see 1-8.1b(2) for provisions covering unusual circumstances.)

• • • • •

c. *Special rules for mixed travel (per diem and actual subsistence expense or more than one actual subsistence expense maximum).* Mixed travel is travel involving temporary duty assignments in more than one location during a single trip which requires reimbursement on both a per diem basis and an actual subsistence expense basis or which requires actual subsistence expense reimbursement subject to more than one maximum daily rate because of the location of each temporary duty assignment.

(1) *Method and rate of reimbursement determined by location of the temporary duty point.* Only one method of reimbursement (per diem or actual subsistence expense) or one maximum daily rate for actual subsistence expense reimbursement may be authorized or approved for travel within each calendar day (beginning at 12:01 a.m.). The method of reimbursement and the authorized maximum rate for each calendar day shall be determined by the location of the temporary duty point (or assignment) where lodging is required for that day. Generally, lodging is considered to be required at or within the temporary duty point location. However, when lodging is obtained in an adjacent or nearby area, the method or rate of reimbursement will not be affected since the temporary duty point location is the determining factor. (Example: Temporary duty was performed in New York City on Monday, New York City and Washington, DC on Tuesday, and Fredericksburg, Virginia, on Wednesday and Thursday. Lodging was obtained in New York City on Monday, Washington, DC on Tuesday, and Fredericksburg on Wednesday and Thursday. Reimbursement would be on actual subsistence expense subject to the New York City maximum rate on Monday, actual subsistence expense subject to the Washington, DC maximum rate on Tuesday, and per diem (lodgings-plus) in Fredericksburg on Wednesday and Thursday. If the employee had proceeded to and obtained lodging in Fredericksburg on Tuesday evening in order to be present for duty the next day, reimbursement would be on per diem for Tuesday, Wednesday, and Thursday.)

(2) *Reimbursement for day of return.* The method and rate of reimbursement for the day of return to home or official station shall be the same method and rate of reimbursement authorized or approved for the first day of travel. (For example, if actual subsistence expense reimbursement is authorized or approved for the first day of travel, reimbursement for the day of return to home or official station shall also be on an actual subsistence expense basis subject to the maximum rate applicable to the first day of travel. If per diem is authorized or approved for the first day of travel, the day of return to home or official station shall also be on a per diem basis.)

9. By revising subparagraph 1-8.3a, as follows:

1-8.3. *Agency responsibilities, review, and administrative controls.*

a. *Delegation of authority.* Heads of agencies may delegate, with provisions for limited redelegation, authority to authorize or approve travel under this Part 8 as follows:

(1) The delegation or redelegation of authority to authorize or approve travel on an actual subsistence expense basis due to unusual circumstances of the travel assignment or to authorize a per diem allowance for travel in a designated high rate geographical area under the provisions of 1-8.1b(3) shall be held to as high an administrative level as practicable to ensure adequate consideration and review of the circumstances involved in the travel assignment.

(2) The delegation or redelegation of authority to authorize or approve the actual subsistence expense method of reimbursement for travel to a designated high rate geographical area should be at a lower administrative level than that stated in (1), above, since this method of reimbursement is automatically authorized under the provisions of 1-8.1b without further justification.

10. By revising subparagraph 1-8.4f, as follows:

1-8.4. *Interruption of subsistence status.*

1. *Return to official station for non-workdays.* At the discretion of an agency's administrative officials, an employee may be required to return to his official station for nonworkdays. In case of an employee's voluntary return to his official station or place of abode (place from which he commutes daily to his official station), the maximum reimbursement for the round-trip transportation and allowable actual subsistence expenses en route shall be limited to the maximum amount for actual subsistence expenses which could have been allowed under 1-8.2 if the employee had remained at the temporary duty station.

11. By revising paragraph 1-8.6 as follows:

1-8.6. *Designated high rate geographical areas.* Pursuant to the provisions of 1-8.1b and 1-8.2a(1), for travel in connection with a temporary duty assignment within the locations designated as high rate geographical areas below, an employee shall be placed in an actual subsistence expense status and shall be reimbursed for the allowable actual and necessary subsistence expenses incurred not to exceed the maximum rates prescribed below for the particular geographical areas involved. When lodging is not required or a lodging cost is not incurred, the employee shall be reimbursed for the actual cost of meals and allowable miscellaneous subsistence expenses not to exceed 45 percent of the maximum daily rate prescribed for the high rate area involved.

Designated high rate geographical areas: Prescribed maximum daily rates

Boston, Mass. (all locations within the corporate limits of Boston and Cambridge, Mass.) \$41  
Chicago, Ill. (all locations within the limits thereof) 43  
Los Angeles, Calif. (all locations within the outer boundaries of the corporate limits of the city of Los Angeles, including those areas surrounded by the city of Los Angeles and the Pacific coastline) 40  
New York, N.Y. (all locations within the boroughs of the Bronx, Brooklyn, Manhattan, Queens, and Staten Island) 50  
San Francisco, Calif. (all locations within the corporate limits of San Francisco and Oakland, Calif.) 41  
Washington, D.C. (all locations within the corporate limits of Washington, D.C.; the cities of Alexandria, Falls Church, and Fairfax; and the counties of Arlington, Loudoun, and Fairfax in Virginia; and the counties of Montgomery and Prince Georges in Maryland) 44

12. By adding subparagraph 1-9.1b-1 and deleting and reserving subparagraph 1-9.1c(3), as follows:

1-9.1. *Expenses allowable.*

b. . . .  
b-1. *Traveler's checks, money orders, or certified checks.* Reimbursement for cost of traveler's checks, money orders, or certified checks with a value of \$100 or more purchased in connection with official travel may be allowed. The amount of the checks may not exceed the amount of personal or other funds needed to cover the reimbursable expenses incurred.

c. . . .  
(3) [Reserved]

13. By revising subparagraphs 1-10.2a(2) and 1-10.2b, as follows:

1-10.2. *Common carrier transportation.*

a. . . .  
(2) *Use of transportation request forms.* Transportation requests are to be used only for official travel performed via common carrier or for officially authorized transportation services furnished by common carrier; i.e., air, bus, rail, or vessel. When an indirect route or accommodations superior to those authorized are used by the traveler for personal reasons, the traveler shall pay cash for the excess amounts, including the applicable share of the Federal transportation tax (see 1-2.5b). Additionally, transportation requests shall not be used to procure any transportation services costing less than \$10 unless special circumstances justify such use (Comp. Gen. Decision B-163758, July 24, 1972).

b. *Cash payment for transportation.*

Cash payments shall be made when the amount for transportation is less than \$10 unless special circumstances preclude the use of cash. Agencies may require a traveler to use cash to procure passenger transportation services within the United States (50 States and the District of Columbia) when the amount involved is from \$10 to \$100, plus Federal transportation tax, for each trip (one-way or round-trip) authorized on the official travel authorization. (See Comp. Gen. Decision B-163758, July 24, 1972, and GSA Bulletin FPMR A-38, December 11, 1972, for implementing guidelines on optional cash procedures.) Receipts, passenger coupons, or other evidence as appropriate shall be required for such cash payments, except that receipts are not required for use of local transit systems. Travel agencies may not be used under these cash procedures except as provided in 1-3.4b(2). (See 1-10.3a and 1-11.5c(3).)

14. By revising subparagraph 1-10.3c(3), as follows:

1-10.3. *Advance of funds.*

c. . . .

(3) *Other means of recovery.* Outstanding advances which have not been recovered by deductions from reimbursement vouchers or voluntary refunds by the traveler shall be recovered promptly by a setoff of salary due or retirement credit or otherwise from the person to whom it was advanced, or his estate, by deduction from any amount due from the United States, or by any other legal method of recovery that may be necessary. Salary or other amounts due shall be considered ahead of the retirement credit. In view of these protections, which are specifically included in the law, travelers shall not be required to furnish bonds in order to obtain travel advances (Pub. L. 92-310, June 6, 1972; 31 U.S.C. 1201(a)).

15. By revising subparagraph 1-11.5c(3), as follows:

1-11.5. *Preparation of voucher.*

c. . . .

(3) *Cash payment for common carrier fare.* A traveler paying cash for any authorized reimbursable transportation service shall account for those expenses on an authorized travel voucher form, and shall support his claim for the passenger transportation charges with receipts, pertinent passenger coupons, or other evidence, as appropriate. The traveler who has procured these services with cash (whether using personal funds or a travel advance) shall assign to the Government his right to recover any excess payment involving a carrier's use of improper rates by including a statement on the travel voucher which provides as follows: "I hereby assign to the United

States any rights I may have against other parties in connection with any reimbursable charges for passenger transportation services described herein."

16. By revising subparagraph 1-11.6b(1), as follows:

1-11.6. *Administrative approvals.*

b. . . .  
(1) *Use of foreign flag air carriers* (1-3.6c).

17. By revising subparagraph 2-1.4d, as follows:

2-1.4. *Definitions.*

d. *Immediate family.* Any of the following named members of the employee's household at the time he reports for duty at his new permanent duty station or performs authorized or approved overseas tour renewal agreement travel or separation travel: Spouse; dependent parents, grandparents, and stepparents of the employee or employee's spouse; and dependent brothers and sisters, and dependent children of the employee or employee's spouse who are unmarried and under 21 years of age or, regardless of age, are incapable for self-support. The term dependent children includes natural offspring, stepchildren, grandchildren, adopted children, and children under legal guardianship.

18. By revising subparagraph 2-1.5f(1)(c) and adding subparagraph 2-1.5g(5-a), as follows:

2-1.5. *Eligibility and conditions.*

f. . . .  
(1) . . .

(c) *Special statutory provisions.* Appointments under any law in effect on August 25, 1960 (effective date of Pub. L. 86-587 pertaining to manpower shortage category appointees), which authorized payment of travel and transportation expenses of appointees by the Government, are not affected by the provisions herein. The limitations of the act involved and the regulations issued thereunder, but not these regulations, are applicable to such cases.

g. . . .  
(5) . . .

(5-a) *Return of former spouse and dependents.* The provisions of (5), above, are also applicable to the spouse and dependents of an employee who have traveled to the employee's overseas post of duty as dependents (as provided in 2-1.4d) at Government expense, even if, because of divorce or annulment, such individuals will have ceased to be dependents as of the date the employee becomes eligible for return travel. Travel of such former dependents is authorized by the employee's next entitlement to return travel but not beyond the end of the employee's current agreed tour of duty.

19. By revising subparagraph 2-1.6b, as follows:

2-1.6. *Use of funds.*

b. *Funding of transfers between agencies.* In the case of transfer from one agency to another, allowable expenses shall be paid from the funds of the agency to which the employee is transferred. However, in transfer between agencies for reasons of reduction in force or transfer of functions, expenses allowable under these regulations (excluding nontemporary storage when assigned to an isolated permanent duty station within the conterminous United States and also excluding transfer to or between foreign countries) may be paid in whole or in part by the agency from which the employee is transferred or by the agency to which he is transferred as may be agreed upon by the heads of the agencies concerned.

20. By revising subparagraph 2-2.3d(2), as follows:

2-2.3. *For use of a privately owned automobile in connection with permanent change of station.*

d. . . .

(2) *Maximum allowance based on total distance.* Per diem allowances should be paid on the basis of actual time used to complete the trip, but the allowances may not exceed an amount computed on the basis of a minimum driving distance per day which is prescribed as reasonable by the authorizing official and is not less than an average of 300 miles per calendar day. An exception to the daily minimum driving distance may be made by the agency concerned when travel between the old and new official stations is delayed for reasons clearly beyond the control of the travelers, such as acts of God, restrictions by Governmental authorities, or other reasons acceptable to the agency (e.g., a physically handicapped employee). In such cases, per diem may be allowed for the period of the delay or for a shorter period as determined by the agency. The traveler must provide a statement on his reimbursement voucher fully explaining the circumstances which necessitated the en route travel delay. The exception to the daily minimum driving distance requires the approval of the agency's authorizing official.

21. By revising subparagraph 2-3.3a(1), as follows:

2-3.3. *Allowable amount.*

a. . . .  
(1) \$200 or the equivalent of 1 week's basic pay, whichever is the lesser amount, for an employee without immediate family; and

22. By revising paragraph 2-4.2, as follows:

2-4.2. *Duration of trip.* The round trip should be allowed for a reasonable period

of time considering distance between the old and new official stations, mode of transportation to be used, and the housing situation at the new official station location. In no instance shall the period of the round trip at Government expense be allowed in excess of 6 calendar days, including travel time. In authorizing or allowing a particular mode of transportation, consideration shall be given to providing minimum time en route and maximum time at the new official station locality. Accordingly, if the use of a privately owned automobile is permitted, such use is deemed to be advantageous to the Government and the mileage allowance shall be as provided in 2-2.3 b and c. Expenses for local transportation at the location of the new official station shall be allowed. Agencies may authorize local transportation by common carrier, local transit systems, or Government-furnished, commercially rented, or privately owned automobiles; however, the mode of local transportation must be consistent with the mode of transportation authorized for travel to and from the new official station. Expenses for the use of taxis shall be limited to transportation between depots, airports, or other carrier terminals, and place of lodging.

23. By revising subparagraph 2-6.2g, as follows:

2-6.2. *Reimbursable and nonreimbursable expenses.*

g. *Overall limitations.* The aggregate amount of expenses which may be reimbursed in connection with sale of the residence at the old official station shall not exceed 10 percent of the actual sale price. The aggregate amount of expenses which may be reimbursed in connection with the purchase of the home at the new official station shall not exceed 5 percent of the actual purchase price.

24. By revising subparagraph 2-8.2a and adding subparagraph 2-8.2a-1, as follows:

2-8.2. *General limitations.*

a. *Maximum weight allowance.* The maximum weight of household goods which may be transported or stored incident to line haul transportation is limited to 11,000 pounds net weight for employees with or without immediate families. The aggregate total of the weight of household goods stored under 2-9.1 and 2-9.2 plus the weight of household goods transported under this Part 8 shall not exceed the above maximum weight allowance.

a-1. *Professional books, papers, and equipment.*

(1) For purposes of this Part 8, the term "professional books, papers, and equipment" includes those professional or specialized items and other materials which are personally owned by the employee for use in the performance of official duties. The term does not include sport equipment or office, household, or shop fixtures and furniture; i.e., bookcases, file cabinets, desks, and racks of

any kind even though used in connection with the professional books, papers, and equipment.

(2) There is no statutory authority to transport personally owned professional books, papers, and equipment in addition to the maximum weight allowance (2-8.2a) established by law for transportation of an employee's household goods and personal effects. However, there may be instances in which the weight of the professional books, papers, and equipment would cause an employee's household goods shipment to be in excess of the maximum weight allowance. In such instances, the personally owned professional books, papers, and equipment may be transported to the new permanent duty station as an administrative expense of an agency (not chargeable to travel and transportation appropriations). Shipment of these items as an administrative expense would be in lieu of shipment as an allowance of the employee. (Comp. Gen. Decision B-171677, May 13, 1971.)

(3) Authority to transport professional books, papers, and equipment as an ad-

ministrative expense shall be subject to agency policy and discretion within the following guidelines:

(a) The employee shall furnish an itemized inventory of professional books, papers, and equipment for review by an appropriate authorizing official at the new permanent duty station. In addition, the employee shall furnish appropriate evidence (as determined by the agency concerned) that transporting the itemized materials as part of the employee's household goods would result in an excess of the employee's maximum weight allowance.

(b) The authorizing official at the new permanent duty station shall review and certify that the professional books, papers, and equipment as itemized are necessary in the proper performance of the employee's duties at the new duty station and that if these items were not transported to the new duty station, the same or similar items would have to be obtained at Government expense for the employee's use at the new duty station.

(c) When professional books, papers, and equipment are certified as provided

in (b), above, and shipped for the employee as an administrative expense of an agency, shipment shall be by the actual expense method; the commuted rate method shall not be used. When shipped in the same lot with the employee's household goods and other personal effects under the actual expense method, the professional books, papers, and equipment shall be packed and weighed separately; the weight thereof and the administrative appropriation chargeable shall be stated as separate items on the Government bill of lading. In unusual instances in which it is impractical or impossible to obtain separate weights, constructive weight of 7 pounds per cubic foot may be used.

Dated: May 10, 1976.

WALLACE H. ROBINSON, Jr.,  
Commissioner,  
Federal Supply Service.

## DEPARTMENT OF STATE

Agency for International Development

[Delegation of Authority No. 114]

### PRINCIPAL U.S. DIPLOMATIC OFFICER TO BAHRAIN

#### Delegation of Authority

Pursuant to the authority delegated to me by Delegation of Authority No. 104 from the Secretary of State, dated November 3, 1961 (26 FR 10608), I hereby delegate to the principal diplomatic officer of the United States to Bahrain, with respect to the administration of the foreign assistance program within the country to which he is accredited, the authorities delegated to Directors of Missions of the Agency for International Development (A.I.D.) in unpublished Delegation of Authority of January 10, 1955, A.I.D. Handbooks, manual orders, regulations (published or otherwise), policy directives, policy determinations, memoranda or other instructions as these may be amended, supplemented or superseded from time to time.

The exercise of the authorities delegated herein shall be subject to the limitations applicable to the exercise of such authorities by A.I.D. Mission Directors.

The authority delegated herein may be redelegated to the officer at the post principally responsible for A.I.D. activities and may be exercised by persons who are performing the functions of such officer in an "acting" capacity.

This delegation of authority shall be effective immediately.

Dated: May 6, 1976.

DANIEL PARKER,  
Administrator, Agency for  
International Development.

## DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

### COVELO INDIAN COMMUNITY, ROUND VALLEY RESERVATION, CALIF.

#### Transfer of Federally Owned Lands

May 12, 1976.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

On February 6, 1976, pursuant to authority contained in the Federal Property and Administrative Services Act of 1949, as amended by Pub. L. 93-599 dated January 2, 1975 (88 Stat. 1954), the below-described lands were transferred by the Director, Real Property Division, San Francisco Regional Office of the General Services Administration to the Secretary of the Interior, without reimbursement, to be held in trust for the benefit and use of the Covelo Indian Community, Round Valley Reservation, California:

Lots 59 and 60, section 19, Township 23 North, Range 12 West, Mount Diablo Meridian, Mendocino County, California, containing 20 acres more or less.

These lands are to be treated as and receive the same benefits and protection as other trust lands held for the benefit and use of the Covelo Indian Community. Appropriate notation will be made in the land records of the Bureau of Indian Affairs.

MORRIS THOMPSON,  
Commissioner of Indian Affairs.

### Bureau of Land Management ALASKA STATE MULTIPLE USE ADVISORY BOARD

#### Meeting

May 14, 1976.

Notice is hereby given that the Alaska State Multiple Use Advisory Board of the Bureau of Land Management, U.S. De-

partment of the Interior, will meet July 15-18, 1976.

On July 15 at 10:00 a.m. the Board will have an orientation on Alaska fire management policy and the Bureau of Land Management's involvement in the Youth Conservation Corps at the Tanacross Airfield, Tanacross, Alaska. The Board will convene its business meeting July 15 at 1:00 p.m. in the Tok School Gymnasium, Tok, Alaska, and hear public testimony as the first item on its agenda. The Board will then receive a report on the Bureau of Land Management's involvement in surface management on Petroleum Reserve Numbered Four, including copies of any draft surface management regulations which may have been developed by that time. They will also have a presentation on Bureau of Land Management land-use planning in the Fairbanks District's Fortymile Resource Area, along the Taylor Highway and the Fortymile River and its tributaries. Purpose of the discussion is to note similarities and differences between the State's Taylor Highway, which is open to the public, and the State's Pipeline Haul Road north of the Yukon River, which presently is closed to the public. Discussion of these items will continue throughout the day and possibly evening.

On July 16 at 8:00 a.m. the Board will depart Tok by bus on a field trip. It will travel up the Taylor Highway to view that road, and in afternoon transfer to rafts on the Fortymile River. The Board will make camp overnight and listen to the presentations on the Bureau of Land Management's management framework plan for the Fortymile Resource Area in the evening.

On July 17, the Board will continue its trip down the Forty-mile River, transferring to a bus about mid-day to continue up the Taylor Highway to the City of Eagle, Alaska. Upon arrival in the City of Eagle, the Board will hear a brief presentation on the historical restoration plan for buildings in the City of Eagle and former U.S. Army's Fort Egbert.

On July 18 at 8:00 a.m. the Board will meet at the Wickersham Courthouse to begin a tour of Eagle and Fort Egbert to examine current historical restoration projects. At 10:00 a.m. the Board will reconvene its business meeting in the Wickersham Courthouse, City of Eagle, Alaska, to conduct Board business and make recommendations.

All meetings and activities of the Board will be open to the public. Members of the public wishing to participate in the field trip must furnish their own transportation and camping equipment; it is also recommended that they make prior arrangements to return home from Eagle the evening of July 18, 1976.

Oral or written statements may be submitted for the Board's consideration the afternoon of July 15. Oral statements are not to exceed ten minutes and must pertain to matters under consideration by the Board at this meeting or the meeting in the City of Eagle, Alaska. Written copies of oral statements are requested, and anyone wishing to make

an oral statement is requested to inform the State Director by close-of-business on July 12. Written statements for consideration of the Board at this meeting may also be filed by sending them to the State Director. Early mailing of written statements is encouraged to ensure adequate opportunity for Board consideration.

Further information concerning the meeting may be obtained from Kerry L. Cartier, Acting Chief, Public Affairs, Alaska State Office, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501, telephone (907) 277-1561.

CURTIS V. McVEE,  
State Director, Alaska.

[FR Doc.76-14729 Filed 5-19-76;8:45 am]

[Arizona Phoenix 080572]

#### ARIZONA

##### Order Providing for Opening of Lands

In an exchange made under the provisions of Section 8 of the Act of June 28, 1934, as amended, (43 U.S.C. 315g), the following described land has been reconveyed to the United States:

GILA AND SALT RIVER MERIDIAN  
ARIZONA

T. 1 S., R. 1 W.,  
Sec. 16, W $\frac{1}{2}$ NE $\frac{1}{4}$ .

The area described contains 80.00 acres.

The subject land lies within the northern extension of the Sierra Estrella Mountain Range and within the boundaries of the Estrella Mountain County Regional Park. This is a scenic, largely undeveloped mountainous area, situated about 10 miles southwest of Phoenix, Arizona. This 80-acre tract is hilly and bisected by a number of entrenched drainage ways. The elevations range from 1200 to 1600 feet in the area. The soils are very thin, coarse in texture with many very large rock fragments.

The land has been classified for disposal under the Recreation and Public Purposes Act of June 14, 1926, as amended, (43 U.S.C. 869; 869-4), in response to Maricopa County's application to include the subject tract as part of the existing Estrella Mountain County Regional Park.

At 10:00 A.M., on June 18, 1976, subject to valid existing rights, the land will be open to the operation of the public land laws.

The mineral estate was not exchanged; therefore, the mineral status of the land is not affected by this order.

Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, 2400 Valley Bank Center, Phoenix, Arizona 85073.

Dated: May 14, 1976.

HAROLD RAMSBACHER,  
Acting State Director.

[FR Doc.76-14602 Filed 5-19-76;8:45 am]

#### BURLEY DISTRICT MULTIPLE USE ADVISORY BOARD

##### Meeting

Notice is hereby given in accordance with Pub. L. 92-463, that a meeting of the Burley District Multiple Use Advisory Board will be held June 29, 1976, at 8:30 A.M., at the District Office, two miles south on Highway 27, Burley, Idaho.

The Ad Hoc Committees, established during the February 4, 1976 meeting of the board to study the DLE and Carey Act programs of the Burley District, will meet to carry out their assigned responsibilities. These committees will study and report on the agricultural activity in the Burley District, particularly Golden Valley, the Highway Unit, and Black Pine Valley. The committees will meet at the District Office where there will be a short meeting of the full board to discuss policies for using Advisory Board funds.

Any interested person wishing to make a presentation to the Board, or submit a written statement, should contact the official listed below at least five (5) days prior to the meeting.

Further information concerning this meeting may be obtained from the District Manager, Bureau of Land Management, Route No. 3, Box 1, Burley, Idaho 83318 (telephone 678-5514).

Minutes of the meeting will be available for public inspection and copying approximately one (1) month after the meeting at the District Office in Burley, Idaho.

NICK JAMES COZAKOS,  
District Manager.

[FR Doc.76-14695 Filed 5-19-76;8:45 am]

[CA 632]

#### CALIFORNIA

##### Order Providing for Opening of Public Land

1. In exchange of lands made under the provisions of Section 8 of the Act of June 28, 1934 (48 Stat. 1272), as amended, (43 U.S.C. 315g), the following described lands have been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 14 N., R. 10 E.,  
Sec. 15, S $\frac{1}{2}$ ;  
Sec. 18, SE $\frac{1}{4}$ .

The area described aggregates 480 acres in Placer County, California.

2. This land lies adjacent to national resource land. It is valuable for Watershed and Wildlife habitat and will be managed under Multiple Use Management.

3. The United States does not have jurisdiction as to the Geothermal Steam in the land described in paragraph 1 as the Geothermal Steam was not reconveyed by exchange.

4. At 10 a.m. on April 23, 1976, the land shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawal and the requirements of ap-

plicable law. All valid applications received at or prior to 10 a.m. on April 23, 1976, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

5. Except as to the Geothermal Steam reservation described in paragraph 3 above, the lands will be open to location under the United States Mining laws and applications and offers under the mineral leasing laws at 10 a.m. on April 23, 1976.

Inquiries concerning the lands should be addressed to the Bureau of Land Management, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

WALTER F. HOLMES,  
Chief, Branch of Lands and  
Minerals Operations.

[FR Doc.76-14693 Filed 5-19-76;8:45 am]

#### VERNAL DISTRICT MULTIPLE USE ADVISORY BOARD, UTAH

##### Meeting

Notice is hereby given that the Vernal District Multiple Use Advisory Board of the Bureau of Land Management, U.S. Department of the Interior, will meet in the Vernal District Office of the Bureau of Land Management, 91 West Main Street, Vernal, Utah at 9:30 a.m. on Tuesday, June 29 and 30, 1976.

The morning of June 29 will be devoted to organization of the Board and election of officers. During the remainder of the meeting the Board will tour the U.S. Steel Phosphate Preference Right Lease Application area, the proposed White River Dam site, and the proposed recreation sites at Pelican Lake and Brough Reservoir.

The meeting is open to the public. Interested persons may make oral presentations to the Board or file written statements. Such statements should be presented to the official listed below at least one day prior to the meeting.

Further information concerning this meeting may be obtained from Lloyd H. Ferguson, District Manager, Bureau of Land Management, P.O. Box F, Vernal, Utah 84078, telephone number 789-1362.

JOHN A. KWIATKOWSKI,  
Acting District Manager.

[FR Doc.76-14696 Filed 5-19-76;8:45 am]

[W-55908]

WYOMING

Application

May 13, 1976.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Stauffer Chemical Company of Wyoming filed an application for a right-of-way to construct a 4" pipeline for the purpose

of transporting natural gas across the following National Resource Lands:

T. 22 N., R. 103 W.,  
Sec. 4, lots 1, 2, 3, SE $\frac{1}{4}$ NE $\frac{1}{4}$ , E $\frac{1}{2}$ SE $\frac{1}{4}$ .

The pipeline will transport natural gas from a well in sec. 4 to an existing gathering system in sec. 4, T. 22 N., R. 103 W., Sweetwater County, Wyoming. The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views on this matter should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager,

Bureau of Land Management, P.O. Box 1869, Rock Springs, Wyoming 82901.

GLENN M. LANE,  
Acting Chief, Branch of Lands  
and Minerals Operations.

17.22(a) Previously forwarded.  
(1) Red-cockaded woodpecker, *Dendrocopos borealis*.

The number of birds banded depends upon the production of young, the number of

adults (unbanded) that move into a colony site, and the amount of time I can afford my banding activities. No birds are taken for export or interstate commerce.

(2) All of the birds to be covered by this permit are in the wild.

(3) Since 1969 I have banded over 200 Red-cockaded woodpeckers with no known

loss of birds banded as a result of my work. The birds are caught in pole nets, the needed data (measurements, weight, etc.) recorded, and the birds released.

(4) The birds to be banded have not been removed from the wild and are hatched at the point of release.

(5) No institution or other facility is involved in my work.

(6) No birds are to be reared under this permit request.

(7) I have no contracts and agreements involved in my banding work. The dates on which I will place bands on the young will depend on the development of the young, suitability of weather, and my available time. Since I am not removing birds from the wild, I have no plan for their disposal.

I have been working with the Red-cockaded woodpecker since 1969 in an

effort to learn its true status in South Carolina, learn as much as possible of its life history, and above all, ways in which the species will be able to survive in today's world of "clear cut and replant." I have over 200 birds banded and code color banded—many of known age. I am at present working up a table projecting longevity and another on tree loss and the various causes.

At present the Forestry Service has a biologist who plans to continue into the future working the various colonies in which I have acquired about six years of field knowledge. Since I am now 57 years of age and the camping and climbing of ladders is in fact for the youth, I do not anticipate too many more years of intensive work with this species. No birds are harmed or collected.

losses as a result of my work. The young, in nest on ground, are picked up, banded and replaced in the nest.

(4) The birds to be banded have not been removed from the wild and are hatched at the point of release.

(5) No institution or other facility is involved in my work.

(6) Although I have reared injured young in the past to a point for release, no young or adults are to be reared under this permit request.

(7) I have no contracts and agreements involved in my banding work. The dates on which I will place bands on the young will depend on the development of the young, suitability of weather, and my available time. Since I am not removing birds from the wild, I have no plan for their disposal.

I have been working with and banding the Brown pelican for over 25 years. I have currently banded over 11,000 birds. It was through my work and that of Dr. Hildebrand that the species was placed on the endangered list and the West Coast population was at last checked for nesting success. I have watched the Brown pelican decline to 10% of its former population in South Carolina, although it appears to currently be increasing in numbers with a striking decrease in egg and nestling loss. I have made studies of breeding age, food habits, nestling success and assisted other biologists in their work with the species.

I have succeeded in having the Deveaux Bank colony declared a sanctuary with a warden to protect it. In former years I have helped to post and acquire Federal protection for the site.

I am not a professional ornithologist nor do I claim to make the most use of my current field records. With almost fifty years in field work it is likely that I will soon be forced to be more active in publishing my accumulated notes and recovery records. To date I have assisted all professional biologists with my past work and expect to continue to do so in the future.

Documents and complete information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before June 21, 1976, will be considered.

#### ENDANGERED SPECIES PERMIT

##### Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (P.L. 93-205).

Applicant: William Albert Burnham, Peregrine Fund of Cornell University, 1424 Northeast Frontage Road, Fort Collins, Colorado 80521.

cons being placed in the wild and to also band all nestlings located while selecting sites for or during the reintroducing of captive produced falcons. I also trap and band migrating falcons for John Smith and the Texas Game and Fish Department. Obviously the reason for all the above activity is to gain information relating to the Peregrine Falcon's movement and survival.

(3) My present permit authorizes me to band in Utah, Texas, Wyoming, Idaho, Montana, Nevada, Colorado, New Mexico and Arizona. These are states which peregrines may be reintroduced and studied in.

(4) No salvage specimens are anticipated but Cornell University in Ithaca, New York, would be the recipient of such specimens.

Comment: Presently I am authorized to use plastic leg bands on Peregrine Falcons in coordination with F. Prescott Ward, No. 9448, Edgewood Arsenal, Maryland. The authorization allows for orange leg bands w/blk numerals in Texas; light blue leg bands w/blk numerals in Utah, Wyoming, Idaho, Montana, Nevada, Colorado, New Mexico and Arizona. I would very much like to maintain this authorization as it is extremely valuable for identifying the falcons at a distance.

Thank you for your consideration.

Sincerely yours,  
WILLIAM BURNHAM.

APRIL 15, 1976.

17.22(a) Form 3-200 already submitted. The following information is submitted as an attachment to 3-200.

1. Alligator mississippiensis. One specimen needed, of unspecified sex. Age: as young as possible, preferably a hatching. Scientific purpose: to take Raman spectrum of lens proteins in the intact living lens and to make further studies on separated lens proteins. For this purpose the animal will be sacrificed and the eyes removed.

2. The alligator is still to be taken by state wildlife officials in the Okefenokee Swamp where there is presently no shortage.

3. and 4. Not applicable.

5. Alligator will not be maintained but will be used as soon as possible when the scientific preparations are complete, i.e., within days after receipt of the specimen.

6. A live specimen is necessary in order that the organ to be examined is still living. Otherwise the rest of section 6 is not applicable.

7. I have no written contract but Mr. Handy of the State Game and Fish Division has given me oral assurance of his cooperation and that of personnel in the field. Mr. Jack Frost of the regional office of the U.S. Fish and Wildlife Service is also aware of this arrangement.

8. In order to study the undenatured proteins of the alligator lens it is necessary to have a live animal which can be sacrificed at a convenient time. The research is not concerned with wildlife survival as such but is designed to shed light on cataract formation in those species (i.e., birds and reptiles) which seem much more resistant to cataract formation than humans.

The animal will be sacrificed humanely by opening the jugular vein. After removal of the eyes the body will be preserved for the use of anyone wishing to study other tissues.

Dr. JOHN F. R. KUCK, JR.,  
Emory University  
Eye Research Laboratory

DIRECTOR,  
U.S. Fish and Wildlife Service, Law Enforcement, USDI, Washington, D.C. 20240.

DEAR SIR: Enclosed is a permit application in accordance with paragraph 17.22 Title 50 CFR for the importation of one male maned wolf (*Chrysocyon brachyurus*) from the Fundacao Parque Zoologico de Sao Paulo, Brazil to the San Antonio Zoological Gardens & Aquarium, San Antonio, Texas. The following is the information as required by paragraph 17.22:

(1) One adult male maned wolf (*Chrysocyon brachyurus*) to be imported from the

Fundacao Parque Zoologico de Sao Paulo, Sao Paulo, Brazil.

(2) The animal is in captivity and has been in the Golan Zoo, Mato Grosso, Brazil, for about two years (see attachment). It is a wild caught animal.

(3) The San Antonio Zoo has communicated with several zoos in the United States since October 1973 in attempts to acquire a mate for our female maned wolf, but has been unsuccessful. We contacted all known zoos with single adult males in their collections or who had bred this species and might have a surplus male offspring. The latest attempt was with members of the Interna-

tional Union of Directors of Zoological Gardens visiting the United States for their international conference.

(4) The animal was originally captured in the wild in Brazil.

(5) The animal will be maintained, displayed, and used in a propagation program at the San Antonio Zoological Gardens and Aquarium, 3903 N. St. Mary's Street, San Antonio, TX 78212.

(6) (i) The animal will be housed with our female maned wolf in an open-moated, wire-fronted, naturalistic exhibit in a section of the zoo containing a series of open-moated mammal exhibits. The outdoor enclosure is 26'2" deep by 17'4" wide. There is also a heated den for seclusion with dimensions of 9'3" by 5'10". Another den 7'6" by 5'10" adjoins the rear of the first den and may also be used for the maned wolves. It has been used as a whelping area for the female in the past. The exhibit contains a pool at the front plus a large rock to the left rear corner. The area to the side and rear of the rock has been a favorite resting area for the wolves. Jasmine plantings on the top of the side walls and rear of the exhibit grow down into the exhibit providing shade and seclusion. (See enclosed pictures)

(6) (ii) The zoo director, assistant director and superintendent of mammals each have over 20 years experience in the management, care, and handling of wild animals in captivity. The zoo staff also includes a fulltime resident veterinarian plus 4 health center attendants and 24 animal attendants in the Mammal Department. The supervisor of the Small Mammal Section, in which the maned wolves are housed has four years of zoo experience. Maned wolves have been maintained at the San Antonio Zoo since October 1968 when the female for which we are attempting to secure a mate was received. This female produced young in 1971 and 1972. The zoo staff has also had experience in maintaining the red wolf, gray wolf, coyote, red fox, gray fox, fennec fox, dingo, Asiatic jackal, raccoon dog, and Cape hunting dog. Of these species, the maned wolf, red wolf, fennec fox, and Asiatic jackal have been propagated in the collection.

(6) (iii) The San Antonio Zoo will readily participate in cooperative breeding programs and in the maintenance of studbooks. It currently contributes information of studbooks on the maned wolf, white rhino, black rhino, clouded leopard, snow leopard, tiger, gorilla, Pere David deer, pygmy hippo, scimitar-horned oryx, addax, red wolf and golden lion marmoset. Zoo personnel are well-versed in the format and procedures in the use of these important records.

(6) (iv) The animal will be shipped in a piled pinewood box with metal sheet and dimensions of 1.12m long, .95m high, and .71 m wide (See attachments). Suitable water and food containers will be provided with the crate, and the shipment will be via commercial airlines. It is anticipated that the animal will be shipped via the port of Miami. Zoo officials at the Crandon Park Zoo, Miami, would be requested to check the animal and provide any necessary food and water if required while the animal is in Miami.

(6) (v) The San Antonio Zoo has had 2 maned wolves in its collection—a female received in October 1968 and a male received April 1969. The male died September 1, 1973, and the female still resides in the collection. Two young were born December 22, 1971, but were killed by the mother. Four were born December 7, 1972 and were taken for hand-rearing because of the experience with the first litter. These babies dies at the ages of 4 and 5 days. Pathology reports that the young were premature. It is believed that the young

APRIL 5, 1976  
 Mr. LYNN A. GREENWALT,  
 Director U.S. Fish and Wildlife Service,  
 Law Enforcement Division,  
 U.S.D.I.,  
 Washington, D.C.

DEAR Mr. GREENWALT: The undersigned hereby applies for an Endangered Species Permit under Section 10(a) of the Endangered Species Act of 1973. The following information is submitted pursuant to paragraph 17.22 of Volume 40, No. 188 of the Federal Register.

Request is made for a permit to export one pair of 1975 White-eared pheasants, Crossophtion crossophtion drouyni and for one 1975 female White-eared pheasant, crossophtion crossophtion drouyni in the course of a commercial activity for propagation purposes. The specimens referred to were

propagated in the aviaries of the undersigned at 41 Westcliff Drive, Dix Hills, N.Y. 11746, during 1975 from specimens imported earlier in accordance with permits #ES-68 and #ES-422.

The 1975 female White-eared pheasant Crossophtion crossophtion drouyni is to be exported to Mr. W. W. Morlock, Hespeler Highway 24, Ontario, Canada. Mr. Morlock has been one of the foremost propagators of rare pheasants in Canada for the past thirty years. He has received many awards during this time for rare breedings and was one of the first in North America to keep White-eared pheasants which he has previously bred. He requires the female to pair off with a male that he now possesses so that he may propagate the species. He has also successfully raised quantities of Brown-eared and Blue-eared pheasants during this time

## Forest Service

## BOISE NATIONAL FOREST GRAZING ADVISORY BOARD

## Meeting

The Boise National Forest Grazing Advisory Board will meet at 9:00 A.M., June 15, 1976, at the Boise National Forest Supervisor's Office, 1075 Park Boulevard, Boise, Idaho.

The purpose of the meeting is to hear the grazing permittee's (Mores Creek C&H Allotment) appeal for reconsideration of the Forest Supervisor's decision on a reduction in their permitted livestock use.

The meeting will be open to the public. Persons who wish to attend should notify Mr. Tom Nicholson, President, Boise National Forest Grazing Advisory Board, 10322 Estate Drive, Boise, Idaho 83705; Telephone Area Code 208-375-5255.

The committee has established the following rules for public participation: written statements will be accepted by the committee president prior to the meeting or immediately after the close of the meeting.

Dated: May 13, 1976.

EDWARD C. MAW,  
 Forest Supervisor.

## MULTIPLE USE PLAN DICKEY-SUNDAY PLANNING UNIT

## Availability of Final Environmental Statement

Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture has prepared a final environmental statement for Dickey-Sunday Planning Unit, Forest Service Report Number R1-76-4 USDA-FS-R1(14)-FES (Adm.).

The environmental statement concerns a proposed implementation of a revised multiple use plan for the Dickey-Sunday Planning Unit, Fortine Ranger District, Kootenai National Forest, and located in Lincoln County, Montana. The proposal affects approximately 67,029 acres of National Forest lands which have been stratified into eight management situations or units with similar resource implications.

This final environmental statement was filed with CEQ on 5/14/76.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3231, 12th St. and Independence Ave., S.W., Washington, D.C. 20250.

USDA, Forest Service, Northern Region, Federal Building, Missoula, MT 59801.

Supervisor's Office, Kootenai National Forest, 418 Mineral Avenue, Libby, MT 59923.

cation are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before June 21, 1976 will be considered.

Dated: May 17, 1976.

LOREN R. PARCHER,  
 Acting Chief, Division of Law  
 Enforcement, U.S. Fish and  
 Wildlife Service.

## Office of the Secretary

## CAPE COD NATIONAL SEASHORE ADVISORY COMMISSION

## Establishment

This notice is issued in accordance with the provisions of Section 9(a) (2) of the Federal Advisory Committee Act (P.L. 92-463). The Secretary of the Interior is establishing a Cape Cod National Seashore Advisory Commission to render advice to the Secretary of the Interior and officers and employees of the National Park Service in regard to matters pertaining to development and operations of the Cape Cod National Seashore, established pursuant to Public Law 87-126 (75 Stat. 284). The commission will render such advice with particular regard to the development of zoning standards and the acquisition of lands within the seashore. The Cape Cod National Seashore Advisory Commission is being established after consultation with the Office of Management and Budget in accordance with the provisions of the Federal Advisory Committee Act (P.L. 92-463). The certification of establishment is published below. Further information regarding the Cape Cod National Seashore Advisory Commission may be obtained from Robert M. Landau, Liaison Officer, Advisory Commissions, National Park Service, Department of the Interior, Washington, D.C. 20240 (202/343-8953).

## CERTIFICATION

The Act authorizing the establishment of the Cape Cod National Seashore places responsibility for development and management of that area in the Secretary of the Interior. In view of those responsibilities and the need to obtain advice and recommendations to meet those responsibilities, I hereby certify that establishment of the Cape Cod National Seashore Advisory Commission is in the public interest.

THOMAS S. KLEPPE,  
 Secretary of the Interior.

MAY 11, 1976.

[FR Doc. 76-14716 Filed 5-19-76; 8:45 am]

which are related species. His pheasant aviaries contain inside protective enclosures of 700 cubic feet and outside runs of 2100 cubic feet. They have been landscaped and his management, feeding and breeding techniques have been used successfully by others.

The pair, '75 hatch of Crossophtion crossophtion drouyni is to be exported to John P. Ferguson, P.O. Box 418, Stanstead, Quebec, Canada. Mr. Ferguson already has in his possession white-eared pheasants of the Crossophtion crossophtion dolani species and a copy of his letter of Jan. 28, 1976 is attached.

Both applicants will participate in a cooperative breeding program which is one of the conditions of the sale and will contribute data to the Studbook that the undersigned now maintains.

Distribution of progeny from the original importation is necessary to establish captive self-sustaining populations in as many countries in the world as possible. Preservation of an endangered species which is threatened in its habitat can only be accomplished through such propagation. Birds will be shipped in crates similar and equal to International Air Transport Association taken from Live Animal Regulations 5th Edition, Feb. 7, 1975.

At present, Canada, a party to the Convention on International Trade in Endangered Species has not yet formulated a permit system involving captive raised wildlife in regards to this Convention.

Sincerely yours,

CHARLES SIVELLE  
 P.O. Box 1718,  
 STANSTAD, QUEBEC,  
 JOB 3EO  
 JANUARY 28, 1976.

DEAR Mr. SIVELLE: The information required is as follows:

My present building that the pheasants would be kept in is twenty-four ft. wide by ninety ft. long. The inside pens are 10 ft. by 10 ft. and some are 8 ft. by 10 ft., eight ft. high, 24 inches solid at the bottom. Outside runs 10 ft. by 20 ft., 8 1/2 ft. high and others 8 ft. by 20 ft., 8 1/2 ft. high, 18 in. of wire under ground 1/2 in. by 1 in. each pen, electrically heated waterers.

In building a new building 150 ft. long with pens on one side for pheasants, partridge, francollins. I also have a second stage brooder house with 6 pens 8 ft. by 8 ft. by 20 ft. high. In the main building there is an incubator room, a first stage brooders one on top of the other, also a room to keep greens, a washing machine, hot and cold water, a cleaver to cut fresh vegetables if need be. These rooms are electric heated.

The pheasants I now have are swinhoe, Edwards, Horsfield, Scintillating Coppers, Ilma Copper, Temminck Trogans, Impayan and Cros Cros Dolanie White Eared. So I would like to get a pair of Cros Cros, Cros White Eared and pair of Brown Eared from you to be able to propagate these pheasants in order to insure their survival. It would be nice find on Edwards mail as I have an extra female. I'm sending photos of my building and some birds. My waterfowl swim all winter and they can go into the building when they like to.

This way I get good eggs from my black swans and hope to from black neck swans in the wintertime. I have four breeds of swans, six kinds of geese, ten kinds of ducks, three kinds of partridges, four breeds of francollins.

Yours truly,

JOHN P. FERGUSON.

#### NORTHEASTERN FORESTRY RESEARCH ADVISORY COMMITTEE

##### Meeting

The Northeastern Forestry Research Advisory Committee will meet at 8:30 a.m.-4:30 p.m., June 30; and 8:30 a.m.-12:00 noon, July 1, 1976 at the Boone Tavern Hotel, Berea, Kentucky.

The purpose of the meeting is to enable Advisory Committee members to be briefed on USDA Surface Mined Area Restoration Research. Forest Service scientists located at the Berea Laboratory, in Berea, Kentucky have been assigned major responsibility for this research and will participate in the meeting.

The meeting is open to the public. Persons who wish to attend should notify Dr. F. B. Clark, Northeastern Forest Experiment Station, USDA, Forest Service, 6816 Market St., Upper Darby, Pa. 19082; Telephone No. Area Code 215-596-1615. Written statements may be filed with the committee after the meeting.

To the extent that time permits, interested persons may be permitted by the Committee Chairman to present oral statements at the meeting.

Dated: May 13, 1976.

F. B. CLARK,  
Director.

#### SOUTH FORK PLANNING UNIT

##### Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a Draft Environmental Statement for the South Fork Planning Unit Land Use Plan, USDA-FS-R6-DES(Adm)-76-10.

The environmental statement concerns a proposed action that will establish one unroaded management unit, Black Canyon. Three areas are established for resource production with fish and wildlife habitat emphasis. Within one of these areas, 100 head of wild horses

will be maintained. The National Forest portion of the Murderers Creek Coordinated Resource Management Area will continue to be managed under the existing coordinated management plan. Forest management will maintain five stages of forest growth succession. The Region 6, USFS Snag Management Guidelines and big game cover requirements will be adhered to. Management will satisfy any special habitat requirement for fish and wildlife as the situation demands. A road closure plan will be implemented to protect key wildlife areas and other resources. The visual management plan which sets quality objectives for all National Forest land, will be followed in the Planning Unit. All other areas are managed for optimum resource production under multiple use-sustained yield principles. An Off-Road Vehicle and Road Closure Plan which will complement the proposed action is a part of this proposal.

This draft environmental statement was transmitted to CEQ on May 14, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. and Independence Ave., S.W., Washington, D.C. 20250.

USDA, Forest Service, Pacific Northwest Region, Multnomah Building, 319 S.W. Pine Street, Portland, Oregon 97204.

USDA, Forest Service, Malheur National Forest, 139 N.E. Dayton Street, John Day, Oregon 97845.

USDA, Forest Service, Ochoco National Forest, Federal Building, Prineville, Oregon 97734.

A limited number of single copies are available upon request to Forest Supervisor Dan E. Williams, Malheur National Forest, 139 N.E. Dayton Street, John Day, Oregon 97845.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Dan E. Williams, Malheur National Forest, 139 N.E. Dayton Street, John Day, Oregon 97845. Comments must be received by July 13, 1976, in order to be considered in the preparation of the final environmental statement.

Dated: May 14, 1976.

CURTIS L. SWANSON,  
Regional Environmental Coordinator,  
Planning, Programming  
and Budgeting.

#### Soil Conservation Service

##### BAD AXE WATERSHED PROJECT, WIS.

##### Availability of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for a portion of the Bad Axe Watershed Project, Vernon County, Wisconsin.

The environmental assessment of this federal action indicates that this portion of the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with this portion of the project. As a result of these findings, Mr. J. C. Hytry, State Conservationist, U.S. Department of Agriculture, Soil Conservation Service, 4601 Hammersley Road, Madison, Wisconsin 53711, has determined that the preparation and review of an environmental impact statement is not needed for this portion of the project.

The project concerns a plan for watershed protection, flood prevention, and recreation. The remaining planned works of improvement, as described in the negative declaration, include one floodwater retarding structure.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state, and local agencies. The basic data developed during the environmental assessment is on file and may be reviewed by interested parties at the Soil Conservation Service, USDA, Courthouse, Viroqua, Wisconsin 54665. A limited number of copies of the negative declaration is available from the same address to fill single copy requests.

No administrative action on implementation on the proposal will be taken until 15 days after the date of this publication.

Dated: May 13, 1976.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

JOSEPH W. HAAS,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

[FR Doc. 76-14685 Filed 5-19-76; 8:45 am]

##### CHOCTAW BAYOU WATERSHED PROJECT, LOUISIANA

##### Availability of Final Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on En-

vironmental Quality Guidelines (39 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement for the Choctaw Bayou Watershed project, West Baton Rouge, Pointe Coupee, and Iberville Parishes, Louisiana, USDA-SCS-EIS-WS-(ADM)-76-4(F)-LA.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement include conservation land treatment supplemented by channel work, and two structures for water control (weirs), one structure for water control (stoplog weir), and one grade stabilization structure. The channel work will involve clearing and debris removal on 22 miles of existing channels, 6 miles of new channel construction, 64 miles of enlargement by excavation, and 12 miles of additional channels maintained as outlets for other project channels. This will provide flood protection and improved drainage in a flatland watershed that is 49 percent agricultural cropland and grass land. Of the 86 miles of work proposed on existing streams or channels, 79 miles will involve those with only ephemeral flow, 4 miles with intermittent flow, and 3 miles with ponded water.

The final environmental impact statement has been filed with the Council on Environmental Quality.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 3737 Government Street, Alexandria, Louisiana 71301.

Dated: May 13, 1976.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

JOSEPH W. HAAS,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

##### LAKEVIEW WATERSHED PROJECT, TEX.

##### Availability of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Lakeview Watershed Project, Hall and Donley Counties, Texas.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. George C. Marks, State Conservationist, Soil

Conservation Service, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment supplemented by twelve single purpose floodwater retarding structures.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state and local agencies. The basic data developed during the environmental assessment is on file and may be reviewed by interested parties at the Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76701. A limited number of copies of the negative declaration is available from the same address to fill single copy requests.

No administrative action on implementation on the proposal will be taken until 15 days after the date of this publication.

Dated: May 13, 1976.

##### NEWTOWN-HOFFMAN CREEKS WATERSHED PROJECT, N.Y.

##### Availability of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for a portion of the Newtown-Hoffman Creeks Watershed Project, Schuyler and Chemung Counties, New York.

The environmental assessment of this federal action indicates that this portion of the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with this portion of the project. As a result of these findings, Mr. Robert L. Hilliard, State Conservationist, Soil Conservation Service, has determined that the preparation and review of an environmental impact statement is not needed for this portion of the project.

The project concerns a plan for watershed protection, flood prevention, and recreation and fish and wildlife development. The planned works of improvement, as described in the negative declaration, include installation of picnic facilities with a bathing beach and playground, public campsites, nature trails, and a fisherman boat launching ramp.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state, and local agencies. The basic data developed during the environmental assessment is on file and may be reviewed by interested parties at the Soil Conservation Service, USDA, Room 400, Midtown Plaza, 700 East Water Street, Syracuse, New York 13210. A limited number of copies of the negative declaration is available from the same address to fill single copy requests.

No administrative action on implementation on the proposal will be taken until 15 days after the date of this publication.

Dated: May 13, 1976.

## DEPARTMENT OF COMMERCE

Domestic and International Business  
Administration

UNIVERSITY OF CALIFORNIA, ET AL

Notice of Applications for Duty-Free Entry  
of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, (15 CFR 301) prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket number: 76-00393. Applicant: University of California—Lawrence Berkeley Laboratory, East End of Hearst Avenue, Berkeley, California 94720. Article: Temperature-Jump Spectrophotometer System and accessories. Manufacturer: Garching Instruments GMBH, West Germany. Intended use of article: The article is intended to be used for measurement of the kinetics of binding mutagens to nucleic acids. The mutagens to be studied are mainly aromatic amines such as naphthyl amines, amino-fluorenes and benzenes. These studies will determine the mechanisms of binding to naturally occurring nucleic acids and to synthetic deoxyoligonucleotides. The article will also be used for training graduate students in the course, Chemistry 299. Application received by Commissioner of Customs: April 30, 1976.

Docket number: 76-00394. Applicant: The University of Tennessee, Purchasing Department, 2200 Andy Holt Avenue, Knoxville, TN 37716. Article: Electron Microscope, Model No. EM 93-2, includ-

ing spare parts. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used for investigation of biologic specimens including samples of human tumors after different periods of transplantation in animal modes and therapeutic trials, bone marrow specimens, pellets of blood peripheral cells and cultured cells and tissues. Research will be conducted to obtain further information on cancer growth and to use this knowledge for testing new chemical and immunologic therapeutic agents which could be used in humans suffering from cancer. The article will also be used for educational purposes in the following courses:

(1) *Electron Microscopy in the Study of Tumor Growth*—basic training in biological specimen preparation for electron microscopy in order to provide students with an insight on the complexity of the procedures and the possible artifacts introduced by them.

(2) *Electron Microscopy in Comparative Pathology*—instruction in specimen preparation of laboratory animal tissues, and operation of the electron microscope.

(3) *Electron Microscopy in Human Pathology*—teaching of laboratory procedures for specimen preparation, operation of the electron microscope and interpretation of electron micrographs of different human pathologic conditions.

Application received by Commissioner of Customs: April 30, 1976.

Docket number: 76-00395. Applicant: Purdue University, ADMS Building, West Lafayette, IN 47907. Article: Ion Production and Delivery System, 30 kv. Manufacturer: Danfysik A/S, Denmark. Intended use of article: The article is intended to be used in the preparation of surfaces, for use as potential catalytic analogues by deposition of ionic species on or very near the surface (e.g., 1-3 atomic layers) of catalyst support materials (e.g., silica or aluminum). The experiments will involve the production of ion beams of platinum, palladium, iridium and similar materials from Group VIII elements in the Periodic Table. Other experiments will deal with ion/surface interactions. Specifically, the experiments will deal with (a) changes in oxidation state caused by ion interactions with surface species; (b) compositional changes caused by differential sputtering; and (c) interactions between ions and the lattice material. Application received by Commissioner of Customs: April 30, 1976.

Docket number: 76-00396. Applicant: University of Wisconsin, Madison, Dept. of Pathology, 470 North Charter Street, Madison, Wisconsin 53706. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for ultrastructural studies on normal and pathologic changes in various organ systems. Electron microscopic cyto- and histochemical studies on enzymes and subcellular organelle localization in cells and tissues will also be performed. In addition, the article will be used to provide students and trainees the knowledge

of the electron microscopic techniques and the application of electron microscope in medical and biological research. Application received by Commissioner of Customs: April 30, 1976.

Docket number: 76-00397. Applicant: University of Wisconsin-Madison, 750 University Avenue, Madison, WI 53706. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of biological material from various animals. Observations will be made on the hypothalamic brain region after various hormones are injected, in the growth of nerve fibers after various lesions, and on the development of the central nervous system. The objective of this research is to further basic knowledge on cell and tissue ultrastructure and on tissues developing under normal and experimental conditions. The article will also be used for courses dealing with Ultrastructure Cytochemistry, principally studies of the Hypothalamus and Tissue Culture. Students will be trained in the use and application of electron microscopy and to use the electron microscope in solving research problems.

Application received by Commissioner of Customs: May 4, 1976.

## Patent and Trademark Office

### PUBLIC ADVISORY COMMITTEE FOR TRADEMARK AFFAIRS

#### Open Meeting

In accordance with section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting.

The Public Advisory Committee for Trademark Affairs will meet from 9:30 a.m. to 5 p.m. on June 15, 1976 at the United States Trademark Association, 6 East 45th Street, New York, New York 10017.

The Committee was established in 1970 to advise the Patent and Trademark Office on steps which can be taken in order to increase the efficiency and effectiveness of the administration of the Trademark Act and to provide a continuous source of knowledge from the private sector to the government in the field.

The agenda for the meeting is:

(1) Establishment of an agenda and plans for a meeting of the committee in the Fall of 1976.

(2) Discussion of expanding the committee membership.

The meeting will be open to public observation; approximately 15 seats will be available for the public on a first come first served basis. If time permits, oral comments by the public of 3 minutes on

each topic within the above agenda items will be allowed. Any comments or suggestions relating to the agenda items should be submitted in writing before June 7. Further, comments and suggestions will be accepted after the meeting on any of the matters discussed.

Copies of the minutes will be available upon request 60 days after the meeting. Inquiries may be addressed to Patricia M. Davis, Room 11C17 Crystal Plaza Building 3, Telephone: 703-557-3881.

C. MARSHALL DANN,  
Commissioner of Patents  
and Trademarks.

Approved: May 12, 1976.

DAVID B. CHANG,  
Acting Assistant Secretary for  
Science & Technology.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institutes of Health

### CANCER CENTER SUPPORT GRANT REVIEW COMMITTEE

#### Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Cancer Center Support Grant Review Committee, National Cancer Institute, June 18-19, 1976, National Institutes of Health, Building 31B, Conference Room 5.

This meeting will be open to the public on June 18, 1976, from 8:30 a.m. to 10:00 a.m. to consider minutes of the last meeting, future meeting dates and other informational items. Attendance by the public will be limited to space available. In accordance with provisions set forth in Sections 552(b) (4), 552(b) (5) and 552 (b) (6) of Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on June 18, from 10:00 a.m. to 5:00 p.m. and on June 19, from 8:30 a.m. to adjournment, for the review, discussion and evaluation of individual initial pending, supplemental, and renewal grant applications. The closed portion of the meeting involves solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information containing individuals associated with the applications.

Mrs. Marjorie F. Early, Committee Management Officer, National Cancer Institute, Building 31, Room 3A16, National Institutes of Health, Bethesda, Maryland 20014 (301/496-5708) will provide summaries of the meeting and rosters of committee members.

Dr. Robert L. Manning, Executive Secretary, National Cancer Institute, Westwood Building, Room 803, National Institutes of Health, Bethesda, Maryland 20014 (301/496-7721) will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.314, National Institutes of Health.)

SUZANNE L. FREMEAUX,  
Committee Management Officer,  
National Institutes of Health.

MAY 14, 1976.

## DIVISION OF RESEARCH GRANTS

### Experimental Therapeutics Study Section; Amended Notice of Meeting

Notice is hereby given of a change in the meeting date of the Experimental Therapeutics Study Section, Division of Research Grants, which was published in the FEDERAL REGISTER on April 29, 1976 (41 FR 17955).

The Experimental Therapeutics Study Section was to have convened at 8:30 a.m. on June 3-5, 1976, but has been changed to 2:00 p.m. until adjournment on June 2, 1976, at Kenwood Club, Bethesda, Maryland, the same location for which it was originally scheduled.

The meeting will be open to the public from 8:30 a.m. to 8:30 a.m. on June 3, 1976.

SUZANNE L. FREMEAUX,  
Committee Management Officer,  
National Institutes of Health.

MAY 14, 1976.

## Office of Education

### ADVISORY COUNCIL ON WOMEN'S EDUCATIONAL PROGRAMS

#### Meeting

Notice is hereby given, pursuant to Public Law 92-463, that the next meeting of the Advisory Council on Women's Educational Programs will be held from 9:00 a.m. to 1:00 p.m. on June 7 and 9 and from 1:30 p.m. to 8:00 p.m. on June 8, 1976. The June 7 and 9 sessions will be held at the Sheraton Cadillac Hotel, 1114 Washington Boulevard, Detroit, Michigan. The June 8 session will be held at the David Miller Retirement Building, 8000 East Jefferson Street, Detroit, Michigan.

The meeting of the Council will be preceded by a meeting of the Council's Executive Committee on June 6, 1976, from 2:00 p.m. to 6:00 p.m. at the Sheraton Cadillac Hotel. There will also be meetings of the Council's Federal Policy and Practices Committee, Legislation Committee and Program Committee on June 7 from 2:00 p.m. to 5:00 p.m. at the Sheraton Cadillac Hotel.

The Advisory Council on Women's Educational Programs is established pursuant to Public Law 93-380 Section 408(f) (1). The Council is mandated to (a) advise the Commissioner with respect to general policy matters relating to the administration of the Women's Educational Equity Act of 1974; (b) advise and make recommendations to the Assistant Secretary concerning the improvement of educational equity for women; (c) make

recommendations to the Commissioner with respect to the allocation of any funds pursuant to Section 408 of Public Law 93-380, including criteria developed to insure an appropriate distribution of approved programs and projects throughout the Nation; and (d) develop criteria for the establishment of program priorities.

The meetings of the Council and of the Committees will be open to the public. The agenda for the Council meeting will include (1) committee reports; (2) status of Council projects; (3) budget and administrative matters; (4) committee structure; (5) statements from community education and women's organizations; (6) future plans; and (7) election of officers.

The agenda for the Executive Committee meeting will include (1) staff reports; (2) legislation status; (3) fiscal reports; and (4) discussion of committee structure.

The agenda for the Federal Policy and Practices Committee meeting will include plans for a review of sex bias in HEW's Education Division offices and programs.

The agenda for the Legislation Committee meeting will include status reports on vocational education and higher education legislation and appropriations legislation as well as plans and strategies for pending legislation.

The agenda for the Program Committee meeting will include discussion of the scope and methods of evaluation of the projects funded under the Women's Educational Equity Act.

Records will be kept of all Council proceedings and will be available at the Council offices at Suite 821, 1832 M Street, N.W., Washington, D.C.

Signed at Washington, D.C. on May 17, 1976.

Joy R. SIMONSON,  
Executive Director.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Interstate Land Sales Registration

[Docket No. N-76-537]

OAKWOOD, ET AL.

### Hearing

In the matter of: OAKWOOD, RAMBLEWOOD, SHADOW WOOD, RAMBLEWOOD SOUTH, MAPLE WOOD—76-68-IS—OILSR No. 0-0710-09-164 & (A).

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d).

Notice is hereby given that: 1. Oak Wood, Ramblewood, Shaw Wood, Ramblewood South, Maple Wood, J. P. Tarovella, President, and Florida National Properties, Inc. its officers and agents, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, et seq.) received a Notice of Proceedings and Opportunity for Hearing

issued March 15, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Florida National Properties, Inc., J. P. Tarovella, President and their agents contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received April 6, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 21, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before June 7, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: April 21, 1976.

By the Secretary.

JAMES W. MAST,  
Administrative Law Judge, Department of Housing and Urban Development.

[Docket No. N-76-538]

#### VENICE ON THE LAKE Hearing

In the Matter of: VENICE ON THE LAKE, Developer, Taneycomo Projects, Inc. OILSR No. D-1115-29-28(B), Docket No. ED-76-7.

Notice is hereby given that:

1. Venice on the Lake, Taneycomo Projects, Inc., its officers and agents, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et

seq.) received a Notice of Suspension dated April 8, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(b) and 24 CFR 1720.45(a) informing the developer that its amended Statement of Record submitted for Venice on the Lake, Taneycomo Projects, Inc., located in Rockaway Beach, Missouri was not effective pursuant to the Act, and the regulations contained in 24 CFR Part 1710.

2. The Respondent filed an Answer dated April 28, 1976, in answer to the allegations of the Notice of Suspension dated April 8, 1976.

3. In said Answer the Respondent requested a hearing on the Suspension Order.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1720.165(b), it is hereby ordered, That a public hearing for the purpose of taking evidence on the propriety of the Suspension Order will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on May 20, 1976 at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before May 19, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default, and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and the Suspension Order shall be continued in effect.

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: May 13, 1976.

By the Secretary.

JAMES W. MAST,  
Administrative Law Judge.

[Docket No. N-76-539]

#### TIKI ISLAND Notice of Hearing

In the matter of: Tiki Island, Developer, Realty Income Trust, Providence, R.I., OILSR No. C-4477-49-715, Docket No. ED-76-8-IS.

(Pursuant to 15 U.S.C. 1706(b) and 24 CFR 1720.155(b)). Notice is hereby given that:

1. Tiki Island, Realty Income Trust, Providence, R.I., its officers and agents, hereinafter referred to as "Respondent", being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.) received a Notice of Suspension dated January 2, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(b) and 24 CFR 1720.45(a) informing the developer that its amended Statement of Record submitted for Tiki Island and the Realty Income Trust of Providence, R.I.

was not effective pursuant to the Act, and the regulations contained in 24 CFR Part 1710.

2. The Respondent filed an Answer dated April 28, 1976 in answer to the allegations of the Notice of Suspension dated January 2, 1976.

3. In said Answer the Respondent requested a hearing on the Suspension Order.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(e) and 24 CFR 1720.165(b), It is hereby ordered, That a public hearing for the purpose of taking evidence on the propriety of the Suspension Order will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on May 25, 1976 at 2:00 p.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before June 1, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default, and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and the Suspension Order shall be continued in effect.

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: May 14, 1976.

By the Secretary.

JAMES W. MAST,  
Administrative Law Judge.

#### POCONO HIGHLANDS ESTATES Notice of Hearing

Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) Notice is hereby given that:

1. Pocono Highland Estates, Pocono Highland Estates, Inc. and Robert B. Fishbein, President, Authorized Agents and officers, hereinafter referred to as "Respondent" being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1710, et seq.), received a Notice of Proceedings and Opportunity for Hearing issued April 19, 1976, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Pocono Highland Estates, Inc., contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received May 11, 1976, in response to the

Notice of Proceedings and Opportunity for Hearing.

Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), it is hereby ordered, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, S.W., Washington, D.C., on June 14, 1976 at 2:00 p.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before June 1, 1976.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an ORDER Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: May 13, 1976.

By the Secretary.

JAMES W. MAST,  
Administrative Law Judge.

#### DEPARTMENT OF TRANSPORTATION

##### Federal Aviation Administration TECHNICAL ADVISORY COMMITTEE Notice of Meeting

Notice is hereby given that the Federal Aviation Administration Technical Advisory Committee will convene its first meeting on Monday, June 7, 1976, beginning at 8:30 a.m., in Conference Room 1010, at the FAA Headquarters building, 800 Independence Avenue, S.W., Washington, D.C. 20591.

The agenda for this meeting includes the following:

1. Chairman's Opening Remarks.
2. Administrator's Introductory Remarks.
3. Briefing to Committee Members on FAA Mission, Responsibilities, and Organization.
4. Briefing to Committee Members on FAA Current and Future Operating Problems.
5. Briefing to Committee Members on FAA Research and Development Organization and Facilities.
6. Briefing to Committee Members on FAA Top "8" Ongoing Research and Development Projects.

Each of the agenda items will include time for questions or discussion. Requests for additional information should be made to the FAA Executive Director for the Technical Advisory Committee. This meeting is open to the public.

Issued in Washington, D.C. on May 17, 1976.

THOMAS M. JOHNSTON,  
Executive Director,  
Technical Advisory Committee.  
[FR Doc. 76-14833 Filed 5-19-76; 8:45 am]

#### National Highway Traffic Safety Administration

[Docket No. 69-19; Notice 13]

##### FORD MOTOR CO.

##### Denial of Petition for Reconsideration

This notice denies the petition by Ford Motor Company for reconsideration of certain amendments to Federal Motor Vehicle Safety Standard No. 108 clarifying specifications for Type 1A and Type 2A rectangular headlamps.

Figure 2 of 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, Lamps, Reflective Devices, and Associated Equipment, was revised on December 23, 1975 (Docket No. 69-19; Notice 10, 40 FR 59349) to, among other things, slightly change the tolerances of the overall width and height of Type 1A and Type 2A rectangular headlamps, and to provide a different method of dimensioning the locating lug. Specifically, the headlamp tolerances which had been 6.58+/-0.00/-10 inches by 4.20+/-0.00/-10 inches were changed to 6.58+/-0.03/-17 inches by 4.20+/-0.03/-17 inches. The maximum width of the locating lug was set at .495 inch. The intent of the amendments was to relieve dimensional tolerances that the agency had concluded were unnecessarily restrictive.

Ford, however, petitioned for reconsideration of the changes, arguing that they affected interchangeability of headlamps, that a headlamp whose size was the maximum (6.61 inches and 4.23 inches) could interfere with the minimum dimension of the headlamp retaining ring as defined by SAE J571d. Petitioner saw the potential problem "that lamps, produced as replacement parts, while still meeting Federal Motor Vehicle Safety Standard 108 requirements, may be impossible in the extreme of tolerance stack-up to assemble with the retaining rings." It asked that the headlamp dimensions be changed to 6.56+/-0.03/-12 and 4.18+/-0.03/-12 respectively. It also argued that the maximum locating lug width (.495 inch) is larger than the minimum seating surface of the mounting ring (.465 inch), with the potential of possible lug fracture and consequent lamp misalignment. It asked that Figure 2 be further revised "to reflect the dimensions of and methods for detailing the locating lugs as shown in Figure 6 of J571d."

The National Highway Traffic Safety Administration has decided to deny

Ford's petition for the following reasons. Standard No. 108 does not incorporate SAE J571d, and thus a manufacturer may use such retaining ring dimensions as it chooses, even if they do not meet SAE requirements. This fact obviates the need for a further amendment. Since retaining ring dies are usually less expensive and more easily changed than glass molds, and tolerances on metal products are more easily maintained than tolerances on glass products, the more cost-effective method of confronting the problem (which the agency believes is minimal in any event) is through changes to the retaining ring. With respect to the dimensioning of lamp locating lugs, the agency is amenable to further consideration but deems it premature. The agency understands that the SAE is currently revising SAE J571d, and prefers to await completion of SAE action before deciding whether to initiate rulemaking. Ford's petition is therefore denied.

(Secs. 103, 119, Pub. L. 89-503, 80 Stat. 718 (15 U.S.C. 1392, 1401); delegations of authority at 49 CFR 1.50 and 501.8.)

Issued on May 13, 1976.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

# INTERNATIONAL AIR TRANSPORT ASSOCIATION

## South Pacific Cargo Rates

Issued under delegated authority May 12, 1976.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conference of the International Air Transport Association (IATA). The agreement, adopted at a JT31 South Pacific Cargo Conference held in Geneva during April 1974, would establish cargo rates over the South Pacific for effect July 1, 1976 through September 30, 1977.

The agreement, which supersedes a 3 percent fuel increase recently disapproved,<sup>1</sup> would increase minimum charges by \$4 to a level of \$20 for any consignment moving between west coast/Alaskan/Hawaiian points and South Pacific points and by \$5 to a level of \$26 for shipments moving to/from all other Western Hemisphere points over the South Pacific. General commodity rates to/from Hawaii would be de-specified and instead constructed by means of specified deductions from the Los Angeles general rates. Southbound (from the U.S.) general commodity rates would increase approximately 5 percent while northbound general rates would increase in amounts ranging from 13-14 percent. New charges for type 2, 2-A, and 2-D containers are proposed between Sydney/Auckland and U.S. west coast points and existing container rates would increase by amounts ranging from approximately 3 to 11 percent at the pivot weight while over-pivot rates would increase approximately 11 percent. Finally, with certain exceptions, northbound specific commodity rates would increase by amounts ranging from 13 to 19 percent while southbound commodity rates would increase approximately 10 percent.

The purpose of this order is to establish dates for the submission of carrier justification in support of the agreement and comments from interested persons or parties. The carrier justification should be set out in a tabular format, as suggested in Order 75-7-88 (July 17, 1975), i.e., historical traffic and financial data as reported to the Board in Form 41 reports by functional account for total transpacific services for the year ended March 31, 1976.

The data should exclude operations in market areas not covered by the agreement (e.g. North/Central and Intra-Pacific) and all scheduled passenger and charter operations pertaining to the South Pacific market so as to establish the present status of cargo services in the market area covered by the agreement. The carrier justification will also

<sup>1</sup> Order 76-5-26 (May 10, 1976).

be expected to include a forecast for the year ending June 30, 1977 showing both traffic and financial results under present rates and under the increased rates for which approval is sought. We note there is a capacity agreement between Pan American and Qantas presently pending in Dockets 26057 and 26075, and Pan American should indicate whether or not its forecast submitted herein takes into account the anticipated results of that agreement. Finally, we expect the justification to allocate costs between the passenger and cargo compartments on scheduled passenger aircraft by the "space method" stipulated by the Board in its April 2, 1970 decision in Docket 18381, *Nonpriority Mail Rates*, (Orders 70-4-9 and 70-4-10).<sup>2</sup>

Accordingly, it is ordered, That:

1. All United States air carrier members of the International Air Transport Association providing service within the affected area shall file within 15 calendar days after the date of service of this order, full documentation and economic justification for the fares and related conditions embodied in the subject agreement;

2. Comments and objections from interested persons and parties shall be submitted within 15 calendar days after the date of service of this order;

3. Replies to submissions received in response to ordering paragraph 1 above and replies to comments received pursuant to ordering paragraph 2 above shall be submitted within 25 calendar days after the date of service of this order; and

4. Insofar as air transportation as defined by the Act is concerned, tariffs implementing the subject agreement shall not be filed in advance of Board approval of the subject agreement.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,  
Acting Secretary.

# INTERNATIONAL AIR TRANSPORT ASSOCIATION

## Specific Commodity Rates

Issued under delegated authority May 13, 1976.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 3 of the International Air Transport Association (IATA). The

<sup>2</sup> In furnishing the data requested, the carrier should provide complete explanatory notes and supporting detail including statistical data to describe the methods used in making the allocations.

agreement was adopted at the 15th Meeting of the TC3 Specific Commodity Rates Board held in Geneva on March 31, 1976.

The agreement would establish one new specific commodity description and change the area of application on five descriptions as shown in the attachment and establish specific commodity rates for several items to apply between various world markets outside of air transportation. We will approve the new descriptions which have general application within air transportation as defined by the Act but will disclaim jurisdiction with respect to the new rates which involve points solely outside of air transportation.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14:

1. It is not found that the new specific commodity descriptions incorporated in Agreement C.A.B. 25839, which have general application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act.

2. It is not found that the specific commodity rates incorporated in Agreement C.A.B. 25839 which involve transportation solely between foreign points affect air transportation within the meaning of the Act.

Accordingly, it is ordered, That:

1. Those portions of Agreement C.A.B. 25839 set forth in the Attachment which have general application in air transportation as defined by the Act, be and hereby are approved; and

2. Jurisdiction be and hereby is disclaimed with respect to that portion of Agreement C.A.B. 25839 described in finding paragraph 2 above.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,  
Acting Secretary.

[Docket 27813, Agreement C.A.B. 26734, R-7, R-11 through R-13, R-17 through R-28, R-30; Order 76-5-61]

# INTERNATIONAL AIR TRANSPORT ASSOCIATION

## North Atlantic Passenger Fares to/from Europe and the Middle East

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 14th day of May, 1976.

By Order 76-4-175, April 30, 1976, the Board acted on an agreement among the carrier members of the International Air Transport Association (IATA) to establish North Atlantic passenger fares from May 1 through October 31, 1976. In that order the Board, *inter alia*, disapproved all fare increases proposed between Florida points, on the one hand, and London, on the other hand, on the basis that National Airlines, Inc. (National) would experience adequate earnings on that route under existing fares and did not require an increase.<sup>1</sup> National, whose only international route is Miami-London, has petitioned the Board for reconsideration of its decision.

In support of its petition, National submits that the Board's reliance on the capacity agreement with British Airways as determinative of National's load factor for the year ending April 30, 1977 was erroneous because the capacity agreement will not be effective for that entire period inasmuch as the Board itself approved the agreement only through October 31, 1976; and that in light of the alleged difficulty involved in extending the capacity agreement beyond October 31, National will not achieve anything like a 68.6 percent load factor during the entire forecast year. National alleges further that without the load-factor adjustment it would achieve only an 11.52 percent ROI under proposed fares which is not in excess of the Board's guidelines; that it is recovering from a protracted strike which has adversely affected its traffic growth and it has already failed to meet its target traffic levels for March and April 1976, the first two months of the capacity agreement; and that if the Board does not approve increased Miami-London fares, several fare construction difficulties will arise with respect to fares to other points. Finally, the carrier asserts that unless the Board acts favorably upon its petition, National must prepare refunds for virtually every international passenger, an extremely burdensome process which is confusing to the passenger and

<sup>1</sup> Specifically, the Board noted that while National forecast a 10.21 percent return on investment (ROI) under present fares at a 59.06 percent load factor for the year ending April 30, 1977, the carrier had earlier forecast a 68.6 percent load factor in connection with a National-British Airways capacity limitation agreement approved by the Board in Order 76-2-60, February 17, 1976. Adjusting National's financial results to reflect the 68.6 percent load factor indicated that it would achieve an ROI of over 12.8 percent under present fares, and consequently no fare increase was required.

an unnecessary hardship on the carriers, and which is very poor customer relations.<sup>2</sup>

After careful review of the petition, the Board has concluded that National has not presented facts sufficient to warrant a reversal of the Board's findings in Order 76-4-175 and the petition will, therefore, be denied.

While it is true that the Board approved the National-British Airways capacity limitation agreement only through October 31, 1976, that agreement was proposed to run through April 30, 1977 and National's forecast of traffic and capacity in that proceeding covered the entire period from January 15, 1976 through April 30, 1977. Since the 68.6 percent average load-factor forecast for that period includes the winter season, when traffic is usually depressed, for ten out of the total of 16½ months, National must have anticipated a substantially higher load factor during the peak-season period immediately ahead, i.e., through October 31, 1976, when the capacity agreement, as approved, will actually be in effect. This peak travel period corresponds exactly with the duration of the North Atlantic fares package as adopted by IATA and approved, in general, by the Board.

The Board established a forecast period of the 12 months ending April 30, 1977 for the U.S. carriers' economic justifications in support of the IATA agreement in order to evaluate the impact of the proposed fares on an annualized basis which is the only appropriate basis for assessing the financial results of a fares agreement, notwithstanding its effectiveness for a fractional year period. National has presented nothing which would indicate that the 68.6 percent load factor utilized by the Board for this analysis, and which represented National's own best estimate in connection with the capacity agreement for the Miami-London market, is an unreasonable annualization of load factor under conditions which will prevail during the effectiveness of the agreement. In particular National has not, in our judgment, shown that because of the recent strike it will be unable to achieve the load factors forecast in connection with the capacity agreement. The strike began September 1, 1975, yet the agreement was filed December 4, 1975, affording the carrier ample time to consider the impact of the strike in preparing its submissions to the Board.<sup>3</sup>

Moreover, even evaluating the results of the agreement on a six-month basis through October 31, 1976, as National ap-

<sup>2</sup> National also contends that the cost levels in its justification are understated since they do not reflect inflationary pressures. We reject this argument out of hand. The Board relied on National's costs as presented in its justification, and National has presented no new cost data here to support any reassessment of its operating expenses.

<sup>3</sup> While National contends that it has failed to achieve its March/April traffic targets, it has provided no data in this connection.

pears to suggest, it would appear that National's load factor (and earnings) for the six months would probably be even higher than the 68.6 percent (and 12.8 percent ROI) shown in Order 76-4-175 for the entire year, since the six-month period corresponds to the peak season in this market.<sup>4</sup>

Finally, we disagree with National's other assertions that denial of its petition will create severe fare construction problems, or that issuance of refunds represents "very poor customer relations." The Board disapproved all Florida-London fare increases in last year's IATA agreement,<sup>5</sup> and the carriers do not seem to have experienced extraordinary difficulties implementing that decision. As for refunds, carriers are well aware that passengers must be informed that any fares sold at proposed IATA agreement levels before Board action are "subject to government approval," and that they may be entitled to a refund in the event fare increases are disapproved. We fail to perceive how the return of money to passengers, under these circumstances, can constitute poor customer relations.

Accordingly, it is ordered, That:

The petition of National Airlines, Inc. for reconsideration of Order 76-4-175 be and hereby is denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,  
Acting Secretary.

[Docket No. 29278]

# STAFF REPORT ON SERVICE TO SMALL COMMUNITIES

## Request for Comments

MAY 18, 1976.

The Civil Aeronautics Board announced today that it is publishing for public comment the Staff Task Force Report on Service to Small Communities. In issuing the Report, which lists four optional approaches to the problem, the Board determined that interested persons, including members of the general public, should have an opportunity to comment on the Report before the Board reached a final decision.

Interested persons may participate by submitting twenty (20) copies of written data, views, or arguments pertaining thereto addressed to the Docket Section.

<sup>4</sup> The Board has by Order 76-5-55 approved an amendment to the capacity agreement allowing National to sell 23 additional seats on each Miami-London flight during the upcoming peak season, as a result of the reconfiguration of its DC-10-30 aircraft from 8 to 9 abreast. The availability of additional seats during the peak summer travel season would further enhance National's profitability since the reconfiguration costs per seat are negligible and in any event do not apply to operating costs.

<sup>5</sup> See Order 75-3-101, March 27, 1975.

Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before June 18, 1976, will be considered by the Board. Copies of such communications will be available for examination by interested persons in the Docket Section, Room 711, Universal Building, 1825 Connecticut Ave., N.W., Washington, D.C.

Individual members of the general public who wish to express their views may do so through submission of comments in letter form to the Docket Section at the above indicated address, without the necessity of filing additional copies.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,  
Acting Secretary.

#### ENVIRONMENTAL PROTECTION AGENCY

##### [FRL 545-7]

#### DISCHARGES OF POLLUTANTS INTO NAVIGABLE WATERS: VIRGIN ISLANDS

##### Public Hearings and Requests for State Program Approval

Public Hearings to consider the request of the Territory of the Virgin Islands for Program Approval to participate in the National Pollutant Discharge Elimination System ("NPDES") permit program for the control and abatement of discharges into waters of the Territory in compliance with the 1972 Amendments of the Federal Water Pollution Control Act, 33 U.S.C. §§ 1250-1376 ("the Act") will be held on June 21, 22, and 23, 1976, at 7:30 p.m., at the following addresses:

June 21, 1976—Julius Sprauve Public School Auditorium, St. John  
June 22, 1976—Lawrence Williams Public Library, King Street, Christiansted, St. Croix  
June 23, 1976—Legislature Building, Conference Room, Charlotte Amalie, St. Thomas

Section 402(b) of the Act provides that the Governor of a State (or Territory) desiring to administer the NPDES permit program to control discharges into navigable waters within its jurisdiction may submit to the administrator of the United States Environmental Protection Agency ("EPA") a full and complete description of the program it intends to administer, including a statement from the State Attorney General that the laws of the State provide adequate authority to carry out the described program. The Administrator is required to approve each such submitted program unless the program does not meet the requirements of section 402(b) and EPA's Guidelines. To administer the NPDES program, the State must have, among others: (1) the authority to issue permits which comply with all pertinent requirements of the Act, (2) the authority, including civil and criminal penalties, to abate violations of permits or the permit program, and (3) authority which will ensure that the Administrator, the public, and any affected States and agencies are given notice of and opportunity for a public

hearing with regard to each permit application. Also, the State must have and commit itself to use manpower and resources sufficient to act on all outstanding permit applications in a timely manner and consistent with the period prescribed by the Act. EPA's Guidelines establishing "State Program Elements Necessary for Participation in the NPDES" were published in Volume 37 of the FEDERAL REGISTER, December 22, 1972, and appear at 40 CFR Part 124.

The Virgin Islands has submitted a full and complete Request for State Program Approval and proposes that the Department of Conservation and Cultural Affairs ("the Department"), Box 278, Charlotte Amalie, St. Thomas, Virgin Islands 00801, (809) 774-3320, operate the NPDES permit program for discharges into the navigable waters within the jurisdiction of the Virgin Islands. Virdon C. Brown is the Commissioner of the Department.

All interested persons wishing to attend, to comment upon, or to support or object to this Territory request are invited to attend the public hearings.

A three-member panel will preside over the hearings. The panel will consist of the Administrator of EPA or his representative, who will serve as the Presiding Officer, the Commissioner of the Department or his representative, and the Regional Administrator of EPA—Region II or his representative.

Oral statements will be heard and considered, but, for accuracy of the record, all testimony should be submitted in writing. Statements should summarize extensive written materials so there will be time for all interested parties to be heard. Persons are encouraged to bring extra copies of their written statements for the use of the hearing panel and other interested persons.

The Presiding Officer may, at his discretion, exclude oral testimony if it is overly repetitious of previous testimony heard or if it is not relevant to the decision to approve or require revision to the State program as submitted. The hearing record will be left open for a period of five (5) days following the hearings to allow any person to submit additional written statements or to present views or evidence tending to rebut testimony presented during these hearings.

All interested persons may also comment upon the Territory submission by writing to the EPA—Region II Office, 26 Federal Plaza, New York, New York 10007. Such comments will be made available to the public for inspection and copying. All comments or objections received by June 28, 1976, or presented at the public hearings, will be considered by EPA before taking final action on the Virgin Islands Request for State Program Approval.

The Program submission, related documents, and all comments received are on file and may be inspected and copied (at \$.20 per page) at the EPA—Region II Office in New York, New York. The Territory's submission and related documents

#### NOTICES

are also on file and may be inspected at the Department's Central Office on Blackbeard's Hill.

Copies of this notice are available upon request from the Public Affairs Division of EPA—Region II, (212) 264-2515.

Please bring the foregoing to the attention of persons you know would be interested in this matter.

Dated: May 13, 1976.

STANLEY W. LEGRO,  
Assistant Administrator  
for Enforcement.

#### FEDERAL COMMUNICATIONS COMMISSION

##### [FCC 76-441]

#### AMATEUR RADIO SERVICE

##### Experimental Program for the Licensing of Novice Class Operators

MAY 14, 1976.

As part of its continuing interest in providing more rapid and efficient licensing of applicants in the Amateur Radio Service, the Commission is implementing, on a limited trial basis, an experimental method of examining Novice Class amateur radio operators.

During the experimental program the Commission will relax the Rules in some instances to license as Novices those applicants successfully completing Commission-approved training courses covering examination Element 1A, beginner's telegraphy, and Element 2, basic law and amateur practice.

Novice Class amateur radio operator training courses will be approved during the experimental period only if they are both comprehensive, covering at a minimum all material included in the Commission's recently released study guide for the Novice Class license, and are offered by qualified organizations or educational institutions possessing the resources necessary to carry through with a program of this nature. The Commission staff will closely monitor any training programs approved to ensure the qualifications established by the Commission for the licensing of Novice Class amateur radio operators are met.

It is emphasized that this is an experimental program only. Applicants not participating in the experiment will be required to obtain Novice Class licenses under the existing provisions of Part 97 of the Commission's Rules.

Authority for the experimental licensing program described above is contained in Sections 4, 301, 303, and 318 of the Communications Act of 1934, as amended.

Further information concerning the experimental licensing program may be obtained from the Federal Communications Commission, Amateur and Citizens Division, Washington, D.C. 20554.

Action by the Commission May 12, 1976. Commissioners Wiley (Chairman),

Lee, Hooks, Quello, Washburn and Robinson.

#### FEDERAL ENERGY ADMINISTRATION

#### OFFICE OF EXCEPTIONS AND APPEALS

##### Cases Filed During Week of April 30 Through May 7, 1976

Notice is hereby given that during the week of April 30 through May 7, 1976 the appeals and applications for exception or other relief listed in the Appendix to this notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations the date of service of notice shall be deemed to be the date of publication of this notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

Dated: May 14, 1976.

MICHAEL F. BUTLER,  
General Counsel.

**APPENDIX—List of cases received by the Office of Exceptions and Appeals, Apr. 30 to May 7, 1976**

Date	Name and location of applicant	Case No.	Type of submission
Apr. 30, 1976	Sumrall Oil Services, Inc., Bay Springs, Miss. (If granted: FEA's Mar. 31, 1976, decision and order would be rescinded and Sumrall Oil Service would be assigned a new supplier of motor gasoline to replace its base period supplier, Good Hope Refineries, Inc.)	FEA-0819	Appeal of FEA's exception decision and order in Sumrall Oil Service, Inc., 3 FEA par. 83,152 (Mar. 31, 1976).
Do.	Whaleco Fuel Corp., Brooklyn, N.Y. (If granted: Whaleco Fuel Corp. would be permitted to import finished petroleum products on a license-fee-free basis for the period May 1, 1976, and Apr. 30, 1977.)	FPI-0006	Exception to the base fee requirements.
May 3, 1976	Delta Refining Co., Memphis, Tenn. (If granted: Delta Refining Co. would receive an exception from the old oil entitlements program.)	FEE-2437	Exception from the old oil entitlements program.
Do.	Empire Gas Corp., Milwaukee, Wis. (If granted: FEA's Mar. 28, 1976, information request denial would be rescinded.)	FEA-0820	Appeal of FEA's information request denial.
Do.	Fletcher Oil & Refining Co., Wilmington, Calif. (If granted: Fletcher Oil & Refining Co. would receive an exception from the old oil entitlements program.)	FEE-2432	Exception from the old oil entitlements program.
Do.	Husky Oil Co., Denver, Colo. (If granted: Husky Oil Co. would receive an exception from the old oil entitlements program.)	FEE-2442	Do.
Do.	McCulloch Gas Processing Corp. (Belle Fourche), Washington, D.C. (If granted: McCulloch Gas Processing Corp. would receive an extension of the price relief granted in FEA's Feb. 27, 1976, decision and order.)	FEE-2449	Extension of FEA's price relief in McCulloch Gas Processing Corp., 3 FEA par. 83,113 (Feb. 27, 1976).
Do.	McCulloch Gas Processing Corp. (Fairview), Washington, D.C. (If granted: McCulloch Gas Processing Corp. would receive an extension of the price relief granted in FEA's Feb. 27, 1976, decision and order.)	FEE-2450	Do.
Do.	McCulloch Gas Processing Corp. (Gillette), Washington, D.C. (If granted: McCulloch Gas Processing Corp. would receive an extension of the price relief granted in FEA's Feb. 27, 1976, decision and order.)	FEE-2446	Do.
Do.	McCulloch Gas Processing Corp. (Hilltop), Washington, D.C. (If granted: McCulloch Gas Processing Corp. would receive an extension of the price relief granted in FEA's Feb. 27, 1976, decision and order.)	FEE-2445	Do.
Do.	McCulloch Gas Processing Corp. (Jamison Prong), Washington, D.C. (If granted: McCulloch Gas Processing Corp. would receive an extension of the price relief granted in FEA's Feb. 27, 1976, decision and order.)	FEE-2448	Do.
Do.	McCulloch Gas Processing Corp. (Oedekoven), Washington, D.C. (If granted: McCulloch Gas Processing Corp. would receive an extension of the price relief granted in FEA's Feb. 27, 1976, decision and order.)	FEE-2447	Do.
Do.	McCulloch Gas Processing Corp. (Well Draw), Washington, D.C. (If granted: McCulloch Gas Processing Corp. would receive an extension of the price relief granted in FEA's Feb. 27, 1976, decision and order.)	FEE-2451	Do.
Do.	Mohawk Petroleum Corp., Inc., Los Angeles, Calif. (If granted: Mohawk Petroleum Corp. would receive an exception from the old oil entitlements program.)	FEE-2433	Exception from the old oil entitlements program.
Do.	Navajo Refining Co., Washington, D.C. (If granted: Navajo Refining Co. would receive an exception from the old oil entitlements program.)	FEE-2440	Do.
Do.	North American Petroleum Corp., Abilene, Tex. (If granted: North American Petroleum Corp. would receive an exception from the old oil entitlements program.)	FEE-2436	Do.
Do.	Pasco, Inc., Washington, D.C. (If granted: Pasco, Inc. would receive an exception from the old oil entitlements program.)	FEE-2441	Do.
Do.	Powertine Oil Co., Washington, D.C. (If granted: Powertine Oil Co. would receive an exception from the old oil entitlements program.)	FEE-2435	Do.
Do.	Rock Island Refining Corp., Indianapolis, Ind. (If granted: Rock Island Refining Corp. would receive an exception from the old oil entitlements program.)	FEE-2431	Do.
Do.	Southland Oil Co., Jackson, Miss. (If granted: Southland Oil Co. would receive an exception from the old oil entitlements program.)	FEE-2438	Do.
Do.	Thazard Oil Co. (If granted: Thazard Oil Co. would receive an exception from the old oil entitlements program.)	FEE-2434	Do.
Do.	Warrior Asphalt Refining Co. of Alabama, Inc., Tuscaloosa, Ala. (If granted: Warrior Asphalt Refining Co. of Alabama would receive an exception from the old oil entitlements program.)	FEE-2439	Do.
May 4, 1976	Ashland Oil Co., San Francisco, Calif. (If granted: A supplemental order would be issued to Ashland Oil Co.)	FEX-0041	Supplemental order in Ashland Oil Co., 3 FEA par. 83,161 (Apr. 30, 1976).
Do.	Beldridge Oil Co., Los Angeles, Calif. (If granted: Beldridge Oil Co. would be permitted to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of \$0.005/gal.)	FEE-2444	Price exception (sec. 212.165).
Do.	Sunland Refining Co., Los Angeles, Calif. (If granted: Sunland Refining Co. would receive an exception from the old oil entitlements program.)	FEE-2456	Exception from the old oil entitlements program.
Do.	Union Oil Co. of California, Los Angeles, Calif. (If granted: FEA's Apr. 2, 1976, decision and order would be rescinded and Union Oil Co. would be permitted to increase its selling prices for JP-4 aviation fuel.)	FEA-0821	Appeal of FEA's exception decision and order, Union Oil Co. of California, 3 FEA par. 83,155 (Apr. 2, 1976).
Do.	William H. Player & Associates, Natchez, Miss. (If granted: William H. Player & Associates would receive an extension of the exception relief from the crude oil pricing regulations granted in FEA's Apr. 9, 1976, decision and order.)	FEE-2443	William H. Player & Associates, 3 FEA par. 83,161 (Apr. 9, 1976).
May 5, 1976	General Crude Oil Co., Houston, Tex. (If granted: Crude oil produced from the Banning lease of the Newport Field, Orange County, Calif., would be sold at upper-tier ceiling prices.)	FEE-2453	Price exception (sec. 212.74).

Date	Name and location of applicant	Case No.	Type of submission
Do.	Midland Cooperatives, Inc., Cushing, Okla. (If granted: Midland Cooperatives, Inc. would receive an exception from the old oil entitlements program.)	FEE-2454	Exception from the old oil entitlements program.
Do.	Port Arthur Towing Co. and Palmer Midstream Service, Inc. (If granted: FEA's Apr. 23, 1976, denial of a motion to quash a subpoena issued to the firms on Apr. 2, 1976, as modified, would be rescinded.)	FEA-0823	Appeal of denial of motion to quash or modify subpoena.
Do.	T. J. Fannon & Sons, Inc., Alexandria, Va. (If granted: FEA region III's Mar. 24, 1976, decision and order would be rescinded and T. J. Fannon & Sons, Inc., would receive an exception from the provisions of 10 CFR 212.93(a).)	FEA-0824	Appeal of FEA region III decision and order.
Do.	Utopia Oil Industries, Inc., Richland, Wash. (If granted: FEA's Mar. 31, 1976, decision and order would be rescinded and Utopia Oil Industries would be assigned a new, lower priced supplier of motor gasoline.)	FEA-0822	Appeal of FEA's exception decision and order Utopia Oil Industries, Inc., 3 FEA par. 83,156 (Mar. 31, 1976).
May 6, 1976	Beacon Gasoline Co., Washington, D.C. (If granted: Beacon Gasoline Co. would receive an extension of the price relief granted in FEA's Feb. 17, 1976, decision and order.)	FEE-2459	Extension of FEA's price relief Beacon Gasoline Co., 3 FEA par. 83,107 (Feb. 17, 1976).
Do.	Edgington Oil Co., Long Beach, Calif. (If granted: Edgington Oil Co. would receive an exception from the old oil entitlements program.)	FEE-2457	Exception from the old oil entitlements program.

**REFINERS CRUDE OIL ALLOCATION PROGRAM**

**Allocation Quarter of June 1, 1976 to August 31, 1976**

The notice specified in § 211.65(e) of the refiners' crude oil allocation program is hereby published for the allocation quarter of June 1, 1976 to August 31, 1976.

The buy-sell list for refiners is set forth as an appendix to the notice. The provisions of 10 CFR 211.65 apply to all transactions made under the buy-sell list. Included as part of the list, as required by § 211.65(e) are: the quantity of crude oil each refiner-buyer is eligible to purchase, the total allocation obligation for all refiner-sellers, the fixed percentage share for each refiner-seller and the quantity of crude oil that each refiner-seller is obligated to offer for sale to refiner-buyers, with a specification as to the portions thereof that constitute the primary and secondary sales obligations for each refiner-seller, in accordance with 10 CFR 211.65(d). The amounts shown on the list for refiner-buyers with first or second priority refineries (as defined in Part 214 of 10 CFR) reflect the amendments to the refiners' crude oil allocation program adopted April 14, 1976 and also reflect corrections as to certain firms for the March 1976 quarter as a result of such amendments.

The buy-sell list covers PAD districts I through V, and amounts shown are in barrels of 42 gallons each, for the specified period. Pursuant to § 211.65(d),

each refiner-seller shall offer for sale, directly or through exchange, to refiner-buyers during an allocation quarter a quantity of crude oil equal to that refiner-seller's primary sales obligation plus any portion of that refiner-seller's secondary sales obligation as to which the FEA directs a sale pursuant to 10 CFR 211.65(h). No refiner-seller shall be required to offer for sale to refiner-buyers, whether by directed sale or otherwise, any portion of its secondary sales obligation until each other refiner-seller (except refiner-sellers with minimal primary sales obligations) has sold at least 80% of its primary sales obligation.

The procedures of 10 CFR 211.65(h) provide that if a sale is not agreed upon within 15 days of the date of publication of this notice, a refiner-buyer that has not been able to negotiate a contract to purchase crude oil may request FEA to direct one or more refiner-sellers to sell a suitable type of crude oil to such refiner-buyer. Such a request must be made within 30 days of the publication of this notice. Upon such request, FEA may direct one or more refiner-sellers that have not completed their required sales to sell crude oil to the refiner-buyer. If the refiner-buyer declines to purchase the crude oil specified by FEA, the rights of that refiner-buyer to purchase that volume of crude oil are forfeited during this allocation quarter, providing that the refiner-seller or refiner-sellers in question have fully complied with the provisions of 10 CFR 211.65. Refiner-buyers

making such request must provide the FEA with the following information:

1. Name of the refiner-buyer and of the person authorized to act for the refiner-buyer in buy-sell list transactions.

2. Names and locations of the refineries for which crude oil is sought, the amount of crude oil sought for each refinery, and the technical specification range of crude oil which can be processed in each refinery.

3. Statement of any restrictions, limitations or constraints on the refiner-buyer's purchases of crude oil, with particular respect to manner or time of deliveries.

4. Name and locations of all refiner-sellers from which crude oil has been sought under the buy-sell list and the volume and specification of the crude oil sought from each.

5. The response of each refiner-seller to which a request to purchase crude oil has been made, and the name and telephone number of the individual contacted at each such refiner-seller.

6. Such other pertinent information as FEA may request.

Each refiner-buyer and refiner-seller will report the details of each transaction under the buy-sell list to FEA on Form 903 (1-74) within 15 days of the completion of arrangements for the transaction. Each refiner-buyer and refiner-seller is requested to report as promptly as practicable every such transaction to which it is a party.

Refiner-buyers wishing to receive an allocation in the allocation quarter commencing September 1, 1976, with respect to future refining capacity (as defined in 10 CFR 211.62) that is not presently taken into account in determining their respective purchase opportunities, must apply to the FEA for certification of that capacity and provide all necessary information required to enable FEA to evaluate the factors set forth in 10 CFR 211.65(b) (1) no later than June 30, 1976.

All reports and applications made under this notice should be addressed to: Director, Crude Operations, Crude Oil Buy-Sell Program, 20th Street Postal Station, P.O. Box 19028, Washington, D.C. 20036.

Issued in Washington, D.C., May 14, 1976.

MICHAEL F. BUTLER,  
General Counsel.

**APPENDIX**

The list of refiner-sellers and refiner-buyers for the period June 1, 1976 through August 31, 1976 is as follows. The list sets forth the identity of each refiner-seller and refiner-buyer, the fixed percentage share of each refiner-seller and the volumes of crude oil (reflecting all adjustments required under § 211.65) that each such refiner-seller is obligated to offer for sale (with a specification as to primary and secondary sales obligations) or that each such refiner-buyer is eligible to purchase, as the case may be.

## FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 1737]

LAWRENCE M. PARRY, JR.

Order of Revocation

On May 10, 1976, Lawrence M. Parry, Jr., P.O. Box 11133, Chattanooga, Tennessee 37401, voluntarily surrendered his

Independent Ocean Freight Forwarder License No. 1737 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), Section 5.01 (b), dated June 30, 1975;

It is ordered, That Independent Ocean Freight Forwarder License No. 1737 issued to Lawrence M. Parry, Jr., be and is hereby revoked effective May 10, 1976 without prejudice to reapply for a license in the future.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Lawrence M. Parry, Jr.

LEROY F. FULLER,  
Director Bureau of  
Certification and Licensing.

[FR Doc.76-14746 Filed 5-19-76;8:45 am]

[Docket No. 76-28]

## TRAILER MARINE TRANSPORT CORP.

## Order of Investigation and Suspension

Trailer Marine Transport Corporation (hereinafter TMT), a barge carrier serving between Jacksonville and Miami, Florida and Puerto Rico has filed with the Commission revised pages to its tariff FMC-F No. 2, identified at Appendix A, scheduled to become effective May 17, 1976. Those revised pages increase rates by fifteen percent on commodities so referenced. Contemporaneous with filing of the instant revised pages, TMT submitted its certification in lieu of financial and operating data, pursuant to General Order 11, Amendment No. 1 (46 C.F.R. § 512.3(d) (5)), affirming that not more than 50 percent of its tariff items were changed and that the changes will not increase or decrease its domestic offshore gross revenue by three percent or more.

The Puerto Rico Maritime Shipping Authority (hereinafter PRMSA), a carrier operating self propelled vessels and providing service between the United States Atlantic and Gulf Coast Ports and Puerto Rico, also offers transportation of commodities here the subject of rate increases.

In the past barge carriers have argued, and the Commission has recognized, the need for a rate differential between barge carriers and vessel operating carriers in order to attract cargo to barge service which is more hazardous, and inherently less stable and reliable than that offered by operators of self propelled vessels. Rates from Jacksonville, Florida to Puerto Rico, 10 F.M.C. 376 (1967). The result of the instant rate increase would be to eliminate the differential which exists between TMT and PRMSA on commodities the subject of the instant increases.

In Docket No. 75-18, Puerto Rico Maritime Shipping Authority—Reduced Rates from Florida to Puerto Rico, instituted May 22, 1975, TMT protested rate reductions by PRMSA, stating that elimination of the rate differential be-

tween TMT's rates and PRMSA's rates was in contravention of principles stated by the Commission in Rates from Jacksonville, Florida to Puerto Rico, supra, would cause irreparable harm to TMT, and eventually result in monopolization of the trade by PRMSA. In an attempt to resolve tariff controversies the subject of Docket No. 75-18 TMT and PRMSA entered into Commission approved Agreement No. DC-83, authorizing rate discussions in the Puerto Rican trade. Any agreement reached pursuant to DC-83 is not to be implemented until such agreement has been submitted to and approved by the Commission.

A joint protest to the instant rate increases was filed on behalf of Transconex, Inc., Econocaribe Consolidators, Inc., and Twin Express, Inc., non-vessel operating common carriers (hereinafter NVO's), in the Puerto Rican Trade. Protestants allege that TMT's proposed rate increases will divert substantial cargo from TMT to PRMSA and undermine the continued availability of TMT's service; such diversion will result in the increase of TMT's domestic offshore gross revenues by three percent or more, necessitating the submission of financial and operating data pursuant to General Order 11, Amendment No. 1, and; rate increases, if permitted to go into effect, will require NVO's to increase their LTL rates by ten to twelve percent causing diversion of cargo from them and resulting in their ultimate ruin. The protest also alleges that the instant rate action was improperly taken pursuant to Agreement No. DC-83.

TMT replied to the protest stating that the proposed FAK rate (Item No. 3260, First Revised Page 122) attempts to restore a competitive differential which previously existed between Jacksonville and Miami, Florida and North Atlantic ports. TMT also denies improper action pursuant to an unfilled and unapproved agreement and reaffirms its contention that its certification as to the effect of the subject rate increase is correct.

Upon consideration of the above matter, the Commission is of the opinion that the proposed rate increases should be made the subject of a public investigation and hearing to determine whether they are unjust, unreasonable or otherwise unlawful under Sections 16, First and 18(a) of the Shipping Act, 1916, and/or sections 3 and 4 of the Intercoastal Shipping Act, 1933. We have considered that aspect of the protest relating to alleged violations of section 15 and have determined that the question of section 15 violations should not be made a part of this investigation and hearing. The Commission is of the further opinion that the rate increases referenced by symbol on revised tariff pages identified at Appendix A should be suspended pursuant to the authority granted the Commission by section 3 of the Intercoastal Shipping Act, 1933.

Therefore, it is ordered, That pursuant to sections 16, First, 18(a), and 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933 an

investigation is hereby instituted into the lawfulness of the tariff matter listed at Appendix A for the purpose of making such findings as the facts and circumstances warrant. In the event the tariff matter is further changed, amended, or reissued, such changes are hereby ordered to be included in this investigation;

It is further ordered, That pursuant to section 3 of the Intercoastal Shipping Act, 1933, the rate increases referenced by symbol on revised tariff pages identified at Appendix A are hereby suspended and the use thereof deferred to and including September 16, 1976 unless otherwise ordered by the Commission;

It is further ordered, That there shall be filed immediately by Trailer Marine Transport Corporation a consecutively numbered supplement to the aforementioned tariff matter, which supplement shall bear no effective date, shall reproduce this Order in its entirety, and shall state that the aforesaid matter is suspended and may not be used until September 17, 1976 and that the suspended matter may not be changed until this proceeding has been disposed of or until the period of suspension has expired, and that the rates, fares, charges, classifications, rules, regulations or practices in effect prior to the date of this Order and which were to be changed by the suspended tariff matter, or part or parts thereof, shall remain in effect during the period of suspension, unless otherwise ordered by the Commission;

It is further ordered, That as part of this investigation a determination shall be made as to whether Trailer Marine Transport Corporation's proposed increase in rates is unlawful pursuant to Section 16, First of the Shipping Act, 1916, and/or unjust and unreasonable pursuant to section 18(a) of the Shipping Act, 1916 and sections 3 and 4 of the Intercoastal Shipping Act, 1933;

It is further ordered, That copies of this Order shall be filed with the appropriate tariff schedules in the Bureau of Compliance of the Federal Maritime Commission;

It is further ordered, That Trailer Marine Transport Corporation be named as Respondent in this proceeding and that Transconex, Inc., Econocaribe Consolidators, Inc., and Twin Express, Inc. be named as Complainants;

It is further ordered, That this proceeding be assigned for public hearing before an Administrative Law Judge of the Commission's Office of Administrative Law Judges and that the hearings be held at a date and place to be determined by the Presiding Administrative Law Judge, but in any event, the hearing shall commence no later than September 14, 1976.

It is further ordered, That (1) a copy of this Order be served upon respondent, complainants, and upon this Commission's Bureau of Hearing Counsel, and published in the FEDERAL REGISTER, and (II) the respondent, complainants and Hearing Counsel be duly served with notice of time and place of hearing(s);

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(1) of the Commission's Rules of Practice and Procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

[SEAL] FRANCIS C. HURNEY,  
Secretary.

## FEDERAL POWER COMMISSION

**NATIONAL GAS SURVEY SUPPLY—TECHNICAL ADVISORY TASK FORCE—SYNTHESIZED GASEOUS HYDROCARBON FUELS**

## Meeting

Conference Room 3401, Union Center Plaza Building, 941 North Capitol Street, N.E., Washington, D.C. 20426.

June 24, 1976, 9:30 A.M.

Presiding: Mr. William J. McCabe, FPC Coordinating Representative and Secretary, National Gas Survey.

1. Call to Order and Introductory Remarks—Mr. William J. McCabe.

2. Remarks by Chairman and Vice Chairman—Dr. Alan G. Fletcher, Mr. Charles W. Margolf.

3. Report of Economic Analysis Study Group—Dr. James Harris.

4. Subgroup Working Sessions—Subgroup I: (a) Review of Data Relating to required plant investment and operating expenses. (b) Discussion of Economic Analysis in each area.

Subgroup II: (a) Review of Circulated Draft Reports. (b) Determination of Format of Environmental and Siting Sections of Report.

5. Task Force Discussion Regarding Final Meeting.

6. Confirmation of Next Meeting Date, (NGS-6) August 5, 1976.

7. Other Business.

8. Adjournment—Mr. William J. McCabe.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Committee—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and

1 North Building.

20740

in the manner permitted by the Committee.

KENNETH F. PLUMB,  
Secretary.

## GENERAL SERVICES ADMINISTRATION

[Temporary Regulation F-387]

## FEDERAL PROPERTY MANAGEMENT REGULATIONS

### Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent, in conjunction with the Administrator of General Services, the consumer interests of the executive agencies of the Federal Government in proceedings before the Virginia State Corporation Commission involving intrastate telephone rates.

2. *Effective date.* This regulation is effective immediately.

### 3. Delegation.

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 3 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481 (a) (4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the Federal executive agencies before the Virginia State Corporation Commission in a proceeding involving the application of the Chesapeake and Potomac Telephone Company for increases in its intrastate rates and charges. The authority delegated to the Secretary of Defense shall be exercised concurrently with the Administrator of General Services.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

JACK ECKERD,  
Administrator of  
General Services.

## NATIONAL COMMISSION ON ELECTRONIC FUND TRANSFERS

### MEETINGS

#### Amended Notice

The meeting of the National Commission on Electronic Fund Transfers scheduled for Thursday, May 27, 1976, will not be held.

The Commission will conduct a brief workshop on Tuesday, June 15, 1976, to consider telecommunications equipment applicable to electronic funds transfer.

The workshop will begin at 10:00 a.m. and will be conducted in Washington, D.C. The exact location has not yet been determined; when it is, a notice specifying the location will be published in the Federal Register. The workshop will be open to public observation on a first call basis to the extent that limited space permits.

Any person interested in observing the workshop should first call Ms. Janet Miller at (202) 254-7400 to check on the availability of space.

Dated: May 15, 1976.

JAMES O. HOWARD, Jr.,  
Advisory Committee  
Management Officer.

## NATIONAL COMMISSION ON NEW TECHNOLOGICAL USES OF COPY- RIGHTED WORKS

### NOTICE OF MEETING AND HEARINGS

A meeting of the National Commission on New Technological Uses of Copyrighted Works will be held at 9:30 a.m. on June 9 and 10, 1976, at the offices of the Commission, located in Room 910, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, Virginia. The proceedings on June 9 will be devoted to the presentation of testimony for the purpose of obtaining information concerning the applicability and scope of copyright protection for computer software. The Commission will direct its attention on June 10 to issues concerning the use of computers in relation to the communication and dissemination of copyrighted works.

All interested member of the public, including but not limited to manufac-

turers, developers and investors involved in the creation of computer software and users of computer software, are invited to attend. In addition, all members of the public, including representatives of groups concerned with copyright protection for computer software, are invited to submit requests to present testimony for consideration at these hearings. Such requests should be accompanied by brief written statements identifying the individual or group requesting to testify, the interests of that individual or group in the issue of copyright protection for computer software, and the evidence desired to be given. All such requests should be addressed to Michael S. Keplinger, Senior Attorney, National Commission on New Technological Uses of Copyrighted Works, Washington, D.C. 20558, and must be received prior to May 30, 1976.

ARTHUR J. LEVINE,  
Executive Director.

## NATIONAL LABOR RELATIONS BOARD

### TABLE OF APPEALS CASES

#### Notice of Nonpublication

Notice is hereby given under the provisions of Section (a)(2) of the Freedom of Information Act (5 U.S.C. Section 552(a)(2)) that the General Counsel of the National Labor Relations Board has determined that it is unnecessary and impracticable to publish and distribute for sale copies of the publication entitled "Table of Appeals Cases in Which the General Counsel of the National Labor Relations Board Refused to Issue Complaint on ULP Charges Because of Insufficient Evidence." This publication is an index of cases in which the General Counsel, through the Office of Appeals, has decided not to issue complaint based upon a determination that the evidence established by the investigation "was insufficient to substantiate the charge." (Section 101.5, NLRB Statements of Procedure) Cases in which the decision by the Office of Appeals, or the Division of Advice, Office of the General Counsel, not to issue complaint was based upon a determination that "there has been no violation of the National Labor Relations Act" (Section 101.5, NLRB Statements of Procedure) are indexed in the publication entitled "Classified Index to Dispositions of ULP Charges by the General Counsel of the National Labor Relations Board." That classified index will be published and made available for purchase upon subscription from the Superintendent of Documents, Government Printing Office, in accordance with the requirements of 5 U.S.C. Section 552(a)(2).

The basis for the conclusion that publication of the above described "Table of Appeals Cases" is unnecessary and impracticable is that the refusal to issue complaint because a charge is not supported by sufficient evidence provides little or no information concerning the ac-

tion which might be taken by the General Counsel were the allegations of the charge supported by evidence, and provides little guidance to parties and the public concerning the probable disposition of other charges. In these circumstances, the public interest would not be served by expending public funds to print and distribute that table.

Notwithstanding the determination not to publish and distribute copies of the "Table of Appeals Cases", that table will be compiled on a quarterly basis and will be available for inspection and copying at any of the Regional Offices of the National Labor Relations Board, or in the public reading room of the National Labor Relations Board, 1717 Pennsylvania Avenue, NW., Washington, D.C. 20570. Copies of the "Table of Appeals Cases" will be available to any member of the public upon a payment of direct duplication cost.

Dated: May 13, 1976.

JOHN S. IRVING,  
General Counsel, National  
Labor Relations Board.

[FR Doc.76-14653 Filed 5-19-76; 8:45 am]

## NATIONAL SCIENCE FOUNDATION

### ADVISORY PANEL FOR NEUROBIOLOGY

#### Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Neurobiology.  
Date and time: June 7 and 8, 1976—9:00 a.m. each day.

Place: Room 338, National Science Foundation, 1800 G Street, N.W., Washington, D.C.  
Type of meeting: Closed.

Contact person: Dr. James H. Brown, Program Director, Neurobiology Program, Rm. 333, National Science Foundation, Washington, D.C. 20550, telephone (202) 634-4036.

Purpose of panel: To provide advice and recommendations concerning support for research in neurobiology.

Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.

Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data; such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (8) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act. Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

Dated: May 14, 1976.

M. REBECCA WINKLER,  
Acting Committee  
Management Officer.

[FR Doc.76-14537 Filed 5-19-76; 8:45 am]

## NOTICES

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-471]

### BOSTON EDISON CO., ET AL. (PILGRIM NUCLEAR GENERATING STATION, UNIT NO. 2)

#### Hearing Order

It is ordered that hearing herein will be resumed on May 24, 1976, at 1 p.m. in the Blue Room, Memorial Hall, 83 Court Street, Plymouth, Massachusetts.

Dated at Bethesda, Maryland, this 13th day of May, 1976.

THE ATOMIC SAFETY AND  
LICENSING BOARD,  
FREDERIC J. COUFAL,  
Chairman.

[FR Doc.76-14730 Filed 5-19-76; 8:45 am]

[Docket No. STN 50-532]

### C F BRAUN & CO. ET AL.

#### Safety Evaluation Report and Preliminary Design Approval Issuance

In the matter of Braun SAR turbine island standard design and its relationship to the Gessar-238 nuclear island design.

Notice is hereby given that the staff of the Nuclear Regulatory Commission (the NRC staff) has issued a Safety Evaluation Report dated May 1976 and a Preliminary Design Approval to PDA-5 dated May 7, 1976, for the turbine island portion of a BWR-6/Mark III boiling water reactor nuclear power plant, as described in the C F Braun & Co's Standard Safety Analysis Report (BRAUN SAR). BRAUN SAR, which was docketed on December 21, 1974, was reviewed by the NRC staff pursuant to Appendix O to 10 CFR Part 50. Notice of receipt of BRAUN SAR was published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1762).

BRAUN SAR contains preliminary design information for the turbine island portion of a standard plant utilizing a General Electric BWR-6/Mark III boiling water reactor nuclear power plant. The turbine island is designed to complement the nuclear island standard design described in the General Electric Standard Safety Analysis Report (GESSAR-238), Docket No. STN 50-447.

The BRAUN SAR turbine island design encompasses conventional steam-electric power conversion equipment, a portion of the offsite power supply system, and the following items important to safety: instrumentation sensor inputs into the nuclear island reactor protection system and the engineered safety features systems; structures housing the gaseous radwaste treatment system; and related systems and structures. The BRAUN SAR reference design is designed to convert the rated thermal power of 3579 megawatts received from the nuclear island to an electrical power level of 1220 megawatts nominal net.

The Safety Evaluation Report documents the results of the staff's review and evaluation of BRAUN SAR, including Amendments 1 through 8 thereto,

and addresses the comments of the Advisory Committee on Reactor Safeguards as reflected in its report to the Commission dated December 10, 1975 (Appendix C of the Safety Evaluation Report).

PDA-5 provides NRC staff approval of the preliminary turbine island design described in BRAUN SAR, including Amendments 1 through 8 thereto. By the issuance of PDA-5, the NRC staff has determined that the information provided in BRAUN SAR on the major portion of the preliminary turbine island design, as described above, and subject to conditions set forth in the PDA, is acceptable for referencing in utility applications for construction permits. The BRAUN SAR turbine island design shall be utilized by and relied upon by the NRC staff and the Advisory Committee on Reactor Safeguards in their review of facility license applications for construction permits incorporating by reference the BRAUN SAR turbine island preliminary standard design, unless there exists significant new information which substantially affects the determinations in PDA-5 or other good cause.

Issuance of PDA-5 and the staff's Safety Evaluation Report does not constitute a commitment to issue a permit or license, or in any way affect the authority of the Commission, Atomic Safety and Licensing Appeal Board, Atomic Safety and Licensing Boards, and other presiding officers in any proceeding under Subpart G of 10 CFR Part 2. This action only approves, subject to the conditions set forth in PDA-5, the design of a facility for use for reference purposes in applications for permits to construct a nuclear power plant. It does not authorize the construction or operation of any nuclear power plant or any other facility. The environmental impacts associated with any facility proposed to be constructed utilizing the approved reference design will be considered in accordance with the Commission's regulations in 10 CFR Part 51.

PDA-5 is effective as of its date of issuance and shall expire December 22, 1978, unless earlier superseded by issuance of an appropriate Final Design Approval for the BRAUN SAR turbine island standard design, or unless extended by the NRC staff. The expiration of PDA-5 on December 22, 1978, shall not affect use of PDA-5 for reference in any construction permit application docketed prior to such date.

A copy of the (1) Preliminary Design Approval No. PDA-5 dated May 7, 1976; (2) Advisory Committee on Reactor Safeguards' report dated December 10, 1975; (3) the NRC staff's Safety Evaluation Report, NUREG-0012, dated May 1976; (4) C F Braun & Co Standards Safety Analysis Report, including Amendments 1 through 8 thereto; and (5) WASH-1341, the Commission's "Programmatic Information for the Licensing of Standardized Nuclear Power Plants," dated August 1974, which also includes the Standardization Policy issued on March 5, 1973, are available for public inspection at the Commission's Public Document Room at 1717 H Street, N.W.,

Washington, D.C. 20555. A copy of PDA-5 may be obtained upon request. The request should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Attention: Director, Division of Project Management. Copies of the Safety Evaluation Report, NUREG-0012, may be purchased at current rates from the National Technical Information Service, Springfield Virginia 22161.

Dated at Bethesda, Maryland, this 7th day of May 1976.

For The Nuclear Regulatory Commission.

THOMAS H. COX,  
Acting Chief, Light Water  
Reactors Branch No. 1, Division of Project Management.

[FR Doc. 76-14731 Filed 5-19-76; 8:45 am.]

[Docket Nos. 50-440 and 50-441]

#### CLEVELAND ELECTRIC ILLUMINATING CO. AND PERRY NUCLEAR POWER PLANT, UNITS 1 AND 2

##### Issuance of Revision to Limited Work Authorization

Pursuant to the provisions of 10 CFR 50.10(e) of the Nuclear Regulatory Commission's (Commission) regulations, the Commission has authorized the Cleveland Electric Illuminating Company to conduct certain site activities in connection with the Perry Nuclear Power Plant, Units 1 and 2, prior to a decision regarding the issuance of construction permits. Notices of the Limited Work Authorizations were published in the FEDERAL REGISTER on October 29, 1974 (39 FR 38125), and January 9, 1976 (41 FR 1655).

Since that time, the Atomic Safety and Licensing Board has determined that additional activities may be authorized under the Limited Work Authorization. The additional activities that are authorized are within the scope of those authorized by 10 CFR 50.10(e) (3) and include placement and assemblage on the Reactor Building Mud Mat of reinforcing steel, temporary structures for the support of reinforcing steel and embedments, and the steel plate embedments for founding the structures within the Reactor Building.

Any activities undertaken pursuant to this authorization are entirely at the risk of the Cleveland Electric Illuminating Company and the grant of the authorization has no bearing on the issuance of construction permits with respect to the requirements of the Atomic Energy Act of 1954, as amended, and rules, regulations, or orders of the Commission promulgated pursuant thereto.

A Supplemental Partial Initial Decision on matters relating to the National Environmental Policy Act and site suitability and unresolved safety issues was issued by the Atomic Safety and Licensing Board in the above captioned proceeding on May 10, 1976. A copy of (1) the Atomic Safety and Licensing

## NOTICES

Board's Orders of October 20, 1974, December 31, 1975, and May 10, 1976; (2) the applicant's Preliminary Safety Analysis Report and amendments thereto; (3) the applicant's Environmental Report and amendments thereto; (4) the staff's Final Environmental Statement dated April 1974; and (5) the Commission's letters of authorization dated October 21, 1974, December 31, 1975, and May 12, 1976, are available for public inspection at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C., and the Perry Public Library, 3753 Main Street, Perry, Ohio.

Dated at Rockville, Maryland, this 12th day of May 1976.

For the Nuclear Regulatory Commission.

WM. H. REGAN, Jr.,  
Chief, Environmental Projects  
Branch 3, Division of Site  
Safety and Environmental  
Analysis.

[Docket Nos. 50-237 and 50-249]

#### COMMONWEALTH EDISON CO.

##### Issuance of Amendments to Facility Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 16 and 14 to Facility Operating License Nos. DPR-19 and DPR-25, respectively, issued to the Commonwealth Edison Company (the licensee), which revised Technical Specifications for operation of the Dresden Nuclear Power Station Units 2 and 3 (the facilities) located in Grundy County, Illinois. The amendments are effective as of their date of issuance.

The amendments incorporate increased surveillance requirements in the Technical Specifications to provide additional assurance that high energy line failures outside of containment will not occur during the short period of time the facilities will be operated prior to completing certain modifications to assure that the facilities can withstand the consequences of postulated ruptures in high energy piping outside of containment.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Notice of the Proposed Issuance of Amendments to Facility Operating Licenses in connection with this action was published in the FEDERAL REGISTER on October 30, 1974 (39 FR 38275). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d) (4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of the amendments.

For further details with respect to this action, see (1) the application for amendments dated December 3, 1974 and related items dated January 23, 1974, March 22, 1974, February 18, 1975, September 16, 1975 and October 21, 1975, (2) Amendment No. 16 to License No. DPR-19, (3) Amendment No. 14 to License No. DPR-25, and (4) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451.

A single copy of items (2), (3) and (4) above may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland this 12th day of May 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,  
Chief, Operating Reactors  
Branch #2, Division of Operating Reactors.

[FR Doc. 76-14733 Filed 5-19-76; 8:45 am.]

[Docket Nos. 50-295 and 50-304]

#### COMMONWEALTH EDISON CO.

##### Issuance of Amendments to Facility Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments No. 20 and 17 to Facility Operating Licenses No. DPR-39 and DPR-48 issued to Commonwealth Edison Company which revised Technical Specifications for operation of the Zion Station, Units 1 and 2, located in Zion, Illinois. The amendments are effective upon startup of Unit 1 following refueling or seven days after the date of issuance, whichever is sooner.

These amendments (1) revise the operating limits in the Technical Specifications based upon an acceptable evaluation model that conforms to the requirements of 10 CFR 50.46, (2) terminate restrictions imposed on the facility by the Commission's December 27, 1974 Order for Modification of Licenses, and (3) revise operating limits in the Technical Specifications for operation of Zion Unit 1 in fuel cycle 2.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as

required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Notice of Proposed Issuance of Amendments to Facility Operating Licenses in connection with those portions of this action relating to compliance with 10 CFR 50.46 was published in the FEDERAL REGISTER on May 22, 1975 (40 FR 22320). Prior public notice of the portions of the amendments relating to revised limits for Zion Unit 1 in fuel cycle 2 is not required since those amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d) (4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the applications for amendments dated September 3 and 6, 1974 and March 16, 1976, as supplemented December 9, 1974, April 18, 21, July 9, August 18, September 16, October 6, November 17, 1975, January 5, April 15, 19, 21, 30, May 4, and 5, 1976; (2) Amendments No. 20 and 17 to Licenses No. DPR-39 and DPR-48; and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Waukegan Public Library, 128 North County Street, Waukegan, Illinois 60085.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 12th day of May 1976.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,  
Chief, Operating Reactors  
Branch #1, Division of Operating Reactors.

[FR Doc. 76-14734 Filed 5-19-76; 8:45 am.]

#### INTERNATIONAL ATOMIC ENERGY AGENCY DRAFT SAFETY GUIDE

##### Availability of Draft for Public Comment

The International Atomic Energy Agency (IAEA) is developing a limited number of internationally acceptable codes of practice and safety guides for nuclear power plants. These codes and guides will be developed in the following five areas: Government Organization, Siting, Design, Operations, and Quality Assurance. The purpose of these codes and guides is to provide IAEA guidance to countries beginning nuclear power programs.

The IAEA Codes of Practice and Safety Guides are developed in the following way. The IAEA receives and collates

relevant existing information used by member countries. Using this collation as a starting point, an IAEA Working Group of a few experts then develops a preliminary draft and modifies it to the extent necessary to develop a draft acceptable to the IAEA Technical Review Committee. This draft Code of Practice or Safety Guide is then sent to the IAEA Senior Advisory Group, which reviews and modifies the draft as necessary to reach agreement on the draft and then forwards it to the IAEA Secretariat to obtain comments from the member states.

As a part of this program, IAEA draft Safety Guides, SG-S3a, "Meteorology—Climatology, Diffusion and Transport," and SG-S3b, "Meteorology—Extreme Meteorological Conditions in Nuclear Power Plant Siting," have been developed, and the NRC staff is soliciting comments on these Guides from the U.S. public. An IAEA Working Group, consisting of Mr. J. P. Maigne of France, Mr. D. Plattaus of the Federal Republic of Germany, Dr. V. V. Shrivalkar of India and Mr. I. Spickler (Dames and Moore) of the United States of America developed the SG-S3a draft from an IAEA collation during a meeting that was held in Vienna, Austria on March 22-April 2, 1976. An IAEA Working Group, consisting of Mr. W. Hellmuss of the Federal Republic of Germany, Mr. A. Robson of the United Kingdom and Mr. B. Zalman (Dames and Moore) of the United States of America developed the SG-S3b draft from an IAEA collation during a meeting that was held in Vienna, Austria on March 29-April 9, 1976.

As the next step in their development, these draft Safety Guides are scheduled to be reviewed by the IAEA Technical Review Committee on Siting at a meeting in Vienna, Austria on June 14, 1976. In order to have them in time for the June 1976 meeting of the Technical Review Committee, comments on these draft Safety Guides are requested by June 5, 1976. Single copies of these drafts may be obtained by a written request to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. (5 U.S.C. 522(a))

Dated at Rockville, Maryland this 13th day of May 1976.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,  
Director,  
Office of Standards Development.

[Docket No. 50-289]

#### METROPOLITAN EDISON CO. ET AL.

##### Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 16 to Facility Operating License No. DPR-50 issued to Metropolitan Edison

Company, Jersey Central Power and Light Company, and Pennsylvania Electric Company which revised Technical Specifications for operation of the Three Mile Island Nuclear Station, Unit No. 1, located in Dauphin County, Pennsylvania. The amendment is effective as of its date of issuance.

This amendment modifies the Technical Specifications to permit the use of type "C" tests, as defined in 10 CFR 50 Appendix J, to determine the leakage of valves served by the Fluid Block System.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d) (4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 15, 1976, (2) Amendment No. 16 to License No. DPR-50, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Government Publications Section, State Library of Pennsylvania, Box 1601 (Education Building), Harrisburg, Pennsylvania.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 12th day of May 1976.

[Docket No. 50-298]

#### NEBRASKA PUBLIC POWER DISTRICT

##### Issuance of Amendment to Facility License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 22 to Facility Operating License No. DPR-46, issued to the Nebraska Public Power District (the licensee), which revised Technical Specifications for operation

tion of the Cooper Nuclear Station (the facility) located in Nemaha County, Nebraska. The amendment is effective as of its date of issuance.

This amendment revises the Environmental portion of the Technical Specifications for the facility to eliminate the monthly river sampling requirements at river mile 526, and certain unnecessary monthly river samples for May through November at river mile 528.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment, Nebraska 68305. A copy of item (2) Amendment No. 22 to License No. DPR-46. Both of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Auburn Public Library, 118-15th Street, Auburn, Nebraska 68305. A copy of item (2) may be obtained upon request addressed to the United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

**NORTHERN STATES POWER CO.**  
Issuance of Amendments to Facility  
Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 12 and 6 to Facility Operating License Nos. DPR-42 and DPR-60, issued to the Northern States Power Company (the licensee), which revised the license for operation of Units 1 and 2 of the Prairie Island Nuclear Generating Plant (the facilities) located in Goodhue County, Minnesota. The amendments are effective as of their date of issuance.

The amendments revise those portions of the license and the appended Technical Specifications for the facilities to provide standard provisions for the receipt, possession and use of byproduct, source and special nuclear materials for operation of the facilities.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments is not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated November 6, 1975, (2) Amendment Nos. 12 and 6 to License Nos. DPR-42 and DPR-60, respectively, and (3) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at The Environmental Conservation Library of the Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

**NORTHERN STATES POWER CO.**  
Issuance of Amendments to Facility  
Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 13 and 7 to Facility Operating License Nos. DPR-42 and DPR-60, issued to the Northern States Power Company (the licensee), which revised Technical Specifications for operation of Units 1 and 2 of the Prairie Island Nuclear Generating Plant (the facilities) located in Goodhue County, Minnesota. The amendments are effective as of their date of issuance.

The amendments revised the Administrative Controls Section of the Appendix A portion of the Technical Specifications for the facility to reflect changes in the organizational structure of the corporate headquarters and of the facility. The amendments also clarified the qualifications, responsibilities and procedures of the Safety Audit Committee.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated May 7, 1975, (2) Amendment Nos. 13 and 7 to License Nos. DPR-42 and DPR-60, respectively, and (3) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at The Environmental Conservation Library of the Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 10th day of May, 1976.

**TENNESSEE VALLEY AUTHORITY (HARTSVILLE NUCLEAR PLANTS, PLANT A, UNITS 1 AND 2, PLANT B, UNITS 1 AND 2)**

Availability of Partial Initial Decision of the Atomic Safety and Licensing Board

Pursuant to the National Environmental Policy Act of 1969 and the Commission's Regulations in 10 CFR Part 51, notice is hereby given that a Partial Initial Decision dated April 20, 1976 by the Atomic Safety and Licensing Board

in the above-captioned proceeding relating to environmental and site suitability matters is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C., and in the Fred A. Vought Library, 311 White Oak Street, Hartsville, Tennessee.

The Partial Initial Decision is also being made available at the Office of Urban and Federal Affairs, 404 James Robertson Parkway, Nashville, Tennessee, the Mid-Cumberland Council of Governments, 226 Capitol Boulevard, Nashville, and the Upper Cumberland Development District, Burgess Falls Road, Cookeville, Tennessee.

Based on the record developed in the public hearing in the above-captioned matter, the Partial Initial Decision modified in certain respects the contents of the Final Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation relating to construction of the Hartsville Nuclear Plants.

Pursuant to the provisions of 10 CFR Part 51, the Final Environmental Statement is deemed modified to the extent that the findings and conclusions contained in the Partial Initial Decision differ from those contained in the Final Environmental Statement. As required by 10 CFR Part 51, a copy of the Partial Initial Decision, which modified the Final Environmental Statement, has been transmitted to the Council on Environmental Quality, the Environmental Protection Agency, and other interested agencies and persons.

Single copies of the Partial Initial Decision may be obtained by request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Office of Nuclear Reactor Regulation. The Final Environmental Statement is available for public inspection at the Commission's Public Document Room in Washington, D.C., and the Fred A. Vought Library, Hartsville, Tennessee. Copies of the Final Environmental Statement (NUREG 75/039) may be obtained from the National Technical Information Service, Springfield, Virginia 22161, at a cost of \$8.75 for printed copy or \$2.25 for microfiche.

Dated at Rockville, Maryland, this 13th day of May 1976.

For The Nuclear Regulatory Commission.

B. J. YOUNGBLOOD,  
Chief, Environmental Projects  
Branch 2, Division of Site  
Safety and Environmental  
Analysis.

[Dockets Nos. 50-280 and 50-281]

**VIRGINIA ELECTRIC AND POWER CO.**  
Issuance of Amendments to Facility  
Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments

No. 19 to Facility Operating Licenses Nos. DPR-32 and DPR-37 issued to Virginia Electric and Power Company which revised Technical Specifications for operation of the Surry Power Station, Units Nos. 1 and 2, located in Surry County, Virginia. These amendments are effective as of the date of issuance.

These amendments relate to the operation of Surry Units Nos. 1 and 2 with a positive moderator coefficient in the power range.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Notice of Proposed Issuance of Amendments to Facility Operating Licenses in connection with this action was published in the FEDERAL REGISTER on June 30, 1975 (40 F.R. 27509). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated June 5, 1975, as supplemented January 29, and March 5, 1976, (2) Amendments No. 19 to Licenses Nos. DPR-32 and DPR-37, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Swem Library, College of William and Mary, Williamsburg, Virginia.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director Division of Operating Reactors.

Dated at Bethesda, Maryland, this 13th day of May, 1976.

For the Nuclear Regulatory Commission.

VERNON L. ROONEY,  
Acting Chief, Operating Reactors  
Branch #4, Division of Operating Reactors.

[Docket No. 50-537]

**PROJECT MANAGEMENT CORP.**  
Special Meeting on All Pending Motions,  
Scheduling and Related Matters

May 17, 1976.

In the matter of Project Management Corporation, Tennessee Valley Author-

ity (Clinch River Breeder Reactor Plant).

Pursuant to oral notice to and agreement by counsel for all parties and intervenors, by conference telephone call on May 17, 1976, a special meeting will be held on Monday, May 24, 1976, at 10 a.m. at the Nuclear Regulatory Commission, Atomic Safety and Licensing Board Panel Office, 4th floor, East-West Towers Bldg., 4350 East West Highway, Bethesda, Maryland, to consider the following:

1. All pending motions and responses.
2. Action consistent with the Memorandum and Order of the Atomic Safety and Licensing Appeal Board entered May 12, 1976 (ALAB-330).
3. Scope and extent of this Licensing Board's Memorandum and Order of April 6, 1976.
4. Schedule revisions or amendments.
5. Other matters reasonably relating to the foregoing subjects.

Counsel are requested to have any relevant papers they desire to submit in the hands of the Licensing Board at the above address on or before 4 p.m., Friday, May 21, 1976.

It is so ordered.

Dated at Bethesda, Maryland, this 17th day of May, 1976.

THE ATOMIC SAFETY AND  
LICENSING BOARD,  
MARSHALL E. MILLER,  
Chairman.

[FR Doc. 76-14896 Filed 5-19-76; 8:45 am]

[Docket No. STN 50-485]

**ROCHESTER GAS AND ELECTRIC CORP.**  
Hearing on Application for Construction  
Permit

In the matter of Rochester Gas and Electric Corporation, (Sterling Power Project Nuclear Unit No. 1).

A Notice of Hearing on Application for Construction Permit was published in the FEDERAL REGISTER on August 30, 1974 (39 FR 31686) concerning the application of Rochester Gas and Electric Corporation to construct the Sterling Power Project Nuclear Unit 1 at a site in Cayuga County, New York, approximately 8 miles southwest of Oswego on the southeast shore of Lake Ontario. Rochester Gas and Electric Corporation was identified as the sole owner of the proposed Sterling facility in the original application. However, pursuant to a Memorandum of Understanding entered into May 16, 1974, Central Hudson Gas & Electric Corporation and Orange and Rockland Utilities, Inc. became participants in the facility. This Memorandum of Understanding was amended May 30, 1975 to add Niagara Mohawk Power Corporation as a participant. The four utilities will share in the ownership, financial support, and electrical output of the Sterling facility as set forth below:

Party:	Share percent
Rochester Gas and Electric Corp.	28
Orange and Rockland Utilities, Inc.	33
Central Hudson Gas & Electric Corp.	17
Niagara Mohawk Power Corp.	22

Rochester Gas and Electric Corporation is to have full responsibility for the construction, operation and licensing of the facility.

As a result of the addition of Orange and Rockland Utilities, Inc., Central Hudson Gas & Electric Corporation and Niagara Mohawk Power Corporation as joint owners, the Atomic Safety and Licensing Board (Board) on behalf of the Nuclear Regulatory Commission (Commission) is hereby issuing an Amended Notice of Hearing on Application for Construction Permit for the proposed facility. This Amended Notice does not alter or expand the issues for consideration set forth in the initial Notice of Hearing. By this Amended Notice the Commission is, however, affording any person whose interest may be affected by addition of Orange and Rockland Utilities, Inc., Central Hudson Gas & Electric Corporation and Niagara Mohawk Power Corporation as joint owners, the opportunity to participate in this proceeding.

Any person whose interest may be affected by the addition of the three companies as joint owners and who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR § 2.714. A petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Atomic Energy Act of 1954, as amended, to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have all the rights of the applicant to participate fully in the conduct of the hearing, such as the ex-

amination and cross-examination of witnesses, with respect to their contentions related to the matters at issue in the proceeding.

A petition for leave to intervene must be filed with the Secretary of the Commission and others as specified below by June 21, 1976. A petition for leave to intervene which is not timely will not be granted unless the Board determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Board has considered those factors specified in 10 CFR § 2.714(a)(1)-(4) and § 2.714(d).

Any person who does not wish, or is not qualified, to become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR § 2.715. A person making a limited appearance may make an oral or written statement on the record. He does not become a party, but may state his position and raise questions which he would like answered to the extent that the questions are within the scope of the issues set forth in the original Notice of Hearing. Limited appearances will be permitted at the time of the hearing at the discretion of the Board, within such limits and on such conditions as may be fixed by the Board.

Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission and others by June 21, 1976. Papers required to be filed in this proceeding shall be filed by mail or telegram addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR § 2.708, an original and twenty (20) conformed copies of each such paper with the Commission. A copy of the petition or request for limited appearance should also be sent to Auburn L. Mitchell, Esq., Counsel for NRC Staff, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555; to Lex K. Larson, Esq., 1757 N Street, N.W., Washington, D.C. 20036, and Gerald Charnoff, Esq., 1800 M Street, N.W., Washington, D.C. 20036, Attorneys for Applicant; Ecology Action, Box 94, Oswego, New York 13126; Ms. Sharon Morey, RD 3, Oswego, New York 13126; and J. Bruce MacDonald, Esq., New York State Atomic Energy Council, 99 Washington Avenue, Albany, New York 12210.

For further details, see the Rochester Gas and Electric Corporation's Environmental Report and Amendment 23 to the application dated September 1975, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., between the hours of 8:30 a.m. and 5:00 p.m. on weekdays. These documents are also available for public inspection at the Oswego City Library, 120 Second Street, Oswego, New York.

Dated at Bethesda, Maryland this 17th day of May 1976.

THE ATOMIC SAFETY AND  
LICENSING BOARD,  
EDWARD LUTON,  
Chairman.

## NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 76-21]

### ACCIDENT REPORT; STATISTICAL REPORTS; SAFETY RECOMMENDATIONS AND RESPONSES

#### Notice of Availability and Receipt

**Aircraft Accident Report.** The National Transportation Safety Board announces the release, May 11, of report No. NTSB-AAR-76-11 concerning Airlift International's takeoff accident at John F. Kennedy International Airport last September 20. The Safety Board determined that the probable cause of the accident involving the cargo carrier's McDonnell Douglas DC-8-63F was the captain's decision to use a runway that was too short for the aircraft's takeoff performance capability under existing load and weather conditions. As a result, the aircraft struck obstacles beyond the departure end of the runway before it began to climb. The Board also found that the flightcrew had failed to use available data which would have informed them that the runway was not long enough for the takeoff. The Board concluded that, although the aircraft did become airborne, the insufficient runway length did not allow the margin of safety that is provided in the normal takeoff criteria as required by 14 CFR 121.189, which relates to takeoff requirements.

**Annual Review of Aircraft Accident Data, U.S. General Aviation, Calendar Year 1974.** This statistical compilation, report No. NTSB-ARG-76-1 released by the Safety Board May 12, contains information compiled from reports of 4,425 general aviation accidents which occurred during 1974. Included in that accident total are 59 collisions between aircraft; by coding each aircraft involved, an additional 59 records are produced, bringing the total accident records to 4,484—a figure reflecting the true number of pilots and aircraft involved. The publication breaks down non-airline accident statistics in 183 pages of tables and graphs. Included are cause/factor tables for each kind of general aviation flying, severity of injury and aircraft damage by kind of flying and type of aircraft, and such selected data as pilot flight time and accident location by States.

Statistical analyses of these accidents shows a continuing pattern of accidents which could have been prevented before the aircraft left the ground, the Safety Board stated. Both preflight planning and weather hazards have been the subject of numerous Safety Board special studies, safety information bulletins, and

accident reports which are available to the general public on request.

**Chart of 1975 Transportation Fatalities.** The transportation death toll in the United States continued to decline in 1975, according to preliminary statistics released May 15 by the Safety Board. The 1975 statistics were issued in the form of its annual pie chart of transportation fatalities. (See press release SB-76-39.) The chart shows these estimated 1975 fatality totals by mode, with comparative 1974 figures in parentheses: Highway—44,690 (44,950); rail-highway grade crossings—910 (1,250); railroad—584 (582); marine—380 (379) commercial and 1,480 (1,475) recreational; aviation—124 (467) air carrier and 1,324 (1,290) general aviation; and pipeline—30 (34).

There were 49,502 fatalities in all transport modes—a reduction of 2 percent from the 50,541 total in 1975. The difference of 1,039 fatalities was caused primarily by 600 fewer highway and grade crossings deaths and 343 fewer fatalities in airline crashes. Airlines registered a 73-percent reduction in 1975, from 467 to 124. Pipeline deaths were down 12 percent, from 34 to 30. All other transportation modes showed increases or decreases of less than 5 percent.

**Aviation Safety Recommendations A-76-67 through A-76-70.** The Safety Board has been assisting the Government of Italy in its investigation of an accident which involved a Trans World Airlines B-707 at Malpensa International Airport near Milan, Italy, last December 22. Although the cause of the accident has not been determined, the Safety Board has found inadequacies in the regulations and procedures pertaining to flag air carrier operations into foreign airports. Accordingly, the Safety Board on May 13 recommended that the Federal Aviation Administration (1) amend the Operations Specifications of U.S. flag air carriers to prohibit pilots from executing an instrument approach or landing at an airport unless the latest visibility has been reported by the U.S. National Weather Service (NWS), by an NWS-approved source, or by an FAA-approved source and unless the reported visibility is equal to or greater than the carrier's landing minimums; (2) amend 14 CFR 121.651 (a) and (b) to prohibit a pilot from executing an instrument approach or from landing at an airport when the NWS, an NWS-approved source, or an FAA-approved source reports that the visibility is less than that prescribed by FAA for landing at that airport; (3) amend 14 CFR 121.651 (c) and (d) to permit the use of a weather report issued by a facility which has been approved by FAA; and (4) amend 14 CFR 121.653 to require that weather reports cited in this rule be issued by the NWS, by an NWS-approved source, or by a source approved by the FAA. The Board asks "urgent followup" on the first recommendation (Class I); the remaining three recommendations are labeled "Class II—priority followup."

**Highway Safety Recommendations H-76-11 through H-76-15.** In a letter issued May 11 to the Secretary of Transportation, the Safety Board has issued five "priority followup" recommendations regarding bridge-railing structure. The recommendations resulted from Board investigation of the collapse of the Yadkin River Bridge near Siloam, North Carolina, February 23, 1975, after an automobile crashed into a vital structural member of the bridge. The Safety Board has recommended that the Federal Highway Administration (1) develop and publish, as a part of the FHWA research program, guidelines for the structural retrofit of bridge railings on existing bridge structures to protect vital structural members from impact by vehicles; (2) include under the National Bridge Inspection Standards and under Highway Safety Program Standard No. 12, "Highway Design, Construction and Maintenance," a requirement that bridge inspection reports be analyzed and evaluated within a specified time period, and that any changes in load limits be posted promptly; (3) include under Highway Safety Program Standard 12, a requirement that all bridges on public roadways be inspected for safety under the same criteria established for bridges on the Federal-aid system under the National Bridge Inspection Standard; (4) institute a program in cooperation with the States which provides for the investigation, by multidisciplinary accident investigation teams, of (a) all bridge collapses on public roadways, and (b) accidents involving vehicles that have struck traffic barrier railings on bridges and damaged structural members vital to the bridge's stability—the number of such investigations to be sufficient to identify the characteristics of individual traffic barrier railings and to identify how such characteristics affect the severity of accidents; and (5) in cooperation with the States, perform a sufficient quantity of skid tests on timber roadway surfaces to establish if such surfaces can normally meet the recommended skid number values contained under Highway Safety Program Standard 12.

**Letters in Response to Aviation Safety Recommendations.** In a May 6 response to recommendation A-76-1, the Federal Aviation Administration states that, in cooperation with the Alaska State Aviation Division, it has developed a new and effective procedure for the issuance of NOTAM's at Alaskan airports which do not have managers. In response to recommendation A-76-2, FAA has requested the Alaska State Aviation Division to complete their program to increase the conspicuity of runways by December 1976. (See 41 FR 7600, February 19, 1976.)

Also on May 6, FAA responded to recommendation A-76-4 (41 FR 10482, March 11, 1976), stating that Airworthiness Directive, Amendment 39-2583 was issued April 13, 1976. According to FAA, this requires repetitive inspections of the wing for wood deterioration and installation of additional drain holes in the wing, and as necessary, wing repair on Bellanca Model Series 14-19, 17-30, and 17-31.

The accident report, statistical report, transportation fatality chart, and safety recommendation letters are available to the general public; single copies may be obtained without charge. Copies of the letters responding to recommendations may be obtained at a cost of \$4.00 for service and 10¢ per page for reproduction. All requests must be in writing, identified by report or recommendation number and date of publication of this FEDERAL REGISTER notice. Address inquiries to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident report and the annual review of aircraft accident data may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1907)).)

May 17, 1976.

MARGARET L. FISHER,  
Federal Register Liaison Officer.

## OFFICE OF MANAGEMENT AND BUDGET

### CLEARANCE OF REPORTS

#### Lists of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on May 14, 1976 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

## CONTINENTAL VENDING MACHINE CORP.

## Notice of Suspension of Trading

MAY 13, 1976.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Continental Vending Machine Corporation being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from May 14, 1976 through May 23, 1976.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 76-14719 Filed 5-19-76; 8:45 am]

## PACIFIC STOCK EXCHANGE INC.

## Self-Regulatory Organizations

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on May 3, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

## STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

Pacific Stock Exchange Incorporated (the "Exchange") proposes to clarify certain aspects of the transfer fees imposed upon sales and other transfers of membership by Section 9(a) (Initial and Transfer Fees) of its Rule IX (Exchange Membership), to integrate into the present Section 9(a) the Special Transfer Fee of \$5000 imposed upon certain sales and other transfers of memberships as a

part of the Exchange's Options Funding Plan of 1975, and to impose a \$300 processing fee for processing Agreements with Respect to Financing Membership, which are also known as "XYZ Agreements".

The text of the existing Section 9(a) of Rule IX, with brackets used to indicate words to be deleted and underscoring used to indicate words to be added, is set forth in Attachment A to this Notice.

## STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed change is as follows:

The purposes of the proposed rule change are: (1) to clarify certain aspects of the present Section 9(a); (2) to integrate into the present Section 9(a) the Special Transfer Fee originally imposed as a part of the Exchange's Options Funding Plan of 1975, which was the subject of File No. SR-PSE-75-1; and (3) to impose a processing fee for the processing of Agreements with Respect to Financing Membership, which were the subject of File No. SR-PSE-76-12. The purpose of the Special Transfer Fee was discussed in File No. SR-PSE-75-1, and the purpose of the processing fee charged for the processing of Agreements with Respect to Financing Membership is to defray the expenses incurred by the Exchange in connection with such processing.

The proposed rule change relates to the equitable allocation of reasonable fees and other charges among the members and member firms of the Exchange.

Comments on the proposed rule change have not been solicited from Exchange members and member firms, and none have been received.

The proposed rule change will not impose any burden on competition.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 21, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

MAY 13, 1976.

## ATTACHMENT A

## Initial [and], Transfer and Processing Fees

Sec. 9(a). In accordance with Section 2 of Article VII of the Constitution, [on the purchase and sale of a membership there shall be an initial fee paid by the buyer and a transfer fee paid by the seller to the Exchange amounting to 5% of the purchase price of the membership, with a minimum of \$300 each. However, on the intra-firm transfers the initial and transfer fees shall be \$100 each.

When a member firm is acquired by a non-member securities firm by merger or otherwise and the non-member firm qualifies as a member firm, a fee of \$500 shall be paid.] the following initial and transfer fees shall be payable in connection with the acquisition or transfer of a membership:

(i) Sale of Membership. Unless one of the special provisions set forth below applies, in the event that a membership is sold by a member or a member organization, the buyer shall pay an initial fee equal to the greater of 5% of the purchase price or \$500.

(ii) Intra-Organization Transfers. In the event that a membership is transferred from one member to another member in the same member organization, the transferor and transferee shall each pay a transfer fee of \$100 to the Exchange, provided, however, that a member who purchased more than one membership in connection with the Options Funding Plan of 1975 may transfer a number of memberships equal to one less than the number of memberships so purchased to a member or members within the same member organization as the transferring member without payment of a transfer fee.

(iii) Inter-Organization Transfers. In the event that a member transfers a membership from one member organization to another member organization (the "new member organization") in connection with joining the new member organization, the member shall pay a transfer fee of \$100 to the Exchange, provided, however, that a member who purchased more than one membership in connection with the Options Funding Plan of 1975 may transfer a number of memberships equal to one less than the number of memberships so purchased to the new member organization without payment of a transfer fee.

(iv) Acquisition of a Member Organization. In the event that a member organization is acquired by a non-member organization, by merger or otherwise, the non-member organization shall pay to the Exchange, upon qualification as a member organization, a transfer fee equal to \$500 plus \$200 for each membership in excess of one held by the member organization acquired.

(v) Member Conferring Privileges of Membership on a Non-Member Organization. In the event that a member confers the privileges of his membership on a non-member organization, the non-member organization shall pay to the Exchange, upon qualification as a member organization, a transfer fee equal to \$500 plus \$200 for each membership in excess of one with respect to which it has been conferred the privileges of membership by the member.

(vi) Transfers to Wholly-Owned Subsidiaries or Parents. In the event that a member

organization transfers one or more memberships to an existing wholly-owned subsidiary or to a corporation that owns 100% of the outstanding capital stock of the member organization prior to and at the time of the transfer, the transferee shall pay a transfer fee of \$500 to the Exchange.

(vii) Special Transfer Fee. In the event that a membership or memberships are sold or transferred by a member or a member organization which purchased one or more Type "B" or Type "C" memberships in connection with the Options Funding Plan of 1975, for a period of one year following the initial purchase date of such Type "B" or Type "C" membership or memberships, a Special Transfer Fee of \$5,000 shall be payable in connection with the transfer of a membership by such members or member organizations, as follows:

(a) Sale of Membership. In the event that a membership or memberships are sold by a member or member organization, the seller shall pay to the Exchange, in addition to the transfer fee set forth in Sec. 9(a)(i) of this Rule, a Special Transfer Fee for each membership sold, up to the number of Type "B" and Type "C" memberships purchased by the seller in connection with the Options Funding Plan of 1975 (less the number of memberships previously sold or transferred by the seller with respect to which the Special Transfer Fee was paid to the Exchange).

(b) Acquisition of a Member Organization. In the event that a member organization is acquired by a non-member organization, by merger or otherwise, the non-member organization shall pay to the Exchange, upon qualification as a member organization, a Special Transfer Fee for each membership held by the acquired member organization which is activated (registered in the name or names of different persons in the non-member organization as members or nominee members) during the one-year period the Special Transfer Fee is applicable, up to the number of Type "B" and Type "C" memberships purchased by the acquired member organization in connection with the Options Funding Plan of 1975 (less the number of memberships previously sold or transferred by the acquired member organization with respect to which the Special Transfer Fee was paid to the Exchange). The transfer fee provided in Sec. 9(a)(iv) of this Rule shall not apply to memberships subject to the Special Transfer Fee provided in this Sec. 9(a)(vii) (b), but it shall apply to any memberships not subject to the Special Transfer Fee provided in this Sec. 9(a)(vii) (b) by virtue of either the limitation on the number of memberships subject to the Special Transfer Fee or the fact that they are not activated (registered in the name or names of different persons in the non-member organization as members or nominee members) during the one-year period the Special Transfer Fee is applicable.

(c) Member Conferring Privileges of Membership on a Non-Member Organization. In the event that a member confers the privileges of his membership on a non-member organization, the non-member organization shall pay to the Exchange, upon qualification as a member organization, a Special Transfer Fee for each membership with respect to which it has been conferred the privileges of membership by the member, up to the number of Type "B" and Type "C" memberships purchased by the member in connection with the Options Funding Plan of 1975 (less the number of memberships previously sold or transferred by the member with respect to which the Special

Transfer Fee was paid to the Exchange). The transfer fee provided in Sec. 9(a)(v) of this Rule shall not apply to memberships subject to the Special Transfer Fee provided in this Sec. 9(a)(vii) (c), but it shall apply to any memberships not subject to the Special Transfer Fee provided in this Sec. 9(a)(vii) (c) by virtue of either the limitation on the number of memberships subject to the Special Transfer Fee or the fact that they are not activated (registered in the name or names of different persons in the non-member organization as members or nominee members) during the one-year period the Special Transfer Fee is applicable.

Notwithstanding the provisions of this Sec. 9(a)(vii), the Board of Governors of the Exchange may in its discretion waive all or any part of the Special Transfer Fee in accordance with the terms of the Options Funding Plan of 1975.

(viii) Fees for Processing Agreements with Respect to Financing of Membership. An individual (referred to as the "applicant" in an Agreement with Respect to Financing Membership) with respect to whom the benefits of membership are conferred or sought to be conferred through an Agreement with Respect to Financing Membership (also known as, and hereinafter referred to as, an "XYZ Agreement"), shall pay to the Exchange a processing fee of \$300 upon the submission of the XYZ Agreement to the Exchange. In the event the individual confers his membership privileges on an existing member organization, the processing fee shall be \$200.

[File No. 81-201]

## UNITED AIR LINES, INC.

## Notice of Application and Opportunity for Hearing

MAY 11, 1976.

Notice is hereby given that United Air Lines, Inc. ("Applicant") has filed an application pursuant to Section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act"), for a finding that an exemption from the requirement to file reports pursuant to Section 13 of the 1934 Act would not be inconsistent with the public interest or the protection of investors.

Section 13 of the 1934 Act provides that every issuer of a security registered pursuant to Section 12 of the 1934 Act shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate for the proper protection of investors and to ensure fair dealing in the security, such information and documents required to be included in or filed with an application or registration statement filed pursuant to such Section 12 and such annual reports and such quarterly reports as the Commission may prescribe.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the periodic reporting provisions of Section 13 if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, income or assets of the

issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states, in part:

1. Applicant, a Delaware corporation, is an air carrier which is wholly owned by UAL, Inc. ("UAL").

2. Applicant has outstanding \$82,745,000 principal amount of 5% Subordinated Debentures due December 1, 1991 ("5% Debentures") and \$99,221,000 principal amount of 4 1/4% Subordinated Debentures due July 1, 1992 ("4 1/4% Debentures"). These Debentures were originally convertible into shares of common stock of Applicant.

3. As a result of a plan of reorganization effected in 1969 (by which Applicant became a wholly owned subsidiary of UAL) supplemental indentures were entered into which made the Debentures convertible into shares of common stock of UAL, and also made UAL primarily liable on the Debentures.

4. None of the securities of Applicant (other than the 5% Debentures and 4 1/4% Debentures) are held by any person other than UAL.

In the absence of an exemption, Applicant is required to file certain periodic reports with the Commission pursuant to Section 13 of the 1934 Act.

Accordingly, Applicant believes that the exemption order requested by it is appropriate in view of the fact that none of the securities of the Applicant (other than the Debentures) are held by any person other than UAL and that it is the 1934 Act Reports of UAL and not those of Applicant in which investors would be primarily interested. Additionally, continued reporting would be burdensome and expensive to Applicant.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C.

Notice is further given that any interested person not later than June 4, 1976, may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed to: Secretary, Securities and Exchange Commission, 500 North Capitol Street, N.W., Washington, D.C. 20549 and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. At any time after said date, an order granting the application in whole or in part may be issued upon request or upon the Commission's own motion.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

# **SOUTHWEST CAPITAL INVESTMENTS, INC.**

[License No. 06/06-0179]

## **Notice of Issuance of License**

On March 22, 1976, a notice was published in the FEDERAL REGISTER (41 FR 11909) stating that Southwest Capital Corporation, 127-B Jefferson, N.E., Albuquerque, New Mexico 87108, had filed an application with the Small Business Administration (SBA), pursuant to Section 107.102 of the Regulations governing small business investment companies (13 C.F.R. Section 107.102(1976)), for a license to operate as a small business investment company (SBIC).

The notice also stated, among other things, that the applicant had agreed to change its name because of the similarity to the names of former and existing licensees.

Interested parties were given to the close of business, April 6, 1976, to submit their written comments to SBA.

Notice is hereby given that, having considered the application and all other pertinent information, SBA has issued Li-

cense No. 06/06-0179 in the (new) name of Southwest Capital Investments, Inc., pursuant to Section 301(c) of the Small Business Investment Act of 1958, as amended.

(Catalog of Federal Domestic Assistance Program No. 59-011 Small Business Investment Companies)

Dated: May 10, 1976.

JAMES THOMAS PHELAN,  
Deputy Associate Administrator  
for Investment.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 76-14849 Filed 5-19-76; 8:45 am]

# **FOURTH SECTION APPLICATION FOR RELIEF**

MAY 17, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before June 4, 1976.

FSA No. 43164—Joint Water-Rail Container Rates—Baltic Shipping Company. Filed by Baltic Shipping Company, (No. 103), for itself and interested rail carriers. Rates on general commodities, between ports in Europe, and rail stations on the U.S. Atlantic Coast Seaboard.

Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice No. 62]

# **MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS**

MAY 12, 1976.

The following are notices of filing of applications for temporary authority under Section 210(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR § 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be gov-

erned by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

## **MOTOR CARRIERS OF PROPERTY**

No. MC 48948 (Sub-No. 7TA) (Correction), filed April 8, 1976, published in the FEDERAL REGISTER issue of April 28, 1976, republished as corrected this issue.

Applicant: THE HOCKING CARTAGE COMPANY, R.R. 2, Logan, Ohio 43138. Applicant's representative: James M. Burtch, 100 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Glass cullet, in dump vehicles, from the plantsite of the Mattoon Lamp plant of The General Electric Company, at or near Mattoon, Ill., to the plantsite of the Logan Glass Plant of The General Electric Company, at or near Logan, Ohio, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Logan Glass Plant, The General Electric Company, Box 699, Logan, Ohio 43218. Send protests to: Frank L. Calvary, District Supervisor, Interstate Commerce Commission, 220 Federal Bldg., & U.S. Courthouse, 85 Marconi Blvd., Columbus, Ohio 43215. The purpose of this republication is to correctly show the authority sought in this proceeding.

No. MC 78400 (Sub-No. 48TA), filed May 3, 1976. Applicant: BEAUFORT TRANSFER COMPANY, P.O. Box 151, Gerald, Mo. 63037. Applicant's representative: John E. Burruss, Jr., Central Trust Bldg., P.O. Box 1069, Jefferson City, Mo. 65101. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, commodities in bulk, and household goods, over regular routes serving the facilities of Union Electric Company, at or near Reform, Mo., as an off-route point in connection with applicant's presently authorized regular route operation. Applicant intends to tack its existing authority with MC 78400, applicant also intends to interline at St. Louis, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Union Electric Company, P.O. Box 149, 1901 Gratiot St., St. Louis, Mo. 63168. Send protests to: J. P. Werthmann, District Supervisor, Interstate Commerce Commission, Room 1465, 210 N. 12th St., St. Louis, Mo. 63101.

No. MC 100666 (Sub-No. 319TA), filed May 3, 1976. Applicant: MELTON

TRUCK LINE, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Dean Williamson, 280 National Foundation Life Bldg., 3535 NW 58th St., Oklahoma City, Okla. 73112. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Footwalks, from Gulfport, Miss., to points in Arkansas, Louisiana, Oklahoma, and Texas, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: IKG Industries, a division of Horco Corporation, P.O. Box 479, Nashville, Tenn. 37202. Send protests to: Ray C. Armstrong, Jr., District Supervisor, 9038 Federal Bldg., 701 Loyola Ave., New Orleans, La. 70113.

No. MC 117574 (Sub-No. 275TA), filed May 4, 1976. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: James W. Hagar, P.O. Box 1166, Harrisburg, Pa. 17108. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Buildings, building panels, building parts, and materials, accessories, and supplies used in the installation, erection, and construction of buildings, building panels and building parts (except commodities in bulk), from the plantsite and storage facilities of Butler Manufacturing Company, located at Annville (Lebanon County), Pa., to points in Connecticut, Delaware, the District of Columbia, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, and West Virginia, restricted to traffic originating at the above-named plantsite and storage facilities, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Butler Manufacturing Co., Annville, Pa. Send protests to: Robert P. Amerine, District Supervisor, Interstate Commerce Commission, 278 Federal Bldg., P.O. Box 869, Harrisburg, Pa. 17108.

No. MC 118159 (Sub-No. 174TA), filed May 3, 1976. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., P.O. Box 51366, Dawson Station, Tulsa, Okla. 74151. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Novelty ice cream products and water ices (except in bulk), in mechanically-refrigerated trailers, from Ocala, Fla., to points in Alabama, Georgia, Tennessee, North Carolina, South Carolina, Virginia, West Virginia, Kentucky, Maryland, Delaware, Pennsylvania, Rhode Island, New Jersey, New York, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and the District of Columbia, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Gold Bond Ice Cream, 608 Packerland Drive,

Green Bay, Wis. 54303. Send protests to: Joe Green, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 240, Old Post Office Bldg., 215 NW 3rd St., Oklahoma City, Okla. 73102.

No. MC 119669 (Sub-No. 56TA) (Correction), filed April 9, 1976, published in the FEDERAL REGISTER issue of April 23, 1976, republished as corrected this issue. Applicant: TEMPCO TRANSPORTATION, INC., P.O. Box 254, Plainfield, Ind. 46168. Applicant's representative: G. James Bonnette (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meats, meat products, and meat by-products, and articles distributed by meat packing-houses, as described in Sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Iowa Beef Processors, Inc., at or near Amarillo, Tex., to points in Alabama, Colorado, Connecticut, Delaware, the District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and South Dakota, for 180 days. Supporting shipper: Iowa Beef Processors, Inc., Dakota City, Nebr. 68731. Send protests to: Fran Sterling, Interstate Commerce Commission, Federal Bldg., & U.S. Courthouse, 46 East Ohio St., Room 429 Indianapolis, Ind. The purpose of this republication is to correct the territorial description.

No. MC 123056 (Sub-No. 3TA), filed May 5, 1976. Applicant: GENE MCGINNIS, doing business as FREDONIA TRUCK LINE, Highway 96 and Jackson St., Fredonia, Kans. 66736. Applicant's representative: Laurel D. McClellan, P.O. Box 478, Fredonia, Kans. 66736. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Soybean meal and soybean mill run, from Fredonia, Kans., to points in Arkansas, Missouri (except St. Louis), Oklahoma, and Texas (except points in Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery, and Waller Counties, Tex.), under a continuing contract with Archer-Daniels-Midland Company, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Archer-Daniels-Midland Company, 209 West Adams, P.O. Box 558, Fredonia, Kans. 66736. Send protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, 501 Petroleum Bldg., Wichita, Kans. 67202.

No. MC 126489 (Sub-No. 30TA), filed May 3, 1976. Applicant: GASTON FEED TRANSPORTS, INC., P.O. Box 1066,

Hutchinson, Kans. 66603. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry animal feed* (except salt and salt products), from Hutchinson, Kans., to points in Alabama, Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Louisiana, Mississippi, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, and Wisconsin, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Kal-Kan Foods, Inc., 3386 East 44th St., Vernon, Calif. 90058. Send protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, 501 Petroleum Bldg., Wichita, Kans. 67202.

No. MC 128653 (Sub-No. 12TA) (Correction), filed March 30, 1976, published in the *FEDERAL REGISTER* issue of April 23, 1976, republished as corrected this issue. Applicant: LARSON TRANSFER & STORAGE CO., INC., 950 West 94th St., Minneapolis, Minn. 55431. Applicant's representative: R. H. Kroeger, 1745 University Ave., St. Paul, Minn. 55104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lawn and garden maintenance equipment, snowblowers, and attachments for lawn and garden maintenance equipment and snowblowers, and parts, materials, and supplies used in the manufacture of lawn and garden maintenance equipment and snowblowers*, between Minneapolis, Burnsville, Brooklyn Park, Windom, Minn., and Tomah, Wis., and their commercial zones; (2) *Parts, material and supplies used in the manufacture of lawn and garden maintenance equipment and snowblowers*, between Minneapolis, Burnsville, Brooklyn Park, and Windom, Minn., and Tomah, Wis., on the one hand, and Mankato, Madelia, Shalopee, St. James and St. Cloud, Minn.; Crafton and New Holstein, Wis., on the other, and the commercial zones thereof. Restrictions: (a) The operations authorized herein are limited to a transportation service to be performed under a continuing contract or contracts with the Toro Company of Bloomington, Minn.; (b) the authority named in (2) above will not apply on internal combustion engines from New Holstein and Grafton, Wis., to Windom, Minn.; and (c) the authority named in (1) above will not apply on parts, materials, and supplies used in the manufacture of lawn or garden maintenance equipment, including snowblowers and attachments for the above-named commodities between Minneapolis and St. Paul, Minn., on the one hand, and, on the other, Windom, Minn., on shipments having a prior or subsequent movement by air freight, for 180 days. Supporting shipper: The Toro Company, 8111 Lyndale Ave. South, Bloomington, Minn. 55420. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bu-

reau of Operations, 414 Federal Bldg., & U.S. Courthouse, 110 South Fourth St., Minneapolis, Minn. 55401. The purpose of this republication is to correct the restriction in this proceeding.

No. MC 134564 (Sub-No. 4TA), filed May 3, 1976. Applicant: GLOVER TRUCKING CORP., P.O. Box 7206, Holland Station, Suffolk, Va. 23437. Applicant's representative: Charles Ephraim, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural pesticides and emulsifiers used in connection therewith* (except in bulk, in tank vehicles); (1) from Miami and Orlando, Fla.; Atlanta and Bainbridge, Ga.; Wyoming, Ill.; Opelousas, La.; Cockeysville, Md.; Greenville, Miss.; Dayton and Edison, N.J.; Ayden, Goldsboro, and Greensboro, N.C.; Columbus, Ohio; Bamberg and Charleston, S.C., to points in Rockingham, Augusta, Page, Nelson, Greene, Albemarle, Madison, Spotsylvania, Caroline, Essex, and Richmond Counties, Va., points in Virginia in, east, and south of Brunswick, Dinwiddie, Chesterfield, Henrico, New Kent, James City, and York Counties, Va., and the city of Richmond, Va., and points in North Carolina in, east, and north of Northampton, Halifax, Nash, Wilson, Wayne, Lenoir, Craven, and Carteret Counties, and (2) from Holland Station, Suffolk, Va., to points in North Carolina in, east, and north of Northampton, Halifax, Nash, Wilson, Wayne, Lenoir, Craven, and Carteret Counties. Restriction: The above transportation service is limited to that performed under a continuing contract or contracts with Glover Fertilizer & Grain Corp. of Holland Station, Suffolk, Va., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Morris H. Glover, Glover Fertilizer & Grain Corp., P.O. Box 7206, Holland Station, Suffolk, Va. 23437. Send protests to: Paul D. Collins, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 10-502, Federal Bldg., Richmond, Va. 23240.

No. MC 135797 (Sub-No. 53TA), filed May 3, 1976. Applicant: J. B. HUNT TRANSPORT, INC., P.O. Box 200, Lowell, Ark. 72745. Applicant's representative: L. C. Cyper, 204 Highway 71 North, Suite 3, Springdale, Ark. 72764. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Oil absorbents, padding, and cushioning materials*; (2) *wallboard, insulation, and insulation materials*; and (3) *Mulch*; also equipment, materials, and accessories used in installation or application of commodities named in (2) and (3), from the plantsite and warehouse facilities of Conwed Corporation, Cloquet, Minn., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, Oregon, Washington, and Wyoming, for 180 days. Applicant has also filed an underlying ETA seeking up to 90

days of operating authority. Supporting shipper: Conwed Corporation, Cloquet, Minn. 55720. Send protests to: William H. Land, Jr., District Supervisor, 3108 Federal Office Bldg., 700 West Capitol, Little Rock, Ark. 72201.

No. MC 138835 (Sub-No. 21TA), filed May 4, 1976. Applicant: EASTERN REFRIGERATED TRANSPORT, INC., P.O. Box 472, Harrisonburg, Va. 22801. Applicant's representative: Harry J. Jordan, 1000 16th St. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods*, between Crozet, Va., and Russellville, Ark., restricted to shipments originating at and destined to Morton Frozen Foods Division of ITT Continental Baking Company, Inc., at the above-named points; and (2) *frozen bread dough*, from the plantsite and facilities of Witterau and Company, at or near St. Louis, Mo., to the plantsite and facilities of Morton Frozen Foods Division of ITT Continental Baking Company, Inc., at Russellville, Ark., restricted to the above-named plantsites and facilities, for 180 days. Supporting shipper: Morton Frozen Foods, Division of ITT Continental Baking Co., Inc., P.O. Box 7547, Charlottesville, Va. 22906. Send protests to: Danny R. Beeler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, P.O. Box 210, Roanoke, Va. 24011.

No. MC 139495 (Sub-No. 145TA), filed May 3, 1976. Applicant: NATIONAL CARRIERS, INC., P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dublin, 1819 H St., NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Toys and games*, from the plantsite and storage facilities of the Milton Bradley Company, located at or near East Longmeadow, Mass., and Voorheesville, N.Y., to points in Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, Oklahoma, Kansas, Texas, North Dakota, South Dakota, Nebraska, Wyoming, Colorado, New Mexico, Montana, Washington, Oregon, Idaho, California, Nevada, Utah, Arizona, Louisiana, and Arkansas, for 180 days. Supporting shipper: Milton Bradley Company, 443 Shaker Road, E. Longmeadow, Mass. 01028. Send Protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, 501 Petroleum Bldg., Wichita, Kans. 67202.

No. MC 139541 (Sub-No. 3TA), filed May 4, 1976. Applicant: JOSEPH RAIMO III, INC., P.O. Box 321, Temple, Pa. 19560. Applicant's representative: John W. Dry, 541 Penn St., Reading, Pa. 19601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Foundry sand and foundry supplies for International Foundry Supply, Inc., Reading, Pa., between Reading, Pa., on the one hand, and Chicago, Ill.; Cleveland, Ohio; Milwaukee, Wis.; Green Moun-*

*tain, N.C.; Dearborn, Mich.; Fort Worth, Tex., and points in Maryland and New Jersey*, under a continuing contract with International Foundry Supply, Inc., for 180 days. Supporting shipper: International Foundry Supply, Inc., 400 Orton Ave., Reading, Pa. Send protests to: Monica A. Blodgett, Transportation Assistant, Interstate Commerce Commission, 600 Arch St., Room 3238, Philadelphia, Pa. 19106.

No. MC 140952 (Sub-No. 1TA), filed May 3, 1976. Applicant: HELEN G. LEE, doing business as REFRIGERATED EXPRESS, 1209 Kanawha Terrace, Huntington, W. Va. 25701. Applicant's representative: John M. Friedman, 2930 Putnam Ave., Hurricane, W. Va. 25526. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Candy or confectionery and medicinal candies*, moving in refrigerated equipment, from Huntington, W. Va., to points in Bland, Tazewell, Montgomery, and Giles Counties, Va.; Galla, Lawrence, and Washington Counties, Ohio; Pike, Boyd, and Lawrence Counties, Ky.; and Mercer, McDowell, Wyoming, Raleigh, Mingo, Logan, Wayne, Lincoln, Boone, Fayette, Nicholas, Clay, Kanawha, Putnam, Cabell, Mason, Roane, Calhoun, Gilmer, Braxton, Lewis, Harrison, Doddridge, Ritchie, Wirt, and Wood Counties, W. Va., for 180 days. Supporting shipper: Gary E. Niemeyer, Traffic Manager, Consolidated Foods, Inc., 836 South Chestnut, Centralia, Ill. 62801. Send protests to: H. R. White, District Supervisor, Interstate Commerce Commission, 3108 Federal Office Bldg., 500 Quarrier St., Charleston, W. Va. 25301.

No. MC 141972 (Sub-No. 1TA), filed April 28, 1976. Applicant: BEVERLY HUGH COMMINS, doing business as COMMINS TRANSPORT INC., Rt. 1, Box 52-B, King William, Va. 23086. Applicant's representative: Beverly Hugh Commins (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and the return of empty containers*, from Williamsburg, Va., to Washington, D.C., and its commercial zone, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Rocco Franchi, Traffic Manager, Anheuser-Busch, Inc., P.O. Drawer U, Williamsburg, Va. 23185. Send protests to: Paul D. Collins, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 10-502 Federal Bldg., 400 North 8th St., Richmond, Va. 23240.

No. MC 142022TA, filed May 3, 1976. Applicant: FRED LAFLAIR, Route No. 2, Canton, N.Y. 13617. Applicant's representative: Roy D. Pinsky, 345 South Warren St., Syracuse, N.Y. 13202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry animal and*

*poultry feed*, in bulk, in vehicles equipped with self-unloading devices for blower delivery from shipper's plant in Town of Gouverneur (St. Lawrence County), N.Y., to Sheldon Junction, Vt.; *Returned, refused, and rejected shipments on return*, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: R. E. Christopher, Purchasing/Traffic Manager, Allied Mills, Inc., P.O. Box 277, Alexander, N.Y. 14005. Send protests to: Morris H. Gross, District Supervisor, Interstate Commerce Commission, Room 104, 301 Erie Blvd., West Syracuse, N.Y. 13202.

No. MC 142023TA, filed May 3, 1976. Applicant: DALTON EQUIPMENT LIMITED, Highway 2 East, Box 458, Tilbury, Ontario, Canada. Applicant's representative: John W. Bryant, 900 Guardian Bldg., Detroit, Mich. 48228. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors* (except tractors equipped with vehicle beds, bed frames, or fifth wheels); and (2) *agricultural implements, attachments, and tractor parts*, in mixed loads with tractors as described in (1) above, from the plantsites of Massey-Ferguson, Inc., at Detroit and Dearborn, Mich., to the International Boundary between the United States and Canada, at Detroit, Mich., restricted to shipments originating at the above-named plantsites and destined to farm equipment dealers at points in Ontario, Canada, lying on and south of Kings Highway No. 86, between Guelph and Lake Huron, and on, south, and west of Kings Highway No. 6 between Guelph and Port Dover, for 180 days. Supporting shippers: There are approximately 6 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Melvin P. Kirsch, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 110 Broderick Tower, 10 Witherell, Detroit, Mich. 48226.

No. MC 142026TA, filed April 19, 1976. Applicant: RAY KUMPF, doing business as A. & R. TRANSPORT, 7321 South 78th St., Omaha, Nebr. 68128. Applicant's representative: Ray Kumpf (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New and used trailers and semi-trailers and parts thereof*, in primary and secondary movement, from Elk Point, S. Dak.; Sioux City, Iowa; and Omaha, Nebr., to points in Nebraska, Kansas, Oklahoma, Texas, Arkansas, and Iowa; and from Brady, Tex.; Camden and Ashdown, Ark.; Oklahoma City and Tulsa, Okla.; Great Bend, Kans.; to Omaha, Nebr., and Oklahoma City, Okla., for 180 days. Supporting shipper: Gaston Breazeale, General Partner, American Semi-Trailers of Iowa, 1705 W. South

Omaha, Bridge Road, Council Bluffs, Iowa 51501. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Suite 620, 110 North 14th St., Omaha, Nebr. 68102.

No. MC 142027TA, filed May 3, 1976. Applicant: R. L. DRAYMEN LTD., 2611 County Line Road, Medina, N.Y. 14103. Applicant's representative: S. Micheal Richards, 44 North Ave., Webster, N.Y. 14580. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Automotive parts and accessories*, from Williamsville, N.Y., to Albion, Bradford, Corry, Coudersport, Edinboro, Erie, Kane, Port Allegany, Ridgway, Sheffield, Shinglehouse, Warren, Westfield, and Youngsville, Pa., under a continuing contract with NAPA Buffalo, Division of Genuine Parts Company, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: NAPA Buffalo, Division of Genuine Parts Company, 2401 Wehrle Drive, Williamsville, N.Y. 14221. Send protests to: George M. Parker, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 910 Federal Bldg., 111 West Huron St., Buffalo, N.Y. 14202.

By the Commission.

[Notice No. 251]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under Section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission within 30-days after the date of this publication. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall

be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopsis form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-74478, filed April 30, 1976. Transferee: Timothy P. Huppert, Route 2, Ellsworth, Wis. 54011. Transferor: John B. Klecker, Route 2, Ellsworth, Wis. 54011. Applicant's representative: F. H. Kroeger, Practitioner, 1745 University Ave., St. Paul, Minn. 55104. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 64897 (Sub-No. 1), issued August 27, 1942, as follows: farm machinery, twine, feed, furniture, lumber, and building materials, from St. Paul and South St. Paul, Minn., to points (other than municipalities) in the above-specified Wisconsin Towns, to Red Wing, and Lake City, Minn.; and livestock, between points (other than municipalities) in the above-specified Wisconsin Towns, on the one hand, and, on the other, South St. Paul and Newport, Minn. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76530, filed May 13, 1976. Transferee: Theodore E. Malec, doing business as Pierre Bus Tours, 391 Woodland Street, Windsor Locks, Conn. 06096. Transferor: George St. Pierre, doing business as George St. Pierre, 27 Kent St., Plainville, Conn. 06062. Applicant's representative: Thomas W. Murrett, Attorney-at-Law, 342 North Main St., West Hartford, Conn. 06117. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Licenses Nos. MC 12572 (Sub-No. 1) and MC 12572 (Sub-No. 3), issued by the Commission June 30, 1964, and May 10, 1974, as follows: Operations as a broker at Plainville, Conn., in connection with the transportation by motor vehicles in interstate or foreign commerce, of passengers and their baggage, between Danbury, Waterbury, and Hartford, Conn., on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; and passengers and their baggage, in round-trip tours, beginning and ending at points in Hartford and New Haven Counties, Conn., and extending to points in the above-specified states. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority.

[Ex Parte No. MC-19 (Sub-No. 20)]  
**PRACTICES OF MOTOR COMMON CARRIERS OF HOUSEHOLD GOODS (LIMITATIONS OF LIABILITY)**

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 13th day of May, 1976.

Upon consideration of the record in the above-entitled proceeding; and good cause appearing therefor:

It is ordered, That, on our own motion, the above-entitled proceeding be, and it is hereby, reopened for the limited purpose of further consideration and clarification on the present record of those portions of our report and order entered in said proceeding on February 23, 1976 (*Practices of Motor Common Carriers of Household Goods (Limitations of Liability)*, 124 M.C.C. 395), which disallow motor common carriers of household goods in interstate or foreign commerce from excluding liability (1) or loss or damage to article of extraordinary value tendered for shipment unless such articles are listed on the bill of lading, and (2) for loss and damage to tendered shipments due to strikes, lockouts, labor disturbances, riots and civil commotions; and which requires these carriers, when settling claims for loss or damage, to use the replacement cost of a lost or damaged item to which to apply a depreciation factor, or when an item cannot be replaced, to use the original cost of the item, augmented by a consumer price index factor, and adjusted downward to reflect depreciation.

It is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission.

(SEAL) ROBERT L. OSWALD,  
Secretary.

(Volume No. 31)

**PERMANENT AUTHORITY PETITIONS AND APPLICATIONS; FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES); ALTERNATE ROUTE DEVIATION LETTER-NOTICES; AND INTRASTATE APPLICATIONS CONCURRENTLY SEEKING AUTHORITY ON INTERSTATE OR FOREIGN COMMERCE**

PETITIONS FOR MODIFICATION, INTERPRETATION OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

MAY 14, 1976.

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall com-

ply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR § 1100.247) and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 114632 (Sub-No. 73) (Notice of filing of petition to modify commodity description) filed May 3, 1976. Petitioner: APPLE LINES, INC., P.O. Box 287, 212 S.W. Second St., Madison, S. Dak. 57042. Petitioner's representative: Andrew R. Clark, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Petitioner holds a motor common carrier Certificate in No. MC 114632 (Sub-No. 73), issued March 24, 1976, authorizing transportation over irregular routes, of (A) (1) *Tractors*, with or without attachments, (2) *self-propelled loaders*, (3) *attachments* for (1) and (2) above, and (4) *parts* for (1), (2), and (3) above, from the plant site of Owatonna Manufacturing Company located in Davison County, S. Dak., to points in the United States (except Alaska and Hawaii); and (B) *materials, equipment and supplies*, used in the manufacture and distribution of the commodities named in (A) above (except commodities in bulk), from points in the United States (except Alaska and Hawaii), to the plant site of Owatonna Manufacturing Company located in Davison County, S. Dak., restricted to the right of the Commission, to impose such terms, conditions, or limitations in the future as it may find necessary in order to insure that carrier's operations shall conform to the provisions of Section 210 of the Act.

By the instant petition, petitioner seeks: to broaden its commodity description in (a) above to include "(5) *agricultural machinery*; (6) *elevators*; (7) *conveyors*; (8) *mixer mills*; (9) *attachments* for the commodities in (5) through (8) above, and (10) *parts* for the commodities in (5) through (9) above"; and to include the commodities listed in (5) through (9) within its authority on materials, equipment and supplies as stated in (B) above.

No. MC 136803 (Notice of filing of petition for modification of commodity description and clarification of territorial description) filed May 3, 1976. Petitioner: SIOUX CITY BULK FEED SERVICE, INC., P.O. Box 2766, Sioux City, Iowa 51106. Petitioner's representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, Nebr. 68501. Petitioner holds a motor common carrier Certificate in No. MC 136803, issued November 24, 1972, authorizing transportation, as pertinent, over irregular routes, of (1) *ani-*

<sup>1</sup> Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

mal and poultry feed, (except in bulk), from Sioux City, Iowa, to points in Wyoming and North Dakota, restricted to the transportation of traffic originating at the plant site and storage facilities of Murphy Products Company, Inc., at Sioux City, Iowa; and (2) *dry animal and poultry feed*, (a) between Le Mars, Iowa, and points in Iowa within 25 miles of Le Mars, on the one hand, and, on the other, points in Minnesota, South Dakota, Nebraska, Illinois, Missouri, and Wisconsin, and (b) from Burlington, Wis. to points in South Dakota, points in that part of Nebraska north of the northern boundaries of Washington, Dodge, Colfax, Platte, Boone, Greeley, Valley, Custer, Logan, McPherson, Arthur, Garden, Morrill, and Scotts Bluff Counties, Nebr., and points in that part of Iowa west of the eastern boundaries of Dickinson, Clay, Buena Vista, Sac, and Carroll Counties, Iowa, and on and north of U.S. Highway 30 extending westerly from Ralston, Iowa to California Junction, Iowa, except Le Mars, Iowa, and points within 25 miles of Le Mars.

By the instant petition, petitioner (A) seeks to modify its commodity description so that part (1) will read "(1) *Feed, feed ingredients, pesticides, and health aid products* (except in bulk)"; and part (2) will read "(2) *dry feed, dry feed ingredients, pesticides, and health aid products*";; and (B) seeks to clarify its present "25 miles radius" base territory description in part (2) so as to read "Between points within an area located on and bounded by a line beginning at the South Dakota-Iowa border, and extending east along U.S. Highway 18 to junction U.S. Highway 59, thence south along U.S. Highway 59 to junction U.S. Highway 20, thence west along U.S. Highway 20 to the Nebraska-Iowa border, thence along the Nebraska-Iowa border to the Iowa-South Dakota border, thence along the Iowa-South Dakota border to U.S. Highway 18, on the one hand, and, on the other, points in Minnesota, South Dakota, Nebraska, Illinois, Missouri, and Wisconsin."

No. MC 139277 (Notice of filing of petition for modification of permit) filed April 16, 1976. Petitioner: AL E. HALL, doing business as AL E. HALL TRUCKING, P.O. Box 25, Gridley, Ill. 61744. Petitioner's representative: Patrick H. Smyth, Suite 521, 19 South La Salle St., Chicago, Ill. 60603. Petitioner holds a motor contract carrier Permit in No. MC 139277, issued September 23, 1975, authorizing transportation over irregular routes, of (1) *metal roofing and siding, fabricated metal products, and parts, attachments, and accessories* for the commodities in (1) above, from the plant site of Fabral Corporation located at or near Gridley, Ill., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, West Virginia and Wisconsin; and (2) *materials, supplies and equipment* for the commodities described in (1) above, from points in Illinois, Indiana, Iowa, Kansas, Ken-

tucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, West Virginia and Wisconsin, to the plant site of Fabral Corporation located at or near Gridley, Ill., restricted against the transportation of commodities in bulk, under a continuing contract or contracts, with Fabral Corporation of Lancaster, Pa.

By the instant petition, petitioner seeks (A) to add North Dakota and Texas as additional destination states with respect to part (1); and (B) to add the following as Part (3) to his authority: "(3) *metal roofing and siding, fabricated metal products, and parts, attachments, and accessories* for the commodities in (3) above, and *materials, supplies, and equipment* for the commodities described in (3) above, between the plant site of Fabral Corporation located at or near Gridley, Ill., and the plant site of Fabral Corporation located at or near Jackson, Ga., restricted against the transportation of commodities in bulk; under a continuing contract with Fabral Corporation located at Lancaster, Pa."

**REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION**

The following grants of operating rights authorities are republished by Order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of protests to the granting of the authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR § 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition shall not be tendered at this time. A copy of the protest shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 119815 (Sub-No. 19), (Republication), filed June 6, 1975, and published in the FEDERAL REGISTER issue of July 10, 1975, and republished this issue. Applicant: INTERSTATE HIGHWAY EXPRESS, INC., 814 Norton Avenue, P.O. Box 579, Bedford, Ind. 47421. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. An Order of the Commission, Review Board Number 2, dated April 2, 1976 and served April 9, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *contract carrier*, by motor vehicle, over irregular routes in the transportation of (1) *metal pipe and sheets, fittings, and supplies* used in the installation of the above named commodities from the plant site of Stello Products, Inc., at Spencer, Ind., to points in the United States (except Alaska and

Hawaii), and (2) *materials and supplies* used in the manufacture of the commodities described in (1) above, from points in the United States (except Alaska and Hawaii), to the plant site of Stello Products, Inc., at Spencer, Ind., under a continuing contract or contracts with Stello Products, Inc., of Spencer, Ind.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate applicant's grant of authority to handle inbound shipments of materials and supplies used in the manufacture of shipper's commodities.

No. MC 127187 (Sub-No. 13), (Republication) filed December 9, 1974, and published in the FEDERAL REGISTER issue of January 3, 1975, and republished this issue. Applicant: FLOYD DUENOW, INC., 1728 Industrial Park Boulevard, Fergus Falls, Minn. 56537. Applicant's representative: Charles E. Johnson, 425 Gate City Bldg., Fargo, N. Dak. 58102. A Report and Order of the Commission, Review Board Number 2, dated May 3, 1976 and served May 10, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, of *fertilizer and fertilizer ingredients*, from ports of entry on the International Boundary line between the United States and Canada, located in Minnesota, North Dakota, and Montana, to points in Iowa, North Dakota, Nebraska, Minnesota, South Dakota, Wisconsin, and Montana; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate applicant's grant of authority to include service: (1) from the ports of entry on the International Boundary line between the United States and Canada located in Montana; to the named destined points and (2) from the named origin points to points in Montana.

**MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING APPLICATIONS**

The following applications are governed by Special Rule 247 of the Commission's *General Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d) (3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's in-

interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 2253 (Sub-No. 72), filed March 23, 1976. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, P.O. Box 697, Cherryville, N.C. 28021. Applicant's representative: Edward G. Villalón, Suite 1032 Pennsylvania Building, Pennsylvania Ave. and 13th St., N.W., Washington, D.C. 20004. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment). (1) Between the Ohio-Indiana State Boundary line and the West Virginia-Pennsylvania State Boundary line: From the Ohio-Indiana State Boundary line over Interstate Highway 70, to the West Virginia-Pennsylvania State Boundary line, and return over the same route. (2) Between Wheeling, W. Va., and Cleveland, Ohio: From Wheeling, W. Va., over U.S. Highway 250 to junction Interstate Highway 77, thence over Interstate Highway 77, to Cleveland, Ohio and return over the same route. (3) Between Cincinnati, Ohio and Cleveland, Ohio:

From Cincinnati, Ohio over Interstate Highway 71, to Cleveland, Ohio, and return over the same route. (4) Between Cincinnati, Ohio and Toledo, Ohio: From Cincinnati, Ohio over Interstate Highway 75, to Toledo, Ohio, and return over the same route. (5) Between junction Interstate Highways 71 and 76 and the Ohio-Pennsylvania State Boundary line: From junction Interstate Highways 71 and 76 over Interstate Highway 76, to the Ohio-Pennsylvania State Boundary line, and return over the same route.

(6) Between the Ohio-Indiana State Boundary line and the Ohio-Pennsylvania State Boundary line: From the Ohio-Indiana State Boundary line over Interstate Highway 80, to the Ohio-Pennsylvania State Boundary line, and return over the same route. (7) Between the Ohio-Pennsylvania State Boundary line and Cleveland, Ohio: From the Ohio-Pennsylvania State Boundary line over Ohio Highway 14 to junction Ohio Highway 11, thence over Ohio Highway 11, to junction U.S. Highway 224, thence over U.S. Highway 224 to junction Ohio Highway 14, thence over Ohio Highway 14, to Cleveland, Ohio and return over the same route. (8) Between junction Ohio Highway 11 and U.S. Highway 224 and junction Ohio Highway 11 and Interstate Highway 80: From junction Ohio Highway 11 and U.S. Highway 224 over Ohio Highway 11, to junction Interstate Highway 80, and return over the same route. (9) Between Moundsville, W. Va., and Youngstown, Ohio: From Moundsville, W. Va., over West Virginia Highway 2 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Ohio Highway 7, thence over Ohio Highway 7 to Youngstown, Ohio, and return over the same route. (10) Between the West Virginia-Pennsylvania State Boundary line and Cincinnati, Ohio: From the West Virginia-Pennsylvania State Boundary line over U.S. Highway 22, to Cincinnati, Ohio, and return over the same route. (11) Between Columbus, Ohio and Toledo, Ohio: From Columbus, Ohio over U.S. Highway 23 to junction U.S. Highway 20, thence over U.S. Highway 20, to Toledo, Ohio, and return over the same route. (12) Between Toledo, Ohio and junction Ohio Highway 420 and U.S. Highway 20: From Toledo, Ohio over Interstate Highway 280 to junction Ohio Highway 420, thence over Ohio Highway 420, to junction U.S. Highway 20, and return over the same route. (13) Between the Ohio-Pennsylvania State Boundary line and Cleveland, Ohio: From the Ohio-Pennsylvania State Boundary line over U.S. Highway 422, to Cleveland, Ohio, and return over the same route.

(14) Between the Ohio-Indiana State Boundary line and the West Virginia-Pennsylvania State Boundary line: From the Ohio-Indiana State Boundary line over U.S. Highways 30 and 30N to the West Virginia-Pennsylvania State Boundary line, and return over the same route. (15) Between Parkersburg, W. Va., and junction Interstate Highway 77 and U.S. Highway 250: From Parkersburg,

W. Va. over Interstate Highway 77, to junction U.S. Highway 250, and return over the same route. (16) Between Akron, Ohio and junction U.S. Highways 20 and 23: From Akron, Ohio over Ohio Highway 18 to junction U.S. Highway 20, thence over U.S. Highway 20, to junction U.S. Highway 23, and return over the same route. (17) Between the Indiana-Ohio State Boundary line and Columbus, Ohio: From the Indiana-Ohio State Boundary line over U.S. Highway 33, to Columbus, Ohio, and return over the same route. (18) Between junction U.S. Highway 30 and U.S. Highway 30S and junction Ohio Highway 117 and U.S. Highway 33: From junction U.S. Highway 30 and U.S. Highway 30S over U.S. Highway 30S to Lima, Ohio, thence over Ohio Highway 117 to junction U.S. Highway 33, and return over the same route. (19) Between junction Interstate Highway 77 and U.S. Highway 250 and junction U.S. Highway 250 and Interstate Highway 80: From junction Interstate Highway 77 and U.S. Highway 250 over U.S. Highway 250, to junction Interstate Highway 80, and return over the same route. In connection with routes (1)-(19), serving all intermediate and off-route points in the State of Ohio and those in Brooke, Hancock, Marshall and Ohio Counties, W. Va., restricted against the transportation of any shipment having both its origin and destination in the State of Ohio. (20) Between the West Virginia-Pennsylvania State Boundary line and junction U.S. Highways 119 and 22: From the West Virginia-Pennsylvania State Boundary line over Interstate Highway 70 to junction U.S. Highway 119, thence over U.S. Highway 119, to junction U.S. Highway 22, and return over the same route.

(21) Between the Ohio-Pennsylvania State Boundary line and junction Interstate Highway 76 and U.S. Highway 219: From the Ohio-Pennsylvania State Boundary line over Interstate Highway 78, to junction U.S. Highway 219, and return over the same route. (22) Between junction Interstate Highways 70 and 79 and junction Interstate Highway 79 and Interstate Highway 80: From junction Interstate Highways 70 and 79 over Interstate Highway 79, to junction Interstate Highway 80, and return over the same route. (23) Between the Ohio-Pennsylvania State Boundary line and junction Interstate Highway 80 and U.S. Highway 219: From the Ohio-Pennsylvania State Boundary line over Interstate Highway 80, to junction U.S. Highway 219, and return over the same route. (24) Between Pittsburgh, Pa. and junction U.S. Highway 30 and U.S. Highway 219: From Pittsburgh, Pa. over U.S. Highway 30, to junction U.S. Highway 219, and return over the same route. (25) Between Pittsburgh, Pa. and junction U.S. Highways 22 and 219: From Pittsburgh, Pa. over U.S. Highway 22, to junction U.S. Highway 219, and return over the same route. (26) Between Pittsburgh, Pa. and the Ohio-Pennsylvania State Boundary line: From Pittsburgh, Pa. over Pennsylvania Highway 60 to junction Pennsylvania Highway 51 near West Mayfield, Pa., thence over Pennsylvania

Highway 51 to the Ohio-Pennsylvania State Boundary line, and return over the same route. (27) Between the West Virginia-Pennsylvania State Boundary line and Pittsburgh, Pa.: From the West Virginia-Pennsylvania State Boundary line over U.S. Highway 22 to Pittsburgh, Pa., and return over the same route. (28) Between the West Virginia-Pennsylvania State Boundary line and Pittsburgh, Pa.: From the West Virginia-Pennsylvania State Boundary line over U.S. Highway 30, to Pittsburgh, Pa., and return over the same route.

(29) Between junction U.S. Highway 22 and 422 at or near Ebensburg, Pa., and the Ohio-Pennsylvania State Boundary line: From junction U.S. Highway 22 and 422 at or near Ebensburg, Pa., over U.S. Highway 422, to the Ohio-Pennsylvania State Boundary line and return over the same route. In connection with routes (20)-(29), serving all intermediate and off-route points in that part of Pennsylvania on and west of a line beginning at the Pennsylvania-New York State Boundary line and extending along U.S. Highway 219 to junction U.S. Highway 6, thence along U.S. Highway 6 to Kane, thence along Pennsylvania Highway 321 to Wilcox, thence along U.S. Highway 219 to Somerset, thence along Pennsylvania Highway 31 to junction unnumbered highway, thence along unnumbered highway to Berlin, thence along U.S. Highway 219 to the Pennsylvania-Maryland State Boundary line, restricted in routes (20)-(29), (1) against transportation of any shipment having either its origin or its destination in that part of Pennsylvania on and west of a line beginning at the Pennsylvania-New York State Boundary line and extending along U.S. Highway 219 to junction U.S. Highway 6, thence along U.S. Highway 6 to Kane, thence along Pennsylvania Highway 321 to Wilcox, thence along U.S. Highway 219 to Somerset, thence along Pennsylvania Highway 31 to junction unnumbered highway, thence along unnumbered highway to Berlin, thence along U.S. Highway 219 to the Pennsylvania-Maryland State Boundary line (except points in Allegheny and Westmoreland Counties), on the one hand, and, on the other, carrier's authorized service points in Illinois, Indiana, and Ohio.

(2) Further restricted against the transportation of any shipment having both its origin and destination in Pennsylvania (except between Philadelphia, Pa., on the one hand, and, on the other, points in Allegheny and Westmoreland Counties, Pa.). (30) Between junction U.S. Highway 219 and Interstate Highway 76 and Philadelphia, Pa.: From junction U.S. Highway 219 and Interstate Highway 76 over Interstate Highway 76, to Philadelphia, Pa. and return over the same route, serving off-route points in that part of Delaware County, on and east of U.S. Highway 202 and serving the following intermediate points for purposes of joinder only: The junctions of Interstate Highway 76 and U.S. Highway 30 at or near Napier, Bedford, and Breeze-

wood, Pa.; junction Interstate Highway 76 and U.S. Highway 220; and junction Interstate Highway 76 and U.S. Highway 11 near Carlisle, Pa. (31) Between junction U.S. Highway 219 and U.S. Highway 30 and the Pennsylvania-New Jersey State Boundary line: From junction U.S. Highway 219 and U.S. Highway 30 over U.S. Highway 30 to Philadelphia, Pa., thence over U.S. Highway 1, to the Pennsylvania-New Jersey State Boundary line, and return over the same route, serving the intermediate point of Philadelphia, Pa., intermediate and off-route points in that part of Delaware County, Pa. on and east of U.S. Highway 202, and serving the Pennsylvania-New Jersey State Boundary line and the following intermediate points for purposes of joinder only: The junctions of Interstate Highway 76 and U.S. Highway 30 at or near Napier, Bedford, Breezewood and Chambersburg, Pa. (32) Between junction U.S. Highway 219 and 22 and the Pennsylvania-New Jersey State Boundary line: From junction U.S. Highways 219 and 22 over U.S. Highway 22, to the Pennsylvania-New Jersey State Boundary line, and return over the same route, serving the Pennsylvania-New Jersey State Boundary line and the following intermediate points for purposes of joinder only: Junction U.S. Highways 22 and 220; junction U.S. Highways 22 and 322 near Lewistown, and junction U.S. Highways 22 and 11 near Amity Hill, Pa.

(33) Between junction U.S. Highway 219 and Interstate Highway 80 and the Pennsylvania-New Jersey State Boundary line: From junction U.S. Highway 219 and Interstate Highway 80 over Interstate Highway 80, to the Pennsylvania-New Jersey State Boundary line, and return over the same route, serving the Pennsylvania-New Jersey State Boundary line and the following intermediate points for purposes of joinder only: Junction Interstate Highway 80 and Pennsylvania Highway 153; junction Interstate Highway 80 and U.S. Highway 220; and junction Interstate Highway 80 and Pennsylvania Highway 26. (34) Between junction U.S. Highway 11 and Interstate Highway 76 near Carlisle, Pa., and junction U.S. Highway 11 and U.S. Highways 322 and 22: (a) From junction U.S. Highway 11 and Interstate Highway 76 near Carlisle, Pa., over U.S. Highway 11 to junction Interstate Highway 81, thence over Interstate Highway 81 to junction U.S. Highway 11, thence over U.S. Highway 11, to junction U.S. Highways 322 and 22, and return over the same route, serving junction U.S. Highway 11 and Interstate Highway 76, junction U.S. Highway 11 and U.S. Highways 322 and 22 and junction U.S. Highway 11 and Interstate Highway 81 near Summerdale, Pa., for purposes of joinder only; and (b) From junction U.S. Highway 11 and Interstate Highway 76 near Carlisle, Pa., over U.S. Highway 11 to junction U.S. Highways 322 and 22, and return over the same route. (35) Between junction U.S. Highways 322 and 22 near Lewistown, Pa. and junction Pennsylvania Highway 26 and Interstate High-

way 80: From junction U.S. Highway 322 and U.S. Highway 22 near Lewistown, Pa. over U.S. Highway 322 to junction Pennsylvania Highway 144, thence over Pennsylvania Highway 144 to junction Pennsylvania Highway 26, thence over Pennsylvania Highway 26, to junction Interstate Highway 80, and return over the same route, serving junction U.S. Highways 322 and 22 near Lewistown, Pa., junction Pennsylvania Highway 26 and Interstate Highway 80, and junction U.S. Highway 322 and Pennsylvania Highway 144 for purposes of joinder only.

(36) Between junction U.S. Highway 11 and Interstate Highway 76 near Carlisle and Chambersburg, Pa.: From junction U.S. Highway 11 and Interstate Highway 76 near Carlisle, Pa. over U.S. Highway 11, to Chambersburg, Pa., and return over the same route, serving no intermediate points and serving junction U.S. Highway 11 and Interstate Highway 76 near Carlisle, and Chambersburg, Pa. for purposes of joinder only.

(37) Between junction Interstate Highway 80 and U.S. Highway 220 and junction U.S. Highway 220 and Interstate Highway 76: From junction Interstate Highway 80 and U.S. Highway 220 over U.S. Highway 220, to junction Interstate Highway 76, and return over the same route, serving junction Interstate Highway 80 and U.S. Highway 220, junction U.S. Highway 220 and Interstate Highway 76, junction U.S. Highways 220 and 22, and junction U.S. Highway 220 and U.S. Highway 322 for purposes of joinder only. (38) Between junction U.S. Highway 322 and Pennsylvania Highway 144 and junction Pennsylvania Highway 153 and Interstate Highway 80: From junction U.S. Highway 322 and Pennsylvania Highway 144 over U.S. Highway 322 to junction Pennsylvania Highway 153, thence over Pennsylvania Highway 153, to junction Interstate Highway 80, and return over the same route, serving junction U.S. Highway 322 and Pennsylvania Highway 144, junction Pennsylvania Highway 153 and Interstate Highway 80, and junction U.S. Highway 322 and U.S. Highway 220 for purposes of joinder only.

(39) Between junction U.S. Highway 11 and Interstate Highway 81 near Summerdale, Pa. and junction U.S. Highway 22 and Interstate Highway 81 at or near Harrisburg, Pa.: From junction U.S. Highway 11 and Interstate Highway 81 near Summerdale, Pa. over Interstate Highway 81, to junction U.S. Highway 22 at or near Harrisburg, and return over the same route, serving no intermediate points and serving junction U.S. Highway 11 and Interstate Highway 81 near Summerdale, Pa. and junction U.S. Highway 22 and Interstate Highway 81 at or near Harrisburg, Pa. for purposes of joinder only.

(40) Between the Pennsylvania-New Jersey State Boundary line and New York, N.Y.: From the Pennsylvania-New Jersey State Boundary line over Interstate Highway 80 to junction Interstate Highway 95, thence over Interstate Highway 95, to New York, N.Y., and return over the same route. (41) Between the

Pennsylvania-New Jersey State Boundary line and New York, N.Y.: From the Pennsylvania-New Jersey State Boundary line over U.S. Highway 1, to New York, N.Y., and return over the same route. (42) Between the Pennsylvania-New Jersey State Boundary line and junction U.S. Highways 22 and 1: From the Pennsylvania-New Jersey State Boundary line over U.S. Highway 22, to junction U.S. Highway 1, and return over the same route. (43) Between junction Interstate Highways 80 and 287 and junction Interstate Highway 237 and U.S. Highway 1 near Metuchen, N.J.: From junction Interstate Highways 80 and 287 over Interstate Highway 287 to junction U.S. Highway 1 near Metuchen, N.J., and return over the same route. (44) Between junction U.S. Highway 1 and Interstate Highway 278 and New York, N.Y.: From junction U.S. Highway 1 and Interstate Highways 278 and New York, N.Y.: From junction U.S. Highway 1 and Interstate Highway 278 over U.S. Highway 278 to New York, N.Y., and return over the same route. In connection with routes (40)-(44) serving all intermediate and off-route points in Bergen, Burlington, Camden, Essex, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Union and Warren Counties, N.J., Nassau and Westchester Counties, N.Y., those points in Suffolk County, N.Y., on and west of New York Highway 110, and those points in Rockland County, N.Y., on and south of New York Highway 210, restricted in routes (40)-(44).

(1) Against the transportation of any shipment having both its origin and destination in New Jersey; (2) against the transportation of shipments between points in that part of Pennsylvania on and west of a line beginning at the Pennsylvania-New York State Boundary line and extending along U.S. Highway 219 to junction U.S. Highway 6, thence along U.S. Highway 6 to Kane, thence along Pennsylvania Highway 321 to Wilcox, thence along U.S. Highway 219 to Somerset, thence along Pennsylvania Highway 31 to junction unnumbered highway, thence along unnumbered highway to Berlin, thence along U.S. Highway 219 to the Pennsylvania-Maryland State Boundary line (except points in Allegheny and Westmoreland Counties, Pa.), on the one hand, and, on the other, points in New Jersey (except those in Bergen, Essex, Hudson, Middlesex, Morris, Passaic, Somerset and Union Counties, N.J., and points in Monmouth County, N.J., on and north of New Jersey Highway 33); (3) against the transportation of shipments between carrier's authorized service points in Alabama, Florida, Georgia, North Carolina and South Carolina, on the one hand, and, on the other, points in Rockland County, N.Y., and points in New Jersey (except those in Bergen, Essex, Hudson, Hunterdon, Mercer, Middlesex, Morris, Monmouth, Ocean, Passaic, Somerset, Union and Warren Counties, N.J.), and points in that part of Burlington County, N.J.,

on and north of a line beginning at Riverside, N.J., thence along New Jersey Highway 537 to junction unnumbered highway at Masonville, N.J., thence along unnumbered highway to junction New Jersey Highway 541 to junction New Jersey Highway 70, thence along New Jersey Highway 70 to junction New Jersey Highway 72, thence along New Jersey Highway 72 to the Burlington-Ocean County Boundary line).

(4) Further restricted against the transportation of shipments between Chester, Norristown, Philadelphia, West Chester, and York, Pa. and carrier's authorized service points in Delaware, Maryland, Virginia and the District of Columbia, on the one hand, and, on the other, points in Rockland County, N.Y., and points in New Jersey (except those in Bergen, Essex, Hudson, Middlesex, Morris, Passaic, Somerset, and Union Counties, N.Y.), restricted in routes (1)-(44), to the extent that it duplicates carrier's existing authority, shall not be construed as conferring more than one operating right and shall not be severable by sale or otherwise from the underlying irregular route authority contained in MC 2253 (Sub-Nos. 67 and 70G), and further restricted in routes (1)-(44) against the transportation of, (1) paper and paper products, from the plantsites and facilities of The Mead Corporation at Chillicothe, Ohio, and of Champion International, Inc., at Hamilton and Piqua, Ohio, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the District of Columbia, (2) rejected and returned shipments of paper and paper products; and (3) commodities used in the manufacture of paper and paper products, (except commodities in bulk), from points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the District of Columbia, to the plantsites and facilities of The Mead Corporation at or near Chillicothe, Ohio, and of Champion International, Inc., at or near Hamilton and Piqua, Ohio.

NOTE.—Under Certificate of Public Convenience and Necessity MC 2253 (Sub-No. 67), applicant holds irregular route authority to serve all of the points and territories embraced in this application. The purpose of the application is to convert that irregular route authority to regular route. Thus applicant does not seek any new service points or territory, nor does it propose to diminish its presently authorized service territory. If a hearing is deemed necessary, the applicant requests it be held at either Charlotte, N.C., or Washington, D.C.

No. MC 3252 (Sub-No. 94), filed April 19, 1976. Applicant: MERRILL TRANSPORT CO., a Corporation, 1037 Forest Avenue, Portland, Maine 04104. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, Mass. 02043. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum products, in bulk, in tank

vehicles, from Burlington, Vt., to points in Clinton and Franklin Counties, N.Y.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Portland, Maine or Boston, Mass.

No. MC 11207 (Sub-No. 367), filed April 7, 1976. Applicant: DEATON, INC., P.O. Box 938, Birmingham, Ala. 35201. Applicant's representative: Kim D. Mann, 702 World Center Bldg., 918 Sixteenth St., N.W., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Materials, equipment, machinery and supplies, used in the manufacturing, processing and distribution of iron and steel articles, from points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina and Tennessee to the plantsite and facilities of American Cast Iron Pipe Company at Birmingham, Ala.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Birmingham, Ala., or Atlanta, Ga.

No. MC 13123 (Sub-No. 83), filed April 12, 1976. Applicant: WILSON FREIGHT COMPANY, a Corporation, 3636 Follett Avenue, Cincinnati, Ohio 45223. Applicant's representative: Milton H. Bortz same address as applicant. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Heat exchangers and equalizers, for air, gas or liquids; machinery and equipment, for heating, cooling, conditioning, humidifying, dehumidifying, and moving of air, gas, or liquids; and (2) parts, materials, equipment, and supplies, used in the manufacture, distribution, installation, or operation of those items named in (1) above (except in bulk), between points in Monroe, Randolph, Perry Counties, Ill., and St. Clair County, Ill., on and south of State Highways 177 and 158, on the one hand, and, on the other, points in Arkansas, Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, at or destined to the plantsite and warehouse facilities of the Singer Company, at Monroe, Randolph, Perry and St. Clair Counties, Ill.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo.

No. MC 21966 (Sub-No. 4), filed April 22, 1976. Applicant: GLENN W. STOWELL, 281 Leverett Road, RFD 3, Amherst, Mass. 01002. Applicant's representative: David M. Marshall, 135 State Street, Suite 200, Springfield, Mass. 01103. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber, wood products, and forest products, between points in Franklin, Hampden,

Hampshire and Worcester Counties, Mass., on the one hand, and, on the other, points in Cheshire, Hillsboro and Rockingham Counties, N.H., points in Connecticut, New Jersey, New York, Pennsylvania and Rhode Island, and points in Windham County, Vt.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Boston, Mass., Hartford, Conn., or Albany, N.Y.

No. MC 30237 (Sub-No. 32), filed April 12, 1976. Applicant: YEATTS TRANSPORT COMPANY, Box 666, Altavista, Va. 24517. Applicant's representative: J. J. Eller, Jr., 513 Main St., Altavista, Va. 24517. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) New furniture as defined in Appendix II to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209, and returned shipments of new furniture on return, from Brookneal, Va., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; and (2) materials and supplies, used in the manufacture of furniture from points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, to Brookneal, Va.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Roanoke, Va.

No. MC 52704 (Sub-No. 127), filed March 26, 1976. Applicant: GLENN MCLENDON TRUCKING COMPANY, INC., Opelika Highway, P.O. Drawer "H", LaFayette, Ala. 36862. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree St., N.W., Atlanta, Ga. 30309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Sugar (except in bulk), from Gramercy and Houma, La., to points in Alabama, Georgia, Virginia and West Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 52704 (Sub-No. 128), filed April 9, 1976. Applicant: GLENN MCLENDON TRUCKING COMPANY, INC., Post Office Drawer "H", LaFayette, Ala. 36862. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree St., N.W., Atlanta, Ga. 30309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Paper, paper

products and woodpulp (except in bulk), from the plantsite of Bowater Southern Paper Corporation located at Calhoun, Tenn., to points in Georgia and Oklahoma; (2) materials, equipment and supplies, used in the manufacture and distribution of paper, paper products and woodpulp (except in bulk), from points in Georgia and Oklahoma, to the plantsite of Bowater Southern Paper Corporation located at Calhoun, Tenn.; and (3) paper mill rolls, from the plantsite of Bowater Southern Paper Corporation located at Calhoun, Tenn., to points in Georgia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga. or Washington, D.C.

No. MC 52858 (Sub-No. 115), filed April 12, 1976. Applicant: CONVOY COMPANY, a Corporation, 3900 N.W. Yeon Avenue, P.O. Box 10185, Portland, Ore. 97210. Applicant's representative: Marvin Handler, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Automobiles and trucks, in truckaway service, in secondary movements, between points in Colorado, on the one hand, and, on the other, Utah and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Denver, Colo., or Portland, Ore.

No. MC 56244 (Sub-No. 47), filed April 12, 1976. Applicant: KUHN TRANSPORTATION COMPANY, INC., P.O. Box 98, R.D. No. 2, Gardners, Pa. 17324. Applicant's representative: John M. Musselman, P.O. Box 1146, 410 North Third Street, Harrisburg, Pa. 17108. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Foodstuffs (except in bulk), from the plantsites of National Fruit Product Company, Inc., located at Kent City, Mich., to points in Ohio and Pennsylvania, restricted to the transportation of shipments originating at the above named facilities and destined to the above named destinations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Harrisburg, Pa. or Washington, D.C.

No. MC 64932 (Sub-No. 559), filed April 21, 1976. Applicant: ROGERS CARTAGE COMPANY, a Corporation, 10735 South Cicero Avenue, Oak Lawn, Ill. 60453. Applicant's representative: Carl L. Steiner, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Ink, in bulk, in shipper owned vehicles, from the plantsite of Sun Chemical Corporation, at Kankakee, Ill., to points in Indiana, Kentucky, Michigan, New York, Ohio, Pennsylvania and Tennessee.

No. MC 115322 (Sub-No. 115), filed April 21, 1976. Applicant: REDWING REFRIGERATED, INC., P.O. Box 10177, Highway 527, Taft, Fla. 32809. Applicant's representative: J. V. McCoy, P.O. Box 426, Tampa, Fla. 33601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs and potato products*, in straight or mixed shipments (except in bulk), from the plantsite and storage facilities of McCain Foods Inc., located at Portland, Maine, to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia.

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Portland, Maine, or Washington, D.C.

No. MC 115496 (Sub-No. 43), filed April 12, 1976. Applicant: LUMBER TRANSPORT, INC., P.O. Box 111, Cochran, Ga. 31014. Applicant's representative: Virgil H. Smith, Suite 12, 1587 Phoenix Boulevard, Atlanta, Ga. 30349. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products, and particle board*, from the manufacturing facilities of Louisiana-Pacific Corporation, located at or near Clayton, Ala., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Maine, Maryland, Massachusetts, Michigan (lower Peninsula), Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to shipments originating at the above origin and destined to the above destinations.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga., or Birmingham, Ala.

No. MC 115841 (Sub-No. 520), filed April 21, 1976. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 107 Vulcan Rd., P.O. Box 10327, Birmingham, Ala. 35201. Applicant's representative: Terry P. Wilson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Candy and/or confectionery and related products* (except in bulk); and (2) *advertising matter, premiums and display materials*, when shipped in the same vehicle with commodities described in (1) above, in vehicles equipped with mechanical refrigeration, from the plantsite and storage facilities of M & M/Mars, a division of Mars, Incorporated located at or near Waco, Tex., to points in Alabama, Arizona, Arkansas, Cali-

fornia, Colorado, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, Nevada, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Tennessee, Utah, Washington, and the District of Columbia.

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests a consolidated hearing at either Washington, D.C. or Dallas, Tex.

No. MC 115904 (Sub-No. 51), filed April 22, 1976. Applicant: GROVER TRUCKING CO., 1710 West Broadway, Idaho Falls, Idaho 83401. Applicant's representative: Miss Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and fittings*, from Denver, Colo., to points in Arizona, Kansas, Nebraska, New Mexico, Texas and Utah, restricted against the transportation of those commodities falling within the category described in Mercer Extension-Oil Field Commodities, 74 M.C.C. 459, and further restricted to the transportation of traffic originating at the facilities of Amoco Chemicals Corporation at Denver, Colo.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at either Denver, Colo. or Washington, D.C.

No. MC 116300 (Sub-No. 23), (Correction) filed January 30, 1976, published in the FEDERAL REGISTER issue of April 15, 1976, republished as corrected this issue. Applicant: NANCE AND COLLUMS, INC., P.O. Drawer J, Fernwood, Miss. 39635. Applicant's representative: Harold D. Miller, Jr., P.O. Box 22567, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Salt and salt products*; and (2) *materials and supplies* used in agriculture, water treatment, food processing, wholesale grocery and institutional supply industries when shipped in mixed loads with salt products and salt products; (a) from Avery Island, Anse LaButte, Baldwin, Jefferson Island and Weeks Island, La., to points in Florida, Georgia, and Tennessee; (b) from Anse LaButte, and Baldwin, La., to points in Arkansas, Louisiana, and Texas; and (c) from Weeks Island, La., to points in Arkansas, and Texas.

**NOTE.**—The purpose of this republication is to correct the commodity description in this proceeding. If a hearing is deemed necessary, applicant requests it be held at either Jackson, Miss. or New Orleans, La.

No. MC 116519 (Sub-No. 33), filed April 12, 1976. Applicant: FREDRICK TRANSPORT LIMITED, R.R. 6, Chatham, Ontario, Canada. Applicant's representative: Jeremy Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers, compactors, truck bodies and trailers*,

equipped specifically for the collection and compaction of waste materials, from ports of entry on the International Boundary line between the United States and Canada, located in Michigan and New York, to points in the United States (except Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Hawaii, Oregon, Utah, Washington, and Wyoming), restricted (1) to traffic in foreign commerce; and (2) to traffic originating at the plantsite and facilities of Universal Handling Equipment Company, at Hamilton, Ontario, Canada, and destined to customers of Universal Handling Equipment Company, located at points within the destination territory.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 117823 (Sub-No. 50), filed April 26, 1976. Applicant: DUNKLEY REFRIGERATED TRANSPORT, INC., 1915 South 900 West, Salt Lake City, Utah 84104. Applicant's representative: Lon Rodney Kump, 200 Law Bldg., 333 East Fourth South, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Salem, Oreg.; San Francisco, and Los Angeles, Calif.; and Salt Lake City, Utah, to Denver, Colo.

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif., or Salt Lake City, Utah.

No. MC 118159 (Sub-No. 173), filed April 21, 1976. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., P.O. Box 51366, Dawson, Station, Tulsa, Okla. 74151. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products* (except commodities in bulk), and *materials and supplies* used in the manufacture or distribution of paper and paper products (except commodities in bulk), between the plantsite of Southwest Packaging, Inc. located at or near Tulsa, Okla., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 118202 (Sub-No. 52), filed April 20, 1976. Applicant: SCHULTZ TRANSIT, INC., P.O. Box 406, Winona, Minn. 55987. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plumbing supplies and accessories*, from the plantsite and warehouse facilities of Powers-Fiat Corporation located at or near Plainview, Long Island, N.Y., to points in the United States in and west of Kentucky, Mississippi, Ohio and Tennessee.

Va.; and points in

Illinois, Indiana, Maine, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, and Wisconsin; (b) from the plantsite of Colonial Fiber Company located in Manchester, Conn., to points in the Provinces of Quebec and Ontario, Canada, via those ports of entry on the International Boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.; (c) from the plantsite of Colonial Fiber Company located in Bar Mill, Maine, to Lynchburg, Va., and to points in Connecticut, Indiana, Massachusetts, Missouri, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and Tennessee; and (d) from the plantsite of Colonial Fiber Company, located in Bar Mills, Maine, to points in the Provinces of Quebec and Ontario, Canada, via those ports of entry on the International boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.

(e) From the plantsite of Colonial Fiber Company located in Covington, Tenn., to Lynchburg, Va., and to points in Connecticut, Illinois, Indiana, Kentucky, Maine, Massachusetts, Michigan, Wisconsin, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, and West Virginia; (f) from the plantsite of Colonial Fiber Company, located in Covington, Tenn., to points in the Provinces of Quebec and Ontario, Canada, via those ports of entry on the International Boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.; and (g) from the plantsite of Colonial Fiber Company, located in Rochester, N.H., to points in Connecticut, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, and Rhode Island; and (2) *products, materials, and machinery*, used in the manufacture of paper and paper products: (a) from Lynchburg, Va., and points in Illinois, Indiana, Maine, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, and Wisconsin, to the plantsite of Colonial Fiber Company, located in Manchester, Conn.; (b) from points in the Provinces of Quebec and Ontario, Canada, to the plantsite of Colonial Fiber Company, located in Manchester, Conn., via those ports of entry on the International Boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.; (c) from Lynchburg, Va., and points in Connecticut, Indiana, Massachusetts, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and Tennessee, to the plantsite of Colonial Fiber Company, located in Bar Mill, Maine; (d) from points in the Provinces of Quebec and Ontario, Canada, to the plantsite of Colonial Fiber Company, located in Bar Mills, Maine, via those ports of entry on the International Boundary line between

the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.

(e) From Lynchburg, Va., and points in Connecticut, Illinois, Indiana, Kentucky, Maine, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Wisconsin, West Virginia, and Tennessee, to the plantsite of Colonial Fiber Company, located in Covington, Tenn.; (f) from points in the Provinces of Quebec and Ontario, Canada, to the plantsite of Colonial Fiber Company, located in Covington, Tenn.; and (g) from points in Connecticut, Massachusetts, Rhode Island, New York, New Jersey, Pennsylvania, and Ohio, to the plantsite of Colonial Fiber Company, located in Rochester, N.H.; restricted in (2) above to traffic destined to the named plantsites, under continuing contract with Colonial Fiber Company.

NOTE.—The purpose of this republication is to change the requested authority in this proceeding. If a hearing is deemed necessary, the applicant requests it be held at Hartford, Conn., or Washington, D.C.

No. MC 141758 (Sub-No. 1), filed March 18, 1976. Applicant: LYDALL EXPRESS, INC., 615 Park Street, Manchester, Conn. 06040. Applicant's representative: Hugh M. Joseloff, 80 State Street, Hartford, Conn. 06103. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Metal and plastic balls*, (a) from the plantsite of Spheric Corp., located in Washington, Ind., to points in the Provinces of Quebec and Ontario, Canada, via those ports of entry on the International Boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.; (c) from the plantsite of Spheric Corporation, located in Hartford, Conn., to Lynchburg, Va.; Barboursville, W. Va.; and points in Illinois, Indiana, Kansas, Maine, Massachusetts, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, and Tennessee; (b) from the plantsite of Spheric Corp., located in Washington, Ind., to points in the Provinces of Quebec and Ontario, Canada, via those ports of entry on the International Boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.; (c) from the plantsite of Spheric Corporation, located in Hartford, Conn., to Lynchburg, Va.; Barboursville, W. Va.; and points in Illinois, Indiana, Kansas, Maine, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, and Wisconsin; and (d) from the plantsite of Spheric Corporation, located in Hartford, Conn., to points in the Provinces of Quebec and Ontario, Canada, via those ports of entry on the International Boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.

(2) *Products, materials, and machinery*, used in the manufacture of metal and plastic balls: (a) from points in Connecticut, Illinois, Kansas, Kentucky, Massachusetts, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, and Tennessee, to the plantsite of Spheric Corp., located in Washington, Ind.; (b) from points in the Provinces

of Quebec and Ontario, Canada, to the plantsite of Spheric Corp., located in Washington, Ind., via those ports of entry on the International Boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.; (c) from Lynchburg, Va.; Barboursville, W. Va.; and points in Illinois, Indiana, Kansas, Maine, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, and Wisconsin, plantsite of Spheric Corporation, located in Hartford, Conn.; and (d) from points in the Provinces of Quebec and Ontario, Canada, to the plantsite of Spheric Corporation, located in Hartford, Conn., via those ports of entry on the International Boundary line between the United States and Canada, located in Highgate Springs, Vt.; Rouses Point and Niagara Falls, N.Y.; and Detroit, Mich.; restricted in (2) above to traffic destined to the named plantsites; under continuing contracts in (1) (a) and (b) and 2 (a) and (b) above with Spheric Corp., located in Washington, Ind., and in (1) (c) and (d) and (2) (c) and (d) above with Spheric Corporation, located in Hartford, Conn.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Hartford, Conn., or Washington, D.C.

No. MC 141805 (Amendment), filed February 17, 1976, published in the FEDERAL REGISTER issue of March 18, 1976, republished as amended this issue. Applicant: HOOSIER TRANSPORT, INC., P.O. Box 414, State Road 36, Danville, Ind. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives, and household goods as defined by the Commission), between the Southwind Maritime Centre, at or near Mount Vernon, Posey County, Ind., on the one hand, and, on the other, points in Arkansas, Indiana, Illinois, Missouri, Ohio, and Tennessee, restricted to traffic having a prior or subsequent movement by water.

NOTE.—The purpose of this republication is to broaden the scope of the application. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Indianapolis, Ind.

No. MC 141906 (Sub-No. 2), filed April 15, 1976. Applicant: CHARLIE BREWSTER, doing business as BREWSTER & SONS, Route 2, Blackshear, Ga. 31516. Applicant's representative: Sol H. Proctor, 1107 Blackstone Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed*, in bulk, from Blackshear, Ga., to points in Nassau and Duval Counties, Fla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Jacksonville, Fla.

No. MC 141915 (Sub-No. 2), filed April 9, 1976. Applicant: CHARLES LOCK AND TIMOTHY LOCK, doing business as LOCK TRUCK LINE, P.O. Box 23, Carrollton, Mo. 64633. Applicant's representative: Tom B. Kretsinger, Suite 910 Brookfield Bldg., 101 W. Eleventh St., Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except of those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), from the Carrollton, Mo., piggyback ramp to Carrollton, Macon, Marshall, Moberly, Milan, Chillicothe, Trenton, and Richmond, Mo., restricted to the transportation of shipments having a prior movement by rail.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Washington, D.C.

No. MC 141928 (Sub-No. 2), filed April 1, 1976. Applicant: KOHLMAN INDUSTRIES, LTD., Box 866, 29170 Fraser Highway, Aldergrove, B.C., Canada. Applicant's representative: George R. LaBissoniere, 1100 Norton Building, Seattle, Wash. 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, between points on the International Boundary line between the United States and Canada located at or near Lynden or Sumas, Wash., on the one hand, and, on the other, Strandell, Wash., restricted to traffic moving to or from Aldergrove and Vancouver, B.C., under a continuing contract or contracts with Can Am Industries Ltd.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Seattle, Wash.

No. MC 141932 (Sub-No. 1), filed March 29, 1976. Applicant: POLAR TRANSPORT, INC., 176 King Street, Hanover, Mass. 02339. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, Mass. 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Candy and confectionery* (except in bulk): (a) from the plantsites and/or storage facilities of The Schrafft Candy Company, located in Middlesex and Suffolk Counties, Mass., to points in Alabama, Arkansas, Delaware, Florida, Georgia, Iowa, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Missouri, Mississippi, Nebraska, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia; (b) from the plantsites and/or storage facilities of Deran Confectionary, Division of Borden, Inc., located in Middlesex and Suffolk Counties, Mass., and North Grosvenordale, Conn., to points in Alabama, Arkansas, Connecticut, Delaware,

Florida, Georgia, Iowa, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, New Hampshire, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, Vermont, West Virginia, Wisconsin, and the District of Columbia; and (c) from the plantsites and/or storage facilities of Nabisco Confections, Inc., Subsidiary of Nabisco, Inc., located in Bristol, Middlesex, and Norfolk Counties, Mass., and Ashton, R.I., to points in Alabama, Arkansas, Delaware, Florida, Georgia, Iowa, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Mississippi, Nebraska, North Carolina, New Hampshire, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, Vermont, West Virginia, Wisconsin, and the District of Columbia; and (2) returned and rejected shipments of the above-described commodities, from the above-named destination points in (a) through (c) above, to the origins respectively set forth in (a) through (c) above.

NOTE.—Applicant holds contract carrier authority in MC 129600 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass.

No. MC 141938 (Sub-No. 1), filed April 5, 1976. Applicant: S & S TRUCKING AND WAREHOUSING, INC., 7100 NW, 12th Street, Miami, Fla. 33126. Applicant's representative: John B. Bond, 2766 Douglas Road, Miami, Fla. 33133. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: General commodities, between points in Dade County, Fla., having prior or subsequent movement by water, under contract with Arncam Shipping Co., Inc., restricted against the transportation of said commodities in bulk, Classes A and B explosives, household goods, livestock, commodities requiring special handling and special equipment, and commodities requiring refrigeration.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Miami, Fla.

No. MC 141943 (Sub-No. 2), filed April 21, 1976. Applicant: BOWMAN COMPANY, 4006 South Brook St., Louisville, Ky. 40214. Applicant's representative: A. Charles Tell, 100 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Printing cylinders, reproduction artwork, proofs, and samples, between Louisville, Ky., on the one hand, and, on the other, points in Illinois, Indiana, Massachusetts, Michigan, Missouri, Ohio, Pennsylvania, South Carolina, and Virginia, restricted to service to and from the plantsite of Southern Gravure Service, Inc.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky.

No. MC 141961, filed March 22, 1976. Applicant: CARMAN CARRIER, INC., 1005 W. Riverside Drive, Jeffersonville, Ind. 47130. Applicant's representative: Donald W. Smith, Suite 2465, One Indiana Square, Indianapolis, Ind. 46204. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Conveying and feeding equipment for bulk materials and equipment, materials, and supplies used in the manufacture of conveying and feed equipment for bulk materials, between the plantsite of Carman Industries, Inc., located at Jeffersonville, Ind., on the one hand, and, on the other, points in the United States (except Idaho, Montana, Oregon, Washington, Alaska, and Hawaii), under a continuing contract with Carman Industries, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Indianapolis, Ind., or Louisville, Ky.

No. MC 141962, filed March 22, 1976. Applicant: MILTON MONOXELOS, doing business as NORTHEAST REFRIGERATED DISTRIBUTING CO., East Street, Tewksbury, Mass. 01876. Applicant's representative: Kenneth B. Williams, 84 State Street, Boston, Mass. 02109. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meats, meat products, meat byproducts, dairy products, and articles distributed by meat packinghouses, as described in Sections A, B, and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except commodities in bulk), from the facilities of Northeast Refrigerated Distributing Co., located in Tewksbury, Mass., to points in Massachusetts, restricted to shipments moving in temperature controlled equipment.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass.

No. MC 141964, filed March 25, 1976. Applicant: AMERICAN INTERSTATE MOTOR FREIGHT, Andrews Drive, P.O. Box 211, West Paterson, N.J. 07425. Applicant's representative: Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) Metal stampings and scrap metals, from the facilities of United Tool & Stamping Company, located at West Paterson, N.J., to points in Delaware, Maryland, New York, North Carolina, Pennsylvania, and Virginia; and (2) materials, supplies, and equipment used in the manufacturing of metal stampings (except in bulk), from points in Delaware, Maryland, New York, North Carolina, Pennsylvania, and Virginia, to the facilities of United Tool & Stamping Company, located at West Paterson, N.J., (1) and (2) are under a continuing contract with United Tool & Stamping Company, West Paterson, N.J.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Newark, N.J., or New York, N.Y.

No. MC 141968 (Sub-No. 1), filed April 19, 1976. Applicant: WINN EXPRESS COMPANY, INC., 217 Hunter St. SE, Atlanta, Ga. 30312. Applicant's representative: Archie B. Culbreth, Suite 246, 1262 West Peachtree St. NW, Atlanta, Ga. 30309. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Such commodities as are dealt in by general merchandise stores, department stores, mail order houses, and drug stores, between Atlanta, Ga., and points in its Commercial Zone, on the one hand, and, on the other, points in Georgia, under a continuing contract, or contracts, with J. C. Penney Company, Inc., and its subsidiaries.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 141994, filed April 15, 1976. Applicant: EDWARD J. HROBAK, 11280 Center Road, Garrettsville, Ohio 44231. Applicant's representative: Lewis S. Witherspoon, 88 East Broad St., Suite 930, Columbus, Ohio 43215. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Cheeses, in mechanically temperature controlled equipment, from Newbury, Geauga County, Ohio and Cleveland, Cuyahoga County, Ohio, to Denver, Colo.; Carthage, Springfield, and St. Louis, Mo.; and Omaha, Nebr., under a continuing contract, or contracts, with Great Lakes Cheese Company, Inc., and Miceli Dairy Products Co.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Cleveland, Ohio.

No. MC 142001, filed April 5, 1976. Applicant: RITE-GUY HAULING, INC., 1909 Weber Drive, Madison, Wis. 53713. Applicant's representative: Edward Solie, Executive Bldg., Suite 100, 4513 Vernon Blvd., Madison, Wis. 53705. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Fly ash and slag, in bulk, from the plant facilities of Wisconsin Power & Light Company, at or near Beloit, Cassville, Portage, and Sheboygan, Wis., to points in Illinois, Indiana, Iowa, Michigan, and Minnesota, under a continuing contract or contracts with National Minerals Corporation-Wisconsin, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 142002, filed April 8, 1976. Applicant: NORTHSIDE REPAIR & TOWING SERVICE, INC., 510 Webster Avenue, North Mankato, Minn. 56001. Applicant's representative: Grant J. Merritt, 415 Peavey Building, 730 Second Avenue S., Minneapolis, Minn. 55402. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Wrecked or disabled vehicles and replacement vehicles, by use of wrecker equipment, between points Minnesota, on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Min-

nesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Washington, West Virginia, Wisconsin, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 142003, filed April 8, 1976. Applicant: LANNA F. SITAR AND CAROL D. SITAR, doing business as L & C TRUCKING CO., a partnership, 2501 South Artesian Avenue, Chicago, Ill. 60606. Applicant's representative: Eugene L. Cohn, One N. LaSalle Street, Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Batteries and battery parts, between the ESB Industrial Plant Site, at Richmond, Ky.; the ESB Service Center site, at Benton, Ill.; Chicago, Ill., and points in the Chicago, Ill. Commercial Zone, as defined by the Commission.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 142005, filed April 6, 1976. Applicant: CHARLES D. ZEISLOFT, 403 East Elm Street, Wenonah, N.J. 08090. Applicant's representative: Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, Pa. 19102. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Slag, from the facilities of Grays Ferry Slag Corp., located in Swedeland, Pa., to the facilities of E. P. Henry & Son, Inc. in Woodbury, N.J., and the facilities of E. P. Henry Co. and Vineland, N.J., under continuing contract or contracts with E. P. Henry & Son, Inc., and E. P. Henry Co.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Philadelphia, Pa., or Washington, D.C.

No. MC 142006, filed April 5, 1976. Applicant: LYNBROOK SALVAGE CORP., 170 Mapes Avenue, Newark, N.J. 07112. Applicant's representative: Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) Corrugated roofing and siding, from Jersey City, N.J., to points in Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, and the District of Columbia; and (2) materials and supplies, used in the manufacturing of roofing and siding (except in bulk and tank vehicles) from the destination points named in (1) above, to Jersey City, N.J., under a continuing contract with Corrugated Metals, Inc., at Jersey City, N.J.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Newark, N.J., or New York, N.Y.

No. MC 141971-EX, filed April 15, 1976. Applicant: NEW ORLEANS TRAFFIC AND TRANSPORTATION

BUREAU, International Trade Mart, No. 2 Canal Street, New Orleans, La. 70130. Applicant's representative: G. B. Perry (same address as applicant). Authority sought for exemption from economic regulation in interstate or foreign commerce within one state as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities, within points in the Commercial Zone of New Orleans, La., as described in 117 M.C.C. 816, when operations are performed as incidental to prior or subsequent transportation by common carriers by water, to the Shipping Act, 1916. The nature, character, or quantity of the transportation to be exempted would not impair uniform regulation by the Interstate Commerce Commission and would serve the public interest, as expressed in Section 204 (4a).

#### PASSENGER APPLICATIONS

No. MC 544 (Sub-No. 1), filed April 19, 1976. Applicant: VANCOUVER-PORTLAND BUS CO., 111 East Fifth Street, Vancouver, Wash. 98660. Applicant's representative: David C. White, 2400 SW. Fourth Avenue, Portland, Ore. 97204. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Passengers and their baggage, in charter operations, beginning and ending at points in Clackamas, Multnomah, and Washington Counties, Ore., and Clark County, Wash., and extending to points in the United States including Alaska, but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Portland, Ore.

No. MC 58522 (Sub-No. 10), filed April 19, 1976. Applicant: RIVER TRAILS TRANSIT LINES, INC., P.O. Box 307, Highway 20 West, Galena, Ill. 61038. Applicant's representative: Richard A. Westley, 4508 Regent Street, Suite 100, Madison, Wis. 53705. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Passengers and their baggage in round-trip, special, and charter operations, beginning and ending at points in Jo Daviess County, Ill. (except points in the Dubuque, Iowa, Commercial Zone); Grant County, Wis. (except points in the Dubuque, Iowa, Commercial Zone); Lafayette County, Wis., and that portion of Iowa County, Wis., on, south, and west of a line extending from the western boundary of Iowa County, along U.S. Highway 18 to junction with Wisconsin Highway 23, thence along Wisconsin Highway 23 to the southern boundary of Iowa County, and extending to points in the United States, including Alaska but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Dubuque, Iowa; Madison, Wis.; or Chicago, Ill.

No. MC 113770 (Sub-No. 4), filed April 12, 1976. Applicant: WILLIAM S. CARROLL, 640 Hammond Street, Brookline, Mass. 02148. Applicant's representa-

tive: James F. Martin, Jr., 3003 Windsor Ridge Road, Westboro, Mass. 01581. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Passengers, in special operations, from Milford and Beltingham, Mass., and Woonsocket, R.I., to site of Plainfield Greyhound Park, Plainfield, Conn., and return.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 138713 (Sub-No. 1), filed April 1, 1976. Applicant: R & G TRAN-SIT CORPORATION, P.O. Box 248, Staunton, Ill. 62088. Applicant's representative: Richard L. Odorizzi (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Passengers and their baggage, in charter and special operations, beginning and ending in Litchfield, Hillsboro, Greenville, and Edwardsville, Ill., and points in Macoupin County, Ill., and extending to points in the United States (excluding Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant does not specify any particular location.

No. MC 139614 (Sub-No. 1), filed April 8, 1976. Applicant: ERIN TOURS, INC., 2019 Haring Street, Brooklyn, N.Y. 11229. Applicant's representative: Larsh B. Mewhinney, 235 Mamaronock Avenue, White Plains, N.Y. 10605. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Passengers and their baggage, in charter and special operations, from New York, N.Y., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, and return.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Brooklyn, or New York, N.Y.

No. MC 142007, filed April 14, 1976. Applicant: OTTE BUS SERVICE INC., Route #1, Cedar Grove, Wis. 53013. Applicant's representative: Michael S. Varda, 121 So. Pinckney Street, Madison, Wis. 53703. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Passengers and their baggage, in special and charter operations, beginning and ending at points in Sheboygan and Ozaukee Counties, Wis., and extending to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Milwaukee or Sheboygan, Wis.

No. MC 142011, filed April 1, 1976. Applicant: LEISURE TIME TOURS, 12 Industrial Avenue, Upper Saddle River, N.J. 07458. Applicant's representative: Samuel B. Zinder, 98 Cutter Mill Road,

Great Neck, N.Y. 11021. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, with express and newspapers* in the same vehicle with passengers, between junction New Jersey Highway 4 and New Jersey Highway 17 in Paramus, N.J., and Manhattan, N.Y., as follows: (a) From junction New Jersey Highway 4 and New Jersey Highway 17 in Paramus, N.J., thence over New Jersey Highway 17 to junction with Interstate Route 80, in Lodi, N.J., thence over Interstate Route 80 to junction Interstate Route 95 (New Jersey Turnpike extension) thence over Interstate 95 to junction New Jersey Route 3, thence over New Jersey Route 3 to the Lincoln Tunnel to Manhattan, and return, over the same route, serving no intermediate points and serving the junction of New Jersey Highway 4 and New Jersey Highway 17 in Paramus, N.J., for the purpose of joinder only. (b) From New Jersey Highway 4 in Paramus, N.J., over New Jersey Highway 17 to New Jersey Highway 3 in East Rutherford, N.J., thence over New Jersey Highway 3 to the Lincoln Tunnel, thence through the Lincoln Tunnel to Manhattan, N.Y., serving no intermediate points and serving the junction of New Jersey Highway 4 and New Jersey Highway 17 in Paramus, N.J., for the purpose of joinder only.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

## BROKER APPLICATIONS

No. MC 130287 (Sub-No. 1), filed April 12, 1976. Applicant: JAMES W. VANGEMERT, 53 Commerce SW., Grand Rapids, Mich. 49502. Applicant's representative: Edward Malinzak, 900 Old Kent Building, Grand Rapids, Mich. 49502. Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Grand Rapids, Mich., to sell or offer to sell the transportation of passengers and their baggage, beginning and ending at points in the Lower Peninsula of Michigan (except Kent County, Mich.), and extending to points in the United States including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Lansing or Detroit, Mich.

No. MC 130386, filed March 2, 1976. Applicant: DAVID P. BOLLONE, doing business as TRAVEL UNLIMITED, 322 East Main Street, Belleville, Ill. 62220. Applicant's representative: David P. Bollone (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Belleville, Ill., to sell or offer to sell the transportation of passengers as individuals and in groups, and their baggage in the same vehicle with passengers, in special and charter operations, in sightseeing and pleasure tours, by motor, air, water, and rail carriers, beginning and ending at Belleville, Ill., and points in Clinton, Madison, Monroe, and St. Clair Counties, Ill.; St. Louis,

Mo., and its Commercial Zone; and points in St. Louis County, Mo., and extending to points in the United States including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Belleville, Ill.; St. Louis, Mo.; or Chicago, Ill.

No. MC 130374, filed April 19, 1976. Applicant: JEFFREY LEE HUBBARD, doing business as HUBBARD TOURS, 1520A Martin Street, Suite 106, Parkway Office Suites, Winston-Salem, N.C. 27103. Applicant's representative: Robert Sapp, Maine Street, Winston-Salem, N.C. 27101. Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Winston-Salem, N.C., to sell or offer to sell the transportation of passengers, both individually and in groups, and their baggage in special and charter operations, beginning and ending at points in Forsyth County, and Winston-Salem, N.C., and extending to points in the United States including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Raleigh or Charlotte, N.C.

No. MC 130375, filed April 2, 1976. Applicant: MAXINE WILLIER, doing business as MID-MISSOURI TRAVEL AGENCY and MID-MISSOURI TRAVELERS, P.O. Box 144, Lancaster, Mo. 63548. Applicant's representative: E. Richard Webber, 110 West Monroe Street, Memphis, Mo. 63555. Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Lancaster and Moberly, Mo., to sell or offer to sell the transportation of individual passengers and groups of passengers and their baggage in the same vehicle with passengers, in special operations, sightseeing, pleasure, and round trip tours, by motor carriers, beginning and ending at points in that part of Missouri on, east, and north of a line commencing at the Iowa-Missouri State Boundary line (except points in St. Louis County, Mo.) and extending to points in the United States, including Alaska and Hawaii, and points in the Providence of Canada.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Lancaster or Kirksville, Mo.

No. MC 130377, filed April 20, 1976. Applicant: BYRON W. HOUSE TRAVEL AGENCY, INC., 1020 West Fourth St., Little Rock, Ark. 72201. Applicant's representative: Byron W. House, Jr. (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Little Rock, Ark., to sell or offer to sell the transportation of passengers and their baggage, both individuals and groups, in charter and special operations, beginning and ending at Little Rock, Ark., and extending to points in the United States including Alaska but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Little Rock, Ark.

## FREIGHT FORWARDER APPLICATIONS

No. FF-339 (Sub-No. 2), filed April 16, 1976. Applicant: TOWNE INTERNATIONAL FORWARDING, INC., P.O. Box 19516, Houston, Tex. 77024. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW, Washington, D.C. 20006. Authority sought to engage in operation, in interstate commerce, as a freight forwarder, through use of the facilities of common carriers by rail, motor, water, and express in the transportation of (a) *Used household goods and unaccompanied baggage*, and (b) *Used automobiles*, between points in the United States including Hawaii and Alaska, restricted in (b) above to the transportation of export and import traffic.

NOTE.—The purpose of this application is to add Alaska to applicant's present scope of authority. If a hearing is deemed necessary, the applicant requests it be held at San Antonio, Tex.

No. FF-375 (Sub-No. 1), filed April 22, 1976. Applicant: SECURITY FORWARDERS, INCORPORATED, 100 West Airline Highway, Kenner, La. 70062. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW, Washington, D.C. 20006. NOTE.—MC 19458 Sub-No. 3, is a directly related matter.

#### OPERATING RIGHTS APPLICATIONS DIRECTLY RELATED TO FINANCE PROCEEDINGS

The following operating rights applications are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with pending transfer appli-

cations under Section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR § 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its applications.

No. MC 59501 (Sub-No. 3), filed April 12, 1976. Applicant: E & L TRUCKING CO., 117 Webster Street, Pawtucket, R.I. 02861. Applicant's representative: Frederick T. O'Sullivan, 622 Lowell Street, P.O. Box 2184, Peabody, Mass. 01960. Authority sought to operate as a common carrier, by motor vehicle; over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, in tank vehicles, in hopper vehicles, and those requiring special equipment), serving points in Rhode Island as off-route points in connection with applicant's regular route authority between points in Rhode Island and Massachusetts.

NOTE.—The purpose of this application is to convert a Certificate of Registration to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) finance proceeding in MC-F-12814 published in the FEDERAL REGISTER issue of April 29, 1976. If a hearing is deemed necessary, the applicant requests it be held at Providence, R.I.

No. MC 109533 (Sub-No. 75), filed April 21, 1976. Applicant: OVERNITE TRANSPORTATION COMPANY, 1100 Commerce Road, Richmond, Va. 23224. Applicant's representative: Eugene T. Lipfert, 1660 L Street, Suite 1100, Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), (1) between Louisville, Ky., and Hazel, Ky., serving all intermediate points and points in Breckenridge, Bullitt, Butler, Caldwell, Calloway, Christian, Crittenden, Daviess, Edmonson, Grayson, Hancock, Hardin, Hart, Henderson, Hopkins, Jefferson, Larue, Livingston, Logan, Lyon, McCracken, McLean, Marshall, Meade, Muhlenberg, Ohio, Todd, Trigg, Union, and Webster Counties, Ky., as off-route points: From Louisville over Interstate Highway 65 to junction West-

ern Kentucky Parkway, thence over Western Kentucky Parkway to junction U.S. Highway 62, thence over U.S. Highway 62 to junction Purchase Parkway, thence over Purchase Parkway to Benton, Ky., thence over U.S. Highway 641 to Hazel, and return over the same route; (2) between Madisonville, Ky., and junction U.S. Highway 41 and Western Kentucky Parkway, serving all intermediate points: From Madisonville over U.S. Highway 41 to junction Western Kentucky Parkway and return over the same route; and (3) between Paducah, Ky., and junction U.S. Highway 62 and Western Kentucky Parkway, serving all intermediate points: From Paducah over U.S. Highway 62 to junction Western Kentucky Parkway and return over the same route.

NOTE.—This is a matter directly related to a Section 5(2) finance proceeding in MC-F-12822 published in the FEDERAL REGISTER issue of April 5, 1976. If a hearing is deemed necessary, the applicant requests it be held at Louisville or Frankfort, Ky.

No. MC 125499 (Sub-No. 3), filed April 14, 1976. Applicant: L V COMPANY, INC., R.D. No. 1, Coplay, Lehigh County, Pa. 18037. Applicant's representative: John W. Frame, 2207 Old Gettysburg Road, Box 626, Camp Hill, Pa. 17011. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Shale derived aggregate in bulk, (1) from Tamaqua, Pa., to points in Connecticut, Delaware, Maryland, New Jersey, and the District of Columbia and points in New York within 200 miles of Tamaqua, Pa.; and (2) from points in Plains Township, Luzerne County, Pa., to points in Connecticut, Delaware, Maryland, New Jersey (except points in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden, and Burlington Counties, N.J.), New York, Rhode Island, and the District of Columbia, under a continuing contract or contracts with Bylite Corporation.

NOTE.—The purpose of this application is to convert a Certificate of Public Convenience and Necessity to a Permit. This is a matter directly related to a Section 5(2) finance proceeding in MC-F-12301 published in the FEDERAL REGISTER issue of September 18, 1974. If a hearing is deemed necessary, the applicant does not specify a location.

No. MC 134493 (Sub-No. 2), filed April 9, 1976. Applicant: CHICAGO-ST. LOUIS TRANSPORT, INC., 800 Joliet Street, Joliet, Ill. 60436. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over regular and irregular routes, transporting: General commodities (except commodities in bulk, household goods as defined by the Commission, Classes A and B explosives, commodities of unusual value, and commodities which because of size or weight require special equipment), (1) Irregular Routes: Between points in Cook and DuPage Counties, Ill., points in that part of Lake County, Ill., on and south of Illinois

Highway 132, points in McHenry and Kane Counties, Ill., on and east of Illinois Highway 31, and points in that part of Will County, Ill., located on and north of a line commencing on U.S. Highway 80 at the Will-Kendall-Grundy Counties Line, thence along U.S. Highway 80 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction with Manhattan Road, thence along Manhattan Road to Fairthorn Road, thence along Fairthorn Road to the Illinois-Indiana State Line; and (2) Regular Routes: Serving the described in (1) above as off-route points in connection with carrier's otherwise authorized regular-route operations, between Chicago, Chicago Heights, and Waukegan, Ill., and St. Louis, Mo.

**NOTE.**—The purpose of this application is to convert a Certificate of Registration to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) finance proceeding in MC-P-12811 published in the *FEDERAL REGISTER* issue of April 22, 1976. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 41790 (Partial Correction), filed March 3, 1976, published in the *FEDERAL REGISTER* issue of April 15, 1976, republished as corrected this issue. Applicant: OSBORNE GROUP, INC., 125 University Avenue, Berkeley, Calif. 94710. Applicant's representative: James H. Gulseth (same address as applicant).

**NOTE.**—Notice previously published in the *FEDERAL REGISTER* of April 15, 1976. The purpose of this partial correction is to indicate that applicant seeks to convert a Permit to a Certificate of Public Convenience and Necessity in lieu of a Certificate of Registration. The rest of the publication remains the same. This is a matter directly related to a Section 5(2) finance proceeding in MC-P-12785 published in the *FEDERAL REGISTER* issue of March 17, 1976. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

#### MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Commission's Deviation Rules—Motor Carriers of Property (49 CFR § 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules (49 CFR § 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this *FEDERAL REGISTER* notice.

Each applicant states that there will be no significant effect on the quality of the environment resulting from approval of its request.

No. MC 263 (Deviation No. 16), GARRETT FREIGHTLINES, INC., P.O. Box 4048, Pocatello, Idaho 83201, filed March 17, 1976. Carrier proposes to operate as a common carrier, by motor vehicle, of

general commodities, with certain exceptions, over a deviation route as follows: From Salt Lake City, Utah, over Interstate Highway 80 to junction U.S. Highway 287 at Rawlins, Wyo., thence over U.S. Highway 287 to junction Wyoming Highway 220, thence over Wyoming Highway 220 to Casper, Wyo., thence over Interstate Highway 25 to junction U.S. Highway 18 at Orin, Wyo., thence over U.S. Highway 18 to junction South Dakota Highway 79, thence over South Dakota Highway 79 to Rapid City, S. Dak., thence over Interstate Highway 90 to junction Minnesota Highway 15 at Fairmont, Minn., thence over Minnesota Highway 15 to junction Minnesota Highway 60 at Madelia, Minn., thence over Minnesota Highway 60 to junction U.S. Highway 169 at Mankato, Minn., thence over U.S. Highway 169 to Minneapolis, Minn., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Salt Lake City, Utah, over U.S. Highway 91 to junction U.S. Highway 191 near Brigham City, Utah, thence over U.S. Highway 191 to junction U.S. Highway 91 at Downey, Idaho, thence over U.S. Highway 91 to junction U.S. Highway 10 near Butte, Mont., thence over U.S. Highway 10 to junction U.S. Highway 52 at Fargo, N. Dak., thence over U.S. Highway 52 to Minneapolis, Minn., and return over the same route.

No. MC 921 (Deviation No. 5), DEAN TRUCK LINE, INC., P.O. Drawer 632, Fulton Drive, Corinth, Miss. 38834, filed May 10, 1976. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over deviation routes as follows:

(1) From Montgomery, Ala., over Interstate Highway 65 to Birmingham, Ala., thence over U.S. Highway 78 to Tupelo, Miss., (2) From Montgomery, Ala., over Interstate Highway 65 to junction Alabama Highway 157 north of Cullman, Ala., thence over Alabama Highway 157 to junction U.S. Alternate Highway 72, thence over U.S. Alternate Highway 72 to junction U.S. Highway 72, thence over U.S. Highway 72 to Corinth, Miss., (3) From Montgomery, Ala., over Interstate Highway 65 to Alternate U.S. Highway 72 near Decatur, Ala., thence over Alternate U.S. Highway 72 to Corinth, Miss., and (4) From Montgomery, Ala., over Interstate Highway 65 to junction Alabama Highway 67, thence over Alabama Highway 67 to junction U.S. Highway 31, thence over U.S. Highway 31 to junction U.S. Alternate Highway 72, thence over U.S. Alternate Highway 72 to Corinth, Miss., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Montgomery, Ala., over U.S. Highway 80 to Demopolis, Ala., thence over U.S. Highway 43 to Tuscaloosa, Ala., thence over U.S. Highway 82

to junction Alternate U.S. Highway 45 near Mayhew, Miss., thence over Alternate U.S. Highway 45 and U.S. Highway 45 to Tupelo and Corinth, Miss., and return over the same routes.

No. MC 2202 (Deviation No. 151), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Blvd., Akron, Ohio 44309, filed May 6, 1976. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From junction Indian Nation Turnpike and U.S. Highway 271 approximately one mile south of Hugo, Okla., over Indian Nation Turnpike to junction U.S. Highway 69, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From junction Indian Nation Turnpike and U.S. Highway 271 near Hugo, Okla., over U.S. Highway 271 to Antlers, Okla., thence over Oklahoma Highway 3 to Atoka, Okla., thence over U.S. Highway 69 to junction Indian Nation Turnpike, and return over the same route.

No. MC 2202 (Deviation No. 152), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Blvd., Akron, Ohio 44309, filed May 10, 1976. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Rock Island, Ill., over U.S. Highway 67 to junction Illinois Highway 67 to junction Interstate Highway 55, thence over Interstate Highway 55, thence over Illinois Highway 78 to junction U.S. Highway 67, thence over U.S. Highway 67 to junction Interstate Highway 55, thence over Interstate Highway 55 to junction U.S. Highway 78, thence over U.S. Highway 78 to junction U.S. Highway 45, thence over U.S. Highway 45 to junction Alternate U.S. Highway 45, thence over Alternate U.S. Highway 45 to junction U.S. Highway 45, thence over U.S. Highway 45 to Meridian, Miss., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Rock Island, Ill., over Illinois Highway 92 to Mendota, Ill., thence over U.S. Highway 34 to Chicago, Ill., thence over U.S. Highway 41 to junction U.S. Highway 52, thence over U.S. Highway 52 to Indianapolis, Ind., thence over U.S. Highway 31 to Columbus, Ind., thence over Alternate U.S. Highway 31 via Seymour, Ind., to junction U.S. Highway 31, thence over U.S. Highway 31 to Sellersburg, Ind., thence over U.S. Highway 31E or 31W to Louisville, Ky., thence over U.S. Highway 31W to Nashville, Tenn., thence over U.S. Highway 31 to Birmingham, Ala., thence over U.S. Highway 11 to Meridian, Miss., and return over the same route.

No. MC 49387 (Deviation No. 10), ORSCHELN BROS. TRUCK LINES,

INC., Highway 24 East, P.O. Box 658, Moberly, Mo. 65270, filed May 10, 1976. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Chicago, Ill., over Interstate Highway 55 to junction Interstate Highway 44, thence over Interstate Highway 44 to Springfield, Mo., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Chicago, Ill., over U.S. Highway 66 to junction U.S. Highway 54, thence over U.S. Highway 54 to junction U.S. Highway 40, thence over U.S. Highway 40 to junction U.S. Highway 65, thence over U.S. Highway 65 to Springfield, Mo., and return over the same route.

No. MC 108449 (Deviation No. 8), INDIANHEAD TRUCK LINE, INC., Box 3355, St. Paul, Minn. 55165, filed May 10, 1976. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From junction U.S. Highway 30 and U.S. Highway 24 at New Haven, Ind., over U.S. Highway 24 to junction U.S. Highway 127 near Cecil, Ohio, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From junction U.S. Highway 30 and U.S. Highway 24, over U.S. Highway 30 to Van Wert, Ohio, thence over U.S. Highway 127 to junction U.S. Highway 24 near Cecil, Ohio, and return over the same route.

No. MC 111231 (Deviation No. 49), JONES TRUCK LINES, INC., 610 E. Emma Ave., Springdale, Ark. 72764, filed

May 3, 1976. Carrier's representative: James B. Blair, 111 Holcomb St., Springdale, Ark. 72764. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Atlanta, Ga., over U.S. Highway 278 to junction Alabama Highway 17 near Hamilton, Ala., thence over Alabama Highway 17 to junction U.S. Highway 278 near Sulligent, Ala., thence over U.S. Highway 278 to junction U.S. Highway Alternate 45 near Okolona, Miss., thence over U.S. Highway Alternate 45 to junction Mississippi Highway 8, thence over Mississippi Highway 8 to Cleveland, Miss., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Atlanta, Ga., over U.S. Highway 78 to Memphis, Tenn., thence over U.S. Highway 61 to Cleveland, Miss., and return over the same route.

No. MC 111383 (Deviation No. 46), BRASWELL MOTOR FREIGHT LINES, INC., P.O. Box 4447, Dallas, Tex. 75208, filed April 21, 1976. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Tulsa, Okla., over Muskogee Turnpike to junction Interstate Highway 40, thence over Interstate Highway 40 to Memphis, Tenn., thence over U.S. Highway 72 and Alternate U.S. Highway 72 to Decatur, Ala., thence over U.S. Highway 31 to junction Alabama Highway 67, thence over Alabama Highway 67 to junction U.S. Highway 278, thence over U.S. Highway 278 to Gadsden, Ala., thence over U.S. Highway 431 to junction U.S. Highway 78 near Oxford, Ala., and return over the same route for operating convenience only. The notice indicates that the carrier is presently

authorized to transport the same commodities, over a pertinent service route as follows: From Tulsa, Okla., over U.S. Highway 75 to junction Oklahoma Highway 3 near Coalgate, Okla., thence over Oklahoma Highway 3 to Antlers, Okla., thence over U.S. Highway 271 to Mt. Pleasant, Tex., thence over U.S. Highway 67 to Naples, Tex., thence over Texas Highway 77 to the Louisiana-Texas State line, thence over Louisiana Highway 1 to Shreveport, La., thence over U.S. Highway 80 to junction U.S. Highway 11, thence over U.S. Highway 11 to Birmingham, Ala., thence over U.S. Highway 78 to Oxford, Ala., and return over the same route.

No. MC 111383 (Deviation No. 50), BRASWELL MOTOR FREIGHT LINES, INC., P.O. Box 4447, Dallas, Tex. 75208, filed May 4, 1976. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Round Rock, Tex., over U.S. Highway 79 to junction U.S. Highway 84 at Palestine, Tex., thence over U.S. Highway 84 to junction Louisiana Highway 5 at Logansport, La., thence over Louisiana Highway 5 to junction U.S. Highway 171, thence over U.S. Highway 171 to Shreveport, La., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Round Rock, Tex., over U.S. Highway 81 to Waco, Tex., thence over U.S. Highway 77 to Dallas, Tex., thence over U.S. Highway 80 to Shreveport, La., and return over the same route.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

V

**FEDERAL ELECTION COMMISSION**

[Notice 1976-26]

**FEDERAL ELECTION COMMISSION  
CLEARINGHOUSE ADVISORY PANEL**

**Notice of Hearing**

In accordance with the Clearinghouse Advisory Panel Charter approved by the Federal Election Commission on November 25, 1975, and in the spirit of the Federal Advisory Committee Act (Public Law 92-463), the Commission announces the following panel meeting:

Name: Federal Election Commission Clearinghouse Advisory Panel.  
Date: 9-10 June 1976.

**NOTICES**

20803

Place: St. Francis Hotel, Union Square, San Francisco, California.

Time: 0900-1200; 1400-1630 on 9 June 1976; 0900-1200; 1400-1630 on 10 June 1976.

Proposed agenda: Discussion sessions addressing research priorities, topics and projects in election administration including: Planning and management; registration; balloting; tabulation and records.

Purpose of the meeting: The Panel will review past Clearinghouse research efforts, discuss present problems in the administration of federal elections, and formulate recommendations to the Federal Election Commission Clearinghouse for its future research program.

The Advisory Panel meeting is open to the public depending on available

space. Any member of the public may file a written statement with the Panel before, during, or after the meeting. To the extent that time permits, the Panel Chairman may allow public presentation of oral statements at the meeting.

All communications regarding this Advisory Panel should be addressed to Dr. Gray Greenhalgh, Clearinghouse on Election Administration, Federal Election Commission, 1325 K Street, N.W., Washington, D.C. 20463.

Dated: May 17, 1976.

NEIL STAEBLER,  
*Acting Vice Chairman for the  
Federal Election Commission.*

Federal Insurance Administration  
[Docket No. N-76-376]

## NATIONAL FLOOD INSURANCE PROGRAM

Flood-Prone Areas of Communities Subject  
to Section 202 Prohibition of Federal  
and Federally Related Assistance

The purpose of this notice is to provide a list of communities that contain areas of special flood hazard potentially subject to the provisions of Section 202 of the Flood Disaster Protection Act of 1973 (PL 93-234) on July 1, 1975, or an appropriate later date, and to provide a convenient reference for interested persons, communities, Federal agencies and instrumentalities, and others involved in assuring compliance with that section. This list supersedes and up-dates the list published in the Federal Register at 40 F.R. 15580-15677.

Section 202 provides that effective July 1, 1975, Federal agencies and federally supervised, approved, insured, or regulated lending institutions are pro-

## NOTICES

hibited from providing financial assistance or making loans for acquisition or construction purposes in areas which (a) have been designated by the Secretary of Housing and Urban Development as Special Flood Hazard Areas for at least one year; and (b) are in communities which are not participating in the National Flood Insurance Program (42 USC §§ 4001-4128).

The prohibition does not apply to any loan made by a federally-supervised, approved, insured, or regulated lending institution made prior to March 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

Each of the communities listed below received notice of its designation as flood-prone prior to June 1, 1975, and legal notice was furnished of such designation by publication under Part 1915 of Title 24 of the Code of Federal Regulations in the FEDERAL REGISTER. These communities have failed to provide the Federal Insurance Administrator with sufficient technical or scientific data to rebut their designation as flood prone nor have they as yet qualified for participa-

tion in the National Flood Insurance Program. Thus, the sanctions of Section 202 apply as of July 1, 1975, or one year after a community's identification, whichever is later, until the community participates in the program.

In order to continue Federal or federally related assistance or lending in its Special Flood Hazard Area, a community must apply for and be made eligible for participation in the program in accordance with 24 CFR (Parts 1909 to 1920). Communities may receive assistance in applying for participation by contacting the Federal Insurance Administration, 451 Seventh St., S.W., Washington, D.C. 20410, (202) 755-5581, or its toll-free numbers 800-424-8872 or 800-424-8873.

Communities on this list may be made eligible to participate in the program after the date of publication of this list. Such eligibility will be published periodically in the Federal Register under 24 CFR § 1914.4 List of eligible communities. At that time the sanctions of Section 202 will no longer apply to the communities listed below.

# THIS HANDY REFERENCE IS A "MUST" ON YOUR BOOKSHELF!

1975/1976 EDITION

Whatever happened to the Director of Liquidation? (page 693)

Which agencies have programs concerning American Indians? (page 817)

What is SPARS? (page 762)

The answers to these and many more intriguing questions concerning the Federal Government can be found in the *U.S. Government Manual*.

This official guidebook provides useful information about a wide variety of programs and activities within the three branches of Government, including:

- Agency programs, functions, key officials, and a "Sources of Information" section
- Federal regional government system
- A historical reference to Federal agencies and functions
- Bicentennial activities and programs

This handbook is an excellent reference tool for teachers, students, librarians, businessmen, lawyers, and citizens interested in current information about the U.S. Government.

# reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

## Rules Going Into Effect May 22, 1976

DOT/FRA—Federal motor vehicle safety standards; new pneumatic tires for passenger cars..... 16804; 4-22-76

## List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

## AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

Ten agencies have agreed to a six-month trial period based on the assignment of two days a week beginning February 9 and ending August 6 (See 41 FR 5453). The participating agencies and the days assigned are as follows:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
	CSC			CSC
	LABOR			LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this trial program are invited. Comments should be submitted to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

**ATTENTION:** Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202-523-5286. For information on obtaining extra copies, please call 202-523-5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202-523-5022.

federal register

Area Code 202  
Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## HIGHLIGHTS—Continued

# rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 5—Administrative Personnel CHAPTER I—CIVIL SERVICE COMMISSION

### PART 213—EXCEPTED SERVICE Entire Executive Civil Service

Section 213.3102 is amended to show that the expiration date for new appointments of persons paid out of funds allocated under title X of the Public Works and Economic Development Act of 1965, as amended, has been extended from September 30, 1976, to February 28, 1977.

Effective May 21, 1976, § 213.3102(r) is amended as set out below:

§ 213.3102 Entire Executive Civil Service.

(r) All positions of a project nature when filled by individuals the salaries of whom are paid out of (1) funds allocated by the President under authority of Public Law 87-658, approved September 14, 1962, the Public Works Acceleration Act of 1962, or (2) funds allocated by the Secretary of Commerce under authority of title X of the Public Works and Economic Development Act of 1965, as amended. Employment under this authority shall be for a temporary period not to exceed 1 year. No new appointments of persons paid out of funds allocated under title X of the Public Works and Economic Development Act of 1965, as amended, may be made after February 28, 1977.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958, p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,  
JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

### PART 213—EXCEPTED SERVICE Department of the Army

Section 213.3107 is amended to show that the time limitation for foreign language subject-matter specialist positions at the Defense Language Institute has been eliminated and that these positions are now placed under § 213.3107(g) (1).

Effective May 21, 1976, § 213.3107(g) (1) is amended and § 213.3107(g) (5) is revoked as set out below:

§ 213.3107 Department of the Army.

(g) Defense Language Institute.  
(1) Positions of instructors whose

duties require proficiency in the teaching of a foreign language, supervisory instructors whose duties require a background in language teaching, and foreign language subject-matter specialists whose duties require proficiency in a given foreign language to assist in the development and evaluation of instructional material and methods directly related to the teaching of foreign languages.

(5) [Reserved]

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

### PART 213—EXCEPTED SERVICE Department of Justice

Section 213.3310 is amended to show that one additional position of Director of Public Affairs, Drug Enforcement Administration, is excepted under Schedule C.

Effective May 21, 1976, § 213.3310 (1) (3) is amended as set out below:

§ 213.3310 Department of Justice.

(i) Drug Enforcement Administration.

(3) Two Directors of Public Affairs.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,  
JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc. 76-14948 Filed 5-20-76; 8:45 am]

### PART 213—EXCEPTED SERVICE Securities and Exchange Commission

Section 213.3330 is amended to show that one position of Public Information Office is excepted under Schedule C.

Effective May 21, 1976, § 213.3330 (j) is added as set out below:

§ 213.3330 Securities and Exchange Commission.

(j) One Public Information Officer.  
(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,  
JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc. 76-14949 Filed 5-20-76; 8:45 am]

## Title 9—Animals and Animal Products CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

### SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

#### PART 73—SCABIES IN CATTLE

##### Release of Area Quarantined

This amendment releases a portion of Lincoln County in Nebraska from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained in 9 CFR Part 73, as amended, will not apply to the excluded area, but the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 will apply to the excluded area.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies is hereby amended as follows:

In § 73.1a, paragraph (b) (1) and (2) relating to the State of Nebraska is amended to read:

V411100  
MAY 21  
76  
UMI

## § 73.1a Notice of quarantine.

(b) Notice is hereby given that cattle in certain portions of the State of Nebraska are affected with scabies, a contagious infectious, and communicable disease; and, therefore, the following areas in such State are hereby quarantined because of said disease:

(1) That portion of Garden County comprised of sec. 13, T. 17 N., R. 45 W., School District 43.

(2) That portion of Kearney County comprised of sec. 12, T. 7 N., R. 16 W. in Blaine Precinct.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 190, 132; (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126; 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

**Effective date.** The foregoing amendment shall become effective May 14, 1976.

The amendment relieves restrictions no longer deemed necessary to prevent the spread of cattle scabies and should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of May 1976.

PIERRE A. CHALOUX,  
Acting Deputy Administrator,  
Veterinary Services.

[FR Doc. 76-14706 Filed 5-20-76; 8:45 am]

# Title 12—Banks and Banking CHAPTER V—FEDERAL HOME LOAN BANK BOARD

## SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM [No. 76-353]

### PART 545—OPERATIONS Amendment Relating to Mortgage-Futures Transactions

#### SUMMARY

MAY 18, 1976.

The following summary of the amendment adopted by this Resolution is included for the reader's convenience and is subject to the full explanation in the preamble and to the specific provisions in the regulations.

#### I. PROPOSED REGULATIONS

A. Would authorize Federals to engage in transactions in the GNMA futures market operated by the Chicago Board of Trade.

## RULES AND REGULATIONS

B. Federals could only engage in such transactions for hedging purposes and in compliance with certain other restrictions.

C. Speculative transactions would be prohibited.

### II. FINAL REGULATIONS

A. New eligibility requirements.

B. Limited anticipatory hedging authorized; must be matched against firm commitments or anticipated reinvestments of expected mortgage repayments (including principal and interest but excluding prepayments and penalties) over forthcoming 12-month period.

1. The term "firm commitments" expanded to include FHLMC Mortgage Participation Certificates and similar obligations secured by mortgages in which Federal associations are authorized to invest.

C. Dollar amount of gross mortgage-futures contracts limited to association's net worth; proposal would have allowed dollar amount of net mortgage-futures contracts to equal net worth.

D. New notification and record-keeping requirements, including justification of anticipated commitments.

E. Deletion of 12-month limit on firm commitments to be matched against futures contracts.

F. New definitions.

### III. REASONS FOR MODIFICATIONS

More flexibility for association planning of future mortgage lending; greater safeguards and lower dollar amount of futures commitments in a new area of association activity.

Pursuant to the Commodity Futures Trading Commission Act of 1975 (P.L. 94-16), the Commodity Futures Trading Commission recently authorized the Chicago Board of Trade to begin operation of a futures market for mortgage-backed securities guaranteed by the Government National Mortgage Association (GNMAS).

By Resolution No. 75-865 of September 30, 1975, the Federal Home Loan Bank Board proposed to amend Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545) by amending § 545.9 thereof and adding new § 545.29 thereto in order to enable Federal associations to engage in futures transactions with respect to GNMAS for the limited purpose of obtaining protection against market interest rate fluctuations.

Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on October 8, 1975 (40 F.R. 47149-47150), with an invitation for interested persons to submit comments by November 10, 1975. On the basis of all relevant material presented by interested persons and otherwise available, the Board hereby adopts proposed new § 545.29 with modifications as discussed below. The substance of the proposed amendment to § 545.9 is incorporated in this amendment.

The proposal would have permitted a Federal association to engage in mortgage-futures transactions involving

GNMAs subject to three conditions. First, the association would have been required to take a "hedged" position, with its net futures market position matched against its net cash market position in firm commitments to buy (or otherwise acquire) or sell mortgages and GNMAs (without regard to the maturities of the contracts and commitments constituting these positions). Second, an association would have been permitted to take a hedged position in the mortgage-futures market only with respect to firm commitments. As used in proposed § 545.29, the term "firm commitment" referred to a binding written commitment to make, purchase, issue, or deliver mortgage loans or GNMAs at fixed interest rates or yields on or prior to a date specified in the contract and not later than one year from the date of commitment. Third, the amount of an association's total outstanding net mortgage-futures positions would not have been authorized to exceed its net worth at any time.

The final regulations adopted by the Board today continue to emphasize the importance of limiting mortgage-futures market trading to hedged positions, that is, obtaining protection against market interest rate fluctuations affecting cash market positions, but modifications have been made in a number of respects to broaden associations' hedging flexibility while adding new safeguards and reducing the dollar amount of trading authority. The Board believes that these changes will result in better and more detailed forecasting and planning for future mortgage lending activities and will dampen the amplitudes of variations in fund flows into the housing markets.

New paragraph (a) sets forth the basic authorization for Federal associations to engage in certain mortgage-futures transactions.

New paragraph (b) establishes threshold eligibility requirements for Federal associations engaging in mortgage-futures transactions. Associations must meet their net-worth requirements under § 563.13(b) of the Rules and Regulations for Insurance of Accounts (12 CFR 563.13(b)), have scheduled items not in excess of 2.5% of specified assets, and have appraised losses offset by specified loss reserves as required under § 563.17-2 of the Rules and Regulations for Insurance of Accounts (12 CFR 563.17-2). The threshold eligibility requirements may be waived by the Board upon specific written request.

New paragraph (c) sets out investment limitations for associations engaged in mortgage-futures transactions. Subparagraph (c) (2) provides that such transactions must be matched against either an association's firm commitments, or against anticipated reinvestments in mortgages and mortgage-related securities of its expected mortgage repayments over the next 12-month period (without regard to matching of maturities); as noted above, the proposal would only have allowed matching against firm commitments. The Board is persuaded that it is desirable to permit

more trading flexibility by allowing this limited type of anticipatory hedging, i.e., matching futures transactions against anticipated cash transactions which are based on expected future mortgage repayments. Under the recording requirements in new subparagraph (d) (2), an association is required to show justification for its expectations regarding future mortgage repayments.

The proposal employed the concept of "net" mortgage-futures positions with regard to the dollar limit of an association's transactions (net mortgage-futures position not to exceed an association's net worth). Upon reconsideration, the Board believes it significant, that a "net" mortgage-futures position does not reflect number and dollar amounts of outstanding mortgage-futures contracts, and that "netted" contracts may have widely-separated due dates resulting in possible loss to the association on both. The Board believes that the "net mortgage-futures position" concept could permit speculative trading situations rather than the hedged positions which are the focus of the Board's regulations. The Board therefore adopts the concept of "outstanding gross mortgage-futures position" and provides in new subparagraph (c) (1) that total outstanding gross mortgage-futures transactions may not exceed an association's net worth.

New paragraph (d) establishes record-keeping requirements for associations engaging in mortgage-futures transactions, requiring them to maintain: (1) a register of all outstanding futures contracts prepared in such a way as to show present totals; (2) records kept of matched futures transactions and cash market transactions, along with a justification of expected mortgage repayments upon which anticipated cash market transactions are based; (3) a record of all transactions in due bills by the associations; and (4) a list of association personnel authorized to engage in mortgage-futures trading.

New paragraph (e) requires a Federal association to notify the District Director-Examinations at its Federal Home Loan Bank district at the inception of its mortgage-futures trading activity, and report thereafter on a quarterly basis.

The proposal would have amended § 545.9 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR 545.9), captioned Securities and other investments, to authorize a Federal association "to issue or purchase due bills in connection with § 545.29". Due bills are the equivalent of depository collateral receipts for GNMA securities and are issued only in those infrequent instances when there is delivery on a mortgage-futures contract. The proposed amendment to § 545.9 did not authorize associations to trade in a secondary market in due bills. The final amendment includes the proposed provision in paragraph (f) of new § 545.29; the provision is clarified to provide that an association may originate, deliver, receive, or redeem due bills in connection with its mortgage-futures transactions. Trading

## RULES AND REGULATIONS

in a secondary market for due bills continues to be unauthorized for Federal associations.

New paragraph (g) of new § 545.29 defines the terms "firm commitment", "mortgage-futures transactions", "mortgage-futures contract", "due bill", "mortgage repayment", and "mortgage-related security". The first of these terms was defined in paragraph (a) of the proposal; the other definitions are new. The definition of "firm commitment" differs in two respects from the proposal: (1) the 1-year limitation on the firm commitments is deleted in order to provide greater flexibility to associations in planning future mortgage lending activities; and (2) the definition is expanded to include Mortgage Participation Certificates of the Federal Home Loan Mortgage Corporation and similar obligations secured by mortgages in which Federal associations are authorized to invest.

The Board emphasizes that, while futures transactions which are conducted in a prudent and knowledgeable manner can provide an association with protection against market interest rate fluctuations, engaging in such transactions without sufficient understanding of the function and operation of the futures market is likely to result in loss to the association.

Accordingly, the Board hereby amends Part 545 by adding a new § 545.29 thereto, effective June 22, 1976.

### § 545.29 Mortgage-futures transactions.

(a) **General rule.** A Federal association may only engage in mortgage-futures transactions subject to the requirements and limitations set forth in this section.

(b) **Eligibility requirements.** An association engaging in a mortgage-futures transaction must meet the following eligibility requirements at the time of such transaction, unless one or more of such requirements are waived by the Board upon specific written request:

(1) Its net worth meets the requirements of § 563.13(b) of this chapter (associations insured for less than 2 years must meet the net-worth requirements for those insured for 2 years);

(2) Its scheduled items do not exceed 2.5 percent of its specified assets; and

(3) All its appraised losses have been offset by specified loss reserves to the extent required by the Board under § 563.17-2 of this chapter.

(c) **Investment limitations.** (1) An association may only engage in a mortgage-futures transaction if the amount of its total outstanding gross mortgage-futures position (the arithmetic sum of its short and long positions in the futures market) do not exceed the amount of its net worth or would not exceed it as a result of such transaction; and

(2) Mortgage-futures transactions must be directly matched against an association's firm commitments, or against anticipated reinvestments in mortgages and mortgage-related securities of its expected mortgage repayments over the forthcoming 12-month period: provided, that such matching need not include matching of maturities.

(d) **Record-keeping requirements.** An association engaging in mortgage-futures transactions shall maintain the following:

(1) A register of all its outstanding futures contracts, including brokers' confirmations as received, prepared in a manner sufficient to enable the Board to determine at any time the association's total outstanding gross mortgage-futures position;

(2) A record of specific futures contracts, the present or anticipated cash market transaction or transactions against which they are matched, and in the case of an anticipated transaction a statement of facts adequately justifying such anticipated transaction;

(3) A record of all transactions by the association in due bills;

(4) A list of all association personnel authorized to engage in mortgage-futures transactions in the association's behalf, and the duties, responsibilities, and limits of authority of each of them.

(e) **Notification.** Each association engaging in mortgage-futures transactions shall notify the District Director-Examinations at the Federal Home Loan Bank of which it is a member at the inception of such activity and thereafter on a quarterly basis shall notify said Director of its total outstanding gross mortgage-futures position on the date of such notification.

(f) **Due bills.** A Federal association may originate, deliver, receive, or redeem due bills in connection with its mortgage-futures transactions.

(g) **Definitions.** (1) The term "firm commitment" means a written commitment to make, purchase, issue, or deliver mortgage loans or mortgage-related securities at fixed interest rates on or prior to the date specified in the commitment contract.

(2) The term "mortgage-futures transaction" means the purchase or sale of a mortgage-futures contract under terms and conditions approved by the Commodity Futures Trading Commission.

(3) The term "mortgage-futures contract" means a transferable agreement to receive or deliver due bills under terms and conditions approved by the Commodity Futures Trading Commission.

(4) The term "due bill" means an instrument redeemable for GNMA-guaranteed mortgage-backed securities which is a valid delivery instrument under a mortgage-futures contract.

(5) The term "mortgage repayment" includes principal and interest, but excludes expected prepayments and penalties.

(6) The term "mortgage-related securities" includes GNMA-guaranteed mortgage-backed securities (as referred to in § 545.24-1), Mortgage Participation Certificates of the Federal Home Loan Mortgage Corporation, and similar obligations secured by mortgages in which the association is authorized to invest.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. § 1464, Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

# **PART 571—STATEMENTS OF POLICY**

Amendment Relating to Auditors of Insured Institutions

## **SUMMARY**

MAY 14, 1976.

The following summary of the amendment adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulations.

I. *Existing Regulations*—specify certain types of loans that an insured institution, or its affiliate or subsidiary, may make to a public accountant or internal auditor without preventing him from being considered independent.

II. *Amendment*—specifies additional such loans.

III. *Purpose of Amendment*—prescribe criteria for determining the independence of public accountants and internal auditors that reflect the present lending authority of insured institutions and their subsidiaries and affiliates.

The Federal Home Loan Bank Board considers it desirable to amend § 571.2 of the Rules and Regulations for Insurance of Accounts (12 CFR 571.2) for the purpose of prescribing criteria for determining the independence of a public accountant or internal auditor that reflect the present lending authority of insured institutions and their subsidiaries and affiliates.

Section 571.2(c)(3)(ii) presently specifies certain types of loans that an insured institution, or its affiliate or subsidiary, may make to a public accountant or internal auditor without preventing him from being considered independent. This amendment adds thereto consumer loans which are unsecured or secured by goods used or bought primarily for personal, family, or household purposes.

The Board finds that notice and public procedure are unnecessary under 12 CFR 508.11 and 5 U.S.C. § 553(b), since the amendment relieves restriction, and that publication of said amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. § 553(d) prior to effective date is unnecessary for the same reason.

Accordingly, the Board hereby amends § 571.2 of the Rules and Regulations for Insurance of Accounts, by deleting after paragraph (c)(3)(ii)(d)(2) and adding after paragraph (c)(3)(ii)(d)(3) thereof the word "or", and by adding new paragraph (c)(3)(ii)(d)(4) thereto, to

read as set forth below, effective May 21, 1976.

## **§ 571.2 Audits of insured institutions.**

(c) *Audits by public accountants or internal auditors.*

(3) *Independence of public accountant or internal auditor.*

(ii) A public accountant will not be considered to be independent if he:

(d) is a borrower from the institution or any of its subsidiaries or affiliates except with respect to:

(2) a loan to make alterations, repairs, or improvements to his residence;

(3) a loan secured solely by his savings credits in the institution; or

(4) a consumer loan either unsecured or secured by goods used or bought primarily for personal, family, or household purposes.

(Sec. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

J. J. FINN,  
Secretary.

[No. 76-354]

# **PART 571—STATEMENTS OF POLICY**

Amendments Relating to Mortgage-Futures Transactions

## **SUMMARY**

MAY 18, 1976.

The following summary of the amendments adopted by this Resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the amendments.

I. The authority of State-chartered insured institutions to engage in transactions in the GNMA futures market to be operated by the Chicago Board of Trade is primarily a matter of State law.

II. The Board strongly urges such institutions to only engage in such transactions in accordance with § 545.29. Pursuant to the Commodity Futures Trading Commission Act of 1975 (P.L. 94-16), the Commodity Futures Trading Commission recently authorized the Chicago Board of Trade to begin operation of a futures market for mortgage-backed securities guaranteed by the Government National Mortgage Association (GNMA).

By Resolution No. 75-923 of October 3, 1975, the Federal Home Loan Bank Board proposed to amend Part 571 of the Rules

and Regulations for Insurance of Accounts (12 CFR Part 571) to add a new Statement of Policy at § 571.12 to be captioned, Mortgage futures transactions, urging State-chartered insured institutions to only engage in mortgage-futures transactions in accordance with the then-proposed § 545.29 of the Rules and Regulations for the Federal Savings and Loan System. Section 545.29, adopted by the Board today in companion Resolution 76-353, provides that Federal associations may only engage in mortgage-futures transactions under certain conditions, which conditions should, in the Board's view, also be complied with by any insured institution engaging in such transactions.

Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on October 8, 1975 (40 F.R. 47151-47152), with an invitation to interested persons to submit comments by November 10, 1975. On the basis of all relevant material presented by interested persons and otherwise available, the Board hereby adopts § 571.12 substantially as proposed.

Accordingly, the Board hereby amends Part 571 by adding a new § 571.12 thereto, effective June 22, 1976.

## **§ 571.12 Mortgage-futures transactions.**

The authority of State-chartered insured institutions to engage in mortgage-futures transactions is primarily a matter of State law. However, the Board believes that engaging in such transactions for speculative purposes, or as a hedge against market interest rate fluctuations of other than mortgage loans and mortgage-related securities as defined in § 545.29(g)(6) of this chapter may be an unsafe or unsound practice or otherwise inconsistent with the purposes of Title IV of the National Housing Act, as amended. State-chartered insured institutions are therefore strongly urged not to engage in mortgage-futures transactions other than in accordance with said § 545.29. The Board's examinations staff may take supervisory objection to mortgage-futures transactions by insured institutions not in accordance with said § 545.29. In addition, the Board emphasizes that, while mortgage-futures transactions in accordance with said § 545.29 which are conducted in a prudent and knowledgeable manner can protect an institution against market fluctuations of interest rates of mortgages and mortgage-related securities, engaging in such transactions without sufficient understanding of the function and operation of the mortgage-futures market is likely to result in loss to the institution.

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

J. J. FINN,  
Secretary.

## **Title 17—Commodity and Securities Exchanges**

### **CHAPTER II—SECURITIES AND EXCHANGE COMMISSION**

[Release No. 33-5708]

#### **PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS**

##### **Oil and Gas Rights**

The Commission today announced the amendment, effective immediately, of its regulations governing delegation of authority to the Director of the Division of Corporation Finance with respect to the Securities Act of 1933 and Regulation B (Rules 300-348) (17 CFR 230.300-230.348) thereunder.

The availability of the exemption to the registration provisions of the Securities Act of 1933 (the "Act") provided by Regulation B, pursuant to Section 3(b) of the Act, is dependent upon compliance with certain terms and conditions. One of those terms and conditions is provided by Rule 316(a) (17 CFR 230.316(a)), which requires that one copy of a Form 1-G (17 CFR 239.101(b)(1)) report be filed with the Commission. The form calls for a listing of the names and addresses of all purchasers of fractional undivided interests in oil and gas rights offered pursuant to the Regulation B exemption. Rule 316(a)(3) requires these reports to be kept confidential "unless the Commission shall order otherwise."

As noted in Securities Exchange Act Release No. 11992 (January 8, 1976), various abuses in the marketing of these interests have become apparent. In an effort to determine compliance with state securities laws, several state authorities have requested access to certain Form 1-G reports. The Commission has granted all such requests, subject to certain conditions designed to maintain the confidentiality of the reports. It is expected that more such requests will be received in the future. Inasmuch as these requests are of a routine nature and do not involve any policy considerations or novel questions, it is not necessary for the Commission to consider each request on an individual basis. The delegation of authority to respond to these requests to the Director of the Division of Corporation Finance, by eliminating any delay caused by seeking Commission approval for release of the information, will also aid in the enforcement effort necessary to end abuse of the Regulation B exemption, and thus is in the public interest and for the protection of investors.

It should be noted that, pursuant to 17 CFR 200.30-1, the Chairman of the Commission on October 23, 1975, designated the Associate Director of the Division of Corporation Finance to perform, under direction of the Director of the Division, the functions delegated to the Director pursuant to 17 CFR 200.30-1. That designation by its own terms would also apply to the delegation of authority announced today.

To accomplish this delegation of authority, the Commission hereby amends

17 CFR 200-30-1 (by revising paragraph (b)(6) and (7) and by adding paragraph (b)(8)).

§ 200.30-1 Delegation of authority to Director of Division of Corporation Finance.

(b) . . .  
(6) To authorize the issuance of orders declaring offering sheets effective, as amended, filed in accordance with the provisions in Rule 340 thereunder (§ 230.340 of this chapter) and Rule 342(c) thereunder (§ 230.342(c) of this chapter);

(7) To authorize the issuance of orders terminating the effectiveness of offering sheets upon applications of persons filing them in compliance with the provisions of Rule 346 thereunder (§ 230.346 of this chapter); and

(8) To authorize the granting of applications for release of reports filed with the Commission on Form 1-G (§ 239.101(b)(1) of this chapter) pursuant to Rule 316(a) thereunder (§ 230.316(a) of this chapter).

The Commission finds that the foregoing action relates solely to agency management and personnel and that notice and prior publication under 5 U.S.C. 553 are not necessary. Accordingly, the foregoing action, which was taken pursuant to Pub. L. 87-592, 76 Stat. 394 (15 U.S.C. 78d-1, 78d-2) becomes effective immediately.

(Secs. 1, 2, Pub. L. 87-592, 76 Stat. 394, 395; (15 U.S.C. 78d-1, 78d-2))

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

MAY 18, 1976.

## **Title 20—Employees' Benefits**

### **CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**

[Regulations No. 5, further amended]

#### **PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED**

##### **Social Security Amendments of 1972**

On June 19, 1975, there was published in the FEDERAL REGISTER (40 FR 25938) a Notice of Proposed Rule Making which set forth proposed amendments to regulations relating to conditions of participation for clinics, rehabilitation agencies, and public health agencies as providers of outpatient physical therapy services. (A correction was published on September 3, 1975 (40 FR 40537).) Those changes were proposed to implement the amendments to section 1861(p) of the Social Security Act (42 U.S.C. 1395x(p)), which were enacted by section 251(a)(1) of Pub. L. 92-603, which covers physical therapy services furnished by physical therapists in independent practice; and Section 283 of Pub. L. 92-603, which provides for the inclusion of the outpatient speech pathology benefit. Interested parties

were given the opportunity to submit in writing on or before July 21, 1975, data, views, or arguments with regard to the proposed amendments. Comments and suggestions received after that date have also been considered.

Comments were received from a number of sources, including representatives of national, State, and local organizations. Following is a summary of the comments and suggestions with regard to the Notice of Proposed Rulemaking, responses thereto, and changes in the proposed regulations:

1. Although a variety of concerns were reflected, the majority of the comments dealt with certain conditions and standards related to the outpatient speech pathology benefit. A large number of respondents objected to the parallelism drawn between physical therapy and speech pathology and indicated that speech pathology is unique and distinct from physical therapy and that, traditionally, speech pathologists are not, as contrasted with physical therapists, dependent upon a physician's prescription. Section 405.1717 of the proposed regulations required that the patient be treated under a plan of care established, and periodically reviewed, by a physician, and was based on section 1861(p) of the Social Security Act, as amended (42 U.S.C. 1395x(p)), which reads in part as follows:

(p) The term "outpatient physical therapy services" means physical therapy services furnished by a provider of services, a clinic, rehabilitation agency, or a public health agency, or by others under an arrangement with, and under the supervision of, such provider, clinic, rehabilitation agency, or public health agency to an individual as an outpatient—

(1) Who is under the care of a physician (as defined in section 1861(r)(1)), and

(2) With respect to whom a plan prescribing the type, amount, and duration of physical therapy services that are to be furnished such individual has been established, and is periodically reviewed, by a physician (as so defined);

The term "outpatient physical therapy services" also includes speech pathology services furnished by a provider of services, a clinic, rehabilitation agency, or by a public health agency, or by others under an arrangement with, and under the supervision of, such provider, clinic, rehabilitation agency, or public health agency to an individual as an outpatient, subject to the conditions prescribed in this subsection.

Since the Social Security Act provides for the similarity in requirements between the outpatient physical therapy and speech pathology benefits, § 405.1717 is felt to be consistent with the Act. It should be noted that § 405.1717(b) of the proposed regulation did provide for input by the speech pathologist as to the substantive plan of care through consultation with the physician, and this has been retained (while a duplicative sentence on the physician's role was deleted).

2. The proposed Medicare definition of "clinic" (§ 405.1702(b)) does not, in our opinion, create extreme hardship for speech pathology clinics, as has been

suggested by some respondents, since the term does not apply to them. Those facilities primarily providing speech pathology services, and which are commonly referred to as speech pathology clinics, are considered rehabilitation agencies (§ 405.1702(h)) for purposes of the health insurance program and are expected to have little difficulty meeting that definition and complying with the regulations for such agencies. The term "rehabilitation agency" refers to an agency which provides social or vocational adjustment services in addition to speech pathology or physical therapy services. The term "clinic" is generally applied to outpatient facilities in which medicine is taught by examination and treatment of patients in the presence of students, or where patients are treated by physicians who practice as a group. Speech and hearing organizations that identify themselves as speech pathology clinics are not expected to change that identity. Speech and hearing organizations, for Medicare purposes, are identified by the services they provide and not by name. These definitions of "clinic" and "rehabilitation agency" reflect those which are currently in effect and have been in effect since the promulgation of regulations implementing the outpatient physical therapy benefit included in the Social Security Amendments of 1967.

3. Comments received also questioned the justification for requiring a rehabilitation agency (§ 405.1702(h)) to provide either social or vocational adjustment services in addition to physical therapy or speech pathology. This requirement is already in effect under regulations implementing the 1967 Social Security Amendments at 20 CFR 405.1701(c)(1). These amendments included clinics, rehabilitation agencies, and public health agencies among organizations and institutions permitted to provide covered outpatient physical therapy services. Only after consultation with representatives of organizations of rehabilitation facilities, and other professional consultants, was the term "rehabilitation agency" defined as it presently appears in regulations. The authority to require that rehabilitation agencies furnish social or vocational adjustment services to clients is based on section 1861(p)(4)(A)(v) of the Social Security Act, as amended (42 U.S.C. 1395x(p)(4)(A)(v)). In addition to the differentiation evident in the statutory language with regard to a rehabilitation agency and a clinic, the Secretary, in the interest of beneficiary health and safety, has determined that since the term "rehabilitation agency" implies an agency with a rehabilitation program which offers more than one restorative service to improve the mental or physical status of its clients in the pursuit of an objective of social or vocational adjustment, such an agency, by its very nature, must also provide social or vocational adjustment services. It is felt that these services are essential to complement other services provided by a rehabilitation agency. Since a clinic, however, provides pri-

marily medical services and its function does not parallel that of a rehabilitation agency, regulations requiring a clinic to render social or vocational adjustment services are not appropriate.

4. As proposed, the definition of the physical therapist assistant (§ 405.1702(e)) would have enabled individuals to be recognized for Medicare purposes by accumulating two years of appropriate experience as a physical therapist assistant in addition to achieving a satisfactory grade on a proficiency examination approved by the Secretary. In view of the lack of interest shown in a proficiency examination (to date an insignificant number of inquiries requesting proficiency examination information has been received), the Secretary has determined that this alternative means of qualification for physical therapist assistants is not warranted. Therefore, the proficiency examination has been deleted from Subpart Q (§ 405.1702(e)(2)), (which is adopted and set forth below) and will subsequently be deleted from Subpart K (§ 405.1101(r)), and Subpart L (§ 405.1202(j)).

5. Suggestions were made to increase the frequency of the physical therapist supervisory visits to as often as once every 7 days in contrast to once every 30 days as stated in § 405.1718(a), when physical therapy services are provided off the premises of the organization by a physical therapist assistant. One of the concerns expressed was that an increase in supervision of the physical therapist assistant was necessary in order to ensure quality patient care. Although patient well-being is of primary importance, strict adherence to a timetable as suggested by some respondents would nullify, to a great degree, effective utilization of the physical therapist assistant. The Department has considered potential difficulties that may arise from supervision that is either too frequent or too infrequent, and believes that health insurance program experience to date with similar services furnished by other providers of services justifies the requirement for onsite supervisory visits at least once every 30 days.

6. Continuation of the handrail requirement in § 405.1723(a)(4) of the proposed amendments was questioned, and regarded as unnecessary in an outpatient institution. It was contended that the needs and abilities of resident, as opposed to non-resident, patients are different, and handrails, while being of value in a residential institution, are not essential in an outpatient institution where patients are more independent. The suggestion for deletion of the handrail requirement was considered, and it was concluded that adequate substitutions could be made for handrails where they were used to facilitate the movement of disabled persons. Therefore, the suggestion was adopted.

7. With respect to the conditions for coverage for outpatient physical therapy services furnished by physical therapists in independent practice, objection was

expressed concerning the requirement that the physical therapist must maintain, at his own expense, an office and the necessary equipment to provide an adequate program of physical therapy (see § 405.1731(b) and § 405.1737). The report of the Committee on Ways and Means indicates that one of the purposes for this change in the law was to make outpatient physical therapy services, furnished by a physical therapist in his office, more readily available to the beneficiary in cases where the therapist's office might be more accessible than a provider's facility and that the Secretary, in establishing the health and safety conditions under which the services of such practitioner must be furnished, would be expected to assure the availability of an adequate program of physical therapy services in the therapist's office. Section 405.232(e)(2)(ii), effective August 9, 1974, requires that a physical therapist in independent practice maintain at his own expense an office or office space and the necessary equipment to provide an adequate program of physical therapy. Therefore, conforming provisions in § 405.1731(b) as proposed, have been retained.

8. Sections 405.1230 and 405.232 are being published at this time to correct the cross-references to various sections in Subpart Q. Since these are only technical amendments, notice and public procedure thereon are unnecessary, and therefore good cause exists for dispensing with Notice of Proposed Rule Making with respect to §§ 405.1230 and 405.232.

9. Conformance to Subpart K (§ 405.1101(b)(1)) has been brought about by changes being made in § 405.1702(j). Subsequently, Subpart K will be revised to delete "the publication of this provision" and insert "January 17, 1974".

10. Various editorial and cross-reference changes have also been made in the interest of clarity.

Accordingly, with these changes and additions, the proposed amendments are adopted as set forth below.

(Secs. 1102, 1861(p), and 1871 of the Social Security Act, 49 Stat. 647, as amended, 79 Stat. 321, as amended, 79 Stat. 331; 42 U.S.C. 1302, 1395x(p), 1395hh.)

**Effective date.** These amendments shall be effective June 21, 1976.

(Catalog of Federal Domestic Assistance Program No. 13.801, Health Insurance for the Aged and Disabled Program—Supplementary Medical Insurance.)

Dated: March 1, 1976.

J. B. CARDWELL,

Commissioner of Social Security

Approved: May 12, 1976.

MARJORIE LYNCH,

Acting Secretary of Health,  
Education, and Welfare.

Regulations No. 5 of the Social Security Administration, as amended (20 CFR Part 405) are further amended as follows:

1. Subpart Q is revised to read as follows:

**Subpart Q—Conditions of Participation: Clinics, Rehabilitation Agencies, and Public Health Agencies as Providers of Outpatient Physical Therapy and/or Speech Pathology Services; and Conditions for Coverage: Outpatient Physical Therapy Services Furnished by Physical Therapists in Independent Practice**

**CONDITIONS OF PARTICIPATION: CLINICS, REHABILITATION AGENCIES, AND PUBLIC HEALTH AGENCIES AS PROVIDERS OF OUTPATIENT PHYSICAL THERAPY AND/OR SPEECH PATHOLOGY SERVICES**

Sec.

405.1701 Conditions of participation—general.

405.1702 Definitions relating to clinics, rehabilitation agencies, and public health agencies.

405.1715 Condition of participation—compliance with Federal, State, and local laws.

405.1716 Condition of participation—administrative management.

405.1717 Condition of participation—physician's direction and plan of care.

405.1718 Condition of participation—physical therapy services.

405.1719 Condition of participation—speech pathology services.

405.1720 Condition of participation—rehabilitation program.

405.1721 Condition of participation—arrangements for physical therapy and speech pathology services to be performed by other than salaried organization personnel.

405.1722 Condition of participation—clinical records.

405.1723 Condition of participation—physical environment.

405.1724 Condition of participation—infection control.

405.1725 Condition of participation—disaster preparedness.

405.1726 Condition of participation—program evaluation.

**CONDITIONS FOR COVERAGE: OUTPATIENT PHYSICAL THERAPY SERVICES FURNISHED BY PHYSICAL THERAPISTS IN INDEPENDENT PRACTICE**

405.1730 Conditions for coverage—services furnished by physical therapists in independent practice—general.

405.1731 Definitions relating to physical therapists in independent practice.

405.1732 Condition for coverage—compliance with Federal, State, and local laws.

405.1733 Condition for coverage—physician's direction and plan of care.

405.1734 Condition for coverage—physical therapy services.

405.1735 Condition for coverage—coordination of services with other organizations, agencies, or individuals.

405.1736 Condition for coverage—clinical records.

405.1737 Condition for coverage—physical environment.

**AUTHORITY:** Secs. 1102, 1861(p), 1871, 49 Stat. 647, as amended, 79 Stat. 321, as amended, 79 Stat. 331, (42 U.S.C. 1302, 1395x(p), 1395hh.)

**CONDITIONS OF PARTICIPATION: CLINICS, REHABILITATION AGENCIES, AND PUBLIC HEALTH AGENCIES AS PROVIDERS OF OUTPATIENT PHYSICAL THERAPY AND/OR SPEECH PATHOLOGY SERVICES**

§ 405.1701 Conditions of participation—general.

(a) In order to participate in the program of health insurance for the aged

and disabled as a provider of outpatient physical therapy and/or speech pathology services, a clinic, rehabilitation agency, or public health agency (other than a provider of services as defined in section 1861(u) of the Social Security Act, 42 U.S.C. 1395x(u)) must meet the requirements set forth in section 1861(p)(4) thereof, 42 U.S.C. 1395x(p)(4). This section of the law states a number of specific requirements which must be met by such participating providers and authorizes the Secretary of Health, Education, and Welfare to prescribe by regulation other requirements relating to the health and safety of beneficiaries as may be found necessary.

(b) Section 1861(p) provides in pertinent part as follows:

(p) The term "outpatient physical therapy services" means physical therapy services furnished by a provider of services, a clinic, a rehabilitation agency, or a public health agency, or by others under an arrangement with, and under the supervision of, such provider, clinic, rehabilitation agency, or public health agency to an individual as an outpatient—

excluding, however—

(3) Any item or service if it would not be included under subsection (b) if furnished to an inpatient of a hospital; and

(4) Any such service—

(A) If furnished by a clinic or rehabilitation agency, or by others under arrangements with such clinic or agency, unless such clinic or rehabilitation agency—

(i) Provides an adequate program of physical therapy services for outpatients and has the facilities and personnel required for such program or required for the supervision of such program, in accordance with such requirements as the Secretary may specify,

(ii) Has policies, established by a group of professional personnel, including one or more physicians (associated with the clinic or rehabilitation agency) and one or more qualified physical therapists, to govern the services (referred to in clause (i)) it provides,

(iii) Maintains clinical records on all patients,

(iv) If such clinic or agency is situated in a State in which State or applicable local law provides for the licensing of institutions of this nature, (I) is licensed pursuant to such law, or (II) is approved by the agency of such State or locality responsible for licensing institutions of this nature, as meeting the standards established for such licensing; and

(v) Meets such other conditions relating to the health and safety of individuals who are furnished services by such clinic or agency on an outpatient basis, as the Secretary may find necessary, or

(B) If furnished by a public health agency, unless such agency meets such other conditions relating to health and safety of individuals who are furnished services by such agency on an outpatient basis, as the Secretary may find necessary.

The term "outpatient physical therapy services" also includes speech pathology services furnished by a provider of services, a clinic, rehabilitation agency, or by a public health agency, or by others under an arrangement with, and under the supervision of, such provider, clinic, rehabilitation agency, or public health agency to an individual as an outpatient, subject to the conditions prescribed in this subsection.

(c) The specific requirements included in the statute and the additional health

and safety requirements prescribed by the Secretary are set forth in the following Conditions of Participation for Clinics, Rehabilitation Agencies, and Public Health Agencies as Providers of Outpatient Physical Therapy and/or Speech Pathology Services.

§ 405.1702 Definitions relating to clinics, rehabilitation agencies, and public health agencies.

As used in §§ 405.1715–405.1726, the following definitions apply:

(a) *Administrator.* A person who has a bachelor's degree and:

(1) Has experience or specialized training in the administration of health institutions or agencies; or

(2) Is qualified and has experience in one of the professional health disciplines.

(b) *Clinic.* A facility established primarily for the provision of outpatient physicians' services. To meet this definition, an organization must meet the following test of physician participation:

(1) The medical services of the clinic are provided by a group of physicians (i.e., more than two) practicing medicine together; and

(2) A physician is present in the clinic at all times during hours of operation to perform medical services (rather than only administrative services).

(c) *Organization.* A clinic, rehabilitation agency, or public health agency.

(d) *Physical therapist.* A person who is licensed as a physical therapist by the State in which he is practicing if the State licenses physical therapists, and

(1) Has graduated from a physical therapy curriculum approved by the American Physical Therapy Association, or by the Council on Medical Education and Hospitals of the American Medical Association, or jointly by the Council on Medical Education of the American Medical Association and the American Physical Therapy Association; or

(2) Prior to January 1, 1966:

(i) Was admitted to membership by the American Physical Therapy Association; or

(ii) Was admitted to registration by the American Registry of Physical Therapists; or

(iii) Has graduated from a physical therapy curriculum in a 4-year college or university approved by a State department of education; or

(3) Has 2 years of appropriate experience as a physical therapist and has achieved a satisfactory grade on a proficiency examination approved by the Secretary, except that such determinations of proficiency shall not apply with respect to persons initially licensed by a State after December 31, 1977, or seeking qualification as a physical therapist after such date; or

(4) (i) Was licensed or registered prior to January 1, 1966, and (ii) Prior to January 1, 1970, had 15 years of full-time experience in the treatment of illness or injury through the practice of physical therapy in which services were rendered under the order and direction of attending and referring physicians; or

(5) If trained outside the United States:

(i) Was graduated since 1928 from a physical therapy curriculum approved in the country in which the curriculum was located and in which there is a member organization of the World Confederation for Physical Therapy.

(ii) Meets the requirements for membership in a member organization of the World Confederation for Physical Therapy.

(iii) Has 1 year of experience under the supervision of an active member of the American Physical Therapy Association, and

(iv) Has successfully completed a qualifying examination as prescribed by the American Physical Therapy Association.

(e) *Physical therapist assistant.* A person who is licensed as a physical therapist assistant by the State in which he is practicing, if the State licenses such assistants, and has graduated from a 2-year college-level program approved by the American Physical Therapy Association.

(f) *Psychologist.* A person who:

(1) Holds a doctoral degree in psychology from a training program approved by the American Psychological Association; or

(2) Has attained certification or licensing by the State, or non-statutory certification by the State psychological association.

(g) *Public health agency.* An official agency established by a State or local government, the primary function of which is to maintain the health of the population served by performing environmental health services, preventive medical services, and in certain cases, therapeutic services.

(h) *Rehabilitation agency.* An agency which provides an integrated multidisciplinary program designed to upgrade the physical function of handicapped, disabled individuals by bringing together as a team specialized rehabilitation personnel. At a minimum, a rehabilitation agency must provide physical therapy or speech pathology services, and a rehabilitation program which in addition to physical therapy or speech pathology services, includes social or vocational adjustment services.

(i) *Social worker.* A person who is licensed by the State in which he is practicing if the State licenses social workers, is a graduate of a school of social work accredited or approved by the Council on Social Work Education, and has 1 year of social work experience in a health-care setting.

(j) *Speech pathologist.* A person who is licensed by the State in which he is practicing, if the State licenses speech pathologists, and

(1) Is eligible for a certificate of clinical competence in speech pathology granted by the American Speech and Hearing Association under its requirements in effect on January 17, 1974; or

(2) Meets the educational requirements for certification, and is in the process of accumulating the supervised clinical experience required for certification.

(k) *Supervision.* Authoritative procedural guidance by a qualified person for the accomplishment of a function or activity within such person's sphere of competence, with initial direction and periodic inspection of the actual act of accomplishing the function or activity. Unless otherwise stated in this Part 405, such qualified person must be on the premises if the person performing the function or activity does not meet assistant-level qualifications specified in this section.

(l) *Vocational specialist.* A person who has a baccalaureate degree and:

(1) Two years experience in vocational counseling in a rehabilitation setting such as a sheltered workshop, State employment service agency, etc.; or

(2) At least 18 semester hours in vocational rehabilitation, educational or vocational guidance, psychology, social work, special education or personnel administration, and 1 year of experience in vocational counseling in a rehabilitation setting; or

(3) A master's degree in vocational counseling.

§ 405.1715 Condition of participation—compliance with Federal, State, and local laws.

The clinic, rehabilitation agency, or public health agency and its staff are in compliance with all applicable Federal, State, and local laws and regulations.

(a) *Standard: Licensure of organization.* In any State in which State or applicable local law provides for the licensing of clinics, rehabilitation agencies, or public health agencies, a clinic, rehabilitation agency, or public health agency is licensed pursuant to such law.

(b) *Standard: Licensure or registration of personnel.* Staff of the organization are licensed or registered in accordance with applicable laws.

§ 405.1716 Condition of participation—administrative management.

The clinic or rehabilitation agency has an effective governing body that is legally responsible for the conduct of the clinic or rehabilitation agency. The governing body designates an administrator, and establishes administrative policies.

(a) *Standard: Governing body.* There is a governing body (or designated person(s) so functioning) which assumes full legal responsibility for the overall conduct of the clinic or rehabilitation agency and for compliance with applicable laws and regulations. The name of the owner(s) of the clinic or rehabilitation agency is fully disclosed to the State agency. In the case of corporations, the names of the corporate officers are made known.

(b) *Standard: Administrator.* The governing body appoints a qualified full-time administrator and delegates to the administrator the internal operation of the clinic or rehabilitation agency in accordance with established written policies. The administrator's responsibilities for procurement and direction of per-

sonnel are clearly defined. A competent individual is authorized to act in the temporary absence of the administrator.

(c) *Standard: Personnel policies.* Personnel practices are supported by appropriate written personnel policies. Personnel records include job descriptions, qualifications, licensure, performance evaluations, and health examinations, and are kept current.

(d) *Standard: Patient care policies.* Patient care practices and procedures are supported by written policies established by a group of professional personnel including one or more physicians associated with the clinic or rehabilitation agency and one or more qualified physical therapists (if physical therapy services are provided) and one or more qualified speech pathologists (if speech pathology services are provided) to govern the outpatient physical therapy and/or speech pathology services and related services which are provided. These policies cover scope of services offered, admission and discharge policies, physical services, patient care plans and methods of implementation, care of patients in an emergency, clinical records, administrative records, use and maintenance of the plant and equipment, and program evaluation. The policies are reviewed at least annually by such group of professional personnel, and revised as necessary based upon this review.

§ 405.1717 Condition of participation—physician's direction and plan of care.

Patients in need of outpatient physical therapy or speech pathology services are accepted for treatment only on the order of a physician who indicates anticipated goals and is responsible for the general medical direction of such services as part of the total care of the patient. For each patient, there is a written plan of care established and periodically reviewed by the physician. The organization has a physician available to furnish necessary medical care in case of emergency.

(a) *Standard: Medical findings and physician's orders.* The following is made available to the organization prior to or at the time of initiation of treatment: (1) The patient's significant past history, (2) Current medical findings, (3) Diagnosis(es), (4) Physician's orders, (5) Rehabilitation goals, if determined, (6) Contraindications, if any, (7) The extent to which the patient is aware of the diagnosis(es) and prognosis, and (8) Where appropriate, the summary of treatment rendered and results achieved during previous periods of physical therapy or speech pathology services or institutionalization.

(b) *Standard: Plan of care.* For each patient there is a written plan of care established by the physician which indicates anticipated goals and specifies the type, amount, frequency, and duration of physical therapy or speech pathology services. Where appropriate, the plan is developed in consultation between the physical therapist(s) or speech pathologist(s) and such attending or other physician. The plan of care and results of

treatment are reviewed once every 30 days, or more often if required, by the attending or other physician and appropriate professional staff, and the indicated action is taken.

(c) *Standard: General medical direction.* The organization requires that the health care of every patient is under the general medical direction of a physician. The patient in need of physical therapy and/or speech pathology services is seen by the physician at least once every 30 days. The organization is responsible for contacting the physician if the patient has not been seen by the physician within a 30-day period. There is evidence in the clinical record of the physician's services at appropriate intervals.

(d) *Standard: Notification of physician.* The attending physician, or where applicable, another responsible physician, is promptly notified of any changes in the patient's condition. If changes are required in the plan of care, such changes are approved by such physician and noted in the clinical record.

(e) *Standard: Availability of physicians for emergency.* The organization provides for one or more physicians to be available on call to furnish necessary medical care in case of emergency. A schedule listing the names and telephone numbers of these physicians and the specific days each is on call is posted. There are established procedures to be followed by personnel in an emergency which cover immediate care of the patient, persons to be notified and reports to be prepared.

§ 405.1718 Condition of participation—physical therapy services.

If physical therapy services are offered, the organization provides an adequate program of physical therapy and has an adequate number of qualified personnel and the equipment necessary to carry out its program and to fulfill its objectives.

(a) *Standard: Adequate program.* (1) The organization will be considered to have an adequate outpatient physical therapy program if it can: (i) Provide services utilizing therapeutic exercise and the modalities of heat, cold, water, and electricity; (ii) Conduct patient evaluations; and (iii) Administer tests and measurements of strength, balance, endurance, range of motion, and activities of daily living. (2) A qualified physical therapist is present or readily available to offer needed supervision to the physical therapist assistant when physical therapy services are provided on or off the organization's premises. Where a qualified physical therapist is not on the premises during all hours of operation, patients are scheduled in such a manner as to ensure the physical therapist's presence when specific skills are needed (e.g., the evaluation and re-evaluation and to provide appropriate and needed supervision to the physical therapist assistant when providing services. When physical therapy services are provided off the premises of the organization by a qualified physical therapist

assistant, such services are provided under the supervision of a qualified physical therapist who makes an onsite supervisory visit at least once every 30 days.

(b) *Standard: Facilities and equipment.* The organization has the equipment and facilities required to provide the range of services necessary in the treatment of the types of disabilities accepted for service.

(c) *Standard: Personnel qualified to provide physical therapy services.* Physical therapy services are provided by, or under the supervision of, a qualified physical therapist. The number of qualified physical therapists and qualified physical therapist assistants is adequate for the volume and diversity of physical therapy services offered. A qualified physical therapist is on the premises or readily available during the operating hours of the organization.

(d) *Standard: Supportive personnel.* If personnel are available to assist qualified physical therapists by performing services incident to physical therapy that do not require professional knowledge and skill, such personnel are instructed in appropriate patient care services by qualified physical therapists who retain responsibility for the treatment prescribed by the attending physician.

§ 405.1719 Condition of participation—speech pathology services.

If speech pathology services are offered, the organization provides an adequate program of speech pathology and has an adequate number of qualified personnel and the equipment necessary to carry out its program and to fulfill its objectives.

(a) *Standard: Adequate program.* The organization will be considered to have an adequate outpatient speech pathology program if it can provide the diagnostic and treatment services to effectively treat speech disorders.

(b) *Standard: Facilities and equipment.* The organization has the equipment and facilities required to provide the range of services necessary in the treatment of the types of speech disorders accepted for service.

(c) *Standard: Personnel qualified to provide speech pathology services.* Speech pathology services are given or supervised by a qualified speech pathologist and the number of qualified speech pathologists is adequate for the volume and diversity of speech pathology services offered. At least one qualified speech pathologist is present at all times when speech pathology services are rendered.

§ 405.1720 Condition of participation—rehabilitation program.

At a minimum, a rehabilitation agency provides physical therapy or speech pathology services, and a rehabilitation program which, in addition to physical therapy or speech pathology services, includes social or vocational adjustment services to all patients in need of such services by making provision for special, qualified staff to evaluate the social or vocational factors involved in a patient's rehabilitation, to counsel and advise on

social or vocational problems arising from the patient's illness or injury, and to make appropriate referrals for required services.

(a) *Standard: Qualification of staff.* The agency's social or vocational adjustment services are rendered, as applicable, by qualified psychologists, qualified social workers, or qualified vocational specialists. Social or vocational adjustment services may be performed by a qualified psychologist or qualified social worker. Vocational adjustment services may be furnished by a qualified vocational specialist.

(b) *Standard: Arrangements for social or vocational services.* If a rehabilitation agency does not provide social or vocational adjustment services through salaried employees, it may provide such adjustment services by means of a written contract with others which provides for retention by the agency of responsibility for, and control and supervision of, such services. The terms of the contract:

(1) Provide that the regimen of social or vocational adjustment services to be furnished is developed in consultation between appropriate professional staff members and the patient's attending physician;

(2) Specify the geographical areas in which the services are to be furnished;

(3) Provide that such services are furnished by personnel meeting the qualifications in § 405.1702;

(4) Provide that personnel under contract will participate as needed in conferences required to coordinate patient care;

(5) Provide for the preparation of treatment records and notes, and for the prompt incorporation of such into the clinical records of the agency;

(6) Specify the period of time the contract is to be in effect and the manner of termination or renewal.

§ 405.1721 Condition of participation—arrangements for physical therapy and speech pathology services to be performed by other than salaried organization personnel.

When an organization provides outpatient physical therapy and/or speech pathology services under an arrangement with others, such services are to be furnished in accordance with the terms of a written contract, which provides for retention by the organization of professional and administrative responsibility for, and control and supervision of, such services.

(a) *Standard: Contract provisions.* The terms of the contract:

(1) Provide that physical therapy and/or speech pathology services are to be furnished in accordance with the plan of care established by the physician responsible for the patient's care and may not be altered in type, amount, frequency, or duration by the physical therapist or speech pathologist (except in the case of an adverse reaction to a specific treatment);

(2) Specify the geographical areas in which the services are to be furnished;

(3) Provide that personnel and services contracted for meet the same requirements as those which would be applicable if the personnel and services were furnished directly by the clinic, rehabilitation agency, or public health agency;

(4) Provide that as needed the physical therapist or speech pathologist (as appropriate) will participate in conferences required to coordinate the care of an individual patient;

(5) Provide for the preparation of treatment records, with progress notes and observations, and for the prompt incorporation of such into the clinical records of the clinic, rehabilitation agency, or public health agency;

(6) Specify the financial arrangements which provide that the contracting outside resource may not bill the patient or the health insurance program for covered services, since pursuant to section 1861(w) of the Act (42 U.S.C. 1395x(w)), covered services furnished under arrangements must be billed through the provider exclusively and receipt of payment by the provider for such services on behalf of an entitled individual discharges the liability of such individual or any other person to pay for such services;

(7) Specify the period of time the contract is to be in effect and the manner of termination or renewal;

(8) Except as provided in paragraph (a) (9) of this section, provide that the services shall be performed in the patient's home, on the premises of the clinic, rehabilitation agency, or public health agency making the arrangements, or on the premises of an institution which meets the requirements of section 1861(e) (1) or section 1861(j) (1) of the Act; and

(9) In the case of a public health agency (including a public health agency which is certified by the health insurance program as a home health agency), may provide that physical therapy and/or speech pathology services may also be performed on the premises of the supplier of such services but only under the following circumstances:

(i) The public health agency does not have the capacity to provide on its premises all of the (A) Modalities of treatment, tests, and measurements as specified in § 405.1718(a) (in the case of outpatient physical therapy services), or (B) Diagnostic and treatment services as specified in § 405.1719(a) (in the case of outpatient speech pathology services);

(ii) The services provided on the premises of the supplier include those as defined in § 405.1718(a) or § 405.1719(a), as appropriate, which the public health agency cannot provide on its premises, and these services are not provided on an outpatient basis in another accessible participating provider of services;

(iii) Services are provided on the premises of the supplier only in those instances in which the patient's treatment requires the use of a modality or regimen which is not available on the premises of the public health agency;

(iv) The public health agency is responsible for advising the State agency of the name of each supplier with whom it contracts for the provision of services and makes the arrangements necessary in order for the State agency to survey the premises and organization of each supplier of services to determine compliance with applicable regulations; and

(v) A physician, qualified physical therapist, qualified speech pathologist, or supervising nurse employed by the public health agency reviews at least every 2 weeks all records of the patients of the public health agency who have been treated on the premises of the supplier.

#### § 405.1722 Condition of participation—clinical records.

The organization maintains clinical records on all patients in accordance with accepted professional standards, and practices. The clinical records are completely and accurately documented, readily accessible, and systematically organized to facilitate retrieving and compiling information.

(a) *Standard: Protection of clinical record information.* The organization recognizes the confidentiality of clinical record information and provides safeguards against loss, destruction, or unauthorized use. Written procedures govern the use and removal of records and the conditions for release of information. The patient's written consent is required for release of information not authorized by law.

(b) *Standard: Content.* The clinical record contains sufficient information to identify the patient clearly, to justify the diagnosis(es) and treatment, and to document the results accurately. All clinical records contain the following general categories of data:

(1) Documented evidence of the assessment of the needs of the patient, of an appropriate plan of care, and of the care and services provided.

(2) Identification data and consent forms.

(3) Medical history.

(4) Report of physical examinations, if any.

(5) Observations and progress notes.

(6) Reports of treatments and clinical findings.

(7) Discharge summary including final diagnosis(es) and prognosis.

(c) *Standard: Completion of records and centralization of reports.* Current clinical records and those of discharged patients are completed promptly. All clinical information pertaining to a patient is centralized in the patient's clinical record. Each physician's entries into the clinical record are signed by the appropriate physician.

(d) *Standard: Retention and preservation.* Clinical records are retained for a period of time not less than:

(1) That determined by the respective State statute, or the statute of limitations in the State, or

(2) In the absence of a State statute:

(i) Five years after the date of discharge, or

(ii) In the case of a minor,

3 years after the patient becomes of age under State law or 5 years after the date of discharge, whichever is longer.

(e) *Standard: Indexes.* Clinical records are indexed at least according to name of patient to facilitate acquisition of statistical medical information and retrieval of records for research or administrative action.

(f) *Standard: Location and facilities.* The organization maintains adequate facilities and equipment, conveniently located, to provide efficient processing of clinical records (reviewing, indexing, filing, and prompt retrieval).

#### § 405.1723 Condition of participation—physical environment.

The building housing the organization is constructed, equipped, and maintained to protect the health and safety of patients, personnel, and the public and provides a functional, sanitary, and comfortable environment.

(a) *Standard: Safety of patients.* The organization satisfies the following requirements:

(1) It complies with all applicable State and local building, fire, and safety codes.

(2) Permanently attached automatic fire-extinguishing systems of adequate capacity are installed in all areas of the organization considered to have special fire hazards. Fire extinguishers are conveniently located on each floor of the organization. Fire regulations are prominently posted.

(3) Doorways, passageways and stairwells negotiated by patients are: (i) Of adequate width to allow for easy movement of all patients (including those on stretchers or in wheelchairs), (ii) free from obstruction at all times, and (iii) in the case of stairwells, equipped with firmly attached handrails on at least one side.

(4) Lights are placed at exits and in corridors used by patients and are supported by an emergency power source.

(5) A fire alarm system with local alarm capability and, where applicable, an emergency power source, is functional.

(6) At least two persons are on duty on the premises of the organization whenever a patient is being treated.

(7) No occupancies or activities undesirable or injurious to the health and safety of patients are located in the building.

(b) *Standard: Maintenance of equipment, building, and grounds.* The organization establishes a written preventive-maintenance program to ensure:

(1) That equipment is operative, and is properly calibrated, and

(2) That the interior and exterior of the building are clean and orderly and maintained free of any defects which are a potential hazard to patients, personnel, and the public.

(c) *Standard: Other environmental considerations.* The organization provides a functional, sanitary, and comfortable environment for patients, personnel, and the public.

(1) Provision is made for adequate and comfortable lighting levels in all areas; limitation of sounds at comfort levels; a comfortable room temperature; and adequate ventilation through windows, mechanical means, or a combination of both.

(2) Toilet rooms, toilet stalls, and lavatories are accessible and constructed so as to allow utilization by nonambulatory and semiambulatory individuals.

(3) Whatever the size of the building, there is an adequate amount of space for the services provided and disabilities treated, including reception area, staff space, examining room, treatment areas, and storage.

#### § 405.1724 Condition of participation—infection control.

The organization that provides outpatient physical therapy services establishes an infection-control committee of representative professional staff with responsibility for overall infection control. All necessary housekeeping and maintenance services are provided to maintain a sanitary and comfortable environment and to help prevent the development and transmission of infection.

(a) *Standard: Infection-control committee.* The infection-control committee establishes policies and procedures for investigating, controlling, and preventing infections in the organization and monitors staff performance to ensure that the policies and procedures are executed.

(b) *Standard: Aseptic and isolation techniques.* Written effective procedures in aseptic techniques are followed by all personnel. Procedures are reviewed and revised annually for effectiveness and improvement.

(c) *Standard: Housekeeping.* The organization employs sufficient housekeeping personnel and provides all necessary equipment to maintain a safe, clean, and orderly interior. A full-time employee is designated as the one responsible for the housekeeping services and for supervision and training of such personnel. An organization that has a contract with an outside resource for housekeeping services may be found to be in compliance with this standard provided the organization and/or outside resource meets the requirements of the standard.

(d) *Standard: Linen.* The organization has available at all times a quantity of linen essential for proper care and comfort of patients. Linens are handled, stored, processed, and transported in such a manner as to prevent the spread of infection.

(e) *Standard: Pest control.* The organization is maintained free from insects and rodents through operation of a pest-control program.

#### § 405.1725 Condition of participation—disaster preparedness.

The organization has a written plan, periodically rehearsed, with procedures to be followed in the event of an internal or external disaster and for the care of casualties (patients and personnel) arising from such disasters.

(a) *Standard: Disaster plan.* The organization has an acceptable written plan in operation, with procedures to be followed in the event of fire, explosion, or other disaster. The plan is developed and maintained with the assistance of qualified fire, safety, and other appropriate experts, and includes:

(1) Procedures for prompt transfer of casualties and records,

(2) Instructions regarding the location and use of alarm systems and signals and of firefighting equipment,

(3) Information regarding methods of containing fire,

(4) Procedures for notification of appropriate persons, and

(5) Specifications of evacuation routes and procedures.

(b) *Standard: Staff training and drills.* All employees are trained, as part of their employment orientation, in all aspects of preparedness for any disaster. The disaster program includes orientation and ongoing training and drills for all personnel in all procedures so that each employee promptly and correctly carries out his assigned role in case of a disaster.

#### § 405.1726 Condition of participation—program evaluation.

The organization has procedures which provide for a systematic evaluation of its total program to assure appropriate utilization of services and to determine whether the organization's policies are followed in providing services to patients through employees or under arrangements with others.

(a) *Standard: Clinical-record review.* A sample of active and closed clinical records is reviewed quarterly by the appropriate health professionals to assure that established policies are followed in providing services.

(b) *Standard: Annual statistical evaluation.* An evaluation is conducted annually of such statistical data as number of different patients treated, number of patient visits, condition on admission and discharge, number of new patients, number of patients by diagnosis(es), sources of referral, number and cost of units of service by treatment given, and total staff days or work hours by discipline.

#### CONDITIONS FOR COVERAGE: OUTPATIENT PHYSICAL THERAPY SERVICES FURNISHED BY PHYSICAL THERAPISTS IN INDEPENDENT PRACTICE

#### § 405.1730 Conditions for coverage—services furnished by physical therapists in independent practice—general.

(a) In order to be covered under the program of health insurance for the aged and disabled as a supplier of outpatient physical therapy services, a physical therapist in independent practice must meet State licensure and requirements set forth in section 1861(p) (4) of the Act, 42 U.S.C. 1395x(p) (4), and other requirements established pursuant to this provision. This section of the law states specific requirements which must be met by such suppliers and authorizes the

Secretary of Health, Education, and Welfare to prescribe by regulation other requirements relating to the health and safety of beneficiaries as may be found necessary.

(b) Section 1861(p) provides in pertinent part as follows:

(p) The term 'outpatient physical therapy services' means physical therapy services furnished by a provider of services, a clinic, rehabilitation agency, or a public health agency, or by others under an arrangement with, and under the supervision of, such provider, clinic, rehabilitation agency, or public health agency to an individual as an outpatient—

The term 'outpatient physical therapy services' also includes physical therapy services furnished an individual by a physical therapist (in his office or in such individual's home) who meets licensing and other standards prescribed by the Secretary in regulations, otherwise than under an arrangement with, and under the supervision of, a provider of services, clinic, rehabilitation agency, or public health agency, if the furnishing of such services meets such conditions relating to health and safety as the Secretary may find necessary . . .

(c) The requirements included in the statute and the additional health and safety requirements prescribed by the Secretary are set forth in the Conditions for Coverage for Outpatient Physical Therapy Services Furnished By Physical Therapists in Independent Practice (see §§ 405.1732-405.1737).

#### § 405.1731 Definitions relating to physical therapists in independent practice.

As used in §§ 405.1732-405.1737, the following definitions apply:

(a) *Physical therapist.* A person who is licensed as a physical therapist by the State in which he is practicing if the State licenses physical therapists, and

(1) Has graduated from a physical therapy curriculum approved by the American Physical Therapy Association, or by the Council on Medical Education and Hospitals of the American Medical Association, or jointly by the Council on Medical Education of the American Medical Association and the American Physical Therapy Association; or

(2) Prior to January 1, 1966:

(i) Was admitted to membership by the American Physical Therapy Association, or

(ii) Was admitted to registration by the American Registry of Physical Therapists, or

(iii) Has graduated from a physical therapy curriculum in a 4-year college or university approved by a State department of education; or

(3) Has 2 years of appropriate experience as a physical therapist and has achieved a satisfactory grade on a proficiency examination approved by the Secretary except that such determinations of proficiency shall not apply with respect to persons initially licensed by a State after December 31, 1977, or seeking qualification as a physical therapist after such date; or

(4) (i) Was licensed or registered prior to January 1, 1966, and

(ii) Prior to January 1, 1970, had 15 years of full-time experience in the treatment of illness or injury through the practice of physical therapy in which services were rendered under the order and direction of attending and referring physicians; or

(5) If trained outside the United States:

(i) Was graduated since 1928 from a physical therapy curriculum approved in the country in which the curriculum was located and in which there is a member organization of the World Confederation for Physical Therapy;

(ii) Meets the requirements for membership in a member organization of the World Confederation for Physical Therapy;

(iii) Has 1 year of experience under the supervision of an active member of the American Physical Therapy Association; and

(iv) Has successfully completed a qualifying examination as prescribed by the American Physical Therapy Association.

(b) *Physical therapist in independent practice:* A person who is licensed as a physical therapist by the State in which he is practicing, meets one of the qualification requirements in paragraph (a) of this section, and furnishes services under the circumstances described in § 405.232(e) (2) (ii).

(c) *Supervision:* The presence, at all times, of a qualified physical therapist when physical therapy services are rendered in the physical therapist's office or in the patient's place of residence.

§ 405.1732 Condition for coverage—compliance with Federal, State, and local laws.

The physical therapist in independent practice and staff, if any, are in compliance with all applicable Federal, State, and local laws and regulations.

(a) *Standard: Licensure of facility.* In any State in which State or applicable local law provides for the licensing of the facility of a physical therapist, such facility is:

(1) Licensed pursuant to such law; or

(2) If not subject to licensure, is approved (by the agency of such State or locality responsible for licensing) as meeting the standards established for such licensing.

(b) *Standard: Licensure or registration of personnel.* The physical therapist in independent practice and staff, if any, are licensed or registered in accordance with applicable laws.

§ 405.1733 Condition for coverage—physician's direction and plan of care.

Patients in need of outpatient physical therapy services are accepted for treatment by the physical therapist in independent practice only on the order of a physician who indicates anticipated goals and is responsible for the general medical direction of such services as part of the total care of the patient. For each patient, there is a written plan of care established and periodically reviewed by the physician.

(a) *Standard: Medical findings and physician's orders.* The following is made available to the physical therapist, prior to or at the time of initiation of treatment:

(1) The patient's significant past history;

(2) Diagnosis(es);

(3) Physician's orders;

(4) Rehabilitation goals and potential for their achievement;

(5) Contraindications, if any;

(6) The extent to which the patient is aware of the diagnosis(es) and prognosis; and

(7) Where appropriate, the summary of treatment rendered and results achieved during previous periods of physical therapy services or institutionalization.

(b) *Standard: Plan of care.* For each patient there is a written plan of care established by the physician which indicates anticipated goals and specifies the type, amount, frequency, and duration of physical therapy services. Where appropriate, the plan is developed in consultation between the physical therapist and the patient's attending physician. The plan of care and results of treatment are reviewed once every 30 days, or more often if required, by the attending physician and the physical therapist; and the indicated action is taken.

(c) *Standard: General medical direction.* Patients are seen by a physician at least once every 30 days. General medical direction at appropriate intervals is evident from the clinical record.

(d) *Standard: Notification of physician.* The attending physician is promptly notified of any changes in the patient's condition. If changes are required in the plan of care, such changes are approved by such physician and noted in the clinical record.

(e) *Standard: Adequate program.* The physical therapist will be considered to have an adequate physical therapy program when services can be provided, utilizing therapeutic exercise and the modalities of heat, cold, water, and electricity; patient evaluations are conducted; and tests and measurements of strength, balance, endurance, range of motion, and activities of daily living are administered.

(f) *Standard: Supervision of physical therapy services.* Physical therapy services are provided by, or under the supervision of, a qualified physical therapist.

§ 405.1734 Condition for coverage—physical therapy services.

The physical therapist in independent practice provides an adequate program of physical therapy services and has the facilities and equipment necessary to carry out the services offered.

(a) *Standard: Adequate program.* The physical therapist will be considered to have an adequate physical therapy program when services can be provided, utilizing therapeutic exercise and the modalities of heat, cold, water, and electricity; patient evaluations are conducted; and tests and measurements of strength, balance, endurance, range of motion, and activities of daily living are administered.

(b) *Standard: Supervision of physical therapy services.* Physical therapy services are provided by, or under the supervision of, a qualified physical therapist.

§ 405.1735 Condition for coverage—coordination of services with other organizations, agencies, or individuals.

The physical therapy services provided by the physical therapist in independent practice are coordinated with the health and medical services provided to the patient by organizations, agencies, or individuals.

(a) *Standard: Exchange of clinical records and reports.* When a patient is receiving or has recently received health and medical services from providers, organizations, physicians, or others that are related to and that may involve the physical therapy program, the physical therapist shall, on a regular basis, exchange with such providers, organizations, physicians, or others in accordance with § 405.1736(a) documented information which has a bearing on the patient's health and welfare so as to ensure that services effectively complement one another.

§ 405.1736 Condition for coverage—clinical records.

The physical therapist in independent practice maintains clinical records on all patients in accordance with accepted professional standards and practices. The clinical records are completely and accurately documented, readily accessible, and systematically organized to facilitate retrieving and compiling information.

(a) *Standard: Protection of clinical record information.* Clinical record information is recognized as confidential and is safeguarded against loss, destruction, or unauthorized use. Written procedures govern use and removal of records and include conditions for release of information. A patient's written consent is required for release of information not authorized by law.

(b) *Standard: Content.* The clinical record information. Clinical record information contains sufficient information to identify the patient clearly, to justify the diagnosis(es) and treatment, and to document the results accurately. All clinical records contain the following general categories of data:

(1) Documented evidence of the assessment of the needs of the patient, of an appropriate plan of care, and of the care and services provided;

(2) Identification data and consent forms;

(3) Medical history;

(4) Report of physical examination(s), if any;

(5) Observations and progress notes;

(6) Reports of treatments and clinical findings; and

(7) Discharge summary including final diagnosis(es) and prognosis.

(c) *Standard: Completion of records and centralization of reports.* Current clinical records and those of discharged patients are completed promptly. All clinical information pertaining to a patient is centralized in the patient's clinical record.

(d) *Standard: Retention and preservation.* Clinical records are retained for a period of time not less than:

(1) That determined by the respective State statute or the statute of limitations in the State; or

(2) In the absence of a State statute: (i) 5 years after the date of discharge or, (ii) in the case of a minor, 3 years after the patient becomes of age under State law, or 5 years after the date of discharge, whichever is longer.

(e) *Standard: Indexes.* Clinical records are indexed at least according to name of patient to facilitate acquisition of statistical clinical information and retrieval of records for administrative action.

§ 405.1737 Condition for coverage—physical environment.

The physical environment of the office and/or facility of the physical therapist in independent practice affords a functional, sanitary, safe, and comfortable surrounding for patients, personnel, and the public.

(a) *Standard: Building construction.* The construction of the building housing the physical therapy office meets all applicable State and local building, fire, and safety codes.

(b) *Standard: Maintenance of the physical therapy office and equipment.* There is established a written preventive-maintenance program to ensure that equipment is operative and that the physical therapy office is clean and orderly. All essential mechanical, electrical, and patient-care equipment is maintained in safe operating condition, and is properly calibrated.

(c) *Standard: Other environmental considerations.* The building housing the physical therapy office is accessible to, and functional for, patients, personnel, and the public. Written effective procedures in aseptic techniques are followed by all personnel and such procedures are reviewed annually, and when necessary, revised.

(d) *Standard: Emergency procedures.* The physical therapist is aware of the possibility of the occurrence of fire and other non-medical emergencies and has documented: (1) A means of providing for safe patient egress from the physical therapy office and the building housing the office, such means being demonstrated by fire exit signs, etc.; and (2) Other such provisions necessary to ensure the safety of patients.

2. Section 405.1230 is revised to read as follows:

§ 405.1230 Condition of participation: Qualifying to provide outpatient physical therapy or speech pathology services.

(a) Section 1861(p) of the Social Security Act provides in pertinent part as follows:

(p) The term "outpatient physical therapy services" means physical therapy services furnished by a provider of services, a clinic, a rehabilitation agency, or a public health agency, or by others under an arrangement with, and under the supervision of, such provider, clinic, rehabilitation agency, or public health agency to an individual as an outpatient—

The term "outpatient physical therapy services" also includes speech pathology services furnished by a provider of services, a clinic, rehabilitation agency, or by a public health agency, or by others under an arrangement with, and under the supervision of, such provider, clinic, rehabilitation agency, or public health agency to an individual as an outpatient, subject to the conditions prescribed in this subsection.

(b) As a provider of services, a home health agency may qualify to provide outpatient physical therapy or speech pathology services if such agency meets the statutory requirements of section 1861(o) of the Act and complies with other health and safety requirements prescribed by the Secretary for home health agencies, and, additionally, is in compliance with applicable health and safety requirements pertaining to rendition of outpatient physical therapy or speech pathology services. The applicable health and safety requirements pertaining to outpatient physical therapy or speech pathology services are included in the conditions of participation in Subpart Q of this part. (See §§ 405.1717, 405.1718, 405.1719, 405.1721, 405.1723, and 405.1725.)

3. Section 405.232(e) (2) (iii) is revised to read as follows:

§ 405.232 Medical and other health services: conditions, limitations, and exclusions.

• • • • •

(e) • • • • •  
(2) The outpatient physical therapy services described in § 405.231(1) (2) shall include only those items and services:

• • • • •  
(iii) Furnished by a physical therapist licensed by the State in which the items and services were furnished and who meets the other qualifications set out in § 405.1702(d).

[Regulations No. 16]

#### PART 416—SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Reimbursement to States for Interim Assistance Payments, Cost-of-Living Adjustments in Benefits

On November 12, 1975, there was published in the FEDERAL REGISTER (40 FR 52742) a Notice of Proposed Rule Making with proposed amendments to Subparts D and E and the establishment of a new Subpart S, Regulations No. 16. The amendments to Part 416 implement the interim assistance and cost-of-living provisions of Pub. L. 93-368, enacted August 7, 1974. Section 5 of Pub. L. 93-368 amends Section 1631 of the Social Security Act to permit the Social Security Administration to enter into an agreement with a State whereby such State would be reimbursed for interim assistance payments made to or on behalf of an individual (subsequently determined to be eligible) during the period such individual's application for supplemental security income benefits is pending. Section 6 of Pub. L. 93-368 provides for cost-of-living adjustments in the supplemental security income benefit standards in conjunction with and by the same percentage as benefits under Title II of the Act are increased in accordance with section 215(l) of the Act. Interested persons were given the opportunity to sub-

mit, within 30 days, data, views or arguments with regard to the proposed changes.

The only comments received during the comment period concerned the new Subpart S. The following comments were made regarding the new Subpart:

1. One recommendation was for an addition to Subpart S authorizing the Social Security Administration to provide information to State and local governments on the status of supplemental security income cases where the applicant has applied for interim assistance. Furnishing interim status reports would not be administratively feasible, and the delays it would cause in processing time would only hinder the Social Security Administration's ability to respond promptly to the needs of the individual. Also, a comment was made in response to § 416.1906(c), which provides that an applicant's written authorization to withhold benefits due him for purposes of reimbursing the State of the interim assistance furnished him is in effect until the Social Security Administration has made a final determination on his claim. The commenter stated that if an application is denied, no provision is made for informing the local social service districts of this fact on a timely basis. However, current operating instructions provide for the notification of State and local governments whether a claim for supplemental security income has been allowed or denied. A sentence has been included in § 416.1906(c) to reflect this policy.

2. Two commenters recommended that the provisions of the interim assistance legislation be applied to all State or local funded assistance (e.g., AFDC) regardless of whether federal funding is also involved. However, section 1631(g) (3) of the Social Security Act and the related legislative history indicate that the term "interim assistance" with respect to any individual refers only to assistance financed totally from State or local funds. Therefore, no change has been made.

3. Section 416.1911(b) (1) provides that if payment to the State by the Social Security Administration in reimbursement for interim assistance for an individual is greater than the amount of the interim assistance granted, the State is required to pay the excess amount to the individual no later than ten working days from receipt of the payment. Two comments were made that in order to comply with this requirement, the award letter needs to accompany the payment. Administrative problems in this area are recognized and work is being done to assist the State to resolve them. Nevertheless, section 1631(g) (4) (A) of the Social Security Act expressly requires the State to pay the excess amount to the individual within ten working days.

4. A comment was made questioning the provision in § 416.1911(b) (2) which requires the State to refund the excess amount to the Social Security Administration if the State is unable to pay the excess to the individual. In the case of a deceased individual, the commenter

felt that the excess should be paid to the decedent's estate. Section 1631(b) of the Act provides that the Social Security Administration can only pay on underpayments involving supplemental security income underpayments to the individual or his eligible spouse. There is no provision in the statute for paying supplemental security income benefits to an individual's estate. Accordingly, § 416.542 (b) of the regulations provides that no underpayment may be paid to the estate of any underpaid recipient or to any survivor other than the living-with eligible spouse. Therefore, § 416.1911(b) (2) provides that if payment cannot be made to the individual the excess should be returned to the Social Security Administration so that it may be handled under the generally applicable rules.

5. One comment indicated that the States do not always receive reimbursement when the Social Security Administration erroneously sends the initial benefit check to the individual instead of the State Agency. It was recommended that the Social Security Administration have the responsibility to ensure that reimbursement is made to the State, regardless of whether the Social Security Administration can recoup those funds erroneously sent to the individual. Section 1631(g) of the Social Security Act only authorizes the Secretary, under certain conditions and if the applicant so elects to make the first payment of supplemental security income benefits, which he has determined to be due, to a State or to a political subdivision. Even if the Social Security Administration makes a mistake and sends the first payment of supplemental security income benefits to the individual rather than to the State, there is no liability provided for in the agreements between the Secretary and the State, nor does any such Federal liability seem to have been intended by Congress when it enacted the interim assistance provisions.

After due consideration of the comments received, the amendments are hereby adopted as so revised and are set forth below.

(Secs. 1102, 1611(b), 1617, 1631(d), and 1631(g) of the Social Security Act, 49 Stat. 647, as amended, 86 Stat. 1466, as amended, 88 Stat. 422, 86 Stat. 1475, 88 Stat. 420; 42 U.S.C. 1302, 1382(b), 1382(f), 1383(d), and 1383(g).)

**Effective date.** The amendments shall be effective May 21, 1976.

(Catalog of Federal Domestic Assistance Programs No. 13.807, Supplemental Security Income Program.)

Dated: April 5, 1976.

J. B. CARDWELL,  
Commissioner of Social Security.

Approved: May 12, 1976.

MARJORIE LYNCH,  
Acting Secretary of Health,  
Education, and Welfare.

Part 416 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. A new § 416.405 is added to read as follows:

§ 416.405 Cost-of-living adjustments in benefits.

Whenever benefit amounts under title II of the Act (Part 404 of this Chapter) are increased by any percentage effective with any month as a result of a determination made under section 215(l) of the Act, each of the dollar amounts in effect for such month under §§ 416.410, 416.412, 416.413, 416.432(c) and 416.531, as specified in such sections or as previously increased under this section, shall be increased by the same percentage (and rounded on an annual basis, when not a multiple of \$1.20 to the next higher multiple of \$1.20), effective with respect to benefits for months after such month.

2. Section 416.410 is revised to read as follows:

§ 416.410 Amount of benefits: eligible individual.

The benefit under this part for an eligible individual who does not have an eligible spouse, who is not in an institution (see § 416.231), who is not living in the household of another under the conditions set forth in § 416.1125, and who is not a qualified individual (as defined in § 416.242), shall be payable at the rate of \$1,680 per year (\$420 per quarter, \$140 per month) for the period ending June 30, 1974, at the rate of \$1,752 per year (\$438 per quarter, \$146 per month) for the period beginning July 1, 1974, and ending June 30, 1975, and at the rate of \$1,892.40 per year (\$473.10 per quarter, \$157.70 per month) for the remainder of 1975 and any calendar year thereafter (however, see § 416.405 with respect to cost-of-living increases) reduced by the amount of such individual's income not excluded pursuant to Subpart K of this part.

3. Section 416.412 is revised to read as follows:

§ 416.412 Amount of benefits: eligible couple.

The benefit under this part for an eligible couple neither of whom is in an institution (see § 416.231) nor is living in the household of another under the conditions set forth in § 416.1125, nor is a qualified individual (as defined in § 416.242), shall be payable at the rate of \$2,520 per year (\$630 per quarter, \$210 per month) for the period ending June 30, 1974, at the rate of \$2,628 per year (\$657 per quarter, \$219 per month) for the period beginning July 1, 1974, and ending June 30, 1975, and at the rate of \$2,839.20 per year (\$709.80 per quarter, \$236.60 per month) for the remainder of 1975 and any calendar year thereafter (however, see § 416.405 with respect to cost-of-living increases) reduced by the amount of income not excluded pursuant to Subpart K of this part, of such individual and spouse. (See § 416.502.)

4. Section 416.413 is revised to read as follows:

§ 416.413 Amount of benefits: qualified individual.

A qualified individual (as defined in § 416.242) will receive in addition to the

amount specified in § 416.410 or § 416.412, as applicable, \$70 per month for the period ending June 30, 1974, \$73 per month for the period beginning July 1, 1974, and ending June 30, 1975, and \$78.90 per month for the remainder of 1975 and any calendar year thereafter (however, see § 416.405 with respect to cost-of-living increases) for each essential person (as defined in § 416.243) living in his household. (See §§ 416.531 and 416.532.)

5. In § 416.432 paragraph (c) is revised to read as follows:

§ 416.432 Change in eligibility status within a quarter involving a couple: eligibility exists in all months of the quarter.

(c) When one member of a couple is in an institution and subject to payment reduction for Medicaid (§ 416.231), and the other member of the couple is living in the household of another and receiving support and maintenance from that person, the rate of payment for such couple shall be \$1,420 per year (\$355 per quarter, \$118.34 per month) for the period ending June 30, 1974, at the rate of \$1,468 per year (\$367 per quarter, \$122.34 per month) for the period beginning July 1, 1974, and ending June 30, 1975, and at the rate of \$1,561.60 per year (\$390.40 per quarter, \$130.14 per month) for the remainder of 1975 and any calendar year thereafter (however, see § 416.405 with respect to cost-of-living increases). These amounts are based on the sum of \$25 and the reduction of the rate of payment for an individual by one-third (1/3). This rate of payment shall then be reduced by the amount of income not excluded pursuant to Subpart K of this part, of such individual and spouse and paid in accordance with § 416.502. As in paragraph (b) of this section, no more than \$25 shall be paid to the institutionalized member of the couple.

6. A new § 416.525 is added to read as follows:

§ 416.525 Reimbursement to States for interim assistance payments.

Notwithstanding § 416.542, the Social Security Administration may, in accordance with the provisions of Subpart S of this part, withhold supplemental security income benefits due with respect to an individual and may pay to a State (or political subdivision thereof, if agreed to by the Social Security Administration and the State) from the benefits withheld, an amount sufficient to reimburse the State (or political subdivision) for interim assistance furnished on behalf of the individual.

7. Section 416.531 is revised to read as follows:

§ 416.531 Standard of payment based on existence of an essential person.

In determining the amount of the supplemental security income standard of payment to any qualified individual (see § 416.242), for months after December

1973, such standard shall be increased to take into account the needs of an essential person (see § 416.243). The amount of such increase shall be at the rate of \$840 per year, in the case of any period prior to July 1974, at the rate of \$876 per year for the period beginning July 1, 1974, and ending June 30, 1975, and at the rate of \$946.80 per year (\$236.70 per quarter, \$78.90 per month) for the remainder of 1975 and any calendar year thereafter (however, see § 416.405 with respect to cost-of-living increases). The total amount due the qualified individual will be computed in accordance with section 1611 of the Act. The resulting monthly payment will be made to the qualified individual. If State records appropriately identify two or more essential persons for a qualified individual, an increment of \$70 per month for the period ending June 30, 1974, (\$73 for the period beginning July 1, 1974, and ending June 30, 1975, and \$78.90 for the remainder of 1975 and any calendar year thereafter) shall be added to the qualified individual's standard of payment for each such essential person (however, see § 416.405 with respect to cost-of-living increases).

8. Section 416.533 is revised to read as follows:

§ 416.533 Transfer or assignment of benefits.

Except as provided in § 416.525 and Subpart S of this part, the Social Security Administration shall not certify payment of supplemental security income benefits to a transferee or assignee of a person eligible for such benefits under the Act. The Social Security Administration shall not certify payment of supplemental security income benefits to any person claiming such payment by virtue of an execution, levy, attachment, garnishment, or other legal process or by virtue of any bankruptcy or insolvency proceeding against or affecting the person eligible for benefits under the Act.

9. A new Subpart S is added to read as follows:

Subpart S—Interim Assistance Provisions; Agreements; Payments

Sec.  
416.1901 Purpose and scope.  
416.1906 General provisions and definitions.  
416.1911 Interim assistance agreements.  
416.1916 Effective period for reimbursement to States for interim assistance.  
416.1921 Hearings and review.  
416.1926 Term of the agreement.

AUTHORITY: Secs. 1102, 1611(b), 1617, 1631(d), 1631(g) of the Social Security Act, 49 Stat. 647, as amended, 86 Stat. 1466, as amended, 88 Stat. 422, 86 Stat. 1475, 88 Stat. 420; 42 U.S.C. 1302, 1382(b), 1382f, 1383(d), 1383(g).

Subpart S—Interim Assistance Provisions; Agreements; Payments

§ 416.1901 Purpose and scope.

This subpart implements section 1631(g) of the Act (added by section 5 of Pub. L. 93-388) which permits the Social Security Administration to enter into an agreement with a State whereby

such State (or a political subdivision of the State) would be reimbursed for interim assistance payments furnished an applicant for supplemental security income benefits upon the written authorization of such applicant to withhold benefits due for the purpose of reimbursing the State (or political subdivision) for the interim assistance furnished.

§ 416.1906 General provisions and definitions.

(a) *General provisions.* Notwithstanding § 416.542, the Social Security Administration may, upon receipt of written authorization by an individual or a proper party executing an application on his behalf (see § 416.310), withhold supplemental security income benefits due with respect to that individual and may pay to a State (or political subdivision thereof, if agreed to by the Social Security Administration and the State) from the benefits withheld, an amount sufficient to reimburse the State (or political subdivision) for interim assistance furnished on behalf of the individual.

(b) *Definitions.* For purposes of this subpart:

(1) "Authorization" means an authorization which is written and is in a form which is acceptable to the Social Security Administration and legally acceptable in the State from which the individual received interim assistance;

(2) "Benefits" with respect to any individual means supplemental security income benefits under title XVI of the Act, and any State supplementary payments under section 1616 of the Act or section 212 of Pub. L. 93-66 which the Social Security Administration makes on behalf of a State (or political subdivision thereof), that the Social Security Administration has determined to be due with respect to the individual at the time the Social Security Administration makes the first payment of benefits. A cash advance made pursuant to § 416.520 shall not be considered as the first payment of benefits for purposes of the preceding sentence;

(3) "Interim assistance" with respect to any individual means assistance, including vendor payments, financed from State or local funds and furnished for meeting basic needs during the period beginning with the month in which the individual filed an application for benefits and for which such individual was eligible. Assistance payments financed in whole or in part from Federal funds (e.g., aid to families with dependent children) do not come within the meaning of interim assistance.

(c) *Effective life of authorization.* An authorization is in effect until the Social Security Administration has made a final determination on the applicant's claim. When an initial determination has been made, the Social Security Administration will notify the State (or political subdivision) whether the applicant's claim for supplemental security income benefits has been allowed or denied. If the individual's supplemental security income application is denied, the denial is the final determination unless the in-

dividual files a timely appeal. If the individual applies again at a later time, a new authorization must be obtained.

§ 416.1911 Interim assistance agreements.

In order for a State to receive reimbursement under the provisions of this subpart, the State shall have in effect an interim assistance agreement with the Social Security Administration which shall provide that:

(a) The Social Security Administration will make payments to the State (or political subdivision) pursuant to the provisions of this subpart and § 416.525; and

(b) If the Social Security Administration makes payment to the State (or political subdivision) in reimbursement for interim assistance for an individual in an amount greater than the amount of interim assistance reimbursable under this subpart,

(1) The State (or political subdivision) shall pay to the individual the excess amount as soon as feasible but not later than 10 working days (or a shorter period specified in the agreement) from the date the State (or political subdivision) receives the payment; or

(2) If the State is unable to pay the excess to the individual, the State shall refund the excess to the Social Security Administration; and

(c) The State will comply with such other rules as the Social Security Administration finds necessary to achieve efficient and effective administration of this subpart, and to carry out the provisions of this part, including the furnishing of a notice to the individual of action taken pursuant to paragraph (b) (1) of this section, and the protection of hearing rights (see § 416.1921) for any individual aggrieved by action taken by the State (or political subdivision) pursuant to this subpart.

§ 416.1916 Effective period for reimbursement to States for interim assistance.

The provisions for reimbursement to States for interim assistance to an individual in a State as set out in § 416.1911 shall be effective with respect to authorizations received by the Social Security Administration on or before the last day an agreement with such State under this subpart is in effect.

§ 416.1921 Hearings and review.

The provisions of Subpart N of this part shall not be applicable to any disagreement concerning payment by the Social Security Administration to a State (or political subdivision) pursuant to the provisions of this subpart nor the amount retained by the State (or political subdivision). The State shall provide an opportunity for a hearing to any individual aggrieved by action taken by the State (or political subdivision) pursuant to this subpart. However, provisions of Subpart N shall be applicable to any disagreement concerning the total amount of the payment made by the Social Security Administration.

# § 416.1926 Term of the agreement.

The Social Security Administration and the State shall mutually agree upon the term of agreement.

[FR Doc.76-14708 Filed 5-20-76;8:45 am]

## Title 21—Food and Drugs

### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

[Docket No. 76F-0147]

#### PART 121—FOOD ADDITIVES

##### Heptylparaben; Food Additives Permitted in Food for Human Consumption

The Food and Drug Administration is amending the food additive regulations to provide for safe use of heptylparaben in noncarbonated soft drinks and fruit-based beverages to inhibit microbiological spoilage, effective May 21, 1976; objections by June 21, 1976.

Notice was given by publication in the FEDERAL REGISTER of October 28, 1972 (37 FR 23120), that a food additive petition (FAP 2H2805) had been filed by Mallinckrodt Chemical Works, Washine Division, Lodi, NJ 07644, proposing that § 121.1186 (21 CFR 121.1186) be amended to provide for safe use of *n*-heptyl *p*-hydroxybenzoate in nonstandardized soft drinks and fruit-based beverages.

The Commissioner of Food and Drugs issued, in the FEDERAL REGISTER of October 30, 1974 (39 FR 38224), a regulation establishing "heptylparaben" as the common or usual name for *n*-heptyl *p*-hydroxybenzoate.

The Commissioner, having evaluated the data in the food additive petition and other relevant material, concludes that § 121.1186 (21 CFR 121.1186) should be amended as set forth below to provide for safe use of heptylparaben in noncarbonated soft drinks and fruit-based beverages to inhibit microbiological spoilage.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1788 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.1186 is revised to read as follows:

#### § 121.1186 Heptylparaben.

(a) The food additive heptylparaben is the chemical *n*-heptyl *p*-hydroxybenzoate.

(b) It may be safely used to inhibit microbiological spoilage in accordance with the following prescribed conditions:

(1) In fermented malt beverages in amounts not to exceed 12 parts per million.

(2) In noncarbonated soft drinks and fruit-based beverages in amounts not to exceed 20 parts per million, when standards of identity established under section 401 of the act (21 U.S.C. 341) do not preclude such use.

Any person who will be adversely affected by the foregoing regulation may at any time on or before June 21, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600

Fishers Lane, Rockville MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the regulation, specify with particularity the provisions of the regulation deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office during working hours, Monday through Friday.

**Effective date.** This regulation shall become effective May 21, 1976.

(Sec. 409(c)(1), 72 Stat. 1788 (21 U.S.C. 348(c)(1)))

Dated: May 14, 1976.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

### Title 24—Housing and Urban Development CHAPTER III—GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

[Docket No. R-76-210]

#### PART 300—GENERAL

##### List of Attorneys-in-Fact

Section 300.11 is amended to add additional names to the list of attorneys-in-fact authorized to act on behalf of the Association and to remove two names from the current list.

Notice and public procedure on this amendment are unnecessary and impracticable because of the large volume of legal documents that must be executed on behalf of the Association in connection with its recent auctions of mortgages.

#### § 300.11 [Amended]

1. Paragraph (c) of § 300.11 is amended by deleting the following names from the current list of attorneys-in-fact:

##### NAME AND REGION

Stephen C. Crabb, Dallas, Texas  
W. J. Gerard, Los Angeles, California

2. Paragraph (c) of § 300.11 is further amended by adding the following names in alphabetical sequence to the current list of attorneys-in-fact:

##### NAME AND REGION

H. D. Banks, Atlanta, Georgia  
Diane E. Cozad, Los Angeles, California  
S. C. Crabb, Dallas, Texas  
Helen M. Eltzeroth, Atlanta, Georgia  
R. L. Shanteau, Atlanta, Georgia  
Mary Simpson, Dallas, Texas  
Samuel M. Smith, III, Atlanta, Georgia  
E. A. Taylor, Atlanta, Georgia

**Effective date:** This amendment shall be effective on May 21, 1976.

It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A-107.

DAVID M. DEWILDE,  
President, Government National  
Mortgage Association.

## Title 26—Internal Revenue

### CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

#### SUBCHAPTER A—INCOME TAX

[T.D. 7421]

#### PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

##### SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

##### PART 301—PROCEDURE AND ADMINISTRATION

##### Notification of Interested Parties Regarding Qualification of Certain Retirement Plans

**Preamble.** On June 4, 1975, a notice of proposed rule making with respect to the amendments of the Income Tax Regulations (26 CFR Part 1) relating to notification of interested parties regarding the qualification of certain retirement plans under section 7476 of the Internal Revenue Code of 1954, as added by section 1041(a) of the Employment Retirement Income Security Act of 1974 (88 Stat. 949), was published in the FEDERAL REGISTER (40 FR 24011). A correction notice was published in the FEDERAL REGISTER (40 FR 24527) on June 9, 1975. On July 14, 1975, a notice of proposed rule making with respect to the amendments of the Income Tax Regulations (26 CFR Part 1) relating to the notice of determination regarding qualification of certain retirement plans, also under section 7476 of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (40 FR 29553).

Under section 3001(a) of the Employee Retirement Income Security Act of 1974 (88 Stat. 995), before the Internal Revenue Service may issue an advance determination whether a pension, profit-sharing or stock bonus plans, a trust which is a part of such a plan, an annuity plan, or bond purchase plan described in section 401(a), 403(a), or 405(a) of the Code is exempt from taxation, the applicant must provide the Internal Revenue Service with satisfactory evidence that such applicant has notified each employee qualifying as an interested party under the regulations prescribed under section 7476(b)(1) of the Code of the application for such determination.

Under section 7476(b)(2) of the Code, if the petitioner for a declaratory judgment concerning the status of certain retirement plans was the applicant for an advance determination by the Internal Revenue Service of such status, the Tax Court may hold the filing of a pleading for such declaratory judgment to be premature unless the petitioner establishes to the satisfaction of the Tax Court that such petitioner has notified all interested parties of such application for an advance determination.

The amendments to the regulations define the term interested party as well as provide rules for notification of interested parties by the employer, when such employer requests an advance determination regarding the qualification of a retirement plan. The amendments adopted by this document differ from the rules set forth in the notice of proposed rule making by altering the definition of an interested party as well as by providing additional methods for notifying interested parties.

**Adoption of the amendments to the regulations.** After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the Income Tax Regulations (26 CFR Part 1) is hereby adopted as set forth below. Sections 11.7476-1, 11.7476-2, and 11.7476-3 of this Chapter (Temporary Income Tax Regulations under the Employee Retirement Income Security Act of 1974) are superseded.

1. The following sections are added immediately after § 1.6851-3:

#### THE TAX COURT

##### DECLARATORY JUDGMENTS RELATING TO QUALIFICATION OF CERTAIN RETIREMENT PLANS

##### § 1.7476 Statutory provisions; declaratory judgments.

Sec. 7476. *Declaratory judgments*—(a) *Creation of remedy.* In a case of actual controversy involving—

(1) A determination by the Secretary or his delegate with respect to the initial qualification or continuing qualification of a retirement plan under subchapter D of chapter 1, or

(2) A failure by the Secretary or his delegate to make a determination with respect to—

(A) Such initial qualification, or  
(B) Such continuing qualification if the controversy arises from a plan amendment or plan termination,

upon the filing of an appropriate pleading, the United States Tax Court may make a declaration with respect to such initial qualification or continuing qualification. Any such declaration shall have the force and effect of a decision of the Tax Court and shall be reviewable as such.

(b) *Limitations*—(1) *Petitioner.* A pleading may be filed under this section only by a petitioner who is the employer, the plan administrator, an employee who has qualified under regulations prescribed by the Secretary or his delegate as an interested party for purposes of pursuing administrative remedies within the Internal Revenue Service, or the Pension Benefit Guaranty Corporation.

(2) *Notice.* For purposes of this section, the filing of a pleading by any petitioner may be held by the Tax Court to be premature, unless the petitioner establishes to the satisfaction of the court that he has complied with the requirements prescribed by regulations of the Secretary or his delegate with respect to notice to other interested parties of the filing of the request for a determination referred to in subsection (a).

(3) *Exhaustion of administrative remedies.* The Tax Court shall not issue a declaratory judgment or decree under this section in any proceeding unless it determines that the

petitioner has exhausted administrative remedies available to him within the Internal Revenue Service. A petitioner shall not be deemed to have exhausted his administrative remedies with respect to a failure by the Secretary or his delegate to make a determination with respect to initial qualification or continuing qualification of a retirement plan before the expiration of 270 days after the request for such determination was made.

(4) *Plan put into effect.* No proceeding may be maintained under this section unless the plan (and, in the case of a controversy involving the continuing qualification of the plan because of an amendment to the plan, the amendment) with respect to which a decision of the Tax Court is sought has been put into effect before the filing of the pleading. A plan or amendment shall not be treated as not being in effect merely because under the plan the funds contributed to the plan may be refunded if the plan (or the plan as so amended) is found to be not qualified.

(5) *Time for bringing action.* If the Secretary or his delegate sends by certified or registered mail notice of his determination with respect to the qualification of the plan to the persons referred to in paragraph (1) (or, in the case of employees referred to in paragraph (1), to any individual designated under regulations prescribed by the Secretary or his delegate as a representative of such employee), no proceeding may be initiated under this section by any person unless the pleading is filed before the ninety-first day after the day after such notice is mailed to such person (or to his designated representative, in the case of an employee).

(c) *Commissioners.* The chief judge of the Tax Court may assign proceedings under this section to be heard by the commissioners of the court, and the court may authorize a commissioner to make the decision of the court with respect to such proceeding, subject to such conditions and review as the court may by rule provide.

(d) *Retirement plan.* For purposes of this section, the term "retirement plan" means—

(1) A pension, profit-sharing, or stock bonus plan described in section 401(a) or a trust which is part of such a plan,

(2) An annuity plan described in section 403(a), or

(3) A bond purchase plan described in section 405(a).

(e) *Cross reference.* For provisions concerning intervention by Pension Benefit Guaranty Corporation and Secretary of Labor in actions brought under this section and right of Pension Benefit Guaranty Corporation to bring action, see section 3001(c) of subtitle A of title III of the Employee Retirement Income Security Act of 1974.

[Sec. 7476 as added by sec. 1041(a), Employee Retirement Income Security Act of 1974 (88 Stat. 949)]

#### § 1.7476-1 Interested parties.

(a) *In general*—(1) *Notice requirement.* Before the Internal Revenue Service can issue an advance determination as to the qualified status of certain retirement plans, the applicant must provide the Internal Revenue Service with satisfactory evidence that such applicant has notified the persons who qualify as interested parties, under regulations prescribed under section 7476(b) (1) of the Code, of the application for such determination. See section 3001(a) of the Employee Retirement Income Security Act of 1974 (88 Stat. 995). For the rules for giving notice to interested

parties, see § 1.7476-2 and paragraph (c) of § 601.201 of this chapter (Statement of Procedural Rules).

(2) *Declaratory judgments.* Section 7476 provides a procedure for obtaining a declaratory judgment by the Tax Court with respect to the initial or continuing qualification under subchapter D of chapter 1 of the Code of a retirement plan defined in section 7476(d), in the case of an actual controversy involving:

(i) A determination by the Internal Revenue Service with respect to the initial qualification or continuing qualification under such subchapter of such a plan, or

(ii) A failure by the Internal Revenue Service to make a determination with respect to—

(A) Such initial qualification of such a plan, or

(B) Such continuing qualification of such a plan, if the controversy arises from a plan amendment or plan termination.

Under section 7476(d) the term "retirement plan" means a pension, profit-sharing, or stock bonus plan described in section 401(a), or a trust which is part of such a plan, an annuity plan described in section 403(a), or a bond purchase plan described in section 405(a). This procedure is available only to the employer, the plan administrator as defined in section 414(g), an employee who qualifies as an interested party as defined in this section, or the Pension Benefit Guaranty Corporation, where such person has an actual controversy involving a determination described in paragraph (a)(2)(i) of this section, or failure to make a determination described in paragraph (a)(2)(ii) of this section. In the case of an application for such a determination, this procedure is available only if such determination or failure to make such determination is with respect to an application described in paragraph (b)(7) of this section. In addition, in the case of such an application, if a petitioner was the applicant for the determination, the Tax Court may hold, under section 7476(b)(2), the filing of a pleading for a declaratory judgment to be premature unless the petitioner establishes to the satisfaction of the Tax Court that such petitioner has caused the interested parties to be notified in accordance with this section and § 1.7476-2.

(b) *Interested parties*—(1) *In general.* If paragraphs (b)(2), (3), (4), and (5) of this section do not apply, then, except as otherwise provided in paragraphs (b)(6)(i), (ii), and (iii) of this section, the following persons shall be interested parties with respect to an application for an advance determination as to the qualified status of a retirement plan:

(i) All present employees of the employer who are eligible to participate in the principal place of employment of (2) of this section), and

(ii) All other present employees of the employer whose principal place of employment (as defined in paragraph (d)(3) of this section) is the same as

the principal place of employment of any employee described in paragraph (b) (1) (i) of this section.

(2) *Certain plans covering a principal owner.* Notwithstanding paragraph (b) (1) of this section, where—

(i) A principal owner (within the meaning of paragraph (d) (2) of § 11.414(c)-3 of this chapter (Temporary Income Tax Regulations under the Employee Retirement Income Security Act of 1974)) of the employer or of a common parent of the employer (where the employer is a member of a parent-subsidary group of trades or businesses under common control under section 414 (b) or (c)) is eligible to participate in the plan, and

(ii) The number of employees employed by such employer (including all employees who by reason of section 414 (b) or (c) are treated as employees of such employer) is 100 or less, then except as otherwise provided in paragraphs (b) (6) (i), (ii), and (iv) of this section, all present employees of the employer shall be interested parties with respect to an application for an advance determination as to the qualified status of the retirement plan.

(3) *Certain Plan amendments.* In the case of an application for an advance determination as to whether a plan amendment affects the continuing qualification of a plan, if—

(i) There is outstanding a favorable determination letter for a plan year to which section 410 applies, and

(ii) The amendment does not alter the participation provisions of the plan, then paragraphs (b) (1) and (2) of this section shall not apply, and all present employees of the employer who are eligible to participate in the plan (as defined in paragraph (d) (2) of this section), shall be interested parties. For the purpose of this paragraph (b) (3), if qualification of the plan is dependent upon benefits under the plan integrating with those benefits provided under the Social Security Act or a similar program, and if such integration results in excluding any employee or could possibly result in any participant's benefit being reduced to zero and the amendment alters contributions to or the amount of benefits payable under the plan, then the amendment shall be considered to alter the participation provisions of the plan.

(4) *Collectively bargained plans.* In the case of an application with respect to a plan described in section 413(a) (relating to collectively bargained plans), paragraphs (b) (1), (2) and (3) of this section shall not apply and all present employees covered by a collective-bargaining agreement pursuant to which the plan is maintained shall be interested parties.

(5) *Plan terminations.* In the case of an application for an advance determination with respect to whether a plan termination affects the continuing qualification of a retirement plan, paragraphs (b) (1), (2), (3) and (4) of this section shall not apply, and all present employ-

ees with accrued benefits under the plan, all former employees with vested benefits under the plan, and all beneficiaries of deceased former employees currently receiving benefits under the plan, shall be interested parties.

(6) *Exceptions.* (i) In the case of an application to which paragraph (b) (1) or (2) of this section applies, an employee who is not eligible to participate in the plan shall not be an interested party if such employee is excluded from consideration for purposes of section 410(b) (1) by reason of section 410(b) (2) (B) or (C).

(ii) In the case of an application to which paragraph (b) (1) or (2) of this section applies, an employee who is not eligible to participate in the plan shall not be an interested party if such plan meets the eligibility standards of section 410(b) (1) (A).

(iii) In the case of an application to which paragraph (b) (1) of this section applies, an employee who is not eligible to participate in the plan shall not be an interested party with respect to such plan if such employee is eligible to participate in any other plan of the employer with respect to which a favorable determination letter is outstanding (whether or not issued pursuant to an application to which this section applies), or in such a plan of another employer whose employees, by reason of section 414 (b) or (c), are treated as employees of the employer making the application.

(iv) In the case of an application to which paragraph (b) (2) of this section applies, an employee who is not eligible to participate in the plan shall not be an interested party with respect to such plan if such employee is eligible to participate in a plan described in section 413(a) (relating to collectively bargained plans) maintained by the employer with respect to which a favorable determination letter is outstanding (whether or not issued pursuant to an application to which this section applies), or in such a plan of another employer whose employees, by reason of section 414 (b) or (c), are treated as employees of the employer making the application.

(7) *Applicability.* Paragraph (b) of this section shall only apply in the case of an application made to the Internal Revenue Service requesting an advance determination that a retirement plan as defined in section 7476(d) and paragraph (a) of this section meets the requirements for qualification for a plan year or years to which section 410 applies to such plan. See paragraph (c) (4) and (5) of this section for special rules in respect of years to which section 410 applies.

(c) *Special rules.* For purposes of paragraph (b) of this section and § 1.7476-2—

(1) *Time of determination.* The status of an individual as an interested party and as a present employee or former employee shall be determined as of a date determined by the applicant, which date shall not be earlier than five business days before the first date on which the notice of the application is given to

interested parties pursuant to § 1.7476-2 nor later than the date on which such notice is given.

(2) *Controlled groups, etc.* An individual shall be considered to be an employee of an employer if such employee is treated as that employer's employee under section 414 (b) or (c).

(3) *Self-employed individuals.* A self-employed individual shall be considered an employee.

(4) *Years to which section 410 relates.* For purposes of paragraph (b) (7) of this section, section 410 shall be considered to apply to a plan year if an election has been made under section 1017(d) of the Employee Retirement Income Security Act of 1974 to have section 410 apply to such plan year, whether or not the election is conditioned upon the issuance by the Commissioner of a favorable determination letter.

(5) *Government, church plans, etc.* In the case of an organization described in section 410(c) (1), section 410 will be considered to apply to a plan year of such organization for any plan year to which section 410(c) (2) applies to such plan.

(d) *Definitions.* For the purposes of paragraph (b) of this section and § 1.7476-2—

(1) *Employer.* The term "employer" includes all employers who maintain the plan with respect to which an advance determination applies. A sole proprietor shall be considered such person's own employer and a partnership is considered to be the employer of each of the partners.

(2) *Eligible to participate.* For purposes of this section, an employee is eligible to participate in a plan if such employee—

(i) Is a participant in the plan,  
(ii) Would be a participant in the plan if such employee met the minimum age and service requirements of the plan or  
(iii) Would be a participant in the plan upon making mandatory employee contributions.

In applying this paragraph (d) (2), plan provisions (with respect to which the determination regarding qualification is to be based) not in effect on the first date on which notice is given to interested parties shall be treated as though they were in effect on such date.

(3) *Place of employment.* A place of employment includes all worksites within a plant, installation, store, office, or similar facility. Any employee who has no principal place of employment shall be treated as though such employee's principal place of employment is that place to which such employee regularly reports to the employer.

§ 1.7476-2 Notice to interested parties.

(a) *In general.* Any person applying to a district director for a determination described in paragraph (b) (7) of § 1.7476-1 shall cause notice of the application to be given to persons who qualify as interested parties under § 1.7476-1 with respect to the application, whether or not such application is

received by the Internal Revenue Service before the date on which section 410 applies to the plan.

(b) *Nature of notice.* The notice required by this section shall be given in writing, shall contain the information and be given within the time prescribed in paragraph (c) (3) of § 601.201 of this chapter (Statement of Procedural Rules), and shall be given in the manner prescribed in paragraph (c) of this section.

(c) *Method of giving notice.* (1) *Present employee.* In the case of a present employee who is an interested party, notice shall be given in person, by mailing, by posting, or by printing it in a publication of the employer or an employee organization which is distributed in such a manner so as to be reasonably available to such employee. Notice given by posting shall be made by posting such notice (i) at those locations within the principal places of employment of the interested parties which are customarily used for employer notices to employees with regard to labor-management relations matters, or (ii) if the plan is maintained pursuant to one or more collective-bargaining agreements, at those locations described in (i) or at those locations customarily used by the employee representatives for posting notices with regard to labor-management relations matters (such as local union meeting places) in the geographical area or areas within which the interested parties are employed. Regardless of which method is used to notify an employee, if an interested party who is a present employee is in a unit of employees covered by a collective-bargaining agreement between employee representatives and one or more employers, notice shall also be given in person or by mail to the collective-bargaining representative of such interested party.

(2) *Former employee or beneficiary.* (i) Except as otherwise provided in paragraph (c) (2) (ii) of this section, in the case of a former employee or beneficiary who is an interested party, notice shall be given in person or by mail to the last known address of such former employee or beneficiary.  
(ii) In cases in which compliance with the methods for notification prescribed in paragraph (c) (2) (i) of this section will present unusual financial or administrative burdens or, by reason of the peculiar circumstances of the case, cannot reasonably be expected to result in adequate and timely notice, applicants for advance determination letters may cause notice to be given to former employees or beneficiaries by methods other than those described in such paragraph (c) (2) (i) provided such methods are reasonably calculated to provide timely notice to such employees or beneficiaries who are interested parties, or to established representatives of such interested parties who may be reasonably expected to act in their interest and on their behalf. In such a case, the application for determination shall be accompanied by a full description of the method of notification used, as well as the particular

financial or administrative burdens that would have occurred if notice had been given pursuant to the methods prescribed in paragraph (c) (2) (i) of this section, or the reasons why such prescribed methods would not have resulted in adequate or timely notice.

(d) *Effective date.* (1) the provisions of § 1.7476-1 and this section shall apply to applications referred to in paragraph (b) of § 1.7476-1 made on or after June 21, 1976. Sections 11.7476-1, and 11.7476-2 of this chapter (Temporary Income Tax Regulations under the Employee Retirement Income Security Act of 1974) as promulgated by Treasury Decision 7358 (May 30, 1975) shall apply to applications made before such date. However, an applicant may elect to have the provisions of § 1.7476-1 and this section apply with respect to an application made after May 20, 1976 and before June 21, 1976. Such election may be made by attaching to the application as originally submitted, a statement that the applicant has elected to have the provisions of § 1.7476-1 and this section apply.

(2) Notwithstanding paragraph (d) (1) of this section, if—

(i) The plan or plan amendment which is the subject of an application for advance determination, is adopted on or before May 30, 1976, and,

(ii) Such application for advance determination is made before September 2, 1976, the applicant may elect to have the provisions of §§ 11.7476-1 and 11.7476-2 of this chapter (Temporary Income Tax Regulations under the Employee Retirement Income Security Act of 1974) apply with respect to such application made on or after June 21, 1976 and before September 2, 1976. Such an election may be made by attaching to the application as originally submitted, a statement that the applicant has elected to have the provisions of §§ 11.7476-1 and 11.7476-2 of this chapter (Temporary Income Tax Regulations under the Employee Retirement Income Security Act of 1974) apply.

§ 1.7476-3 Notice of determination.

(a) *In general.* Under section 7476(b) (5), if a district director sends to the employer, the plan administrator, an interested party with respect to the plan, or the Pension Benefit Guaranty Corporation (or in the case of certain individuals who qualify as interested parties under paragraph (b) of § 1.7476-1, to the person described under paragraph (c) of this section as the representative of such individuals) by certified or registered mail a notice of determination with respect to the qualification of a retirement plan described in section 7476(d), no proceeding for a declaratory judgment by the United States Tax Court with respect to the qualification of such plan may be initiated by such person unless the pleading initiating such proceeding is filed by such person with such Court before the ninety-first day after the day after such notice is mailed.

(b) *Address for notice of determination.* (1) *Applicant.* In the case of the

applicant for a determination, a notice of determination referred to in section 7476(b) (5) shall be sufficient if mailed to such person at the address set forth on the application for the determination.

(2) *Interested party.* In the case of an interested party or parties who, pursuant to section 3001(b) of the Employee Retirement Income Security Act of 1974 (88 Stat. 995), submitted a comment to a district director with respect to the qualification of the plan, a notice of determination referred to in section 7476 (b) (5) shall be sufficient if mailed to the address designated in the comment as the address to which correspondence should be sent.

(c) *Representative of interested parties.* (1) In the case of an interested party who, in accordance with section 3001(b) of the Employee Retirement Income Security Act of 1974 (88 Stat. 995), requests the Secretary of Labor to submit a comment to a district director on matters respecting the qualification of the plan, where pursuant to such request such Secretary does in fact submit such a comment, the Administrator of Pension and Welfare Benefit Programs, Department of Labor, shall be the representative of such interested party for purposes of receiving the notice referred to in section 7476(b) (5) with respect to those matters on which the Secretary of Labor commented.

(2) In the event a single comment with respect to the qualification of the plan is submitted to a district director by two or more interested parties, the representative designated in the comment for receipt of correspondence shall be the representative of all the interested parties submitting the comment for purposes of receiving the notice referred to in section 7476(b) (5) on behalf of all of them. Such designated representative must be either one of the interested parties who submitted the comment or a person described in paragraph (e) (6) (i), (ii) or (iii) of § 601.201 of this chapter (Statement of Procedural Rules). If one person is not designated in the comment as the representative for receipt of correspondence, a notice of determination mailed to any interested party who submitted the comment shall be notice to all the interested parties who submitted the comment for purposes of section 7476 (b) (5).

2. Section 301.7451 is amended to read as follows:

§ 301.7451 Statutory provisions: fee for filing petitions.

Sec. 7451. *Fee for filing petition.* The Tax Court is authorized to impose a fee in an amount not in excess of \$10 to be fixed by the Tax Court for the filing of any petition for the redetermination of a deficiency or for a declaratory judgment under part IV of this subchapter.

[Sec. 7451 as amended by sec. 1041(b) (1), Employee Retirement Income Security Act 1974 (88 Stat. 949)]

3. Section 301.7459 is amended by revising section 7459(c) and by adding an historical note. These provisions read as follows:

### § 301.7459 Statutory provisions: reports and decisions.

Sec. 7459. *Reports and decisions.* . . .  
(c) *Date of decision.* A decision of the Tax Court (except a decision dismissing a proceeding for lack of jurisdiction) shall be held to be rendered upon the date that an order specifying the amount of the deficiency is entered in the records of the Tax Court, or in the case of a declaratory judgment proceeding under part IV of this subchapter, the date of the court's order entering the decision. If the Tax Court dismisses a proceeding for reasons other than lack of jurisdiction and is unable from the record to determine the amount of the deficiency determined by the Secretary or his delegate, or if the Tax Court dismisses a proceeding for lack of jurisdiction, an order to that effect shall be entered in the records of the Tax Court, and the decision of the Tax Court shall be held to be rendered upon the date of such entry.

[Sec. 7459 as amended by sec. 1041(b)(2), Employee Retirement Income Security Act 1974 (88 Stat. 949)]

4. The following sections are added immediately after § 301.7474:

### DECLARATORY JUDGMENTS RELATING TO QUALIFICATION OF CERTAIN RETIREMENT PLANS

### § 301.7476 Statutory provisions: declaratory judgments.

Sec. 7476. *Declaratory judgments.*—(a) *Creation of remedy.* In a case of actual controversy involving—

(1) A determination by the Secretary or his delegate with respect to the initial qualification or continuing qualification of a retirement plan under subchapter D of chapter 1, or

(2) A failure by the Secretary or his delegate to make a determination with respect to—

(A) Such initial qualification, or  
(B) Such continuing qualification if the controversy arises from a plan amendment or plan termination,

upon the filing of an appropriate pleading, the United States Tax Court may make a declaration with respect to such initial qualification or continuing qualification. Any such declaration shall have the force and effect of a decision of the Tax Court and shall be reviewable as such.

(b) *Limitations.*—(1) *Petitioner.* A pleading may be filed under this section only by a petitioner who is the employer, the plan administrator, an employee who has qualified under regulations prescribed by the Secretary or his delegate as an interested party for purposes of pursuing administrative remedies within the Internal Revenue Service, or the Pension Benefit Guaranty Corporation.

(2) *Notice.* For purposes of this section, the filing of a pleading by any petitioner may be held by the Tax Court to be premature, unless the petitioner establishes to the satisfaction of the court that he has complied with the requirements prescribed by regulations of the Secretary or his delegate with respect to notice to other interested parties of the filing of the request for a determination referred to in subsection (a).

(3) *Exhaustion of administrative remedies.* The Tax Court shall not issue a declaratory judgment or decree under this section in any proceeding unless it determines that the petitioner has exhausted administrative remedies available to him within the Internal Revenue Service. A petitioner shall not be deemed to have exhausted his administrative remedies with respect to a failure by the Secretary or his delegate to make a determination with respect to initial qualification or

continuing qualification of a retirement plan before the expiration of 270 days after the request for such determination was made.

(4) *Plan put into effect.* No proceeding may be maintained under this section unless the plan (and, in the case of a controversy involving the continuing qualification of the plan because of an amendment to the plan, the amendment) with respect to which a decision of the Tax Court is sought has been put into effect before the filing of the pleading. A plan or amendment shall not be treated as not being in effect merely because under the plan the funds contributed to the plan may be refunded if the plan (or the plan as so amended) is found to be not qualified.

(5) *Time for bringing action.* If the Secretary or his delegate sends by certified or registered mail notice of his determination with respect to the qualification of the plan to the persons referred to in paragraph (1) (or, in the case of employees referred to in paragraph (1), to any individual designated under regulations prescribed by the Secretary or his delegate as a representative of such employee), no proceeding may be initiated under this section by any person unless the pleading is filed before the ninety-first day after the day after such notice is mailed to such person (or to his designated representative, in the case of an employee).

(c) *Commissioners.* The chief judge of the Tax Court may assign proceedings under this section to be heard by the commissioners of the court, and the court may authorize a commissioner to make the decision of the court with respect to such proceeding, subject to such conditions and review as the court may by rule provide.

(d) *Retirement plan.* For purposes of this section, the term "retirement plan" means—

(1) A pension, profit-sharing, or stock bonus plan described in section 401(a) or a trust which is part of such a plan,

(2) An annuity plan described in section 403(a), or

(3) A bond purchase plan described in section 405(a).

(e) *Cross reference.* For provisions concerning intervention by Pension Benefit Guaranty Corporation and Secretary of Labor in actions brought under this section and right of Pension Benefit Guaranty Corporation to bring action, see section 8001(c) of subtitle A of title III of the Employee Retirement Income Security Act of 1974.

[Sec. 7476 as added by sec. 1041(a), Employee Retirement Income Security Act 1974 (88 Stat. 949)]

### § 301.7476-1 Declaratory judgments.

See the regulations under section 7476 contained in Part 1 of this chapter (Income Tax Regulations) for provisions relating to declaratory judgments, for provisions relating to the qualification of an employee as an "interested party", and for a requirement that the applicant for an advance determination by the Internal Revenue Service of the qualification of certain retirement plans give notice of such application to interested parties.

5. Section 301.7482 is amended by revising section 7482 (b) (1) and (c) and by adding a historical note. These provisions read as follows:

### § 301.7482 Statutory provisions: courts of review.

Sec. 7482 *Courts of review.* . . .

(b) *Venue.*—(1) *In general.* Except as otherwise provided in paragraph (2), such decisions may be reviewed by the United

States Court of Appeals for the circuit in which is located—

(A) In the case of a petitioner seeking redetermination of tax liability other than a corporation, the legal residence of the petitioner,

(B) In the case of a corporation seeking redetermination of tax liability, the principal place of business or principal office or agency of the corporation, or, if it has no principal place of business or principal office or agency in any judicial circuit, then the office to which was made the return of the tax in respect of which the liability arises, or

(C) In the case of a person seeking a declaratory decision under section 7476, the principal place of business, or principal office or agency of the employer.

If for any reason subparagraph (A), (B) and (C) do not apply then such decisions may be reviewed by the Court of Appeals for the District of Columbia. For purposes of this paragraph, the legal residence, principal place of business, or principal office or agency referred to herein shall be determined as of the time the petition seeking redetermination of tax liability was filed with the Tax Court or as of the time the petition seeking a declaratory decision under section 7476 was filed with the Tax Court.

(c) *Powers.*—(1) To affirm, modify, or reverse. Upon such review, such courts shall have power to affirm or, if the decision of the Tax Court is not in accordance with law, to modify or to reverse the decision of the Tax Court, with or without remanding the case for a rehearing, as justice may require.

(2) To make rules. Rules for review of decision of the Tax Court shall be those prescribed by the Supreme Court under section 2072 of Title 28 of the United States Code.

(3) To require additional security. Nothing in section 7483 shall be construed as relieving the petitioner from making or filing such undertakings as the court may require as a condition of or in connection with the review.

(4) To impose damages. The United States Court of Appeals and the Supreme Court shall have power to impose damages in any case where the decision of the Tax Court is affirmed and it appears that the notice of appeal was filed merely for delay.

[Sec. 7482 as amended by sec. 3(c), Act of Nov. 2, 1966 (Pub. Law 89-713, 80 Stat. 1107, sec. 960(h), Tax Reform Act 1969 (83 Stat. 734); sec. 1041(b)(3), Employee Retirement Income Security Act 1974 (88 Stat. 949)]

(This Treasury decision is issued under the authority contained in sections 7476 and 7805 of the Internal Revenue Code of 1954 (88 Stat. 949 and 68A Stat. 917; 26 U.S.C. 7476 and 7805).)

DONALD C. ALEXANDER,  
Commissioner of Internal Revenue.

Approved: May 17, 1976.

CHARLES M. WALKER,  
Assistant Secretary  
of the Treasury.

### SUBCHAPTER H—INTERNAL REVENUE PRACTICE

### PART 601—STATEMENT OF PROCEDURAL RULES

### Miscellaneous Amendments; Correction

This document previously appeared in the issue for May 11, 1976, at 41 FR

19214. Inadvertently, several errors appeared and the document is being republished to read as set forth below.

JAMES F. DRING,  
Director, Legislation and  
Regulations Division.

*Preamble.* This document contains miscellaneous amendments to the Statement of Procedural Rules (26 CFR Part 601) which was last amended on August 1, 1975 (40 FR 32322).

The Statement of Procedural Rules sets forth the procedural rules of the Internal Revenue Service respecting all taxes administered by the Service.

The amendments to the Statement of Procedural Rules contained in this document are adopted by this document. A discussion of the most significant of these amendments follows:

Paragraph (c) (2) (iv) of § 601.105 is revised to provide that in field audit cases involving an amount in excess of \$2,500 for any year, when the nature or complexity of the unagreed issues is such that original consideration by the Appellate Division would result in the more expeditious resolution of the case, taxpayers will be invited to request initial consideration by the regional Appellate Division.

Paragraph (c) (5) of § 601.105 is amended to provide that District conferees are authorized to consider and accept settlement proposals by taxpayers, subject to certain approval, where the amount involved does not exceed \$2,500 for any year.

A new paragraph (1) is added to § 601.105 which sets forth procedures under which district Audit Divisions may dispose of cases defined by the Tax Court as "small tax cases". Under these procedures, the district Audit Division has up to 60 days from the date on which the petition is served to resolve the issues of the "small tax case". If the case has not been resolved within that time, it will be referred to the Appellate Division for disposition.

Paragraphs (a) (1) and (2) of § 601.106 are amended to clarify the jurisdiction and authority of the Appellate Division.

A new sentence is added to paragraph (a) (3) of § 601.106 to reflect the revocation of the Appellate Division's jurisdiction over cases involving determinations and/or related excise taxes involving employee plans and exempt organizations. This appeals function is now conducted by the Office of the Assistant Commissioner (Employee Plans and Exempt Organizations).

Paragraph (e) (8) of § 601.201 is amended to provide that if a request for a ruling or opinion letter is lacking essential information, the taxpayer or his representative will be advised that if the information is not forthcoming within a reasonable time, generally 30 days, the request will be closed by issuing a closing letter. If the information is received after mailing the closing letter, the request will be reopened and treated as a new request as of the date of the receipt of the essential information. Priority treatment of such request will be granted only in rare cases upon the approval of the appropriate Division Director.

The revisions of paragraphs (e) (11) and (e) (12) of § 601.201 reflect a realignment of the areas of responsibility of the Individual and Corporation Tax Divisions within the Office of Assistant Commissioner (Technical).

A new paragraph (1) is added to § 601.201 to set forth procedures under which a taxpayer may apply for approval to use an alternative method of depletion when computing gross income from mining.

Paragraph (a) of § 601.204 is amended to permit the filing of consents to changes in accounting periods, on Form 1128, with the Director of the Internal Revenue Service Center in whose district the taxpayer files his return.

The revision of paragraph (a) (2) (ii) of § 601.402 reflects changes in section 4161 of the Code which extended the manufacturers excise tax on recreational equipment to bows and arrows sold on or after January 1, 1975.

A reference to "foreign cars" is deleted from paragraph (e) (3) of § 601.402 to reflect repeal of the manufacturers excise tax on automobiles.

Paragraph (a) (9) of § 601.403 is deleted to reflect the expiration, under section 4911(d) of the Code, of the Interest Equalization Tax.

Paragraph (b) (1) (ii) of § 601.504 is amended to provide that either the husband or the wife may execute a power of attorney or a tax information authorization for purposes of inspecting a joint income tax return. This conforms to § 301.6103(a)-1(c) (1) (iii) of the Regulations on Procedure and Administration (26 CFR 301).

Sections 601.601 and 601.602 are amended to remove all references to alcohol, tobacco, firearms, and explosives rules, regulations, and forms, administered by the Bureau of Alcohol, Tobacco and Firearms. As a result of the addition of subpart D to 27 CFR Part 71 (§§ 71.31 and 71.32) relating to the formulation and publication by the Bureau of Alcohol, Tobacco and Firearms of rules, regulations, and forms (published in the FEDERAL REGISTER on January 17, 1974 (39 FR 2090) and effective on February 16, 1974), subpart F of 26 CFR Part 601 (§§ 601.601 and 601.602) has been superseded to the extent that it applied to alcohol, tobacco, firearms, and explosives rules, regulations, and forms administered by the Bureau.

*Amendments to the Statement of Procedural Rules.* The following amendments are made to Part 601:

Paragraph 1. Section 601.101 is amended by revising the last sentence of paragraph (d).

Par. 2. Section 601.105 is amended as follows:

1. Paragraph (b) (5) (v) (b) is revised by deleting "Income Tax Division or Miscellaneous and Special Provisions Tax Division" from the second sentence and

inserting in lieu thereof "Corporation Tax Division or Individual Tax Division".

2. Paragraph (b) (5) (v) (e) is revised by deleting "Director, Income Tax Division" and inserting in lieu thereof "Director, Corporation Tax Division", and by deleting "Director, Miscellaneous and Special Provisions Tax Division" and inserting in lieu thereof "Director, Individual Tax Division".

3. Paragraph (c) (2) (1) is revised by deleting "a thorough technical and procedural" from the second sentence and inserting in lieu thereof "appropriate".

4. Paragraph (c) (2) (iv) is revised.

5. Paragraph (c) (5) is revised.

6. A new paragraph (1) is added.

Par. 3. Section 601.106 is amended as follows:

1. The sixth sentence in paragraph (a) (1) is deleted.

2. Paragraph (a) (2) (iii) is revised.

3. A new sentence is added after the last sentence in paragraph (a) (3).

4. A new sentence is added immediately after the first sentence in that portion of paragraph (d) (3) (iii) as precedes paragraph (d) (3) (iii) (a).

5. The last sentence in paragraph (d) (3) (iii) (g) is revised.

Par. 4. Section 601.201 is amended as follows:

1. Paragraph (a) (2) is revised by deleting "Directors of the Income Tax Division and the Miscellaneous and Special Provisions Tax Division" from the third sentence and inserting in lieu thereof "Director, Corporation Tax Division and Director, Individual Tax Division".

2. Paragraph (e) (2) is revised.

3. Paragraph (e) (8) is revised by adding three new sentences immediately after the last sentence.

4. Paragraphs (e) (11) and (e) (12) are revised.

5. Paragraph (e) (13) is revised by deleting "Director, Income Tax Division" and inserting in lieu thereof "Director, Corporation Tax Division", and by deleting "Director, Miscellaneous and Special Provisions Tax Division" and inserting in lieu thereof "Director, Individual Tax Division".

6. Paragraph (e) (15) is revised by deleting "Income" from the fourth and fifth sentences and inserting in lieu thereof "Corporation".

7. A new paragraph (1) is added.

Par. 5. Section 601.204 is amended as follows:

1. Paragraph (a) is amended by revising the last sentence and adding three new sentences.

2. Paragraph (b) is amended by revising the last three sentences.

3. Paragraph (c) is amended by revising the last sentence.

Par. 6. Section 601.401 is amended by deleting "\$12,000" from the first sentence in paragraph (d) (1) and inserting in lieu thereof "\$13,200".

Par. 7. Section 601.402 is amended as follows:

1. Paragraph (a) (2) (ii) is revised.

2. Paragraph (e) (3) is amended by deleting "foreign cars," from the first sentence.

Par. 8. Section 601.403 is amended by deleting paragraph (a) (9) and redesignating paragraphs (a) (10) and (a) (11) as paragraphs (a) (9) and (a) (10), respectively.

Par. 9. Section 601.504 is revised by amending paragraph (b) (1) (ii).

Par. 10. Section 601.601 is amended as follows:

1. Paragraph (a) (1) is revised.  
2. The phrase "or the Director, as applicable," is deleted from the first sentence of paragraph (a) (2).

3. Paragraphs (d) (2) (iv) (e) and (d) (2) (iv) (f) are deleted, and paragraphs (d) (2) (iv) (g) and (d) (2) (iv) (h) are redesignated as paragraphs (d) (2) (iv) (e) and (d) (2) (iv) (f), respectively.

4. Paragraph (d) (3) is deleted.

Par. 11. Section 601.602(a) is amended. § 601.101 Introduction.

(d) *Application to Bureau of Alcohol, Tobacco and Firearms.* This part sets forth most of the procedural rules for the Bureau of Alcohol, Tobacco and Firearms. However, some of its procedural rules have been transferred to Part 71 of Title 27 of the Code of Federal Regulations (a portion of the Code of Federal Regulations exclusively devoted to alcohol, tobacco, firearms, and explosives matters). As used in this part, the terms "Alcohol, Tobacco, and Firearms Division", "assistant regional commissioner (alcohol, tobacco and firearms)", and "chief special investigator (alcohol, tobacco and firearms)" shall be construed as meaning respectively "Bureau of Alcohol, Tobacco and Firearms", "regional director, Bureau of Alcohol, Tobacco and Firearms", and "special agent-in-charge, Bureau of Alcohol, Tobacco and Firearms". Also, with regard to the administration and enforcement of the laws applicable to distilled spirits, wines, beer, cigars, cigarettes, cigarette papers and tubes, firearms, and explosives, the terms "assistant regional commissioner", "commissioner", and "Chief Counsel" used in Subpart C of this part, shall be construed as meaning respectively "regional director", "Director", and "Chief Counsel", the Bureau of Alcohol, Tobacco and Firearms. The term "internal revenue region" or "region" when used in connection with documents filed with, or matters handled by, a regional director, shall mean an Alcohol, Tobacco and Firearms Region. The seven ATF regions and their geographical compositions are listed in 27 CFR 71.22(b) (3) (ii).

§ 601.105 Examination of returns and claims for refund, credit or abatement; determination of correct tax liability.

(b) *Examination of returns.* . . .  
(5) *Technical advice from the National Office.*

(v) *Conference in the National Office.*

(b) A taxpayer is entitled, as a matter of right, to only one conference in the

National Office unless one of the circumstances discussed in (c) of this subdivision exists. This conference will usually be held at the branch level in the appropriate division (Corporation Tax Division or Individual Tax Division) in the office of the Assistant Commissioner (Technical), and will usually be attended by a person who has authority to act for the branch chief. In appropriate cases the examining officer may also attend the conference to clarify the facts in the case. If more than one subject is discussed at the conference, the discussion constitutes a conference with respect to each subject. At the request of the taxpayer or his representative, the conference may be held at an earlier stage in the consideration of the case than the Service would ordinarily designate. A taxpayer has no "right" of appeal from an action of a branch to the director of a division or to any other National Office official.

(e) A taxpayer or his representative desiring to obtain information as to the status of his case may do so by contacting the following offices with respect to matters in the areas of their responsibility:

Official:	Telephone numbers, (area code 202)
Director, Corporation Tax Division	964-4504 or 964-4505.
Director, Individual Tax Division	964-3767 or 964-3788.

(c) *District conference procedure.*

(2) *Field audit.* (i) If, at the conclusion of an examination, the taxpayer does not agree with the adjustments proposed by the examining officer, a complete examination report will be prepared fully explaining all proposed adjustments. Before the report or any invitation to a district Audit Division conference is sent to the taxpayer, the case file will be submitted to the district Review Staff for appropriate review. Following such review, the taxpayer will receive a copy of the examination report under cover of a transmittal letter (30-day letter) providing him with a detailed explanation of the available appeal procedure and requesting the taxpayer to inform the district director of his choice of action.

(iv) In cases involving proposed additional tax, proposed overassessment, or claimed refund in excess of \$2,500 for any year, when the nature or complexity of the unagreed issues is such that original consideration by the Appellate Division would result in the more expeditious resolution of the case, taxpayers will be invited to request initial consideration by the regional Appellate Division.

(5) *Settlement authority.* District conferees are authorized to consider and accept settlement proposals by taxpayers, subject to approval of Chief, Conference

Staff, Section Chief (Conference Staff), or Chief, Technical Branch (except in Manhattan District), as appropriate, in field and office audit cases when the total amount of proposed additional tax, proposed overassessment, or claimed refund does not exceed \$2,500 for any year. This authority includes the right to settle issues on a basis favorable to the taxpayer even though contrary to nonacquiescence in court decisions, revenue rulings, or interpretations of the Service as set forth in ruling letters issued to, or technical advice memorandums concerning, the taxpayer whose case is being considered by the district conferee.

(1) *Small Tax Court case referred to district Audit Divisions.* In a "small tax case" (as defined in Rule 171 of the Rules of Practice and Procedure of the U.S. Tax Court) in which a district director has issued the statutory notice of deficiency, the district Audit Division (unless regional counsel decides otherwise) attempts to resolve the case after service of the petition and before referral of the case to the Appellate Division. If possible, a conference will be arranged with petitioner in an attempt to resolve the issues of the case without trial. If the case has not been resolved within 60 days after the date of service of the petition (but not later than receipt of notification of placing the case on the trial calendar), it will be referred to the Appellate Division for disposition. A "small tax case" will also be referred to the Appellate Division for disposition in the event the district Audit Division determines that its efforts to resolve the case would be unavailing, that the petition was not timely filed, that the petition does not result from a statutory notice of deficiency, that the petition is not on behalf of all taxpayers involved in the notice, or that the petition does not cover all taxable years involved in the notice.

§ 601.106 Appellate functions.

(a) *General.* (1) There is provided in each region an Appellate Division with office facilities within the region. Unless they otherwise specify, taxpayers living outside the United States use the facilities of the Washington, D.C., branch office of the Appellate Division of the Mid-Atlantic Region. Subject to the limitations set forth in subparagraphs (2) and (3) of this paragraph, the Commissioner has delegated to certain officers of the Appellate Division of each region authority to represent the regional commissioner in his exclusive and final authority for the determination of Federal income, profits, estate, gift, or Chapter 42 tax liability (whether before or after the issuance of a statutory notice of deficiency) and for the determination of employment or certain Federal excise tax liability, in any case originating in the office of any district director situated in the region or in any case in which jurisdiction has been transferred to the region, in which the taxpayer requests Appellate consideration and submits a written protest, when required, to the

determination of liability made by that officer. A written protest is required if the total amount of proposed additional tax, proposed over-assessment, or claimed refund exceeds \$2,500 for any taxable period; or in an offer-in-compromise, if the tax, penalty, and assessed (but not accrued) interest sought to be compromised exceeds \$2,500 for any taxable period. A written protest is also required if no district conference is held regardless of the amount involved. If the statutory notice of deficiency was issued by a district director or the Director of International Operations, the Appellate Division may waive jurisdiction to the director who issued the statutory notice during the 90-day (or 150-day) period for filing petition with the Tax Court, except where criminal prosecution has been recommended and not finally disposed of or the statutory notice includes the ad valorem fraud penalty. After the filing of a petition in the Tax Court the Appellate Division continues to have exclusive jurisdiction of the case, subject to the provisions of subparagraph (2) of this paragraph. Subject to the exceptions and limitations set forth in subparagraph (2) of this paragraph, there is also vested in the Appellate Division of the region authority to represent the regional commissioner in his exclusive authority to settle (i) all cases docketed in the U.S. Tax Court and designated for trial at any place within the territory comprising the region and (ii) all docketed cases originating in the office of any district director situated within the region or in which jurisdiction has been transferred to the region, which are designated for trial at Washington, D.C., unless the petitioner resides in and his books and records are located or can be made available in the region which includes Washington, D.C.

(2) . . .  
(iii) Eliminate the ad valorem fraud penalty in any case under jurisdiction of the Appellate Division in which the penalty has been determined by the district office in connection with a tax year or period, or which is related to or affects such year or period, for which criminal prosecution against the taxpayer (or a related taxpayer involving the same transaction) has been recommended to the Department of Justice for willful attempt to evade or defeat tax, or for willful failure to file a return, except upon the recommendation or concurrence of the regional counsel; nor

(3) The authority vested in the Appellate Division does not extend to the determination of liability for any excise tax imposed by the following chapters of the 1954 Code (and the corresponding provisions of the 1939 Code): chapter 35 (relating to wagering); subchapter A of chapter 39 (relating to narcotic drugs and marijuana); subtitle E (relating to alcohol, tobacco, machine guns and certain other firearms); and subchapter D of chapter 78 (relating to certain import taxes) insofar as it relates to alcohol and tobacco. The authority vested in the Appellate Division also does not ex-

tend to determinations and/or related excise taxes involving employee plans and exempt organizations under the Employee Retirement Income Security Act of 1974.

(d) *Disposition and settlement of cases before the Appellate Division.* . . .

(3) *Cases docketed in the Tax Court.* . . .

(iii) If the deficiency notice in a case docketed in the Tax Court was not issued by the Appellate Division and no recommendation for criminal prosecution is pending, the case will be referred by the regional counsel to the Appellate Division for settlement as soon as it is at issue in the Tax Court. However, see § 601.105(1) for "small tax case" procedure before case is referred to Appellate Division. The settlement procedure shall be governed by the following rules:

(g) Upon receipt of the trial calendar, the regional counsel will address an appropriate letter to the taxpayer in each case on the calendar which has not been settled, or where the file has been retained by the Appellate Division, or in which the parties are not then negotiating a stipulation of facts. This letter will arrange or suggest a conference at an early date for the purpose of stipulating facts, as required by Rule 91 of the Rules of Practice and Procedure of the U.S. Tax Court, to clarify and, if possible, limit the issues.

§ 601.201 Rulings and determination letters.

(a) *General practice and definitions.*

(2) A "ruling" is a written statement issued to a taxpayer or his authorized representative by the National Office which interprets and applies the tax laws to a specific set of facts. Rulings are issued only by the National Office. The issuance of rulings is under the general supervision of the Assistant Commissioner (Technical) and has been largely redelegated to the Director, Corporation Tax Division and Director, Individual Tax Division. (See § 601.326 for rulings issued by the Bureau of Alcohol, Tobacco, and Firearms.)

(e) *Instructions to taxpayers.* . . .

(2) Each request for a ruling or a determination letter must contain a complete statement of all relevant facts relating to the transaction. Such facts include names, addresses, and taxpayer identifying numbers of all interested parties; the location of the district office that has or will have audit jurisdiction over the return or report of each party; a full and precise statement of the business reasons for the transaction; and a carefully detailed description of the transaction. In addition, true copies of all contracts, wills, deeds, agreements, instruments, and other documents involved in the transaction must be submitted with

the request. However, relevant facts reflected in documents submitted must be included in the taxpayer's statement and not merely incorporated by reference, and must be accompanied by an analysis of their bearing on the issue or issues, specifying the pertinent provisions. (The term "all interested parties" is not to be construed as requiring a list of all shareholders of a widely held corporation requesting a ruling relating to a reorganization, or a list of employees where a large number may be involved in a plan.) The request must contain a statement whether, to the best of the knowledge of the taxpayer or his representative, the identical issue is being considered by any field office of the Service in connection with an active examination or audit of a tax return of the taxpayer already filed or is being considered by a branch office of the Appellate Division. Where the request pertains to only one step of a larger integrated transaction, the facts, circumstances, etc., must be submitted with respect to the entire transaction. If the request is for an advance ruling under section 367 of the Code, see Revenue Procedure 68-23, 1968-1 C.B. 821. (Revenue Procedure 68-23 contains guidelines for taxpayers and their representatives in connection with requests for rulings under section 367.) If the request is for a ruling under section 351 of the Code, see Revenue Procedure 73-10, 1973-1 C.B. 760, and Revenue Procedure 69-19, 1969-2 C.B. 301. (Revenue Procedure 73-10 sets forth the information to be included in the request for a ruling under section 351, and Revenue Procedure 69-19 sets forth the conditions and circumstances under which an advance ruling will be issued under section 367 of the Code that an agreement which purports to furnish technical know-how in exchange for stock is a transfer of property within the meaning of section 351.) If the request is for a ruling under section 332, 334 (b) (1), or 334 (b) (2) of the Code, see Revenue Procedure 73-17, 1973-2 C.B. 465. (Revenue Procedure 73-17 sets forth the information to be included in the request for a ruling under section 332, 334(b)(1), or 334(b)(2).) If the request is for a ruling under section 302 or section 311, see Revenue Procedure 73-35, 1973-2 C.B. 490. (Revenue Procedure 73-35 sets forth the information to be included in the request for a ruling under sections 302 and 311.) If the request is for a ruling under section 346 (and its related sections, 331 and 336), see Revenue Procedure 73-36, 1973-2 C.B. 496. (Revenue Procedure 73-36 sets forth the information to be included in the request for a ruling under section 346, and its related sections, 331 and 336.) Original documents should not be submitted because documents and exhibits become a part of the Internal Revenue Service file which cannot be returned. If the request is with respect to a corporate distribution, reorganization, or other similar or related transaction, the corporate balance sheet nearest the date of the transaction should be sub-

mitted. (If the request relates to a prospective transaction, the most recent balance sheet should be submitted.)

(8) Any request for a ruling or an opinion or determination letter that does not comply with all the provisions of this paragraph will be acknowledged, and the requirements that have not been met will be pointed out. A request for a ruling or opinion letter addressed to the district director that does not comply with the provisions of this paragraph will be returned by the district director for completion prior to sending it to the National Office. If a request for a ruling or opinion letter addressed to the Commissioner of Internal Revenue is lacking essential information, the taxpayer or his representative will be advised that if the information is not forthcoming within a reasonable time, generally 30 days, the request will be closed by issuing a closing letter. If the information is received after mailing the closing letter, the request will be reopened and treated as a new request as of the date of the receipt of the essential information. Priority treatment of such request will be granted only in rare cases upon the approval of the Division Director.

(11) The Director, Corporation Tax Division, has responsibility for issuing rulings in areas involving the application of Federal income tax to taxpayers; those involving income tax conventions or treaties with foreign countries; those involving depreciation, depletion, and valuation issues; and those involving the taxable status of exchanges and distributions in connection with corporate reorganizations, organizations, liquidations, etc.

(12) The Director, Individual Tax Division, has responsibility for issuing rulings with respect to the application of Federal income tax to taxpayers (including individuals, partnerships, estates and trusts); areas involving the application of Federal estate and gift taxes including estate and gift tax conventions or treaties with foreign countries; areas involving certain excise taxes; the provisions of the Internal Revenue Code dealing with procedure and administration; and areas involving employment taxes.

(13) A taxpayer or his representative desiring to obtain information as to the status of his case may do so by contacting the following offices with respect to matters in the areas of their responsibility:

Telephone numbers (area code 202)	
Official:	
Director, Corporation Tax Division	964-4504 or 964-4505.
Director, Individual Tax Division	964-3787 or 964-3788.

(15) The taxpayer may, within 90 days after receipt of an adverse ruling letter under section 367 of the Code, protest the adverse determination by letter to the Assistant Commissioner (Technical). The Assistant Commissioner (Technical) will establish an ad hoc advisory board to consider each protest. The Assistant Commissioner will not be a member of the board but will be present at any conference granted. Neither the Director, Corporation Tax Division, the Chief, Reorganization Branch, nor any member of their staffs will be a member of the board. However, the Director, Corporation Tax Division, and Chief, Reorganization Branch, will be either present or represented at any conference granted. The board will consider all materials submitted in writing by the taxpayer and oral arguments presented at the conference. Whether or not a conference is granted, all protests will be considered by the board, which will make its recommendation to the Assistant Commissioner (Technical) for his decision. The specific procedures to be used by a taxpayer in protesting an adverse ruling letter under section 367 of the Code will be published from time to time in the Internal Revenue Bulletin (see, for example, Rev. Proc. 73-5, 1973-1 C.B. 751).

(b) *Alternative method of depletion.*—(1) In general. Section 1.613-4(d)(1)(i) of the regulations, adopted by T.D. 7170, March 10, 1972, provides that in those cases where it is impossible to determine a representative market or field price under the provisions of § 1.613-4(c), gross income from mining shall be computed by use of the proportionate profits method set forth in § 1.613-4(d)(4).

(2) *Exception.* An exception is provided in § 1.613-4(d)(1)(ii) where, upon application, the Office of the Assistant Commissioner (Technical) approves the use of an alternative method that is more appropriate than the proportionate profits method or the alternative method being used by the taxpayer.

(3) *Procedure.* The procedure for making application for approval to compute gross income from mining by use of an alternative method, other than the proportionate profits method; the conditions for approval and use of an alternative method; and other pertinent information with respect thereto, will be published from time to time in the Cumulative Bulletin (see, for example, Rev. Proc. 74-43, 1974-2 C.B. 496).

§ 601.204 Changes in accounting periods and in methods of accounting.

(a) *Accounting periods.* A taxpayer who changes his accounting period shall, before using the new period for income tax purposes, comply with the provisions of the income tax regulations relating to changes in accounting periods. In cases where the regulations require the tax-

payer to secure the consent of the Commissioner to the change, the application for permission to change the accounting period shall be made on Form 1128 and shall be submitted to the Commissioner of Internal Revenue, Washington, D.C. 20224, within the period of time prescribed in such regulations. See section 442 of the Code and regulations thereunder. If the change is approved by the Commissioner, the taxpayer shall thereafter make his returns and compute his net income upon the basis of the new accounting period. A request for permission to change the accounting period will be considered by the Corporation Tax Division. However, in certain instances, Form 1128 may be filed with the Director of the Internal Revenue Service Center in which the taxpayer files its return. See, for example, Rev. Proc. 66-13, 1966-1 C.B. 626; Rev. Proc. 66-50, 1966-2 C.B. 1260, and Rev. Proc. 68-41, 1968-2 C.B. 943. With respect to partnership adoptions, see § 1.706-1(b) of the Income Tax Regulations.

(b) *Methods of accounting.* A taxpayer who changes the method of accounting employed in keeping his books shall, before computing his income upon such method for purposes of income taxation, comply with the provisions of the income tax regulations relating to changes in accounting methods. The regulations require that, in the ordinary case, the taxpayer secure the consent of the Commissioner to the change. See section 446 of the Code and the regulations thereunder. Application for permission to change the method of accounting employed shall be made on Form 3115 and shall be submitted to the Commissioner of Internal Revenue, Washington, D.C. 20224, within 180 days after the beginning of the taxable year in which it is desired to make the change. Permission to change the method of accounting will not be granted unless the taxpayer and the Commissioner agree to the terms and conditions under which the change will be effected. The request will be considered by the Corporation Tax Division. However, in certain instances, Form 3115 may be filed with the Director of the Internal Revenue Service Center. See, for example, Rev. Proc. 74-11, 1974-1 C.B. 420.

(c) *Verification of changes.* Written permission to a taxpayer by the National Office consenting to a change in his annual accounting period or to a change in his accounting method is a "ruling". Therefore, in the examination of returns involving changes of annual accounting periods and methods of accounting, district directors must determine whether the representations upon which the permission was granted reflect an accurate statement of the material facts, and whether the agreed terms, conditions, and adjustments have been substantially carried out as proposed. An application, Form 3115, filed with the Director of the Internal Revenue Service Center is also subject to similar verification.

#### § 601.401 Employment taxes.

(d) *Special refunds of employee social security tax.* (1) An employee who receives wages from more than one employer during a calendar year may, under certain conditions, receive a "special refund" of the amount of employee social security tax (i.e., employee tax under the Federal Insurance Contributions Act) deducted and withheld from wages that exceed the following amounts: calendar years 1968 through 1971, \$7,800; calendar year 1972, \$9,000; calendar year 1973, \$10,800; calendar year 1974, \$13,200; calendar years after 1974, an amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) effective with respect to that year. An employee who is entitled to a special refund of employee tax with respect to wages received during a calendar year, and who is required to file an income tax return for such calendar year (or for his last taxable year beginning in such calendar year), may obtain the benefits of such special refund only by claiming credit for such special refund on such income tax return in the same manner as if such special refund were an amount deducted and withheld as income tax at source on wages.

#### § 601.402 Sales taxes collected by return.

(a) *General.* Sales taxes collected by return include the following:

(1) The retailers excise taxes, imposed by chapter 31 of the Code, with respect to:

Diesel fuel;  
Special motor fuels;  
Noncommercial aviation fuel.

(2) The manufacturers excise taxes, imposed by chapter 32 of the Code, with respect to the following items:

(i) Motor vehicles and related items: Certain heavy-duty trucks, buses, trailers, truck parts and accessories; tires, tubes, and tread rubber; gasoline and lubricating oil.

(ii) Recreational equipment:

Fishing rods, creels, and reels;  
Artificial lures, baits and flies;  
Bows and arrows;  
Pistols and revolvers;  
Other firearms, shells, and cartridges.

(e) *Registration and bonding requirements.*

(3) Every importer of trucks, buses, etc., taxable under chapter 32 of the Code must make application to the district director for the district in which he will file returns of the tax for

\* This sentence, as unchanged, was inserted in § 601.401(d)(1) in lieu of the first two sentences (in brackets) by an amendment published in the Federal Register on March 7, 1974, and does not yet appear in the bound volume of the Code of Federal Regulations. As indicated, the current amendments change the \$12,000 amount in this sentence to \$13,200.

a determination whether he is required to give bond securing the payment of the tax on his sales of such commodities. Detailed instructions as to the information required to be included in the application and the procedure to be followed by the importer are set forth in the applicable regulations. Form 3006 has been prescribed for the convenience of importers and may be obtained from the district director.

#### § 601.403 Miscellaneous excise taxes collected by return.

(a) *General.* Miscellaneous excise taxes collected by return include the following:

(9) *Hydraulic mining.* The act entitled "An Act to create the California Debris Commission and regulate hydraulic mining in the State of California," approved March 1, 1893, as amended (33 U.S.C. 661-687), imposes a tax with respect to certain hydraulic gold mining in the State of California.

(10) *Investment income.* Under chapter 42 of the Code a tax of 4 percent is imposed each taxable year on the net investment income of a domestic private foundation which is exempt from tax under section 501(a).

§ 601.504 Requirement for execution, attestation, acknowledgment or witnessing, and certification of copies, of power of attorney and tax information authorization.

(b) *Execution of a power of attorney or a tax information authorization.*—(1) *Ordinary cases.* A power of attorney or a tax information authorization must be executed as follows:

(ii) *Husband and wife.* In the case of any taxable year for which a joint return was made by husband and wife, by both husband and wife except that either spouse may sign for the other if such signature is duly authorized in writing by the other spouse; however, an execution of a power of attorney or a tax information authorization for purposes of inspecting a joint income tax return may be made by either the husband or the wife. See § 301.6103 (a)-(1) (c) (iii) of the Regulations on Procedure and Administration (26 CFR Part 301).

#### § 601.601 Rules and regulations.

(a) *Formulation.* (1) Internal revenue rules take various forms. The most important rules are issued as regulations and Treasury decisions prescribed by the Commissioner and approved by the Secretary or his delegate. Other rules may be issued over the signature of the Commissioner or the signature of any other official to whom authority has been delegated. Regulations and Treasury decisions are prepared in the Office of the Chief Counsel. After approval by the Commissioner, regulations and Treasury decisions are forwarded to the Secretary or his delegate for further consideration and final approval.

(2) Where required by 5 U.S.C. 553 and in such other instances as may be desirable, the Commissioner publishes in the Federal Register general notice of proposed rules (unless all persons subject thereto are named and either personally served or otherwise have actual notice thereof in accordance with law). This notice includes (i) a statement of the time, place, and nature of public rule-making proceedings; (ii) reference to the authority under which the rule is proposed; and (iii) either the terms or substance of the proposed rule or a description of the subjects and issues involved.

(d) *Publication of rules and regulations.*

(2) *Objectives and standards for publications of Revenue Rulings and Revenue Procedures in the Internal Revenue Bulletin.*

(iv) Informers and informers' rewards: (f) Disclosure of secret formulas, processes, business practices, and other similar information.

#### § 601.602 Forms and instructions.

(a) *Tax return forms and instructions.* Forms and instructions are developed by the Internal Revenue Service to explain the requirements of the internal revenue laws and regulations administered by the Internal Revenue Service and are issued for the assistance of taxpayers in exercising their rights and discharging their duties under the internal revenue laws. All internal revenue taxes which are not collected by stamps are assessed and collected through the self-determination and self-application of the law and the regulations by taxpayers. The tax return forms are the instruments through which this is accomplished.

(b) *Other forms and instructions.* In addition to the forms and instructions for the return of internal revenue taxes, the Internal Revenue Service provides other necessary or appropriate forms for assisting the public in complying with the technical requirements of the internal revenue laws and regulations administered by the Internal Revenue Service. The material contained in the forms and instructions, and the arrangements thereof, is carefully considered and is designed to lead the taxpayer step-by-step through an orderly accumulation of data to an accurate report of the information required.

(c) *Procurement of forms and instructions.* Copies of all necessary forms, and instructions as to their preparation and filing, may be obtained from district directors or directors of service centers. Descriptions of many of the forms and publications of the Internal Revenue Service for public use are contained in Publication No. 481, *Description of Principal Federal Tax Returns, Related Forms, and Publications* and Publication 676, *Catalogue of Forms, Form Letters, Notices*. Publication Nos. 481 and 676 may be purchased from the Superintendent

# PART 601—STATEMENT OF PROCEDURAL RULES

## Amendments Relating to Determination Letters of Employees' Plans and Trusts

**Preamble.** This document contains amendments to the Statement of Procedural Rules (26 CFR Part 601). The amendments relate to the renomination of interested parties when an application for determination is resubmitted, and the administrative remedies available to applicants, interested parties, and the Pension Benefit Guaranty Corporation.

Section 601.201 is amended by revising the last sentence of paragraph (c) (3) (xv) and paragraph (c) (11) to read as follows:

§ 601.201 *Rulings and determination.*

- (c) *Employees' trusts or plans.* . . .
- (3) *Instruction to taxpayer.* . . .
- (xv) . . . If, however, an application is returned to the applicant for failure to adequately satisfy the notification requirement with respect to a particular group or class of interested parties, the applicant need not cause notice to be given to those groups or classes of interested parties with respect to which the notice requirement was already satisfied merely because, as a result of the resubmission of the application, the time limitations of this paragraph (c) (3) (xv) would not be met.

(11) *Exhaustion of administrative remedies.* For purposes of section 7476 (b) (3), a petitioner shall be deemed to have exhausted the administrative remedies available to him in the Internal Revenue Service upon the completion of the steps described in paragraph (c) (11) (i), (ii), or (iii) of this section, subject, however, to paragraphs (c) (11) (iv) and (v) of this section. If an applicant, interested party, or the Pension Benefit Guaranty Corporation does not complete the applicable steps described below, such applicant, interested party, or the Pension Benefit Guaranty Corporation will not have exhausted available administrative remedies as required by section 7476 (b) (3) and will thus be precluded from seeking a declaratory judgment under section 7476 except to the extent that paragraph (c) (11) (iv) (b) or (v) of this section applies.

(i) The administrative remedies of an applicant with respect to any matter relating to the qualification of a plan are:

(a) Filing a completed application with the appropriate district director pursuant to paragraphs (c) (3) (iii) through (xii) of this section;

(b) Compliance with the requirements pertaining to notice to interested parties as set forth in paragraphs (c) (3) (xiv) through (c) (3) (xxi) of this section;

(c) An appeal to the Office of the Assistant Regional Commissioner (EP/EO) pursuant to paragraph (c) (6) of this section, in the event of a notice of proposed adverse determination from the district director; and

(d) A request for National Office consideration pursuant to paragraph (c) (7) of this section, in the event the Assistant Regional Commissioner (EP/EO) upholds the proposed adverse determination.

(ii) The administrative remedy of an interested party with respect to any matter relating to the qualification of the plan is submission to the district director of a comment raising such matter in accordance with paragraph (c) (5) (i) (a) of this section or requesting the Department of Labor to submit to the district director a comment with respect to such matter in accordance with paragraph (c) (5) (i) (b) of this section, and, if such department declines to comment, submission of such a comment in accordance with paragraph (c) (5) (i) (c) of this section, so that such comment may be considered by the Internal Revenue Service through the administrative process.

(iii) The administrative remedy of the Pension Benefit Guaranty Corporation with respect to any matter relating to the qualification of the plan is submission to the district director of a comment raising such matter in accordance with paragraph (c) (5) (i) (a) of this section or requesting the Department of Labor to submit to the district director a comment with respect to such matter in accordance with paragraph (c) (5) (i) (b) of this section, and, if such department declines to comment, submission of such a comment to the Internal Revenue Service directly, so that such comment may be considered by the Internal Revenue Service through the administrative process.

(iv) An applicant, or an interested party, or the Pension Benefit Guaranty Corporation shall in no event be deemed to have exhausted his (its) administrative remedies prior to the earlier of:

(a) The completion of all the steps described in paragraph (c) (11) (i), (ii), or (iii) of this section, whichever is applicable, subject, however, to paragraph (c) (11) (v), or

(b) The expiration of the 270 day period described in section 7476 (b) (3), in a case where the completion of the steps referred to in paragraph (c) (11) (iv) (a) of this section shall not have occurred before the expiration of such 270 day period because of the failure of the Internal Revenue Service to proceed with due diligence.

The steps described in paragraph (c) (11) (i) (c) and (d) of this section will not be considered completed until the Internal Revenue Service has had a reasonable time to act upon the appeal or request for consideration, as the case may be. In addition, the administrative remedies described in paragraphs (c) (11) (ii) and (iii) will not be considered completed until the Internal Revenue

Service has had a reasonable time to consider the comments submitted pursuant to such paragraphs at each step of the administrative process described in paragraph (c) (11) (i).

(v) The administrative remedies described in paragraphs (c) (11) (i) (c) and (d) of this section will not be available to an applicant with respect to any issue on which technical advice from the National Office has been obtained.

DONALD C. ALEXANDER,  
Commissioner.

## Title 29—Labor

### SUBTITLE A—OFFICE OF THE SECRETARY

#### PART 97a—JOB CORPS PROGRAM UNDER TITLE IV OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

##### Changes of Titles, Spelling Corrections and Editorial Changes

Notice is hereby given that the Department of Labor, Employment and Training Administration is amending 29 CFR Part 97a—Job Corps Program Under Title IV of the Comprehensive Employment and Training Act. The changes consist of spelling corrections, title changes required by Secretary's Order 14-75 (40 FR 54485) which changed the name of the Manpower Administration to the Employment and Training Administration, and a couple of editorial amendments.

Since none of these changes are substantive in nature, consisting of only spelling corrections, changes of title and editorial amendments, proposed rulemaking is not required by the Administrative Procedures Act. This document, therefore, shall become effective by June 21, 1976.

Accordingly, the following changes are made to 29 CFR Part 97a:

1. Throughout the Part, the acronym "MA" is changed to the acronym "ETA".

2. In the table of contents for Part 97a, a spelling correction is made so that the title of § 97a.21 should read: "97a.21 Eligibility for funds and eligible deliverers."

3. In § 97a.10 *Definitions*, all paragraph letters from (a) through (sss) are deleted.

4. In § 97a.10 *Definitions*, the definition of "ARDM" is deleted.

5. In § 97a.10 *Definitions*, following the definition of "Eligible deliverer", the following definition is inserted: "ETA". The Department of Labor, Employment and Training Administration.

6. In § 97a.10 *Definitions*, subparagraph (1) of the definition of "Disruptive home life", the spelling of the word "orphange" is corrected to read "orphanage".

7. In § 97a.10 *Definitions*, the definition of "MA" is deleted.

8. In § 97a.10 *Definitions*, following the definition of "Region", the following

definition is inserted: "Regional Administrator, Employment and Training Administration, (RA)". The chief ETA official in each DOL regional office.

9. In § 97a.10 *Definitions*, in the definition of "Regional office", the phrase "Manpower Administration" is changed to "ETA".

10. In § 97a.22 *Funding procedures*, paragraph (d), the acronym "ARDM" is changed to "RA".

11. In § 97a.71 *Death*, paragraph (d), the word "Workmen's" is changed to "Workers".

12. In § 97a.86 *Federal employee's compensation*, paragraph (g), the word "Worker's" is changed to "Workers".

13. In § 97a.95 *Right to privacy*, paragraph (b) (2), the citation "§ 97a.10 (ppp)" is changed to "§ 97a.10".

14. In § 97a.97 *Disciplinary procedures and appeals*, paragraph (a) (2), the citation "§ 97a.10 (qqq)" is changed to "§ 97a.10".

15. In § 97a.119 *Property management and procurement*, paragraph (b), the word "Manpower" is changed to "Employment and Training".

AUTHORITY: Sec. 702(a) of the Comprehensive Employment and Training Act of 1973, as amended (Pub. L. 93-203, 87 Stat. 839; Pub. L. 93-567, 88 Stat. 1845), S.O. 14-75 (40 FR 54485).

Signed at Washington, D.C., this 17th day of May 1976.

WILLIAM H. KOLBERG,  
Assistant Secretary for  
Employment and Training.

[FR Doc.76-14952 Filed 5-20-76;8:45 am]

## CHAPTER XXVI—PENSION BENEFIT GUARANTY CORPORATION

### PART 2611—VALUATION OF PLAN ASSETS

#### Standards for Individuals

##### Correction

In FR Doc. 76-13425, appearing on page 18991, in the issue of Friday, May 7, 1976, the following changes are made:

1. On page 18991, the cover page, "Plan Benefits" is changed to "Plan Assets".

2. On page 18992, the subject heading following Part 2611—Valuation of Plan Assets, which reads "Standards for Individuals" is changed to "Standards for Terminated Plans".

## Title 43—Public Lands: Interior CHAPTER II—BUREAU OF LAND MANAGEMENT; APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5584; F-15306 Anch.]

### ALASKA

#### Amendment of Public Land Order No. 5179

By virtue of the authority vested in the Secretary of the Interior by sec. 22(h) of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, 709, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

## RULES AND REGULATIONS

1. Public Land Order No. 5179 of March 9, 1972, as amended, is hereby modified by deleting the following described lands from said order:

KATEEL RIVER MERIDIAN  
(PROTRACTED DESCRIPTION)

Tps. 27 and 28 S., R. 8 E.

2. The lands described in paragraph 1 of this order were originally withdrawn under sections 17(d) (1) and 17(d) (2) of the Alaska Native Claims Settlement Act in Public Land Order No. 5179. They were further withdrawn under section 17(d) (1) in Public Land Order No. 5186 of March 15, 1972, but left open to State selections. Since these lands were not recommended to Congress on December 18, 1973, the section 17(d) (2) withdrawal of Public Land Order No. 5179 expired as of that date. The purpose of this order is to relieve the lands of the 17(d) (1) withdrawal of Public Land Order No. 5179, thus leaving the said lands subject only to the terms and conditions of Public Land Order No. 5186.

Dated: May 14, 1976.

JACK O. HORTON,  
Assistant Secretary of the Interior.

[FR Doc.76-14880 Filed 5-20-76;8:45 am]

## Title 50—Wildlife and Fisheries

### CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

#### PART 240—REGULATED COMMERCIAL FISHERIES

##### Herring and Mackerel

On March 11, 1976, there was published in the FEDERAL REGISTER (41 FR 10451) a notice of proposed rulemaking setting forth the proposed catch quotas for herring in the Subarea 5 and Statistical area 6 in the ICNAF Convention Area of the Northwest Atlantic, procedure to determine the incidental take of herring and mackerel, and an amendment to Appendix I, "Optional Settlement Agreement Form." Interested persons were given the opportunity to submit, not later than April 1, 1976, data, views, and recommendations regarding the notice.

No comments have been received, and the proposed amendments are hereby adopted without change.

Effective date: May 21, 1976.

Signed at Washington, D.C. on May 18, 1976.

JACK W. GEHRINGER,  
Deputy Director, National  
Marine Fisheries Service.

The proposed amendments to Subpart E are described below:

1. Amend paragraphs (2) and (3) and add new paragraphs (4) and (5) of § 240.41(a) to read as follows:

§ 240.41 *Catch quota.*

(a) (1) . . .

(2) The annual catch of herring by persons or fishing vessels fishing in Division 5Y of Subarea 5 shall not exceed 6,000 metric tons.

(3) The catch of herring for the period January 1 to June 30, 1976 by persons or fishing vessels fishing in Division 5Z of Subarea 5 and Statistical Area 6, shall not exceed 9,400 metric tons.

(4) A directed fishery for herring in Division 5Z of Subarea 5 and Statistical Area 6 shall be prohibited from January 1 to June 30, 1976, except with purse seiners or vessels of less than 110 ft. (33.5 meters).

(5) A person fishing for other species in Division 5Z of Subarea 5 and Statistical Area 6 may have in possession on board (either at sea or at the time of off-loading) herring in amounts not to exceed 7.5 percent by weight of all fish on board. Should it be observed during an inspection under the Scheme of Joint International Enforcement that a vessel is taking herring in amounts greater than that permitted during the first seventy-two hours of fishing since entering the fishery within the areas specified in paragraph (4), the inspector shall note this fact on the inspection report and bring it to the attention of the Master.

2. Amend paragraphs (b) and (d) of § 240.46 to read as follows:

§ 240.46 *Size limits.*

(b) A person on any trip may take herring less than 9 inches (22.7 cm), measured as specified in paragraph (a) of this section: Provided that the total amount taken does not exceed 10 percent by weight or 25 percent by count of all herring on board the vessel caught in the areas specified in paragraph (a) above which can be identified as to size at the time of inspection. Should it be observed during an inspection under the Scheme of Joint International Enforcement that a vessel is taking herring less than 9 inches (22.7 cm) in excessive amounts during the first forty-eight hours of fishing, since entering the fishery within the areas specified in paragraph (a), the inspector shall note this fact on the inspection report and bring it to the attention of the Master.

(d) A person on any trip may take mackerel less than 10 inches (25 cm) measured as specified in paragraph (c) of this section provided: that the total amount taken does not exceed 10 percent by weight or 25 percent by count of all mackerel on board the vessel caught in the areas specified in paragraph (c) which can be identified as to size at the time of the inspection. Should it be observed during an inspection under the Scheme of Joint International Enforcement that a vessel is taking mackerel less than 10 inches (25 cm) in excessive amounts during the first forty-eight hours of fishing since entering the fishery within the areas specified in paragraph (c), the inspector shall note this fact on the inspection report and bring it to the attention of the Master.

3. Add new item 10 in Appendix I "Optional Settlement Agreement Form" to read as follows:

10. Notwithstanding the provisions of paragraphs 4(a) and 8(b) above, the master or person in charge of a vessel may take and possess on board a fishing vessel at any time, settlement fish in the amounts up to . . . . . pounds caught in Division 4X of Subarea 4 (Browns Bank) provided:

(a) The master or person in charge of the vessel contacts CG radio or a CG fishery inspection vessel which may be on the scene once each day (1900 hours local time) and provides:

(1) Pounds of settlement fish taken within the previous 24 hour period from Division 4X of Subarea 4.

(2) Position at time of radio contact in latitude and longitude or Loran bearing.

(b) The master or person in charge of the vessel contacts CG radio as provided in subparagraph (a) and informs them of his arrival or departure from the fishing grounds within Division 4X of Subarea 4, and of his intent to fish elsewhere prior to landing that trip.

(c) If the total quantity of settlement fish taken in Division 4X of Subarea 4 does not exceed the amount specified and the provision of subparagraphs (a) and (b) are adhered to, then the Regional Director agrees to waive the provisions of paragraphs 4 and 8(b).

(d) The provisions of the paragraph shall remain in force during the period . . . . . 1976 or until the quota for Division 4X of Subarea 4 as set forth in Subpart B—Groundfish Fisheries Paragraph 240.11(a)(1) is taken. When the quota is attained or anticipated to be caught or failure of the vessel owner(s) to comply with the terms of the agreement, the provisions of paragraph 9 will apply.

[FR Doc. 76-14898 Filed 5-20-76; 8:45 am]

#### Title 7—Agriculture

### CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

#### PART 724—FINE-CURED, DARK AIR-CURED, VIRGINIA SUN-CURED, CIGAR-BINDER (TYPES 51 & 52), AND CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54 AND 55) TOBACCO

##### Termination of Cigar-Binder (Types 51 & 52) Tobacco Quotas—1976-1977 Marketing Year

**Basis and purpose.** Section 724.36 is issued pursuant to, and in accordance with, the Agricultural Adjustment Act of 1938, as amended, hereinafter referred to as the "Act," to proclaim (1) that the operation of farm marketing quotas in effect on cigar-binder (types 51 & 52) tobacco for the 1976-77 marketing year will cause the amount of such kind of tobacco which is free of marketing restrictions to be less than the normal supply of such kind of tobacco, and (2) the termination of existing marketing quotas for such kind of tobacco for the 1976-77 marketing year.

The material previously appearing in this section under centerhead Termination of Quotas—1975-76 Marketing Year remains in full force and effect as to the crop to which it was applicable.

A notice that an investigation was to be made to determine the existence of

the fact stated in (1) above, and if such fact was found to exist, the actions to be taken with respect to an increase in or termination of marketing quotas on cigar-binder (types 51 & 52) tobacco for the 1976-77 marketing year was published in the FEDERAL REGISTER on April 20, 1976 (41 FR 16558). In such notice interested persons were given the opportunity for a hearing and to submit data, views, and recommendations pertaining to the investigation and action to be taken on the basis thereof. No submissions were received pursuant to such notice.

The notice referred to above contained the latest available statistics of the Federal Government pertaining to the normal supply, total supply, and prospective supply of cigar-binder (types 51 & 52) tobacco for the 1976-77 marketing year. On the basis of the investigation which has been made, it has been determined that the operation of farm marketing quotas on cigar-binder (types 51 & 52) tobacco for the 1976-77 marketing year will cause the amount of such tobacco which is free of marketing restrictions to be less than normal supply of such kind of tobacco, and that farm marketing quotas on such kind of tobacco for the 1976-77 marketing year should be terminated.

Accordingly, 7 CFR § 724.36 is revised to read as follows:

§ 724.36 Cigar-binder (types 51 & 52) tobacco.

It has been determined that the operation of farm marketing quotas in effect on cigar-binder (types 51 & 52) tobacco for the 1976-77 marketing year will cause the amount of such kind of tobacco which is free of marketing restrictions to be less than the normal supply of such kind of tobacco, and farm marketing quotas for the 1976-77 marketing year for such kind of tobacco are hereby terminated.

This document constitutes a substantive rule which relieves marketing quota restrictions, and producers of cigar-binder tobacco, who are preparing to plant their 1976 crop, need to know immediately the provisions hereof. Accordingly, this document shall become effective on May 21, 1976.

(Secs. 371, 375, 52 Stat. 64, as amended, 66, as amended; 7 U.S.C. 1371, 1375.)

Signed at Washington, D.C. on: May 17, 1976.

KENNETH E. FRICK,  
Administrator, Agricultural Stabilization and Conservation Service.

### CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

[FmHA Instruction 1980-E]

#### PART 1980—GUARANTEED LOAN PROGRAMS

##### Business and Industrial Loan Program

The general provisions for Business and Industrial Loans contained in Sub-

part E of Part 1980, Title 7, Chapter XVIII, (40 FR 57643; 41 FR 11807), are amended to identify Administrative provisions which follow appropriate sections of the regulation, allow delegation of administrative duties, and to allow different interest rates on the guaranteed and unguaranteed portions of the loan to provide a more marketable loan. Since these amendments lessen some of the restrictions contained in the processing and servicing of guaranteed and insured loans which will be beneficial to both loan applicants and lenders without imposing any additional burden on such applicants and lenders, notice and public procedure thereon, are unnecessary. However, any comments on this amendment may be submitted to the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, South Building, Washington, D.C. 20250, on or before June 21, 1976. Until such time as further changes are made on the basis of the comments thus received, or otherwise, these amendments shall remain in effect.

Subpart E of Part 1980 is amended by revising various sections as follows:

1. Section 1980.401 is amended by adding paragraph (d) as follows:

§ 1980.401 Introduction.

(d) Throughout this regulation there appear administrative provisions for the State Director, District Director, and County Supervisor. These sections establish the internal duties, responsibilities and procedures to carry out the requirements of the program. These provisions are identified as "Administrative" and follow appropriate sections of this subpart.

2. Section 1980.423 is amended by adding paragraphs (a) (3) and (4) as follows:

§ 1980.423 Interest rates.

(a) . . . . .  
(3) It is permissible to have one interest rate on the guaranteed portion of the loan and another interest rate on the unguaranteed portion of the loan, provided the lender and borrower agree and:

(i) The rate on the unguaranteed portion does not exceed that currently being charged on loans of similar size and purpose for borrowers under similar circumstances.

(ii) The rate on the guaranteed portion of the loan will not exceed the rate on the unguaranteed portion.

(4) When multi-rates are used the lender will provide FmHA with the overall effective interest rate for the entire loan.

3. In § 1980.424, paragraph (a) is amended by deleting the last sentence.

4. In "General Administrative" following §§ 1980.496-1980.500 (Reserved), the first paragraph is lettered (A) without change; a new paragraph (B) is added, and reads as follows:

GENERAL ADMINISTRATIVE

(A) Office of the General Counsel (OGC):

(B) Delegation of Authority: The State Director may delegate to his staff those administrative duties and responsibilities stipulated in the Administrative sections of this subpart.

AUTHORITY: 7 U.S.C. 1989 delegation of authority by the sec. of Agric., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70.

Effective date: May 21, 1976.

Dated: May 7, 1976.

FRANK B. ELLIOTT,  
Administrator,  
Farmers Home Administration.

[FR Doc. 76-14893 Filed 5-20-76; 8:45 am]

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Regulation 40]

#### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

##### Limitation of Handling

###### PREAMBLE

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period May 23-29, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.340 Lemon Regulation 40.

(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of

the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is easier early this week due to continuing cool and rainy weather in most major markets compared to \$1 per carton the previous carton the week ended May 15, 1976, compared to \$6.41 per carton the previous week. Track and rolling supplies at 175 cases were up 21 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to

effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 18, 1976.

(b) Order. (1) The quantity of lemons grown in California and Arizona which may be handled during the period May 23, 1976, through May 29, 1976, is hereby fixed at 300,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: May 19, 1976.

CHARLES R. BRADER,  
Director, Fruit and Vegetable  
Division, Agricultural Marketing Service.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[ 24 CFR Part 1917 ]

[Docket No. FI-1123]

## APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determination for the City of Cumberland, Harlan County, Kentucky

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.4(a)) hereby gives notice of his proposed determinations of flood elevations for the City of Cumberland, Harlan County, Kentucky.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the

Bulletin Board at Cumberland City Hall, 414 West Main Street, Cumberland.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mr. F. N. Hazen, Mayor, 414 West Main Street, Cumberland, Kentucky 40823. The period for comment will

be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or August 19, 1976, whichever is the later.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right

## APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determination for the Borough of Camp Hill, Cumberland County, Pennsylvania

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)) hereby gives notice of his proposed determinations of flood elevations for the Borough of Camp Hill, Cumberland County, Pennsylvania.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to partic-

ipate in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Bulletin Board in the Borough Building, 2201 Market Street, Camp Hill.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor D. Stoner Dietz, 2201 Market Street, Camp Hill, Pennsylvania 17011. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or August 19, 1976, whichever is the later.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream

[ Docket No. FI-1107 ]

**APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW****Proposed Flood Elevation Determination for the City of Devine, Medina County, Texas**

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)) hereby gives notice of his proposed determinations of flood elevations for the City of Devine, Medina County, Texas.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order

to participate in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Lobby, City Hall, 303 South Teel Drive, Devine.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mr. Paul J. Schott, City Secretary, 303 South Teel Drive, Devine, Texas 78016. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or August 19, 1976, whichever is the later.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Burnt Boot Creek.....	Colonial Ave. (extended).....	658	170	400
	Fay Ave.....	654	940	120
	McAnnely Ave.....	645	1,200	170
	Thompson Ave. (extended).....	638	600	220
	Webb Ave. (extended).....	634	260	1,120

<sup>1</sup> To corporate limits.

PROPOSED RULES

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 28, 1976.

J. ROBERT HUNTER,  
Acting Federal Insurance  
Administrator.

[Docket No. FI-1106]

APPEALS FROM FLOOD ELEVATION  
DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations  
for the Village of Bayside, Wisconsin

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)), hereby gives notice of his proposed determinations of flood elevations for the Village of Bayside, Wisconsin.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood In-

surance Program, the Village of Bayside must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Village Hall, 9075 North Regent Road, Milwaukee, Wisconsin 53217.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mr. Richard Glaisner, Village President, 9075 North Regent Road, Milwaukee, Wisconsin 53217. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Fish Creek.....	1,300 ft downstream of Chicago and northwest railroad culvert.	617	45	60
	500 ft upstream of Chicago and north- west railroad culvert.	642	60	135
Tributary of Fish Creek.	East of West Duane Court.....	642	25	120
	Jonathan Lane (extension of).....	642	85	165

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 28, 1976.

APPEALS FROM FLOOD ELEVATION  
DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determination for  
the City of Sheboygan, Sheboygan  
County, Wisconsin

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)), hereby gives notice of his proposed determinations of flood elevations for the City of Sheboygan, Sheboygan County, Wisconsin.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to

participate in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the lobby of City Hall, 828 Center Avenue, Sheboygan.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Richard Fuscha, 828 Center Avenue, Sheboygan, Wisconsin 53081. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community or August 19, 1976, whichever is the later.

#### BLACK LUNG DISEASE

#### Claims for Disability or Death Benefits Correction

In FR Doc. 76-13378, appearing on page 18868 of the issue of Friday, May 7, 1976, the closing date for submission of comments was incorrectly printed as "May 20, 1976". The date should read "June 7, 1976".

## CIVIL AERONAUTICS BOARD

#### [ 14 CFR Part 372a ]

[SPOR-44; Docket 28063; Dated May 18, 1976]

### POST-FLIGHT ACCOUNTING REPORTS

#### Proposed Elimination of Requirement

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to Part 372a of the Special Regulations (14 CFR Part 372a) which would eliminate the requirement for the post-flight accounting report now required by § 372a.30 of Part 372a in cases where no more than the minimum pro rata charter price specified in the charter contract has been charged to the TGC participants.

The principal features of the proposed amendment are described in the attached Explanatory Statement and the proposed amendments are set forth in the Proposed Rule. The amendments are proposed under authority of sections 101, 204, 401, 402, 407 and 416 of the Federal Aviation Act of 1958, as amended (72 Stat. 737 (as amended), 743, 754 (as amended), 757, 766 and 771; 49 U.S.C. 1301, 1324, 1371, 1372, 1377 and 1386).

Interested persons may participate in the proposed rulemaking through submission of twenty (20) copies of written data, views or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before June 21, 1976, will be con-

sidered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., upon receipt thereof.

Individual members of the general public who wish to express their interest as consumers by participating informally in this proceeding may do so through submission of comments in letter form to the Docket Section at the address indicated above, without the necessity of filing additional copies thereof.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,  
Acting Secretary.

#### EXPLANATORY STATEMENT

On July 10, 1975, a rulemaking petition was filed by Overseas Charter-A-Flight ("Overseas") in Docket 28063 seeking consideration of an amendment to Part 372a of our Special Regulations (14 CFR Part 372a) to eliminate, in certain cases, the need for Travel Group Charter (TGC) organizers to submit the post-flight accounting report required by § 372a.30 of the TGC rule. More precisely, petitioner seeks the elimination of the report in all situations where there has no increase in the price charged to TGC participants, and in which each of them had been so advised by the 45th day prior to the originating flight. In support of its request, Overseas alleges that in many of its TGC's the tentative adjusted pro rata price (which the TGC rule requires to be specified no later than 45 days prior to the scheduled departure date) has in fact been the same as the final price. In these circumstances, Overseas claims, the post-flight accounting requirement has not only created an unnecessary paperwork burden, but has also caused confusion among participants resulting in additional time being spent in explaining the purpose of the report.

Upon consideration of Overseas' petition, we have determined to institute public rulemaking procedures to consider a proposed rule which would grant its petition in large part. We will not, however, propose a rule which would eliminate the requirement for post-flight accounting reports in all cases in which there has been no pro rata price increase subsequent to the payment of the tentative adjusted price. Under our TGC rule, the "adjusted" price may be more than the "minimum" price, and, indeed, even the initial payment may exceed the minimum pro rata charter price, so that the post-flight report thus remains necessary to advise participants whether or not a refund is due. However, we are tentatively persuaded that, in situations where no more than the minimum pro rata charter price (as defined in § 372a.14(a)) has been received from the TGC participants, there appears to be no valid reason for requiring the organizer to submit a post-flight report to the participants. In such situations each participant will already have been advised that the minimum pro rata charter price is identical to the adjusted pro rata charter price (as defined in § 372.14 (c)), and neither an increase nor a decrease in price can subsequently result.

The proposed amendment would thus retain this consumer protection feature in our existing TGC rule for participants requiring such protection, but allow a reduction in paperwork and other expense for TGC organizers when the preparation of the report would serve no useful purpose.

It is proposed to amend Part 372a of the Special Regulations (14 CFR Part 372a) as follows:

1. Revise § 372a.30 to read as follows:

§ 372a.30 Post-flight accounting report.

In all cases in which the charter participants have paid any amount in excess of the minimum pro rata charter price (as defined in § 372a.14(a)) to the charter organizer, the charter organizer shall submit a post-flight accounting report to each charter participant no later than 10 days following the completion of the charter. The post-flight accounting report shall be in the form prescribed in Appendix C, and shall set forth the final adjusted pro rata price, which shall take into account all payments made by charter participants subsequent to the date on which the tentative adjusted price was computed. Any refunds due to participants shall be forwarded with the post-flight accounting report.

2. Revise the first sentence of the instructions to Appendix C to Part 372a to read as follows:

#### APPENDIX C

#### POST FLIGHT ACCOUNTING REPORT

#### INSTRUCTIONS

When charter participants have paid an amount in excess of the minimum adjusted pro rata charter price, each charter participant shall be furnished a report in this form no later than 10 days following completion of the charter.

## ENVIRONMENTAL PROTECTION AGENCY

#### [ 40 CFR Part 52 ]

[FRL 546-1]

#### NEW JERSEY

#### Proposed Revision of the New Jersey Implementation Plan

New Jersey has submitted a proposed revision to the New Jersey implementation plan, which was received by the Region II Office, on April 27, 1976. The revision request was submitted in accordance with all applicable EPA requirements as contained in 40 CFR Part 51, and consists of the following:

(a) An amended State regulation, N.J.A.C. 7:27-9.1 et seq. entitled, "Sulfur in Fuel;" and

(b) A technical justification supporting the amended regulation.

The amendments to N.J.A.C. 7:27-9.1 accomplish the following:

TABLE 1-- Proposed sulfur in fuel limitations

Source	Location	Percent sulfur by weight	
		Existing limitation	Proposed limitation
National Bottle Corp.	Salem City, Salem County	0.3	2.0
E. I. du Pont de Nemours & Co.	Deepwater, Salem County	3	1.5
Heinz U.S.A.	Salem City, Salem County	3	2.0
B. F. Goodrich Chemical Co.	Pedricktown, Salem County	3	1.5
Anchor Hocking Corp.	Salem City, Salem County	3	2.0
Atlantic City Electric, Deepwater Station	Penns Grove, Salem County	3	1.5
E. I. du Pont de Nemours & Co.	Carney's Point, Salem County	3	1.5
Mannington Mills, Inc.	Salem City, Salem County	3	2.0
Atlantic City Electric, B. L. England Station	Beesley Point, Cape May County	1.0	2.0
Kerr Glass Manufacturing Corp.	Millville City, Cumberland County	1.0	2.5
Owens Illinois, Inc., Kimble Products Division	Vineland City, Cumberland County	1.0	2.5
Leone Industries	Bridgeton, Cumberland County	1.0	2.5
Owens Illinois, Inc.	Bridgeton City, Cumberland County	1.0	2.5
Progresso Food Corp.	Vineland City, Cumberland County	1.0	2.5
Bridgeton Dyeing and Finishing Corp.	Bridgeton City, Cumberland County	1.0	2.5
Whitehead Bros. Co.	Haleville, Cumberland County	1.0	2.5
Vineland Chemical Co.	Vineland City, Cumberland County	1.0	2.5

The control strategy demonstration submitted by the State shows through the use of a diffusion analysis that the amended regulations will not cause a contravention of national ambient air quality standards for sulfur oxides. The control strategy demonstration consists of the following:

(1) A sulfur oxide analysis for Salem County,

(2) A sulfur oxide analysis for Cumberland County, and

(3) A sulfur oxide analysis for Atlantic City Electric Generating Station, Cape May County.

The Regional Office's preliminary analysis of the control strategy demonstration has led to the conclusion that the document is deficient as it relates to certain facilities. The analysis neglected to consider potential aerodynamic downwash effects in the diffusion analysis. The criteria used to screen candidates for potential aerodynamic downwash is the stack height to building height ratio; the building height is the height of the highest building within a distance of three stack lengths from the stack. The presence of aerodynamic downwash may, under certain meteorological conditions, cause elevated sulfur oxide concentrations in areas of close proximity of the facility. The potential for aerodynamic downwash was indicated at the following sources: Owens-Illinois (Bridgeton);

1. It revises the applicable sulfur in fuel limitation from 0.3%, by weight, to 2.0%, by weight, for four facilities in Salem County;

2. It revises the applicable sulfur in fuel limitation from 0.3%, by weight, to 1.5%, by weight, for four other facilities in Salem County;

3. It revises the applicable sulfur in fuel limitation from 1.0%, by weight, to 2.5%, by weight, for eight facilities in Cumberland County; and

4. It revises the applicable sulfur in fuel limitation from 1.0%, by weight, to 2.0%, by weight, for one facility in Cape May County.

These amendments are scheduled to expire six months from the date of EPA approval.

The list of facilities, their location and the proposed sulfur in fuel limitations are presented in Table 1.

Copies of the proposed plan revision are available for public inspection during normal business hours at the Air Branch, EPA, Region II, 26 Federal Plaza, New York, New York 10007, and at the New Jersey Department of Environmental Protection, Trenton, New Jersey 08625. Additional copies are available for inspection at the Public Information Research Unit, 401 M Street, S.W., Washington, D.C. 20460. All comments should be addressed to the Regional Administrator, Environmental Protection Agency, Region II, 26 Federal Plaza, New York, New York 10007.

Dated: May 14, 1976.

G. M. HANSLER,  
Regional Administrator,  
Environmental Protection Agency.

## FEDERAL HOME LOAN BANK BOARD

#### [ 12 CFR Part 563 ]

[No. 76-347]

#### INSURANCE OF ACCOUNTS

#### Loans to One Borrower

#### SUMMARY

MAY 14, 1976.

The following summary of the amendment proposed by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulations.

I. Existing Regulations—limit the amount that an insured institution may loan on the security of real estate to one borrower.

II. Proposed Amendment—would extend the limitation to include all types of loans by an insured institution.

III. *Purpose of Amendment*—to protect insured institutions against lending concentration with respect to all types of loans.

The Federal Home Loan Bank Board considers it desirable to propose to amend § 563.9-3 of the rules and regulations for Insurance of Accounts (12 CFR 563.9-3) for the purpose of protecting insured institutions against lending concentration with respect to all types of loans.

The amendment proposes to extend the limitation in present § 563.9-3 on the amount an insured institution may loan on the security of real estate to one borrower to include all types of loans. This change would reflect the present lending authority of insured institutions.

Accordingly, the Board hereby proposes to amend § 563.9-3 of the Rules and Regulations for Insurance of Accounts, to read as set forth below.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, N.W., Washington, D.C. 20552, by June 21, 1976, as to whether the proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address.

#### § 563.9-3 Loans to one borrower.

(a) *Definition of terms.* For the purposes of this section the term "one borrower" means (1) any person or entity that is, or that upon the making of a loan will become, obligor on a loan, (2) nominees of such obligor, (3) all persons, trusts, partnerships, syndicates, and corporations of which such obligor is a nominee or a beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock, and (4) if such obligor is a trust, partnership, syndicate, or corporation, all trusts, partnerships, syndicates, and corporations of which any beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock, is also a beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock of such obligor; and the term "total balances of all outstanding loans" means the original amounts loaned by an insured institution plus any additional advances and interest due and unpaid, less repayments and participating interests sold and exclusive of any loan on the security of real estate the title to which has been conveyed to a bona fide purchaser of such real estate.

(b) *Limitations.* No insured institution shall have outstanding any loan to one borrower, as defined in paragraph (a) of this section, if the sum of (1) the amount of such loan and (2) the total balances of all outstanding loans owed to such institution and its service corporation affiliates by such borrower exceeds an amount equal to 10 percent of such institution's withdrawable accounts or an amount equal to such institution's net worth, whichever amount is less: *Provided, That, notwithstanding any other limitation of this sentence, any*

such loan may be made if the sum of subparagraphs (1) and (2) of this paragraph does not exceed \$100,000 or if such loan is secured by a first lien on low-rent housing.

(c) *Determination by institution; maintenance of records.* If an insured institution or service corporation affiliate thereof makes a loan to any one borrower, as defined in paragraph (a) of this section, in an amount which, when added to the total balances of all outstanding loans owed to such institution and its service corporation affiliates by such borrower, exceeds \$250,000 or 2 percent of the net worth of such institution, whichever is greater, but in all cases where such outstanding loans exceed \$1,000,000, the records of such institution or its service corporation affiliate with respect to such loan shall include documentation showing that such loan was made within the limitations of paragraph (b) of this section; for the purpose of such documentation such institution or service corporation affiliate may require, and may accept in good faith, a certification by the borrower identifying the persons, entities, and interests described in the definition of one borrower in paragraph (a) of this section.

(Sec. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

J. J. Fynn,  
Secretary.

#### FEDERAL TRADE COMMISSION [16 CFR Part 455]

##### SALE OF USED MOTOR VEHICLES Disclosure and Other Regulations

Notice is hereby given that the Federal Trade Commission has expanded the areas upon which comment was requested in its Initial Notice of Proposed Rulemaking published in the *FEDERAL REGISTER* of January 6, 1976, 41 FR 1089. The modifications are set forth in the following questions for comment. These questions are in addition to, and not replacements for, the questions published in the *FEDERAL REGISTER* of January 6, 1976.

#### QUESTIONS

Interested persons are urged to consider carefully the following questions. A final rule may be promulgated in ways suggested by these questions.

1. Should the Vehicle Information Disclosure set forth in § 455.2 of the proposed rule include a provision requiring used motor vehicle dealers to disclose the existence of any defects known to them from presale inspections, or otherwise known to them? If no inspections are performed on vehicles offered for sale, should dealers be required to disclose the lack of such inspection when such vehicles are offered for sale? What format would best provide such information? Should standards be developed to distin-

guish between defective and non-defective components? If such standards should be established, what should those standards be? What would be the cost, if any, to the dealer to disclose the existence of a defect already known to him? Would the provision of defect information operate to create any warranties under state law? Would a defect disclosure provision adversely affect the competitive position of any class of dealers vis-à-vis other classes of dealers? What should be encompassed within the term "defect"? Should a defect disclosure include, in addition to disclosure of specific defects such as worn brakes or a malfunctioning transmission, notification of such things as prior flood damage, major collision damage, or the reconstruction of a vehicle from salvage?

2. Should any of the disclosures set forth under the Vehicle Information Disclosure, § 455.2, including the modifications in such disclosure set forth in questions 1 and 3 herein, be required to be made in dealer-to-dealer sales situations? If dealer-to-dealer disclosures should be required, what types of information should be conveyed, in what form, and in how much detail? What types of sellers of used motor vehicles should be required to make such disclosures? For example, should financial institutions, wholesalers, auction facilities, repair facilities, or salvage yards be included? If dealer-to-dealer disclosures are not required, would any of the types of information referred to in § 455.2 not be available to the retailing dealer? What would be the cost, if any, of each type of dealer-to-dealer disclosure?

3. Should the Vehicle Information Disclosure, § 455.2, include the Vehicle Identification Number (VIN) of the particular vehicle offered for sale? Should the VIN be required on any other documents, such as the sales agreement referred to in § 455.3? What would be the cost, if any, of placing the VIN on such documents?

#### DEADLINE TO PROPOSE ISSUES OF DISPUTED FACT

Proposals identifying issues of disputed fact in this proceeding, previously requested in the initial notice appearing in the *FEDERAL REGISTER* on January 6, 1976 (41 FR 1089), will be accepted until June 23, 1976. The June 23, 1976, deadline will apply to any disputed issues which may arise out of the questions published herein and to any disputed issues arising from the January 6, 1976, *FEDERAL REGISTER* notice.

Written comments concerning this rulemaking proceeding other than proposals identifying issues of disputed fact will, as previously announced, be accepted until forty-five days before commencement of public hearings which are to be scheduled and published in the *FEDERAL REGISTER* at a later date.

Issued: May 24, 1976.

By Direction of the Commission.

CHARLES A. TOBIN,  
Secretary.

## notices

This section of the *FEDERAL REGISTER* contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

[Order No. 156]

#### DEPARTMENT OF THE TREASURY

Internal Revenue Service  
ASSISTANT COMMISSIONER  
(COMPLIANCE)  
Authority Delegation

MAY 19, 1976.

1. Pursuant to the authority vested in the Commissioner of Internal Revenue by 26 CFR 301.7122-1 and 26 CFR 301.7701-9, the Assistant Commissioner (Compliance) is delegated the authority to sign recommendation letters to the Department of Justice concerning Settlement Offers for years or parties not in suit, but related to pending refund suits for other years or parties.

2. The authority delegated herein may not be redelegated.

DONALD C. ALEXANDER,  
Commissioner.

[Order No. 75 (Rev. 8)]

#### ASSISTANT REGIONAL COMMISSIONER DELEGATION ORDER

Authority Delegation

Pursuant to the authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 150-25, dated June 1, 1953, as amended by Order No. 180, dated November 17, 1953, and Order No. 150-36, dated August 17, 1954, 26 CFR 301.7122-1 and 26 CFR 301.7701-9, it is hereby ordered:

1. Each Assistant Regional Commissioner (Appellate), and each Chief, Assistant Chief, and Conferee-Special Assistant, Appellate Branch Office, is authorized to determine the disposition to be made of any offer in compromise submitted under the provisions of section 7122 of the Internal Revenue Code of 1954, in which (a) the proponent does not agree with the rejection or proposed rejection of the offer in the district office, the Office of International Operations or a Service Center and requests regional Appellate Division consideration or (b) the liability was previously determined by a regional Appellate Division and the offer is based on doubt as to liability or doubt as to both liability and collectibility.

2. A determination by regional Appellate Division officials to accept an offer (other than one involving specific penalties only) based solely on doubt as to liability will be subject to approval by the Regional Commissioner if the unpaid amount of tax (including any interest, penalty, additional amount or addition to the tax) is \$100,000 or more.

3. A determination by regional Appellate Division officials to accept an offer (other than one involving specific penalties only) based solely on doubt as to collectibility or on doubt as to collectibility and liability will be subject to approval by the Director, Collection Division, if the unpaid amount of tax (including any interest, penalty, additional amount or addition to the tax) is \$100,000 or more.

4. The authorities delegated herein may not be redelegated and are not applicable to cases arising under tax laws relating to wagering, narcotics, marihuana, alcohol, tobacco or firearms (other than firearms taxes imposed by sections 4181 and 4182 of the Internal Revenue Code of 1954 and sections 2700 and 3407 of the Internal Revenue Code of 1939) or to offers in compromise coming within the jurisdiction of the Chief Counsel under existing procedures, rules or delegations.

5. This Order supersedes Delegation Order No. 75 (Rev. 5), issued November 23, 1970.

DONALD C. ALEXANDER,  
Commissioner.

[Order No. 11 (Rev. 7)]

#### REGIONAL COMMISSIONERS, ET AL.

Authority To Accept or Reject Offers in Compromise

MAY 19, 1976.

The authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 150-25 dated June 1, 1953, as amended by Order No. 180 dated November 17, 1953, and Order No. 150-36 dated August 17, 1954, 26 CFR 301.7122-1 and 26 CFR 301.7701-9, and Treasury Department Order No. 150-60 dated June 3, 1964, is hereby delegated as follows:

1. Regional Commissioners of Internal Revenue are delegated authority under section 7122 of the Internal Revenue Code to accept offers in compromise of tax based solely on doubt as to liability if the unpaid tax (including any interest, penalty, additional amount or addition to tax) is \$100,000 or more. This authority does not pertain to offers in compromise of liabilities arising under laws relating to alcohol, tobacco and firearms taxes. The authority delegated herein may not be redelegated.

2. For the Office of International Operations, the Assistant Commissioner (Compliance) is delegated authority under section 7122 of the Internal Revenue Code to accept offers in compromise of tax based solely on doubt as to liability is the unpaid tax (including any interest, penalty, additional amount or

addition to tax) is \$100,000 or more. This authority does not pertain to offers in compromise of liabilities arising under laws relating to alcohol, tobacco and firearms taxes. The authority delegated herein may not be redelegated.

3. The Director, Collection Division is delegated authority to accept all offers in compromise based on doubt as to collectibility and doubt as to both collectibility and liability if the unpaid tax (including any interest, penalty, additional amount or addition to tax) is \$100,000 or more. In addition, the Director, Collection Division is delegated authority to accept offers in compromise submitted under section 3469 of the Revised Statutes, as amended (31 U.S.C. 194) insofar as claims arising in the administration of the internal revenue laws are concerned. The authority delegated herein does not pertain to offers in compromise of liabilities arising under laws related to alcohol, tobacco and firearms taxes. The authorities delegated herein may not be redelegated.

4. District Directors, Assistant District Directors, the Director of International Operations and the Assistant Director of International Operations are delegated authority, under section 7122 of the Internal Revenue Code, to accept offers in compromise in cases in which the liability sought to be compromised (including any interest, penalty, additional amount or addition to the tax) is less than \$100,000, to accept offers involving specific penalties, and to reject offers in compromise regardless of the amount of liability sought to be compromised. This authority does not pertain to offers in compromise of liabilities arising under laws relating to alcohol, tobacco and firearms taxes. The authority delegated herein may not be redelegated, except that the authority to reject offers in compromise based on doubt as to collectibility may be redelegated to the Chief, Collection Division or Chief, Collection and Taxpayer Service Division.

5. Service Center Directors and Assistant Service Center Directors are delegated authority, under section 7122 of the Internal Revenue Code, to accept or reject offers in compromise limited to specific penalties (except those arising under laws relating to alcohol, tobacco and firearms taxes); ad valorem delinquency penalties relating to employment taxes under Subtitle C of the Internal Revenue Code and ad valorem delinquency penalties relating to excise taxes under Subtitle D of the Internal Revenue Code (except those arising under laws relating to alcohol, tobacco and firearms taxes). This authority may

be redelegated but not lower than to Division Chief.

6. This Order supersedes Delegation Order No. 11 (Rev. 6) issued May 21, 1971.

Effective date: May 19, 1976.

DONALD C. ALEXANDER,  
Commissioner.

[Order No. 156]

# REGIONAL COMMISSIONERS, ET AL. Delegation of Authority

May 19, 1976.

Authority to Permit Inspection of Certain Returns and Related Documents as Set Forth in Treas. Reg. 301.6103(a)-1 and 301.9000-1 and to Disclose Certain Information under 26 U.S.C. 6103(f) as to Persons Filing Income Tax Returns.

1. Pursuant to authority vested in the Commissioner of Internal Revenue by 26 CFR 301.6103(a)-1 and 26 CFR 301.9000-1, authority is hereby delegated to the Regional Commissioners, Assistant Commissioner (Compliance), District Directors, Service Center Directors, Director of International Operations, and the

Chief, Disclosure Staff, to permit inspection of returns in their custody by the persons and subject to the conditions as prescribed for such persons in 26 CFR 301.6103(a)-1(c), and by the same persons, and subject to the conditions as prescribed for such persons in 26 CFR 301.6103(a)-1(c), with respect to whom inspection is discretionary under 26 CFR 301.9000-1. The authority delegated in this paragraph may be redelegated only to Assistant District and Service Center Directors, Assistants to the District and Service Center Directors, Division Chiefs, and Disclosure Officers, and such redelegation is limited to the inspection of returns as defined in 26 CFR 301.6103(a)-1(a) (3) (i) (a).

2. Regional Commissioners, Assistant Commissioner (Compliance), District Directors, Service Center Directors, the Director of International Operations and the Chief, Disclosure Staff, are authorized to furnish returns, as defined in 26 CFR 301.6103(a)-1(a) (3), or copies thereof, without written application, to United States Attorneys and attorneys of the Department of Justice, in accordance with paragraph (h) of section 301.6103(a)-1, for official use in proceedings before a U.S. grand jury or in litigation in any court provided such use pertains to the prosecution of claims and demands by, and offenses against, the United States, or the defense of claims and demands against the United States or officers and employees thereof, in cases arising under the internal revenue laws or related statutes which were referred by the Department of the Treasury to the Department of Justice for such prosecution or defense. The authority delegated in this paragraph of this order does not extend to the furnishing of returns of members of the judiciary, both Federal and State, or of third parties not directly involved in the transactions of the taxpayer. The authority delegated in this paragraph may be redelegated only to Assistant District and Service Center Directors, Assistants to the District and Service Center Directors, Division Chiefs, Assistant Chief, Disclosure Staff, and Disclosure Officers.

3. With respect to matters referred to the Department of Justice by the Department of the Treasury, the authority to furnish returns of the judiciary, both Federal and State, and of third parties not directly involved in the transactions of the taxpayer, is delegated to the Assistant Commissioner (Compliance) and the Chief, Disclosure Staff. The Assistant Commissioner (Compliance) and the Chief, Disclosure Staff, should act in all such matters only after coordination with the Disclosure Division, Office of the Chief Counsel. The authority delegated in this paragraph may not be redelegated.

4. Regional Commissioners, Assistant Commissioner (Compliance), District Directors, Service Center Directors, the Director of International Operations, and the Chief, Disclosure Staff, may furnish an affirmative or negative response to inquiries from the Department of Justice,

in accordance with paragraph (h) of section 301.6103(a)-1, concerning whether a prospective juror in any Federal litigation has been or is being investigated by the Internal Revenue Service. The authority delegated in this paragraph may be redelegated to Assistant District and Service Center Directors, Assistants to the District and Service Center Directors, Division Chiefs, Assistant Chief, Disclosure Staff, and Disclosure Officers.

5. The Assistant Commissioner (Compliance) and the Chief, Disclosure Staff, are authorized to act on all other requests from United States Attorneys and attorneys of the Department of Justice for inspection and copies of returns, in accordance with paragraphs (g) and (h) of section 301.6103(a)-1, and by the same persons, and subject to the conditions as prescribed for such persons in 26 CFR 301.6103(a)-1 (g) and (h), with respect to whom inspection is discretionary under 26 CFR 301.9000-1. The authority delegated in this paragraph may be redelegated by the Assistant Commissioner (Compliance) to the Assistant Chief, Disclosure Staff, and to Tax Law Specialists GS-987-14 in the Disclosure Staff.

6. Pursuant to authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 150-37, dated March 17, 1955, District Directors, Service Center Directors, and the Director of International Operations are authorized, after inquiry has been made, to inform an inquirer as to whether the person who is the subject of the inquiry has, or has not, filed an income tax return with their office for the taxable year in question. The Assistant Commissioner (Compliance) and the Chief, Disclosure Staff, also are authorized to act on requests made under 26 U.S.C. 6103(f). The authority delegated in this paragraph may be redelegated to Assistant District and Service Center Directors, Assistants to the District and Service Center Directors, Division Chiefs, Assistant Chief, Disclosure Staff, and Disclosure Officers.

7. The authority vested in the Commissioner by 26 CFR 301.9000-1 to determine whether or not information received by Internal Revenue Service employees or employees of the Office of Chief Counsel relating to nontax crimes (such as homicide, rape, burglary, robbery or similar crimes) may be disclosed to appropriate Federal, State or local law enforcement officials is delegated to the Assistant Commissioner (Compliance) and the Deputy Assistant Commissioner (Compliance). This authority is limited to those situations in which it appears that the information sought to be disclosed may be tax return related or otherwise involves income or other financial information of an individual or entity. The Assistant Commissioner (Compliance) and the Deputy Assistant Commissioner (Compliance) are authorized to approve or deny such requests for disclosure, based on their determination, made in coordination with the Director, Disclosure Division, Office of Chief Counsel. The authority as delegated in this paragraph may not be redelegated.

8. Disclosure of information to appropriate Federal, State or local law enforcement officials may be made by Internal Revenue Service employees and employees of the Office of Chief Counsel in nontax crimes described in paragraph 7 which do not involve tax return related information or the income or other financial information of an individual or entity, in accordance with the provisions of the Disclosure of Official Information Handbook, IRM 1272.

9. The authority vested in the Commissioner by 26 CFR 301.9000-1 and 301.6103(a)-1 (c), (d), (e), (f), (g) and (h) and not heretofore delegated is delegated by this Order to the Deputy Commissioner, Regional Commissioners, Assistant Commissioner (Compliance), Deputy Assistant Commissioner (Compliance), and the Chief, Disclosure Staff, to the extent as described below:

(a) Regional Commissioners are authorized to determine whether or not officials and employees of the Internal Revenue Service assigned to the region, including employees of the Office of the Chief Counsel, will be permitted to testify or produce Service documents because of a request or demand as referred to in paragraph (d) (1) (i) and (ii) of 26 CFR 301.9000-1 in Civil litigation pending in state or local Courts and only involving state or local authorities and private parties. The Regional Commissioners should act in all such matters only after coordination with the Office of Regional Counsel. The authority as delegated in this paragraph may not be redelegated.

(b) The Assistant Commissioner (Compliance) and the Deputy Assistant Commissioner (Compliance) are authorized to determine whether or not officers and employees of the Internal Revenue Service, including employees of the Office of Chief Counsel, will be permitted to testify or produce Service documents because of a request or demand as referred to in paragraph (d) (1) (i) and (ii) of 26 CFR 301.9000-1 in all matters not described in (a) above. The Assistant Commissioner (Compliance) or the Deputy Assistant Commissioner (Compliance) should act in all such matters only after coordination with the Disclosure Division of the Office of Chief Counsel. The authority as delegated in this paragraph may not be redelegated.

(c) The Assistant Commissioner (Compliance) and the Chief, Disclosure Staff, are authorized to permit inspection or production of documents or information of the Internal Revenue Service by any applicant eligible therefor under 26 CFR 301.6103(a)-1 (e) and (a)-1 (f), and by the same applicant, and subject to the conditions as prescribed for such applicant in 26 CFR 301.6103(a)-1 (e) and (a)-1 (f), with respect to whom inspection is discretionary under 26 CFR 301.9000-1. The authority as delegated in this paragraph may not be redelegated.

10. Whenever it is determined that a return or related document is available for disclosure in a particular case, a copy or certified copy may be furnished the party requesting the same.

11. This Order supersedes Delegation Order No. 86 (Rev. 5) issued January 9, 1976, and Delegation Order No. 83 (Rev. 5) issued July 15, 1974.

DONALD C. ALEXANDER,  
Commissioner.

[FR Doc. 76-14969 Filed 5-20-76; 8:45 am]

# Office of the Secretary KNITTING MACHINES FOR LADIES' SEAMLESS HOSIERY FROM ITALY Antidumping, Withholding of Appraisal Notice

Information was received on July 15, 1975, from Rockwell International, Reading, Pennsylvania, alleging that knitting machines for ladies' seamless hosiery from Italy were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of August 15, 1975 (40 FR 34424). The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

The Secretary concluded that a tentative determination could not reasonably be made within the usual six-month period. The period in this case was therefore extended to no more than nine months, and a "Notice of Extension of Investigatory Period" to that effect was published in the FEDERAL REGISTER of February 12, 1976 (41 FR 6289).

**Tentative Determination of Sales at Less Than Fair Value.** On the basis of the information developed in Customs' investigation and for the reasons noted below, pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), I hereby determine that there are reasonable grounds to believe or suspect that the purchase price of knitting machines for ladies' seamless hosiery from Italy is less, or is likely to be less, than the fair value, and thereby the foreign market value, of such or similar merchandise.

**Statement of Reasons on which this determination is based:** a. Scope of the investigation. It appears that 95 percent of imports of the subject merchandise from Italy were manufactured by either Billi-Matec S.p.A., Florence, Italy, or DiLonati Francesco & Figli S.N.C., Brescia, Italy. Therefore, the investigation was limited to these two manufacturers.

b. Basis of Comparison. For the purpose of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison for both manufacturers appears to be between purchase price and the home market price of such or similar merchandise. Purchase price, as defined in section 203 of the Act (19 U.S.C. 162), was used since all export sales appear to be made to non-related customers in the United States. Home

market price, as defined in section 153.3, Customs Regulations (19 CFR 153.3), was used since such or similar merchandise appears to be sold in the home market in sufficient quantities to provide a basis of comparison for fair value purposes. With respect to Billi-Matec S.p.A., it appears that the preponderance of home market sales were made at less than the cost of production. However, pending verification of data relating to the cost of production, the information now available appears to indicate that there remains home market sales made at not less than the cost of production which are adequate for the purpose of determining fair value. Should information subsequently indicate that these sales are also made at less than the cost of production, then fair value will be determined with reference to sales to countries other than the United States, or to constructed value, as appropriate.

c. Purchase Price. For the purposes of this tentative determination of sales at less than fair value, adjustments have been made on the following bases. In accordance with section 153.31(b), Customs Regulations (19 CFR 153.31(b)), pricing information was obtained concerning imports of knitting machines for ladies seamless hosiery from Italy during the period March 1 through October 31, 1975, from both companies.

In the import transactions, all of the merchandise was purchased or agreed to be purchased, prior to the time of exportation by the persons by whom or for whose account it was imported, within the meaning of the Act. The purchase price has been calculated on the basis of the c.i.f., duty paid, price to unrelated U.S. purchasers. Deductions have been made for transportation expenses, including Italian inland freight, U.S. import duties, insurance and installation expenses, where applicable. An addition has been made for rebates of indirect taxes made upon the exportation of this product, as appropriate.

d. Home Market Price. For the purposes of this tentative determination of sales at less than fair value, adjustments have been made on the following bases. The home market price has been calculated on the basis of the delivered price in the home market to unrelated purchasers. Adjustments have been made for insurance, transportation and installation expenses, for discounts, and for differences in interest costs and in commissions in the two markets, as appropriate. Adjustment for interest costs relates to extended payment terms granted to customers in both markets. Adjustment for commissions relates to commissions paid on certain sales in both markets. Adjustment for discounts relates to quantity discounts actually given to home market purchasers.

f. Result of Fair Value Comparisons. Using the above criteria, preliminary analysis suggests that purchase price probably will be lower than the home market price of such or similar merchandise. Comparisons were made on approximately 100 percent of the sales of the subject merchandise to the United

States by both manufacturers during the investigative period. Margins were tentatively found, ranging from 5 percent to 41 percent for sales made by Billi-Matec, S.p.A., on 100 percent of the sales compared, and from 3 percent to 25 percent for sales made by Lonati Francesco on 95 percent of the sales compared.

Accordingly, Customs officers are being directed to withhold appraisement, of knitting machines for ladies' seamless hosiery from Italy in accordance with section 153.48, Customs Regulations (19 CFR 153.48).

In accordance with section 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any request that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 1301 Constitution Avenue, N.W., Washington, D.C. 20229, in time to be received by his office on or before June 2, 1976. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received in his office on or before June 21, 1976.

This notice, which is published pursuant to section 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective May 21, 1976. It shall cease to be effective at the expiration of 6 months from the date of publication unless previously revoked.

Dated: May 17, 1976.

JAMES B. CLAWSON,  
Acting Assistant Secretary  
of the Treasury.

## DEPARTMENT OF THE INTERIOR

### Bureau of Indian Affairs

#### PUEBLO OF COCHITI, NEW MEXICO Transfer of Federally Owned Lands

MAY 11, 1976.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

On March 23, 1976, pursuant to authority contained in the Federal Property and Administrative Services Act of 1949, as amended by Public Law 93-599 dated January 2, 1976 (88 Stat. 1954), the below-described property was transferred by the Acting Director, Real Property Division, Fort Worth Regional Office, of the General Services Administration to the Secretary of the Interior, without reimbursement, to be held in trust for the benefit and use of the Pueblo of Cochiti, New Mexico:

A parcel of land located in the NE1/4 NW1/4 Section 19, T. 16 N., R. 6 E., New Mexico

Principal Meridian, in Sandoval County, New Mexico, containing 3.308 acres and described as follows in the order of September 20, 1911, of the Second Judicial District Court of the Territory of New Mexico:

Beginning at the northeast corner, whence the southwest corner of the Church bears S. 72 degrees 35 minutes E. 420.6 feet distant; thence N. 66 degrees 13 minutes W. 480 feet to the northwest corner; thence S. 23 degrees 47 minutes W. 300 feet to the southeast corner; thence S. 66 degrees 13 minutes E. 480 feet to the southeast corner; thence N. 23 degrees 47 minutes E. 300 feet to the northeast corner, the place of beginning.

This land is to be treated as and receive the same benefits and protection as other trust lands held for the benefit and use of the Pueblo of Cochiti. Appropriate notation will be made in the land records of the Bureau of Indian Affairs.

MORRIS THOMPSON,  
Commissioner of Indian Affairs.

#### NEW MEXICO

##### Application

MAY 13, 1976.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for a cathodic protection station right-of-way on the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 25 S., R. 2 W.,  
Sec. 12, E1/2SE1/4.

The cathodic protection station, necessary to natural gas operations, will occupy .760 acres in Dona Ana County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1420, Las Cruces, New Mexico 88001.

FRED E. PADILLA,  
Chief, Branch of Lands  
and Minerals Operations.

###### Correction

In FR Doc. 76-12545 appearing in the issue of Friday, April 30, 1976 on page 18109 the following signature was inadvertently omitted:

Approved:

EDWARD F. SPRANG,  
Acting State Director.

#### ASHLAND OIL, INC.

##### Qualified Joint Bidders

On April 21, 1976, the Director of the Bureau of Land Management, as a convenience to the public, and pursuant to his authority under 43 CFR 3300, caused to be published in the FEDERAL REGISTER (Vol. 41, No. 78) a list of those companies and individuals who had timely filed a Statement of Production in accordance with 43 CFR 3302.3-2(a) which had qualified them to bid jointly at Outer Continental Shelf oil and gas lease sales during the Bidding Period of May 1, 1976, through October 31, 1976.

According to 43 CFR 3302.3-2(a), such qualifying statements were required to be filed with the Director 45 days prior to the commencement of the bidding period, or by March 17, 1976. The statements of three other companies were received after that date, but before the date of filing the list of qualified joint bidders with the FEDERAL REGISTER. These three statements were deemed to be acceptable under the provisions of 43 CFR 1821.2-2(g) which gives to the authorized officer the discretion to accept as timely filed a document which by the terms of other regulations in the same chapter would be considered as untimely filed. The authorized officer may exercise this discretionary authority except where:

1. The law does not permit him to do so.
2. The rights of a third party or parties have intervened.
3. The authorized officer determines that further consideration of the document would unduly interfere with the orderly conduct of business.

None of the these exceptions were deemed to exist in these cases.

The three companies whose names should be added to the list published on April 21, 1976, are:

Ashland Oil, Inc., Golden Eagle Refining Company, Inc., Northern Michigan Exploration Company.

Dated: May 18, 1976.

GEORGE L. TUNCOTT,  
Acting Director,  
Bureau of Land Management.

#### Fish and Wildlife Service ANNUAL REGULATIONS CONFERENCE FOR MIGRATORY SHORE AND UPLAND GAME BIRDS

##### Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee meeting:

Name: Annual Regulations Conference for Migratory Shore and Upland Game Birds.

Date: June 22, 1976.

Place: Conference Room 2008, New Executive Office Building, 728 Jackson Place, N.W., Washington, D.C. 20004.

Time: 9 a.m.

Purpose of meeting: The Committee will review the status of mourning doves, woodcock, band-tailed pigeons, white-winged doves, rails, gallinules, and common snipe and discuss proposed hunting regulations for the 1976-77 hunting season.

This meeting will be open to the public. Persons wishing to attend should notify the Director (FWS/MBM), United States Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240, or call AC 202-343-8827. Statements of interested persons other than Committee members must be filed in writing with the Director before or after the meeting. To the extent time permits, the chairman of the meeting will accept brief oral statements from the public at the close of the Committee's agenda providing such statements are also submitted in writing before or after the meeting.

Dated: May 18, 1976.

GEORGE W. MILIAS,  
Acting Director,  
U.S. Fish and Wildlife Service.

#### Geological Survey

[Operational Order No. 6]

##### CENTRAL AND WESTERN REGIONS Pipelines and Surface Production Facilities; Proposed Geothermal Resources

Notice is hereby given that pursuant to 30 CFR 270.11 the Chief, Conservation Division, Geological Survey, proposes to approve GRO Order No. 6 for geothermal operations conducted in the Central and Western Regions as set forth below.

The purpose of proposed GRO Order No. 6 is to provide requirements relative to pipelines and surface production facilities.

Interested persons may submit written comments, suggestions, and objections concerning the proposed Order to the Chief, Conservation Division, U.S. Geological Survey, Mail Stop 650, National Center, 12201 Sunrise Valley Drive, Reston, Virginia 22092, with a copy to the Area Geothermal Supervisor, U.S. Geological Survey, Mail Stop 92,

345 Middlefield Road, Menlo Park, California 94025, on or before June 25, 1976.

W. A. RADLINSKI,  
Acting Director.

This Order is established pursuant to the authority prescribed in 30 CFR 270.11. The design, operation, and testing of all pipelines and surface facilities will be conducted in accordance with the provisions of this Order. All variances from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 270.48. References in this Order to approvals, determinations, or requirements are to those given or made by the Area Geothermal Supervisor (Supervisor) or his delegated representative.

The plan for and design of all pipelines and surface facilities, including but not limited to, production, injection, and waste water disposal systems, shall be submitted to the Supervisor for approval prior to construction. Such plans and designs shall be included in a Plan of Operation with contents and approval according to 30 CFR 270.34.

1. *Design and Construction Requirements.* All geothermal pipelines and surface facilities shall be designed and constructed in accordance with the following:

A. *General Design.* (1) *Thermal Expansion.* All pipelines and production facilities shall be designed to prevent failure in tension or compression due to thermal stresses. Pipelines shall be anchored to isolate or transfer stress to the ground or solid structure, and to prevent unsafe movement in case of line failure. Main anchors may be required at pipe ends, at changes in direction, at shutoff valves, at manifolds where lines are interconnected, or at other points as dictated by the expansion arrangements adopted. Intermediate anchors may be required to divide the pipeline into separate expanding sections and to bear any unbalanced thrust. Intermediate supports between anchors shall allow free lateral and longitudinal movement. Expansion bends or loops should avoid sharp bends, and shall be installed horizontally where feasible. The effects of mineral scaling shall be considered before utilizing slip joints or expansion bellows.

(2) *Two-Phase Flow.* Submission of complete design criteria and calculations may be required for planned two-phase production pipelines and surface facilities to demonstrate that such facilities are designed for the additional water hammer stresses caused by two-phase flow.

(3) *Environmental Considerations.* All pipelines and surface facilities shall be designed and constructed in accordance with the environmental protection requirements of GRO Order No. 4.

B. *Safety Control Devices.* (1) *Production Pipelines and Related Facilities.* All production pipelines and related surface facilities shall be equipped with the following devices except as noted in 1.B. (1)(d) below:

(a) Each producing well shall be equipped with a low pressure sensing device to actuate a valve to shut-in production to minimize safety or pollution hazards caused by pipeline or facility failure.

(b) Pipelines and related surface facilities shall be protected against pressure buildup in excess of the system's design limit by high pressure sensors which will actuate either (1) well shut-in valves, or (2) a system or well pressure relief valves and/or rupture discs. If only pressure relief valves are installed, it must be demonstrated that such venting in an emergency will not cause pollution; otherwise shut-in valves shall be installed. Vented production must be properly muffled so as to comply with provisions of GRO Order No. 4. A remote controlled shut-in or venting system may be required, in addition to pressure sensors.

(c) Check valves or other approved devices shall be required to prevent uncontrolled backflow from producing wells in the system in case of a line or facility failure, or where a line failure may result in pollution due to line drainage.

(d) Exceptions to requirements 1.B.(1)(a) through (c) above may be made for systems or parts of systems where the lessee can demonstrate to the satisfaction of the Supervisor that lack of such controls will not result in danger of pollution or to public health and safety. Information to be considered in an evaluation of a requested exception may include chemical analysis of the produced fluids, steam, and gases; the rate, temperature and pressure of production; environmental conditions in the area; type of geothermal reservoir system; type of resources utilization; the number, hourly coverage, and supervision of personnel operating the facilities; and, the type of manually operated controls installed.

(2) *Injection Pipelines and Related Facilities.* All injection pipelines and related surface facilities must be designed to safely accommodate maximum expected surface injection pressures, and shall be equipped with the following devices, except as noted in 1.B.(1)(d) above.

(a) Each injection well shall be equipped with a low pressure sensing device to actuate a valve to shut-in injection to minimize safety or pollution hazards caused by injection pipeline or facility failure.

(b) Injection pipelines and related surface injection facilities shall be protected against pressure buildup in excess of the system's design limit by high pressure sensors which will actuate either (1) well shut-in valves, or (2) a system or well pressure relief valves and/or rupture discs. If only pressure relief valves are installed, it must be demonstrated that such venting in an emergency will not cause pollution; otherwise, shut-in valves shall be installed. A remote-controlled shut-in or venting system may be required, in addition to pressure sensors.

(c) Check valves or other approved devices shall be required to prevent uncontrolled backflow from injection wells in

the system in case of a line or facility failure, or where a line failure may result in pollution due to line drainage.

C. *Testing and Operation.* (1) *Hydrostatic Tests.* All pipelines shall be hydrostatically tested to 1.25 times the designed working pressure for a minimum of 2 hours prior to placing the line in service. Certain low pressure lines such as waste disposal drains may be exempted from this requirement if authorized by the Supervisor. The Supervisor shall be notified at least 48 hours in advance of the estimated date and time of each test so that the test may be witnessed.

(2) *Safety Device Tests.* The automatic and remote control devices installed in accordance with 1.B. (1) and (2) above shall be tested semiannually or at more frequent intervals as required by the Supervisor. Advance notification of at least 48 hours shall be given so that the Supervisor may witness the test. The lessee shall maintain records on each device showing present status and past history, including dates and details of inspection, testing, repairing, adjustment, reinstallation or replacement, and will forward copies of these records to the Supervisor semiannually.

(3) *Operator Monitoring.* Production, injection, and other waste disposal systems which are not completely equipped with shut-in or relief devices shall require 24-hour on-site monitoring by operator personnel unless it can be demonstrated to the satisfaction of the Supervisor that less frequent monitoring will not increase the danger of pollution or to human life and health.

2. *Application.* The operator shall submit the items listed below, in triplicate, to the Supervisor for approval. In addition, a Plan of Operation according to 30 CFR 270.34 items (a) through (i), as appropriate, shall be submitted for joint approval by the Supervisor and the appropriate land management agency. Production flowlines for development wells may be included as a part of the Plan of Operation required for drilling the well.

A. *Maps.* A plat(s) showing the major topographic features and other pertinent data including the proposed route, length, size, and location of the line(s), and any connecting facilities.

B. *Equipment Plans.* A schematic drawing showing the location of the following pipeline safety equipment and the manner in which the equipment functions:

- (1) high-low pressure sensor(s)
- (2) automatic shut-in valve(s)
- (3) check valve(s)
- (4) metering system(s)
- (5) pressure relief valve(s)
- (6) other manual or automatic valve(s) or equipment.

C. *Design Information.* General information concerning the pipeline including the following:

- (1) Product(s) to be transported by the pipeline
- (2) Size, weight, and grade of the pipe
- (3) Length of line(s)
- (4) Type(s) of corrosion protection
- (5) Description of protective coatings

(6) Description of pipe insulation and the application of exterior color camouflage

(7) Anticipated gravity or density of the product(s) and a chemical analysis

(8) Design working pressure and capacity

(9) Maximum working pressure and capacity

(10) Hydrostatic pressure and hold time to which the line will be tested after installation

(11) Other related information as required by the Supervisor.

3. *Completion Report.* The operator shall submit a report to the Supervisor when installation of the pipeline is completed, accompanied by all hydrostatic test data, including procedure, test pressure, hold time, and results.

REID T. STONE,  
Area Geothermal Supervisor.

RUSSELL G. WAYLAND,  
Chief, Conservation Division.

### Commodity Credit Corporation

[Amendment 13]

### SALES OF CERTAIN COMMODITIES

#### Rice and Peanuts, Monthly Sales List (Fiscal Year Ending June 30, 1976)

The CCC Monthly Sales List for the fiscal year ending June 30, 1976, published at 40 FR 30510, as amended, is further amended as follows:

1. The provisions of section 33 entitled "Peanuts Farmers Stock—Restricted Use Sales (FOB Point of Storage)" published at 40 FR 49810, are deleted.

2. The last sentence of section 25 entitled "Rice, rough-Unrestricted use sales—FOB warehouse" published at 40 FR 53607 is revised to read as follows:

Basis of sale is f.o.b. warehouse as is or, at buyers option, basis outturn weights and grades.

(Sec. 4, 62 Stat. 1070, as amended (15 U.S.C. 714b); sec. 407, 63 Stat. 1055, as amended (7 U.S.C. 1427).)

Effective date: 2:30 p.m. (EDT), April 30, 1976.

Signed at Washington, D.C., on May 13, 1976.

KENNETH E. FRICK,  
Executive Vice President,  
Commodity Credit Corporation.

#### CASCADE HEAD SCENIC-RESEARCH AREA ADVISORY COUNCIL

##### Notice of Meeting

The Cascade Head Scenic-Research Area Advisory Council will meet on Friday and Saturday, June 25th and 26th, 1976, at the Dunes Motel in Lincoln City, Oregon. The meeting on Friday will be from 1:00 to 5:00 p.m. and from 7:00 to 10:00 p.m. Saturday's meeting will start at 9:00 a.m.

The purpose of this meeting is for the recommendations for the Final Environmental Statement for the final management plan for the Scenic-Research Area. The Council will consider the public input received on the Draft Environmental Statement for the proposed management plan filed with the Council on Environmental Quality on March 26, 1976, in making this recommendation.

The meeting will be open to the public. Persons who wish additional information concerning the meeting should contact Pam McCrawley, Hebo Ranger Station, Hebo, Oregon, phone 392-3161, ext. 34, or Edlu Allert, Siuslaw National Forest, at 545 SW Second Street, Corvallis, Oregon, phone 757-4490.

Dated: May 13, 1976.

LARRY A. FELLOWS,  
Forest Supervisor.

[FR Doc. 76-14866 Filed 5-20-76; 8:45 am]

#### Rural Electrification Administration COOPERATIVE POWER ASSOCIATION AND UNITED POWER ASSOCIATION Proposed Loan Guarantee

Under the authority of Pub. L. 93-32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 20-22 (Guarantee of Loans for Bulk Power Supply Facilities), notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for loans in the aggregate approximate amount of \$334,849,000 to Cooperative Power Association of Minneapolis, Minnesota, and United Power Association of Elk River, Minnesota. These guarantee funds will be used to supplement \$632,679,000 in prior loan and loan guarantee funds to complete a project consisting of two 450 MW steam generating units near Underwood, North Dakota, and associated transmission facilities consisting of approximately 475 miles of  $\pm 400$  kV Direct Current transmission lines with related terminal facilities, associated 345 kV and 230 kV transmission facilities and coal mine development costs. Cooperative Power Association will have a 56 percent undivided ownership interest and United Power Association a 44 percent undivided ownership in the project.

Legally organized lending agencies capable of making, holding and servicing the loans proposed to be guaranteed may obtain information on the proposed project, including the engineering and economic feasibility studies and the proposed schedule for the advances to the borrowers of the guaranteed loan funds, from Mr. Philip O. Martin, Manager, United Power Association, Elk River, Minnesota 55330.

In order to be considered, proposals must be submitted on or before June 21, 1976 to Mr. Martin. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as Cooperative Power Association, United Power Association

and the Rural Electrification Administration deem appropriate. Prospective lenders are advised that the guaranteed financing for this project is available from the Federal Financing Bank under a standing agreement with the Rural Electrification Administration.

Copies of REA Bulletin 20-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 17th day of May 1976.

DAVID A. HAMIL,  
Administrator, Rural  
Electrification Administration.  
[FR Doc. 76-14977 Filed 5-20-76; 8:45 am]

#### Soil Conservation Service INDIAN BROOK WATERSHED PROJECT, NEW HAMPSHIRE Availability of Final Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (EIS) for the Indian Brook Watershed project, Coos County, New Hampshire, USDA-SCS-EIS-WS-(ADM)-75-1(F)-NH.

The EIS concerns a plan for watershed protection, flood prevention, and fish and wildlife habitat development. The planned works of improvement provide for conservation land treatment, 1 floodwater retarding structure, 1 multipurpose dam for flood protection and fish and wildlife habitat and about 3,000 feet of channel work.

The final EIS has been filed with the Council on Environmental Quality.

A limited supply is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, Federal Building, Durham, New Hampshire 03824.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

JOSEPH W. HAAS,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

[FR Doc. 76-14901 Filed 5-20-76; 8:45 am]

#### HACKERS CREEK WATERSHED PROJECT, WEST VIRGINIA

##### Availability of Draft Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines

(39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Hackers Creek Watershed project, Lewis, Upshur, and Harrison Counties, West Virginia, USDA-SCS-EIS-WS-(ADM)-76-1(D)-WV.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and municipal and industrial water supply. The planned works of improvement include conservation land treatment supplemented by one multiple-purpose floodwater retarding and municipal and industrial water supply structure, and 3.1 miles of single-purpose flood prevention channel work. The channel work will generally enlarge the natural channel and follow the present channel alignment. About 0.6 mile of the channel work will be rock riprapped on one side through curve sections, 2.4 miles will be excavated from one side and revegetated, and 0.1 mile will be concrete lined. This work involves a perennial stream through an urban area.

A limited supply of copies is available to fill single copy requests at the Soil Conservation Service, Federal Building, P.O. Box 865, Morgantown, West Virginia 26505.

Copies of the draft environmental impact statement have been sent for comments to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to James S. Bennett, State Conservationist, Soil Conservation Service, P.O. Box 865, Morgantown, West Virginia 26505.

Comments must be received on or before July 5, 1976, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

JOSEPH W. HAAS,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

May 14, 1976.  
[FR Doc. 76-14902 Filed 5-20-76; 8:45 am]

#### TEHUACANA CREEK WATERSHED PROJECT, TEXAS

##### Availability of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Tehuacana Creek Watershed Project, McLennan, Hill, and Limestone counties, Texas.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. George C. Marks, State Conservationist, Soil Conservation Service, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The planned works of improvement include ten grade control and stabilization structures needed in conjunction with or prior to land treatment.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state, and local agencies. The basic data developed during the environmental assessment is on file and may be reviewed by interested parties at the Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501. A limited number of copies of the negative declaration is available from the same address to fill single copy requests.

No administrative action on implementation on the proposal will be taken until 15 days after the date of this publication.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Service.)

Dated: May 13, 1976.

JOSEPH W. HAAS,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmosphere Administration

#### POINT REYES BIRD OBSERVATORY Receipt of Application for a Scientific Research Permit

Notice is hereby given that the following Applicant has applied in due form for a permit to take marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407).

Point Reyes Bird Observatory, Mesa Road, Bolinas, California 94924, to conduct scientific research on an undetermined number of California sea lions (*Zalophus californianus*) on Southeast Farallon Island, California.

The proposed research plans to determine if a potential conflict exists between the food resource needs of the sea lion and the foreign vessel fishery operating within 200 miles of the California coast. This will be determined by collecting and analyzing the material remains regurgitated, naturally by the animals while they rest on the shore of the island. The project will be conducted over a three year period with samples collected in two

week intervals beginning March 15, and ending October 1st of each year.

The Applicant states that the materials collected are regurgitated while the animals rest on the dock and not as a consequence of being disturbed.

The research project will be conducted by biologists from the Point Reyes Bird Observatory, Dr. David G. Ainley, principal investigator.

Documents submitted in connection with this application are available in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.; and  
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Concurrent with the publication of this notice in the Federal Register, the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written views or data, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before June 21, 1976. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: May 14, 1976.

HARVEY M. HUTCHINGS,  
Acting Associate, Director for  
Resource Management, National  
Marine Fisheries Service.

[FR Doc. 76-14909 Filed 5-20-76; 8:45 am]

#### SEA WORLD, INC.

##### Receipt of Application for a Scientific Research and Public Display Permit

Notice is hereby given that the following Applicant has applied in due form for a permit to take and import marine mammals for scientific research and public display as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) and the Regulations Governing the Taking and Importing of Marine Mammals.

Sea World, Incorporated, 1720 South Shores Road, San Diego, California 92109, to take, over a 3½ year period from various areas around the world, 140 Atlantic and Pacific Bottlenosed dolphins (*Tursiops truncatus*).

The marine mammals to be collected would be utilized as follows:

1. Opportunistic field research will be conducted on not more than 100 of the individuals taken. The animals will not be removed from the wild but will be handled only incidental to normal collecting procedures and released immediately after completion of nonharmful studies. These studies will include, but not be limited to:

- Blood sampling for baseline studies;
- Tooth sectioning for age-growth determination studies;
- Full body measurements;
- Doppler stethoscope for pregnancy determination in females;
- Semen collection in males for reproduction correlation;
- Establishment through use of the above research methods, as well as experimental husbandry, practices which will contribute to lengthening longevity, health, and reproduction in captive marine mammals;
- Cryogenic marking to aid in identifying the groups of individuals involved in the collection process;

2. Up to 40 animals would be collected and removed from the wild and maintained for up to 90 days for purposes of conducting opportunistic research outlined, acclimating and evaluating the animals for public display and continued research. No pregnant females nor nursing young, nor animals less than five feet ten inches in length or more than ten feet in length will be utilized in this study.

3. 20 animals from the above mentioned 40 animals collected and removed from the wild would be maintained indefinitely at a Sea World facility for purposes of public display, breeding research and/or other forms of opportunistic research.

Thus, a total of up to 140 animals would be studied under this permit: up to 100 animals in the wild, up to 40 animals for a 90-day period, and, from this 40, up to 20 animals for an indefinite period of time.

The animals will be taken by means of an encircling net or breakaway hoop net, from various areas around the world, with primary emphasis on the Florida coast, Florida Keys, Mississippi coast, the Gulf of Mexico and the Gulf of California. The animals will be transported to the San Diego, California, Cleveland, Ohio, and/or Orlando, Florida facilities, by means of trucks or chartered airplanes.

The requested animals would be maintained at any of the following Sea World facilities in any of the holding and display tanks indicated below:

Sea World of Ohio: a. Whale/Dolphin performing Tank—227,000 gallons, 40 feet wide, 75 feet long, 18 feet deep.

b. Dolphin Holding Tank—33,000 gallons, 35 feet in diameter, 4 feet deep.

Sea World of Florida: a. Whale/Dolphin performance pool—534,000 gallons, 105 feet 10 inches long, 45 feet wide, 24 feet deep.

b. Dolphin Holding Tank—93,000 gallons, 35 feet in diameter, 12 feet deep.

See World of San Diego: a. Holding Tanks (7)—from 6,700 to 45,000 gallons each; from 18 feet in diameter, 5 feet deep to 35 feet in diameter, 8 feet deep.

b. Underwater Theater Tank—165,000 gallons, 44 feet in diameter, 13 feet deep.

The requested animals are desired to provide sufficient flexibility in the Sea World marine mammal inventory to permit alternation of display programs, and variations in the nature of the displays. Since the opening of the first park in

1964, Sea World has hosted 25 million visitors. In addition, over 600,000 school children have participated in Sea World's educational programs.

The Applicant states that in the event an animal dies during the collection, maintenance, or research of any kind, a complete autopsy will be conducted. Results of such studies will be forwarded to the Director, National Marine Fisheries Service, and any useful remains will be forwarded to the Smithsonian Institution, Dr. James Mead, Curator, or other suitable bona fide research personnel and/or institutions.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above application are available for review in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.;

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731; Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930;

Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702;

Regional Director, National Marine Fisheries Service, Northwest Region, 1700 Westlake Avenue North, Seattle, Washington 98109; and

Regional Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before June 21, 1976. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: May 17, 1976.

HARVEY M. HUTCHINGS,  
Acting Associate Director for  
Resource Management, National  
Marine Fisheries Service.

#### TWENTIETH CENTURY-FOX MARINELAND, INC.

##### Issuance of Permit To Take Marine Mammal

On March 19, 1976, notice was published in the Federal Register (41 F.R. 11594) that an application had been filed

with the National Marine Fisheries Service by Twentieth Century-Fox Marineland, Inc., 6600 Palos Verdes Drive South, Rancho Palos Verdes, California 90274, for a permit to take one Pacific pilot whale (*Globicephala macrorhynchus*) for the purpose of public display.

Notice is hereby given that, on May 14, 1976, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a permit for the above taking to Twentieth Century-Fox Marineland, Inc., subject to certain conditions set forth therein.

The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, Department of Commerce, 3300 Whitehaven Street, N.W., Washington, D.C.; and  
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: May 14, 1976.

ROBERT W. SCHONING,  
Director, National Marine  
Fisheries Service.

##### PROFESSIONAL STANDARDS REVIEW ORGANIZATION

##### Florida Physicians Regarding Intention To Enter Into Agreement Designating Professional Standards Review Organization for PSRO Area III

Notice is hereby given, in accordance with Section 1152(f) of the Social Security Act [42 U.S.C. 1320c-1(f)] and 42 CFR 101.104, that the Secretary of the Department of Health, Education, and Welfare proposes, subject to satisfactory completion of the contract negotiation process, and completion of required changes in the organizational structure and formal plan, to enter into an agreement with the Jacksonville Area Professional Standards Review Organization, Inc. for PSRO Area III, which area is designated a Professional Standards Review Organization area in 42 CFR 101.12.

The Secretary has determined that the Jacksonville Area Professional Standards Review Organization, Inc. is qualified to assume the duties and responsibilities of a Professional Standards Review Organization as specified in Title XI, Part B of the Social Security Act. The aforementioned organization is incorporated, according to the laws of the State of Florida, as a nonprofit professional organization whose membership is voluntary and comprises at least 25 per centum of the licensed doctors of medicine or osteopathy engaged in active practice in PSRO Area III of the State of Florida.

As stipulated in its Articles of Incorporation, the principal officer of the Jacksonville Area Professional Standards Review Organization, Inc. is:

##### NAME AND OFFICE HELD

- Robert K. Middlekauff, M.D., President

The official address of the corporation is 515 Lomax Street, Jacksonville, Florida 32204.

Any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area III of the State of Florida who objects to the Secretary entering into an agreement with the Jacksonville Area Professional Standards Review Organization, Inc., on the grounds that this organization is not representative of the doctors in such area may, on or before June 21, 1976, mail such objection in writing to the Secretary of the Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022. All such objections must include the physician's address, the location(s) of his office(s), his signature, and a certification that such physician is engaged in the active practice of medicine or osteopathy (i.e., direct patient care and related clinical activities, administrative duties in a medical facility, or other health related institutions, and/or mental or osteopathic teaching or research activity).

Pursuant to 42 CFR 101.103, the Secretary has determined that 910 doctors of medicine and/or osteopathy are engaged in active practice in PSRO Area III of the State of Florida. In the event that more than 10 per centum of the doctors express objections as described in the preceding chapter, the Secretary will, in accordance with 42 CFR 101.106, conduct a poll of all such doctors of medicine or osteopathy in such area to determine whether the Jacksonville Area Professional Standards Review Organization, Inc. is representative of such doctors in the area; Provided that pursuant to Section 108(b) of Public Law 94-182, the provisions of Section 1152(f) [42 U.S.C. 1320c-1(f)], relating to notification and polling, as described above, shall not apply where: (1) the membership association or organization representing the largest number of doctors of medicine in such area, or in the State in which such area is located if different, has adopted by resolution or other official procedure a formal policy position of opposition to or noncooperation with the established program of professional standards review; or (2) the organization proposed to be designated by the Secretary under Section 1152 of such Act has been negatively voted upon in accordance with the provisions of subsection (f) (2) thereof.

Dated: May 14, 1976.

LOUIS M. HELLMAN,  
Administrator,  
Health Services Administration.

#### PROFESSIONAL STANDARDS REVIEW ORGANIZATION

##### Maryland; Physicians Regarding Intention To Enter Into Agreement Designating Professional Standards Review Organization for PSRO Area I

Notice is hereby given, in accordance with Section 1152(f) of the Social Security Act [42 U.S.C. 1320c-1(f)] and 42 CFR 101.104, that the Secretary of the Department of Health, Education, and Welfare proposes, subject to satisfactory completion of the contract negotiation process, and completion of required changes in the organizational structure and formal plan, to enter into an agreement with the Western Maryland Review Organization, Inc. for PSRO Area I, which area is designated a Professional Standards Review Organization area in 42 CFR 101.24.

The Secretary has determined that the Western Maryland Review Organization, Inc. is qualified to assume the duties and responsibilities of a Professional Standards Review Organization as specified in Title XI, Part B of the Social Security Act. The aforementioned organization is incorporated, according to the laws of the State of Maryland, as a nonprofit professional organization whose membership is voluntary and comprises at least 25 per centum of the licensed doctors of medicine or osteopathy engaged in active practice in PSRO Area I of the State of Maryland.

As stipulated in its Articles of Incorporation, the principal officers of the Western Maryland Review Organization, Inc. are:

##### NAME AND OFFICE HELD

- Charles C. Spencer, M.D., President.
- Frederick Mittenberger, M.D., Vice President.
- Thomas G. Johnson, M.D., Secretary.
- Timothy F. Hickey, M.D., Treasurer.

The official address of the corporation is 329 N. Potomac Street, Hagerstown, Maryland 21740.

Any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area I of the State of Maryland who objects to the Secretary entering into an agreement with the Western Maryland Review Organization, Inc., on the grounds that this organization is not representative of the doctors in such area may, on or before June 21, 1976, mail such objection in writing to the Secretary of the Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022. All such objections must include the physician's address, the location(s) of his office(s), his signature, and a certification that such physician is engaged in the active practice of medicine or osteopathy (i.e., direct patient care and related clinical activities, administrative duties in a medical facility, or other health related institutions, and/or mental or osteopathic teaching or research activity).

Pursuant to 42 CFR 101.103, the Secretary has determined that 381 doctors of medicine and/or osteopathy are engaged in active practice in PSRO Area I of the State of Maryland. In the event that more than 10 percentum of the doctors express objections as described in the preceding chapter, the Secretary will, in accordance with 42 CFR 101.106, conduct a poll of all such doctors of medicine or osteopathy in such area to determine whether the Western Maryland Review Organization, Inc. is representative of such doctors in the area; Provided that pursuant to Section 108(b) of Public Law 94-182, the provisions of Section 1152(f) [42 U.S.C. 1320c-1(f)], relating to notification and polling, as described above, shall not apply where: (1) the membership association or organization representing the largest number of doctors of medicine in such area, or in the State in which such area is located is different, has adopted by resolution or other official procedure a formal policy position of opposition to or noncooperation with the established program of professional standards review; or (2) the organization proposed to be designated by the Secretary under Section 1152 of such Act has been negatively voted upon in accordance with the provisions of subsection (f) (2) thereof.

Dated: May 7, 1976.

#### PROFESSIONAL STANDARDS REVIEW ORGANIZATION

Missouri; Physicians Regarding Intention To Enter Into Agreement Designating Professional Standards Review Organization for PSRO Area IV

Notice is hereby given, in accordance with Section 1152(f) of the Social Security Act [42 U.S.C. 1320c-1(f)] and 42 CFR 101.104, that the Secretary of the Department of Health, Education, and Welfare proposes subject to satisfactory completion of the contract negotiation process, and completion of required changes in the organizational structure and formal plan, to enter into an agreement with the MOAF, Inc. for PSRO Area IV, which area is designated a Professional Standards Review Organization area in 42 CFR 101.29.

The Secretary has determined that the MOAF, Inc. is qualified to assume the duties and responsibilities of a Professional Standards Review Organization as specified in Title XI, Part B of the Social Security Act. The aforementioned organization is incorporated, according to the laws of the State of Missouri, as a nonprofit professional organization whose membership is voluntary and comprises at least 25 percentum of the licensed doctors of medicine or osteopathy engaged in active practice in PSRO Area IV of the State of Missouri.

As stipulated in its Articles of Incorporation, the principal officers of the MOAF, Inc. are:

##### NAME AND OFFICE HELD

1. Michael J. Clark, M.D., President
2. John Fry, D.O., Vice President
3. Walter Zabec, D.D.S., Secretary/Treasurer

The official address of the corporation is 223A Professional Building, Springfield, Missouri 65806.

Any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area IV of the State of Missouri who objects to the Secretary entering into an agreement with the MOAF, Inc., on the grounds that this organization is not representative of the doctors in such area may, on or before June 21, 1976, mail such objection in writing to the Secretary of the Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022. All such objections must include the physician's address, the location(s) of his office(s), his signature, and a certification that such physician is engaged in the active practice of medicine or osteopathy (i.e., direct patient care and related clinical activities, administrative duties in a medical facility, or other health related institutions, and/or mental or osteopathic teaching or research activity).

Pursuant to 42 CFR 101.103, the Secretary has determined that 613 doctors of medicine and/or osteopathy are engaged in active practice in PSRO Area IV of the State of Missouri. In the event that more than 10 percentum of the doctors express objections as described in the preceding chapter, the Secretary will, in accordance with 42 CFR 101.106, conduct a poll of all such doctors of medicine or osteopathy in such area to determine whether the MOAF, Inc. is representative of such doctors in the area; Provided that pursuant to Section 108(b) of Public Law 94-182, the provisions of Section 1152(f) [42 U.S.C. 1320c-1(f)], relating to notification and polling, as described above, shall not apply where: (1) the membership association or organization representing the largest number of doctors of medicine in such area, or in the State in which such area is located is different, has adopted by resolution or other official procedure a formal policy position of opposition to or noncooperation with the established program of professional standards review; or (2) the organization proposed to be designated by the Secretary under Section 1152 of such Act has been negatively voted upon in accordance with the provisions of subsection (f) (2) thereof.

Dated: May 14, 1976.

#### PROFESSIONAL STANDARDS REVIEW ORGANIZATION

New York; Physicians Regarding Intention To Enter Into Agreement Designating Professional Standards Review Organization for PSRO Area IV

Notice is hereby given, in accordance with Section 1152(f) of the Social Security Act [42 U.S.C. 1320c-1(f)] and 42 CFR 101.104, that the Secretary of the Department of Health, Education, and Welfare proposes, subject to satisfactory completion of the contract negotiation process, and completion of required changes in the organizational structure and formal plan, to enter into an agreement with the Five-County Organization for Medical Care and Professional Standards Review New York Area IV, which area is designated a Professional Standards Review Organization area in 42 CFR 101.36.

The Secretary has determined that the Five-County Organization for Medical Care and Professional Standards Review New York Area IV is qualified to assume the duties and responsibilities of a Professional Standards Review Organization as specified in Title XI, Part B of the Social Security Act. The aforementioned organization is incorporated, according to the laws of the State of New York, as a nonprofit professional organization whose membership is voluntary and comprises at least 25 percentum of the licensed doctors of medicine or osteopathy engaged in active practice in PSRO Area IV of the State of New York.

As stipulated in its Articles of Incorporation, the principal officers of the Five-County Organization for Medical Care and Professional Standards Review New York Area IV are:

##### NAME AND OFFICE HELD

1. Clarke T. Case, M.D., President
2. Robert M. George, M.D., Vice President
3. John C. Macaulay, M.D., Secretary
4. Norman C. Lyster, Jr., M.D., Treasurer

The official address of the corporation is 210 Clinton Road, New Hartford, New York 13413.

Any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area IV of the State of New York who objects to the Secretary entering into an agreement with the Five-County Organization for Medical Care and Professional Standards Review New York Area IV, on the grounds that this organization is not representative of the doctors in such area may, on or before June 21, 1976, mail such objection in writing to the Secretary of the Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022. All such objections must include the physician's address, the location(s) of his office(s), his signature, and a certification that such physician is engaged in the active practice of medicine or osteopathy (i.e., direct patient care and related clinical activities, administrative duties in a medical facility,

or other health related institutions, and/or mental or osteopathic teaching or research activity).

Pursuant to 42 CFR 101.103, the Secretary has determined that 573 doctors of medicine and/or osteopathy are engaged in active practice in PSRO Area IV of the State of New York. In the event that more than 10 percentum of the doctors express objections as described in the preceding chapter, the Secretary will, in accordance with 42 CFR 101.106, conduct a poll of all such doctors of medicine or osteopathy in such area to determine whether the Five-County Organization for Medical Care and Professional Standards Review New York Area IV is representative of such doctors in the area; Provided that pursuant to section 108(b) of Public Law 94-182, the provisions of section 1152(f) [42 U.S.C. 1320c-1(f)], relating to notification and polling, as described above, shall not apply where: (1) the membership association or organization representing the largest number of doctors of medicine in such area, or in the State in which such area is located is different, has adopted by resolution or other official procedure a formal policy position of opposition to or noncooperation with the established program of professional standards review; or (2) the organization proposed to be designated by the Secretary under section 1152 of such Act has been negatively voted upon in accordance with the provisions of subsection (f) (2) thereof.

#### PROFESSIONAL STANDARDS REVIEW ORGANIZATION

Ohio; Physicians Regarding Intention To Enter Into Agreement Designating Professional Standards Review Organization for PSRO Area II

Notice is hereby given, in accordance with Section 1152(f) of the Social Security Act [42 U.S.C. 1320c-1(f)] and 42 CFR 101.104, that the Secretary of the Department of Health, Education, and Welfare proposes, subject to satisfactory completion of the contract negotiation process, and completion of required changes in the organizational structure and formal plan, to enter into an agreement with the Region II Medical Review Corporation for PSRO Area II, which area is designated as Professional Standards Review Organization area in 42 CFR 101.39.

The Secretary has determined that the Region II Medical Review Corporation is qualified to assume the duties and responsibilities of a Professional Standards Review Organization as specified in Title XI, Part B of the Social Security Act. The aforementioned organization is incorporated, according to the laws of the State of Ohio, as a nonprofit professional organization whose membership is voluntary and comprises at least 25 percentum of the licensed doctors of medicine or osteopathy engaged in active practice in PSRO Area II of the State of Ohio.

As stipulated in its Articles of Incorporation, the principal officers of the Region II Medical Review Corporation are:

##### NAME AND OFFICE HELD

1. Conrad DeBolt, M.D., President
2. Charles E. O'Brien, M.D., Vice President
3. Leslie R. White, D.O., Secretary
4. Walter Relling, Sr., M.D., Treasurer

The official address of the corporation is 1030 Fidelity Medical Building, Dayton, Ohio 45402.

Any licensed doctor of medicine or osteopathy engaged in active practice in PSRO Area II of the State of Ohio who objects to the Secretary entering into an agreement with the Region II Medical Review Corporation, on the grounds that this organization is not representative of the doctors in such area may, on or before June 21, 1976, mail such objection in writing to the Secretary of the Department of Health, Education, and Welfare, P.O. Box 1588, FDR Station, New York, New York 10022. All such objections must include the physician's address, the location(s) of his office(s), his signature, and a certification that such physician is engaged in the active practice of medicine or osteopathy (i.e., direct patient care and related clinical activities, administrative duties in a medical facility, or other health related institutions, and/or mental or osteopathic teaching or research activity).

Pursuant to 42 CFR 101.103, the Secretary has determined that 1,337 doctors of medicine and/or osteopathy are engaged in active practice in PSRO Area II of the State of Ohio. In the event that more than 10 percentum of the doctors

express objections as described in the preceding chapter, the Secretary will, in accordance with 42 CFR 101.106, conduct a poll of all such doctors of medicine or osteopathy in such area to determine whether the Region II Medical Review Corporation is representative of such doctors in the area; Provided that pursuant to Section 108(b) of Public Law 94-182, the provisions of Section 1152(f) [42 U.S.C. 1320c-1(f)], relating to notification and polling, as described above, shall not apply where: (1) the membership association or organization representing the largest number of doctors of medicine in such area, or in the State in which such area is located if different, has adopted by resolution or other official procedure a formal policy position of opposition to or noncooperation with the established program of professional standards review; or (2) the organization proposed to be designated by the Secretary under Section 1152 of such Act has been negatively voted upon in accordance with the provisions of subsection (f) (2) thereof.

REVIEW PANEL ON NEW DRUG  
REGULATION  
Meeting**

Notice is hereby given, pursuant to Public Law 92-463, that the Review Panel on New Drug Regulation, established pursuant to 42 U.S.C. 217 a, by the Secretary of Health, Education, and Welfare, on February 21, 1975, will meet on Monday, June 7, 1976, from 8:30 a.m. to 4:00 p.m. in Room 5051 of the Department of Health, Education, and Welfare's North Building, 330 Independence Avenue, S.W., Washington, D.C. 20201. The Review Panel will consider matters pertaining to its studies of existing policies and procedures for the regulation of new drugs by the Food and Drug Administration.

The meeting is open to the public with the following exception. In accordance with the provisions set forth in section 552(b) (6), Title 5 U.S. Code and section 10(d) of Public Law 92-463, the meeting will be closed to the public from 12:15 p.m. to 2:15 p.m. for the purpose of discussion of personnel matters, the disclosure of which would constitute clearly unwarranted invasion of personal privacy.

Further information on the Review Panel may be obtained from Dr. Lionel M. Bernstein, Executive Secretary, Review Panel on New Drug Regulation, Room 3510, HEW North Building, 330 Independence Avenue, S.W., Washington, D.C. 20201, telephone (202) 472-3000.

Dated: May 11, 1976.

HISTORIC PRESERVATION**

**PUBLIC INFORMATION MEETING**

Notice is hereby given in accordance with the Federal Advisory Committee Act (P.L. 92-463) and § 800.5(c) of the Advisory Council's "Procedures for the Protection of Historic and Cultural Properties" (36 C.F.R. Part 800) that on June 7, 1976, at 7:00 p.m. a public information meeting will be held at the Fellowship House, 5th and Harry Streets, Conshohocken, Pennsylvania. The purpose of this meeting is to provide an opportunity for representatives of public

and private organizations and interested citizens to receive information and express their views on the proposed Conshohocken Central Business District Urban Renewal Project (HUD Project No. Pa. R-377) as it affects the Washington Hose and Steam Fire Engine Company No. 1, a property included in the National Register of Historic Places.

A summary of the agenda of the public information meeting follows:

I. An explanation of the procedures and purposes of the meeting by a representative of the Executive Director of the Advisory Council.

II. An explanation of the undertaking and an evaluation of its effects on the Washington Hose and Steam Fire Engine Company No. 1 by the Department of Housing and Urban Development.

III. An explanation of the undertaking and an evaluation of its effects on the Washington Hose and Steam Fire Engine Company No. 1 by the Montgomery County Redevelopment Authority.

IV. A statement by the Pennsylvania State Historic Preservation Officer.

V. Statements from local officials, private organizations, and the public on the effects of the undertaking on the Washington Hose and Steam Fire Engine Company No. 1.

VI. A general question period.

Speakers should limit their statements to approximately 10 minutes. Written statements in furtherance of oral remarks will be accepted by the Council at the time of the meeting. Additional information regarding the meeting is available from the Executive Director, Advisory Council on Historic Preservation, 1522 K Street, N.W., Washington, D.C. 20005 (202-254-3380).

ROBERT R. GARVEY, JR.,  
Executive Director.

**CIVIL AERONAUTICS BOARD**

[Docket 28098]

**CATEGORY Y FARE INVESTIGATION  
Hearing**

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on June 15, 1976, at 9:30 a.m. (local time) in Room 1003, Hearing Room D, Universal Building North, 1875 Connecticut Avenue, N.W., Washington, D.C., before the undersigned Administrative Law Judge.

For details of the issues involved in this proceeding, interested persons are referred to the Prehearing Conference Report, served on February 5, 1976, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., May 17, 1976.

WILLIAM H. DAPPER,  
Administrative Law Judge.

[Docket 29199]

**HUGHES AIR CORP., D/B/A HUGHES  
AIRWEST**

**Proposed Group Fares Prehearing  
Conference**

Notice is hereby given that a prehearing conference in this proceeding is assigned to be held on June 10, 1976, at 9:30 a.m. (local time), in Room 1003, Hearing Room D, Universal Building North, 1875 Connecticut Avenue, N.W., Washington, D.C., before Administrative Law Judge William H. Dapper.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and six copies to the Judge of (1) proposed statements of issue; (2) proposed stipulations; (3) proposed requests for information and for evidence; (4) statements of positions; and (5) proposed procedural dates. The Bureau of Economics will circulate its material on or before June 1, 1976, and the other parties on or before June 7, 1976. The submissions of the other parties shall be limited to points on which they differ with the Bureau, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., May 17, 1976.

ROBERT L. PARK,  
Chief Administrative Law Judge.

**CIVIL SERVICE COMMISSION  
FEDERAL EMPLOYEES PAY COUNCIL  
Meeting**

Pursuant to section 10(a) (2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 1:00 p.m. on Wednesday, June 9, 1976. This meeting will be held in room 5A06A of the U.S. Civil Service Commission building, 1900 E. Street, N.W., and will consist of continued discussions on future comparability adjustments for the statutory pay systems of

the Federal Government, which are defined in section 5301 of title 5, United States Code.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent:

RICHARD H. HALL,  
Advisory Committee Management Officer for the President's Agent.

## COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

### PROCUREMENT LIST 1976

#### Proposed Additions, Amendment

Pursuant to Section 2(a) (2) of Public Law 92-28; 85 Stat. 79, the following commodities published as proposed additions in the Federal Register on April 2, 1976 (41 F.R. 14211) are amended to read as follows:

Class 7530: Folder, File, Pressboard; 7530-00-286-8570, 7530-00-286-7287.

Comments and views regarding these proposed additions may be filed with the Committee not later than 30 days after the date of this Federal Register. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled six months from the date of this Federal Register.

By the Committee.

E. R. ALLEY, Jr.,  
Acting Executive Director.

[FR Doc. 76-14905 Filed 5-20-76; 8:45 am]

### PROCUREMENT LIST 1976

#### Notice of Proposed Additions

Notice is hereby given pursuant to Section 2(a) (2) of Public Law 92-28; 85 Stat. 79, of the proposed addition of the following commodities to Procurement List 1976, November 25, 1975 (40 F.R. 54742).

Class 7930: Porcelain Cleaner; 7930-00-864-7483; Wax, General Purpose, w/o Silica; 7930-00-286-1945, 7930-00-132-5582.

Class 8105: Bag, Sand, Cotton; 8105-00-285-4744.

Comments and views regarding these proposed additions may be filed with the

## NOTICES

Committee not later than 30 days after the date of this Federal Register. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled six months from the date of this Federal Register.

By the Committee.

### PROCUREMENT LIST 1976

#### Additions to Procurement List

Notice of Proposed Additions to Procurement List 1976, November 25, 1975 (40 F.R. 54742) were published in the Federal Register on February 20, 1976 (41 F.R. 7808), and April 2, 1976 (41 F.R. 14211).

Pursuant to the above notices, the following commodities are added to the Procurement List:

Class 1560: Wire Bundle Assemblies (SH); 1560-00-881-4215, 1560-00-894-3991, 1560-00-884-0409, 1560-00-934-0924, 1560-00-919-3706.

Class 6532: Cap, Operating, Surgical (SH); 6532-00-122-0468. Convalescent Suits (SH); 6532-00-512167, 6532-00-512168, 6532-00-512170, 6532-00-512171.

By the Committee.

E. R. ALLEY, Jr.,  
Acting Executive Director.

[FR Doc. 76-14907 Filed 5-20-76; 8:45 am]

## COUNCIL ON ENVIRONMENTAL QUALITY

### ENVIRONMENTAL IMPACT STATEMENTS

#### Availability

Environmental impact statements received by the Council on Environmental Quality from May 10, 1976 through May 14, 1976. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this Federal Register notice of availability. (July 5, 1976) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Bank copies will also be available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

#### DEPARTMENT OF AGRICULTURE

Contact: Coordinator of Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 369-A, Washington, D.C. 20250, (202) 447-3965.

### ANIMAL AND PLANT HEALTH INSPEC. SERVICE

#### Final

Fleming Key Animal Import Center, Monroe County, Fla., May 13: Proposed is the construction of an Animal Import Center on approximately 16 acres of Navy property on the Island of Fleming Key at Key West, Florida. Adverse impacts include the formation of chloramines in waste streams, toxaphene discharge (Chlorine gas), the possibility of accidental spillages of toxic chemicals, routine wastewater effluent discharges, and minimal objectionable odors. Comments made by: EPA, DOC, DOI and state and local agencies concerned groups. (ELR Order No. 60709.)

#### Draft

Big Hole Unit Plan, Lolo National Forest, Sanders County, Mont., May 10: Proposed is the implementation of a revised Multiple Use Plan for the Big Hole Planning Unit located on the Plains and Thompson Falls Ranger Districts, Lolo National Forest. This action affects 39,090 acres of National Forest land. The planning unit is subdivided into ten management units of similar resource potentials and problems. The primary environmental effects involve the modification of natural conditions on 9,750 acres that are presently roadless. (ELR Order No. 60693.)

#### Final

Herbicide Use, Alaska National Forests (Supplement), Alaska, May 10: This statement is the supplement to a final EIS filed with CEQ May 21, 1975. The proposed action involves vegetation control with the use of herbicides on road, railroad, and powerline rights-of-way. The herbicides proposed for use include 2,4-D, picloram, amitrole, sodium metaborate, sodium chlorate, and bromacil. Herbicide use considered in this statement is on Tongas and Chugach National Forests only. Susceptible target and non-target vegetation in the treatment areas will be reduced in vigor and, in most cases, top killed. No wildlife population will be adversely affected. Comments made by: DOC, EPA, DOI, HUD, and State agencies and local groups. (ELR Order No. 60685.)

Meadows Unit Land Use Plan, Payette National Forest, Idaho, Adams and Idaho Counties, Idaho, May 10: Proposed is a land use plan for the 141,406 acre Meadows Planning Unit Payette National Forest, Idaho. In the process of plan development the unit was divided into six management areas which were further divided into management units. Adverse effects include increases in noise and air pollution, increased sedimentation, and the displacement of some wildlife within the project area. Comments made by: DOI, EPA, HUD, USA, and State agencies and interested groups and individuals. ELR Order No. 60708.)

Kancamagus Unit Plan, White Mt. National Forest, Carroll and Grafton Counties, N.H., May 10: Proposed is the land use plan for the Kancamagus Unit of the White Mountain National Forest. Major points under the proposed action include: strategic water quality monitoring, major deer yard improvement, elimination and minimal expansion of camp and picnic grounds, more varied recreation facilities, use restrictions and carrying capacity standards, and timber sales producing over 4.8 million board feet per year. Adverse impacts of the proposal include sedimentation, stream channel instability, on-site erosion, decreased local tax revenues, and increased solid waste problems due to anticipated increase in dispersed off-road recreation. Comments made by: DOI, DOT, EPA, and State and local agencies and concerned groups. (ELR Order No. 60690.)

### FOREST SERVICE

### SOIL CONSERVATION SERVICE

#### Final

Cypress Creek Watershed, Ala. and Tenn., May 10: The statement concerns a project for watershed protection and flood prevention in Lauderdale County, Alabama, and Wayne County, Tennessee. The plan includes 19 floodwater retarding structures and 14.4 miles of channel work. About 420 acres of land will be cleared for sediment pools, dam, and spillway areas. There will be a loss of 1,340 acres of pasture and row crops and 785 acres of forest land within detention pools. An additional 208 acres of wildlife habitat will be lost. Comments made by: COE, HEW, HUD, DOI, DOT, EPA, TVA, USA, and State agencies and interest groups. (ELR Order No. 60694.)

#### DEPARTMENT OF DEFENSE, ARMY CORPS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Development, Attn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue, S.W., Washington, D.C. 20314, (202) 693-6795.

#### Draft

Marion Local Protection Project, Grant County, Ind., May 10: The project plan recommended consists of a levee along the left bank of the Mississinewa River to protect 107 acres of Marion from flooding. The levee would tie to high ground near the Anaconda plant and extend downstream along the river to the Washington Street bridge abutment. Adverse impacts of the project include the permanent loss of wildlife habitat in the 19 acre construction area and induced damages on the opposite bank and upstream from slightly higher flood heights resulting from stream confinement. (Louisville District). (ELR Order No. 60683.)

Teche-Vermillion Basin Projects, Operation and Maintenance, La., May 10: Proposed is the continued operation and maintenance dredging of the Bayou Teche, Vermillion River, and Freshwater Bayou, Louisiana projects. Continued dredging would have the following adverse effects: permanent changes in the composition of floodplain forest might occur; deposition of dredged material in existing forested areas would destroy both the trees and dependent fauna; and disturbance of some archeological or historical sites by dredging or deposition would occur. (New Orleans District). (ELR Order No. 60689.)

Vicksburg Harbor, Mississippi, Warren County Miss., May 12: Proposed are harbor improvements on Vicksburg Harbor, Mississippi. Recommended improvements include constructing an additional 600-foot wide harbor channel, widening the 150-foot wide approach channel into the present harbor, widening the Yazoo River Diversion Canal, and constructing a 100-foot wide floating area downstream from the new harbor channel. Adverse effects include the loss of about 1,267 acres of forest. Periodic increase in turbidity from dredging operations will occasionally lower water quality. (Vicksburg District). (ELR Order No. 60703.)

Sluslaw River Jetty Extension, Lane County, Ore., May 11: Proposed is the extension of the Sluslaw River and Bar Jetty in Lane County, Oregon. Project plans involve extension of the existing south jetty by 2,500 feet beyond its presently authorized length to improve bar conditions, and extension of the existing north jetty 1,400 feet beyond the 600 foot extension presently authorized to provide jetties of approximately equal length. Adverse effects include altered shoaling conditions at the mouth and potential coastal erosion. (Portland District). (ELR Order No. 60695.)

## NOTICES

Lake Wichita, Holliday Creek, Wichita Falls, Archer, Clay, and Wichita Counties, Tex., May 12: The proposed project provides for various improvements to Lake Wichita, Wichita Falls, Texas. The existing Lake Wichita dam will be replaced with an earthen dam approximately 16,000 feet long. A 50-foot wide grass-lined channel will extend from the spillway to the mouth of Holliday Creek. A low flow channel 10-feet wide by 2-feet deep will be provided in the bottom of the large channel to carry low flow releases. Adverse effects include destruction of habitat in the creek and along the streambank, and the elimination of stream fishery. (Tulsa District). (ELR Order No. 60704.)

Burnet, Crystal, and Scott Bays (2), Harris County, Tex., May 13: The proposed plan provides for permanent evacuation and assistance in relocation of residents now situated in the 50-year frequency flood plain of the Burnet, Crystal, and Scott Bays, Baytown, Texas. The plan also includes the removal of the evacuated dwellings and other structures and conversion of the land to a nature area. Adverse effects related to evacuation of residents will occur (Galveston District). (ELR Order No. 60710.)

Port of Grays Harbor/Kaiser Steel, Permitt, Grays Harbor County, Wash., May 10: The statement concerns the permit application by the Port of Grays Harbor/Kaiser Steel Corporation to dike and fill a wetland site in Grays Harbor to develop a facility for manufacture of off-shore drilling platforms. After the site has been filled, and access provided by the Port of Grays Harbor, Kaiser Steel Corporation will complete site development, construction office and service buildings, and necessary utilities. The action will result in the filling of about 39 acres of wetlands, including 25 acres of sedge marsh and 14 acres of tidal flats. Impacts will be spread via the estuary's food web, and could impact species in distant portions of the harbor (Seattle District). (ELR Order No. 60688.)

Logan and Nelsonville Water Resources Projects, Hocking County, W. Va., May 12: Proposed is the construction of the Logan and Nelsonville Local Protection Projects on the Hocking River to be operated as units of the plan of water resources development for the Central Ohio Water Development Region. The proposed plan consists of approximately 5.4 miles of channel modification along the Hocking River and approximately 3,500 feet of earthen levee along the Hocking River and Oldtown Creek at Logan, Ohio. Adverse effects include the loss or disruption of 90 acres of wildlife habitat. The projects would modify 5.4 miles of the Hocking River with an artificial channel and would adversely affect aquatic habitat. (Huntington District). (ELR Order No. 60706.)

#### Final

Lake Borgne Vicinity Navigation Projects, La., May 14: Proposed are navigation projects for operation and maintenance of the Mississippi River-Gulf Outlet, and Bayou Dupre, La. Loutre, St. Malo, and Yscloskey, all in the vicinity of Lake Borgne, Louisiana. Total project length is 111.3 miles. Dredge material will be deposited in both contained, diked disposal areas, and in open water in Breton Sound. Benthic habitats will be disrupted, and effects of resublimization of pollutants when dredged material is resuspended is yet to be determined. (New Orleans District). Comments made by: EPA, DOC, DOT, HEW, AHP, DOI, and state and local agencies and interested groups. (ELR Order No. 60716.)

Missouri River Levee System, Sarpy County, Nebr., May 11: This statement provides for the construction of the Missouri River Levee Unit R-616, the total length of which is 4.5 miles. This unit

will be built a minimum of 1,500 feet from the centerline of the Missouri River and will prevent occasional flooding on 3,950 acres of flood plain. Borrow pits will be used to obtain fill material for the levee. The project will commit 125 acres to the levee and will result in a slight increase in potential damage within the minimum 3,000 foot floodway. (Omaha District). Comments made by: EPA, DOI, USDA, DOT, HUD, and state and local agencies. (ELR Order No. 60697.)

Toledo Harbor, Maintenance Dredging, Lucas County, Ohio, May 14: The statement refers to the annual maintenance dredging of Toledo Harbor. The average volume of material dredged is about 1,175,000 cu. yds. About 20% of the material is classified as clean and is disposed of at an open water site, whereas the remaining 80% is polluted and placed into a confined disposal island via pipeline from the hopper dredge. Adverse impacts are increased turbidity, and disturbance of benthic organisms. (Detroit District). Comments made by: AHP, FPC, USDA, DOC, HEW, DOI, DOT, EPA, and state agencies and local groups. (ELR Order No. 60715.)

Oologah, Hulah, and Heyburn Lakes, Okla., May 14: Proposed is the continuance of operation and maintenance activities at Oologah, Hulah, and Heyburn Lakes, Oklahoma. These activities consist of reservoir regulation for authorized purposes, management of land resources and facilities, management of leases, easements and other outgrants, and project management and maintenance activities. Adverse effects associated with the operation of Oologah, Hulah, and Heyburn Lakes are soil erosion and/or compaction due to heavy recreational use, traffic in unauthorized areas, and effects of wave action and pool fluctuation on the shoreline. (Tulsa District). Comments made by: EPA, HUD, DOI, DOT, USDA, AHP, state agencies and conservation groups. (ELR Order No. 60717.)

Lower Monumental Lock and Dam, Wash., several counties in Washington, May 14: The statement evaluates the essentially completed Lower Monumental Lock and Dam, a Snake River project which includes a navigation lock, a three unit hydroelectric spillway dam, and 6,590 surface acre lake. Project impacts relate to recreational uses, navigation, and the operation of fish passage facilities. Operational control of water release, in particular for "power peaking," results in related impacts. (Walla Walla District). Comments made by: DOI, USCG, EPA, DOC, FPC, FEA, USDA, and state agencies and local groups. (ELR Order No. 60718.)

#### DEPARTMENT OF DEFENSE, NAVY

Contact: Mr. Peter M. McDavitt, Special Assistant to the Assistant Secretary of the Navy (Installations), Washington D.C. 20350, (202) 692-3227.

#### Draft

POL Bulk Pipeline, Naval Supply Center, Norfolk, Va., May 11: Proposed is the construction of a 10" multipurpose (DFM and JP-5) fuel line to connect the 2,500,000 barrel tankage at the U.S. Naval Bulk Storage Facility, Craney Island, with the smaller tankage at the Naval Station, Destroyer-Submarine Piers (D&S), and with the contiguous Naval Air Station. An 8" sludge line (ballast and oily wastewater) will also be constructed connecting the Naval Fuel Depot, Craney Island, with the D & S piers. Few adverse effects are anticipated from project implementation. (ELR Order No. 60699.)

#### ENVIRONMENTAL PROTECTION AGENCY

Contact: Ms. Rebecca W. Hamner, Director, Office of Federal Activities, Room WSMW 537,

401 M Street S.W., Washington, D.C. 20460, (202) 755-0780.

#### Draft

Utah Lake-Jordan R. Water Quality Management, several counties in Utah, May 10: This statement sets forth the Utah Lake-Jordan River Water Quality Management Planning Study. The study consists of a series of proposed wastewater treatment alternatives to resolve water pollution problems in all or parts of Davis, Salt Lake, Utah, Wasatch, and Juniper Counties in the state of Utah. Environmental impacts are presented in terms of impacts on water quality, land resources, and air quality, as well as economic, financial, and social impacts. (Region VIII). (ELR Order No. 60695.)

#### FEDERAL POWER COMMISSION

Contact: Dr. Jack M. Heinemann, Acting Asst. Director for Environmental Quality, 441 G Street N.W., Washington, D.C. 20426, (202) 275-4791.

#### Final

East Tennessee Natural Gas, Curtailment, May 10: The action consists of FPC's analysis of two permanent curtailment plans for the East Tennessee Natural Gas Company System. Environmental impacts resulting from curtailment are the increased use of coal and oil to replace the curtailed natural gas and the associated cost increases, and increased pollution in the form of sulfur dioxide and particulates. Rate structures and deregulation are not included as alternatives to curtailment. Comments made by: DOI, EPA, and state agencies. (ELR Order No. 60692.)

Zachary-Ft. Lauderdale Pipeline, La., Ala., and Fla., May 12: The statement concerns an application by Florida Gas Transmission Company to construct and operate 51.2 miles of 26 and 30-inch pipeline loop at nine locations and 11.3 miles of 4-inch and 5.9 miles of 20-inch lateral pipeline at three locations, and to relocate three compressor stations. Disruption along right-of-way would include the removal of vegetation on approximately 1,100 acres. Comments made by: DOI, USDA, NRC, COE, ERDA, USCG, EPA, DOC, and state agencies. (ELR Order No. 60702.)

#### GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kanders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets, N.W., Washington, D.C. 20405, (202) 343-4161.

#### Draft

Federal Building, Pocatello, Bannock County, Idaho, May 12: The proposed action involves lease construction of a Federal Building and disposal of the existing Federal Building-Courthouse, Pocatello, Idaho. The new Federal building will provide approximately 40,000 square feet of agency office space, together with service areas, to house approximately 200 employees. A total of 160 parking spaces will be provided onsite for official, visitor, and employee vehicles. Adverse effects including the displacement of seven families. (ELR Order No. 60705.)

#### Final

Federal Youth Center, Talladega, Talladega County, Ala., May 11: The proposed action calls for construction of a Federal Youth Center in Talladega, Alabama to be operated by the Federal Bureau of Prisons, Department of Justice. The proposed site for the FYC consists of about 160 acres located on the south side of Renfro Road at the edge of the city limits. The center will contain approximately 195,000 gross square feet, and

## NOTICES

will house about 400 male Federal offenders between the ages of 18 and 26. Comments made by: USDA, EPA, FPC, HEW, HUD, DOI, DLAB, AEP, state and local agencies. (ELR Order No. 60698.)

Miami Courthouse Annex, Dade County, Fla., May 12: Proposed is the construction by the General Services Administration of an Annex to the existing U.S. Post Office and Courthouse in Miami, Florida. The Annex will provide a total occupiable area of about 109,000 square feet with basement parking for 84 vehicles; the gross area will be 176,000 square feet. Adverse effects of project implementation include relocation of eight businesses and some hotel residents. Acquisition of about 21,000 square feet of land will be required. Comments made by: USDA, DOC, HEW, DOI, DLAB, EPA, state and local agencies. (ELR Order No. 60711.)

#### DEPARTMENT OF HUD

Contact: Mr. Richard H. Brown, Director, Office of Environmental Quality, Room 7258, 461 7th Street, S.W., Washington, D.C. 20410, (202) 755-6308.

#### Final

Hobbs Water and Sewer Line Extension, Lea County, N. Mex., May 10: Proposed is the extension of water and sewer trunk lines into the north and west growth areas of the City of Hobbs, New Mexico. This extension of water and sewer trunk lines into prime development areas will encourage immediate site development for permanent and mobile home housing. Adverse effects of project implementation include the depletion of present underground water supplies. Comments made by: COE, EPA, and state agencies. (ELR Order No. 60686.)

Depot Street Improvement, Berea, Ohio, May 10: The city of Berea proposes to acquire, with local funds, a strip of Penn Central railroad property, extending from Front Street on the east, approximately 1900 feet to the west. On the acquired property a 29 foot wide, two lane road with curbs will be constructed utilizing Community Development Block Grants Funds. The road will be suitable for industrial traffic and will extend from Front Street west, connecting with the existing Depot Street immediately west of the cemetery. No significant adverse effects are anticipated from project implementation. Comments made by: EPA. (ELR Order No. 60684.)

#### DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street, S.W., Washington, D.C. 20590, (202) 426-4357.

#### FEDERAL HIGHWAY ADMINISTRATION

#### Draft

I-105, California 1, El Segundo to Norwalk, Los Angeles County, Calif., May 14: The supplement is a 4(f) statement concerning the Imperial Village Park, Lennox High School, Larch Avenue Elementary School, and Lynwood Pacific Electric Railway Depot. The proposed highway will be 17.2 miles in length connecting the cities of Norwalk on the east and El Segundo near Los Angeles International Airport (LAX) on the west. A mass transit facility is planned for the median. (Region 9). (ELR Order No. 60720.)

Iowa 44 (Chatburn Ave.), U.S. 59 to 6th St., Shelby County, Iowa, May 12: The proposed project concerns the improvement of part of Iowa 44 within the corporate limits of Harlan. The project begins approximately 290 feet east of the centerline of U.S. 59 and proceeds easterly on the present alignment through Harlan to a point approximately

450 feet east of Sixth Street. The total length of the proposed 4-lane improvement is 1.09 miles. Adverse effects are expected to be minimal. (Region 7). (ELR Order No. 60701.)

I-10 Interchange, St. John the Baptist Parish, St. John Baptist County, La., May 12: The proposed action involves the construction of an interchange on Interstate 10 approximately four miles west of the existing I-10, U.S. 51 interchange located north of LaPlace, Louisiana. The proposed interchange will serve as a connecting link for a planned parish road to be constructed between I-10 and U.S. 61. The project will irreversibly replace 52 acres of cypress-tupelo swamp. (Region 6). (ELR Order No. 60714.)

Stolley Park Road, Grand Island, Hall County, Neb., May 10: The proposed improvement involves the upgrading and reconstruction of a segment of Stolley Park Road within Grand Island, Nebraska. The segment of street involved with the proposed improvement is approximately 0.75 miles long, beginning at Harrison Street and terminating at South Locust Street. Project plans also include construction of a storm sewer drainage system and construction of sidewalks on both sides of the entire length of street improvement. Little or no adverse effects are anticipated. (ELR Order No. 60691.)

U.S. 395 Corridor, Nevada, Washoe County, Nev., May 13: Proposed is the upgrading of U.S. 395 to freeway standards between the Carson City-Washoe County line and Panther Valley. The roadway would consist of four lanes throughout most of its length, with six lanes in the urban area of Reno. Adverse effects include disruption of local neighborhoods, disturbance of important archeological sites, and loss of natural and agricultural vegetation. (Region 9). (ELR Order No. 60713.)

Routes 169 and 440, Bayonne Bridge to Bayview Ave., Hudson County, N.J., May 10: The proposed action is the construction of a combination of roadway facilities including a freeway (four lanes) or land service road (four lanes), and feeder arterial sections (two and four lanes) totalling approximately 7.8 miles in length. The improvement would run from the Bayonne Bridge north through Bayonne to existing Route 440 with feeder extension into Jersey City to the vicinity of Bayview Avenue. Adverse impacts of the project include the displacement of up to 13 dwelling units and 20 commercial and industrial structures. From 100 to 210 acres of land would be required for right-of-way. (ELR Order No. 60687.)

Bridge-Stadium and Bridge-Stadium Corridor, Bernalillo County, N. Mex., May 12: The proposed project consists of the construction of a railroad overpass and the four-lane improvement of Bridge-Stadium Boulevard from 4th Street to Broadway Boulevard. The termini of the study Corridor is Coors Road (extension) on the west to Interstate 25 on the east, a distance of approximately 3.7 miles. Adverse effects include the relocation of an unspecified number of people, homes, and businesses. (Region 6). (ELR Order No. 60707.)

#### Final

Mud Lane-Waimea-Kawailae Road, Hawaii, May 12: Proposed is the construction of a new highway located in the districts of Hamakua and South Kohala, Island of Hawaii. The highway consists of two sections: Mud Lane to Waimea (Hawaii Belt Road, Route 19) and Waimea to Kawailae (Waimea-Kawailae Road). Total length is 19.3 miles. The proposed facility will be a two-lane highway with provisions and right-of-way acquisition for expansion to a four-lane divided highway. Adverse effects include the relocation of one family, one individual, and

a farming operation. Comments made by: COE, USAF, DOI, USDA, HEW, DOT, state agencies and private organizations. (ELR Order No. 60700.)

I-95, Baltimore City, Md., May 14: This statement evaluates the environmental impact resulting from the construction of a 4.2 mile section of Interstate Route 95 in Baltimore City, Maryland. The project will extend from Hanover Street in the west to O'Donnell Street in the east. Ramps for local access will be provided at McComas Street near Key Highway, Keith Avenue, and with proposed I-833 near O'Donnell Street. The project is designed as an eight-lane, fully-controlled access facility and will make I-95 a continuous facility in Baltimore City. Minimal effect on industry, land use, and existing transportation facilities would result from the recommended project. (Region 3). Comments made by: DOI, HUD, USDA, DOC, EPA, COE, state and local agencies, and interested groups. (ELR Order No. 60719.)

S.R. 371, McKinley and San Juan Counties, N. Mex., May 13: The statement refers to the proposed construction of S.R. 371, commencing 8.5 miles north of Crownpoint in McKinley County and terminating at a point 5 miles south of Farmington in San Juan County. The project length is approximately 65 miles. The most significant adverse effect will be the indirect influence of a great influx of population. Comments made by: USDA, HEW, EPA, HUD, COE, DOI, state and local agencies and concerned groups. (ELR Order No. 60712.)

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 546-5, OPP-50150]

### ELANCO PRODUCTS CO.

#### Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Elanco Products Company, Indianapolis, Indiana 46206. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 1471-EUP-45) allows the use of 150 pounds of the herbicide oryzalin (3,5-dinitro-N, N'-dipropylsulfanilamide) on tobacco (flue-cured) to evaluate control of annual grasses and broadleaf weeds. A maximum of 300 acres is involved; the program is authorized only in the States of Florida, Georgia, North Carolina, South Carolina, and Virginia. The experimental use permit is effective from May 20, 1976 to May 20, 1977.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes.

These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: May 17, 1976.

JOHN B. RITCH, JR.,  
Director,  
Registration Division.

### ICI UNITED STATES INC.

#### Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to ICI United States Inc., Wilmington, Delaware 19897. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 10182-EUP-1) allows the use of 30 pounds of the insecticide 0,0-diethyl 0 - (2 - diethylamino - 6 - methyl - 4 - pyrimidinyl) phosphorothioate on ornamental turf to evaluate control of turf pests, specifically sod webworms and chinchbugs. A total of 5 acres is involved; the program is authorized only in the State of Florida. The experimental use permit is effective from April 20, 1976, to April 20, 1977.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: May 17, 1976.

JOHN B. RITCH, JR.,  
Director, Registration Division.

## NOTICE OF RECEIPT OF APPLICATION FOR PESTICIDE REGISTRATION

### Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (39 FR 31862) its interim policy with respect to the administration of Section 3(c)(1) (D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended ("Interim Policy Statement").

On January 22, 1976, EPA published in the FEDERAL REGISTER a document entitled "Registration of a Pesticide Product—Consideration of Data by the Administrator in Support of an Application" (41 FR 3339). This document described the changes in the Agency's procedures for implementing Section 3(c)(1) (D) of FIFRA, as set out in the Interim Policy Statement, which were effectuated by the enactment of the recent amendments to FIFRA on November 28, 1975 (P.L. 94-140), and the new regulations governing the registration and re-registration of pesticides which became effective on August 4, 1975 (40 CFR Part 162).

Pursuant to the procedures set forth in these FEDERAL REGISTER documents, EPA hereby gives notice of the applications for pesticide registration listed below. In some cases these applications have recently been received; in other cases, applications have been amended by the submission of additional supporting data, the election of a new method of support, or the submission of new "offer to pay" statements.

In the case of all applications, the labeling furnished by the applicant for the product will be available for inspection at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, S.W., Washington DC 20460. In the case of applications subject to the new Section 3 regulations, and applications not subject to the new Section 3 regulations which utilize either the 2(a) or 2(b) method of support specified in the Interim Policy Statement, all data citations submitted or referenced by the applicant in support of the application will be made available for inspection at the above address. This information (proposed labeling and, where applicable, data citations) will also be supplied by mail, upon request. However, such a request should be made only when circumstances make it inconvenient for the inspection to be made at the Agency offices.

Any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after January 1, 1970, is being used to support an application described in this notice, (c) desires to assert a claim under section 3(c)(1) (D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data or the status of such data under section 10 must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the Interim Policy Statement of November 19, 1973.

The Interim Policy Statement requires that claims for compensation be filed within 60 days of publication of this notice. With the exception of 2(c) applications not subject to the new Section 3 regulations, and for which a sixty-day hold period for claims is provided, EPA will not delay any registration pending the assertion of claims for compensation or the determination of reasonable compensation. Inquiries and assertions that data relied upon are subject to protection under Section 10 of FIFRA, as amended, should be made on or before June 21, 1976.

Dated: May 13, 1976.

JOHN B. RITCH, Jr.,  
Director,  
Registration Division.

#### FEDERAL ENERGY ADMINISTRATION VOLUNTARY AGREEMENT AND PLAN OF ACTION TO IMPLEMENT THE INTERNATIONAL ENERGY PROGRAM

##### Meetings

In accordance with section 252(c) (1) (A) (i) of the Energy Policy and Conservation Act (Pub. L. 94-163), announcement is made of the following meetings:

1. A meeting of the Industry Advisory Board (IAB) to the International Energy Agency (IEA) will be held on June 3 and 4, 1976, at the offices of Exxon Corporation, 1251 Avenue of the Americas, New York, New York, beginning at 9:30 a.m. on June 3. The agenda for the meeting is as follows:

- Opening remarks by Chairman and report on communications to and from IEA including report on SEQ meetings of 28/29 April and 18/19 May.
- Matters arising from record note of IAB meeting 22nd April.
- Position of IAB/Reporting Companies under EEC competition regulations.

(B) U.S. Voluntary Plan.

4. Report on and discussion of work of Subcommittee A, including:

(A) Emergency Management Manual including:

- Discussion of implementation of articles 9.3, 9.4 and 10.1 of IEP.
- Pricing in an emergency.
- Allocation systems test.
- Data and data flow including report on 14 May meeting of Reporting Companies.
- Report on and discussion of work of Subcommittee B including report on 17 May meeting of SEQ ad hoc group on naphtha.
- Report on and discussion of work of Subcommittee C, including:

- Extraordinary costs.
  - Settlement of disputes.
  - The question of ISAG expenses in an emergency.
  - Future work program and organization of IAB.
  - Dates and venues for future meetings of IAB and subcommittees.
2. A meeting of Subcommittee A of the Industry Advisory Board (IAB) to the International Energy Agency (IEA) will be held on June 4, 1976, to be continued, if required, on June 7, 1976, at the offices of Exxon Corporation, 1251 Avenue of the Americas, New York, New York, beginning at 9:00 a.m. on June 4. The agenda for the meeting is as follows:

- IEA Allocation Systems Test, including:
- Revision of Allocation Systems Test Guide.
- Further design phase tasks.
- ISAG data formats.
- Next meeting/location.

3. A meeting of Subcommittee A of the Industry Advisory Board (IAB) to the International Energy Agency (IEA) will be held on June 2, 1976, at the offices of Exxon Corporation, 1251 Avenue of the Americas, New York, New York, beginning at 9:00 a.m. The agenda for the meeting is as follows:

- Opening remarks.
- Review of May 18/19 SEQ meeting affecting Subcommittee A activities.
- Emergency Management Manual, including:

- Oil pricing in an emergency.
- Implementation of IEP Articles 9.3, 9.4 and 10.1.
- Data and data flow, including:
- Test run of the emergency data system.
- Reporting Instructions for Japan/U.S.A.
- ISAG job descriptions and organization.
- IEA allocation systems test, including:

- Review of allocation systems test guide.
  - Review of procedures to permit U.S. monitoring of test.
  - Date and location of next meeting.
- In accordance with section 252(c) (1) (A) (ii) of the Energy Policy and Conservation Act, these meetings will not be open to the public.

Issued in Washington, D.C., May 18, 1976.

DAVID G. WILSON,  
Acting General Counsel,  
Federal Energy Administration.

#### FEDERAL MARITIME COMMISSION

RAYMOND A. CHIMELIAS DBA SHIPPERAMA-INTERNATIONAL FORWARDING AND PRACHT INTERNATIONAL INC.  
Independent Ocean Freight Forwarder License Applicants

Notice is hereby given that the following applicants have filed with the Federal Maritime Commission applications for licenses as independent ocean freight forwarders pursuant to Section 44(a) of the Shipping Act, 1916 (Stat. 522 and 46 U.S.C. 841(b)).

Persons knowing of any reason why any of the following applicants should not receive a license are requested to communicate with the Director, Bureau of Certification and Licensing, Federal Maritime Commission, Washington, D.C. 20373.

Raymond A. Chimelias dba Shipperama-International Forwarding, 9426 NW, 13th Street, Unit 52, Miami, Florida 33172.  
Pracht International Inc., One World Trade Center, New York, N.Y. 10018. Officers: Gerhard Duda, Director, Gerd Walscheid, President, Hans D. von Goetz, Vice President/Treasurer.

By the Federal Maritime Commission

Dated: May 17, 1976.

#### FEDERAL POWER COMMISSION

[Docket No. RI76-50]

#### AMAREX, INC., ET AL.

Order Setting Matter for Hearing Establishing Procedures and Granting Intervention

MAY 17, 1976.

On October 29, 1975 Amarex, Inc. (Operator), et al. (Amarex) filed in Docket No. RI76-50 an application for a certificate of public convenience and necessity authorizing the sale of natural gas to Colorado Interstate Gas Company (CIG) from the Moore Unit No. 1 Well, Mills Ranch Field, Wheeler County, Texas. In addition, Amarex filed along with its application a petition for special relief from the nationwide rate, as adjusted for small producers by Opinion No. 742, for the proposed sale pursuant to Section 2.56a

(g) (2) of the Commission's General Policy and Interpretations (18 CFR § 2.56a (g) (2)).

Amarex was issued a small producer certificate in Docket No. CS71-92. Amarex owns a 100% working interest in the Moore Unit No. 1 Well. On February 19, 1974 Amarex entered into a gas sales agreement with CIG covering acreage in three specific areas located in Wheeler County, Texas, which includes the acreage on which the Moore Unit No. 1 Well is located. Amarex states that it drilled three unsuccessful wells on the contract acreage prior to drilling the Moore Unit No. 1 Well. No sales have yet been made from the Moore Unit No. 1 Well.

The gas sales contract provides for Amarex to collect a rate of 80 cents per Mcf for the sales to CIG. However, Amarex alleges that the contract price is so low as to adversely affect the public interest, and consequently requests the Commission to grant special relief at a rate which is in excess of the contract rate and which is not so low as to adversely affect the public interest. Amarex's request is apparently in reliance upon the Commission's authority under the Sierra Doctrine<sup>1</sup> to sanction a rate in excess of a contract rate if the contract rate can be shown to be so low as to adversely affect the public interest. Amarex has submitted data purporting to show that an appropriate rate should be in the range of \$2.02 per Mcf, based on a cost study which includes the cost of the three unsuccessful wells on the contract acreage but which does not include a rate of return on investment.

In addition to its certificate application and its petition for special relief, Amarex has filed a petition for a declaratory order pursuant to Section 1.7 of the Commission's Rules of Practice and Procedure (18 CFR § 1.7). Amarex states that Mississippi River Transmission Corporation (MRT) may claim some right to purchase gas produced by Amarex from the subject acreage, and requests that the Commission order MRT to show the nature and extent of its claim, if any, or to state that it will not claim a right to purchase gas produced by Amarex. Amarex further requests that the Commission issue an order declaring MRT's entitlement, if any, to purchase the subject gas.

Notice of Amarex's application and petitions was issued on December 1, 1975, and appeared in the FEDERAL REGISTER on December 9, 1975 at 40 FR 57388. CIG filed a timely petition to intervene and requested that a hearing be held. MRT filed a timely petition to intervene in which it asserted the right to purchase 25% of the gas to be produced from the subject acreage.

In light of the factual and legal issues raised by Amarex's application and petitions, this proceeding should be set for hearing in order to provide Amarex and other interested parties an opportunity to present evidence on the issues raised and on any other matters considered to be relevant to the proceeding.

<sup>1</sup> *FPC v. Sierra Pacific Power Co.*, 350 U.S. 348 (1956).

**The Commission finds:** (1) It is necessary and in the public interest that the above-docketed proceeding be set for hearing.

(2) Good cause exists to grant the petitions to intervene of CIG and MRT.

**The Commission orders:** (A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5, 7, 14 and 16 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act (18 C.F.R. Chapter 1), a public hearing shall be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, to resolve the issues raised by Amarex's application and petitions.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 C.F.R. § 3.5(d)) shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the sole exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the Rules of Practice and Procedure).

(C) Amarex and all intervenors supporting Amarex shall file their direct testimony and evidence on or before June 11, 1976. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to this proceeding.

(D) The Presiding Administrative Law Judge shall preside at a pre-hearing conference to be held on July 8, 1976, at 9:30 A.M. EST, in a hearing room at the address noted in Ordering Paragraph (A).

(E) CIG and MRT are permitted to intervene in the above-entitled proceeding, subject to the rules and regulations of the Commission; *Provided, however*, that their participation shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions for leave to intervene; and *Provided, further*, that the admission of CIG and MRT in the manner provided shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders entered in this proceeding, and that they agree to accept the record as it now stands.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14936 Filed 5-20-76; 8:45 am]

[Docket Nos. ER76-626 and ER76-530]

**ARIZONA PUBLIC SERVICE CO.**  
**Notices of Cancellation, Proposed Rate Increases, and Other Proceedings**

May 14, 1976.

On April 15, 1976, Arizona Public Service Company (APS) tendered for filing in Docket No. ER76-530 a notice of can-

cellation of APS Rate Schedule FPC No. 17, as supplemented, governing service to Navopache Electric Co-operatives, Inc. (Navopache) and in Docket No. ER76-626 a notice of cancellation of APS Rate Schedule FPC No. 34, as supplemented, governing service to the Town of Wickenburg (Wickenburg). These notices were filed pursuant to the Commission's order issued March 31, 1976, as amended by order issued April 26, 1976, in Docket No. ER76-530 which indicated, *inter alia*, that APS' proposed rate increases to Wickenburg and Navopache were incomplete because the requisite notices of cancellation had not been filed with the Commission. Accordingly, no filing date was assigned to APS' submittals relating to Wickenburg and Navopache. Action was deferred on motions to reject submittals filed by each of the two customers. For the reasons hereinafter stated, the Commission shall accept APS' filing of its notice of termination to the two customers, accept APS' rate increase to the two customers for filing and suspend it for one day to become effective May 16, 1976 subject to refund.

On May 7, 1976 Wickenburg filed a pleading which requested that the Commission reject APS' filing of its notice of cancellation to Wickenburg, reject the rate increase to Wickenburg, and alternately, if the rate is accepted, that it be suspended for five months. The Commission shall deny Wickenburg's motions to reject for reasons stated hereinafter.

By letter dated March 31, 1975 APS cancelled its contract with Wickenburg. Thus, there is no contractual bar to APS' filing. The fact that APS continued to serve Wickenburg under the terms of the cancelled contract does not indicate that the contract was renewed by actions of the parties because APS was required to continue such service. The cancelled contract remained the only filed rate schedule and APS was required to observe it until changed. Once APS decided to change the schedule, it was required by Section 35.13 to demonstrate its right to do so. Thus, the requirement that APS file the letters terminating the contract was a requirement of Section 35.13 which has been observed.

Because APS does not propose to cancel service to Wickenburg, there is no requirement that APS proceed under Section 35.15. Accordingly, the Commission shall accept APS' rate increase to Wickenburg for filing. However, these rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. The Commission shall suspend the use of the new rates until May 16, 1976, when they shall become effective subject to refund.

Wickenburg alleges that since the material in Docket No. ER76-530 was tendered the Period I data has become "stale" in that it is now more than seven months old. However, Section 35.13(b) (4) (iii) as amended by order issued January 20, 1976 provides that Period I shall cover a period ending not more than seven months prior to the date the filing was tendered. APS tendered its filing on February 26, 1976 which was within the prescribed time limits.

With respect to the length of the suspension period, the Commission has reviewed the documents filed in these dockets and believes that a one day suspension is warranted in this case. The Commission notes that the rate increase to the other customers for whom it was permitted to become effective prior to a final Commission Order was suspended until May 1, 1976.

The Commission deferred action in its March 31 order on Navopache's motion to reject until proof of APS rights to file had been established.

As quoted in that order the following language is found in the APS-Navopache contract:

After the anniversary date of this contract in 1970 (September 14, 1970), the contract shall be deemed automatically renewed for one additional ten (10) year term, subject, however, to reopening, on notice given by either party to the other not less than two (2) years in advance effective as of the anniversary date in 1970 or any subsequent anniversary date specified in the notice of renegotiation as to rates, terms or other conditions. Thereupon the parties shall negotiate in a bona fide attempt to reach agreement mutually satisfactory as to rates, terms and conditions, but in the event that such negotiation does not result in agreement prior to the anniversary date as of which the notice to reopen is effective, then either party shall have the right to cancel this contract effective as of the anniversary on which the notice for reopening was to become effective.

APS' April 15 filing contains (1) a letter dated May 25, 1972 which purported to open the Agreement for renegotiation; and (2) a letter dated September 11, 1974 which purported to cancel the contract because renegotiations had not brought about final agreement on a new contract. These two letters are accepted for filing as demonstrating a termination of the contract between APS and Navopache. Navopache argues that the contract has been renewed for an additional 10 years and that the notice of termination referred to in the succeeding clause refers to an anniversary date of September 14, 1980. In short Navopache believes that "anniversary date" refers to the anniversary date at the end of the next term of 10 years. The Commission believes that the term "anniversary date" refers to the date the contract was signed and the yearly anniversaries of that date. The letters filed by APS clearly demonstrate that the contract was cancelled in a timely manner under this interpretation. Accordingly, Navopache's motion to reject shall be denied.

APS' filing of its notice of termination to Navopache is in accordance with the requirements of Section 35.13 of the Commission's Rules and Regulations and thereby completes APS' filing. Accordingly, APS' rate increase to Navopache shall be accepted for filing. However, the rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, the Commis-

sion shall suspend the use of the rates until May 16, 1976 when they shall be accepted for filing subject to refund.

These two filings raise issues of law and fact similar to the issues in Docket No. ER76-530 and accordingly the two dockets shall be consolidated for purposes of hearing and decision.

**The Commission finds:** (1) Navopache's and Wickenburg's motions to reject should be denied.

(2) Good cause exists to accept APS' rate increase to Navopache and Wickenburg, suspend it for one day to become effective May 16, 1976 subject to refund.

(3) Good cause exists to consolidate Docket Nos. ER76-530 and ER76-626.

**The Commission orders:** (A) Navopache's and Wickenburg's motions to reject are hereby denied.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-643]

**ARKANSAS POWER & LIGHT CO.**  
**Proposed Change in FPC Rate Schedule**

May 14, 1976.

Take notice that on April 26, 1976, Arkansas Power & Light Company (Company) tendered for filing proposed changes in one of the Company's rate schedules: Arkansas Power & Light Company Rate Schedule FPC No. 50.

The Company states that Rate Schedule FPC No. 50 is a contract between the Company and the Water and Light Commission of Hope, Arkansas (City of Hope). The change in FPC No. 50 includes the addition of one point of delivery. The change in FPC No. 50 is proposed to take effect on April 28, 1976. For this reason, the Company requests waiver of the Commission's thirty day rule on filings.

The Company states that due to a difficulty in making accurate estimates on the billing effect of this change, no billing data was filed. The company states that there will be no change in rates or provisions in the schedule other than those noted above. The Company requests waiver of the Commission's Regulations concerning this proposed filing. A copy of the filing has been mailed to the City of Hope.

Any person desiring to be heard or to protest this filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 24, 1976. Protests will be considered by the Commission in de-

(B) APS' rate increase filing (See designation in Appendix A) to Navopache and Wickenburg is hereby accepted and suspended until May 16, 1976 when it shall become effective subject to refund. APS' letters to Navopache and Wickenburg are accepted for filing (See designation in Appendix A).

(C) Docket Nos. ER76-626 and ER76-530 are hereby consolidated for purposes of hearing and decision.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

termining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14924 Filed 5-20-76; 8:45 am]

[Docket No. ER76-657]

**CENTRAL HUDSON GAS AND ELECTRIC CORP.**

**Filing of Rate Schedule**

May 14, 1976.

Take notice that Central Hudson Gas and Electric Corporation (Central Hudson), on April 30, 1976 tendered for filing as a supplement to its Rate Schedule F.P.C. No. 22 a letter of agreement and notification dated December 10, 1975 between Central Hudson and New York State Electric and Gas Corporation. Central Hudson states that this letter provides for an increase in the monthly facilities charge from \$6,803.63 to \$7,130.92 in accordance with Article IV.1. of its Rate Schedule F.P.C. No. 22, an increase in the monthly transmission charge from \$1,625.00 to \$2,430.48 in accordance with Articles V. and VI. of its Rate Schedule F.P.C. No. 22 and an increase in the annual operation and maintenance charge from \$1,471.37 to \$1,603.80 in accordance with Article IV.2. of its Rate Schedule F.P.C. No. 22. Central Hudson requests waiver of the notice requirement of Subsection 35.3 of the Commission's Regulations to permit this proposed increase to become effective January 1, 1976.

Copies of filing by Central Hudson were served upon: New York State Electric and Gas Corporation, 4500 Vestal Parkway, East, Binghamton, New York 13902.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with paragraphs 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 1, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14919 Filed 5-20-76; 8:45 am]

[Docket No. ER76-533]

#### CENTRAL VERMONT PUBLIC SERVICE CORP.

##### Order Denying Motion for Reconsideration

MAY 17, 1976.

On April 14, 1976 Central Vermont Public Service Corporation (Central Vermont) filed a motion for reconsideration of the Commission's order of March 31, 1976 in the above-referenced proceeding. Central Vermont requests a reduction in the length of the suspension period now set at five months. Upon review of Central Vermont's pleading and the March 31 order the Commission shall herein deny Central Vermont's motion.

In support of its motion Central Vermont points to the "serious erosion" of its financial condition. Further Central Vermont reassures that existing wholesale rate levels do not recover the full cost of serving its wholesale customers. In its motion Central Vermont states its belief that the length of the suspension period is largely based upon its method of demand allocation which Central Vermont vigorously defends. Finally Central Vermont states that its wholesale business constitutes a large proportion of its overall operations and must therefore make a significant contribution to the overall financial condition of the Company.

The Commission has reviewed its determination of the length of the suspension period and continues to believe that it is proper based upon an examination of Central Vermont's entire filing.

The decision concerning the length of the suspension period is one of discretion with the Commission. *Municipal Light Boards v. FPC*, 450 F.2d 1341 (D.C. Cir.—1971) cert. den. 405 U.S. 989 (1972). The Commission has reviewed the record in this case and reaffirms its March 31 order.

*The Commission finds:* Central Vermont has presented no new issues of fact or law which are sufficient to grant reconsideration of the March 31 in this proceeding.

*The Commission orders:* (A) Central Vermont's motion for reconsideration is denied.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14928 Filed 5-20-76; 8:45 am]

[Docket No. RP76-73]

#### DISTRIGAS OF MASSACHUSETTS CORP.

##### Order Granting Motion for Summary Rejection and Granting Interventions

MAY 17, 1976.

On March 18, 1976, Distrigas of Massachusetts Corporation (DOMAC) tendered for filing a proposed tariff to replace existing contracts with its LNG customers. Public notice of DOMAC's tender was issued on March 26, 1976 with comments, protests or petitions to intervene due on or before April 7, 1976. Several petitions to intervene were filed and shall be granted. In addition, a Motion for Summary Rejection was filed by Boston Gas Company. For the reasons hereinafter stated, this Motion shall be granted.

Petitions to intervene were filed by South Jersey Gas Company on April 7, 1976; Valley Gas Company on April 7, 1976; New Jersey Natural Gas Company on April 7, 1976; collectively by Bay State Gas Company, The Connecticut Gas Company, Fall River Gas Company, Haverhill Gas Company and Providence Gas Company on April 7, 1976; and, Boston Gas Company on April 5, 1976. A late petition to intervene was filed by the Brooklyn Union Gas Company on April 9, 1976. All these parties purchase LNG from DOMAC. A petition to intervene was filed also by Algonquin Gas Transmission Company (Algonquin) on April 5, 1976. Algonquin does not purchase LNG from DOMAC, but Algonquin operates LNG terminal facilities similar to those of DOMAC. Algonquin's interest in the instant proceeding is that "the Commission's decision herein may establish principles related to the rates and conditions of such sales will directly affect Algonquin Gas' interest in the *Eascogas* project, which similarly involves the sale of imported LNG."

Boston Gas Company (Boston Gas) filed on April 7, 1976 a Motion for Summary Rejection of the Proposed Gas Tariff or, in the Alternative, to Suspend such Tariff Pending a Public Hearing. Boston Gas is an intrastate customer, i.e., one which purchases LNG in the state of importation, of DOMAC. Boston Gas contends that the Court in *Distrigas Corporation v. FPC*, 495 F.2d 1057 (D.C. Cir. 1972), cert. denied, 419 U.S. 884 (1974)

"found that the Commission does not have jurisdiction under the Natural Gas Act to regulate the intrastate sales of imported LNG" to Boston Gas. The Motion then indicates the Commission could assert jurisdiction under the *Distrigas* decision as part of an import authorization under Section 3 of the Natural Gas Act, but only if this was in the public interest and supported by substantial evidence. Boston Gas asserts that since the Commission has not made such a finding, rate jurisdiction over DOMAC's LNG sales to Boston Gas has not attached.

On April 22, 1976, DOMAC filed an Answer in Opposition to Motion of Boston Gas for Summary Rejection. DOMAC's Answer alleges that the Commission's order of April 16, 1976 in this docket "either granted or substantially mooted the motion of Boston Gas." DOMAC states that "the contentions of Boston Gas that the Tariff abrogates the long-term LNG supply contracts between DOMAC and Boston Gas is not supported by fact or law." DOMAC alleges further that its contract with Boston Gas permits DOMAC to restate the contract terms in tariff form and that the contract provision is similar to that presented in *United Gas Pipe Line Co. v. Memphis Light, Gas & Water Division*, 358 U.S. 103 (1958) permitting "an adjustment in rates."

Boston Gas filed on April 30, 1976 a Renewal of Motion and Response to the Answer of DOMAC in Opposition. Boston Gas claims the Tariff "substantially changes not only the intrastate rates for LNG imported into Massachusetts but the terms and conditions associated with those sales upon which Boston Gas has relied." Boston Gas in this Renewal contends that its contract provides for change to tariff form only after it is finally determined that the Commission has jurisdiction over these intrastate sales. Boston Gas claims this bars DOMAC from filing a tariff with the Commission at present because a final determination of the Commission's jurisdiction has not been made. Finally, Boston Gas indicates that the issues raised by its April 7, 1976 Motion were not mooted by the Commission's April 16, 1976 order because the tariff contains "unjust and discriminatory features" which extend beyond the scope of reparation by refund and, therefore, may cause irreparable harm to Boston Gas.

The central question presented by Boston Gas' Renewal of Motion is whether DOMAC's filing a tariff in place of the existing contract with Boston Gas is barred by the application of the *Mobile-Sierra* doctrine. The pertinent language of the DOMAC-Boston Gas contracts reads:

If it is finally determined that any regulatory authority has jurisdiction over [DOMAC's] sales made under this contract, then in such event but not otherwise [DOMAC] shall have the right

<sup>1</sup> *FPC v. Sierra Pacific Power Co.*, 350 U.S. 348 (1956); *United Gas Pipe Line Co. v. Mobile Gas Service Corp.*, 350 U.S. 332 (1956).

to restate this contract as part of a tariff consisting of rate schedules, general terms and conditions and form of service agreement and to file such tariff with such regulatory agency."

The Commission must determine whether this language presents a contractual bar to DOMAC's filing its tariff as applied Boston Gas and, if it does, has a final determination been made concerning the Commission's jurisdiction over DOMAC's LNG sales to Boston Gas.

The primary thrust of the *Mobile-Sierra* doctrine is the preservation of the integrity of private contractual arrangements.

The obvious implication is that except as specifically limited by the [Natural Gas] Act, the rate-making powers of natural gas companies were to be no different from those they would possess in the absence of the Act to establish *ex parte*, and change at will, the rates offered to prospective customers, or to fix by contract and change only by mutual agreement, the rate agreed upon with a particular customer. *United Gas v. Mobile Gas*, supra n.1, 350 U.S. at 343.

Although the original statement of the doctrine applied specifically to increase in rates, the doctrine has been construed to include limitation of the manner in which rate changes can be made.

By ensuring that contractual obligations cannot be circumvented by one party to the contract unilaterally filing with the Commission a new tariff inconsistent with those obligations, the *Mobile-Sierra* doctrine "preserv[es] the integrity of contracts" and "permits the stability of supply arrangements which all agree is essential to the health of the . . . industry." [*Mobile*, supra, at 344] These principles apply whether the parties agree to a specific rate or whether they agree to a rate changeable in a specific manner. In either case the contract is binding and a unilateral filing is ineffective to change it. (Emphasis added) *Richmond Power & Light Co. v. FPC*, 481 F.2d 490, 497 (D.C. Cir. 1973); cert. denied sub nom., *Indiana & Michigan Electric Co. v. FPC*, 414 U.S. 068 (1973).

DOMAC's unilateral filing of a tariff to replace the existing contract it had with Boston Gas falls within the ambit of the *Mobile-Sierra* doctrine because the language of these contracts shows the parties' intent to change the contract only in a specific manner. As the Commission interprets the DOMAC-Boston Gas contracts, DOMAC may file a tariff replacing the contract only when it is finally determined that the Commission

<sup>2</sup> This same language is found in each of the four contracts between DOMAC and Boston Gas:

1. Vaporized and Liquid LNG Purchase Agreement, Section 8.3;
2. Liquefied Natural Gas Purchase Agreement, Section 7.3;
3. Vaporized LNG Purchase Agreement, Section 7.3;
4. Bulk off Purchase Agreement, Section 5.3.

has jurisdiction over these sales. Thus this language operates as a contractual bar to DOMAC's filing a tariff replacing the Boston Gas contract unless it has been finally determined that the Commission does have jurisdiction over these sales.

The question of the Commission's jurisdiction over the LNG sales by DOMAC to Boston Gas has not been finally determined. The decision in *Distrigas Corporation v. FPC*, 495 F.2d 1057 (D.C. Cir. 1974), did not indicate that final determination of this question has been achieved. The Court of Appeals stated two bases for the Commission deciding it has jurisdiction, but found the record before it lacking necessary elements for final resolution.

While we do not believe the Commission [is] in any way estopped from imposing on Distrigas the equivalent of Section 7 requirements, two considerations prevent us, on the present record, from affirming the Commission's order as a proper exercise of its Section 3 authority. *Ibid.*, 1066.

The two considerations were the lack of a Section 3 hearing and the lack of the proper Section 3 "necessary or appropriate" determination.

The Court of Appeals indicated also that the "commingling" theory was deficient on the record before it.

[T]he Commission originally grounded its order on a "commingling" theory. It eschewed that theory, however, in its order denying rehearing. In addition, it failed, both in its original order and in its order denying rehearing, to make any findings of jurisdictional fact or to provide any reasoned analysis to support a conclusion that, because of commingling, the Commission has jurisdiction over Distrigas' facilities and sales. *Id.*, 1057.

While the Commission believes it may be possible to find jurisdiction over DOMAC's sales to Boston Gas in a manner fully supported as a part of the final decision in Docket No. CP70-196 which deals with this question, such a final determination has not been made as yet. In view of this, the contractual language preventing the unilateral change from a contract to a tariff prior to the final determination of the Commission jurisdiction bars the instant filing by DOMAC as

<sup>3</sup> DOMAC claims the same provisions of the Boston Gas contracts contain *Memphis*, supra, 358 U.S. 103, clauses which permit "an adjustment in rates." However, the *Memphis* clause of these provisions does not operate unless it has been determined that the Commission has jurisdiction: "In such event [that jurisdiction is found] but not otherwise [DOMAC] further shall have the right to propose to any such regulatory authority changes in the rates, charges, classifications, services, practices, rules and regulations contained in such tariff." Since this sentence contemplates the existence of a tariff it has no applicability here where a tariff is being filed for the first time by DOMAC for these sales.

it relates to Boston Gas. Therefore, the Commission shall grant Boston Gas' Motion for Summary Rejection and reject DOMAC's tariff as it relates to Boston Gas.

*The Commission finds:* (1) The petitions to intervene may be in the public interest.

(2) Good cause exists to grant Boston Gas' Motion for Summary Rejection.

*The Commission orders:* (A) Boston Gas' Motion for Summary Rejection is hereby granted.

(B) DOMAC's proposed Tariff as it relates to Boston Gas is hereby rejected.

(C) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission; *Provided, however*, that the participation of such intervenor shall be limited to matters affecting the rights and interests specifically set forth in each of their notices of intervention; and *Provided, further*, that the admission of such intervenors shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(D) The Secretary shall cause prompt publication of this order to be made in the Federal Register.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

[Dockets Nos. AR64-1, et al. and RP67-9 (Refunds)]

#### AREA RATE PROCEEDING (HUGOTON ANADARKO AREA) AND EL PASO NATURAL GAS CO.

##### Filing of Refund Report

MAY 13, 1976.

Take notice that on April 14, 1976, El Paso Natural Gas Company ("El Paso") submitted a report of refunds received from its producer-suppliers during the period July 1, 1975, through March 31, 1976.

El Paso states that the instant filing is in accordance with Article IV of the Stipulation and Agreement approved by the Commission Order issued on April 3, 1967, in Docket No. RP67-9 and is in compliance with ordering paragraph (C) of the Order issued on March 17, 1975 in Docket Nos. AR64-1, et al.

El Paso states that copies of its filing have been served upon El Paso's jurisdictional customers and upon interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 1, 1976. Protests will be

considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 76-14915 Filed 5-20-76; 8:45 am]

[Docket No. CP74-126]

**EL PASO NATURAL GAS CO.  
Petition To Amend**

MAY 14, 1976.

Take notice that on May 6, 1976, El Paso Natural Gas Company (Petitioner), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP74-126 a petition to amend the order of the Commission issuing a certificate of public convenience and necessity in said docket pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to operate an additional exchange point in Eddy County, New Mexico, and to exchange gas at such point with Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner is authorized in the instant docket to operate facilities and to exchange natural gas with Natural. Petitioner states that Natural has acquired additional gas supplies in proximity to Petitioner's facilities in Eddy County, New Mexico, and that in order to avoid the necessity for Natural's constructing duplicative facilities to take the gas Petitioner has agreed to receive the gas from Belco Petroleum Company and Bass Enterprises Production Company for the account of Natural. Petitioner states that the gas would be received from the producers by means of Petitioner's existing wellhead measurement facilities and that no new facilities are required to be constructed and operated by Petitioner and Natural. The new exchange point would be known as the Eddy No. 6 exchange point.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 7, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition

to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 76-14926 Filed 5-20-76; 8:45 am]

[Docket No. CP75-362]

**EL PASO NATURAL GAS CO.  
Order Setting Pre-Hearing Conference Prescribing Procedures and Granting Interventions**

MAY 17, 1976.

On June 11, 1975, El Paso Natural Gas Company (El Paso) filed at Docket No. CP75-362 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon and retire from natural gas service certain mainline transmission pipeline, compression, and right-of-way tap facilities presently comprising a part of its interstate gas pipeline transmission system. El Paso states that if the abandonment is granted, it would convert certain of the abandoned facilities to the transmission of crude oil. El Paso states that the converted line would become an integral part of a proposed crude oil pipeline system which would extend from Long Beach, California, to the vicinity of Midland, Texas (the "Crude Oil Project"). The Crude Oil Project, if implemented, would deliver surplus Alaskan crude oil to the Midwest, Gulf Coast and Eastern United States.

On September 11, 1975, El Paso submitted data respecting its application in response to an August 12 data request by Staff. On December 8, 1975, El Paso filed a first supplement and amendment to its application. On January 16, 1976, El Paso filed and served its prepared direct testimony and proposed hearing exhibits in support of its abandonment application.

The facilities that El Paso seeks to abandon consist of:

- (i) Approximately 669.4 miles of 30" O.D. and 26" O.D. high pressure gas transmission pipeline;
- (ii) A total of 57,050 horsepower located at six compressor stations; and
- (iii) Five taps used for the sale and delivery of natural gas for resale to five grantors of pipeline rights-of-way.

El Paso states that it also seeks permission and approval under § 7(b) of the Natural Gas Act to abandon the sale of natural gas for resale made by means of such taps. El Paso states that it will attempt to negotiate alternative arrangements with the five right-of-way grantors whose natural gas service would be affected.

El Paso states that despite its continuing efforts to connect new gas supplies to support or increase sales from its system, El Paso's available gas supply in 1977, and thereafter, will be depleted to such an extent that the continued operation in natural gas service of the facilities proposed to be abandoned is unwar-

ranted. El Paso states that its interstate transmission system's maximum day design capacity is approximately 3,999 MMcf. El Paso states that during the past several years it has been unsuccessful in its efforts to acquire new supplies of natural gas capable of even offsetting the decline in deliverability of its existing supply sources. Therefore, El Paso is curtailing gas service pursuant to Commission orders issued at Docket No. RP72-6. El Paso projects winter peak day gas service at 2,797 MMcf for December 1977, 2,804 MMcf for January 1978 and 2,597 MMcf for January 1979. Thus, the minimum peak day idle capacity that El Paso projects is 1,195 MMcf. El Paso's proposed abandonment would reduce the natural gas pipeline capacity by 683 MMcf per day.

El Paso states that on May 6, 1975, it executed a preliminary agreement with the Standard Oil Company, Ohio (Sohio) respecting the conversion of certain of the facilities proposed to be abandoned to crude oil service, in connection with the "Crude Oil Project". The Crude Oil Project contemplates the use of both new and existing facilities to initially transport up to 500,000 barrels per day of Alaskan crude oil, off loaded in California. The project could ultimately be expanded to 1,000,000 barrels per day. The El Paso facilities proposed to be converted would comprise a part of a crude oil pipeline system extending approximately 1,000 miles from the West coast of California to terminal storage facilities near Midland, Texas, and to points of connection with existing liquid pipelines in that area. Sohio would be responsible for connecting oil pipeline facilities from the receipt location in California to the El Paso pipeline near Blythe, California and from the terminus of the El Paso pipeline near Jal, New Mexico to the area near Midland, Texas.

The original cost of the El Paso pipeline proposed to be abandoned is approximately \$95 million. If the abandonment is granted, El Paso proposes that, pursuant to Section 8.03(4) of its Indenture of Mortgage, an independent engineer will make an estimate of the fair market value of the properties to be released from the mortgage (i.e. abandoned). Next, Coronado Pipeline Company (Coronado), a wholly owned subsidiary will finance the purchase from El Paso of the facilities to be converted. The purchase price will be the fair market value determined by the independent engineer. Coronado would then deposit cash with the trustee equal to the fair market value and the trustee will release the properties from the lien of the pipeline mortgage and El Paso will sell the facilities to Coronado. Finally, Coronado would lease the pipeline to Sohio Transportation Company, a wholly owned subsidiary of Sohio.

The initial term of the lease to Sohio Transportation would be twenty years commencing with the date that all permits, authorizations and approvals required for the abandonment of natural

gas through El Paso's facilities have been issued to and accepted by El Paso and such service has been discontinued. Sohio Transportation would pay rent to Coronado at the rate of \$11,300,000 per year until the Crude Oil Project is capable, on a sustained basis, of transporting 500,000 barrels per day of oil from the Southern California ocean port to the Midland, Texas terminus point.<sup>1</sup>

Petitions to intervene have been filed by:

Texas Eastern Transmission Corporation  
California Gas Producers Association  
Natural Gas Pipeline Company of America  
San Diego Gas and Electric Company  
Tuscon Gas & Electric Company  
Northern Border Pipeline Company  
Standard Oil Company, Ohio  
Alaskan Arctic Gas Pipeline Company  
Southern California Gas Company  
Arizona Public Service Company  
Pacific Gas and Electric Company  
Southern California Edison Company  
Salt River Project Agricultural Improvement and Power District  
Michigan Wisconsin Pipe Line Company  
Southern Union Gas Company  
Southwest Gas Corporation  
Federal Energy Administration  
Railroad Commission of the State of Texas

In addition, a joint notice of intervention has been filed by the People of the State of California and the Public Utilities Commission of the State of California (California).

On January 23, 1976, El Paso filed a motion to phase hearings and to establish procedural dates or alternatively to order a prehearing conference. In its motion, El Paso states that by early 1978 a surplus of crude oil in the range of 400,000 barrels per day will exist in the markets of the western United States. El Paso states that the abandonment authorization sought herein must be obtained not later than the first quarter of 1977.

El Paso proposed a phased hearing with Phase I to include presentation and cross-examination of all evidence required under Section 7(b) and would include the presentation and cross-examination of any environmental evidence to be presented by any parties except Staff. Phase II would consist of hearings on Staff's environmental impact statement. In addition, El Paso requests that the Commission set dates for the service of testimony and exhibits by supporting intervenors. Furthermore, El Paso requests that the Commission either set a date for the commencement of hearings or for a pre-hearing conference. Finally, El Paso states that due to the imperative need for timely action on its application, it will file, at an appropriate time in the future, a petition to the Commission to modify the procedures specified in Sections 2.80 and 2.82 of the Commission's Statements of General Policy and Interpretations in order to permit cross-examination of the Staff's Draft Environmental Impact Statement rather than Staff's Final Environmental Impact Statement.

<sup>1</sup> From that point until the end of the initial term, Sohio Transportation will pay \$17,000,000 per annum.

<sup>2</sup> Intervention requests a formal hearing.

California, in a response to El Paso's motion, stated that it does not object to a phased proceeding. California stated that it does object, however, to the requirement that intervenors file environmental testimony prior to the issuance of Staff's Final Environmental Impact Statement. Finally, California supports El Paso's alternate suggestion that a pre-hearing conference be convened for the purpose of adopting procedural dates. The Federal Energy Administration (FEA) has coupled its intervention with a statement in support of El Paso's motion.

We believe that a formal hearing should be convened to develop a complete record in this proceeding. In this order, we will establish a date for the filing of testimony by supporting intervenors and we will grant El Paso's alternate motion for the convening of a pre-hearing conference. We note that El Paso has not made a formal motion to modify the procedures specified in Sections 2.80 and 2.82 of the Commission's Statements of General Policy and Interpretations. However, the particular circumstances which underlie El Paso's application for abandonment in this proceeding warrant our prescribing a procedural course of action with respect to the environmental aspects that fall within the sphere of this agency's responsibility in order to assure that the progress of this proceeding is not unduly impeded.

The abandonment for which El Paso seeks Commission approval in this proceeding is merely one step that it must take in order to bring its overall proposal to full fruition. Before reaching this goal El Paso and Sohio will also require the approval of another federal entity, i.e., the Department of the Interior. The fact that the overall project will necessitate El Paso's obtaining the approval of more than one federal entity raises the question of the precise scope of this Commission's responsibility under NEPA,<sup>2</sup> and the manner in which it should undertake to implement these responsibilities in this particular proceeding.

The formulation of an Environmental Impact Statement (EIS) is necessarily a costly and time consuming process due to the fact that a broad spectrum of highly complex subjects must be considered. Hence, the situation presently before us requires that we prescribe a course of action relative to environmental considerations that will avert a duplication of effort on this issue by the Federal entities involved. Additionally, it is necessary for us to define appropriate procedures at this juncture relative to environmental matters affecting those limited areas of responsibility that fall within the sphere of our jurisdiction in order to avert impeding the expeditious resolution of a project that may be of significant national importance.

Even though the permission sought herein to abandon certain facilities is

<sup>2</sup> National Environmental Protection Agency Act (NEPA), 42 USC 4332(2)(c).

undoubtedly an important first step in the progression of the overall project, our role, when viewed in the context of the overall project, is merely ancillary in nature.<sup>4</sup>

However, the abandonment of the aforementioned pipeline facilities appears to be an integral part of the overall project. The Department of Interior has evidently already made a determination that the project is a "major federal action" under NEPA. In view of the fact that Interior has the broadest spectrum of responsibility with respect to the overall project being considered herein, it must be regarded as being the so-called "lead agency" under the tenets of the recent decision handed down by the DC Circuit in the *Alice Henry* case.<sup>5</sup>

Interior will, therefore, formulate and circulate an EIS with respect to the overall project. It would serve no useful purpose for this agency, in view of the aforementioned, to undertake a parallel and duplicative effort in this matter. It will, therefore, defer any action with respect to the promulgation of an appropriate EIS for the overall project to Interior and at a suitable time formally adopt that document unless it finds that it can not do so upon reviewing it. In which event, the Commission will make provision to assure that Interior's EIS, and any modifications or revisions that it may suggest be made thereto, is incorporated into the record developed in this proceeding.

We note that El Paso, in anticipation of an order providing for formal hearing, has already filed much of its direct testimony and exhibits. This testimony should, of course, be updated, and completed by the filing of the environmental presentation. In addition, the proceeding should develop, *inter alia*, a record on the following subjects:

(1) El Paso shall provide a schedule of estimated remaining recoverable gas reserves from reservoirs dedicated to the pipeline. This schedule should include an explanation of any large decline in deliverability from a reservoir field and a listing of all attempts by producers to abandon sales of natural gas to El Paso. This latter listing should include an explanation of El Paso's response to any attempts to abandon sales.

(2) El Paso shall provide a listing of potential reserves which could be attached to the pipeline system in the near future. This listing should include gas from offshore sources, LNG, SNG and coal gasification proposals.

<sup>4</sup> The Commission's sphere of responsibility relates to the issue of whether or not it should grant abandonment to El Paso with respect to its operations relative to certain of its in-place mainline natural gas transmission facilities which are allegedly in excess of its needs due to the critical natural gas shortage.

<sup>5</sup> See *Alice Henry v. FPC*, Case Nos. 73-2090, et al. DC CA decided July 28, 1975, affirming the Commission's Opinion No. 663, *El Paso Natural Gas Company*, 50 FPC 651 (1973).

(3) El Paso shall discuss the effect of the proposed abandonment on the application in El Paso Eastern Company, Docket No. CP73-358, *et al.*, and El Paso Natural Gas Company, Docket No. CP73-131.

(4) El Paso shall provide a complete explanation of the proposed operation of its natural gas system if the El Paso proposal in El Paso Alaska, *et al.*, Docket No. CP75-96, *et al.*, and the abandonment proposed herein are approved. This explanation should consider the proposed operation of the natural gas system if abandonment of facilities for Phase II of the Crude Oil Project is approved and should list the facilities proposed to be abandoned in Phase II of the Crude Oil Project.

(5) El Paso shall list any requests for transportation of natural gas under Order No. 533 and discuss the effect of the proposed abandonment upon future requests.

(6) El Paso shall explain why it did not follow the required accounting procedure for Gas Plant Instruction 4F, Gas Plant Purchased or Sold. In its response, El Paso shall estimate the accumulated depreciation and shall provide a breakdown of the vintage years when the facilities proposed to be abandoned were placed into service.

(7) El Paso and/or Sohio shall discuss the effect of the proposal on the quality of the human environment.

(8) El Paso shall explain the necessity of a sale to Coronado rather than a direct lease by El Paso to Sohio Transportation.

(9) El Paso and/or Sohio shall present any contracts or agreements with producers of the Alaskan crude oil to transport such oil through the Crude Oil Project.

(10) El Paso and/or Sohio shall present studies on the financial feasibility of the Crude Oil Project. Such data shall include a discounted cash flow analysis of the project, anticipated transportation charges for the oil and the effect of Interstate Commerce Commission restraints on return.

(11) El Paso and/or Sohio shall discuss proposed market distribution of the oil after refining. Such discussion shall include projected cost of the oil to the end-use consumer.

*The Commission finds:* (1) It is necessary and appropriate that the proceeding in Docket No. CP75-362 be set for formal public hearing.

(2) El Paso's alternative motion for the convening of a pre-hearing conference should be granted.

(3) Under § 1.8 of the Commission's Rules of Practice and Procedure, a pre-hearing conference should be convened to establish procedures to expedite the orderly conduct of the formal hearing.

\*The El Paso-Sohio agreement of May 6, 1975, seems to indicate that El Paso is obligated to seek authorization for abandonment of the Phase II facilities.

(4) The petitions to intervene may be in the public interest.

*The Commission orders:* (A) El Paso Natural Gas Company, and all supporting intervenors, shall file direct testimony and exhibits comprising their cases-in-chief on all issues set forth in this order on or before June 4, 1976.

(B) A pre-hearing conference is to be convened on June 10, 1976, at the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, to discuss procedural issues as noted in this order. The Presiding Judge has authority to establish and change all procedural dates, and to rule on all motions (with the sole exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss) as provided for in the Rules of Practice and Procedure.

(C) The motion of El Paso to expedite procedures is granted to the extent stated herein.

(D) The record of this proceeding shall remain open until the submission of the Commission Staff's final environmental impact statement and the presentation of supporting environmental testimony.

(E) The above-mentioned petitioners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission; Provided, however, that participation of such petitioners shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene, and Provided, further, that the admission of such petitioners shall not be construed as recognition by the Commission that they might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14933 Filed 5-20-76; 8:45 am]

[Docket Nos. ER76-397 and E-9091]

#### GEORGIA POWER CO. Order Denying Rehearing

MAY 17, 1976.

On April 19, 1976, the Cities of Acworth, Georgia, *et al.*, and the Electric Cities of Georgia, Georgia Municipal Association, Inc. (Cities) filed an application for rehearing of the Commission's March 19, 1976 order in these dockets. For the reason hereinafter stated, the Commission shall deny the application for rehearing.

By order issued March 19, 1976, the Commission accepted for filing and suspended for one day a proposed fuel adjustment clause as well as a temporary fuel surcharge tendered for filing by Georgia Power Company (Georgia Power). The Commission, after fully considering the formal protest and the arguments presented by the Cities, set the matter for hearing stating

"Insofar as the matters raised by petitioners (Cities) are proper subjects for investigation rather than bases for a rejection of the proposed filing, we shall deny Cities' motion for rejection."

In their April 19, 1976 application for rehearing, the Cities seek rehearing of the Commission's acceptance of the proposed fuel adjustment clause and the decision to suspend the use of the fuel adjustment clause for one day. In support of their application, the Cities argue (1) that the clause does not conform to Section 35.14 of the Commissions Regulations in that the clause is based on estimated rather than actual fuel costs and energy sales for the current period; (2) that the proposed fuel adjustment clause removed a built-in incentive for Georgia Power to bargain for lower prices from its fuel suppliers by doing away with the "lag" in collecting fuel cost increases; (3) that the temporary fuel surcharge constitutes unlawful retroactive ratemaking; and (4) that the surcharge was discriminatory against the Cities since it is not to be applied to Georgia Power's Cooperative customers.

These allegations are identical to those cited in the Cities' original protest which were fully considered by the Commission in its determination to suspend Georgia Powers filing and set it for an investigative hearing rather than to reject the filing. The Cities have not presented the Commission with any basis upon which to amend that conclusion.

Upon thorough consideration of Georgia Powers filing, and the Cities' protest and petition to intervene the Commission found a one-day suspension period to be warranted. After further consideration, we reaffirm our view that a one-day suspension is in order and that it represents a proper exercise of Commission discretion. Reconsideration of the suspension period shall be denied.

The Commission finds: Good cause does not exist to grant the application for rehearing of the Commission's March 19, 1976 order in these dockets filed on behalf of the Cities.

The Commission orders: (A) Good cause not present the Commission hereby denies the Cities' April 19, 1976 application for rehearing of the Commission's March 19, 1976 order in these dockets.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

#### LOCKHART POWER CO. Conference

MAY 14, 1976.

Take notice that on May 24, 1976, Staff is convening a conference of all interested persons for the purpose of discussing the issues in the above-captioned proceeding. The conference will be held in Room 8402 of the offices of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 at 10:00 a.m.

All interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance will not be deemed to authorize intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14923 Filed 5-20-76; 8:45 am]

[Docket Nos. ER76-209 and ER76-492]

#### METROPOLITAN EDISON CO. Settlement Conference

MAY 14, 1976.

Take notice that on June 16, 1976, a conference to discuss the issues in the captioned proceedings will be convened at the offices of the Federal Power Commission, 825 North Capitol Street N.E., Washington, D.C. 20426. The conference will convene at 10:00 a.m. The room number of such conference will be posted with the schedule of hearings on the Second Floor of the Commission's offices.

Customers and other interested persons will be permitted to attend, but if such other persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of Metropolitan Edison's proposed changes to its rates and any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulation discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

Copies of this notice are being mailed this date to all jurisdictional customers and interested State commissions.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP76-31]

#### LOUISIANA-NEVADA TRANSIT CO. Order Identifying Producers Made Parties to Proceeding

MAY 17, 1976.

Ordering Paragraph (B), mimeo p. 4, of the Commission's order issued March 22, 1976, in the above-captioned docket directed Louisiana-Nevada Transit Company (LNT) to file a list of the names and addresses of the Walker Creek producers associated with the court decision, *Louisiana-Nevada Transit Company v. Dalton J. Woods, et al.*, (Case No. T-73-C-43, U.S. Dist. Ct. W. Dist. Ark., issued June 9, 1975) and stated that the Commission would thereafter issue an order identifying the producers made parties to this proceeding. On April 1, 1976, LNT filed a list of said producers. The Commission hereby identifies the producers listed in Appendix A as parties to this proceeding.

The Commission finds: Good cause exists to identify the Walker Creek producers made parties to this proceeding.

The Commission orders: (A) The producers listed in Appendix A are hereby identified as parties to this proceeding.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP76-366]

## NORTHERN NATURAL GAS CO.

## Application

MAY 14, 1976.

Take notice that on May 7, 1976, Northern Natural Gas Company (Applicant), 223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP76-366 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and delivery of natural gas for Iowa-Illinois Gas and Electric Company (Iowa-Illinois) under a transportation and rescheduling of deliveries arrangement, all as more fully set forth in the application on file

with the Commission and open to public inspection.

The application states that pursuant to a gas transportation and rescheduling agreement among Applicant, Iowa-Illinois, and Natural Gas Pipeline Company of America (Natural) dated April 21, 1976, Applicant has agreed to transport and deliver to Natural, for the account of Iowa-Illinois, up to 5,000 Mcf of summer maximum daily volume of gas from March 27 through October 26, the summer season. Natural would transport and deliver such volumes to Iowa-Illinois for liquefaction and storage in Iowa-Illinois' LNG facility at Bettendorf, Iowa. It is stated that the gas delivered to Iowa-Illinois during the summer season would be gas available to Iowa-Illinois from its authorized entitlements from Applicant for the Fort Dodge billing group. From October 27 through March 26, the winter season, Natural would deliver up to 5,000 Mcf of winter maximum daily volume of gas to Applicant, for the account of Iowa-Illinois. The application states that the total volumes transported and delivered by Applicant for Iowa-Illinois pursuant to the gas transportation and rescheduling agreement would not exceed 100,000 Mcf during any one summer season or during any one winter season. Deliveries to and from Natural for the account of Iowa-Illinois would be at an existing interconnection between Applicant's and Natural's facilities in Glenwood, Mills County, Iowa, it is said.

Applicant proposes to charge Iowa-Illinois a demand charge which would be determined by applying the monthly summer or winter season demand rate to the appropriate maximum daily volume. Applicant also proposes to charge Iowa-Illinois a commodity charge which would be determined by applying the summer or winter season commodity rate by the summer or winter season transport volumes. The rates are as follows:

	Winter season (1,000 ft <sup>3</sup> )	Summer season (1,000 ft <sup>3</sup> )
Commodity (in cents)	3.97	0.98
Monthly demand	\$1.53	\$0.99

The application states that the minimum annual bill would be \$39,300.

The application states that Iowa-Illinois has advised Applicant that the proposed transportation and rescheduling arrangement is required in order to assure maintenance of reliable and adequate service to Iowa-Illinois' firm and small volume customers during future heating seasons. The application states further than all winter season volumes delivered to Iowa-Illinois by Applicant as proposed in the instant application would be distributed by Iowa-Illinois only to its firm and small volume customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 9, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## NORTHERN NATURAL GAS CO.

## Extension of Time

MAY 14, 1976.

On May 10, 1976, Northern Natural Gas Company filed a motion for an extension of time within which to respond to the filings of Lake Superior District Power Company and Flambeau Paper Company, made on May 3rd and May 7, 1976, respectively, relative to the revised tariff sheets, containing revised curtailment procedures in the above matter.

Upon consideration, notice is hereby given that the time is extended to and including May 26, 1976, within which to respond to comments filed in this matter.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 76-14914 Filed 5-20-76; 8:45 am]

[Docket No. E-9552]

## OTTER TAIL POWER CO.

## Order Authorizing the Transfer of Facilities

MAY 14, 1976.

On March 18, 1976, Otter Tail Power Company (Applicant), filed an application, pursuant to Section 203 of the Federal Power Act, for an order authorizing it to sell to Cooperative Power Association certain 115 Kv transmission lines

and associated easements, permits, licenses and property rights located in the Minnesota Counties of Big Stone and Lac Qui Parle and the South Dakota County of Grant. The Cooperative Power Association will pay the Applicant a cash consideration of \$450,000 for said property. The purchase price was arrived at by arm's length negotiations by the parties.

Applicant is incorporated under the laws of the State of Minnesota, with its principal business office at Fergus Falls, Minnesota and is engaged in the generation, transmission, distribution and sale of electrical energy in the states of Minnesota, North Dakota and South Dakota. Cooperative Power Association is a transmission Cooperative, whose members are rural electric cooperatives in the State of Minnesota.

Applicant and Cooperative Power Association entered into an Integrated Transmission Agreement dated August 25, 1967, which provided for the continued interconnection and operation of an integrated transmission system within the common operating areas of the parties. In order to effectuate the agreement, the Applicant has from time to time sold several items of electric equipment to Cooperative Power Association. These transactions were authorized by Commission's Orders issued April 5, 1968 and September 20, 1971 in Docket No. E-7395.

The proposed transaction is part of an on going effort to implement the August 1967, Integrated Transmission System Agreement between Applicant and Cooperative Power Association, wherein each is required to make an aggregate investment in transmission facilities proportionate to its load on the system. Applicant states that this unified transmission system will, through joint planning, construction, and use, benefit both parties primarily by avoiding wasteful duplication of facilities and providing some economies of scale as larger facilities can be constructed for joint use than either party could justify for its own use.

The original cost of the lines to be sold is \$445,982 and the accumulated depreciation is \$10,400 resulting in a net book value of \$435,582. Applicant proposes to credit the excess of the selling price over net depreciated cost, \$14,418, to Account 421.1 Gain on Disposition of Property, net of related income taxes, and to Credit Account 236, Taxes Accrued, for the related income taxes. Staff excepts to Applicants' proposed treatment of the income tax effect of the gain on the sale. The text of Account 421.1, Gain on Disposition of Property, requires that amounts credited thereto be gross amounts. Income taxes related thereto are required to be charged to Account 409.2 Income Taxes, other income and deductions.

Written notice of the application has been to the Minnesota Public Service Commission, the North Dakota Public Service Commission, the South Dakota Public Service Commission and to the

Governor of each of those States. Notice was also given by publication in the FEDERAL REGISTER, stating that any person desiring to be heard or to make any protest with reference to said application, should on or before April 23, 1976, file, petitions or protests, with the Federal Power Commission, Washington, D.C. 20426. No petition, protest or request to be heard in opposition to the granting of the application has been received.

The Commission finds: (1) Otter Tail Power Company, a Corporation, is a public utility within the meaning of Section 203 of the Federal Power Act, subject to the jurisdiction of the Commission.

(2) The proposed transfer of electrical facilities, as described above, will constitute a transaction within the meaning of Section 203 of the Federal Power Act.

(3) The proposed transaction, as described above, upon the terms and conditions and for the purposes contained in the application will be consistent with the public interest as expressed in Section 203 of the Federal Power Act.

(4) The period of public notice given in this matter is reasonable.

The Commission orders: (A) The proposed transaction, as described above, is authorized and approved upon the terms and conditions and for the purposes set forth in the application, subject to the provisions of this order.

(B) The Applicant shall record the proposed transaction herein authorized and the facilities and properties described above as provided in the Commission's Uniform System of Accounts, and shall charge the income tax related to the gain to Account 409.2 Income Taxes, other income and deductions.

(C) This authorization shall expire unless the transaction herein authorized and approved is consummated within 90 days from the date of issuance of this order.

(D) The foregoing authorization is without prejudice to the authority of this Commission or any other regulatory body with respect to rates, service, accounts, valuation, estimates, or determinations of cost or any matter whatsoever now pending or which may come before this Commission.

(E) Nothing in this order shall be construed to imply acquiescence by this Commission in any estimate or determination of cost or any valuation of property claimed or asserted.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14929 Filed 5-20-76; 8:45 am]

[Docket No. ES76-46]

## PACIFIC POWER &amp; LIGHT CO.

## Application

MAY 14, 1976.

Take notice that on May 10, 1976, Pacific Power & Light Company (Applicant), a corporation organized under the laws of the state of Maine and qualified

to transact business in the states of Oregon, Wyoming, Washington, California, Montana and Idaho, with its principal business office at Portland, Oregon, filed an application with the Federal Power Commission, pursuant to Section 204 of the Federal Power Act, seeking an order authorizing it (1) to enter into a Financing Agreement (Financing Agreement) with the County of Converse, Wyoming (County), pursuant to which Applicant will incur liabilities equal to the required payment of the principal obligation of, premium, if any, and interest on Pollution Control Revenue Bonds (Pollution Control Bonds) not to exceed \$60,000,000 in aggregate principal amount, to be issued by the County, pursuant to an Indenture of Trust (the Indenture) to be entered into between the County and a bank (to be selected) acting as Trustee (Trustee), and (2) without sale at competitive bidding, to issue not to exceed \$60,000,000 in aggregate principal amount of its First Mortgage Bonds (First Mortgage Bonds) for delivery to the Trustee as security for Applicant's obligations under the Financing Agreement.

Any person desiring to be heard or to make any protest with reference to said application should, on or before June 1, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14922 Filed 5-20-76; 8:45 am]

[Docket Nos. AR64-1, et al. and RP73-36 (Refunds)]

## AREA RATE PROCEEDING (HUGOTON ANARDARKO AREA) AND PANHANDLE EASTERN PIPELINE CO.

## Filing of Refund Report

MAY 13, 1976.

Take notice that on April 19, 1976, Panhandle Eastern Pipe Line Company ("Panhandle") tendered for filing a corrected report of refund amounts received.

Panhandle states that on August 4, 1975, it submitted to the Commission a plan for the flow-through of refund amounts received from Hugoton-Anadarko producers. That plan was filed, according to Panhandle, in accordance with paragraph (C) of the Commission's Order of March 17, 1975, in Docket Nos. AR64-1, et al. Included as part of this

V41100 MAY 21 76 UMI

plan was a summary of refund amounts received and retained by Panhandle.

By letter dated March 31, 1976, the Commission raised questions regarding several of the refund amounts which had been included by Panhandle in its summary of refund amounts received. Panhandle states that it has reviewed the refund amounts received and has found that corrections to its report are warranted. Also, Panhandle states that subsequent to its August 4, 1975, submittal, it received additional refund amounts from producers. Accordingly, Panhandle now submits a corrected report of refund amounts which reflects necessary adjustments to the refund amounts reported on August 4, 1975, and additional refund amounts received after August 4, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 1, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14917 Filed 5-20-76; 8:45 am]

[Docket Nos. RP76-39 and RP73-89 (PGA)]

**SEA ROBIN PIPELINE CO.**  
Filing of Revised Tariff Sheets

MAY 14, 1976.

Take notice that on May 10, 1976, Sea Robin Pipeline Company (Sea Robin) filed with the Federal Power Commission (Commission) as a part of its FPC Gas Tariff, the following Revised Tariff Sheets:

- ORIGINAL VOLUME No. 1
- Eighth Revised Sheet No. 4.
- ORIGINAL VOLUME No. 2
- Substitute Third Revised Sheet No. 6.
- Substitute Third Revised Sheet No. 21.
- Substitute Third Revised Sheet No. 39.
- Substitute Third Revised Sheet No. 64.
- Substitute Fourth Revised Sheet No. 96.
- Substitute Third Revised Sheet No. 97.

The revised tariff sheets are being filed pursuant to the Commission's order issued December 11, 1975 to reflect elimination from the proposed rates of: (1) costs associated with facilities which are not certificated and in service at the end of the suspension period, and (2) re-statement of Sea Robin's depreciation reserve to reflect the depreciation recorded by Sea Robin since its inception. The rates contained on Eighth Revised Sheet No. 4 also reflect Sea Robin's current gas cost and negative surcharge ad-

justments determined in accordance with the provisions of the PGA clause to Sea Robin's FPC Gas Tariff.

A copy of the revised tariff sheets is being mailed to Sea Robin's jurisdictional customers and interested state commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 1, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-57 (PGA 76-2)]  
**SOUTH TEXAS NATURAL GAS**  
**GATHERING CO.**

**Purchased Gas Cost Adjustment Rate**  
**Change**

MAY 14, 1976.

Take notice that South Texas Natural Gas Gathering Company (South Texas), on April 29, 1976, tendered for filing with the Federal Power Commission its Sixth Revised Exhibit A (Sixth Revised PGA-1) superseding Substitute Fifth Revised Exhibit A to its Purchased Gas Cost Rate Adjustments Clause. The proposed change reflects an increase in South Texas' rate to Transcontinental Gas Pipe Line Corporation of 6.68 cents per Mcf. An effective date of June 1, 1976 is requested.

Copies of the filing were served by South Texas upon its only affected customer, Transcontinental Gas Pipe Line Corporation.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 1, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-414]

**TOLEDO EDISON CO.**

**Request To Withdraw Tendered Fuel Adjustment Clause and Request for Waiver of Conformity Requirements**

MAY 14, 1976.

Take notice that on April 27, 1976, The Toledo Edison Company (Company) by letter dated April 20, 1976 filed a request to withdraw the tariff sheets tendered in the instant docket. The Company further requests the Commission to issue an Order terminating Docket No. ER76-414 and granting a waiver pursuant to Order No. 517 issued November 13, 1974 of the fuel clause conformity requirements for its municipal customers.

The Company requests the Commission to allow a fuel clause previously accepted by the Commission but which does not comply with Order No. 517 to remain effective for the period from January 1, 1976 to February 25, 1976 for those municipalities presently being served under a Service Agreement, and from January 1, 1976 until the expiration date of their respective contracts for those municipalities being served pursuant to a fixed rate contract.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 1, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-538]

**TUCSON GAS & ELECTRIC CO.**  
**Supplemental Filing**

MAY 14, 1976.

Take notice that on May 10, 1976, the Tucson Gas and Electric Company (Tucson), tendered for filing supplemental data in response to the Commission Secretary's letter of April 2, 1976, informing the company that its filing in this proceeding had been assessed as deficient.

Tucson states that the Arizona Electric Power Cooperative, Inc. was sent a copy of this filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or

before May 26, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 76-14925 Filed 5-20-76; 8:45 am]

[Docket Nos. CP66-398, CP69-71 and CP70-275]

**TENNESSEE GAS PIPELINE CO., A**  
**DIVISION OF TENNECO INC.**

**Petition To Amend**

MAY 14, 1976.

Take notice that on April 30, 1976, Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Petitioner), P.O. Box 2511, Houston, Texas 77001, filed in Docket Nos. CP66-398, CP69-71, and CP70-275 a petition to amend the Commission's orders issued respectively, in said

dockets on August 26, 1966 (36 FPC 541), November 1, 1968 (40 FPC 1206), as amended, and June 22, 1970 (43 FPC 937), as amended, pursuant to Section 7(c) of the Natural Gas Act, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that in the proceedings set forth below it was authorized to provide natural gas service to (1) United Fuel Gas Company (United Fuel) pursuant to a gas sales contract dated August 26, 1966, (2) Ohio Fuel Gas Company (Ohio Fuel) pursuant to a gas sales contract dated November 1, 1968, and (3) The Manufacturers Light and Heat Company (Manufacturers) pursuant to a gas sales contract dated November 1, 1968. Further, Petitioner states that each of such gas sales contracts provide for service under the provisions of Petitioner's contracted demand service rate schedules. The petition shows the contract quantities and deliveries by rate zone under such gas sales contracts and the dates and the proceedings in which such service were authorized as follows:

Docket No.	Contracted demand (1,000 ft <sup>3</sup> /d at 11.73 lb/in <sup>2</sup> )		
	Central zone	Eastern zone	Northern zone
United Fuel.....	CP66-398, Aug. 26, 1966.....	76,500	193,680
Ohio Fuel.....	CP69-71, Nov. 1, 1968.....		20,100
Manufacturers.....	do.....		15,900

Petitioner also states that by order issued June 22, 1970, in Docket No. CP70-275 it was authorized to render a natural gas storage service to Manufacturers under a contract dated July 1, 1970, providing for a daily storage quantity of 15,300 Mcf and a winter storage quantity of 2,295,000 Mcf.

Petitioner asserts that based on Commission authorization in Docket No. CP71-132 Columbia Gas Transmission Corporation (Columbia) has acquired and is operating all of the facilities and properties of United Fuel, Ohio Fuel, and Manufacturers. It is stated that Petitioner and Columbia desire to enter into a single new gas sales contract to provide for the aforesaid contracted demand service and to provide for a changed delivery pattern. Accordingly, Petitioner requests that the above described orders in Docket Nos. CP66-398 and CP69-71 be amended to authorize the rendition of natural gas service to Columbia under a single gas sales contract for contracted demand service in lieu of under three separate contracts; and, at the request of Columbia, Petitioner further requests that said orders be amended to transfer, in such single contract, 7,500 Mcf per day of contracted demand from Petitioner's eastern rate zone to its northern rate zone, effective the date the herein requested authorization is granted, and to transfer an additional 20,000 Mcf of contracted demand service from Petitioner's eastern rate zone to its northern rate zone effective January 1, 1977.

The subject petition indicates that the following tabulation sets forth the contracted demand quantity upon consolidation of the three separate gas sales contracts into a single gas sales contract with Columbia:

From—	To—	Contracted demand (1,000 ft <sup>3</sup> /d)		
		Central zone	Eastern zone	Northern zone
Effective date hereof.....	Jan. 1, 1977.....	76,500	486,180	73,800
Jan. 1, 1977.....	Remainder of term.....	76,500	486,180	93,800

Additionally, Petitioner requests that the order in Docket No. CP70-275 be amended to authorize the rendition of storage service under a gas sales contract with Columbia in lieu of the contract with Manufacturers.

Petitioner asserts that the requested authorizations will permit Petitioner and Columbia properly to reflect the realignment of their contractual relationship as

a result of the acquisition by Columbia of its wholly-owned affiliates described above and will enhance Columbia's ability to serve its market area under current conditions. Further, it is asserted that the granting of the requested relief will not increase the volumes of gas Petitioner is presently authorized to sell and deliver to Columbia nor will the rendition of such service under the new gas

sales contracts contemplated affect Petitioner's ability to render authorized services to its other existing customers or require Petitioner to construct and operate additional facilities.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 8, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP76-354]

**UNITED GAS PIPE LINE CO.**  
**Application**

MAY 14, 1976.

Take notice that on April 29, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-354 an application pursuant to Section 7(c) of the Natural Gas Act and Section 2.79 of the Commission's Statement of General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing a transportation service for a two-year term for Burlington Industries, Inc. (Burlington), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has entered into an agreement, dated March 16, 1976, whereby Applicant has agreed to transport volumes of natural gas for Burlington from a point of receipt on Applicant's Carthage-Sterlington line in Ouachita Parish, Louisiana, to mutually agreeable, existing points of interconnection where Applicant would redeliver volumes so transported for the account of Burlington to Transcontinental Gas Pipe Line Corporation (Transco). The application shows the points of interconnection to be near Victoria, Victoria County, Texas; near Cameron, Cameron Parish, Louisiana; at Egan Plant in Acadia Parish, Louisiana; near Gueydan, Acadia Parish, Louisiana; at Gibson Plant Nos. 1 and 2 in Terrebonne Parish, Louisiana, near Magnolia and Holmesville, Pike County, Mississippi; near Walthall, Walthall County, Mississippi; and at Harmony Plant, Clarke County, Mississippi.

It is said that the gas to be transported by Applicant would be purchased from Harvey Broyles, et al., from the

Tremont Field in Lincoln Parish, Louisiana, and would be consumed for high priority end use at Burlington's plants located in Greensboro, Burlington, Wake Forest, and Durham, North Carolina. Applicant proposes to transport up to 1,500 Mcf of gas per day and to redeliver 98.5 percent of such gas to Transco which would, in turn, transport and deliver such gas to Piedmont Natural Gas Company and Public Service Company of North Carolina, Inc., for the account of Burlington for high priority use in the following plants: Greensboro Finishing (including Greensboro, North Carolina, Meadowview); Formed Fabrics, Greensboro, North Carolina; Burlington House Fabrics Finishing, Burlington, North Carolina; Wake Plant, Wake Forest, North Carolina; and Durham Plant, Durham, North Carolina. Applicant states that the 1½ percent deduction is an allowance for gas used, lost, and unaccounted for while in Applicant's system. Burlington has purchased such gas in an effort to offset the loss of its gas supply because of curtailed deliveries by its interstate supplier.

The application shows the following information submitted by Applicant:

1. Applicant proposes to transport peak day, average day, and annual volumes of 1,500 Mcf, 1,050 Mcf, and 378,000 Mcf, respectively.

2. The proposed transportation would have no effect on Applicant's ability to provide systemwide deliveries for its Priority 1 requirements.

3. The initial rate for the transportation service would be 16.87 cents for each Mcf of gas transported.

4. The subject gas was not secured as part of Applicant's system gas supply because the various producers are unwilling to make any sale to interstate purchasers for resale or be subject to any form of federal regulation as a result of such sales.

5. The transportation of gas proposed would not modify curtailments on Applicant's system during the period of the transportation.

The application shows that from the first delivery through the first contract year, Burlington would pay the producers \$1.50 per Mcf and, effective on the first day of the second contract year or any subsequent contract year, the price would increase 10.0 cents per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 7, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14934 Filed 5-20-76; 8:45 am]

[Docket No. ER76-676]

VIRGINIA ELECTRIC AND POWER CO.

Contract Supplement

MAY 14, 1976.

Take notice that on May 6, 1976, Virginia Electric and Power Company (Virginia) tendered for filing a contract supplement dated January 30, 1976, to the Service Agreement with the Town of Robersonville, North Carolina to Virginia Electric and Power Company's FPC Electric Tariff, Original Volume No. 1.

Said supplement requests Commission authorization for Virginia to increase the transformer capacity serving the Town of Robersonville from 5 MVA to 10 MVA for anticipated future loads.

Virginia requests an effective date as that date of connection of facilities which is expected to occur sometime in June 1976.

VEPCO states that copies of the filing were sent to the North Carolina Utilities Commission and to the Town of Robersonville, North Carolina.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 1, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.76-14918 Filed 5-20-76; 8:45 am]

# FEDERAL RESERVE SYSTEM CENTRAL MORTGAGE BANCSHARES, INC. Order Approving Acquisition of Cenco Insurance Company

Central Mortgage Bancshares, Inc., Warrensburg, Missouri, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under § 4(c) (8) of the Act and § 225.4(b) (2) of the Board's Regulation Y, to acquire direct or indirect ownership or control of all of the voting shares of Cenco Insurance Company ("Cenco"), Phoenix, Arizona. Cenco would engage *de novo* in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance directly related to extensions by Applicant's subsidiary banks: Barton County State Bank, Lamar, Missouri; Citizens Bank of Warrensburg Mo., Warrensburg, Missouri; Farmer's Bank of Stover, Stover, Missouri; and Jackson County State Bank, Kansas City, Missouri, ("Banks"). Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a) (10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (41 FR 826 (1976)). The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the public interest factors set forth in § 4(c) (8) of the Act (12 U.S.C. 1843 (c) (8)).

Applicant, the twenty-seventh largest banking organization in Missouri, controls four subsidiary banks with aggregate deposits of approximately \$62 million, representing about 0.4 per cent of the total deposits in commercial banks in the State.<sup>1</sup>

Cenco's activities will be limited to acting as reinsurer of credit life and credit accident and health insurance directly related to extensions of credit by Banks. Cenco will be formed as an Arizona insurance corporation and will be qualified to underwrite insurance directly only in Arizona. Accordingly, the insurance sold by Applicant's subsidiary banks will be directly underwritten by an unaffiliated insurance company qualified to do business in Missouri, and will thereafter be assigned or ceded to Cenco under a reinsurance agreement. Since this proposal involves a *de novo* acquisition, consummation of the transaction would not have any adverse effects on existing or potential competition in any relevant market.

Credit life and credit accident and health insurance are generally made available by banks and other lenders and are designed to assure repayment of a loan in the event of death or disability of the borrower. In connection with its addition of the underwriting of such insurance to the list of permissible activities for bank holding companies, the Board stated:

<sup>1</sup> All banking data are as of June 30, 1975.

To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally, such a showing would be made by a projected reduction in rates or increase in policy benefits to bank holding company performance of this service. (12 CFR § 225.4 (a) (10) n. 7).

Applicant has stated that following consummation of the acquisition, Cenco will offer at reduced premiums the several types of credit insurance policies that it will reinsure. Cenco will offer decreasing term credit life insurance on installment loans and level term credit life insurance on single payment loans at a premium rate 15 per cent below the statutory maximum allowable rates in Missouri. Applicant also proposes that Cenco will offer a 5 per cent reduction on the premium rate its subsidiary banks charge for credit accident and health insurance.

The Board notes that proposed legislation had been pending in the State of Missouri which, if adopted, would have reduced the maximum allowable rates for credit life and credit accident and health insurance. In order to ensure that Applicant's proposal would provide a continuing benefit to the public should such legislation ever become effective, Applicant further committed that Cenco would reduce its rates below the maximum levels established by the new legislation by amounts which would be consistent with rate reductions previously approved by the Board in connection with applications involving premium rate structures comparable to those which would be adopted in Missouri. The Board is of the view that the reductions in insurance premiums that Applicant proposes to establish are, and will continue to be, in the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under § 4(c) (8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to authority hereby delegated.

By order of the Board of Governors, effective May 14, 1976.

GRIFFITH L. GARWOOD,  
Assistant Secretary of the Board.  
[FR Doc.76-14862 Filed 5-20-76; 8:45 am]

# FIRST MISSOURI BANKS, INC. Proposed Acquisition of First Missouri Insurance Group

First Missouri Banks, Inc., formerly First Banc Group, Inc., Creve Coeur, Missouri, has applied, pursuant to § 4(c) (8) of the Bank Holding Company Act (12 U.S.C. § 1843(c) (8)) and § 225.4(b) (2) of the Board's Regulation Y (12 CFR § 225.4(b) (2)), for permission to acquire voting shares of First Missouri Insurance Group, Phoenix, Arizona.

Notice of the application was published on April 6, 1976, in The Record Reporter, a newspaper circulated in Phoenix, Arizona, and on April 7, 1976, in The St. Louis Countian and the St. Louis Daily Record, newspapers circulated in St. Louis, Missouri.

Applicant states that the proposed subsidiary would engage in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance in connection with extensions of credit by Applicant's subsidiary banks. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 14, 1976.

Board of Governors of the Federal Reserve System, May 13, 1976.

GRIFFITH L. GARWOOD,  
Assistant Secretary of the Board.  
[FR Doc.76-14863 Filed 5-20-76; 8:45 am]

# SUMNER COUNTY BANCSHARES, INC. Order Approving Formation of Bank Holding Company and Retention of Insurance Activities

Sumner County Bancshares, Inc., Wellington, Kansas, has applied for the Board's approval under § 3(a) (1) of the Bank Holding Company Act (12 U.S.C. § 1842(a) (1)) of formation of a bank holding company through acquisition of

90.13 percent of the voting shares of The National Bank of Commerce of Wellington, Wellington, Kansas ("Bank"). At the same time, Applicant has applied for the Board's approval under § 4(c) (8) of the Act (12 U.S.C. § 1843(c) (8)) and § 225.4(b) (2) of the Board's Regulation Y, to continue to engage in the sale as agent of credit life and credit accident and health insurance directly related to extensions of credit by Bank on Bank's premises. Such activities have been determined by the Board to be closely related to banking (12 C.F.R. § 225.4(a) (iii) (a)).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with §§ 3 and 4 of the Act (41 Federal Register 3784). The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in § 3(c) and the considerations specified in § 4(c) (8) of the Act.

Applicant, a Kansas corporation, proposes to become a bank holding company through the acquisition of Bank and to continue to engage in the sale of credit-related insurance. Bank, with deposits of approximately \$5.4 million, representing less than 0.1 of one percent of the total commercial bank deposits in Kansas, ranks eighth among the twelve banks located in Sumner County, which approximates the relevant banking market. One of Applicant's principals also controls The Farmers State Bank of Norwich, Norwich, Kansas, which is located about 38 miles northwest of Bank, and is separated from Bank by several intervening banks. However, since the Norwich bank is located in a separate banking market from that of Bank it appears that no existing competition would be eliminated, nor potential competition foreclosed as a result of consummation of this proposal. Accordingly, based on the facts of record, particularly the fact that the transaction is essentially a reorganization of Bank's ownership from individual to corporate, consummation of the proposal would not have an adverse effect on existing or potential competition, nor would it increase the concentration of banking resources or have an adverse effect on other banks in any relevant area. Therefore, the Board concludes that the competitive considerations are consistent with approval of the application.

The financial condition, managerial resources, and prospects of Bank are regarded as satisfactory and consistent with approval of the application. The management of Applicant is satisfactory, and Applicant's financial condition and prospects, which are dependent upon profitable operations of both Bank and the insurance activities, appear favorable. Although Applicant will incur debt in connection with the proposal, the

<sup>1</sup> All banking data are as of September 30, 1975, and reflect bank holding company formations and acquisitions approved through April 30, 1976.

projected income from Bank and the insurance activities should provide sufficient revenue to service the debt without impairing the financial condition of Bank. Accordingly, considerations relating to banking factors are consistent with approval of the application. Considerations relating to the convenience and needs of the community to be served are also regarded as being consistent with approval of the application to acquire Bank. It is the Board's judgment that consummation of the proposal to form a bank holding company would be consistent with the public interest and that the application should be approved.

In conjunction with its proposal to form a bank holding company, Applicant also proposes to continue to engage in the sale of credit life and credit accident and health insurance directly related to extensions of credit by Bank. Approval of the application to engage in such activities would enable Applicant to offer Bank's customers a convenient source of credit-related insurance services, which the Board regards as being in the public interest. It does not appear that Applicant's proposed insurance activities would have any significant adverse effect on existing or potential competition. Further, there is no evidence in the record indicating that consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices or other adverse effects on the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the considerations affecting the competitive factors under § 3(c) of the Act and the balance of the public interest factors required to be considered under § 4(c)(8) of the Act favor approval of both of Applicant's proposals.

Accordingly, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be made (a) before the thirtieth calendar day following the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated Authority. The determination with respect to Applicant's insurance activities is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require reports by, and make examinations of, holding companies and their subsidiaries and to require such modification or termination of activities of a bank holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's

\*Voting for this action: Vice Chairman Gardner and Governors Holland, Jackson and Partee. Absent and not voting: Chairman Burns and Governors Wallich and Coldwell.

regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,\* effective May 14, 1976.

### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 76-45]

#### NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL PANEL ON RESEARCH Meeting

The NASA Research and Technology Advisory Council Panel on Research will meet on June 7 and 8, 1976, at NASA Headquarters, Washington, D.C. 20546. The meeting will be held in Room 623 of Federal Office Building 10B, 600 Independence Avenue, S.W. Members of the public will be admitted on a first-come, first-served basis, limited by the seating capacity of the room which is about 40 persons. All visitors must sign in prior to attending the meeting.

The Panel on Research of the NASA Research and Technology Advisory Council serves in an advisory capacity only. There are 13 members on the Panel. The chairman is Professor A. Hertzberg. The following list sets forth the approved agenda and schedule for the meeting of this Panel on Research on June 7 and 8, 1976. For further information, please contact Mr. F. C. Schwenk, Area Code 202, 755-2488.

June 7, 1976

Time	Topic
9 a.m.	Remarks by the Chairman. (Purpose: To report to the Panel on the most recent Research and Technology Advisory Council meetings.)
9:15 a.m.	Report by Dr. Richard Seebass, Panel Member. (Purpose: To report to the Panel on the need for basic research in Fluid Physics.)
10:30 a.m.	Report by Dr. Dale Henderson, Panel Member. (Purpose: To report to the Panel on the need for basic research in Lasers, Energetics, and Plasma Physics.)
1 p.m.	Report by Dr. Stephen Wiberley, Panel Member. (Purpose: To report to the Panel on the need for basic research in Materials and Structures (Including Electronic Materials).)
2:15 p.m.	Presentation. (Purpose: To present results of OAST Planning/New Theme Approach.)

\*Voting for this action: Vice Chairman Gardner and Governors Holland, Jackson and Partee. Absent and not voting: Chairman Burns and Governors Wallich and Coldwell.

Time	Topic
3:30 p.m.	Panel Discussion. (Purpose: To discuss presentations and prepare findings and recommendations for NASA.)
June 8, 1976	
9 a.m.	Panel Discussion continued. (Purpose: To continue discussion and preparation of findings and recommendations for NASA.)
10 a.m.	Preparation of Committee Report. (Purpose: To summarize discussions and recommendations.)
1:15 p.m.	Presentation by OAST Research Council. (Purpose: To report on recent Review of Basic Research and Fund for Independent Research.)
2 p.m.	Remarks by the Executive Secretary. (Purpose: To brief the Panel on recent activities in NASA Headquarters which may affect the work of the Panel on Research.)
2:45 p.m.	Consideration of Future Panel Activities. (Purpose: To define areas of further study by the Panel on Research.)
4 p.m.	Adjournment.

WILLIAM W. SNAVELY,  
Assistant Administrator for  
DOD and Interagency Affairs,  
National Aeronautics and  
Space Administration.

May 18, 1976.  
[FR Doc.76-14937 Filed 5-20-76;8:45 am]

[Notice 76-46]

#### NASA SPACE PROGRAM ADVISORY COUNCIL (SPAC), APPLICATIONS AND THE PHYSICAL SCIENCES COMMITTEE Joint Meeting

The NASA SPAC Applications Committee and the Physical Sciences Committee will meet on June 17, 1976, at the Jet Propulsion Laboratory, 4800 Oak Grove Drive, Pasadena, California 91103. The meeting will be held in room 101, Building 180. Members of the public will be admitted to the meeting beginning at 9:00 a.m. on a first come first served basis to within the 80 seat capacity of the room. Visitors will be requested to sign a visitor's register.

The NASA SPAC Applications Committee serves in an advisory capacity only. It is concerned with the total range of applications of space-derived, space-related technology including communications, meteorology, earth resources survey (includes agriculture/forestry, cartography, geography, geology/hydrology, oceanography), earth and ocean physics, solar energy conversion, space processing, and other technology applications. Currently the Committee comprises 7 members including the Chairman, Mr. Thomas Rogers.

The Physical Sciences Committee also serves only in an advisory capacity to NASA. The Committee is concerned with all aspects of the physical sciences which are relevant to the space program, including lunar and planetary exploration, astronomy, and space physics. The Committee presently has 16 members including the Chairman, Dr. George B. Field.

For further information regarding the joint meeting, please contact either Mr. Louis B. C. Fong, (202) 855-8617 or Dr. Sabatino Sofia, (202) 755-8494. The approved agenda for the joint meeting on June 17, 1976, is as follows:

Time	Topic
9 a.m.	Opening Remarks. This time is provided for the Chairmen of both committees to make introductory remarks and for any administrative matters to be covered.
9:30 a.m.	Stratospheric Research Program. NASA's Stratospheric Research Program Plan has been reviewed by NASA's Stratospheric Research Advisory Committee and elements of that program will be discussed.
11 a.m.	Solar Radiation Measurement Experiments. Two experiments will be discussed, one of which will be flight tested on June 17, 1976, and the other is scheduled for early flight test in 1979 on the Solar Maximum Mission. Members' comments and guidance will be solicited with regard to interim and follow-on measurements and studies.
12n.	Earth Radiation Budget Satellite System Study. Several parallel studies for measuring the earth radiation budget from space have been made over the past four years. This work was reviewed by the National Research Council (NRC) Committee on Atmospheric Sciences (CAS) in 1975, which resulted in specific recommendations on the approach. These recommendations are incorporated in the Earth Radiation Budget Satellite System (ERBS) which is being recommended as a FY 1978 new start. Committee members will be asked to comment on the study and the NRC-CAS initial assessment.
1:45 p.m.	Earth Dynamics Applications Program. Committee's endorsement and/or comments and recommendations on Earth Dynamics activities and plans will be requested.

Time	Topic
2:45 p.m.	Magnetospheric Physics. Main trends of current studies of magnetospheric physics will be discussed and guidance on future direction will be sought from the committee members.
3:45 p.m.	Summary and Conclusions.
4:15 p.m.	Adjourn.

May 17, 1976.

WILLIAM W. SNAVELY,  
Assistant Administrator for  
DOD and Interagency Affairs,  
National Aeronautics and  
Space Administration.  
[FR Doc.76-14958 Filed 5-20-76;8:45 am]

#### NATIONAL SCIENCE FOUNDATION ADVISORY PANEL FOR REGULATORY BIOLOGY Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Regulatory Biology.  
Date and time: June 7, 8, and 9, 1976—9:00 a.m. to 5:00 p.m. each day.  
Place: Room 321, National Science Foundation, 1800 G Street, N.W., Washington, D.C.  
Type of meeting: Closed.  
Contact person: Dr. Roger A. Hoffman, Program Director, Regulatory Biology, Rm. 333, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-4299.

Purpose of panel: To provide advice and recommendations concerning support for research in Regulatory Biology.  
Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.

Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

Dated: May 14, 1976.

M. REBECCA WINKLER,  
Acting Committee  
Management Officer.

[FR Doc.76-14538 Filed 5-19-76;8:45 am]

#### ADVISORY COMMITTEE ON RESEARCH APPLICATIONS POLICY

##### Open Meeting

In accordance with the Federal Advisory Committee Act, P.L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Committee on Research Applications Policy.  
Date: June 8 and 9, 1976.  
Time: 9:00 a.m. to 5:00 p.m.  
Place: 1800 G Street, N.W., Room 540.  
Type of meeting: Open.  
Contact person: Darleen Morano, Special Assistant, Research Applications, Directorate, Room 1243, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-5820 on June 4, 1976.

Summary minutes: Committee Management Coordination Staff, Division of Personnel and Management, Room 248, National Science Foundation, Washington, D.C. 20550.  
Purpose of advisory committee: To provide recommendations concerning the plans, status, and results of NSF Research Applications Program.

Agenda: June 8 will include:

9:00	Opening Remarks and Review of Previous Meeting.
9:30	Summary of FY 76 RANN Program Activities.
10:00	Discussion.
10:30	Planned FY 77 Activities and FY 78 Thrusts in the Energy & Resources Program.
11:00	Discussion.
12:00	Recess.
1:00	Planned FY 77 Activities and FY 78 Thrusts in the Environment Program.
1:30	Discussion.
2:15	Planned FY 77 Activities and FY 78 Thrusts in the Productivity Program.
2:45	Discussion.
3:30	Planned FY 77 Activities and FY 78 Thrusts in the Intergovernmental Science and Public Technology Program.
4:00	Discussion.
5:00	Adjourn.

June 9

9:00	Planned FY 77 Activities and FY 78 Thrusts in the Exploratory Research and Technology Assessment Program.
9:30	Discussion.
10:15	Policy Implications of the NAS Committee Report on Social Sciences in the NSF.
12:00	Recess.
1:00	Discussion.
3:30	Summary.
4:30	Adjourn.

MARIAN R. WINKLER,  
Acting Committee  
Management Officer.

MAY 17, 1976.

**OFFICE OF MANAGEMENT AND BUDGET  
COMMISSION ON GOVERNMENT PROCUREMENT**

**Executive Branch Position on Recommendation D-14**

Notice is hereby given that the Administrator for Federal Procurement Policy, on behalf of the executive branch, has accepted and arranged for implementation of Recommendation D-14 of the Commission on Government Procurement, which states:

D-14. Develop and issue a set of standard programs to be used as benchmarks for evaluating vendor ADPE proposals.

It is recognized that implementation of this recommendation will be a continuing process requiring successive actions. Therefore, lead agency responsibility has been assigned to the National Bureau of Standards (NBS) as part of its existing central management role and ongoing efforts in benchmarking. The NBS will continue to coordinate and seek advancements in benchmarking within the executive branch and will publish various guidelines and documents, as appropriate.

Dated at Washington, D.C. on May 17, 1976.

**HUGH E. WITT,  
Administrator.**

**SECURITIES AND EXCHANGE COMMISSION**

[Release No. 12442; SR-ASECC-76-1]

**AMERICAN STOCK EXCHANGE CLEARING CORP.**

**Order Approving Proposed Changes in the Rules of American Stock Exchange Clearing Corporation**

May 13, 1976.

On March 22, 1976, American Stock Exchange Clearing Corporation ("ASECC"), 86 Trinity Place, New York, New York 10006 filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b-4 thereunder, copies of proposed rule changes relating to (i) priority mechanisms for the allocation of securities, and (ii) the treatment of dividends payable in the form of securities or cash ("optional dividends"), in ASECC's continuous net settlement ("CNS") system.

Notice of the proposed rule changes, together with the terms of substance of the proposed rule changes, was given by publication of a Commission Release (Securities Exchange Act Release No. 12292 (March 31, 1976)) and by publication in the FEDERAL REGISTER (41 F.R. 14794) (April 7, 1976).

By a letter to the Commission contained in File No. SR-ASECC-76-1, ASECC made certain undertakings with respect to the above-referenced rule changes.

The Commission finds that the proposed rule changes are consistent with

**NOTICES**

the requirements of the Act and the rules and regulations thereunder applicable to registered clearing agencies, and, in particular, the requirements of Section 17A.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change, contained in File No. SR-ASECC-76-1, be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

**GEORGE A. FITZSIMMONS,  
Secretary.**

[FR Doc. 76-14869 Filed 5-20-76; 8:45 am]

[Release No. 12451; SR-MSE-76-1]

**MIDWEST STOCK EXCHANGE  
Order Approving Proposed Rule Change**

May 14, 1976.

On January 7, 1976, the Midwest Stock Exchange, Inc. ("MSE"), 120 South LaSalle Street, Chicago, Illinois 60603, filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change. The proposed rule change converts the MSE's "MAX" program from a pilot program to a permanent program. MAX is an execution formula for market orders from 100-199 shares available in those issues included in the MAX program.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 12015 (January 13, 1976)) in the FEDERAL REGISTER (41 Fed. Reg. 2876 (January 22, 1976)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on January 7, 1976, be, and it hereby is, approved.

By the Commission.

**GEORGE A. FITZSIMMONS,  
Secretary.**

[Rel. No. 9288; 812-3907]

**J. P. MORGAN OF CANADA LTD.**

**Filing of Application Pursuant to Section 6(c) for Order of Exemption From all Provisions of the Act**

May 13, 1976.

Notice is hereby given that J. P. Morgan of Canada Limited 25 King Street West, Toronto, Canada M5L 1G2, ("Applicant"), an Ontario corporation, filed

an application on February 5, 1976, and an amendment thereto on May 10, 1976, pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act"), for an order of the Commission exempting it, and any trustee of, and any underwriter for, Applicant, from all of the provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Applicant, incorporated under the laws of the Province of Ontario on October 16, 1973, is a wholly-owned subsidiary of J. P. Morgan Overseas Capital Corporation ("Overseas") which is a wholly-owned subsidiary of Morgan Guaranty International Finance Corporation ("MGIFC"), a corporation organized pursuant to Section 25(a) of the Federal Reserve Act, 12 U.S.C.A. § 611 et seq. (the "Edge Act"). MGIFC is a wholly-owned subsidiary of Morgan Guaranty Trust Company of New York, a New York trust company and a member bank of the Federal Reserve System (the "Bank"). The Bank is, in turn, a wholly-owned subsidiary of J. P. Morgan & Co. Incorporated ("Morgan"), a Delaware business corporation and a bank holding company registered under the Bank Holding Company Act of 1956, as amended, 12 U.S.C.A. § 1841 et seq. (the "Bank Holding Company Act"). Morgan, the Bank and MGIFC are not investment companies as defined in the Act. Applicant states that Morgan is primarily engaged, through wholly-owned subsidiaries, in the business of banking and therefore is expressly exempt from the Act pursuant to Section 3(c)(6) and is, Applicant alleges, also entitled to an exemption pursuant to Section 3(b)(1) thereof. The Bank is a trust company doing business under the laws of the State of New York which receives deposits, exercises fiduciary powers and is examined by New York banking authorities and is, therefore, exempt from the Act pursuant to Section 2(a)(5)(C) and Section 3(c)(3) thereof. MGIFC is a banking institution organized under the laws of the United States and is therefore exempt from the Act pursuant to Section 2(a)(5)(A) and Section 3(c)(3) thereof. Overseas, organized in 1972 to invest in and make loans to subsidiaries and affiliates of Overseas and MGIFC, was exempted from all the provisions of the Act pursuant to an Order of the Commission dated August 4, 1972. Investment Company Release No. 7313.

The application alleges that Applicant, which primarily provides commercial financing and other financial services to Canadian corporations and other Canadian entities, is not currently an "investment company" as defined in the Act since under Section 3(b)(3) thereof all of its outstanding securities other than certain short-term guaranteed promissory notes are owned directly or indirectly by a company excepted from the definition of "investment company" pursuant to Section 3(b)(1) of the Act.

**NOTICES**

Applicant represents that Morgan is subject to regulation under the Bank Holding Company Act and, as a registered bank holding company, Morgan and its subsidiaries, including Applicant, are subject to examination by the Board of Governors of the Federal Reserve System (the "Board") and Morgan is required to file with the Board an annual report and such other additional information as the Board may require pursuant to the Bank Holding Company Act. Applicant represents that the Bank is a member of the Federal Reserve System and the Federal Deposit Insurance Corporation and its business is subject to both Federal and New York State laws and to examination and regulation by both Federal and New York State banking authorities. Applicant further represents that Morgan, MGIFC, Overseas and Applicant, as affiliates of the Bank, are subject to examination by the Superintendent of Banks in New York.

Applicant further represents that MGIFC, as a corporation organized under the Edge Act (an "Edge Act corporation") is under the supervision of and is examined by the Board. The Board regulates the activities and investments of Edge Act corporations through the provisions of its Regulation K, 12 C.F.R. Part 211. Under the terms of the Board's consent to the indirect investment by MGIFC in Applicant, Applicant, except in certain limited respects, is obligated to conduct its activities substantially as if it were an Edge Act corporation, and MGIFC is required to furnish to the Board such reports regarding the activities of the Applicant as the Board may request. Under the Edge Act, Regulation K and the Board's interpretations thereof, Edge Act corporations are authorized to engage in international or foreign banking, other international or foreign financing activities and activities incidental thereto. An Edge Act corporation may not carry on any part of its business in the United States, except such as in the judgment of the Board is incidental to its international or foreign business. An Edge Act corporation has the power to borrow money, but under Regulation K it may not issue or have outstanding any debentures, bonds, promissory notes (other than notes due within one year) or similar obligations without the prior approval of the Board. Moreover, the investments which an Edge Act corporation is permitted to make are subject to regulation by the Board, the prior consent of the Board is required for any investment in shares of a corporation which would result in the Edge Act corporation having more than \$500,000 invested in the shares of such corporation or holding more than 25% of the voting stock thereof, and any investment in shares of a corporation must be fully reported to the Board within 30 days after the close of the quarter in which such investment is made. Applicant represents that it has not made equity investments as part of its financing activity and will, in no event make equity investments in corporations which

are organized under the laws of the United States or any state thereof.

The primary method of financing Applicant's activities has been the sale of promissory notes which are unconditionally guaranteed by the Bank and which have a maturity of less than nine months. These notes are presently issued in denominations of not less than \$100,000 in Canadian or United States funds or the equivalent thereof in other currencies, and are sold in Canada through Canadian dealers either on a discounted or interest-bearing basis. The principal purchasers of the notes are large Canadian corporate and institutional investors. Although the notes are not sold in the United States, from time to time a substantial portion is purchased by American corporate and institutional investors which place orders through the Canadian dealers located in Toronto and other Canadian cities. The application alleges that by virtue of the guarantee of the Bank, the notes are marketed primarily on the credit of the Bank and any sale of such notes would be exempt from the registration provisions of the Securities Act of 1933 under Section 3(a)(2) thereof since the notes are "guaranteed by a bank" within the meaning of said Act. Other sources of financing of Applicant's activities have been short-term bank borrowing and contributions to capital.

Applicant further represents that in order to obtain longer term financing, it is considering three additional methods of financing. Each financing plan, described below, would involve the issuance of debt securities with a maturity of one year or more from the date of issue, and, pursuant to the provisions of Regulation K referred to above, MGIFC obtained approval of the Board in connection with the proposed financings. Under the financings:

(1) Applicant proposes to issue debt securities, which will be unconditionally guaranteed as to payment of principal and interest by the Bank, and to offer and sell these securities in transactions not involving any public offering to institutional investors in the United States and elsewhere who will not be "underwriters" within the meaning of the Securities Act of 1933.

(2) Applicant proposes to issue debt securities, which will be unconditionally guaranteed as to payment of principal and interest by the Bank, and to offer and sell these securities outside of the United States through underwriters to members of the public who are not nationals or residents of the United States.

(3) Applicant proposes to issue debt securities which will be offered and sold, either directly or through a dealer, in transactions not involving any public offering to a limited number of institutional investors in Canada or elsewhere outside the United States who will not be "underwriters" within the meaning of the Securities Act of 1933.

Upon implementation of any of the above-described financing plans, the exemption from the definition of "investment company" provided by Section 3

(b)(3) would no longer be available to Applicant since certain of Applicant's securities will thereupon be owned by a company other than one entitled to the exclusion contained in Section 3(b)(1) or Section 3(b)(2) of the Act. In such an event, Applicant, as a foreign investment company, and any depositor or trustee of, or underwriter for Applicant would be subject to Section 7(d) of the Act which prohibits the use of jurisdictional means to offer or sell, or to deliver after sale, any security of Applicant in connection with a public offering.

Applicant states that although it is not a "bank" under Section 2(a)(5)(C) of the Act, it fits within the general intent of Section 3(c)(3) of the Act which excludes banks and other institutions, subject to supervision by State or Federal regulatory agency, from the definition of "investment company" under the Act. Applicant operates as a wholly-owned subsidiary of MGIFC and the Bank, in part serving their clients engaged in activities in Canada, its activities are supervised by MGIFC and the Bank, and it performs many of the functions which are performed by the Bank worldwide. In addition, Applicant represents that, except in certain limited respects, it is subject to the same regulations prescribed for Edge Act corporations and is subject to examination by both the Board and the Superintendent of Banks in New York. Accordingly, Applicant requests an exemption from all provisions of the Act pursuant to Section 6(c) thereof, subject to the following conditions:

(1) Applicant will not sell any debt securities other than (a) promissory notes unconditionally guaranteed by the Bank having maturities of nine months or less, (b) debt securities unconditionally guaranteed by the Bank having maturities of one year or more which are offered and sold in transactions not involving any public offering to financial institutions, located in the United States and elsewhere, which are not "underwriters" of such securities within the meaning of the Securities Act of 1933, and (c) debt securities having maturities of one year or more which are sold in offerings outside the United States and which are either (i) unconditionally guaranteed by the Bank or (ii) offered and sold in transactions not involving any public offering to financial institutions located in Canada or elsewhere outside the United States which are not "underwriters" of such securities within the meaning of the Securities Act of 1933 pursuant to agreements reasonably designed to prevent such debt securities from coming into the hands of an American national or resident.

(2) In the event that all the common shares of Applicant do not continue to be held by Morgan or by a wholly-owned subsidiary of Morgan which is either (a) not an investment company or (b) duly exempted from the provisions of the Act pursuant to an order of the Commission, the order will terminate.

(3) In the event that Applicant ceases to be supervised and examined by a Fed-

eral authority having supervision over banks, the order will terminate.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transaction from any provision or provisions of the Act to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than June 7, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

[Rel. No. 19529; 70-5856]

#### OHIO EDISON CO. AND PENNSYLVANIA POWER CO.

##### Proposed Leases of Nuclear Fuel and Related Facilities

MAY 14, 1976.

Notice is hereby given that Ohio Edison Company ("Ohio Edison") 47 North Main Street, Akron, Ohio 44308, a registered holding company and electric utility company and its electric utility subsidiary, Pennsylvania Power Company ("Pennsylvania") 1 East Washington Street, New Castle, Pennsylvania, have filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 9(a) and 10 of the Act as applicable to the proposed transactions. All interested persons are referred to the application,

which is summarized below, for a complete statement of the proposed transactions.

Ohio Edison, Pennsylvania Power Company, The Cleveland Electric Illuminating Company, Duquesne Light Company and The Toledo Edison Company (collectively referred to as the "CAPCO companies", herein called "Lessee") propose to enter into separate Nuclear Material Lease Agreements with PruLease, Inc. ("Lessor") to lease certain nuclear fuel and nuclear fuel components thereof (the "Nuclear Material"). The Nuclear Material will be used by Lessee to satisfy the fuel requirements of Beaver Valley Unit No. 2 and Perry Unit No. 1. Lessor is a subsidiary of Pruco, Inc., a holding company subsidiary of Prudential Insurance Company. The obligations of the Lessee under the Leases will be several and not joint and will be based on their proportionate ownership in the unit involved.

The Lessee will lease the Nuclear Material under each Lease for approximately one year, beginning with the date Lessor first makes a payment under the Lease toward the cost of the Nuclear Material (the "Lease Term"). Thereafter, the Lease may be extended from month to month until termination (the "Extended Term").

Under the Leases, the Lessor is obligated to pay the cost of the Nuclear Material (the "Acquisition Cost"). If any part of the Acquisition Cost is paid or incurred by the Lessee, the Lessor shall promptly reimburse the Lessee.

At the option of the Lessee, any rent paid by Lessee to Lessor with respect to any Nuclear Material prior to completion of the first 200 full power hours of burn of the Nuclear Material and closing costs payable by Lessee to Lessor with respect to a Lease, will be considered an Acquisition Cost under that Lease.

Pursuant to the Leases, the Lessee will assign to the Lessor all contracts relating to the purchase of or services to be performed with respect to Nuclear Material and entered into by it prior to the effective date of the applicable Lease and the Lessor will reimburse the Lessee for all payments theretofore made with respect to such contracts.

Under the Leases, the Lessee assumes all risks of loss or damage to the Nuclear Material and is responsible for keeping the Nuclear Material in good operating condition and repair. The Lessee is obligated to procure physical damage insurance in an amount not less than the Lessor's unrecovered Acquisition Cost as it exists from time to time, and liability insurance to the extent required by applicable laws, rules, or regulations. The Lessee also may self-insure to the extent required by applicable laws, rules or regulations and agreed to by the Lessor.

The Lessor and its affiliates are fully indemnified by the Lessee against all claims, demands, liabilities, costs and expenses arising as a result of the Lessor having leased the Nuclear Material except certain costs and expenses which are the responsibility of the Lessor under a Lease.

Lease payments will be payable monthly and will commence with the term of the Lease. These payments will depend on whether the Nuclear Material is carried on an Interim Leasing Record or a Final Leasing Record. Basically, Nuclear Material is carried on an Interim Leasing Record when it is not actually installed for operation in a nuclear reactor and thereafter until the first day of the month on or after which such Nuclear Material has completed its first 200 full power hours of burn. Nuclear Material not carried on an Interim Leasing Record is carried on a Final Leasing Record. On an Interim Leasing Record the amount of any specific rental payment is determined by allocating Lessor's then unrecovered Acquisition Cost with respect to that Nuclear Material equally over a 360 day period and by multiplying a portion of the amount so allocated (the portion attributable to the number of days equal to the number of days covered by the rental payment) by a percentage equal to the sum of 1 3/4% plus the higher of (i) the prime rate of Morgan Guaranty Trust Company or (ii) the rate of interest paid by Lessor on its commercial paper. For the first two full calendar months that Nuclear Material is carried on a Final Leasing Record, rental payments are the same as they would be under an Interim Leasing Record. Thereafter, the amount of any specific rental payment is the amount payable while the Nuclear Material is being carried on an Interim Leasing Record plus an amount designed to permit the Lessor to recover the Acquisition Cost associated with that Nuclear Material over the period during which such Nuclear Material is expected to be utilized in connection with the generation of electric power, taking into account any anticipated salvage value with respect thereto.

The Leases are subject to termination by either party by notice or otherwise pursuant to their terms. Depending on the circumstances of the termination, the Lessor is entitled to receive the fair market value of the Nuclear Material or its unrecovered Acquisition Cost with respect thereto (the "Termination Price"). However, the Lessor shall never receive less than its unrecovered Acquisition Cost upon any termination of a Lease. In certain circumstances, the Lessee is entitled to take title to the Nuclear Material upon payment of the applicable Termination Price. In other events, the Lessor retains title while the Lessee (if it is a non-default situation) seeks to sell the Nuclear Material on behalf of the Lessor. The Lessee is then obligated to pay the Lessor the unrecovered Acquisition Cost and is entitled to a reimbursement from the Lessor out of the proceeds of any such sale up to the amount of the unrecovered Acquisition Cost so paid.

Specified events of default under a Lease can trigger termination of that Lease and/or other remedies, including the right to repossess the Nuclear Material. If one of the Lessees default, the nondefaulting companies have the right to cure any such default.

Under the Leases, unrecovered Acquisition Costs for Beaver Valley Unit No. 2 and Perry Unit No. 1 may not exceed \$52,000,000 and \$72,000,000, respectively. The allocable percentages of Ohio Edison and Pennsylvania with respect thereto are 35.6% and 6.28%, respectively (i.e., \$18,512,000 and \$24,920,000, respectively for Ohio Edison and \$3,265,000 and \$4,396,000, respectively for Pennsylvania).

Under certain conditions, each of the Leases permits Nuclear Material covered by a Lease to be transferred for lease under any other lease of Nuclear Material between some or all of the CAPCO companies and the Lessor and permits Nuclear Material covered by any such lease to be transferred for lease under a Lease. If any such transfers are made and the lease from which the Nuclear Material is taken or to which it is added relates to a unit in which the ownership interests of Ohio Edison and Pennsylvania differs from their ownership interests in Beaver Valley Unit No. 2 or Perry Unit No. 1, there may be a disposition or acquisition of a utility asset by Ohio Edison or Pennsylvania. In the event that such transfer adds Nuclear Material to a Lease and results in an increase in the dollar amount of the then remaining proportional obligation of either Ohio Edison or Pennsylvania under that Lease to an amount greater than that stated above, Ohio Edison or Pennsylvania, as the case may be, would notify the Commission and request authorization for such transfer.

Ohio Edison and Pennsylvania propose to charge the rent under Leases to fuel expense and to account for the transactions as leases rather than purchases.

The fees, commissions and expenses to be incurred in connection with the proposed transactions by Ohio Edison and Pennsylvania are estimated to be \$8,500 and \$2,200, respectively, including legal fees of \$6,800 for Ohio Edison and \$1,700 for Pennsylvania. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions, except that the Nuclear Regulatory Commission has jurisdiction over the ownership, possession, storage and handling of the Nuclear Material.

Notice is further given that any interested person may, not later than June 10, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 76-14872 Filed 5-20-76; 8:45 am]

[Release No. 19527; 70-5735]

#### PUBLIC SERVICE CO. OF OKLAHOMA, ET AL.

##### Proposed Acquisition of Interests in Fuel Exploration and Development Activities

MAY 13, 1976.

Notice is hereby given that Central and South West Corporation ("CSW"), P.O. Box 1631, Wilmington, Delaware 19899, a registered holding company, Public Service Company of Oklahoma ("PSO"), P.O. Box, Tulsa, Oklahoma 74102; an electric utility subsidiary of CSW, and Transok Pipe Line Company ("Transok"), P.O. Box 3008, Tulsa, Oklahoma 74101; a subsidiary pipe line company of PSO, have filed an application-declaration, and amendments thereto, with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 6(a), 7, 9, 10 and 12(f) of the Act and Rules 43 and 100 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

By order dated November 18, 1975 (HCAR No. 19248) issued in this proceeding, CSW was authorized to make a \$5,000,000 capital contribution to PSO. Jurisdiction was reserved with respect to the proposed acquisition of interests in fuel acquisition and development activities by PSO and Transok which are also the subject of the application-declaration.

PSO owns and operates six steam electric generating stations in Oklahoma. All of these plants are designed and constructed to use natural gas as their primary source of fuel. PSO also has two peaking turbine units scheduled to be placed in service in 1976 which will burn oil in regular operation but which are capable of burning gas. Planned base-load units scheduled to be placed in service by PSO after 1976 are to be either

coal or nuclear fueled. These future units are two coal-fired units of 450 Mw each scheduled for service in 1979 and 1980 and two nuclear units of 1,150 Mw each (700 Mw each of which is committed to PSO) for 1983 and 1985.

PSO states that it has found it impossible in the last few years to rely upon renewing traditional long-term fuel supply contracts or obtaining additional contracts of this nature to meet increased future needs. Accordingly, PSO turned to coal and nuclear fuel for all base-load units to be constructed in the future and, together with Transok, initiated an oil and gas exploration and development program to provide future fuel supplies.

PSO and Transok are involved with various third parties in the fuel development and exploration projects. Operations of particular projects are generally supervised and conducted by such third parties who have expertise in the fuel exploration and development field. Interests obtained by PSO and Transok vary under the individual projects. PSO's and Transok's interest are in some cases subject to overriding royalty or other interests in favor of third parties who have participated in the project as investors and/or operators.

It is stated that PSO and Transok had spent a total of \$19,679,530 on oil, gas and uranium fuel exploration and development projects through December 31, 1975, including \$3,884,925 refunded to PSO in August 1974 under the Saga Petroleum program (subject of the Commission's Memorandum Opinion and Order dated July 17, 1975 HCAR No. 19090) and excluding certain advances and prepayments to suppliers and producers totalling \$2,279,890 at July 31, 1975. At December 31, 1975, PSO and Transok had acquired 443,868 net acres of oil and gas leasehold interests and 32,990 acres of uranium interests. Estimated reserves amounted to 16,738,065 Mcf of gas and 1,026,805 Bbls of oil for Transok at December 31, 1975 and 290,000 lbs of uranium, 428,570 net Bbls of oil and 766,670 Mcf of gas for PSO at May 31, 1975.

PSO and Transok request, to the extent required under the Act, authority for the future acquisition through December 31, 1977, of interests relating to fuel exploration and development activities. PSO and Transok plan to spend a total of \$50,816,300 through 1977 for such activities, allocated as follows: \$10,607,500 for fuel exploration, \$770,000 for acquisition of property interests related to fuel exploration, \$31,438,800 for development of fuel resources and \$8,000,000 presently unallocated.

The PSO and Transok fuel development and exploration activities may include further acquisition of leasehold interests and surface titles, disposition of interests not deemed attractive or appropriate, geological evaluation and testing, drilling of exploratory and development wells, operation of wells, arrangement for certain treatment and processing of gas incidental sales of products or by-products where no use can feasibly

MAY 13, 1976.

be made of them by PSO. Activities may also be entered into in the future through joint ventures, partnerships or other common enterprises and may involve farm-ins, farm-outs, bottom-hole or dry-hole contributions and other transactions of the sort customarily engaged in during acquisition, exploration and development of oil, gas or uranium leasehold properties.

PSO and Transok propose to report quarterly to the Commission, to the extent required by Rule 24 under the Act, on operations undertaken, expenditures made and interests acquired and disposed of pursuant to the authority requested in their application-declaration.

It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction. Fees and expenses to be incurred in connection with the proposed transactions (other than fees and expenses incident to the performance of the proposed fuel activities) including the capital contribution heretofore authorized, are estimated at \$6,000, including legal fees of \$3,500.

Notice is further given that any interested person may, not later than June 11, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail) if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

(FR Doc. 76-14875 Filed 5-20-76; 8:45 am)

The common stock of Presley Companies, being traded on the American Stock Exchange, the Pacific Stock Exchange, the Boston Stock Exchange, and the PBW Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of Presley Companies being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from May 14, 1976 through May 23, 1976.

By the Commission,

GEORGE A. FITZSIMMONS,  
Secretary.

(Release No. 12443; SR-SCC-76-2)

## STOCK CLEARING CORP.

## Order Approving Proposed Changes in the Rules of Stock Clearing Corporation

MAY 13, 1976.

On March 5, 1976, Stock Clearing Corporation ("SCC"), 55 Water Street, New York, New York 10041, filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b-4 thereunder, copies of proposed rule changes relating to (i) priority mechanisms for the allocation of securities, and (ii) the treatment of dividends payable in the form of securities or cash ("optional dividends"), in SCC's continuous net settlement ("CNS") system.

Notice of the proposed rule changes, together with the terms of substance of the proposed rule changes, was given by publication of a Commission Release (Securities Exchange Act Release No. 12225 (March 17, 1976)) and by publication in the FEDERAL REGISTER (41 Fed. Reg. 12105) (March 23, 1976).

By a letter to the Commission contained in File No. SR-SCC-76-2, SCC made certain undertakings with respect to the above-referenced rule changes.

The Commission finds that the proposed rule changes are consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered clearing agencies, and, in particular, the requirements of Section 17A.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change, contained in File No. SR-SCC-76-2, be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

(FR Doc. 76-14875 Filed 5-20-76; 8:45 am)

## STOCK FUND OF AMERICA, INC. AND THE INVESTMENT CO. OF AMERICA

(Rel. No. 9289; 812-3948)

## Filing of Application for an Order Exempting a Proposed Transaction

MAY 13, 1976.

Notice is hereby given that The Stock Fund of America, Inc. ("SFA"), and The Investment Company of America ("ICA"), 611 West Sixth Street, Los Angeles, California 90017, (collectively, the "Applicants"), both open-end, diversified, management investment companies registered under the Investment Company Act of 1940 ("Act"), have filed an application on April 27, 1976, and an amendment thereto on May 12, 1976, pursuant to Section 17(b) of the Act for an order of the Commission exempting from the provisions of Section 17(a) of the Act a proposed merger of SFA into ICA. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

According to the application, SFA was incorporated in the State of Delaware on December 14, 1951, and, on March 31, 1976, had 6,284,821 shares outstanding and net assets of \$47,618,693. It is said that ICA was incorporated in the State of Delaware on August 28, 1933, and, on March 31, 1976, had 101,033,600 shares outstanding and net assets of \$1,394,396,599.

Applicants propose to enter into an Agreement and Plan of Merger (the "Proposed Agreement"), pursuant to which SFA will be merged into ICA and the separate existence of SFA will cease. Applicants state that to become effective, the Proposed Agreement requires the affirmative vote of at least a majority of the outstanding shares of SFA; but that, by virtue of Section 251 (f) of the Delaware General Corporation Law, approval of the shareholders of ICA is not required. A meeting of the shareholders of SFA to vote on the Proposed Agreement has been scheduled to take place in June of 1976. It is also said that a condition precedent to the proposed merger is the receipt of either a ruling from the Internal Revenue Service or opinions of the Applicants' respective legal counsels to the effect that the merger will constitute a tax-free reorganization. Applicants state that the effective time of the

merger is to be the close of the business day of June 25, 1976, and that shortly before the effective date of the merger, each of the Applicants shall distribute to its shareholders substantially all of its net taxable income for the fiscal year through the effective date of the merger.

If the merger is consummated, it is proposed that the outstanding shares of SFA held of record by each shareholder of SFA immediately preceding the effective time of the merger will be converted into and become the number of full and/or fractional shares of common stock of ICA which, when multiplied by the net asset value per share of such shares of ICA, shall have an aggregate net asset value equal to the aggregate net asset value of such shareholder's interest in SFA. The net asset value of the shares of common stock of ICA and SFA at the effective time of the merger shall be the net asset values of each of the Applicants determined in the manner described in their current prospectuses as of the close of the New York Stock Exchange on the day of the effective time of the merger or, if the Exchange is not open on that day, on the last preceding day on which the Exchange was open.

The respective tax positions of Applicants as of March 31, 1976, are said to be as follows: SFA had total net assets of approximately \$47,618,693 and a total capital loss carry-over of \$21,690,000, of which \$9,000,000, \$6,650,000 and \$6,040,000 may be used to offset capital gains realized during the fiscal years ending October 31, 1978, 1979, and 1980, respectively; ICA had total net assets of \$1,394,396,599 and no loss carry-over; SFA's net unrealized gains were \$6,979,706 and ICA's net unrealized gains were \$140,787,163.

The Applicants have agreed that no adjustment need be made in the computation of Applicants' respective net asset values to reflect any potential income tax impact on the shareholders of the Applicants which might result from differences in amounts of realized and unrealized capital gains or losses in the respective portfolios. Applicants are of the opinion that the actual impact of capital loss carry-overs and current net unrealized gains or losses is not readily determinable and would be largely a matter of speculation; and, further, that any such impact would depend on many different factors, including each individual shareholder's personal tax status.

Applicants state that the investment objective of ICA, which is said to be similar to the investment objective of SFA, will be the investment objective of the surviving company. SFA's primary investment objective is said to be long-term growth of income and principal. Applicants state that, to the extent consistent with this objective, current income is given consideration in the selection of investments, but that major investment emphasis is given to common stocks of well established companies which appear to have favorable prospects for long-term growth of earnings and dividends. However, it is stated that SFA may also purchase preferred stocks,

bonds, and short-term debt securities. ICA's assets are said to consist principally of a diversified group of common stocks. Applicants state that in the selection of securities for ICA's portfolio, the possibilities of appreciation and potential dividends are given more weight than current dividend yield, but that at times when the outlook for common stocks is not considered promising, a substantial portion of the assets of ICA may be held as cash in banks or in United States Government securities.

Applicants state further that the investment restrictions of the Applicants are substantially similar in content and that the fundamental investment restrictions of ICA will continue in effect after the merger and will be the fundamental investment restrictions of the surviving company.

It is proposed that each of the Applicants will bear its own expenses in connection with the merger. The aggregate expenses are expected to be approximately \$54,000 of which it is proposed that SFA will bear \$27,000 and the remainder of approximately \$27,000 will be borne by ICA.

Capital Research and Management Company ("CRMC") acts as investment adviser to each of the Applicants. Applicants state that CRMC's investment advisory agreement with ICA would continue as the investment advisory agreement of the surviving company.

It appears that CRMC's investment advisory and service agreement with SFA provides for compensation of .5% of the first \$150,000,000 of SFA's net assets and of .4% of the net assets of in excess of \$150,000,000; and that ICA pays CRMC a monthly advisory fee of 1/12 of the following annual rates: .36 of 1% on the portion of the value of the total net assets of ICA not exceeding \$300,000,000, and .27% of the portion exceeding \$300,000,000. Such monthly payment is said to be reduced by \$5,250 for a 60-month period which began January 1, 1972.

The Applicants contend that they are not affiliated persons of each other, within the meaning of Section 2 (a)(3) of the Act. Applicants assert that they have only one common director, and that the majority of the members of their respective Boards of Directors are not "interested persons" as defined in the Act. Moreover, Applicants are said to have no common officers with the exception of two individuals. Applicants assert further that neither of them owns any of the outstanding shares of the other. As stated above, CRMC acts as investment adviser to each of the Applicants. CRMC is said to own 20,090 shares of ICA, which amount appears to be less than 1/50 of one percent of the outstanding shares of ICA.

Applicants recognize, however, that on the basis of the foregoing facts they might be deemed to be "affiliated persons" of each other and state that they have filed the application so as to avoid any questions being raised under Section 17 of the Act with respect to the transactions described therein.

Section 17(a) of the Act provides, in part, that it shall be unlawful for any affiliated person of a registered investment company, or an affiliated person of such a person, acting as principal, knowingly to sell to or purchase from such registered investment company any security or other property. Section 17(b) of the Act provides that the Commission, upon application, shall by order exempt a proposed transaction from the provisions of Section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Applicants submit that the terms of the proposed transaction are fair and reasonable and do not involve overreaching on the part of any person concerned in that share of ICA are proposed to be issued for shares of SFA on the basis of their respective net asset values. Applicants further submit that the transaction is consistent with the policies of each of them. In the opinion of the Applicants, the shareholders of SFA will benefit from a lower investment advisory fee and the elimination of certain duplications of expense in: (i) auditing, accounting, and legal areas; (ii) the qualification of shares for sale in the various jurisdictions where shares are sold; (iii) preparation and printing of shareholder reports, prospectuses, and proxy material; and (iv) possible further savings in brokerage commissions and custodian fees. It is estimated by applicants that their combined expenses in the twelve months ended December 31, 1975, would have been reduced by more than \$100,000, had the Applicants been combined during that period.

Notice is further given that any interested person may, not later than June 4, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's

own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

# VETERANS ADMINISTRATION ADVISORY COMMITTEE ON CEMETERIES AND MEMORIALS

## Meeting

The Veterans Administration gives notice that a meeting of the Administrator's Advisory Committee on Cemeteries and Memorials, authorized by section 1001, title 38, United States Code, will be held at the Holiday Inn, Crown A meeting room, Riverside, California, June 28, 1976, at 9 a.m. The June 28, 1976, meeting will be open to the public.

Those wishing to attend should contact Ms. Charlotte Withers in the office of the Director, National Cemetery System, Veterans Administration Central Office, 810 Vermont Avenue, NW, Washington, D.C. 20420 (phone 202-389-5211) not later than June 16, 1976. Any interested person may attend, appear before, or file a statement with the committee. Individuals wishing to make oral statements should please indicate this in a letter to Ms. Withers in which they fully identify themselves and state the organization or association they represent or are speaking for. Written statements should be filed with Ms. Withers at the Washington address prior to the meeting. In this regard, the minutes of the meeting will be held open through July 14, 1976, to accept written statements not available during the committee meeting. Oral statements will be heard only between 1:15 and 2:15 p.m. on June 28, 1976.

Dated: May 17, 1976.

R. L. ROUDEBUSH,  
Administrator.

[FR Doc. 76-14914 Filed 5-20-76; 8:45 am]

## PRIVACY ACT OF 1974

### Proposed Revised System Notice

On August 26, 1975, the Veterans Administration published in the FEDERAL REGISTER (40 FR 38095) a Notice of Systems of Records in accordance with 5 U.S.C. 552a(e) (1), section 3 of the Privacy Act of 1974 (Pub. L. 93-579). The proposed descriptions of records were adopted by notice published on page 47980 of the FEDERAL REGISTER of October 10, 1975.

Notice is hereby given that the Veterans Administration now proposes to change one existing manual system of records by automating the system entitled, "Voluntary Service Records —

VA" for which public notice initially appeared on page 38122 of the FEDERAL REGISTER of August 26, 1975. A revised system notice for the altered system has been prepared consistent with the provisions of 5 U.S.C. 552a(o) of the Privacy Act and guidelines issued by the Office of Management and Budget (40 FR 45877, October 3, 1975).

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420. All relevant material received before June 21, 1976 will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 am and 4:30 pm Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is given that it is proposed to make this description effective the date of final approval.

Approved: May 17, 1976.

R. L. ROUDEBUSH,  
Administrator.

### PROPOSED REVISED SYSTEM NOTICE

System name: Voluntary Service Records—VA.

System location: Records are maintained at each of the VA health care facilities and data processing centers. Active records are retained at the facility where the individual has volunteered to assist the administrative and professional personnel and at the data processing centers. Address locations are listed in VA Appendix 1 published August 26, 1975 (40 FR 36123).

Categories of individuals covered by the system: Non-affiliated volunteers and members of voluntary service organizations; welfare, service, veterans, fraternal, religious, civic, industrial, labor, and social groups or clubs which voluntarily offer the services of their organizations to patients through VA Voluntary Service under Title 38, United States Code, Section 213.

Categories of records in the system: Administrative records containing personal information about the individual making application to become a volunteer in a VA health care facility. Information relating to the individual medical history, membership in service organization, qualifications, restrictions and preferences of duty and availability to schedule time of service.

Authority for maintenance of the system: Title 38, United States Code, Section 213.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

In the event that a system of records maintained by this Agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute or rule, regulation or order issued pursuant thereto.

To confirm volunteer service, duty schedule, and assignments to the Bureau of Unemployment, service organizations, insurance firms, offices of personnel of the individual's full-time employment; to assist in the development of the Veterans Administration history of the volunteer and his/her assignments; and, to confirm voluntary hours on-the-job accidents, and for recognition awards.

Policies and practices for storing, retrieving, accessing retaining, and disposing of records in the system:

Storage: (a) Paper documents; (b) X-ray; (c) punch cards; (d) magnetic tapes; (e) magnetic disk packs.

Retrievability: (a) All volunteer applications are filed by name and Social Security Number or Pseudo SSN and cross-referenced under organization they represent; (b) Medical histories and X-rays by name and Social Security Number or Pseudo SSN.

Safeguards: Physical Security: Access to VA working space and medical record storage areas and data processing centers is restricted to VA employees on a "need to know" basis. Generally, VA file areas are locked after normal duty hours and are protected from outside access by the Federal Protective Service. Employee file records and file records of public figures or otherwise sensitive medical record files are stored in separate locked files. Strict control measures are enforced to ensure that disclosure is limited to a "need to know" basis.

Retention and disposal: The individual volunteer's record of service is maintained by the Veterans Administration health care facility and data processing center as long as he or she is living and actively participating in the VAVS program, or until he or she irrevocably removes himself or herself from further participation in the VAVS program, or is removed from the VAVS program for cause.

System manager(s) and address: Director, Voluntary Service (125), Veterans Administration, VA Central Office, Washington, D.C. 20420.

Notification procedure: Individuals seeking information concerning the existence and content of a volunteer's service record pertaining to themselves must

submit a written request or apply in person to the VA health care facility where their voluntary service was accomplished. All inquiries must reasonably identify the portion of the volunteer's service folder and approximate the dates of service to the facility. Inquiries should include the volunteer's name, Social Security Number or Pseudo SSN, organization represented, date of birth, last address while serving as a volunteer to the VA.

Record access procedures: Volunteers, dependents, survivors or duly authorized representatives seeking information regarding access to and contesting of VA Voluntary Service records may contact the Chief, Voluntary Service, Veterans Administration health care facility where individual was a voluntary worker.

Contesting record procedures: (See Record access procedures above).

Record source categories: 1. The volunteer, his/her family. 2. Civic and service organization. 3. Private physician. 4. VA health care facility.

## Employment and Training Administration EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

### Notice of Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 19 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding

these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training 601 D St., NW., Washington, D.C. 20218.

Signed at Washington, D.C. this 17th day of May, 1976.

**BEN BURDETSKY,**  
Deputy Assistant Secretary  
for Employment and Training.

Applications received during the week ending May 14, 1976

##### AMERACE CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former work-

ers of the Strongsville Plant, Strongsville, Ohio, a subsidiary of Amerace Corporation (TA-W-848).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with nylon patches produced by Amerace Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

**MARVIN M. FOOKS,**  
Director, Office of  
Trade Adjustment Assistance.

##### AMERICAN STEEL CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steel Workers of America on behalf of the workers and former workers of American Steel Company, Ellwood City, Pennsylvania (TA-W-824).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with steel cotter pins produced by American Steel Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

##### AMPCO-PITTSBURGH CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the Monaca, Pennsylvania plant of AMPCO-Pittsburgh Corporation, Pittsburgh, Pa. (TA-W-847).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with pipe thread protectors and nipples produced by AMPCO-Pittsburgh Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

[TA-W-612]

##### ANITA FOUNDATIONS, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-

W-612: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 20, 1976 in response to a worker petition received on February 20, 1976 which was filed by the Corset and Brassiere Workers' Local 32, International Ladies Garment Workers Union (ILGWU) on behalf of workers and former workers producing brassieres and girdles at Anita Foundations, Inc., in New York, N.Y.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10634). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Anita Foundations, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The investigation has revealed that all four of the above criteria have been met.

##### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at Anita Foundations declined 21 percent in 1975 compared to 1974.

##### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Brassieres account for 95 percent of Anita Foundations sales and production. Sales declined 30 percent in fiscal year 1975 (September to August) compared to fiscal 1974.

Total production by Anita Foundations declined 16 percent in 1975 compared to 1974.

##### INCREASED IMPORTS

Imports of brassieres, bra-lettes and bandeaux increased in each year between 1970 and 1975. Imports of these products increased from 6.2 million dozen in 1974 to 6.9 million dozen in 1975.

##### CONTRIBUTED IMPORTANTLY

The evidence developed in the Department's investigation indicates that customers of Anita Foundations, Inc. have decreased purchases of its brassieres in favor of less expensive imported brassieres.

##### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with brassieres contributed importantly to the total or partial separation of the workers at that firm. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of brassieres at Anita Foundations, Inc., New York, N.Y. who became totally or partially separated from employment on or after February 12, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 30th day of April 1976.

**JAMES F. TAYLOR,**  
Director,  
Planning and Evaluation Staff.

[TA-W-754]

##### ARMCO STEEL CORP.

Certification of Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-754: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 29, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers of the Armco Steel Corporation, Advanced Materials Division plant in Wildwood, Florida.

The notice of investigation was published in the FEDERAL REGISTER on April 23, 1976 (41 FR 17028). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Armco Steel Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially

## NOTICES

separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average annual employment of production workers increased 5 percent from 1973 to 1974, and then decreased 13 percent from 1974 to 1975.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of stainless steel pipe and tubing increased 15 percent in quantity from 1973 to 1974, and then declined 36.7 percent from 1974 to 1975.

#### INCREASED IMPORTS

Imports of stainless steel pipe and tubing increased 60.4 percent in 1974 compared to 1973 and increased 28.2 percent in 1975 compared to 1974. The ratios of imports to domestic shipments and consumption increased from 16.0 percent and 16.3 percent, respectively, in 1974 to 25.7 percent and 24.0 percent, respectively, in 1975.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that customers of the Armco Steel Corporation's Wildwood plant had increased their purchase of imported stainless steel pipe and tubing. Customers indicated that lower prices of the imported pipe and tubing were causing the shift.

#### CONCLUSION

After care review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with stainless steel pipe and tubing produced at the Armco Steel Corporation's Wildwood plant contributed importantly to the total or partial separations of the workers at that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of stainless steel pipe and tubing at the Armco Steel Corporation plant located in Wildwood, Florida who became totally or partially separated from employment on or after April 20, 1975, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D. C. this 9th day of May 1976.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

#### BETHLEHEM STEEL CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the Lebanon, Pa. plant, a division of the Bethlehem Steel Corporation, Bethlehem, Pa. (TA-W-867).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard steel fasteners produced by Bethlehem Steel Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

#### BETHLEHEM STEEL CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the Williamsport, Pennsylvania plant, Wire Rope Division of Bethlehem Steel Corporation, Bethlehem, Pa. (TA-W-868).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with wire rope produced by Bethlehem Steel Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

#### THE COLUMBIAN ROPE CO.

#### Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-570: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on January 30, 1976, in response to a worker petition received on January 30, 1976, which was filed by the Textile Workers Union of America on behalf of workers and former workers producing manila rope and synthetic rope at the Auburn, New York plant of The Columbian Rope Company.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 6821) on February 13, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Columbian Rope Company, its customers, the U.S. Department of Commerce, the Cordage Institute, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision

thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat, thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers increased .9 percent in 1974 compared to 1973. Employment of production workers declined 10.4 percent in 1975 compared to 1974. Employment declined in the last three quarters of 1975 compared to the corresponding quarters in 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of natural-fiber rope at the Auburn plant declined 13.8 percent in quantity in 1974 compared to 1973 and declined 23.3 percent in quantity in 1975 compared to 1974. Production declined in each quarter of 1975 compared to the corresponding quarters in 1974.

Production of synthetic rope at the Auburn plant increased 12.4 percent in quantity in 1974 compared to 1973 and then declined 10.1 percent in 1975 compared to 1974. Production declined in the last three quarters of 1975 compared to the corresponding quarters in 1974.

#### INCREASED IMPORTS

Imports of manila rope increased absolutely and relatively from 1971 to 1972, and then declined absolutely and relatively from 1972 to 1973. Imports increased both absolutely and relatively from 1973 to 1974. In the first ten months of 1975, imports increased relatively compared to the same period in 1974. The ratio of imports to domestic production and consumption increased from 40.7 percent and 29.1 percent, respectively, in the first ten months of 1974 to 44.4 percent and 30.9 percent, respectively, in the same period in 1975.

Imports of synthetic rope increased absolutely in each year from 1971 through 1974. Imports of synthetic rope increased 187.1 percent in 1975 compared to 1974. The ratio of imports to domestic production and consumption increased from 2.0 percent and 2.0 percent, respectively, in 1974 to 7.0 percent and 7.0 percent, respectively, in 1975.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that customers of Columbian Rope Company's Auburn, New York

[TA-W-585]

#### DR. SCHOLL SHOE MANUFACTURING CO. Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-585: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 6, 1976 in response to a worker petition received on that date which was filed on behalf of workers and former workers of Dr. Scholl Shoe Manufacturing Company, Jefferson, Wisconsin.

The notice of investigation was published in the FEDERAL REGISTER on February 20, 1976 (41 FR 7830). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Dr. Scholl Shoe Mfg. Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first three criteria have been met, the fourth criterion has not been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers at the Jefferson plant increased 22 percent in 1974 compared to 1973 and declined 25 percent in 1975 compared to 1974. In the first two months of 1976 the average number of production workers declined 19 percent compared to the same period in 1975. The average weekly hours of production workers decreased 9 percent in 1975 compared to 1974 and increased 5 percent in the first two months

of 1976. The average weekly hours of production workers decreased 9 percent in 1975 compared to 1974 and increased 5 percent in the first two months

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with natural fiber rope and synthetic rope produced at the Auburn, New York plant of the Columbian Rope Company contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of natural fiber rope and synthetic rope at the Auburn, New York plant of The Columbian Rope Company who became totally or partially separated from employment on or after March 4, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of April 1976.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

[TA-W-595]

#### DORADO FABRICS, INC.

#### Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-595: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 13, 1976, in response to a worker petition received on that date which was filed by the Knit Goods Union, Local 190, International Ladies Garment Workers Union (ILGWU) on behalf of workers and former workers of Dorado Fabrics, Inc., Philadelphia, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10639). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Dorado Fabrics, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analyst, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision

thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The investigation revealed that although the first two criteria have been met, the third and fourth criteria have not been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average annual employment of production workers decreased 1 percent from 1973 to 1974, and declined 22 percent from 1974 to 1975. Average weekly hours worked decreased one percent from 1973 to 1974, and declined 3 percent from 1974 to 1975.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales value of double-knit yard goods produced at the Dorado plant declined 15 percent from 1973 to 1974, and 26 percent from 1974 to 1975.

Dorado's production declined 15 percent from 1973 to 1974 and declined 19 percent from 1974 to 1975.

#### INCREASED IMPORTS

Imports of man-made knit fabrics have been decreasing steadily since 1971, when the U.S. imported 143 million square yards of knit fabric. Square yardage of imported man-made knits declined to 78 million in 1973, 32 million in 1974 and 26 million in 1975. The ratios of imports to domestic consumption and production both declined from 0.6 percent in 1974 to 0.5 percent in 1975.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation indicated that major customers of Dorado Fabrics did not switch their purchases to imported fabrics. Those that had decreased or ceased purchases of Dorado's product cited industry and fashion trends, or competition from lower-priced domestic knitting mills as the reason for their switch.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the double-knit fabrics produced at Dorado Fabrics, Inc., Philadelphia, Pennsylvania, did not contribute importantly to the total or partial separation of the workers of that plant.

Signed at Washington, D.C. this 3rd day of May 1976.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

of 1976 compared to the same period in 1975.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of men's leather shoes at the Jefferson, Wisconsin plant increased 5 percent in 1974 compared to 1973, and declined 11 percent in 1975 compared to 1974.

Production of men's leather shoes increased 22 percent in 1974 compared to 1973 and declined 23 percent in 1975 compared to 1974. Production in the first two months of 1976 was nearly 50 percent below production during the same period of 1975.

#### INCREASED IMPORTS

Imports of men's nonrubber footwear, except athletic, increased both absolutely and relatively in each year from 1970 through 1974 and continued to increase in the first 11 months of 1975 compared to the same period in 1974. Imports increased from 45.0 million pairs in 1970 to 68.6 million pairs in 1974, an increase of 52.4 percent. Imports increased from 65.3 million pairs in the first 11 months of 1974 to 70.0 million pairs in the same period in 1975, an increase of 7.2 percent. The import/production and import/consumption ratios increased from 37.6 percent and 27.3 percent, respectively, in 1970 to 60.9 percent and 37.9 percent, respectively, in 1974. The import/production and import/consumption ratios increased from 63.3 percent and 38.8 percent, respectively, in the first 11 months of 1974 to 73.4 percent and 42.3 percent, respectively, in the same period in 1975.

#### CONTRIBUTED IMPORTANTLY

Fifty percent of the shoes produced at the Jefferson plant are distributed through retail outlets owned by Dr. Scholl, Inc., the remainder being sold through independent retailers. The Department's investigation reveals that the Scholl-owned outlets sell no imported footwear other than men's exercise sandals and clogs imported by Dr. Scholl to complement its domestic line. The representatives indicated that reduced sales in 1975 were due to general economic conditions. Independent retailers who purchase shoes produced by the Jefferson plant also attributed reduced sales to economic conditions. Customers indicated that the Dr. Scholl shoe is a high quality shoe that offers a comfortable fit. The customers indicated that shoes of the style and quality produced by Dr. Scholl at its Jefferson plant are not available from foreign sources.

Dr. Scholl shoes are stocked to accommodate a particular type customer who does not express a preference for the styles found in imported shoes.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's leather shoes

produced at the Jefferson, Wisconsin plant of Dr. Scholl Shoe Manufacturing Company, a subsidiary of Dr. Scholl, Inc., Chicago, Illinois, did not contribute importantly to the total or partial separation of the workers of that plant.

Signed at Washington, D.C. this 21st day of April 1976.

GLORIA G. PRATT,  
Director, Office of  
Foreign Economic Policy.

#### DUQUESNE MINE SUPPLY CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the Duquesne Mine Supply Company, Pittsburgh, Pennsylvania. (TA-W-838).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with hot-headed specialty bolts and related products produced by Duquesne Mine Supply Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

#### NOTICES

#### EAGLE SHIRTMAKERS, INC.

Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on March 12, 1976, in response to a worker petition received on that date which was filed by the Amalgamated Clothing Workers of America on behalf of former workers of the Eagle Shirtmakers, Inc., Quakertown, Pennsylvania.

Notice of the investigation was published in the FEDERAL REGISTER on March 26, 1976 (41 FR 12752). No public hearing was requested and none was held.

During the course of the investigation, it was established that all workers of the Quakertown plant were separated on or before January 23, 1975. Section 223(b) (1) of the Trade Act of 1974 provides, in substance, that a certification shall not apply to any worker whose last total or partial separation from the firm or an appropriate subdivision of the firm occurred more than one year before the date of the petition on which such certification is granted.

The date of the petition in this case is February 26, 1976 and, thus, workers terminated prior to February 26, 1975 are not eligible for program benefits under Title II, Chapter 2, Subchapter B of the Trade Act of 1974. Therefore, this investigation has been terminated.

Signed at Washington, D.C. this 4th day of May, 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### ERIE BOLT CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steel Workers of America on behalf of the workers and former workers of Erie Bolt Corporation, Erie, Pennsylvania (TA-W-841).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or

directly competitive with special steel fasteners produced by Erie Bolt Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

#### FISHER CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 20, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the workers and former workers of Long Island City plant of Fisher Corporation, a division of Emerson Electric Co., Inc. St. Louis, Mo. (TA-W-871).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with HI-FI systems and stereo components produced by Fisher Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or

#### NOTICES

subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

#### FOWNE'S BROTHERS AND CO., INC.

Revised Certification of Eligibility To Apply for Worker Adjustment Assistance

Following a Department of Labor investigation under Section 222 of the Trade Act of 1974 and in accordance with Section 223(a) of such Act, on March 17, 1976 the Department of Labor issued a certification of eligibility to apply for adjustment assistance applicable to former workers engaged in employment related to the production of women's shoes at the Amsterdam, New York plant of Fownes Brothers and Company, Inc., Amsterdam, New York (TA-W-539). The notice of certification was published in the FEDERAL REGISTER on March 26, 1976 (41 FR 12747).

On the basis of a further showing and further investigation by the Director of the Office of Trade Adjustment Assistance, the certification is hereby revised to include an additional employee of the Shoe Division whose employment extended beyond the termination date specified in the notice of certification but whose employment will not terminate until the completion of inventory liquidation.

Such revised certification is hereby made as follows:

All workers of the Shoe Division engaged in employment related to the production of women's shoes at the Amsterdam, New York plant of Fownes Brothers and Company, Inc. who became totally or partially separated from employment on or after December 16,

1974 and before October 31, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. Except that the following named individual who may become totally or partially separated on or after October 31, 1975 is eligible to apply for adjustment assistance: Mr. Leonard J. Gould.

Signed at Washington, D.C. this 9th day of May 1976.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

[TA-W-564]

#### FOX KNAPP MANUFACTURING CO., INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-564: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on January 23, 1976 in response to a worker petition received on January 23, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing CPO jackets, other special casual, sports related outer garments and nylon shell snorkel parkas at the Fox Knapp Mfg. Co., Milton, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on February 10, 1976 (41 FR 5881). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Fox Knapp Mfg. Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any

other cause.

The investigation has revealed that criterion four has not been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employees are not separately identifiable by product line. Average annual employment of hourly production workers at the Milton plant declined 34 percent from 1974 to 1975.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Almost 95 percent of Fox Knapp's production consists of CPO jackets and special outer garments. Production of CPO jackets declined 35 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Imports of men's and boys' woven wool sport shirts and light jackets decreased in the years 1971, 1973, and 1974 compared to the preceding years. Imports increased in the years 1972 and 1975 compared to the preceding years. The ratios of imports to domestic production and consumption increased slightly from 22.9 percent and 18.6 percent, respectively in 1974 to 23.2 percent and 18.8 percent, respectively in 1975.

#### CONTRIBUTED IMPORTANTLY

The Milton plant of Fox Knapp stitches and trims primarily CPO jackets. Fox Knapp's major customers decreased purchases of CPO jackets from Fox Knapp and purchases of CPO jackets from Fox Knapp and switched to other domestic manufacturers.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with CPO jackets produced at the Fox Knapp Manufacturing Co., Inc., Milton, Pennsylvania did not contribute importantly to the total or partial separation of the workers at that plant.

Signed at Washington, D.C. this 30th day of April 1976.

JAMES F. TAYLOR,  
Director, Planning and  
Evaluation Staff.

[FR Doc. 76-14767 Filed 5-20-76; 8:45 am]

[TA-W-632]

#### GILMORE STEEL CORP.

#### Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-632: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976 in response to a worker petition received on February 27, 1976 which was filed by the United Steelwork-

ers of America, AFL-CIO on behalf of workers and former workers producing iron pellets at the Portland, Oregon plant of the Direct Reduction Division of Gilmore Steel Corporation.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10655). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Gilmore Steel Corporation, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criteria (3) and (4) have not been met.

#### INCREASED IMPORTS

Imports of iron ore consumed in steel furnaces declined from 1.5 million tons in 1971 to 1.4 million tons in 1972. In 1973 imports increased to 1.6 million tons and declined to 1.5 million tons in 1974. In 1975 imports declined to 0.7 million tons. The ratio of imports to domestic shipments was 313.2 percent in 1971 and declined in each year until it reached 219.2 percent in 1975.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that approximately ninety-five percent of the output of the Direct Reduction Division goes to Oregon Steel Mill, another division of Gilmore Steel. Oregon Steel Mills does not purchase iron pellets from any other source. Due to reduced sales of its carbon steel products, Oregon Steel Mills reduced orders from the Direct Reduction Division.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with iron pellets produced at the Portland, Oregon plant of the

Direct Reduction Division of Gilmore Steel Corporation, did not contribute importantly to the total or partial separations of the workers at such plants. Signed at Washington, D.C. this 29th day of April 1976.

JAMES F. TAYLOR,

#### ITT CORP.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the ITT Harper Division, Morton Grove, Illinois, a subsidiary of International Telephone & Telegraph Corp. (TA-W-864).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard steel fasteners produced by ITT Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### JOLIET WROUGHT WASHER CO.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Joliet Wrought Washer Company, Joliet, Illinois, a subsidiary of MSL Industries, Inc. (TA-W-854).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard and special washers produced by Joliet Wrought Washer Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### KEYSTONE CONSOLIDATED INDUSTRIES

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the Delta Metal Forming Division, Greenville, Mississippi, a subsidiary of Keystone Consolidated Industries (TA-W-863).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with special steel fasteners produced by Keystone Consolidated Industries, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

[TA-W-630]

#### THE LAMSON AND SESSIONS CO.

#### Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, the Department of

Labor herein presents the results of TA-W-630: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976, in response to a worker petition received on February 27, 1976, which was filed by the International Association of Machinists and Aerospace Workers on behalf of workers and former workers producing metal fasteners (nuts and screws) at the Birmingham, Alabama plant of Lamson and Sessions Company.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10642). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of The Lamson and Sessions Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers increased 7 percent in 1974 compared to 1973 and then declined 43 percent in 1975 compared to 1974.

Average weekly hours remained stable in 1974 compared to 1973 and declined 32 percent in 1975 compared to 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales increased 77 percent in 1974 compared to 1973, and then declined 51 percent in 1975 compared to 1974.

Production increased 12 percent in 1974 compared to 1973, and then declined 63 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Imports of metal fasteners (screws) increased both absolutely and relatively

each year from 1971 through 1974. Imports increased 34.7 percent in 1974 compared to 1973, and decreased 28.1 percent in the first 6 months of 1975 compared to the like period in 1974. However, the ratios of imports to domestic production and consumption increased from 32.0 percent and 25.6 percent, respectively, in the first 6 months of 1974 to 32.9 percent and 26.5 percent, respectively, in the similar period in 1975.

Imports of metal fasteners (nuts) increased both absolutely and relatively each year from 1971 through 1974. Imports increased 39.9 percent from 1973 to 1974, and decreased 14.6 percent in the first six months of 1975 compared to the like period of 1974. However, the ratios of imports to domestic production and consumption increased from 80.3 percent and 46.5 percent, respectively, in the first six months of 1974 to 90.1 percent and 52.0 percent, respectively during the similar period in 1975.

#### CONTRIBUTED IMPORTANTLY

Domestic producers of metal fasteners have undergone a continuous erosion of their markets in recent years because of severe competition from imports.

The Department's investigation indicated that customers of the Lamson and Sessions Company have shifted their purchases to imported metal fasteners resulting in declines in sales, production and employment at the Birmingham plant. The major reason given by customers for switching to imports was the price advantages of imports compared to domestic fasteners.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with metal fasteners (iron or steel nuts and screws) produced at the Lamson and Sessions Company's, Birmingham, Alabama plant contributed importantly to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of metal fasteners at the Birmingham, Alabama plant of The Lamson and Sessions Company who became totally or partially separated from employment on or after February 18, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 30th day of April 1976.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

[TA-W-631]

#### THE LAMSON AND SESSIONS CO. Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of

TA-W-631: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976, in response to a worker petition received on February 27, 1976, which was filed by the United Steel Workers of America on behalf of workers and former workers producing metal fasteners (iron and steel screws) at the Chicago, Illinois plant of the Lamson and Sessions Company.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10643). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of The Lamson and Sessions Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production;

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all the criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers increased 5.5 percent in 1974 compared to 1973 and declined 26.0 percent from 1974 to 1975.

Average weekly hours declined 39.3 percent in 1975 compared to 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales increased 69.4 percent in 1974 compared to 1973 and then declined 51.5 percent in 1975 compared to 1974.

Production increased 19.2 percent in 1974 compared to 1973 and then declined 62.5 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Imports of metal screws increased 138.1 percent from 1971 through 1974. The ratios of imports to domestic production and consumption of metal screws have risen in each year from 1971 through 1974. In the first six months of

1975, the ratios of imports to domestic production and consumption increased to 32.9 percent and 26.5 percent, respectively, from 32.0 percent and 25.6 percent, respectively, in the same period of 1974.

#### CONTRIBUTED IMPORTANTLY

Domestic producers of metal fasteners have experienced a continuous erosion of their markets in recent years because of severe competition from imports.

The Department's investigation indicated that customers of The Lamson and Sessions Company have shifted their purchases to imported metal fasteners resulting in declines in sales, production, and employment at the Chicago plant. The major reason given by customers for switching to imports was the favorable price advantages of imports compared to the domestically produced products.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with metal fasteners (iron or steel nuts and screws) produced at the Lamson and Sessions Company's Chicago, Illinois plant contributed importantly to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of metal fasteners at the Chicago, Illinois plant of The Lamson and Sessions Company who became totally or partially separated from employment on or after February 23, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 30th day of April 1976.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

[TA-W-658]

#### THE LAMSON AND SESSIONS CO. Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-658: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976, in response to a worker petition received on February 27, 1976, which was filed by the United Auto Workers Union Local 217 on behalf of workers and former workers producing metal nuts and screws at the Cleveland Ohio plant of the Lamson and Sessions Company.

The notice of investigation was published in the FEDERAL REGISTER on March 19, 1976 (41 FR 11641). No public hearing was requested and none was held.

The information upon which the determination was made was obtained

principally from officials of the Lamson and Sessions Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Departmental files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers increased 1.3 percent in 1974 compared to 1973 and then declined 41.2 percent in 1975 percent compared to 1974. Average weekly hours declined 14.9 percent in 1975 compared to 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of metal nuts and screws increased 60.5 percent in 1974 compared to 1973, and then declined 38.2 percent in 1975 compared to 1974.

Production increased 22.6 percent in 1974 compared to 1973 and then declined 47.2 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Imports of metal fasteners (screws) increased both absolutely and relatively each year from 1971 through 1974. Imports increased 34.7 percent in 1974 compared to 1973, and then decreased 28.1 percent in the first 6 months of 1975 compared to the like period in 1974. However, the ratios of imports to domestic production and consumption increased from 32.0 percent and 25.6 percent, respectively in the similar period in 1975.

Imports of metal fasteners (nuts) increased both absolutely and relatively each year from 1971 through 1974. Imports increased 39.9 percent from 1973 to 1974, and then decreased 14.6 percent in the first six months of 1975 compared to the like period of 1974. However, the ratios of imports to domestic production and consumption increased from 80.3 percent and 46.5 percent, respectively, in the first six months of 1974 to 90.1 per-

cent and 52.0 percent, respectively, during the similar period in 1975.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that domestic producers of metal fasteners have undergone a continuous erosion of their markets in recent years because of competition from imports.

Customers of the Lamson and Sessions Company have shifted their purchases to imported metal fasteners resulting in declines in sales, production and employment at the Cleveland plant. The major reason given by customers for switching to imports was the favorable price advantages of imports compared to domestically produced fasteners.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with metal fasteners (iron or steel nuts and screws) produced at the Lamson and Sessions Company's Cleveland, Ohio plant contributed importantly to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of metal fasteners at the Cleveland, Ohio plant of the Lamson and Sessions Company who became totally or partially separated from employment on or after February 16, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 30th day of April 1976.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

[TA-W-620]

#### THE LAMSON AND SESSIONS CO. Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-620: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976 in response to a worker petition received on February 27, 1976 which was filed by The Allied Industrial Workers of America on behalf of workers formerly producing metal fasteners (iron and steel nuts) at the Kent, Ohio plant of the Lamson and Sessions Company.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 10642) on March 12, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of The Lamson and Sessions Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, indus-

try analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers increased 2 percent in 1974 compared to 1973 and then declined 20 percent in 1975 compared to 1974. Average weekly hours declined 2.5 percent in 1974 compared to 1973 and declined 12.8 percent in 1975 compared to 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales declined 24 percent in 1975 compared to 1974. Production declined 38 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Imports of iron or steel nuts have increased 85 percent from 1971 through 1974. The ratios of imports to domestic production and consumption have increased in each year from 1971 to 1974.

In the first six months of 1975, imports of iron or steel nuts declined absolutely compared to the similar period in 1974. However, the ratios of imports to domestic production and consumption rose from 80 percent and 47 percent, respectively in the first six months of 1974 to 90 percent and 52 percent, respectively in the like period of 1975.

#### CONTRIBUTED IMPORTANTLY

Domestic producers of metal fasteners have undergone a continuous erosion of their markets in recent years because of severe competition from imports.

The Department's investigation indicated that customers of the Lamson and Sessions Company have shifted their purchases to imported metal fasteners at an increasing rate resulting in declines in sales, production and employment at the plant. The major reason given by customers for switching to imports was the favorable price advantages of imports

compared to the domestically produced products.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with metal fasteners (iron or steel nuts) produced at the Kent, Ohio plant of The Lamson and Sessions Company contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

"All workers engaged in employment related to the production of iron or steel nuts at the Kent, Ohio plant of The Lamson and Sessions Company who became totally or partially separated from employment on or after February 20, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 30th day of April 1976

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

[TA-W-820]

#### LAMSON AND SESSIONS CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the U.S. Steelworkers of America on behalf of the workers and former workers of Chicago, Illinois plant of Lamson and Sessions Company, Cleveland, Ohio (TA-W-820).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard and special screws produced by Lamson and Sessions, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a

substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

[TA-W-324]

#### LANHAM CLOTHES, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-324; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 7, 1975 in response to a worker petition received on November 7, 1975 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's suits and sport jackets at Lanham Clothes, Inc., Lawrence, Massachusetts. The notice of investigation was published in the FEDERAL REGISTER on November 21, 1975 (40 FR 54319). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lanham Clothes, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and

to such decline in sales or production. For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

In 1974 average employment of production workers at Lanham Clothes, Inc. was 33.8 percent lower than it was in 1973, and average employment of production workers during the first three quarters of 1975 declined 19.6 percent from the first three quarters of 1974. Average employment of production workers during the third quarter of 1975 was 7.2 percent greater than it was during the third quarter of 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

In 1974 production at Lanham Clothes, Inc. was 44.2 percent lower than it was in 1973. Production for the first three quarters of 1975 was 14.7 percent lower than during the first three quarters of 1974, and production for the third quarter of 1975 was 4.2 percent lower than during the third quarter of 1974.

#### INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of men's and boys' suits increased relative to domestic production and consumption in each year from 1971 to 1973. While imports of men's and boys' suits fell slightly in 1974 compared to 1973, the ratios of imports to domestic production and consumption in 1974 of 9.9 percent and 9.0 percent, respectively, were well above the 1971-1973 average of 8.6 percent and 7.8 percent, respectively. In the first nine months of 1975, imports of men's and boys' suits increased 86 percent compared to the first nine months of 1974. The ratio of imports to domestic production increased from 8.7 percent in the first nine months of 1974 to 19.9 percent in the first nine months of 1975.

Imports of men's and boys' sportcoats increased their share of the domestic market each year from 1972 to 1974. The ratio of imports to domestic production and consumption increased from 17.1 percent and 14.6 percent, respectively, in 1972 to 22.3 percent and 18.2 percent, respectively, in 1974. The ratio of imports to domestic production increased from 24.6 percent in the first nine months of 1974 to 41.9 percent in the first nine months of 1975.

Customers, which are fashion, specialty shops, indicated that imported men's suits or sportcoats did not influence their decision to reduce purchases from Lanham Clothes, Inc. These customers reduced purchases because of the general business recession.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I have concluded that increases of imports like or directly competitive with men's suits and sport jackets produced at Lanham Clothes, Inc., Lawrence, Massachusetts,

did not contribute importantly to the total or partial separations of the workers at such plant. Signed at Washington, D.C. this 7th day of February 1976.

HERBERT N. BLACKMAN,  
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[TA-W-246]

#### LAWRENCE CLOTHES, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-246; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 14, 1975 in response to a worker petition received on October 14, 1975 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's suits, sportcoats and leisure suits at the Lawrence Clothes, Inc., Philadelphia, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on October 30, 1975, (40 FR 50586). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lawrence Clothes, Inc., its customers, the Clothing Manufacturers Association of the U.S.A., U.S. Department of Commerce, U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers at Lawrence Clothes, Inc. began

to decline in the fourth quarter of 1974. The average number of production workers declined 21 percent in the first nine months of 1975 compared to the first nine months of 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales at Lawrence Clothes declined 5 percent in 1974 compared to 1973. Sales declined 4 percent in the first six months of 1975 compared to the first six months of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of men's and boys' suits increased from 1.4 million units in 1970 to 1.9 million units in 1974. The ratios of imports to domestic consumption and production increased from 8.6 percent and 9.4 percent, respectively in 1972 to 9.0 percent and 9.9 percent, respectively in 1974. The imports to production ratio rose from 7.7 percent in the first seven months of 1974 to 22.1 percent in the first seven months of 1975.

Imports of men's and boys' sportcoats increased from 4.2 million units in 1972 to 4.8 million units in 1974. The ratios of imports to consumption and production increased from 14.6 percent and 17.1 percent, respectively, in 1972 to 18.2 percent and 22.3 percent, respectively, in 1974. The imports to production ratio increased from 24.5 percent in the first seven months of 1974 to 36.7 percent in the first seven months of 1975.

Imports of men's leisure suits are not separately identified in the Tariff Schedules of the United States. They are included with the aggregate data on imports of men's and boys' suits. The data show that imports of men's suits increased both absolutely and relatively in the first seven months of 1974.

On OTAA survey of major apparel retailers indicated that the ratio of purchases of imported leisure suits increased from 0 percent in 1973 to 2.8 percent in 1974 and from 4.0 percent in the first half of 1974 to 21 percent in the first half of 1975.

The evidence developed during the Department's investigation indicates that the men's domestic clothing industry has been adversely affected by increased imports from low wage areas. Over 70 clothing plants have been closed since the beginning of 1974. The major customer of Lawrence Clothes more than doubled purchases of less expensive imported tailored clothing from 1973 to 1974. As a result, Lawrence shifted production to leisure suits, which are less labor-intensive, and employment at Lawrence subsequently declined during 1975.

#### CONCLUSIONS

After careful review of the facts obtained in the investigation, I conclude that increases of imports of men's suits and sportcoats contributed importantly to the total or partial separation of the workers of Lawrence Clothes, Inc. Section 223(b) (1) of the Trade Act of 1974 states that a certification under this section shall not apply to any workers whose

last total or partial separation occurred before October 3, 1974. In accordance with the provision of the Act, I make the following certification:

All hourly, piecework, and salaried workers engaged in employment related to the production of men's suits, sportcoats and leisure suits at Lawrence Clothes, Inc., Philadelphia, Pennsylvania who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 10th day of February 1976.

HERBERT BLACKMAN,  
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[TA-W-604]

#### M. T. SHAW, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-604; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 13, 1976 in response to a worker petition received on February 13, 1976 which was filed by the Boot and Shoe Workers Union, AFL-CIO on behalf of workers formerly producing men's boots and dress and casual shoes at the Coldwater, Michigan plant of M. T. Shaw, Inc., Coldwater, Michigan.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 10645) on March 12, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of M. T. Shaw, Inc., its customers, the International Trade Commission, the Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separa-

V

6  
U  
M  
I

tions, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers declined 16.5 percent in 1975 compared to 1974 and 11.4 percent in the first quarter of 1975 compared to the same quarter in 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production, in quantity, declined 18.9 percent in 1975 compared to 1974 and 13.4 percent in the first quarter of 1975 compared to the same period in 1974.

#### INCREASED IMPORTS

U.S. imports of men's dress and casual footwear having leather uppers increased absolutely and relatively in each year from 1971 through 1974 and in the first eleven months of 1975 compared to the same period in 1974. U.S. imports increased from 31.6 million pairs in 1971 to 52.4 million pairs in 1974. U.S. imports further increased from 48.5 million pairs in the first eleven months of 1974 to 54.4 million pairs for the same period in 1975.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation indicated that customers, including distributors and retailers, of M.T. Shaw, Inc., Coldwater, Michigan either decreased their purchases from M.T. Shaw Inc., and increased their import purchases or increased their import purchases while keeping their purchases from M.T. Shaw constant in 1975 compared to 1974.

Customers indicated that they increased their import purchases of men's shoes and boots because of the lower prices offered off-shore.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's dress and casual shoes and boots produced at the M.T. Shaw, Inc., Coldwater, Michigan plant contributed importantly to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Coldwater, Michigan plant of M.T. Shaw Inc., who became totally or partially separated from employment on or after February 9, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 3rd day of May 1975.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

#### MASSILLON SPRING & RIVET CORP.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Massillon Spring & Rivet Corporation, Massillon, Ohio (TA-W-851).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with U-bolts produced by Massillon Spring & Rivet Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

[TA-W-857]

#### MEDALIST REDI-BOLT, INC.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America

on behalf of the workers and former workers of Medalist Redi-Bolt, Incorporated, E. Chicago, Indiana, a division of Medalist Industries, Inc. of Milwaukee, Wisconsin (TA-W-857).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with specialty steel fasteners produced by Medalist Redi-Bolt, Inc. or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

#### METOWEE LUMBER AND PLASTICS CO.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 7, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the United Furniture Workers of America on behalf of the workers and former workers of Metowee Lumber and Plastics Company, Granville, New York, a division of Telescope Folding Furniture Co., Inc., Granville, New York (TA-W-846).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has insti-

tuted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with lumber and plastics used in outside folding furniture produced by Metowee Lumber and Plastics Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

#### MODULUS CORP.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 13, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the Gary, Indiana Division of Modulus Corporation, a subsidiary of AVC Corporation (TA-W-860).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard steel fasteners produced by Modulus Corporation or an appropriate subdivision

thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

#### OHIO NUT AND WASHER CO.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America, on behalf of the workers and former workers of Ohio Nut and Washer Company, Mingo Junction, Ohio (TA-W-819).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with flat washers produced by Ohio Nut and Washer Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

#### PATTIN MANUFACTURING CO.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America, on behalf of the workers and former workers of Pattin Manufacturing Company, Marietta, Ohio, a division of East-ern Company, Naugatuck, Connecticut (TA-W-865).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard bolts produced by Pattin Manufacturing Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

#### PAWTUCKET FASTENERS, INC.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15,

1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Pawtucket Fasteners, Inc., Pawtucket, Rhode Island (TA-W-839).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with stainless steel fasteners produced by Pawtucket Fasteners, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

#### PAWTUCKET SCREW CO.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the Pawtucket Screw Company, Pawtucket, Rhode Island, a subsidiary of Jacobson Manufacturing Company, Kennilworth, New Jersey. (TA-W-834).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with steel, brass, and stainless screws produced by Pawtucket Screw Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

#### PENN-BIRMINGHAM BOLT CO.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America, on behalf of the workers and former workers of Penn-Birmingham Bolt Company, Scenery Hill, Pennsylvania, a subsidiary of the Birmingham Fabricating Company, Birmingham, Alabama. (TA-W-821).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard steel fasteners produced by Penn-Birmingham Bolt Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

[TA-W-394]

#### PERFECT TEXTILE MILLS, INC.

#### Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-394: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 12, 1975 in response to a worker petition received on December 12, 1975 which was filed on behalf of workers and former workers producing broad woven silk and polyester fabric at Perfect Textile Mills, Inc., Paterson, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on January 5, 1976 (41 FR 849). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Perfect Textile Mills, Inc., its customers, the U.S. Department of Commerce, the U.S. Inter-

national Trade Commission and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first three criteria have been met, the fourth criterion has not been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 7 percent in 1974 compared to 1973 and increased 14 percent in the first quarter of 1975 compared to the same period in 1974.

Average weekly hours worked did not change in 1974 from 1973 and decreased 23 percent in the first quarter of 1975 compared to the same period in 1974.

The plant was closed in March, 1975 and all workers were separated.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production declined 13 percent in 1974 compared to 1973 and increased 87 percent in the first quarter of 1975 compared to the same period in 1974.

In March, 1975 all production was ceased and the plant was closed.

#### INCREASED IMPORTS

Imports of broadwoven fabrics of all types of manmade fibers increased from 1970 through 1972 and declined from 1972 through 1974. Imports decreased 5 percent in 1974 from 1973 and increased 8 percent in the first ten months of 1975 from the same period in 1974. The ratios of imports to production and consumption in the first ten months of 1975 were both 3.2 percent.

Imports of broadwoven fabrics of polyester fibers decreased from 1971 through 1974. Imports declined 10 percent in 1974 from 1973 and increased 32 percent in the first ten months of 1975 from the same period in 1974. The ratios of imports to production and consump-

tion in the first ten months of 1975 were 5.2 and 5.3 percent respectively.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation indicated that Perfect Textile Mills, Inc. had been a weaver of silk specialty fabrics for the better dress trade for over 50 years. A combination of the lack of demand for silk and silk blend fabrics and an increase in the price of raw silk from \$8.00 a pound to \$10.00 a pound and finally to \$28.00 a pound forced them to seek more profitable lines in 1971.

Perfect tried to "weave" fabrics, from polyester yarn, which were similar to "knits". However, Perfect's looms were obsolete and Perfect was faced with competition from large domestic producers with looms which could produce fabrics in greater widths than Perfect was able to. Also, the weaving process for polyester was too complicated and Perfect's dyes did not know how to dye woven polyester. As a result the entire processes became too expensive for Perfect to compete with the large mills and the company was forced to go out of business in March 1975.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with broadwoven silk and polyester fabric produced at Perfect Textile Mills, Inc., Paterson, New Jersey did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 4th day of March 1976.

GLORIA G. PRATT,  
Director, Office of  
Foreign Economic Policy.

[FR Doc. 76-14823 Filed 5-20-76; 8:45 am]

[TA-W-396]

#### PILGRIM SCREW CORP.

#### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America, on behalf of the workers and former workers of Pilgrim Screw Corporation, Providence, Rhode Island. (TA-W-836).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with stainless steel screws produced by Pilgrim Screw Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision

and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April, 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

[FR Doc. 76-14766 Filed 5-20-76; 8:45 am]

[TA-W-596]

#### PROGRESSIVE KNITTING MILLS

#### Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-596: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 13, 1976 in response to a worker petition received on February 13, 1976 which was filed by the Knit Goods Union, Local 190 on behalf of workers and former workers producing men's and boys' swimwear at Progressive Knitting Mills, Philadelphia, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10645). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Progressive Knitting Mills, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility re-

quirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The Department's investigation revealed that criteria (3) and (4) have not been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at Progressive increased 12.9 percent from 1973 to 1974. Employment declined 16.0 percent from 1974 to 1975.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of men's and boys' swimwear produced by Progressive increased 6.4 percent from 1973 to 1974. Sales declined 1.5 percent from 1974 to 1975.

Production at Progressive declined .3 percent from 1973 to 1974. Production increased .2 percent from 1974 to 1975.

#### INCREASED IMPORTS

Imports of men's and boys' swimwear declined .1 percent from 117.0 thousand dozens in 1974 to 116.9 thousand dozens in 1975. Data for previous years is not available; prior to 1974 men's and boys' swimwear was grouped in a basket category and was not separately identifiable.

#### CONTRIBUTED IMPORTANTLY

The evidence developed in the Department's investigation reveals that none of the manufacturers who buy directly from Progressive Knitting Mills purchase any imported men's and boys' swimwear. Furthermore, a survey of secondary retail customers revealed that imports were purchased only in insignificant amounts and by only one customer. None of the retail customers surveyed indicated a switch from domestic to imported swimwear.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that articles like or directly competitive with those produced by Progressive Knitting Mills are not being imported in increased quantities, either actual or relative to domestic production as required in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of April 1976.

JAMES P. TAYLOR,  
Director,  
Planning and Evaluation Staff.  
[FR Doc. 76-14766 Filed 5-20-76; 8:45 am]

[TA-W-624; TA-W-625]

#### RCA CORP.

#### Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-624 and TA-W-625: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976 in response to worker petitions received on that date which were filed on behalf of workers and former workers engaged in employment related to the production of electronic receiving tubes at the Cherry Hill and Deptford, New Jersey facilities RCA Corporation.

The notices of investigation were published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10647-10648). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of RCA Corporation, the U.S. Department of Commerce, the International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of workers in receiving tube-related activities at Cherry Hill and Deptford declined five percent in the first two months of 1976 compared to the

V  
4  
1  
1  
0  
0  
  
M  
A  
Y  
2  
1  
  
7  
6  
  
U  
M  
I

last two months of 1975. RCA officials have announced that approximately 30 percent of the remaining receiving tube workforce at Cherry Hill and Deptford will be laid off prior to the end of 1976. All workers in receiving tube-related activities at Cherry Hill/Deptford worked in support of receiving tube production at RCA's Harrison, New Jersey plant.

**SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY**

Production of electronic receiving tubes by the Harrison plant declined 11 percent in 1974 from 1973 and declined 36 percent in 1975 from 1974. Production in the first quarter of 1976 was 34 percent below production in the first quarter of 1975. RCA terminated all production of receiving tubes in April 1976 with the closing of the Harrison plant.

**INCREASED IMPORTS**

Imports of electronic receiving tubes increased relative to domestic consumption and production in each year from 1971 through 1975. Imports increased their share of domestic consumption from 38.6 percent in 1974 to 48.5 percent in 1975. Imports relative to domestic production increased from 56.6 percent to 81.7 percent during the same period.

**CONTRIBUTED IMPORTANTLY**

The evidence developed by the Department's investigation reveals that the decline in sales and ultimate closure of the Harrison plant were due to increased competitive pressures from both foreign manufacturers of electronic receiving tubes and domestic firms with manufacturing facilities overseas. The decline in receiving tube operations experienced by RCA resulted in a reorganization in March 1975 at which time workers employed in activities in support of receiving tube production were transferred by RCA from the Harrison location to RCA facilities at Cherry Hill and Deptford, New Jersey. As sales of receiving tubes by RCA continued to decline in the first quarter of 1976, employment of workers in tube related activities at Cherry Hill and Deptford also declined. The decision by RCA to terminate all receiving tube production will result in continued separations of such workers throughout the remainder of 1976.

**CONCLUSION**

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with electronic receiving tubes produced by RCA Corporation contributed importantly to the separation of workers of the Cherry Hill and Deptford facilities engaged in employment related to such production. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All workers at the Cherry Hill and Deptford, New Jersey facilities of RCA Corporation engaged in employment related to the production of electronic receiving tubes who became or will become totally or partially separated from employment on or after January 18, 1976 are eligible to apply for adjust-

ment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 9th day of May 1976.

HERBERT BLACKMAN,  
Associate Deputy Under Secretary  
for International Affairs.

[FR Doc. 76-14754 Filed 5-20-76; 8:45 am]

[TA-W-627]

**RCA CORP.**

**Certification Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-627: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976 in response to a worker petition received on that date which was filed on behalf of workers and former workers engaged in the storage and distribution of electronic receiving tubes at the Des Plaines, Illinois warehouse of RCA Corporation.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10648). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of RCA Corporation, the U.S. Department of Commerce, the International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

**SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS**

Employment at the Des Plaines warehouse declined one percent in 1974 from 1973 and 45 percent in 1975 from 1974. All employment was terminated in Janu-

ary 1976 when the warehouse was closed by RCA.

**SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY**

Shipments of electronic receiving tubes by the Des Plaines warehouse declined 17 percent in 1974 from 1973 and declined 30 percent in 1975 from 1974. All receiving tubes shipped by the warehouse in recent years were produced by RCA at Harrison, New Jersey. RCA terminated all production of receiving tubes in April 1976 with the closing of the Harrison plant.

**INCREASED IMPORTS**

Imports of electronic receiving tubes increased relative to domestic consumption and production in each year from 1971 from 38.6 percent in 1974 to 48.5 percent in 1975. Imports relative to domestic production increased from 56.6 percent to 81.7 percent during the same period.

**CONTRIBUTED IMPORTANTLY**

The evidence developed by the Department's investigation reveals that the closure of the Des Plaines warehouse resulted from the steady decline in sales of electronic receiving tubes produced by RCA at its Harrison, New Jersey plant. The decision by RCA to close the Harrison plant was a result of increased competitive pressures from both foreign manufacturers and domestic firms with manufacturing facilities overseas.

**CONCLUSION**

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with electronic receiving tubes produced by RCA Corporation contributed importantly to the separation of workers of the Des Plaines warehouse. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All workers of the RCA Corporation warehouse at 424 E. Howard Avenue, Des Plaines, Illinois who became totally or partially separated from employment on or after February 18, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 9th day of May 1976.

JAMES F. TAYLOR,  
Director, Planning and  
Evaluation Staff.

[FR Doc. 76-14757 Filed 5-20-76; 8:45 am]

[TA-W-626]

**RCA CORP.**

**Certification Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-626: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976 in response to a worker

petition received on that date which was filed on behalf of workers and former workers engaged in the storage and distribution of electronic receiving tubes at the Atlanta, Georgia warehouse of RCA Corporation.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10648). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of RCA Corporation, the U.S. Department of Commerce, the International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

**SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS**

Employment at the Atlanta warehouse declined 20 percent in 1975 from 1974. All employment was terminated in January 1976 when the warehouse was closed by RCA.

**SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY**

Shipments of electronic receiving tubes by the Atlanta warehouse declined 15 percent in 1974 from 1973 and declined 17 percent in 1975 from 1974. All receiving tubes shipped by the warehouse in recent years were produced by RCA at Harrison, New Jersey. RCA terminated all production of receiving tubes in April 1976 with the closing of the Harrison plant.

**INCREASED IMPORTS**

Imports of electronic receiving tubes increased relative to domestic consumption and production in each year from 1971 through 1975. Imports increased their share of domestic consumption from 38.6 percent in 1974 to 48.5 percent in 1975. Imports relative to domestic production increased from 56.6 percent to 81.7 percent during the same period.

**CONTRIBUTED IMPORTANTLY**

The evidence developed by the Department's investigation reveals that the closure of the Atlanta warehouse, resulted from the steady decline in sales of electronic receiving tubes produced by RCA at its Harrison, New Jersey plant. The decision by RCA to close the Harrison plant was a result of increased competitive pressures from both foreign manufacturers and domestic firms with manufacturing facilities overseas.

**CONCLUSION**

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with electronic receiving tubes produced by RCA Corporation contributed importantly to the separation of workers of the Atlanta warehouse. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All workers of the RCA Corporation warehouse at 3405 Empire Boulevard, Atlanta, Georgia who became totally or partially separated from employment on or after February 18, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 9th day of May 1976.

JAMES F. TAYLOR,  
Director, Planning and  
Evaluation Staff.

[TA-W-840]

**REED AND PRINCE MANUFACTURING CO.**

**Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance**

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Reed and Prince Manufacturing Company, Worcester, Massachusetts (TA-W-840).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with ferrous and non-ferrous nuts and screws produced by Reed and Prince Manufacturing Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total

or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

[TA-W-856]

**REPUBLIC CORP.**

**Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance**

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Harmony Industries Division, Mingo Junction, Ohio, a subsidiary of the Republic Corporation (TA-W-856).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with special steel fasteners produced by Republic Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II,

Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### REPUBLIC STEEL CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 21, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the U.S. Steelworkers of America on behalf of the workers and former workers of Union Drawn Division plant of Republic Steel Corporation, Massillon, Ohio (TA-W-833).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with cold finished bars and coils produced by Republic Steel Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public

hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

[TA-W-579]

#### REXNORD, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-579: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on January 30, 1976, in response to a worker petition received on January 30, 1976, which was filed on behalf of workers formerly producing machinery chain at the Springfield, Mass. plant of Rexnord, Inc.

The notice of investigation was published in the FEDERAL REGISTER on February 13, 1976 (41 FR 6828). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Rexnord, Inc., its customers, the U.S. Department of Commerce, the International Trade Commission, the American Chain Association, Industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although criteria one and two have been met, criteria three and four have not been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 6.7 percent from 1973 to 1974 and 27.7 percent from 1974 to 1975. Employment declined in each quarter of 1975 from the same quarter of 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of roller chain by Rexnord declined 3 percent from 1973 to 1974 and 25 percent from 1974 to 1975. Quarterly sales declined in each quarter of 1975 from the same quarter of the previous year.

Production data was not available for 1973. Production of roller chains by Rexnord declined 34 percent from 1974 to 1975. Production declined in each quarter of 1975 from the same quarter of 1974.

#### INCREASED IMPORTS

Imports of power transmission chains including roller chains increased absolutely and relatively from 1971 to 1972, then declined relatively from 1972 to 1973. Imports increased both absolutely and relatively from 1973 to 1974. Imports decreased absolutely by 10.6 percent from 1974 to 1975. The ratios of imports to domestic production and consumption increased from 30.4 percent and 26.1 percent respectively in 1974 to 31.5 percent and 27.6 percent respectively in 1975.

#### CONTRIBUTED IMPORTANTLY

Evidence developed during the Department's investigation indicated that most customers surveyed did not switch from Rexnord roller chains to imports. Decreased customers purchases of Rexnord roller chains resulted from the overall decline in demand for roller chains which reduced U.S. consumption by 15.5 percent from 1974 to 1975.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with power transmission chains produced at Rexnord, Inc., Springfield, Massachusetts, did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C., this 26th day of April 1976.

JAMES F. TAYLOR,  
Director, Planning and  
Evaluation Staff.

[TA-W-606]

#### ROHR INDUSTRIES, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-606: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 13, 1976 in response to a worker petition received on February 13, 1976 which was filed by the International Association of Machinists and Aerospace Workers on behalf of workers and former workers producing nacelles and other aerospace products at the Riverside, California plant of Rohr Industries, Inc.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 10648) on March 12, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Rohr Industries, Inc., the Aerospace Industries Association of America, the Department of Commerce, the International Trade Commission and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers increased 31 percent in 1974 compared to 1973 and then declined 9 percent in 1975 compared to 1974.

#### SALES OR PRODUCTION, BOTH, HAVE DECREASED ABSOLUTELY

Rohr's total shipments of aerospace products in terms of value increased 17 percent in 1974 compared to 1973 and then declined by 10 percent in 1975 compared to 1974. Shipments of nacelles in

terms of units declined 10 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Rohr is the sole domestic manufacturer of aircraft nacelles. Rohr imports parts and subassemblies for its nacelles and other aerospace products from its Mexican facilities. Rohr's total imports from these Mexican facilities increased by 83 percent from 1973 to 1974 and increased by 15 percent from 1974 to 1975.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation indicated that the separation of workers engaged in employment of certain subassemblies was caused by increased imports from Rohr's Mexican facilities.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of parts and subassemblies like or directly competitive with those produced at Rohr's Riverside plant have contributed importantly to the total or partial separation of workers at that plant. In accordance with the provisions of the Act, I make the following certification:

All hourly employees of Department 043 at the Riverside, California plant of Rohr Industries who became totally or partially separated from employment on or after February 11, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 26th day of April 1976.

JAMES F. TAYLOR,  
Director, Planning and  
Evaluation Staff.  
[FR Doc.76-14765 Filed 5-20-76;8:45 am]

[TA-W-852]

#### RUSSELL, BURDSALL & WARD, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of the Rock Falls, Illinois plant of Russell, Burdsall & Ward, Inc. (TA-W-852).

Accordingly, the Director Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles likely or directly competitive with standard steel fasteners produced by Russell, Burdsall & Ward, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or

partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.  
[FR Doc.76-14810 Filed 5-20-76;8:45 am]

[TA-W-597]

#### SAND 'N SURF, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-597: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 13, 1976 in response to a worker petition received on that date which was filed by the Knit Goods Union, local 190, I.L.G.W.U. on behalf of workers and former workers engaged in the production of men's swimwear and ladies slacks at Sand 'N Surf, Inc., Philadelphia, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10649-10650). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Sand 'N Surf, Inc., its customers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance,

ance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision or being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that criteria 1, 2 and 4 have not been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of workers increased 2 percent in 1975 compared to 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales increased 15 percent in value in 1975 compared to 1974 and production in units increased 9 percent during this same period.

#### INCREASED IMPORTS

U.S. import data for men's swimwear is not available for the period 1970 through 1973. Imports of men's swimwear declined slightly in 1975 when compared to 1974 and the ratios of imports to domestic production and consumption decreased from 8.8 percent and 8.0 percent, respectively, in 1974 to 8.3 percent and 7.7 percent in 1975. Imports of women's, misses' and children's woven slacks, jeans and shorts increased in 1971 and 1972 compared to the previous year, and declined in both 1973 and 1974 compared to the previous years. Imports increased 18.6 percent in 1975 compared to 1974.

#### CONTRIBUTED IMPORTANTLY

Customers surveyed indicated they have not shifted their purchases from Sand 'N Surf's men's swimwear and women's, misses' and children's woven slacks, jeans and shorts to imports.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's swimwear and women's, misses' and children's woven slacks, jeans and shorts produced at Sand 'N Surf, Inc., Philadelphia, Pennsylvania, did not contribute importantly to the total or partial separation of the workers at that facility.

Signed at Washington, D.C., this 29th day of April 1976.

#### SCOVIL MANUFACTURING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the International Union of Electrical, Radio and Machine Workers on behalf of the workers and former workers of Scovil Manufacturing Co., Newark, New Jersey, a subsidiary of Scovil, Incorporated (TA-W-859).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with slide fasteners produced by Scovil Manufacturing Co., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

#### SOUTHERN SCREW CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Southern Screw Company, Statesville, North Carolina, a subsidiary of N. L. Industries, Inc. (TA-W-826).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard fasteners produced by Southern Screw Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

[TA-W-853]

#### STANDARD LOCKNUT & LOCKWASHER, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Standard Locknut and Lockwasher Inc. Carmel, Indiana (TA-W-853).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of

International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with special steel fasteners produced by Standard Locknut & Lockwasher, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### STANDARD NUT AND BOLT CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Standard Nut and Bolt Company, Cumberland, Rhode Island (TA-W-835).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with industrial fasteners of all kinds produced by Standard Nut and Bolt Company, Cumber-

land, Rhode Island, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

[TA-W-385]

#### STROUDSBURG ENGINE WORKS, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-385: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 5, 1975 in response to a worker petition received on December 5, 1975 which was filed by the International Association of Machinists and Aerospace Workers on behalf of workers and former workers producing holts for fishing vessels and replacement parts at the Stroudsburg, Pennsylvania plant of Stroudsburg Engine Works, Inc.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 59277) on December 22, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Stroudsburg Engine Works, Inc., its customers, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increasing quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has found that although the first three criteria have been met, the fourth criterion has not been met.

#### SIGNIFICANT TOTAL OF PARTIAL SEPARATIONS

The average number of production workers declined 32 percent in 1975 compared to 1974. Average weekly hours declined 11 percent in 1975 compared to 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales at the Stroudsburg, Pennsylvania plant declined 44 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Imports of hoists, winches and parts (including those for marine use) increased in value from \$21.0 million in the first nine months of 1974 to \$21.5 million in the first nine months of 1975. The ratio of imports to domestic production in 1974 was 13.2 percent.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation found that the hoists produced by Stroudsburg Engine Works Inc. are used primarily in the shrimping industry. In 1974 and 1975, shrimp prices declined. This caused financial difficulty among many shrimp boat operators. Because of these difficulties shrimp boat operators reduced purchases of new hoists. Major customers of Stroudsburg Engine Works did not report shifting purchases to imported hoists or replacement parts.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with hoists and replacement parts produced at Stroudsburg, Pennsylvania plant of Stroudsburg Engine Works, Inc. did not contribute impor-

tantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C., this 4th day of March 1976.

GLORIA G. PRATT,  
Director, Office of  
Foreign Economic Policy.

#### TELEDYNE EFFICIENT INDUSTRIES

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 7, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the United Automobile, Aerospace and Agricultural Implement Workers of America on behalf of the workers and former workers of Cleveland, Ohio plant of Teledyne Efficient Industries a division of Teledyne, Incorporated, Los Angeles, California (TA-W-844).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with tools, dies, jigs and fixtures that are used in the building of automobile bodies produced by Teledyne Efficient Industries, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, DC., this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### TELEDYNE INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Teledyne Incorporated, Canonsburg Division, Washington, Pennsylvania (TA-W-842).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with the polishing of stainless steel coils by Teledyne, Incorporated, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

[TA-W-672]

#### TELEDYNE-VASCO

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-672: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 18, 1976 in response to a worker petition received on March 18, 1976 which was filed by the United Steelworkers of America, Local 2936 on behalf of workers and former workers at the Agawam warehouse of Teledyne-Vasco in Agawam, Massachusetts.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14224). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Teledyne-Vasco, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment at the Agawam warehouse declined 25 percent from 1974 to 1975.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

The Agawam warehouse stores tool steel from the Colonial plant of Teledyne-Vasco. Annual sales of tool steel at the Colonial plant increased 7 percent in quantity from 1973 to 1974. Sales declined 19 percent in quantity in 1975 compared to 1974. Annual production of

tool steel at the Colonial plant of Teledyne-Vasco increased 56 percent from 1973 to 1974. Production declined 39 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Imports of tool steel declined 27.8 percent in 1971 compared to 1970. Imports increased 18.1 percent in 1972 compared to 1971 and increased 44.7 percent in 1973 compared to 1972. Imports declined 36.9 percent in 1974 compared to 1973. Imports increased 39.4 percent in 1975 compared to 1974. The ratios of imports to domestic shipments and consumption increased from 12.1 percent and 11.6 percent, respectively, in 1974 to 27.7 percent and 23.4 percent in 1975.

#### CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that customers of Teledyne-Vasco have indicated that they have reduced purchases from Teledyne-Vasco and increased purchases of competitive imported products. The price differential between domestic and imported steel was the factor cited most frequently when purchases were switched from domestic to foreign suppliers.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with tool steel produced by Teledyne-Vasco, contributed importantly to the total or partial separation of the workers of the Agawam warehouse. In accordance with the provision of the Act, I make the following certification:

All workers engaged in employment of warehousing tool steel at the Teledyne-Vasco warehouse located in Agawam, Massachusetts who became totally or partially separated from employment on or after March 12, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 29th day of April 1976.

[TA-W-601]

#### TELEDYNE-VASCO, COLONIAL PLANT

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-601: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 13, 1976 in response to a worker petition received on February 13, 1976 which was filed by the United Steelworkers of America, Local 1261 on behalf of workers and former workers producing tool steel at the Teledyne-Vasco, Colonial Plant in Monaca, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10651). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Teledyne-Vasco, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, and threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at the Teledyne-Vasco, Colonial Plant declined 19 percent in 1975 compared to 1974. Employment declined in each quarter of 1975 compared to the like quarter in 1974.

#### SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Annual sales of tool steel at the Colonial Plant of Teledyne-Vasco increased 7 percent in quantity from 1973 to 1974. Sales declined 19 percent in quantity in 1975 compared to 1974. Annual production of tool steel at the Colonial Plant of Teledyne-Vasco increased 56 percent from 1973 to 1974. Production declined 39 percent in 1975 compared to 1974.

#### INCREASED IMPORTS

Imports of tool steel declined 27.8 percent in 1971 compared to 1970. Imports increased 18.1 percent in 1972 compared to 1971 and increased 44.7 percent in 1973 compared to 1972. Imports declined 36.9 percent in 1974 compared to 1973. Imports increased 39.4 percent in 1975 compared to 1974. The ratios of imports to domestic shipments and consumption increased from 12.1 percent and 11.6 percent, respectively, in 1974 to 27.7 percent and 23.4 percent, respectively, in 1975.

## CONTRIBUTED IMPORTANTLY

The Department's investigation revealed that customers of Teledyne-Vasco have indicated that they have reduced purchases from Teledyne-Vasco and increased purchases of competitive imported products. The price differential between domestic and imported steel was the factor cited most frequently when purchases were switched from domestic to foreign suppliers.

## CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with tool steel produced by Teledyne-Vasco, Colonial Plant contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provision of the Act, I make the following certification:

All workers engaged in employment related to the production of tool steel at the Teledyne-Vasco, Colonial Plant located in Monaca, Pennsylvania who became totally or partially separated from employment on or after February 4, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 29th day of April 1976.

## TELESCOPE FOLDING FURNITURE CO., INC.

## Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976, the Department of Labor received a petition dated April 7, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Furniture Workers of America on behalf of the workers and former workers of Telescope Folding Furniture Co., Inc., Granville, New York (TA-W-845).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with outside folding furniture produced by Telescope Folding Furniture Co., Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number of proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the sub-

division of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

## TEXTRON, INC.

## Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

An April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Elwood City, Pa. plant of Townsend Fastening Systems, a Division of Textron, Inc., Providence, Rhode Island (TA-W-829).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with industrial fasteners produced by Textron, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

[TA-W-648]

## VICTORY CLOTHES CO., INC.

## Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-648: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 27, 1976, in response to a worker petition received on that date which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's suit coats and sportcoats at Victory Clothes Company, Inc., Philadelphia, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on March 19, 1976 (40 FR 11640). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Victory Clothes Company, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That of articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

## SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at Victory Clothes Company declined seven percent in 1974 from 1973 and declined 24 percent in 1975 from 1974. Average weekly hours for production workers de-

clined seven percent in 1974 from 1973 and eight percent in 1975 from 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of men's suit coats and sportcoats by Victory declined five percent in 1974 from 1973 and declined 37 percent in 1975 from 1974. Victory produces on a contractual basis and sales equal production.

## INCREASED IMPORTS

Imports of men's and boys' suits increased relative to domestic production and consumption in each year from 1971 to 1975. Imports relative to domestic production and consumption increased from 12.2 percent and 10.9 percent respectively in 1974 to 17.2 percent and 14.6 percent respectively in 1975.

Imports of men's and boys' sportcoats increased their share of the domestic market each year from 1971 to 1974. Imports relative to domestic production and consumption increased from 21.2 percent and 17.5 percent respectively in 1974 to 28.2 percent and 22.0 percent respectively in 1975.

## CONTRIBUTED IMPORTANTLY

The evidence developed during the Department's investigation indicates that production declines and separations of workers at Victory Clothes were due to the cutback in orders placed by the one firm for which Victory performed its contract operations. Customers of that firm indicated that they reduced purchases from the firm while increasing purchases of imported suits and sportcoats.

## CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's suit coats and sportcoats produced at Victory Clothes Co., Inc. contributed importantly to the total or partial separation of the workers of that firm. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All workers of Victory Clothes Company, Inc., Philadelphia, Pennsylvania, who became or will become totally or partially separated from employment on or after February 25, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 29th day of April 1976.

JAMES F. TAYLOR,  
Director, Planning and  
Evaluation Staff.

## VULCAN RIVET AND BOLT CORP.

## Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15,

1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Vulcan Rivet and Bolt Corporation, Birmingham, Alabama, a subsidiary of Bethlehem Steel Corporation (TA-W-862).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with standard steel fasteners produced by Vulcan Rivet and Bolt Corporation, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

[TA-W-607]

#### WASHINGTON STEEL CORP.

##### Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-607: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 20, 1976 in response to a worker petition received on February 20, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing stainless steel strip and sheet at the Washington, Pennsylvania plant and was expanded to include the Houston, Pennsylvania plant of the Washington Steel Corporation, Washington, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on March 12, 1976 (41 FR 10653). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Washington Steel Corporation, its customers, the United Steelworkers of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

For purposes of paragraph (4), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

#### SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers at both plants declined 18.9 percent in 1975 compared to 1974 and declined 26.3 percent in the first quarter of 1975 compared to 1974. Separations of production workers exceeded 33 percent of the total workforce in February 1975.

#### SALES, PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales from both plants declined 42.9 percent and 39.6 percent, in quantity and value, respectively in 1975 compared to 1974. Sales declined 64.5 percent and 51.4 percent, in quantity and value, respectively in the first quarter of 1975 compared to the first quarter of 1974.

Production in quantity, declined 41.6 percent in 1975 compared to 1974 and

declined 58.9 percent in the first quarter of 1975 compared to the first quarter of 1974.

#### INCREASED IMPORTS

Imports of stainless steel sheet relative to U.S. shipments and domestic consumption declined from 42.3 percent and 31.0 percent, respectively in 1971 to 9.9 percent and 9.6 percent, respectively in 1973. The ratio of imports then increased each year from 9.9 percent and 9.6 percent, respectively in 1973 to 22.4 percent and 19.1 percent, respectively in 1975.

Imports of stainless steel strip increased from 11.0 thousand net tons in 1971 to 16.8 thousand net tons in 1972 before declining to 10.6 and 10.4 thousand net tons in 1973 and 1974, respectively. Imports then jumped to 14.2 thousand net tons in 1975. Imports of stainless steel strip relative to U.S. shipments and domestic consumption increased from 4.2 percent and 4.2 percent, respectively in 1971 to 5.8 percent and 5.8 percent, respectively in 1972, before falling to 3.0 percent and 3.2 percent, respectively in 1974. The ratio of imports to U.S. shipments and domestic consumption then increased from 3.0 percent and 3.2 percent, respectively in 1974 to 6.9 percent and 6.8 percent in 1975.

#### CONTRIBUTED IMPORTANTLY

The evidence developed during the Department's investigation indicates that about 65 percent of Washington Steel's total output is shipped to distribution centers. Sales by these centers have declined in 1975 compared to 1974 because customers have switched their purchases to other distributors who offer less expensive imported stainless steel strip and sheet.

Customers of Washington Steel other than the distribution centers report that they have increased purchases of imports and consequently decreased purchases from Washington Steel.

#### CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports like or directly competitive with stainless steel sheet and strip produced by the Washington Steel Corporation contributed importantly to the total or partial separation of the workers at the Washington, Pennsylvania and Houston, Pennsylvania plants. In accordance with the provision of the Act, I make the following certification:

All employees at the Washington Steel Corporation's, Washington, Pennsylvania and Houston, Pennsylvania plants, who became totally or partially separated from employment on or after February 8, 1975, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of April 1976.

JAMES F. TAYLOR,  
Director,  
Planning and Evaluation Staff.

#### WILLIAM H. HASKELL MANUFACTURING CO.

##### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of William H. Haskell Manufacturing Company, Pawtucket, Rhode Island, a subsidiary of Easco Corporation, Baltimore, Maryland (TA-W-837).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with corrosion and heat resistor standard and special fasteners made of steel, copper and nickel alloys produced by William H. Haskell Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### WILLIAM H. OTTE MILLER CO.

##### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On April 30, 1976 the Department of Labor received a petition dated April 15, 1976 which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") by the United Steel Workers of America on behalf of the workers and former workers of William H. Otte Miller Company, York, Pennsylvania (TA-W-831).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with steel fasteners, special steel screws and other special steel items produced by William H. Otte Miller Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 31, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 30th day of April 1976.

#### AMERICAN SPORTSWEAR

##### Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on March 12, 1976 in response to a worker petition received on that date which was filed by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of American Sportswear, Brooklyn, New York, a division of Tarra Hall Clothes, Inc., New York, New York.

During the course of the investigation, it was established that all workers of American Sportswear were separated before November 1, 1974. Section 223(b) (1) of the Trade Act of 1974 provides, in substance, that a certification shall not apply to any worker whose last total or

partial separation from the firm or an appropriate subdivision of the firm occurred more than one year before the date of the petition on which such certification is granted.

The date of the petition in this case is March 9, 1976 and, thus, workers terminated prior to March 9, 1975 are not eligible for program benefits under Title II, Chapter 2, Subchapter B of the Trade Act of 1974. Therefore, this investigation has been terminated.

Signed at Washington, D.C. this 13th day of May 1976.

MARVIN M. FOOKS,  
Director, Office of  
Trade Adjustment Assistance.

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

MAY 21, 1976.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 212(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 10, 1976. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-76271. By order of May 17, 1976, the Motor Carrier Board approved the transfer to Scheibler Truck Line, Inc. of the operating rights in Certificate No. 50849 issued March 16, 1962, to R. R. Scheibler, doing business as Scheibler Truck Line, Bennington, Kansas 67422, authorizing the transportation of agricultural implements and machinery, building materials, eggs, farm implements, farm machinery, feed, fencing materials, furniture, general commodities, grain, groceries, hardware, hay, livestock, oil and grease, petroleum products, pipe, service station equipment, and underground storage tanks from, to, and between specified points over regular and irregular routes in the states of Kansas, Missouri, and Nebraska. James R. Martin, Esq., 115 South First Street, Osborne, Kansas 67473, attorney for applicant.

No. MC-FC-76384. By order of May 17, 1976, the Motor Carrier Board approved the transfer to Trans Western Transports of Oklahoma, Inc., Oklahoma City, Okla., of the operating rights in Certificate No. MC-74346 issued May 8, 1969 to M-G Trucking Co., a corporation, doing business as M-G Trucking Company, Oklahoma City, Okla., authorizing the transportation of machinery, materials,

supplies, and equipment, incidental to, or used in the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, between points in Oklahoma, Texas and Kansas, Louis J. Bodner, 417 Couch Drive, Oklahoma City, Okla. 73102. Attorney for applicants.

No. MC-FC-76414. By order of May 17, 1976, the Motor Carrier Board approved the transfer to A-1 Veterans Transfer Company, a corporation, P.O. Box 5839, Athens, Ga., 30604, of the operating rights in Certificate No. MC-6272 issued May 7, 1954, to Thomas Transfer Co., Inc., 200 Dairy Pak Road, Athens, Ga., 30601, authorizing the transportation of household goods between Athens, Ga., and points within 50 miles thereof, on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kentucky,

North Carolina, South Carolina, Tennessee, and Virginia.

ROBERT L. OSWALD,  
Secretary.

# ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 600]

[FRL 540-1]

## FUEL ECONOMY OF MOTOR VEHICLES

### Fuel Economy Regulations and Test Procedures for 1977 and Later Model Automobiles

On December 22, 1975, the President signed the Energy Policy and Conservation Act ("EPCA") into law. EPCA requires the EPA Administrator to prescribe rules for the fuel economy labeling of 1977 and later model year automobiles and for the distribution of a fuel economy booklet by auto dealers. Manufacturers are required to label each 1977 and subsequent model year automobile and dealers must maintain the label on the vehicle. Each label is required by the statute to include (1) the fuel economy of the automobile, (2) the estimated annual fuel cost associated with the operation of the automobile, and (3) the range of fuel economy of comparable automobiles. EPA is proposing that labels list three fuel economy values: city, highway, and combined.

EPA is soliciting comments on the form, content, and language of the labels and the use of graphics as they relate to the manufacturer's ability to implement the labels and the usefulness to the consumer.

The most significant issue in the proposed regulations is the method of determining comparability of automobiles to implement the requirement of the Act that fuel economy labels will display the fuel economy range of all comparable automobiles. The Preamble describes two approaches, one utilizing wheel base as a determinate, the other, an interior/exterior size or volume approach, using a combination of interior and exterior volume indices. Comments on a number of subsidiary issues regarding comparability are also requested:

- (1) The number of comparable classes of vehicles and their cut points.
- (2) The names given to these various classes.
- (3) The appropriate weighting factor between interior and exterior volumes if a volume approach is used.

On December 22, 1975, the President signed the Energy Policy and Conservation Act, Pub. L. 94-163, 89 stat. 871. Title III of this Act amends the Motor Vehicle Information and Cost Savings Act, 15 U.S.C. 1901 et seq. ("the Act") to provide that for all 1977 and later model year automobiles, manufacturers shall cause to be affixed and dealers cause to be maintained, a label bearing fuel economy information for that automobile. The Act further directs the EPA Administrator to prescribe rules pertaining to the form and content of such labels, and the manner in which the labels must be affixed. The Administrator must also compile and prepare a simple and readily understandable booklet containing data on fuel economy of automobiles manufactured in each model year. Automobile dealers are required, according to rules

## PROPOSED RULES

to be prescribed by the Administrator, to make these booklets available to prospective customers.

The regulations proposed below fulfill the requirements imposed upon EPA by the Energy Policy and Conservation Act with respect to the labeling of 1977 and subsequent model year automobiles. EPA has coordinated and consulted with the Department of Transportation, Federal Energy Administration (FEA), and the Federal Trade Commission, on the preparation of these proposed rules as required by EPCA.

It is proposed that Part 600 of 40 CFR Chapter I, be amended as described below.

**I. Basic Definitions.** Several key definitions are used throughout this preamble. An introductory discussion of the terms will aid in understanding the proposed rules. All of the following terms are defined in the text of the regulations.

The Act requires that all automobiles be labeled with a sticker displaying fuel economy information. An *automobile* is defined as any 4-wheeled vehicle, propelled by fuel, which is manufactured primarily for use on public streets, roads, or highways and which is rated at 6000 pounds gross vehicle weight (GVW) or less. This definition would include types of cars and trucks which are currently certified by EPA as "light-duty" and are included in the 1976 EPA/FEA Gas Mileage Guide for New Car Buyers. Present EPA certification regulations define a *light duty vehicle* as a passenger car or passenger car derivative capable of seating twelve passengers or less. A *light duty truck* is defined in the same regulations as being designed primarily for the purpose of transportation of property and rated at 6000 pounds GVW or less. Therefore all light duty vehicles and all light duty trucks (as defined for emissions certification purposes) will be required to display a fuel economy label except those trucks with a GVW of greater than 6000 pounds. (On February 12, 1976, EPA proposed rules extending the GVW upper limit for light duty trucks to 8500 pounds beginning with the 1978 model year, 41 F.R. 6279. Trucks above 6000 pounds GVW will be required to be fuel economy labeled according to these proposed regulations when the Secretary of Transportation promulgates rules applicable to these vehicles for some future model year).

For fuel economy labeling purposes, the first major subdivision of a manufacturer's product line is car line. A *car line* denotes a group of vehicles within a make or car division which has a degree of commonality in construction and in most cases corresponds to the general marketing name of the vehicles. Car line does not consider any level of decor or opulence and is not generally distinguished by characteristics such as roof line, number of doors, seats or windows, although station wagons are considered distinct car lines from sedans. For example, in the 1976 EPA/FEA Gas Mileage Guide for New Car Buyers, Dodge, a division of Chrysler Corporation, has listed seven car lines: Dart, Aspen, Aspen

Wagon, Coronet/Charger, Coronet Wagon, Monaco, and Monaco Wagon.

A subdivision of car line and a major level for reporting fuel economy is model type. A *model type* is defined as a unique combination of car line, basic engine, and transmission class. Thus, within a car line, a number of model types may exist depending upon the availability of various *basic engines* (displacement and number of cylinders, fuel system, and catalyst usage) and the transmission classes offered (automatic or manual). Each line entry in the Buyer's Guide corresponds to a unique model type.

Although weight is not a model type determinant, it does figure into the calculation of the fuel economy for each model type. For testing and calculation purposes, each manufacturer's product line is subdivided into base levels. A *base level* is a unique combination of inertia weight class, basic engine, and transmission class. Note that base level is nearly the same as model type except that weight is substituted for car line. The fuel economy for any model type is simply the sales-weighted, harmonic average of fuel economy of each base level comprising the model type. Again using the Chrysler example, a typical base level would be 3500 pound, 318 cubic inch, 8 cylinder engine with 2 barrel carburetor, catalyst, and manual transmission.

Another level of delineation is used to identify individual test vehicles. Base levels are subdivided into vehicle configurations. A *vehicle configuration* is defined as a unique combination of inertia weight class, basic engine, and transmission class (all of which determine a base level) plus engine code, transmission configuration, and axle ratio. *Engine code* goes beyond the definition of basic engine by isolating different variations of carburetor, distributor, and other key engine and emission control system components. *Transmission configuration* considers more than just manual or automatic and distinguishes transmissions primarily by their numbers of forward gears, e.g., three-speed manual and four-speed manual. An example of a vehicle configuration is 3500 pound, 318 cubic inch, 8 cylinder, 2 barrel carburetor engine of engine code A, with catalyst, 3-speed manual transmission and 3.23 axle ratio.

**II. Fuel Economy Labels.** The Act requires that manufacturers label each 1977 and subsequent model year automobile and that dealers maintain the label on the vehicle. Each label is required to indicate (1) the fuel economy of the automobile, (2) the estimated annual fuel cost associated with the operation of the automobile, and (3) the range of fuel economy of comparable automobiles. All of this information is to be determined according to rules prescribed by the Administrator. EPA is also responsible for specifying, by rule, the form and content of the labels and the manner in which they are affixed.

Appendix IV to these regulations provides samples of the label formats which EPA is proposing. The Agency is soliciting comments on the form, content, and

language of the labels as they relate to the manufacturer's ability to implement the labels and the usefulness to the consumer of the format. Although no sample is provided, EPA is also considering requiring the use of graphics on the label to increase the consumer's comprehension, and comments on this point are requested.

The proposed labels are of two basic types, general and specific. The *general label* displays sales-weighted, fuel economy estimates for a model type—a unique combination of car line, engine displacement, number of cylinders, fuel system, catalyst usage, and transmission type (manual or automatic). The *specific label* differs from the general label by a more detailed description of the engine (although not identified on the label), weight of the vehicle, axle ratio, and the number of forward speeds of the transmission. A specific label contains the fuel economy of a unique vehicle configuration.

Both general and specific labels list three fuel economy values: city, highway, and combined. The city fuel economy value is determined from operating one or more test vehicles over the driving schedule in the Federal Emission Test Procedure, which is designed to simulate an average trip of 7.5 miles in an urban area at an average speed of just under 20 miles per hour. The city schedule consists of a cold and hot engine startup and vehicle operation on a chassis dynamometer. The highway fuel economy value is measured by operating one or more test vehicles over the driving schedule in the Federal Highway Fuel Economy Test Procedure, which is designed to simulate non-metropolitan driving at an average speed of 48.6 miles per hour and a maximum speed of 60 miles per hour. The highway schedule consists of a hot-engine startup and vehicle operation on a chassis dynamometer. The third value displayed is a combined fuel economy value which is the harmonic average of the city and highway fuel economy values, weighted 55 and 45 percent, respectively.

Each automobile is required to be labeled with a general label unless the manufacturer elects to apply a specific label. If a manufacturer chooses to utilize a specific label, he is also required to apply specific labels to all automobiles of the same model type, i.e., all those automobiles that would have been covered by a single general label. With the exception of this last requirement, the 1977 and subsequent model year labeling requirements are essentially identical to those in effect for the 1976 EPA/FEA Voluntary Fuel Economy Labeling Program. The label value calculation procedures are also the same as for the 1976 voluntary program. Interested parties, particularly manufacturers, are requested to comment on the effect that the new specific labeling provision will have on the use of specific labels by the industry.

The proposed regulations allow a manufacturer to use specific labels in place

## PROPOSED RULES

of general labels. However, except as noted below, the Agency will require that a general label be approved for each model type prior to the public introduction date of any vehicle configuration included in that model type. This provision has been included for two reasons: (1) EPA must calculate a general label value for each model type for inclusion in the fuel economy booklet, and (2) the availability of an approved general label value assures that the manufacturer can revert back to a general label in the event of a mid-year production change obsoletes some specific labels. However, EPA recognizes that large volume fleet sales often occur prior to the date at which the manufacturer might normally request a general label value be calculated, and that vehicles are often shipped to dealers before model introduction. Therefore, up until each manufacturer's general model introduction date, a manufacturer may introduce into commerce vehicles labeled with specific fuel economy labels without having an approved general label.

Every label will display an average annual fuel cost estimate based on the combined fuel economy that appears on that label. The EPA Administrator will, with assistance from the Secretary of Transportation and the Federal Energy Administration, determine the proper values for the average annual mileage for a new car and the average cost of fuel, respectively, and will advise the affected manufacturers of these data.

Neither the fuel economy values nor the average annual fuel costs initially determined for a general label will be revised during the course of a model year. However, on specific fuel economy labels, both the fuel economy figures and the annual fuel cost estimate will be updated to reflect any mid-year production modification that affects the vehicle configuration fuel economy.

The Act specifies that fuel economy labels contain the range of fuel economy from comparable automobiles. EPA is proposing that for the purpose of this requirement, this range should be the range of the city/highway combined fuel economy values for all model types included within a class.

All vehicles within a car line (or truck line) will be grouped into a single class. One distinct range will be calculated for each class for use on both general and specific labels. The range will consist of the highest and lowest combined fuel economy results of all model types within the class, i.e., the range of the general label values within the class. Since the fuel economy booklet is the primary source of comparative vehicle fuel economy information and lists general label values, it is desirable that any secondary and subordinate source of information, such as the label range values, be consistent. Additionally, for those vehicles included in a published edition of the fuel economy booklet, a consumer will be able to compare the fuel economy values of other model types of the same class and other classes.

The Agency recognizes that regardless of the approach adopted for establishing

the range of fuel economy values used on labels, there can be some degree of confusion for the potential car buyer. For example, if the range were to be based on specific label values, potential car buyers would have no practical way to ascertain which vehicles represent the extremes of the range since this information cannot readily be kept up-to-date and published in current booklet form. Conversely, if the range of values is based on general label values, vehicles that are specific-labeled could show fuel economy values outside of the range. EPA has tentatively concluded that less confusion will result from using the latter scheme, and will explain in the fuel economy booklet why some specific-labeled vehicles show fuel economy values outside of the range given on the label. Therefore, the range values are proposed to be based upon model type (i.e., general label) combined fuel economy figures for all automobiles determined to be in a specific class.

The Agency considered three basic issues relating to the range requirement:

1. How many classes should there be and what cut points should be employed?
2. Should the classes have descriptive names or be designated by a number or letter?
3. On what basis should car lines (and truck lines) be assigned to a class?

EPA concluded that a system that groups automobiles into a relatively small number of classes is most desirable. Too few classes have the effect of grouping too many dissimilar cars together and would not provide meaningful comparative information. On the other hand, a large number of classes is tantamount to putting each vehicle in its own unique class which frustrates the purpose of putting the range on the label.

Regarding the names of the classes, there are advantages to both approaches posed in question 2, above. The Agency sees merit in a scheme that uses descriptive terms that consumers generally understand. For example, passenger automobiles might be designated as "subcompact", "compact", "intermediate", "full-size", or "sports/specialty". For light trucks, common categories are "small pickup", "standard pickup", and "utility/special purpose". These classes are often used by trade publications, industry associations, and consumer testing organizations to identify vehicles. However, the disadvantage of using such names is that the class into which a vehicle is grouped for fuel economy labeling purposes may differ from the marketing intentions of the manufacturer. EPA wants to avoid any interference with manufacturer's marketing efforts. For this reason, EPA accepts that there may be some advantage to identifying the classes by using numbers or letters (e.g., "1", "2", or "A", "B").

Concerning the third issue, the basis for class determination, EPA could find no commonly accepted, objective criterion by which vehicles could be grouped into categories. Although the majority of existing classification systems are related to vehicle size, classification is ap-

parently determined subjectively based largely on the "marketing intent" of the manufacturer or, as may be perceived by some other classifying organization. It is not acceptable, in the Agency's opinion, to rely on subjective evaluations for class assignments. However, one disadvantage of an objective approach is that there will be a small number of vehicles that will appear to be misclassified. Comments are requested on a regulatory provision and the circumstances under which it would be applied to permit the Administrator to reclassify such vehicles on petition of a manufacturer.

EPA examined several parameters and dimensions in an effort to arrive at a solution that sensibly and objectively categorizes automobiles into classes. A primary consideration in evaluating any alternative approach is that the method be consistent with the proposed labeling scheme (i.e., general and specific) to the extent that no proliferation in the number of labels results. For example, a general label frequently includes automobiles in more than one weight class. Consequently, a method of defining classes of vehicles based on weight would necessitate that either more than one range appear on a single general label or that multiple versions of the same general label be used. Also, using weight as a criterion would provide little consumer information, because few people are believed to buy cars by weight.

In studying the automobile population, it became apparent to EPA that five basic types of vehicles existed: conventional passenger cars (generally designed to carry at least four persons and a moderate amount of luggage), station wagons (generally designed to carry at least 4 passengers and a large amount of luggage or property), sports passenger cars (normally designed to carry only two persons and a limited amount of luggage), exotic passenger cars (designed to carry anywhere from two to six persons, but costing significantly more than the average consumer normally considers on spending for an automobile) and light trucks (designed to carry primarily property). Size alone does not distinguish these fundamentally different types of vehicles. In addition, considering these basic types of vehicles together could distort the ranges. Therefore, EPA concluded that automobiles should first be subdivided into these five basic types and then classification schemes within each basic type evaluated.

EPA reasoned that since the number of sports and exotic passenger cars is relatively small, that both could be combined into a single class (e.g., "Sports/Specialty Automobiles"). Secondly, such a class would be comprised of all passenger automobiles with maximum seating capacity of two (as determined by the number of required seat belts) and all passenger automobiles with a base manufacturer's suggested retail price greater than some fixed dollar amount. Based on 1976 model year vehicles, a value of \$15,000 or more appears to isolate those vehicles that are generally

considered ultra-expensive or exotic from those that are more conventional. Clearly, this or any such price figure would have to be re-evaluated yearly.

For the purpose of subdividing trucks into classes, body shape and wheelbase length proved to be reasonable criteria. Trucks would then be divided into three classes, "Small Pickups" (trucks with open cargo bed and wheelbase under 112 inches), "Standard Pickups" (trucks with open cargo bed and wheelbase 112 inches or greater), and "Utility/Special Purpose" (all other light duty trucks). EPA attempted to develop a definition for vans as a separate class of trucks, but could not arrive at a satisfactory description of a van. Therefore, vans are included in the Utility/Special Purpose category.

An alternative approach for classifying pickup trucks into small and standard sizes which uses gross vehicle weight (GVW) as a determinant instead of wheelbase was recommended by FEA. Trucks with GVW less than 4500 pounds would be classed as small pickups under this approach, those with GVW equal to or greater than 4500 pounds would be classed as standard size pickups.

Conventional passenger cars are more difficult to classify since there are so many variations and they are continually changing from year to year. EPA and FEA analyzed several different methods for classifying passenger cars. EPA concluded that two of the alternatives had significantly more potential than the others.

The first approach is to group passenger cars (other than sports/specialty cars, into classes on the basis of wheelbase. EPA found that wheelbase generally separates cars into classes that are consistent with common groupings. Passenger cars were divided into four categories:

Subcompact (wheelbase length less than 100 inches)  
Compact (wheelbase length 100 inches to less than 112 inches)  
Intermediate (wheelbase length 112 inches to less than 120 inches)  
Full Size or Large (wheelbase length 120 inches or greater)

Although the wheelbase approach appears to work well for all 1976 model year vehicles, EPA recognizes that automobiles may very well change in the near future, largely due to the need to reduce the size of cars for fuel economy reasons. Particularly among domestic manufacturers, large cars are getting smaller and lighter and new compacts and subcompacts are being added to product lines. The car which is of a size today that would be considered "full size" will, in the near future be reduced in size to the range of today's intermediates. Moreover, this change is taking place at different rates for different manufacturers. A manufacturer who reduces the size of his cars is therefore facing the prospect of having his "full size" car put into the intermediate class, where fuel economy is generally better, rather than remaining in the "full size" class and reaping the competitive advantage of having reduced size and improved fuel economy.

This situation exists to some extent for any system which uses a size-related characteristic as the basis for classification. Unfortunately, any objective procedure requires that limits be set to define each class, but since vehicles are undergoing changes, the system is, in a sense, aiming at a moving target—at best, the procedure may work for the 1977 model year but would likely have to be revised in the next couple of years. This disadvantage is accentuated in systems which rely on exterior dimensions as the criteria for classification more than it is of interior dimension systems, since manufacturers will likely be trying to reduce overall size while retaining interior space. Furthermore, any system which relies on measurement of only one vehicle characteristic will necessarily be overly sensitive to any changes in that facet of design while being insensitive to any other changes.

Therefore, recognizing the potential problems associated with a relatively simplistic approach like the wheelbase system, EPA looked at a more sophisticated scheme that considers several design characteristics including exterior and interior vehicle dimensions and luggage capacity. This second method of classifying passenger cars is referred to as the "volume" scheme.

The advantages of the volume approach are that it is compatible with the space and weight conscious design of the new cars expected during the next few years and would tend to differentiate these cars from older designs which do not utilize space as efficiently. The manufacturer who reduces the size of his car and increases fuel economy, but who maximizes interior space, could be in the same class as larger (externally) cars and could thus have a favorable competitive fuel economy position. In terms of the objectives of EPCA, this procedure would seem to provide an additional incentive for manufacturers to improve fuel economy.

As considered by EPA, the volume approach classifies passenger cars on the basis of a class index, which is the sum of an interior volume index and a normalized exterior volume index. These indices are calculated using the basic measurement techniques found in the Society of Automotive Engineers (SAE) Recommended Practice J1100A, Motor Vehicle Dimensions. The actual measurement techniques are not described here in detail. A copy of this procedure has been placed in the Public Information Reference Unit, U.S. Environmental Protection Agency, Room 2922, 401 M Street, S.W., Washington, D.C. 20460.

The interior volume index for sedans is defined as:

$$\text{Interior volume index} = \text{Front seat volume} + \text{rear seat volume} + \text{trunk volume}$$

where

$$\text{Front seat volume} = \text{Head room} \times \text{shoulder room} \times \text{leg room}$$

and

$$\text{Rear seat volume} = \text{Head room} \times \text{shoulder room} \times \text{leg room}$$

For hatchback models, trunk volume is proposed to be measured with the rear seat up, not down, as in the SAE Practice.

Station wagon interior volumes are calculated using the same expression as for sedans, except that cargo volume is substituted for trunk volume.

All measurements are to be in feet. The exterior volume index is expressed as:

$$\text{Exterior volume index} = \frac{\text{Overall vehicle length} \times \text{Overall vehicle width} \times \text{Overall vehicle height}}{\text{Overall vehicle height}}$$

In order to calculate the class index, the exterior volume index is "normalized" by multiplying it by a ratio of the average interior volume index divided by the average exterior volume index. Based upon 1976 vehicles, this ratio is approximately 0.25. The purpose of normalizing the exterior volume index is to make the class index equally sensitive to both interior and exterior volume changes. EPA requests specific comments on the appropriate weighting of interior and exterior volumes and on the various components of interior volume—front seat volume, back seat volume, and trunk volume.

Based on 1976 model year vehicles, EPA has categorized conventional passenger cars into five classes, with each class defined as:

- Class 1—cars with class index less than 162 cubic feet
- Class 2—cars with class index between 162 to less than 186 cubic feet
- Class 3—cars with class index between 186 to less than 222 cubic feet
- Class 4—cars with class index between 222 to less than 248 cubic feet
- Class 5—cars with class index over 248 cubic feet

Station wagons can be classified by either the wheelbase or the volume approach. The same cutpoints that applied to conventional passenger cars could be used for station wagons under the wheelbase approach since the same chassis are used. However, under the volume approach the larger interior volumes of station wagons necessitate the use of separate cutpoints. The classes and cutpoints recommended by the FEA are:

- Class 1—class index less than 200 cubic feet.
- Class 2—class index: 200 to less than 220 cubic feet.
- Class 3—class index: 220 to less than 280 cubic feet.
- Class 4—class index: 280 to less than 330 cubic feet.
- Class 5—class index greater than 330 cubic feet.

EPA has tested the volume scheme using a representative sample of current automobiles. However, due to the several dimensions that are required for each vehicle before a class index can be calculated, EPA has not applied the approach to all available makes of cars. Yet, based upon a limited number of vehicles, the volume system appears to assign vehicles to groups that correspond well with those classifications used by the media. EPA is continuing to evaluate other vehicles as additional data becomes available.

The Agency appreciates the significance of the method used to determine classes of comparable automobiles and recognizes that it has the potential effect of significantly affecting which vehicles compete with one another. However, EPA also realizes that the final determination of comparability rests with the consumer, who will evaluate and weigh the importance of various features differently according to individual needs, perception, etc. Nevertheless, the Agency is interested in arriving at a solution that is as meaningful to consumers as is possible and requests comments on the concept of classifying vehicles and the criteria that could be used to categorize vehicles. Specifically, EPA requests comments on the three key issues discussed earlier relating to this subject and on the acceptability of the wheelbase and volume schemes. Comments should address the appropriateness of the recommended approaches as they relate to current (1977 model year) vehicles and the potential impact that planned, near term (through 1980) model changes might have on the desirability of the discussed methods as well as any other alternative classification systems.

Because of the complexity of this topic and the limited information available to EPA concerning future model year vehicles, the Agency has decided not to publish specific regulatory language on comparability at this time. The Agency expects that responses received during the comment period, together with the discussed approaches, will serve as the basis in formulating a final position.

At the beginning of each model year, EPA will issue fuel economy ranges for each class of comparable vehicles as soon as enough data have been collected to calculate meaningful ranges. EPA will update these ranges during the model year if additional data on newly introduced model types make the original ranges unrepresentative. For the 1977 model year, EPA anticipates that the original issue date for the ranges will be approximately October 1, 1976, and that updated ranges will be issued approximately February 1, 1977. In each case, manufacturers will be required to include the most current range on labels affixed to automobiles manufactured or imported after 15 calendar days following receipt of the data. Automobiles manufactured or imported before the first range is available will be required to contain language on the label stating that no fuel economy range was available as of the date of production or importation. EPA requests comments on the appropriateness of this procedure, and on the specific time period involved.

III. Booklet Availability. Automobile dealers are required, beginning with the 1977 model year, to make available to prospective purchasers the booklet containing fuel economy and estimated fuel cost information. For each model year, EPA will provide the Federal Energy Administrator with a copy of the booklet with the first edition expected to be available about the end of September.

EPA anticipates that a second edition will be prepared in February which will include all model types certified after the compilation of the first edition. FEA will reproduce the booklets and make copies available to automobile dealers and other interested parties. Other parties may also reproduce the booklet for purposes of satisfying these requirements. Therefore, printing specifications and a description of the ways in which copies may deviate from the FEA-printed booklets are also included in the regulations.

IV. Fuel Economy Data Vehicles. Fuel economy data vehicles are those vehicles, in addition to emission certification vehicles, which are tested primarily to measure fuel economy for the purpose of including the results in the booklet or for labeling.

Fuel economy data vehicles may either be required or may be optional depending on the situation. For example, in a case in which additional data are necessary to calculate the manufacturer's general label values, fuel economy data vehicles are required. On the other hand, a manufacturer may voluntarily submit data from additional vehicles for use in calculation of specific labels or to supplement the minimum data base required to calculate a general label fuel economy value.

The need for fuel economy data vehicles arises from the fact that not all base levels are represented by emission certification tests. For purposes of determining compliance with emission certification standards, manufacturers' product lines are divided into engine families. Relatively few test vehicles (usually three to five) are tested from each engine family. These emission data vehicles are selected on the basis that the configuration is either projected to be a high seller or one that would be expected to exhibit high emissions. The expected high emission vehicle is selected on the premise that if the worst car in the engine family can meet the standards, the rest will likely meet the standards. Hence a significant fraction of the vehicle configurations covered by a certificate of conformity may not have been tested for emissions or fuel economy.

Fuel economy data vehicles can have one of two origins: prototypes, such as used for emission certification, or production vehicles. Production vehicles, including those that might be a part of a manufacturer's emission audit program or a Selective Enforcement Audit (SEA) test order, must be qualified by such procedures as checking the calibration of key components to assure that the vehicles are capable of generating representative fuel economy values.

In addition, to ease the burden of submitting additional data, manufacturers are permitted to change components on a previously tested vehicle to represent other vehicle configurations. Otherwise identical fuel economy data vehicles may also be tested at different inertia weight and road load power settings in order to represent more than one vehicle configuration.

Fuel economy data vehicles are permitted to have accumulated up to 10,000

miles. Although the 1976 voluntary fuel economy program specified some minimum mileage (2,000 miles for non-catalyst vehicles and 4,000 miles for catalyst vehicles), the proposed regulations have dispensed with the minimum. It is generally accepted that the fuel economy of a vehicle improves with the first few thousand miles as friction decreases. However, some automobile engines may be manufactured in such a way that the initial break-in period is minimized by operating the engine on a dynamometer or some other technique. By the time the vehicle completes the production process, the fuel economy characteristics of the vehicle may be essentially representative of a stabilized automobile. Therefore, the Agency has concluded that the question of the minimum mileage at which a test vehicle is capable of producing representative fuel economy data is best left to the manufacturer especially since it would be to the manufacturer's disadvantage to test a vehicle prior to the time it is stabilized from a fuel economy standpoint.

As an additional criterion, all fuel economy data vehicles must meet applicable emission standards in order to be accepted. If a vehicle fails to meet standard, no penalty is imposed under the fuel economy program other than rejecting the vehicle for the purposes of fuel economy testing. By permitting this increased flexibility in selecting and testing fuel economy data vehicles, manufacturers are encouraged to submit additional vehicles, thus improving the accuracy of the booklet and label values and encouraging participation in specific labeling. However, if individual configurations or groups of fuel economy data vehicles experienced difficulty in meeting emission standards during fuel economy testing, the Administrator will carry out appropriate investigation to identify the specific emission-related problem(s), the extent of the problem(s), and the corrective action required. Such corrective action may include revocation of the certificate of conformity or recall for the vehicle configurations or class of vehicles involved as provided by section 206(b)(2) or section 207(c)(1), as applicable, of the Clean Air Act, 42 U.S.C. section 1857 et seq.

EPA requests comments on the criteria used to determine the acceptability of fuel economy data vehicles. The Agency is also soliciting information on the use of production vehicles, such as those involved in a SEA test order or a manufacturer's internal quality control program, as fuel economy data vehicles. Manufacturers are specifically requested to comment on the extent to which such vehicles would be used as fuel economy data vehicles.

The proposed regulations also include a provision by which a manufacturer can use analytical techniques to develop additional fuel economy data in lieu of testing actual vehicles. The techniques must be approved by EPA prior to use for generating data for fuel economy labeling. It is expected that the approval of analytical methods would be limited

to those addressing quantifiable parameters such as axle ratio, inertia weight, and road load power setting.

Manufacturers and other interested parties may participate in this rulemaking by submitting comments (in quadruplicate) to the Administrator, Environmental Protection Agency, Attention: Office of Mobile Source Air Pollution Control (AW-455), 401 M Street, S.W., Washington, D.C. 20460. All relevant material received on or before June 21, 1976, will be considered.

A copy of all public comments will be available for inspection and copying at the U.S. Environmental Protection Agency, Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street, S.W., Washington, D.C. 20460. As provided in 40 CFR Part 2, a reasonable fee may be charged for copying services.

**Title and Statutory Authority.** This notice of proposed rulemaking is issued under the authority of Title V of the Motor Vehicle Information and Cost Savings Act, 15 U.S.C. 1901 et seq., as amended by Title III of the Energy Policy and Conservation Act, Pub. L. 94-163, 89 Stat. 871.

Dated: May 14, 1976.

RUSSELL E. TRAIN,  
Administrator.

It is proposed that 40 CFR Part 600 Table of Contents be amended by adding Subparts A, C, D, E, and G as set forth below. Subparts B and F are reserved.

**Subpart A—Fuel Economy Regulations for 1977 and Later Model Year Automobiles—General Provisions**

Sec.	General applicability.
600.001-77	Definitions.
600.002-77	Abbreviations.
600.003-77	Section numbering, construction.
600.004-77	Maintenance of records, right of entry.
600.005-77	Data to be submitted.
600.006-77	Vehicle acceptability.
600.007-77	Review of fuel economy data, testing by the Administrator.
600.008-77	Hearings on acceptance of test data and classification of automobiles.

**Subpart B—[Reserved]**

**Subpart C—Fuel Economy Regulations for 1977 and Later Model Year Automobiles—Procedures for Calculating Fuel Economy Values and Annual Fuel Cost Estimates**

600.201-77	General applicability.
600.202-77	Definitions.
600.203-77	Abbreviations.
600.204-77	Section numbering, construction.
600.205-77	Record keeping.
600.206-77	Calculation and use of fuel economy values for a vehicle configuration.
600.207-77	Calculation and use of fuel economy values for a model type.
600.208-77	Sample calculation.

**Subpart D—Fuel Economy Regulations for 1977 and Later Model Year Automobiles—Labeling**

600.301-77	General applicability.
600.302-77	Definitions.
600.303-77	Abbreviations.
600.304-77	Section numbering, construction.
600.305-77	Record keeping.
600.306-77	Labeling requirements.

Sec.	Format of labels.
600.307-77	General label contents.
600.308-77	Specific label contents.
600.309-77	Labeling of high altitude vehicles.
600.310-77	Range of fuel economy for comparable automobiles.
600.311-77	Approval of labels.
600.312-77	Timetable for data and information submittal and review.
600.313-77	Updating fuel economy, annual fuel cost, and range of fuel economy for comparable automobiles.
600.314-77	Implementation of vehicle label.
600.315-77	Classes of comparable vehicles.

**Subpart E—Fuel Economy Regulations for 1977 and Later Model Year Automobiles—Dealer Availability of Fuel Economy Information**

600.401-77	General applicability.

Appendix III—	Sample fuel economy label calculation.
Appendix IV—	Sample fuel economy label formats.

**AUTHORITY:** Title V of the Motor Vehicle Information and Cost Savings Act, 15 U.S.C. 1901 et seq., as amended by Title III of the Energy Policy and Conservation Act, Pub. L. 94-163, 89 Stat. 871.

2. It is proposed that 40 CFR Part 600 be amended by adding Subparts A, C, D, E, and G as set forth below. Subparts B and F are reserved.

**Subpart A—Fuel Economy Regulations for 1977 and Later Model Year Automobiles—General Provisions**

**§ 600.001-77 General applicability.**

The provisions of this subpart are applicable to 1977 and later model year automobiles. The requirements apply to all automobiles of the respective model year regardless of the date of production.

**§ 600.002-77 Definitions.**

(a) As used in this subpart all terms not defined herein shall have the meaning given them in the Act:

(1) "Act" means Part I of Title V of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 et seq.).

(2) "Administrator" means the Administrator of the Environmental Protection Agency or his authorized representative.

(3) "Secretary" means the Secretary of Transportation or his authorized representative.

(4) "Automobile" means any 4-wheeled vehicle propelled by fuel which is manufactured primarily for use on public streets, roads, or highways (except any vehicle operated on a rail or rails) and which is rated at 6,000 lbs gross vehicle weight or less or is a type of vehicle which the Secretary determines is substantially used for the same purposes.

(5) "Passenger Automobile" means any automobile which the Secretary determines is manufactured primarily for use in the transportation of no more than 10 individuals.

(6) "Model Year" means the manufacturer's annual production period (as determined by the Administrator) which includes January 1 of such calendar year. If a manufacturer has no annual production period, the term "model year" means the calendar year.

(7) "Federal Emission Test Procedure" refers to the dynamometer driving schedule, dynamometer procedure, and sampling and analytical procedures described in Part 86 for the respective model year, which are used to derive city fuel economy data.

(8) "Federal Highway Fuel Economy Test Procedure" refers to the dynamometer driving schedule, dynamometer procedure, and sampling and analytical procedures described in Subpart G of this part and which are used to derive highway fuel economy data.

(9) "Fuel" means gasoline and diesel fuel.

(10) "Fuel Economy" means the average number of miles traveled by an automobile or group of automobiles per gallon of gasoline or diesel fuel consumed as computed in § 600.613-76 or § 600-206-77.

(11) "City Fuel Economy" means the fuel economy determined by operating a vehicle (or vehicles) over the driving schedule in the Federal Emission Test Procedure.

(12) "Highway Fuel Economy" means the fuel economy determined by operating a vehicle (or vehicles) over the driving schedule in the Federal Highway Fuel Economy Test Procedure.

(13) "Combined Fuel Economy" means the fuel economy value determined for a vehicle (or vehicles) by harmonically averaging the city and highway fuel economy values, weighted 0.55 and 0.45 respectively.

(14) "Average Fuel Economy" means the production-weighted combined fuel economy value of all passenger automobiles produced by a manufacturer in a single model year as computed in § 600-508-78.

(15) "Certification Vehicle" means a vehicle which is selected under § 86.077-24(b) and used to determine compliance under § 86.077-30 for issuance of an original certificate of conformity.

(16) "Fuel Economy Data Vehicle" means a vehicle used for the purpose of

determining fuel economy which is not a certification vehicle.

(17) "Label" means a sticker that contains fuel economy information and is affixed to new automobiles in accordance with Subpart D of this part.

(18) "Dealer" means a person who resides or is located in the United States, any territory of the United States or the District of Columbia and who is engaged in the sale or distribution of new automobiles to the ultimate purchaser.

(19) "Model Type" means a unique combination of car line, basic engine, and transmission class.

(20) "Car Line" means a name denoting a group of vehicles within a make or car division which has a degree of commonality in construction (e.g., body, chassis). Car line does not consider any level of decor or opulence and is not generally distinguished by characteristics as roof line, number of doors, seats or windows except for station wagons or light-duty trucks. Station wagons and light-duty trucks are considered to be different car lines than passenger cars.

(21) "Basic Engine" means a unique combination of manufacturer, engine displacement, number of cylinders, fuel system (as distinguished by number of carburetor barrels or use of fuel injection), catalyst usage, and other engine and emission control system characteristics specified by the Administrator.

(22) "Transmission Class" means the basic type of transmission, e.g., manual, automatic or semi-automatic.

(23) "Base Level" means a unique combination of basic engine, inertia weight, and transmission class.

(24) "Vehicle Configuration" means a unique combination of basic engine, engine code, inertia weight, transmission configuration, and axle ratio within a base level.

(25) "Engine Code" means a unique combination, within an engine-system combination (as defined in Part 86), of displacement, carburetor (or fuel injection) calibration, distributor calibration, choke calibration, auxiliary emission control devices and other engine and emission control system components specified by the Administrator.

(26) "Inertia Weight" means the inertia weight class into which a vehicle is grouped based on its loaded vehicle weight in accordance with the provisions of Part 86.

(27) "Transmission Configuration" means a unique combination, within a transmission class, of the number of forward gears and, if applicable, overdrive. The Administrator may further subdivide a transmission configuration (based on such criteria as gear ratios, torque converter multiplication ratio, stall speed, shift calibration, etc.) if he determines that significant fuel economy differences exist within that transmission configuration.

(28) "Axle Ratio" means the number of times the input shaft to the differential (or equivalent) turns for each turn of the drive wheels.

(29) "Auxiliary Emission Control Devices (AECD)" means an element of design as defined in Part 86.

(30) "Rounded" means a number shortened to the specified number of decimal places in accordance with the "Round Off Method" specified in ASTM E 29-67.

(31) "Calibration" means the set of specifications, including tolerances, unique to a particular design, version or application of a component or component assembly capable of functionally describing its operation over its working range.

**§ 600.003-77 Abbreviations.**

The abbreviations used in this subpart have the same meaning as those in 40 CFR Part 86, with the addition of the following: "MPG" means miles per gallon.

**§ 600.004-77 Section numbering, construction.**

The model year of initial applicability is indicated by the section number. The two digits following the hyphen designate the first model year for which a section is effective until superseded.

Example: Section 600.111-78 applies to the 1978 and subsequent model years until superseded. If a § 600.111-81 is promulgated it would take effect beginning with the 1981 model year; § 600.111-78 would apply to model years 1978 through 1980.

**§ 600.005-77 Maintenance of records and right of entry.**

The provisions of this section are applicable to all fuel economy data vehicles. Certification vehicles are required to meet the provisions of § 86.077-7.

(a) The manufacturer of any new motor vehicle subject to any of the standards or procedures prescribed in this part shall establish, maintain, and retain the following adequately organized and indexed records:

(1) *General records.* (i) Identification and description of all vehicles for which data are submitted to meet the requirements of this part.

(ii) A description of all procedures used to test each vehicle.

(iii) A copy of the information required to be submitted under § 600.006-77 fulfills the requirements of paragraph (a) (1) (i).

(2) *Individual records.* (i) A brief history of each vehicle for which data are submitted to meet the requirements of this part, in the form of a separate booklet or other document for each separate vehicle, in which must be recorded:

(A) The steps taken to ensure that the vehicle with respect to its engine, drivetrain, fuel system, emission control system components, exhaust aftertreatment device, vehicle weight, or any other device or component, as applicable, will be representative of production vehicles.

(B) A complete record of all emission tests performed under Part 86 and all fuel economy tests performed under Part 600 (except tests performed by EPA directly), including all individual work-

sheets and other documentation relating to each such test, or exact copies thereof, the date, time, purpose, and location of each test, the number of miles accumulated on the vehicle when the tests began and ended, and the names of supervisory personnel responsible for the conduct of the tests.

(C) A description of mileage accumulated since selection or build-up of such vehicles including the date and times of each mileage accumulation listing both the mileage accumulated and the name of each driver, or each operator of the automatic mileage accumulation device, if applicable. Additionally, a description of mileage accumulated prior to selection or build-up of such vehicle must be maintained in such detail as is available.

(D) If used, the record of any devices employed to record the speed or mileage, or both, of the test vehicle in relationship to time.

(E) A record and description of all maintenance and other servicing performed, within 2000 miles prior to fuel economy testing under this part, giving the date and time of the maintenance or service, the reason for it, the person authorizing it, and the names of supervisory personnel responsible for the conduct of the maintenance or service. A copy of the maintenance information required to be submitted under § 600.006-77 fulfills the requirements of paragraph (a) (2) (i) (E).

(F) A brief description of any significant events affecting the vehicle during any time in the period covered by the history not described in an entry under one of the previous hearings including such extraordinary events as vehicle accidents or driver speeding citations or warnings.

(3) The manufacturer shall retain all records required under this subpart for a period of five years after the end of the model year to which they relate. Records may be retained as hard copy or reduced to microfilm, punch cards, etc., depending on the record retention procedures of the manufacturer, provided that in every case all the information contained in hard copy shall be retained.

(b) (1) Any manufacturer who has supplied fuel economy data to meet the requirements of this part shall admit any EPA Enforcement Officer during operating hours upon presentation of credentials at any of the following:

(i) Any facility where any fuel economy tests from which data are submitted or any procedures or activities connected with these tests are performed.

(ii) Any facility where any new motor vehicle which is being, was, or is to be tested is present.

(iii) Any facility where any construction process used in the modification or build-up of a vehicle into a fuel economy data vehicle is taking place or has taken place.

(iv) Any facility where any record or other document relating to any of the above is located.

(2) Upon admission to any facility referred to in paragraph (b) (1) of this section, the manufacturer shall allow any EPA Enforcement Officer:

(i) To inspect and monitor any part or aspect of procedures activities, and testing facilities, including, but not limited to, monitoring vehicle preconditioning, emission tests and fuel economy tests and mileage accumulation, maintenance, and vehicle soak and storage procedures; and to verify correlation of calibration of test equipment;

(ii) To inspect and make copies of any required records, designs, or other documents; and

(iii) To inspect and photograph any part or aspect of any fuel economy vehicle and any components to be used in the construction thereof.

(3) Any EPA Enforcement Officer will be furnished, by those in charge of a facility being inspected, with such reasonable assistance as may be requested to help discharge any function listed in this paragraph (b). Each manufacturer is required to have those in charge of the facility furnish such reasonable assistance without charge to EPA whether or not the manufacturer controls the facility.

(4) The duty to admit any EPA Enforcement Officer shall be applicable whether or not the manufacturer owns or controls the facility in question and is applicable to both domestic and foreign manufacturers and facilities. An EPA Enforcement Officer will not attempt to make any inspections which the officer has been informed are in contravention of any law. However, if local law makes it impossible for the EPA Enforcement Officer to verify or to insure the accuracy of data generated at a facility such that no informed judgment can properly be made as to the accuracy or reliability of data generated by or obtained from the facility, then a vehicle or data from that vehicle shall not be accepted for use in Subparts C or F of this part (unless the Administrator is otherwise convinced of the accuracy and reliability of such data).

(5) For purposes of this paragraph (b):

(i) "Presentation of credentials" means display of the document designating a person as an EPA Enforcement Officer.

(ii) Where vehicle, component, or engine storage areas or facilities are concerned, "operating hours" shall mean all times during which personnel other than custodial personnel are at work in the vicinity of the area or facility and have access to it.

(iii) For facilities or areas other than those covered by paragraph (b) (5) (ii) the term, "operating hours" will mean all times during which an assembly line is in operation or all times during which testing, maintenance, mileage accumulation, production or compilation of records, or any other procedure or activity related to fuel economy testing, or to vehicle manufacture or assembly is being carried out in a facility.

(iv) "Reasonable assistance" includes, but is not limited to, clerical, copying, interpretation and translation services, the making available of personnel of the facility being inspected during their

working hours to inform the EPA Enforcement Officer of the operating procedures of the facility and to answer the EPA Enforcement Officer's questions; on request, and the performance on request of emissions tests or fuel economy tests on any vehicle which is being, has been, or will be used for fuel economy testing under this part. These tests shall be non-destructive, but may require appropriate mileage accumulation. By written request of the EPA Enforcement Officer, a manufacturer may be required to cause any employee of the manufacturer to appear before the EPA Enforcement Officer for the purpose of providing information pertaining to the records, books, papers and documents kept by the manufacturer and information pertaining to the manufacturer's monitoring, storage, maintenance, production and testing procedures and facilities, provided that the information will reasonably be required by the EPA Enforcement Officer to carry out the duties prescribed under this part. Any employee who has been instructed by the manufacturer to appear will be entitled to be accompanied, represented, and advised by counsel. No counsel who accompanies, represents, or advises an employee compelled to appear may accompany, represent, or advise any other person or entity directly or indirectly involved in the investigation.

(v) Any entry without 24 hours prior written or oral notification to the affected manufacturer shall be authorized in writing by the Assistant Administrator for Enforcement.

§ 600.006-77 Data to be submitted.

(a) All certification vehicles are considered to have met the requirements of this section.

(b) The manufacturer shall submit the following information for each fuel economy data vehicle:

(1) A description of the vehicle, exhaust emission test results, applicable deterioration factors, and adjusted exhaust emission levels.

(2) A statement of the origin of the vehicle including total mileage, mode of mileage accumulation, and modifications (if any) from the vehicle configuration in which the mileage was accumulated. (For modifications requiring advance approval by the Administrator, the name of the Administrator's representative approving the modification and date of approval are required.) If the vehicle was previously used for testing for compliance with Part 86 or previously accepted by the Administrator as a fuel economy data vehicle in a different configuration, the requirements of this subparagraph may be satisfied by reference to the vehicle number and previous configuration.

(3) A description of all maintenance to engine, emission control system or fuel system components performed within 2000 miles prior to fuel economy testing.

(4) A copy of calibrations for engine, fuel system, and emission control devices, showing the calibration of the actual components on the test vehicle as well as the design tolerances. (If calibrations for components were submitted previously as

part of the description of another vehicle or configuration, the original submittal may be referenced.)

(5) A statement that the fuel economy data vehicle, with respect to which data are submitted:

(i) Has been tested in accordance with applicable test procedures.

(ii) Is, to the best of the manufacturer's knowledge, representative of the vehicle configuration listed, and

(iii) Is in compliance with applicable exhaust emission standards according to § 86.077-28(a).

(c) The manufacturer shall submit the following fuel economy data for each fuel economy data vehicle.

(1) All individual test results and the harmonic average fuel economy of all city fuel economy tests and the harmonic average fuel economy of all highway fuel economy tests conducted by the manufacturer.

(2) For a vehicle other than a certification vehicle. As defined in this part tested by the Administrator under Part 86, the city and highway fuel economy results from the test or tests on that vehicle.

(d) The manufacturer shall submit an indication of the intended purpose of the data (e.g., data required by the general labeling program or voluntarily submitted for specific labeling).

(e) In lieu of submitting actual data from a test vehicle, a manufacturer may provide fuel economy values derived from an analytical expression, e.g., regression analysis. In order for fuel economy values derived from analytical methods to be accepted, the expression (form and coefficients) must be approved by the Administrator.

(f) If in conducting tests required or authorized by this part the manufacturer utilizes procedures, equipment, or facilities not described in the Application for Certification required in § 86.077-21, the manufacturer shall submit a description of such procedures, equipment, and facilities.

§ 600.007-77 Vehicle acceptability.

(a) All certification vehicles and other vehicles tested to meet the requirements of Part 86 (other than those chosen per § 86.077-24(c)) are considered to have met the requirements of this section.

(b) Any vehicle not meeting the provisions of paragraph (a) must be judged acceptable by the Administrator under this section in order for the test results to be reviewed for use in Subpart C or F of this part. The Administrator will judge the acceptability of a fuel economy data vehicle on the basis of the information supplied by the manufacturer under § 600.006-77(b). The criteria to be met are:

(1) A fuel economy data vehicle may have accumulated not more than 10,000 miles. This requirement will be considered to have been met if the base vehicle (i.e., chassis and basic engine) has accumulated 10,000 or fewer miles. Components other than engine, emission control system, and drivetrain are not required to be the same components in-

stalled when the mileage was accumulated. Engine, emission control system, and drivetrain components may be installed, replaced, or adjusted only with advance approval of the Administrator.

(2) A vehicle may be tested in different vehicle configurations by change of vehicle components, as specified in paragraph (b) (1), or by testing at different inertia weights or road load power settings. For the purpose of this part, each vehicle configuration will be considered a distinct vehicle and must be identified accordingly.

(3) The mileage on a fuel economy data vehicle must be, to the extent possible, accumulated according to § 86.077-26(a) (2).

(4) Each fuel economy data vehicle must meet the same exhaust emission standards as certification vehicles of the respective engine-system combination during the test in which the city fuel economy test results are generated. The deterioration factors established for the respective engine-system combination per § 86.077-28 will be used.

(5) No major engine tune-ups (as described in § 86.077-25) may be performed on a fuel economy data vehicle later than 2000 miles prior to the test, unless specifically authorized by the Administrator.

(6) The calibration information submitted under § 600.006-77(b) must be representative of the vehicle configuration for which the fuel economy data was submitted.

(c) If, based on a review of the information submitted under § 600.006-77(b), the Administrator determines that a fuel economy data vehicle meets the requirements of this section, the fuel economy data vehicle will be judged to be acceptable and the fuel economy data from that fuel economy data vehicle will be reviewed pursuant to § 600.008-77.

(d) If, based on the review of the information submitted under § 600.006-77(b), the Administrator determines that a fuel economy data vehicle does not meet the requirements of this section, the Administrator will reject that fuel economy data vehicle and inform the manufacturer of the rejection in writing.

(e) If, based on a review of the emissions data for a fuel economy data vehicle, submitted under § 600.006-77(b) (4), or emissions data generated by a vehicle tested under § 600.008-77(d), the Administrator determines that a significant indication of emission non-compliance exists, he may take such investigative actions as are appropriate to determine to what extent emission non-compliance actually exists.

(1) The Administrator may, under the provisions of § 86.077-37(a), request the manufacturer to submit production vehicles of the configuration(s) specified by the Administrator, for testing to determine to what extent emission non-compliance of a production vehicle configuration or of a group of production vehicle configurations actually exists.

(2) If the Administrator determines, as a result of his investigation, that sub-

stantial emission non-compliance is exhibited by a production vehicle configuration or group of production vehicle configurations, he may proceed with respect to the vehicle configuration(s) as provided under section 206(b) (2) or section 207(c) (1), as applicable, of the Clean Air Act, 42 U.S.C. section 1857 et. seq.

§ 600.008-77 Review of fuel economy data and testing by the administrator.

(a) Fuel economy data must be judged acceptable by the Administrator in order for the test results to be used in Subpart C or F of this part. The Administrator will evaluate the acceptability of the fuel economy data from either a fuel economy data vehicle or a certification vehicle on the basis of the test data submitted under § 600.006-77(c) or test data generated by the Administrator, as applicable, in accordance with good engineering practice.

(b) If, in the Administrator's judgment, the city and highway fuel economy results (or the harmonic averages, as applicable, if more than one test were conducted) for a fuel economy data vehicle, or for a certification vehicle, are reasonable and representative, the Administrator will accept the fuel economy data (or harmonic averages, as applicable, of the city and highway fuel economy data if more than one test were conducted) for use in Subpart C or F. In making this determination, the Administrator will, when possible, compare the results of a test vehicle to those of other similar test vehicles.

(c) If, in the Administrator's judgment, the city and highway fuel economy results (or the harmonic averages if more than one test were conducted) for a fuel economy data vehicle or for a certification vehicle are not reasonable or representative, the Administrator will notify the manufacturer in writing of his finding and require the manufacturer to submit the test vehicle(s) in question, at a place he may designate, for the purpose of fuel economy testing.

(d) The Administrator may require that any fuel economy data vehicle or certification vehicle be submitted, at a place he may designate, for the purpose of confirmation of fuel economy testing.

(e) For any fuel economy data vehicle that the Administrator has required to be submitted, at a place he may designate for the purpose of fuel economy testing, and for any certification vehicle, the Administrator will follow this procedure:

(1) The manufacturer's data (or harmonically averaged data if more than one test were conducted) will be compared with the results of the Administrator's test.

(2) If, in the Administrator's judgment, the comparison in (1) indicates a disparity in the data, the Administrator will repeat the city test or the highway test or both as applicable.

(i) The manufacturer's average test results and the results of the Administrator's first test will be compared with the results of the Administrator's second test as in (1).

(ii) If, in the Administrator's judgment, both comparisons in (2)(i) indicate a disparity in the data, the Administrator will repeat the city fuel economy test or highway fuel economy test or both as applicable until:

(A) In the Administrator's judgment no disparity in the data is indicated by comparison of two tests by the Administrator or by comparison of the manufacturer's average test results and a test by the Administrator; or

(B) Four city tests or four highway tests or both, as applicable, are conducted by the Administrator in which a disparity in the data is indicated when compared as in (2).

(3) If there is, in the Administrator's judgment, no disparity indicated by comparison of manufacturer's average test results with a test by the Administrator, the test values generated by the Administrator will be used to represent the vehicle.

(4) If there is, in the Administrator's judgment, no disparity indicated by comparison of two tests by the Administrator, the harmonic averages of the city and highway fuel economy results from those tests will be used to represent the vehicle.

(5) If the situation in subparagraph (2)(i)(B) occurs, the Administrator will notify the manufacturer, in writing, that the Administrator rejects that fuel economy data vehicle.

(f) The fuel economy data determined by the Administrator under paragraph (e) (3) or (4), together with all other fuel economy data submitted for that vehicle under § 600.066-77(c) will be evaluated for reasonableness and representativeness per paragraph (b). The fuel economy data which are determined to best meet the criteria of paragraph (b) will be accepted for use in Subpart C or F.

(g) If, based on a review of the fuel economy data generated by testing under (e), the Administrator determines that an unacceptable level of correlation exists between fuel economy data generated by a manufacturer and fuel economy data generated by the Administrator, he may reject all fuel economy data submitted by the manufacturer until the cause of the discrepancy is determined and the validity of the data is established by the manufacturer.

§ 600.009-77 Hearings on acceptance of test data and classification of automobiles.

(a) If the Administrator rejects the use of a manufacturer's fuel economy data vehicle, in accordance with § 600.008-77 (e) or (g), or the use of fuel economy data, in accordance with § 600.008-77 (c), or (f), or with the determination of a vehicle configuration, in accordance with § 600.206-77(a), or with the identification of a car line, in accordance with § 600.207-77(d), or with the fuel economy label values approved by the Administrator under § 600.213-77 (a), the manufacturer may, within 30 days following receipt of such notification,

request a hearing on the Administrator's decision. The request may be in writing, signed by an authorized representative of the manufacturer and include a statement specifying the manufacturer's objections to the Administrator's determinations, and data in support of such objections. If, after the review of the request and supporting data, the Administrator finds that the request raises a substantial factual issue, the manufacturer shall have a hearing in accordance with the provisions of this section with respect to such issue.

(b) (1) After granting a request for a hearing under paragraph (a) the Administrator will designate a Presiding Officer for the hearing.

(2) The General Counsel shall represent the Environmental Protection Agency in any hearing under this section.

(3) If a time and place for the hearing has not been fixed by the Administrator under paragraph (a) the hearing shall be held as soon as practicable at a time and place fixed by the Administrator or by the Presiding Officer.

(c) (1) Upon his appointment pursuant to paragraph (a) of this section, the Presiding Officer shall establish a hearing file. The file consists of the notice issued by the Administrator under paragraph (a) together with any accompanying material, the request for a hearing and the supporting data submitted therewith and correspondence and other data material to the hearing.

(2) The hearing file will be available for inspection by the applicant at the office of the Presiding Officer.

(d) A manufacturer may appear in person, or may be represented by counsel or by any other duly authorized representative.

(e) (1) The Presiding Officer upon the request of any party, or in his discretion, may arrange for a prehearing conference at a time and place specified by the Presiding Officer to consider the following:

(i) Simplification and clarification of the issues;

(ii) Stipulations, admissions of fact, and the introduction of documents;

(iii) Limitation of the number of expert witnesses;

(iv) Possibility of agreement disposing of all or any of the issues in dispute;

(c) Such other matters as may aid in the disposition of the hearing, including such additional tests as may be agreed upon by the parties.

(2) The results of the conference shall be reduced to writing by the Presiding Officer and made part of the record.

(f) (1) Hearings shall be conducted by the Presiding Officer in an informal but orderly and expeditious manner. The parties may offer oral or written evidence, subject to the exclusion by the Presiding Officer of irrelevant, immaterial and repetitious evidence.

(2) Witnesses will not be required to testify under oath. However, the Presiding Officer shall call to the attention of witnesses that their statements may be subject to the provision of title 19 U.S.C. 1001 which imposes penalties for

knowingly making false statements or representations, or using false documents in any matter within the jurisdiction of any department or agency of the United States.

(3) Any witnesses may be examined or cross-examined by the Presiding Officer, the parties, or their representatives.

(4) Hearings shall be reported verbatim. Copies of transcripts of proceedings may be purchased by the applicant from the reporter.

(5) All written statements, charts, tabulations, and similar data offered in evidence at the hearing shall, upon a showing satisfactory to the Presiding Officer of their authority, relevancy, and materiality, be received in evidence and shall constitute a part of the record.

(6) Oral argument may be permitted in the discretion of the Presiding Officer and will be reported as part of the record unless otherwise ordered.

(g) (1) The Presiding Officer will make an initial decision which shall include written findings and conclusions and the reasons or basis therefor on all material issues of fact, law or discretion presented on the record. The findings, conclusions, and written decision shall be provided to the parties and made a part of the record. The initial decision shall become the decision of the Administrator without further proceedings unless there is an appeal to the Administrator or motion for review by the Administrator within 20 days of the date the initial decision was filed.

(2) On appeal from or review of the initial decision the Administrator shall have all the powers which he would have in making the initial decision including the discretion to require or allow briefs, oral argument, the taking of additional evidence or the remanding to the Presiding Officer for additional proceedings. The decision by the Administrator shall include written findings and conclusions and the reasons or basis therefor on all the material issues of fact, law or discretion presented on the appeal or considered in the review.

#### Subpart B—[Reserved]

Subpart C—Fuel Economy Regulations for 1977 and Later Model Year Automobiles—Procedures for Calculating Fuel Economy Values and Annual Fuel Cost Estimates

§ 600.201-77 General applicability.

The provisions of this subpart are applicable to 1977 and later model year automobiles.

§ 600.202-77 Definitions.

The definitions in § 600.002-77 apply to this subpart.

§ 600.203-77 Abbreviations.

The abbreviations in § 600.003-77 apply to this subpart.

§ 600.204-77 Section numbering, construction.

The section numbering system set forth in § 600.004-77 applies to this subpart.

§ 600.205-77 Record keeping.

The record keeping requirements set forth in § 600.005-77 apply to this subpart.

§ 600.206-77 Calculation and use of fuel economy values for a vehicle configuration.

(a) Fuel economy values determined for each vehicle and as approved in § 600.008-77 (b) or (f) are used to determine city, highway, and combined fuel economy values for each vehicle configuration (as determined by the Administrator) for which data are available.

(1) If only one city fuel economy and one highway fuel economy value exist for a vehicle configuration, those values, rounded to the nearest tenth of a mile per gallon, comprise the city fuel economy value and highway fuel economy value for that configuration.

(2) If more than one city fuel economy value and one highway fuel economy value exist for a vehicle configuration, all values for that vehicle configuration are harmonically averaged and rounded to the nearest tenth of a mile per gallon for the city fuel economy values, and harmonically averaged and rounded to the nearest tenth of a mile per gallon for the highway fuel economy values, in order to determine a city and a highway fuel economy value for that configuration.

(3) The combined fuel economy value for a vehicle configuration is calculated by harmonically averaging the city and highway fuel economy values, as determined in § 600.206-77(a) (1) and (2), weighted 0.55 and 0.45, respectively, and rounding to a tenth of mile per gallon. A sample of this calculation appears in Appendix II.

(b) The city, highway, and combined fuel economy values determined for the vehicle configuration according to paragraph (a) and rounded to the nearest whole mile per gallon comprise the fuel economy values that appear on specific labels as described in § 600.309-77.

(c) The annual fuel cost estimate for operating an automobile included in a vehicle configuration will be computed by the Administrator by using values for the fuel cost per gallon and average annual mileage and the combined fuel economy determined in (a) (3).

(1) The annual fuel cost estimate for a vehicle configuration is computed by multiplying

(i) Fuel cost per gallon (as obtained by the Administrator from the FEA Administrator), expressed in dollars to the nearest 0.01 dollar, by

(ii) Average annual mileage (as obtained by the Administrator from the Secretary), expressed in miles per year to the nearest mile per year, by

(iii) The inverse of: the combined fuel economy value for a vehicle configuration, expressed in miles per gallon to the nearest 0.1 mile per gallon.

(2) The product computed in (c) (1) and rounded to the nearest dollar per year will comprise the annual fuel cost

estimate that appears on specific labels for that vehicle configuration.

§ 600.207-77 Calculation and use of fuel economy values for a model type.

(a) Fuel economy values for a base level are calculated from vehicle configuration fuel economy values as determined in § 600.206-77(a) for low altitude tests.

(1) If the Administrator determines that automobiles intended for sale in the State of California are likely to exhibit significant differences in fuel economy from those intended for sale in other states, he will calculate full economy values for each base level for vehicles intended for sale in California and for each base level for vehicles intended for sale in the rest of the states.

(2) The manufacturer shall supply model year sales projections for each vehicle configuration within each car line to the Administrator.

(i) Sales projections must be supplied separately for each vehicle configuration intended for sale in California and each configuration intended for sale in the rest of the states if required by the Administrator under paragraph (a) (1).

(ii) The sales projections must be updated as of the date a manufacturer requests that fuel economy calculations for a model type be made by the Administrator.

(iii) The requirements of this section may be satisfied by providing an amended application for certification, as described in § 86.007-21.

(3) Vehicle configuration fuel economy values, as determined in § 600.207-77(a), are grouped according to base level, as defined in § 600.002-77(b) (23).

(i) If only one vehicle configuration within a base level has been tested, the fuel economy value from that vehicle configuration constitutes the fuel economy for that base level.

(ii) If more than one vehicle configuration within a base level have been tested, the vehicle configuration fuel economy values are harmonically averaged in proportion to the respective projected sales percent (rounded to the nearest 0.01 percent) of each vehicle configuration and the resultant fuel economy value rounded to the nearest tenth of a mile per gallon.

(iii) If the Administrator has not accepted test data for at least one vehicle configuration within each base level, the manufacturer shall submit (on or before the date the manufacturer requests the Administrator to calculate the respective general label values), data as specified for approval in § 600.006-77. The fuel economy data submitted shall be for the vehicle configuration with the largest projected sales within the respective base level.

(4) The procedure specified in § 600.207-77(a) will be repeated for each base level, thus establishing city, highway, and combined fuel economy values for each base level.

(b) For each model type, as determined by the Administrator, a city, highway,

and combined fuel economy value will be calculated by using the projected sales and fuel economy values for each base level within the model type.

(1) If the Administrator determines that automobiles intended for sale in the State of California are likely to exhibit significant differences in fuel economy from those intended for sale in other states, he will calculate fuel economy values for each model type separately for vehicles intended for sale in California and for those intended for sale in the rest of the states.

(2) The sales fraction for each base level is calculated by dividing the projected sales of the base level within the model type by the projected sales of the model type and rounding the quotient to the nearest 0.01 percent.

(3) The city fuel economy values for the model type are determined by dividing one by a sum of terms, each of which corresponds to a base level and which is a fraction determined by dividing

(i) The sales fraction of the base level, by

(ii) The city fuel economy value for the respective base level.

(4) The procedure specified in subparagraph (3) is repeated in an analogous manner to determine the highway and combined fuel economy values for the model type.

(c) The city, highway, and combined fuel economy values as calculated in § 600.207-77(b) and rounded to the nearest whole mile per gallon are the fuel economy values used on general labels for that model type.

(d) The annual fuel cost estimate for operating an automobile included in a model type will be computed by the Administrator by using values for the fuel cost per gallon and average annual mileage, predetermined by the Administrator, and the combined fuel economy determined in (b).

(1) The annual fuel cost estimate for a model type is computed by multiplying

(i) Fuel cost per gallon expressed in dollars to the nearest 0.01 dollar, by

(ii) Average annual mileage, expressed in miles per year to the nearest mile per year, by

(iii) The inverse of the combined fuel economy value for a model type, expressed in miles per gallon to the nearest 0.01 mile per gallon.

(2) The product computed in (d) (1) and rounded to the nearest dollar per year will comprise the annual fuel cost estimate that appears on general labels for that model type.

§ 600.208-77 Sample calculation.

An example of the calculation required in this subpart appears in Appendix III to this Part 600.

Subpart D—Fuel Economy Regulations for 1977 and Later Model Year Automobiles—Labeling

§ 600.301-77 General applicability.

The provisions of this subpart are applicable to 1977 and later model year automobiles.

## § 600.302-77 Definitions.

The definitions in § 600.002-77 apply to this subpart.

## § 600.303-77 Abbreviations.

The abbreviations in § 600.003-77 apply to this subpart.

## § 600.304-77 Section numbering, construction.

The section numbering procedure set forth in § 600.004-77 applies to this subpart.

## § 600.305-77 Record keeping.

The record keeping requirements set forth in § 600.005-77 apply to this subpart.

## § 600.306-77 Labeling requirements.

(a) Each manufacturer shall affix or cause to be affixed and each dealer shall maintain or cause to be maintained on each automobile a general or specific fuel economy label, approved by the Administrator, that includes fuel economy information, annual fuel cost estimate, and the range of fuel economy of comparable automobiles.

(1) Each manufacturer shall affix or cause to be affixed a general label as described in § 600.308-77.

(2) At the option of the manufacturer, the requirements of this paragraph may be satisfied by labeling an automobile with a specific label, as described in § 600.309-77 in place of the general label. If the manufacturer elects to use a specific label within a model type (as defined in § 600.001(a)(19)), he shall have approved specific labels affixed concomitantly on all automobiles within this model type, except as permitted under § 600.310-77.

(b) The fuel economy label must be readily visible from the exterior of the automobile and remain affixed until the time the automobile is delivered to the actual custody and possession of the ultimate purchaser.

(1) The fuel economy label must be located on the rear-most window of the driver's side of the vehicle. If the rear-most window on the driver's side is not large enough to contain both the Automobile Information Disclosure Act label and the fuel economy label, the manufacturer shall have the fuel economy label affixed on the rear-most window of the passenger's side of the vehicle.

(2) The fuel economy label information may be included with the Automobile Information Disclosure Act label if the prominence and legibility of the fuel economy label is maintained. For this purpose, all fuel economy label information must be placed on a separate section of the label and may not be included as part of the Automobile Information Disclosure Act label information.

(3) The manufacturer shall have the fuel economy label affixed in a manner so that appearance and legibility are maintained until after the vehicle is delivered to the ultimate purchaser.

## § 600.307-77 Format of labels.

The fuel economy label must:

(a) Be rectangular in shape and large enough to allow inclusion of all required information;

(b) Be printed in a color which contrasts with the paper color and in a type size that is easily readable;

(c) Contain a reproduction of the EPA and FEA logo;

(d) Contain a statement that the vehicle fuel economy estimates included are based on the results of tests conducted or certified by the U.S. Environmental Protection Agency;

(e) Describe the labeled vehicle to the exact detail as specified in § 600.308-77 or § 600.309-77, as applicable;

(f) Contain that vehicle's fuel economy estimates as calculated in § 600.206-77 or § 600.207-77, as applicable, and as approved by the Administrator, to represent a city fuel economy, a highway fuel economy, and a combined fuel economy value;

(g) Contain a range of fuel economy estimates and class identification for similar vehicles whether or not manufactured by that vehicle's manufacturer except as provided in § 600.315-77(b)(1). This range is determined according to § 600.311-77 and supplied to the manufacturer by the Administrator;

(h) Contain the estimated annual fuel cost for the operation of that vehicle based on calculations described in § 600.206-77 or § 600.207-77, as applicable;

(i) State that these fuel economy estimates and the estimated annual fuel cost are based on tests of vehicles equipped with frequently purchased optional equipment;

(j) State that the actual fuel economy of this vehicle will vary depending on the type of driving the customer does, the customer's driving habits, vehicle maintenance, optional equipment installed and used, and road and weather conditions; and

(k) State that for the purposes of comparing fuel economies of vehicles of that model year and to learn how the tests were conducted, the booklet described in Subpart E for that model year is available free upon request from the dealer.

Sample fuel economy label formats and language that would be approved are included in Appendix IV.

## § 600.308-77 General label contents.

The general fuel economy label must contain the following:

(a) The information and statements as described in § 600.307-77 (a) through (k).

(b) A description of the applicable vehicle specifying:

(1) Vehicle car line,

(2) Number of engine cylinders,

(3) Engine displacement, in cubic inches, cubic centimeters, or liters, whichever is consistent with the customary description of that engine,

(4) Fuel metering system, including number of carburetor barrels, if applicable,

(5) Transmission class,

(6) Catalyst usage, if so equipped,

(7) Other engine or vehicle parameters, if approved by the Administrator, and

(8) California emission control system usage, if the Administrator determines that automobiles intended for sale in the State of California are likely to exhibit significant differences in fuel economy from those intended for sale in other states.

(c) General label fuel economy values and estimated fuel cost as calculated according to § 600.207-77.

(d) The estimated range of fuel economy of comparable automobiles and effective date except as provided in § 600.315-77(b)(1). This range is determined by the Administrator according to § 600.311-77 for each class of vehicles as described in § 600.316-77.

## § 600.309-77 Specific label contents.

The specific fuel economy label must contain the following:

(a) The information and statements as described in § 600.307-77 (a) through (k);

(b) A statement that the fuel economy estimates are from tests of this specific vehicle configuration and might not be in the booklet described in Subpart E;

(c) A description of the applicable vehicle specifying:

(1) Car line,

(2) Engine displacement,

(3) Number of cylinders,

(4) Transmission class and number of forward speeds,

(5) Fuel metering system, including number of carburetor barrels, if applicable,

(6) Catalyst usage, if so equipped,

(7) Other engine or vehicle parameters, if approved by the Administrator,

(8) Test (inertia) weight,

(9) Axle ratio, and

(10) California emission control system usage, if the Administrator determines that automobiles intended for sale in the State of California are likely to exhibit significant differences in fuel economy from those intended for sale in other states.

(d) Specific label fuel economy values and estimated fuel cost for that vehicle as determined according to § 600.206-77.

(e) The estimated range of fuel economy of comparable automobiles and effective date of the range except as provided in § 600.315-77(b)(1). This range is determined by the Administrator according to § 600.311-77 for each class of vehicles as described in § 600.316-77.

## § 600.310-77 Labeling of high altitude vehicles.

(a) The Administrator may approve, at the request of the manufacturer, specific labels for high altitude vehicles according to § 600.309-77.

(b) A high altitude vehicle may be labeled with an approved general or specific label by a manufacturer without regard to type of label, general or specific, used at low altitude for that model type of vehicle configuration.

## § 600.311-77 Range of fuel economy for comparable automobiles.

(a) The Administrator will determine the range of fuel economy values for each class of comparable automobiles.

(1) The range of fuel economy values within a class is computed from the maximum combined fuel economy value and minimum combined fuel economy value for all general label combined fuel economy values within the class, as determined in § 600.207-77(b) regardless of manufacturer.

(2) If the Administrator determines that automobiles intended for sale in California are likely to exhibit significant differences in fuel economy from those intended for sale in other states, he will compute separate ranges of fuel economy values for each class of automobiles for California and for the other states.

(3) For high altitude vehicles determined under § 600.310-77, both general and specific labels will contain the range of comparable fuel economy computed in § 600.311-77(a).

(4) The range of comparable fuel economy values for a class of automobiles is derived from the latest available data approved by the Administrator for that class of automobiles.

(b) The manufacturer shall include the range of fuel economy determined by the Administrator in (a) on each label affixed to an automobile within that class except as provided in § 600.315-77.

## § 600.312-77 Approval of labels.

All fuel economy values, fuel cost estimates, label formats, and other information pertaining to the fuel economy label must be approved by the Administrator before a label is affixed to the vehicle.

(a) If the manufacturer intends to use specific labels, both a specific label format and a general label format must be approved prior to use of the specific label. The manufacturer shall submit for approval by the Administrator each typical label format exemplifying the intended representation of all information required on the fuel economy label as well as the size or color of print, and paper, and spacing and location of all printed information. After approval by the Administrator, the manufacturer may not change the label except as required for proper vehicle description, fuel economy values, and estimated annual fuel costs. Where the fuel economy label is incorporated with the Automobile Information Disclosure Act label, the above requirements pertain to that section of the label reserved for fuel economy labeling.

(b) All vehicle description, fuel economy values and annual fuel cost estimates intended for use on general and specific labels must be approved in advance by the Administrator. Fuel economy values are computed according to Subpart C from approved vehicle fuel economy results as determined under § 600.008-77.

## § 600.313-77 Timetable for data and information submittal and review.

(a) The Administrator will notify the manufacturer of the classification of each of the manufacturer's car lines after the manufacturer makes a request for such determination.

(b) Each fuel economy label format which the manufacturer intends to use must be approved by the Administrator before the manufacturer requests the Administrator to determine fuel economy values for use on that type of label. For example, a California general label format must be approved by the Administrator before the manufacturer requests California general label fuel economy values.

(c) If a manufacturer requests and submits sufficient information, the Administrator will determine, according to Subpart C, general label or specific label fuel economy values based upon information submitted by the manufacturer.

(1) As of the public introduction date of a vehicle configuration included in a model type, a manufacturer must have requested general label fuel economy values for that model type and submitted sufficient information to determine these general label fuel economy values.

(2) As of the date of the request, the manufacturer may not submit additional information pertaining to this request except as required by the Administrator.

(3) After receipt of a manufacturer's request for computation of label values, the Administrator will review according to § 600.008-77 the fuel economy submission received from the manufacturer, and notify the manufacturer of approval or request further data, information, or vehicles in accordance with the approval procedure specified in Subpart A.

(4) After receipt of a manufacturer's data, information, or vehicles in response to subparagraph (3), the Administrator will conduct any testing and complete data review required under subparagraph (3), and notify the manufacturer of the results of this testing and review.

(5) After completion of any testing or review of the data which satisfy the requirements of subparagraph (3), the Administrator will provide the manufacturer with general label and/or specific label (as requested under this paragraph) fuel economy values, annual fuel cost estimates, and a range of fuel economy of comparable automobiles (when a range is available) as calculated from approved data. After receipt of approved fuel economy label values, the manufacturer may use these data in the labeling of his automobiles.

(6) The manufacturer should submit any request for data under this section at least 25 working days before he desires the Administrator's response. This should allow the Administrator sufficient time to conduct any additional testing required.

## § 600.314-77 Updating fuel economy, annual fuel cost, and range of fuel economy for comparable automobiles.

(a) After the Administrator approves general label fuel economy values for a model type, those values will remain in effect for that model type for the remainder of the model year.

(b) After the Administrator approves specific label fuel economy values for a vehicle configuration, those values will remain in effect for that vehicle configuration for the remainder of the model year.

(c) Estimated annual fuel cost as determined in § 600.206-77 for specific labeled automobiles and in § 600.207-77 for general labeled automobiles incorporates factors for average annual miles driven and cost per gallon of fuel.

(1) These factors are determined by the Administrator before the model year begins.

(2) These factors do not change during the model year.

(d) The Administrator will compute the range of fuel economy of comparable automobiles from the latest approved fuel economy values available at the time of label approval. Additionally, the Administrator will update the range of fuel economy of comparable automobiles for previously approved labels.

(1) The Administrator will make available an updated range of fuel economy of comparable automobiles for all approved general and specific labels in each class. The range will be made available on a date that coincides as closely as possible with the date of the general model year introduction. The Administrator will determine the general model year introduction date from the intended introduction dates reported by the various manufacturers.

(2) The Administrator will make available an updated range of fuel economy of comparable automobiles for all approved general and specific labels at any other appropriate date during the model year.

(3) The Administrator will communicate to the affected parties the dates referred to in subparagraphs (1) and (2).

## § 600.315-77 Implementation of vehicle labeling.

(a) Prior to being offered for sale each manufacturer shall cause to be affixed, and each dealer shall cause to be maintained the fuel economy information label.

(b) The manufacturer shall include the updated range of fuel economy of comparable automobiles (as described in § 600.314-77(d)) in the label of each vehicle manufactured or imported more than fifteen calendar days after the updated range is made available by the Administrator.

(1) Automobiles manufactured or imported before sixteen calendar days after the updated label range is made available under § 600.314-77(d)(1) will be labeled without a range of fuel economy

of comparable automobiles. In place of the range of fuel economy of comparable automobiles, the label will contain a statement indicating that as of the date of production or importation of this automobile, no range of fuel economy of comparable automobiles is available.

(2) Automobiles manufactured or imported more than fifteen calendar days after the updated label range is made available under § 600.314-77(d) (1) or (2) will be labeled with the latest available range of fuel economy of comparable automobiles as approved for that general or specific label.

(c) In place of general fuel economy labels, a manufacturer may, at his option, use approved specific fuel economy labels provided specific labels are used on all vehicles within a given model type as of a manufacture or importation date. The manufacturer shall, within three calendar days, initiate or discontinue as applicable, the use of specific labels on all vehicles within a model type at all manufacturing facilities or importation facilities, or both.

#### § 600.316-77 Classes of comparable vehicles.

This section is reserved for the procedures used to group individual automobiles into classes for purposes of determining a fuel economy range. The procedures will be based on comments received in response to this Notice of Proposed Rulemaking.

#### Subpart E—Fuel Economy Regulations for 1977 and Later Model Year Automobiles—Dealer Availability of Fuel Economy Information

##### § 600.401-77 General applicability.

The provisions of this subpart are applicable to 1977 and later model year automobiles.

##### § 600.402-77 Definitions.

The definitions in § 600.002-77 apply to this subpart.

##### § 600.403-77 Abbreviations.

The abbreviations in § 600.003-77 apply to this subpart.

##### § 600.404-77 Section numbering, construction.

The section numbering procedure specified in § 600.004-77 applies to this subpart.

##### § 600.405-77 Dealer requirements.

(a) Each dealer shall provide for examination by each prospective purchaser at each location where new automobiles are offered for sale a booklet containing the information specified in § 600.408-77. The dealer shall provide the booklet without charge and in sufficient quantity to be available for retention by each prospective purchaser upon his request.

(b) The dealer shall display the booklets in the same manner and in each location used to display brochures describing the automobiles offered for sale by the dealer. If no brochures describing the automobiles offered for sale by the dealer are displayed, the dealer shall prominently display the booklet. The display

shall include information that booklets are also available through the mail by writing to Fuel Economy, Pueblo, Colorado 81009.

(c) The dealer shall display the booklet applicable to each model year automobile offered for sale at the location. If, as described in § 600.407-77, a regional edition of the booklet is prepared for California automobiles:

(1) Each dealer offering for sale at a location within the State of California shall display the California regional edition of the booklet.

(2) Each dealer who offers automobiles for sale at locations outside the State of California, and expects that at least 50 percent of the automobiles eventually sold at the location during the model year will be California configurations, shall display the California regional edition of the booklet. These dealers may also display the national edition of the booklet provided both editions are displayed with equal prominence.

##### § 600.406-77 Distribution of booklet information.

(a) Each dealer will be provided with a sufficient quantity of booklets to fulfill his obligations under § 600.405-77(a) by:

(1) The U.S. Federal Energy Administration.

(2) Any other source.

(b) If the Administrator determines that automobiles intended for sale in the state of California are likely to exhibit significant differences in fuel economy from those offered for sale in other states, he will prepare a California edition of the booklet, and the Federal Energy Administration will distribute the California edition of the booklet as provided in this part.

##### § 600.407-77 Booklets displayed by dealers.

(a) Booklets displayed by dealers, in order to fulfill the obligations of § 600.405-77, if not the booklets published by the FEA Administrator, must conform to the requirements in (b) through (j) inclusive, of this section.

(b) The booklet must contain the same contents, format, and order as the booklet published by the FEA Administrator.

(c) For each model type, the city, highway, and combined fuel economy values must be in the same size type and the combined fuel economy values must be in boldface type.

(d) Each fuel economy value must be in eight point type or larger.

(e) Each manufacturer or division name must be in bold type capitals in ten point type or larger.

(f) Each column heading must be in bold type capitals. The minimum size for column headings is six point type.

(g) The text of the booklet must be in eight point type except that:

(1) Titles and paragraph headings must be in boldface, may be capitalized, and must be of the same size type or larger type than the text.

(2) Each section in the text which appears in boldface type in the booklets published by the FEA Administrator must be printed in boldface type of the

same size or larger than the type used in the text.

(h) The booklet must be printed or reproduced on 60 lb. or heavier stock paper.

(i) The booklet must be printed or reproduced on pages four by nine inches or larger.

(j) The booklet cover must be of the same general design and proportions as the cover on the booklets published by the FEA Administrator.

(k) A manufacturer's name and logo or a dealer's name and address or both may appear on the back cover of the booklet.

#### Subpart F—[Reserved]

#### Subpart G—Fuel Economy Regulations for 1977 Model Year Automobiles—Test Procedures

##### § 600.601-77 General applicability.

The provisions of this subpart are applicable to 1977 model year automobiles.

##### § 600.602-77 Definitions.

The definitions in § 600.002-77 apply to this subpart.

##### § 600.603-77 Abbreviations.

The abbreviations in § 600.003-77 apply to this subpart.

##### § 600.604-77 Section numbering, construction.

The model year of initial applicability is indicated by the section number. The two digits following the hyphen designate the model year for which a section is effective.

##### § 600.605-77 Recordkeeping.

The recordkeeping requirements set forth in § 600.005-77 apply to this subpart.

##### § 600.606-77 Equipment requirements.

The requirements for test equipment to be used for all fuel economy testing are given in §§ 86.177-16 and 86.177-17, as applicable.

##### § 600.607-77 Fuel specifications.

(a) The test fuel specifications for gasoline-fueled automobiles are given in § 86.177-6(a) (1).

(b) The test fuel specifications for diesel automobiles are given in § 86.177-6(b) (1) and (2).

##### § 600.608-77 Analytical gases.

The analytical gases for all fuel economy testing must meet the criteria specified in § 86.177-19.

##### § 600.609-77 EPA driving cycles.

(a) The driving cycle to be utilized for generation of the city fuel economy data is prescribed in § 86.177-10.

(b) The driving cycle to be utilized for generation of the highway fuel economy data is specified in this paragraph.

(1) The Highway Fuel Economy Driving Schedule is Appendix I. The driving schedule is defined by a smooth trace drawn through the specific speed versus time relationships.

(2) The speed tolerance at any given time on the dynamometer driving schedule specified in Appendix I, or as printed on a driver's aid chart approved by the

Administrator, when conducted to meet the requirements of § 600.611-77(b) is defined by upper and lower limits. The upper limit is 2 mph higher than the highest point on the trace within 1 second of the given time. The lowest limit is 2 mph lower than the lowest point on the trace within 1 second of the given time. Speed variations greater than the tolerances (such as may occur during gear changes) are acceptable provided they occur for less than 2 seconds on any occasion. Speeds lower than those prescribed are acceptable provided the vehicle is operated at maximum available power during such occurrences.

(3) A graphic representation of the range of acceptable speed tolerances is found in Appendix I to Part 86.

##### § 600.610-77 Equipment calibration.

The equipment used for fuel economy testing must be calibrated according to the provisions of § 86.177-19.

##### § 600.611-77 Test procedures.

(a) The test procedures to be followed for generation of the city fuel economy data are those prescribed in Subpart B of Part 86 as applicable. (The evaporative loss portion of the test procedure may be omitted unless specifically required by the Administrator).

(b) The test procedures to be followed for generation of the highway fuel economy data are those specified in § 600.611-77 (b) through (h) inclusive.

(1) The Highway Fuel Economy Dynamometer Procedure consists of a preconditioning highway driving sequence and a measured highway driving sequence.

(2) The highway fuel economy test is designed to simulate nonmetropolitan driving with an average speed of 48.6 mph and a maximum speed of 60 mph. The cycle is 10.2 miles long with 0.2 stops per mile and consists of warmed-up vehicle operation on a chassis dynamometer through a specified driving cycle. A proportional part of the diluted exhaust emissions is collected continuously for subsequent analysis using a constant volume (variable dilution) sampler. Diesel dilute exhaust is continuously analyzed for hydrocarbons using a heated sample line and analyzer.

(3) Except in cases of component malfunction or failure, all emission control systems installed on or incorporated in a new motor vehicle must be functioning during all procedures in this subpart. The Administrator may authorize maintenance to correct component malfunction or failure.

(c) Transmissions—The provisions of §§ 86.177-12 through 86.177-14 inclusive apply for vehicle transmission operation during highway fuel economy testing under this subpart, except that overdrive units may be shifted as recommended by the manufacturers.

(d) Road Load Power and Inertia Weight Determination—Section 86.177-11 applies for determination of road load power and inertia weight for highway fuel economy testing.

(e) Vehicle Preconditioning—The Highway Fuel Economy Dynamometer Procedure is designed to be performed immediately following the Federal Emission Test Procedure, (Subpart B of Part 86). When conditions allow the tests should be scheduled in this sequence. In the event tests cannot be scheduled within three hours of the Federal Emission Test Procedure (including the one hour hot soak evaporative loss test, if applicable) the vehicle should be preconditioned as follows:

(1) If the vehicle has experienced between three (3) and twenty-four (24) hours of soak (68°-86° F) since the completion of the Federal Emission Test Procedure, the vehicle must be preconditioned by running 50 mph on the dynamometer for 5 minutes, followed by the Highway Fuel Economy Dynamometer Procedure described in paragraph (f).

(2) If the vehicle has experienced more than 24 hours of soak (68°-86° F) since the completion of the Federal Emission Test Procedure, or perhaps of storage outdoors, or in environments where soak temperature is not controlled to 68°-86° F the vehicle must be preconditioned by running one hour on the Road Preconditioning Route, (§86-8(a) (1)) and one cycle of the EPA Urban Dynamometer Driving Schedule (§86.177-10) followed by the Highway Fuel Economy Dynamometer Procedure-paragraph (f).

(f) Highway Fuel Economy Dynamometer Procedure. (1) The dynamometer procedure consists of two cycles of the Highway Fuel Economy Driving Schedule (§ 600.609-77(b)) separated by 15 seconds of idle. The first cycle of the Highway Fuel Economy Driving Schedule is driven to precondition the test vehicle and the second is driven for the fuel economy measurement.

(2) The provisions of § 86-177-11 (b), (c), (d), (e), (f), (h), and (j) apply for fuel economy testing, except that the test vehicle may be used for dynamometer horsepower adjustment, subparagraph (j).

(3) Only one exhaust sample and one background sample are collected and analyzed for hydrocarbons (except diesel hydrocarbons which are analyzed continuously), carbon monoxide, and carbon dioxide.

(4) The fuel economy measurement cycle of the test includes two seconds of idle indexed at the beginning of the second cycle and two seconds of idle indexed at the end of the second cycle.

(g) Engine Starting and Restarting. (1) If the engine is not operating at the initiation of the highway fuel economy test (preconditioning cycle), the start-up procedure must be according to the manufacturer's recommended procedures.

(2) False starts and stalls during the preconditioning cycle must be treated as in § 86.177-15 (d) and (e). If the vehicle stalls during the measurement cycle of the highway fuel economy test, the test is voided, corrective action may be taken,

and the vehicle may be rescheduled for testing. The person taking the corrective action shall report the action so that the test records for the vehicle contain a record of the action.

(h) Dynamometer Test Run—The following steps must be taken for each test:

(1) Place the drive wheels of the vehicle on the dynamometer. The vehicle may be driven onto the dynamometer.

(2) Open the vehicle engine compartment cover and position the cooling fan(s) as required. Manufacturers may request the use of additional cooling fans for additional engine compartment or under-vehicle cooling and for controlling high tire or brake temperatures during dynamometer operation.

(3) Preparation of the Constant Volume Sampler (CVS) must be performed before the measurement highway driving cycle.

(4) Equipment preparation—The provisions of § 86.177-20(b) (3) through (6) inclusive apply for the highway fuel economy test except that only one exhaust sample collection bag and one dilution air sample collection bag need be connected to the sample collection systems.

(5) Operate the vehicle over one Highway Fuel Economy Driving Schedule cycle according to the dynamometer driving schedule specified in § 600.609-77(b).

(6) When the vehicle reaches zero speed at the end of the preconditioning cycle, the driver has 13 seconds to prepare for the emission measurement cycle of the test.

(7) Operate the vehicle over one Highway Fuel Economy Driving Schedule cycle according to the dynamometer driving schedule specified in § 600.609-77(b) while sampling the exhaust gas.

(8) Sampling must begin two seconds before beginning the first acceleration of the fuel economy measurement cycle and must end two seconds after the end of the deceleration to zero.

##### § 600.612-77 Exhaust sample analysis.

The exhaust sample analysis must be performed according to § 86.177-19(b).

##### § 600.613-77 Fuel economy calculations.

The calculations of vehicle fuel economy values require the weighted grams/mile values for HC, CO, and CO<sub>2</sub> for the city fuel economy test and the grams/mile values for HC, CO, and CO<sub>2</sub> for the highway fuel economy test. The city and highway fuel economy values must be calculated by the procedures of this section. A sample calculation appears in Appendix II.

(a) Calculate the weighted grams/mile values for the city fuel economy test for HC, CO, and CO<sub>2</sub> as specified in § 86.177-22.

(b) (1) Calculate the mass values for the highway fuel economy test for HC, CO, and CO<sub>2</sub> as specified in § 86.177-22(b).

(2) Calculate the grams/mile values for the highway fuel economy test for

## PROPOSED RULES

HC, CO, and CO<sub>2</sub> by dividing the mass values obtained in (b) (1) by 10,242 miles.

(c) Calculate the city fuel economy and highway fuel economy values from the grams/mile values for HC, CO, and CO<sub>2</sub>. The HC values (obtained per paragraph (a) or (b) as applicable) used in each calculation in this section are rounded to the nearest 0.01 grams/mile. The CO values (obtained per paragraph (a) or (b) as applicable) used in each calculation in this section are rounded to 0.1 grams/mile. The CO<sub>2</sub> values (obtained per paragraph (a) or (b) as applicable) used in each calculation in this section are rounded to the nearest gram/mile.

(d) For gasoline-fueled automobiles, calculate the fuel economy in miles per gallon of gasoline by dividing 2421 by the sum of three items:

(1) 0.866 multiplied by HC (in grams/mile as obtained in paragraph (c)),

(2) 0.429 multiplied by CO (in grams/mile as obtained in paragraph (c)), and

(3) 0.273 multiplied by CO<sub>2</sub> (in grams/mile as obtained in paragraph (c)). Round the quotient to the nearest 0.1 mile per gallon.

(e) For diesel powered automobiles, calculate the fuel economy in miles per gallon of diesel fuel by dividing 2778 by the sum of three terms:

(1) 0.866 multiplied by HC (in grams/mile as obtained in paragraph (c)),

(2) 0.429 multiplied by CO (in grams/mile as obtained in paragraph (c)), and

(3) 0.273 multiplied by CO<sub>2</sub> (in grams/mile as obtained in paragraph (c)). Round the quotient to the nearest 0.1 mile per gallon.

APRIL 22, 1974

## PROPOSED RULES

	Miles per gal- lon
3,500 lb manual transmission	16.1
3,500 lb automatic transmission	15.9
4,000 lb automatic transmission	13.8
4,500 lb automatic transmission	13.2
5,000 lb automatic transmission	10.6

B. Since data from more than one vehicle configuration are included in the 4000-pound, manual transmission base level, this fuel economy is harmonically averaged in proportion to the percentage of total sales of all vehicle configurations tested within that base level represented by each vehicle configuration tested within that base level.

Base Level	Fuel-Economy	Fraction of total sales of configurations tested represented by configuration No. 1 sales	Configuration No. 1 fuel economy	Fraction of total sales of configurations tested represented by configuration No. 2 sales	Configuration No. 2 fuel economy	...
------------	--------------	---	----------------------------------	---	----------------------------------	-----

Base Level: Manual, 4000 pounds	1	10000	1	15000	1	14.7 MPG
		25000	14.2	25000	1.50	

Therefore, the 4000 pound, manual transmission fuel economy is 14.7 MPG.

4000 pound/manual transmission = 14.7 MPG

Note that the car line of the test vehicle using a given engine makes no difference—only the weight and transmission do.

Step IV. For each model type offered by the manufacturer with that basic engine, determine the sales percent represented by each inertia weight/transmission class combination and the corresponding fuel economy.

Ajax:	Manual—100 pct at 3,500 lb	16.1
	Automatic—30 pct at 3,500 lb	15.9
	Automatic—70 pct at 4,000 lb	13.8
Dodo:	Manual—10 pct at 3,500 lb	16.1
	Manual—60 pct at 4,000 lb	14.7
	Automatic—30 pct at 3,500 lb	15.9
	Automatic—70 pct at 4,000 lb	13.8
Boredom III:	Manual—100 pct at 4,000 lb	14.7
	Automatic—35 pct at 4,000 lb	13.8
	Automatic—75 pct at 4,500 lb	13.2
Caster:	Automatic—20 pct at 4,500 lb	13.2
	Automatic—80 pct at 5,000 lb	10.6

Step V. Determine fuel economy for each model type (that is, car line/basic engine/transmission class combination).

$$\text{Ajax, 300-2 barrel, automatic, MPG} = \frac{1}{\left[30.00 \left(\frac{1}{15.9}\right) + 70.00 \left(\frac{1}{13.8}\right)\right] \div 100} = 14.4 \text{ MPG}$$

The percent of Ajax vehicles using the specific engine which fall in the 3500-pound automatic transmission class

Similarly,

$$\text{Ajax, 300-2 barrel, manual MPG} = 16.1 \text{ 16 MPG*}$$

$$\text{Dodo, 300-2 barrel, manual MPG} = \frac{1}{\left[40.00 \left(\frac{1}{16.1}\right) + 60.00 \left(\frac{1}{14.7}\right)\right] \div 100} = 15.2, 15 \text{ MPG*}$$

$$\text{Dodo, 300-2 barrel, automatic MPG} = \frac{1}{\left[30.00 \left(\frac{1}{15.9}\right) + 70.00 \left(\frac{1}{13.8}\right)\right] \div 100} = 14.4, 14 \text{ MPG*}$$

$$\text{Boredom III, 300-2 barrel, manual MPG} = 14.7, 15 \text{ MPG*}$$

$$\text{Boredom III, 300-2 barrel, automatic MPG} = \frac{1}{\left[25.00 \left(\frac{1}{13.8}\right) + 75.00 \left(\frac{1}{13.2}\right)\right] \div 100} = 13.3, 13 \text{ MPG*}$$

$$\text{Caster, 300-2 barrel, automatic MPG} = \frac{1}{\left[20.00 \left(\frac{1}{13.2}\right) + 80.00 \left(\frac{1}{10.6}\right)\right] \div 100} = 11.0, 11 \text{ MPG*}$$

Note that even though no Dodo was actually tested, this approach permits its fuel economy figure to be estimated, based on the inertia weight distribution of projected Dodo sales within a specific engine and transmission grouping.

\* The model type fuel economy values, rounded to the nearest mile per gallon, are the fuel economy values as used on general labels for that model year.

## PROPOSED RULES

## APPENDIX IV.—SAMPLE FUEL ECONOMY LABEL FORMATS

The following sample fuel economy labels represent formats and language which would be approved by the Administrator for various labeling schemes. Of course, the actual vehicle description, vehicle class, fuel economy values, and annual fuel costs would correspond to the appropriate information approved for the labeled vehicle. Additionally, the range of combined fuel economy, the effective date of the range, the fuel cost per gallon, and the miles driven per year would be as specified by the Administrator at the time of label approval.

## GENERAL LABEL WITH RANGE

Based on the results of tests conducted or certified by the U.S. Environmental Protection Agency, the typical gas mileage of this car is estimated to be:

Vehicle: Ajax, 8 cylinder, 300 cubic inch displacement, 2 barrel carburetor, automatic transmission, catalyst equipped

10 miles per gallon for city driving  
16 miles per gallon for highway driving and  
14 miles per gallon for combined city and highway driving

As of October 15, 1976, the combined city and highway fuel economy for other Class A vehicles ranged from 8 to 20 miles per gallon.

Based on \$.65 per gallon, 10,000 miles driven per year, and an average combined fuel economy of 14 miles per gallon, the estimated annual fuel cost for this vehicle is \$464.

These estimates are based on tests of vehicles equipped with frequently purchased optional equipment.

Reminder: The actual fuel economy of this car will vary depending on the type of driving you do, your driving habits, how well you maintain your car, optional equipment installed and used, and road and weather conditions.

To compare the fuel economy of this car with other 1977 cars, and to learn how the tests were conducted, ask your dealer for a free copy of the EPA/FEA "1977 Gas Mileage Guide for New Car Buyers."

Based on the results of tests conducted or certified by the U.S. Environmental Protection Agency, the typical gas mileage of this car is estimated to be:

Vehicle: Ajax, 8 cylinder, 300 cubic inch displacement, 2 barrel carburetor, automatic transmission, catalyst equipped

10 miles per gallon for city driving  
16 miles per gallon for highway driving and  
14 miles per gallon for combined city and highway driving

As of the date this vehicle was built (or imported), a range of combined city and highway fuel economy for Class A vehicles was not available.

Based on \$.65 per gallon, 10,000 miles driven per year, and an average combined fuel economy of 14 miles per gallon, the estimated annual fuel cost for this vehicle is \$464.

These estimates are based on tests of vehicles equipped with frequently purchased optional equipment.

Reminder: The actual fuel economy of this car will vary depending on the type of driving you do, your driving habits, how well you maintain your car, optional equipment installed and used, and road and weather conditions.

To compare the fuel economy of this car with other 1977 cars, and to learn how the tests were conducted, ask your dealer for a free copy of the EPA/FEA "1977 Gas Mileage Guide for New Car Buyers."

Based on the results of tests conducted or certified by the U.S. Environmental Protection Agency, the typical gas mileage of this car is estimated to be:

Vehicle: Ajax, 8 cylinder, 300 cubic inch displacement, 2 barrel carburetor, automatic transmission, catalyst equipped, California emission control system

10 miles per gallon for city driving  
16 miles per gallon for highway driving and  
14 miles per gallon for combined city and highway driving

As of October 15, 1976, the combined city and highway fuel economy for other Class A vehicles ranged from 8 to 20 miles per gallon.

Based on \$.65 per gallon, 10,000 miles driven per year, and an average combined fuel economy of 14 miles per gallon, the estimated annual fuel cost for this vehicle is \$464.

These estimates are based on tests of vehicles equipped with frequently purchased optional equipment.

Reminder: The actual fuel economy of this car will vary depending on the type of driving you do, your driving habits, how well you maintain your car, optional equipment installed and used, and road and weather conditions.

To compare the fuel economy of this car with other 1977 cars, and to learn how the tests were conducted, ask your dealer for a free copy of the EPA/FEA "1977 Gas Mileage Guide for New Car Buyers."

Based on the results of tests conducted or certified by the U.S. Environmental Protection Agency, the typical gas mileage of this car is estimated to be:

Vehicle: Ajax, 8 cylinder, 300 cubic inch displacement, 2 barrel carburetor, automatic transmission, catalyst equipped, 4,000 pounds test weight, 3.02 axle ratio

10 miles per gallon for city driving  
16 miles per gallon for highway driving and  
14 miles per gallon for combined city and highway driving

These fuel economy numbers are from tests of this vehicle configuration and may not be in the EPA/FEA Buyer's Guide.

As of October 15, 1976, the combined city and highway fuel economy for other Class A vehicles ranged from 8 to 20 miles per gallon. The range on this label is based upon average fuel economy results, and does not reflect the range of tests of specific vehicle configurations.

Based on \$.65 per gallon, 10,000 miles driven per year, and an average combined fuel economy of 14 miles per gallon, the estimated annual fuel cost for this vehicle is \$464.

These estimates are based on tests of vehicles equipped with frequently purchased optional equipment.

Reminder: The actual fuel economy of this car will vary depending on the type of driving you do, your driving habits, how well you maintain your car, optional equipment installed and used, and road and weather conditions.

To compare the fuel economy of this car with other 1977 cars, and to learn how the tests were conducted, ask your dealer for a free copy of the EPA/FEA "1977 Gas Mileage Guide for New Car Buyers".

PART III:

## **DEPARTMENT OF LABOR**

**Employment Standards  
Administration**

■

**Minimum Wages for Federal  
and Federally Assisted  
Construction**

**General Wage Determination Decisions**

V41100

MAY 21

76  
UMI

**DEPARTMENT OF LABOR**  
**Employment Standards Administration**  
**MINIMUM WAGES FOR FEDERAL AND**  
**FEDERALLY ASSISTED CONSTRUCTION**  
**General Wage Determination Decisions**

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders, 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

**MODIFICATIONS AND SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS**

Modifications and Supersedes Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedes Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

**NEW GENERAL WAGE DETERMINATION DECISIONS**

Illinois ----- IL76-2063  
 Minnesota ----- MN76-2064  
 Washington, D.C. ----- DC76-3171

**MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS**

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

Alabama: AL75-1073 ----- Aug. 8, 1975.  
 AL76-1030 ----- Feb. 27, 1976.  
 AL76-1047 ----- Apr. 9, 1976.  
 AL76-1049 ----- Apr. 16, 1976.

Colorado: CO76-5034 ----- Do.  
 Connecticut: CT76-2042; CT76-2043 ----- Apr. 2, 1976.  
 Delaware: DE76-3092 ----- Aug. 22, 1975.  
 Georgia: GA76-1039 ----- Mar. 12, 1976.  
 Hawaii: HI76-5013 ----- Jan. 30, 1976.  
 Nevada: NV75-5005 ----- Jan. 16, 1976.  
 New Hampshire: NH75-2096; NH75-2097; NH76-2099 ----- July 18, 1975.

DECISION NO. C076-5042

DECISION NO. C076-5042

LABORERS (Heavy Construction)

Group 1: Minimum Labor, including Calissons to 8'; Carrying Reinforcing Rods; Work on Cross Culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence Erectors; Metal Mesh; Dowel Bars; Tie Bars and Chairs in concrete paving; Flagman directing traffic; Nursery Man including seeding, mulching and planting of trees, shrubs and flowers; Stake Chaser; Gabion Baskets and Reno Mattresses; Pipe plants and yards, stringing of pipe or skids, handling and signaling on pipe line work

Group 2: Chuck Tenders, Nippers, Core and Diamond Drill Helpers, Powdermen Helpers; Hot Asphalt Labor, Rakers, Boxtenders, Asphalt Gurb Machines, Potmen (not mechanical); Multi-plate Culvert Pipe; Air, gas and electrical Tool Operators; Barco Hammers; Spaders, electric hammers; Air Tampers; Cutting Torches on demolition work; Calissons 8' to 12'; Cofferdams; Power operated Concrete Bugles; Operators of concrete saws on pavement (other than gang saws); Timber and Chain Saws; Stresser or Stretcherman on Post Tension or Prestressed Concrete on or off jobsite; Tool Room Man and Checkers; Cement Finisher Helper; Sand Blaster; Sand Blaster Helper; Concrete processing material; Monitor; Spotters; Signalmen; Dumpmen; Transverse Concrete Conveyor Operator; Mechanical Graders; Boring Machine (air hydraulic); Automatic Concrete Power Curbing Machine; Jack Hammer; Vibrators; Paving Breakers; Frostproofing; Any laborer performing bridge work over 40' above the ground or above a floor and working from a Bos'n Chair; Swing Stage, Life Belt or Block and Tackle as a safety requirement. All lines Guniting and Shotcrete Helpers; Calissons over 12'; Scalars; Timbermen, underpinning and shoring; Form-setters and/or stringmen on roads, highways, streets and airport runways; Distribution, placing and hooking of landing mats; Bull Float (hand operated) and Center Expansion Machines; Grade Checkers if required by employer; Pipe Wrappers; Dopers; Jeep Holiday Detector Men, Bandage Makers; Laborers working in trenches on all pipe lines, sewer, water, gas, oil, telephone conduit, Pen Stock, Siphons, drainage lines, Caulkers, Yarners, Fine Graders, air, gas, electric and hydraulic tools, Boring Machines, Hydraulic Jacks, Drills, Tampers, and similar operated tools; Wiping of Joint Concrete Pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

LABORERS (Cont'd)

Group 3: Powdermen and Blasters; Gunitite Nozzlemen; Shotcrete Operator; Pipe Layer on truck pipe lines in connection with highway work Relining Pipe; Mixer Man; Pipelayar; Hydro-broom

Group 4: Wagon Drills and Air Tracks; Jack Hammer Operators in Calissons over 12'; Bellers and Stemmen; Licensed Powdermen; Diamond and Core Drills powered by air.

Group 5: Any work, other than on bridges, performed by Laborers working from a Bos'n Chair, Swing Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Plugs and Galleys in Dams

LABORERS (Tunnels)

Group 1: Outside Labor

Group 2: Minimum Tunnel Labor, Dry Houseman

Group 3: Cable or Hose Tenders, Chuck Tenders, Concrete Laborers, Dumpmen, Whirley Pump Operators

Group 4: Helpers on Shotcrete, Guniting and Sand Blasting; Helpers, Core and Diamond Drills; Pot Tenders

Group 5: Cement Finisher Helper, applying of concrete processing materials

Group 6: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Tunnel Liner Plate Setters; Vibrator Men; Internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and Core Drill Operators; Cement Finisher (underground); Shotcrete Operator; Gunitite Nozzlemen, Sand Blasters, Pump Concrete placement Men

(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen and Cagers

Group 2: Chucktenders, Concrete Laborers, Whirley Pump Operators

FEDERAL REGISTER, VOL. 41, NO. 100—FRIDAY, MAY 21, 1976

POWER EQUIPMENT OPERATORS

(Other than for work in tunnels, shafts and raises)

- Group 1: Air Compressor; Asphalt Screed; Oiler; Brakeman; Drill Operator - similar than Williams MF and similar; Helmer to Heavy Duty Machine and/or Welder; Operators of 5 or more light plants, welding machines, generators, single unit conveyor; Pumps; Vacuum well point system; tractor, under 70 HP with or without attachments
- Group 2: Conveyor, handling building materials; Ditch Witch and similar trenching machine; Fireman or tank heater, road; Forklift; Haulage motor man; Pugmill; portable screening plant with or without a spray bar; screening plants, with classifier; self-propelled roller, rubber tired under 5 tons;
- Group 3: Asphalt Plant; Backfiller, Bituminous spreader or laydown machine; Cableway signalman; Colson drill; Williams MF, similar and larger; C.M.I. and similar; Concrete Batching Plants; Concrete finish Machine; Concrete Gang Saws on concrete paving; Concrete Mixer, less than 1 yd.; Concrete Placement Pumps, under 8 inches; Distributors, bituminous surfaces; Drill, diamond or core; Drill Rigs, rotary, churn, or cable tool; Elevating Graders, Equipment Lubricating and service Engineer; Engineer Fireman; Grout Machine; Gunnite Machine; Hoists, 1 drum; Hydraulic Backhoes, wheel mounted under 3/4 yd.; Loader, Barber Green, etc.; Loader up to and including 6 cu. yds.; Machine Doctor, Mechanic; Motor Grader/Blade, rough; Road Stabilization Machine; Rollers, self-propelled, all types over 5 tons; Sandblasting Machine; single unit portable crusher, with or without washer; tie tamper, wheel mounted; Tractor, 70 HP and over with or without attachments; Trenching Machine Operator; Welder; winch on truck
- Group 4: Cable operated crane, track mounted; cable operated power shovels, Draglines, clamshells, and backhoes, 5 cu. yds. and under; Concrete Mixer over 1 cu. yd.; Concrete Paver 348 or similar; Concrete placement pumps, 8 inches and over; crane, 50 tons and under; Hoist, 2 drums; Hydraulic Backhoe, 3/4 yd. and over; Loader, over 6 cu. yds.; Mechanic-welder, heavy duty; Mixer mobile; Motor Grader/blade, finish; Multiple unit portable crusher, with or without washer; Piledriver; Scrapers, single bowl under 40 cu. yds.; Self-propelled Hydraulic Crane; tractor with sideboom; truck mounted Hydraulic Crane
- Group 5: Cable operated Power Shovels, Draglines, Clamshells and Backhoes over 5 cu. yds.; Crane, over 50 tons carrier mounted; Derrick; Electric rail type tower crane; Hoist, 3 drum or more; Quad Mine and similar push unit; Scrapers - single bowl including pups 40 cu. yds. and tandem bowls and over
- Group 6: Cableway; Climbing tower Crane; Crawler or Truck Mounted Tower Crane; Wheel Excavator, Tower Crane, Truck type

POWER EQUIPMENT OPERATORS (Cont'd)

- (For work in tunnels, shafts and raises)
- Group 1: Brakeman
- Group 2: Motorman
- Group 3: Compressor (900 CFM and over) serving tunnels, shafts and raises
- Group 4: Air Tractors; Grout Machine; Gunnite Machine; Jumbo Form; Mechanic; Welder
- Group 5: Concrete Placement Pumps, 8" and over discharge; Mechanic-Welder, heavy duty;ucking Machines and Front End Loaders, underground; Slusher; Mine Hoist Operator
- Group 6: Hole

LABORERS (Cont'd)  
Building Construction

GROUP DESCRIPTION FOR ALL COUNTIES

Group 1: Watchmen tending Heaters and Pumps

Group 2: Building Construction Laborer

Group 3: Laborers - Underpinning and Shoring eight (8) feet or more below working surface.  
Power Tool Operators of all mechanical, air, gas and electrical tools, including Self-propelled Buggies and Cement Finishers Tenders. Laborers preparing and placing of stone or any other Aggregate in sand bed to be used as exposed face of tilt-up panels.  
Burners on Demolition and Welders, Gunnite Nozzlemen and Sandblasters.

Group 4: Pipelayers on Building Construction

Group 5: Jackhammer Operator for Underpinning and Shoring over twelve (12) feet below working surface, Bellers and Stemmers on Caisson Work.

Group 6: Tender, Mason and Plaster

HEAVY CONSTRUCTION

CARPENTERS:  
Carpenters

Underground Carpenters

Working on Cretosoted Material, High work 40' above ground or floor on exposed scaffold or boatwains chair; Pliedrivings; Sawmen continuously assigned to 1 1/2 HP saw at jobsite

(Heavy Construction)

Group 1: Minimum Labor, including Classons to 8'; Carrying Reinforcing Rods; Work on Cross Culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence Erectors; Metal Mesh; Dowel Bars; Tile Bars and Chairs in concrete paving; Flagmen directing traffic; Nursery Men including seedling, mulching and planting of trees, shrubs and flowers; Stake Chaser; Gabion Baskets and Reno Matresses; Pipe plants and yards, stringing of pipe or skids, handling and signaling on pipe line work

Group 1: Chuck Tenders, Nippers, Core and Diamond Drill Helpers, Powdermen Helpers; Hot Asphalt Labor, Packers, Boxtenders, Asphalt Curb Machines, Potters (not mechanical); Multi-plate Culvert Pipe; Air, gas and electrical tool Operators; Barco Hammers; Spaders, Electric Hammers; Air Tampers; Cutting Torches on demolition work; Caissons, 8' 10' 12'; Cofferdams; Power operated Concrete Buggies; Operators of concrete saws on pavement other than Gang saws; Timber and Chain Saws; Street Sweepermen on Post Tension or Prestressed Concrete on or off jobsite; Tool Room Men and Checkers; Cement Finisher Helper; Sand Blaster; Sand Blaster; Concrete processing material; Monitor; Spotters; Signalmen; Dumpmen; Transverse Concrete Conveyor Operator; Mechanical Grouters; Boring Machine (air, hydraulic); Automatic Concrete Curing Machine; Jack Hammers; Vibrators; Paving Breakers; Frostproofing; Any Laborer performing bridge work over 10' above the ground or above a floor and working from a Bos'n Chair; Swing Stage, Life Belt or Block and Tackle as a safety requirement; All ladders and safety belts used shall be of a type approved by State and Federal laws; Gunmiting and Shotcrete Helpers; Caissons over 12'; Scalets; Timbermen, underpinning and shoring; Form-setters and/or stringmen on roads, highways, streets and airport runways; Distribution, placement and hooking of landing mats; Bull Float (hand operated); Center Excavation Machines; Grade Checkers if required by employer; Pipe Wrappers; Dopers; Jeep Holiday Detector Men; Bandage Makers; Laborers working in trenches on all pipe lines, sewer, water, gas, oil, telephone conduit; Ben Stock, Siphons, drainage lines, Caulkers, Tanners, Fine Graders, air, gas, electric and hydraulic tools, Boring Machines, Hydraulic Jacks, Drills, Tampers and similar operated tools; Wiping of Joint Concrete Pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

Group 3: Powdermen and Blasters; Gunmite Nozzlemen; Shotcrete Operator; Pipe Layer on truck pipe lines in connection with highway work; Relining pipe; Mixer Man; Pipelayer; Hydro-broom

Group 4: Wagon Drills and Air Tracks; Jack Hammer Operators in Caissons over 12'; Bellers and Stemmen; Licensed Powdermen; Diamond and Core Drills powered by air

Group 5: Any work, other than on bridges, performed by Laborers working from a Bos'n Chair, Swing Stage, Life Belt or Block and Tackle as a safety requirement. All ladders and safety belts used shall be of a type approved by State and Federal laws; Plugs and Galleys in Dams

LABORERS (Cont'd)  
Building Construction

## GROUP DESCRIPTION FOR ALL COUNTIES

Group 1: Watchmen tending Heaters and Pumps

Group 2: Building Construction Laborer

Group 3: Laborers - Underpinning and Shoring eight (8) feet or more below working surface.  
Power Tool Operators of all mechanical, air, gas and electrical tools, including Self-propelled Buggies and Cement Finishers Tenders, Laborers preparing and placing of stone or any other Aggregate in sand bed to be used as exposed face of tilt-up panels.  
Burners on Demolition and Welders, Gunmite Nozzlemen and Sandblasters.

Group 4: Pipelayers on Building Construction

Group 5: Jackhammer Operator for Underpinning and Shoring over twelve (12) feet below working surface, Bellers and Stemmers on Caisson Work.

Group 6: Tender, Mason and Plaster

ZONE 1: That area encompassed by 0 to 30 driving miles from the main Post Office in each of the following Cities: Pueblo and Trinidad.

ZONE 2: That area encompassed by 30 to 70 driving miles from the main Post Office in the above named Cities

ZONE 3: That area encompassed by 70 driving miles and over from the main Post Office in the above named Cities

(Other than for work in Tunnels, Shafts and Raises)

Group 1: Air Compressor; Asphalt Screed; Oiler; Brakeman; Drill Operator - Smaller than Williams MF and similar; Helper to Heavy Duty Mechanic and/or Welder; Operator of all types of light plants, hoisting machines, conveyors, single unit conveyor; Pumps; Vacuum well point system; tractor, under 70 HP with or without attachments

Group 2: Conveyor, handling building materials; Ditch Witch and similar trenching machine; Fireman or tank heater, road; Forklift; Haulage motor man; Pugmill; portable screening plant with or without a spray bar; screening plants, with classifier; self-propelled Roller, Rubber tired under 5 tons;

Group 3: Asphalt plant; Backfiller; Bituminous spreader or laydown machine; Cableway signalman; calson drill; Williams MF, similar and larger; C.M.I. and similar; Concrete Batching Plants; Concrete finish Machine; Concrete Gang Saws on concrete paving; Concrete Mixer, less than 1 yd.; Concrete Placement Pumps, under 8 inches; Distributors, bituminous surfaces; Drill, diamond or core; Drill Rigs, rotary, churn, or cable tool; Elevating Graders, Equipment Lubricating and service Engineer; Engineer Fireman; Grout Machine; Gunnite Machine; Hoists, 1 drum; Hydraulic Backhoes, wheel mounted under 3/4 yd.; Loader, Barber Green, etc.; Loader up to and including 6 cu. yds.; Machine Doctor; Mechanic; Motor Grader/Blade, rough; Road Stabilization Machine; Rollers, self-propelled, all types over 5 tons; Sandblasting Machine; single unit portable crusher, with or without washer; tie tamper, wheel mounted; Tractor, 70 HP and over with or without attachments; Trenching Machine Operator; Welder; winch on truck

Group 4: Cable operated crane, track mounted; cable operated power shovels, Draglines, Clamshells, and backhoes, 5 cu. yds. and under; Concrete Mixer over 1 cu. yd.; Concrete Paver 34E or similar; Concrete placement pumps, 8 inches and over; crane, 50 tons and under; Hoist, 2 drums; Hydraulic Backhoe, 3/4 yd. and over; Loader, over 6 cu. yds.; Mechanic-welder, heavy duty; Mixer mobile; Motor Grader/blade, finish; Multiple unit portable crusher, with or without washer; Piledriver; Scrapers, single bowl under 40 cu. yds.; Self-propelled Hydraulic Crane; tractor with sideboom; truck mounted Hydraulic Crane

Group 5: Cable operated Power Shovels, Draglines, Clamshells and Backhoes over 5 cu. yds.; Crane, over 50 tons carrier mounted; Derrick; Electric rail type tower crane; Hoist, 3 drum or more; Quad Nine and similar push unit; Scrapers - single bowl including pups 40 cu. yds. and tandem bowls and over

Group 6: Cableway; Climbing Tower Crane; Crawler or Truck Mounted Tower Crane; Wheel Excavator, Tower Crane, Truck type

## NOTICES

DECISION NO. C076-5044

Page 12

POWER EQUIPMENT OPERATORS (Cont'd)  
(For work in Tunnels, Shafts and Raises)

Group 1: Brakeman

Group 2: Motorman

Group 3: Compressor (900 CFM and over) serving Tunnels, Shafts and Raises

Group 4: Air Tractors; Grout Machine; Gunnite Machine; Jumbo Form; Mechanic; Welder

Group 5: Concrete Placement Pumps, 8" and over discharge; Mechanic-Welder, heavy duty; Mucking Machines and Front End Loaders, underground; Slusher; Mine Hoist Operator

Group 6: Mole
